It is becoming clear that the number of people who are eligible for pension credit is somewhat less than the initial estimate. National Statistics showing the number of pensioners entitled to pension credit at a national level in the first six months after its introduction and the subsequent take-up rate are expected to be available in December. Information at constituency level will not be possible. The precise date of release of these statistics and the publication plans for the following set, covering 2004–05, will be pre-announced in "National Statistics Updates"; the diary of statistical releases.

Mr. Holloway: To ask the Secretary of State for Work and Pensions how many people in Gravesham constituency are *(a)* entitled to and *(b)* in receipt of pension credit. [28376]

Mr. Timms: Information on numbers of households and individuals in receipt of pension credit at 30 June 2005 is contained in the most recent quarterly pension credit progress report published on 20 October. A copy of the report is in the Library. The number of people in receipt of pension credit in the Gravesham constituency as at June 2005 is 4,800 individuals (3,900 households).

It is becoming clear that the number of people who are eligible for pension credit is somewhat less than the initial estimate. National statistics showing the number of pensioners entitled to pension credit at a national level in the first six months after its introduction and the subsequent take-up rate are expected to be available in December. Information at constituency level will not be possible. The precise date of release of these statistics and the publication plans for the following set, covering 2004–05, will be pre-announced in "National Statistics Updates"; the diary of statistical releases.

Sir Malcolm Rifkind: To ask the Secretary of State for Work and Pensions (1) how many pensioners received means-tested benefits *(a)* in the latest period for which figures are available and *(b)* in the equivalent period in 1997, broken down by sex; [25059]

(2) what his latest estimate is of the number of *(a)* women and *(b)* men who rely on means-tested benefits in retirement; and what this figure was in 1997. [27976]

Mr. Timms: The available information is provided in the Table.

Pensioners on income-related benefits by gender: Great Britain, May 1997 and May 2004

	May 1997	May 2004
All	3,160,000	2,690,000
Male	n/a	970,000
Female	n/a	1,700,000
Unknown	n/a	20,000

Notes:
1. n/a = not available. This Information was only collected from May 2004 onwards.
2. Figures are rounded to the nearest 10 thousand and are subject to a degree of sampling variation.
3. Figures refer to cases where a claimant and/or partner is aged 60 and over. Therefore will contain some claimants aged under 60 where there is a partner aged over 60 years.
4. Income-related benefits are housing benefit/council tax benefit/ income support (in 1997)/pension credit (guarantee credit) (in 2004)/income-based jobseeker's allowance recipients with all overlaps removed. Savings credit only claimants of pension credit have not been included in the 2004 figures.

Housing Benefit and Council Tax Benefit Management Information System, Annual 1 per cent. sample, taken in May 2004

Pensions

Keith Vaz: To ask the Secretary of State for Work and Pensions what steps the Government are taking to reduce the inequality in pensions between men and women at the point of retirement. [26544]

Mr. Timms: Pension credit has helped to reduce the number of pensioners living in absolute low income, with 1.3 million female pensioners lifted above absolute low income since 1997. Two-thirds of the 3.3 million people benefiting from pension credit are women. Future women pensioners will also benefit from the

introduction of state second pension, with 6 million more women building up additional state pension than did under SERPS.

The introduction of Home Responsibilities Protection in 1978, together with women's increased labour market activity, mean that women are building up better pension records. In 2005, 30 per cent. of women reaching state pension age are entitled to a full basic state pension. Without any policy changes, this will rise to 50 per cent. by 2010 and over 80 per cent. by 2025. By 2025, women and men will have similar basic state pension entitlements. The average entitlement will be over 90 per cent. of a full basic state pension for both men and women.

Women's increased labour market activity also means that more women are generating their own income, which can be invested in a private pension. Future women pensioners will retire with higher state and private pension incomes in their own right. However, the main driver in the difference between women's and men's retirement incomes is the difference in women's and men's private pension provision.

The report "Women and pensions: The evidence", published by the Department on 2 November 2005, examines the evolution of women's pensions and explores the reasons for the differences between men's and women's pension entitlements. The issue of women's pensions is central to the National Pensions Debate and the report provides a firm basis on which to build consensus on the way forward to achieve fair outcomes for women. The report also raises further questions for consideration alongside the work of the Pensions Commission.

Poverty

Chris Ruane: To ask the Secretary of State for Work and Pensions how many *(a)* children and *(b)* pensioners were living in poverty in the Vale of Clwyd in each of the last 20 years. [20321]

Margaret Hodge: Specific information regarding low income for Great Britain is available in "Households Below Average Income 1994–95 to 2003–04", available in the Library. The threshold of below 60 per cent. contemporary median income is the most commonly used in reporting trends in low income.

The data source does not allow us to provide robust estimates for Vale of Clwyd. Estimates for Wales have been provided using data from 1994–95 to 2003–04.

The number and proportion of children in households with low incomes in Wales over the period 1994–95 to 2003–04, are presented in the following table. Data on a regional level is not available prior to 1994–95.

	Three-year rolling averages							
	1994–95 to 1996–97	*1995–96 to 1997–98*	*1996–97 to 1998–99*	*1997–98 to 1999–2000*	*1998–99 to 2000–01*	*1999–2000 to 2001–02*	*2000–01 to 2002–03*	*2001–02 to 2003–04*
Before housing costs								
Number of children (million)	0.18	0.19	0.18	0.18	0.18	0.17	0.16	0.15
Percentage of all children	28	28	28	28	27	25	25	23
After housing costs								
Number of children (million)	0.23	0.23	0.23	0.23	0.23	0.21	0.20	0.19
Percentage of all children	35	36	34	35	34	33	32	29

Family Resources Survey

The number and proportion of pensioners in households with low incomes in Wales over the period 1994–95 to 2003–04, are presented in the following table:

	Three-year rolling averages							
	1994–95 to 1996–97	*1995–96 to 1997–98*	*1996–97 to 1998–99*	*1997–98 to 1999–2000*	*1998–99 to 2000–01*	*1999–2000 to 2001–02*	*2000–01 to 2002–03*	*2001–02 to 2003–04*
Before housing costs								
Number of pensioners (million)	0.14	0.13	0.13	0.14	0.14	0.13	0.12	0.13
Percentage of all pensioners	24	24	24	25	24	23	22	23
After housing costs								
Number of pensioners (million)	0.14	0.14	0.14	0.14	0.13	0.13	0.12	0.12
Percentage of all pensioners	24	25	25	25	24	23	21	21

Note:
1. Figures are provided using a three-year rolled average, as single-year estimates do not provide a robust guide to year on year changes. Hence, figures are not consistent with previously published single-year estimates and there may be differences in changes over time. In circumstances such as a change in trend, rolled-averages will show less variation than single year estimates.
Source:
Family Resources Survey
2. Tables show the number of children/pensioners in millions rounded to the nearest 10 thousand, and percentages to the nearest percentage point.
3. In this answer low income is determined for individuals as living in households with incomes below 60 per cent. of the GB median.

Regeneration (Burslem)

Joan Walley: To ask the Secretary of State for Work and Pensions if he will make a statement on the Department's contribution to economic regeneration in Burslem. [21834]

Margaret Hodge: Since 1997, in the Stoke-on-Trent, North constituency, the number of people claiming jobseeker's allowance has fallen by 24 per cent. and long term unemployment by 78 per cent. The New Deal has helped 2,010 people in to work, including 810 in Burslem.

Jobcentre Plus is an active member of the North Staffordshire Regeneration Zone working groups. The Regeneration Zone arrangement in Staffordshire is one of the delivery mechanisms funded by the regional development agency (RDA), Advantage West Midlands (AWM), through its Regional Economic Strategy. We have contributed to the Zone Implementation Plan (ZIP) on areas such as tackling worklessness, upskilling and work force development.

A range of projects, instigated by the Regeneration Zone and actively supported by Jobcentre Plus, have been designed to have a positive impact on the economic regeneration of the Burslem area:

Construction College, Burslem: This is due to open soon as a centre of excellence for construction skills. Jobcentre Plus will look to utilise the facilities to train unemployed adults in construction skills to enable them to take advantage of the new jobs arising out of the Housing Market Renewal funding, much of which is in the Burslem area;

CATU project: This is part funded by the Regeneration Zone and supported by Jobcentre Plus. This project is in place to help redundant workers, mainly from the pottery industry, back to work. The project management work closely with Jobcentre Plus to ensure redundant workers receive full support;

Early Entry to Work Based Learning: This is designed to help recently redundant workers to start up in business, supported by Jobcentre Plus and is available to residents in the Burslem area;

Enterprise Centre phase 2 in Burslem: This is a project funded by the Regeneration Zone and supported by Jobcentre Plus to encourage Small and Medium Employer (SME) development in Burslem.

LAA (Local Area Agreements): Jobcentre Plus is currently working closely with the Regeneration Zone on submitting Growth Initiative proposals around projects to help disadvantaged groups across the city of Stoke on Trent, including Burslem. This will include ideas similar to and based on the Working Neighbourhoods Project operated by Jobcentre Plus.

Neighbourhood Renewal: Jobcentre Plus has also contributed to and worked closely with a number of initiatives across Stoke on Trent that are also active in Burslem and funded by Neighbourhood Renewal monies etc. These include:

LEAP (Learning and Employment Action Plan) project: This is an initiative to support and train workless groups across the city of Stoke on Trent, concentrating in deprived wards such as Burslem, using mentors etc. to help individuals who have been out of work for many years back into the labour market. Jobcentre Plus worked on the design and is giving ongoing support to the project;

STACE (Skills, Training and Community Employment): Jobcentre Plus helped to design and develop this project that looks to help the hardest to help groups, such as clients claiming incapacity benefit, back into work. This project is a project across the city of Stoke on Trent;

Housing Market Renewal in Burslem: Jobcentre Plus is an active member of various construction skills steering groups that have a particular focus on the disadvantaged and are looking to upskill the local work force. This then enables them to take advantage of the growth in construction employment that will arise from Housing Market Renewal. As Burslem is seen as a Heritage Area, the majority of the Regeneration Zone activity relates to capital projects which will improve the area and thus encourage more inward investment that will bring employment to the area.

Connexions: There is currently an adviser based within Burslem Jobcentre at least one day each week offering help to customers with interview skills and the construction of CVs. Additionally, the Environmental Task Force option is available to New Deal customers. This is primarily placement work carrying out, for example, general repairs to canals, labouring and reclamation work. The provider is called Groundwork.

Service Efficiency Targets

Mr. Boswell: To ask the Secretary of State for Work and Pensions if he will make a statement on compliance by his Department with service efficiency targets with particular reference to time taken to handle claims from jobseekers. [26818]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie to Mr. Tim Boswell, dated 17 November 2005:

The Secretary of State has asked me to reply to your question concerning compliance with service efficiency targets with particular reference to time taken to handle claims from jobseekers. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus sets internal performance measures for managing its workloads in addition to the published targets set by Ministers. These internal measures include clearance times for Jobseeker's Allowance (JSA).

The appropriate Key Management Indicator requires new JSA claims to be processed within an average of 12 days.

The current average clearance time for JSA new claims is 13.5 days with the eleven regions ranging from 10.1 days to 17.7 days. In month average clearance times have increased from 12.4 days in April to 14.7 days in September.

Jobcentre Plus has put measures in place to address this decline in performance. This includes temporary adjustments to the claim taking process and the movement of resources to improve the rate of initial telephone contact and customer service.

We are already seeing improvements following these measures. Contact Centres are now well on their way to meeting their target of answering 90% of calls and we are confident that this improvement will have a beneficial impact on the average clearance times quoted above.

I hope this is helpful.

FOREIGN AND COMMONWEALTH AFFAIRS

Arms Trade

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the percentage of British *(a)* produced and *(b)* brokered arms which are used to commit human rights abuses. [28910]

Ian Pearson: The Foreign and Commonwealth Office (FCO) has not carried out such an assessment. It would be extremely difficult and resource intensive to attempt an assessment of the origin of arms and other equipment used in the commission of human rights abuses.

In order to minimise the risk that any export might be used for internal repression, we rigorously judge each export licence application against the Consolidated EU and National Arms Export Licensing Criteria. Where

there was a clear risk that the proposed export might be used for internal repression or human rights abuses, the FCO would recommend to the Department of Trade and Industry (as the Licensing Authority) that the application be refused.

Burma

Mr. Clappison: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the Burmese Government's decision to move the seat of government from Rangoon to Pyinmana; what response he plans to make to this decision; what discussions he has had with other Governments concerning this decision; and what steps he plans to take to support human rights in Burma. [28479]

Ian Pearson: Diplomatic missions in Rangoon were formally notified of the Burmese authorities' decision to relocate the seat of administration to Pyinmana on 7 November. The State Peace and Development Council claims that moving to a more central location will enable the Government to carry out the development of the whole nation more effectively. Although it is too early to assess the full impact of the move, we are in close touch with international partners in Rangoon over these developments.

We are actively working with our European and international partners, as well as through the United Nations and its agencies, to press the Burmese authorities to end their appalling human rights violations and to engage in a genuine process of national reconciliation involving all political parties and ethnic groups in Burma.

We regularly raise our concerns over human rights with the Burmese authorities, most recently when our ambassador in Rangoon met the Burmese Foreign and Labour Ministers on 31 October.

Call Centres

Mr. Laws: To ask the Secretary of State for Foreign and Commonwealth Affairs how many call centres were run by his Department and its agencies in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date; and how many and what proportion of calls (i) were handled by an adviser, (ii) were received but abandoned and (iii) received an engaged tone. [23302]

Mr. Straw: The Foreign and Commonwealth Office (FCO) does not run any call centres which deal directly with the public. The FCO routinely uses commercial call centres for information on travel advice, UK visas and passports. Outside call centres, including police facilities, are used in consular emergencies when the number of calls or likely calls exceeds FCO staff capacity in relevant departments of the office.

China

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the *(a)* occasions and *(b)* dates when he has raised the issue of human rights in (i) Tibet and (ii) China with members of the Chinese government in the last three years. [27653]

Ian Pearson: I refer the hon. Member to the answer I gave on 15 November 2005, *Official Report*, column 1181W.

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what is his assessment of the degree of compliance by China with the International Covenant on Civil and Political Rights; and if he will make a statement. [28401]

Mr. Straw: We welcome China's work towards ratification of the International Covenant on Civil and Political Rights (ICCPR). We regularly encourage China to invest more effort in bringing itself into compliance with the ICCPR. The UK will host a joint EU-China ICCPR ratification seminar in December.

Farm Subsidies

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs whether an agreement has been reached on farm subsidies in Bulgaria and Romania in anticipation of their accession to the European Union in 2007; and whether the subsidies will be funded from the existing budget. [29140]

Mr. Douglas Alexander: Farm subsidy arrangements are set out in the Accession treaty between member states of the European Union (EU) and Bulgaria and Romania. In essence, the same arrangements that were applied to the 2004 Accession will apply to Bulgaria and Romania. Common Agricultural Policy direct payments will be phased in over a 10-year period, starting at 25 percent. of the level applicable to the EU 15 from the date of accession. Bulgaria and Romania have the option of making limited top-ups to phased in payments, mainly at national expense, and of adopting a simplified direct payment scheme for the first few years after accession.

The EU Commission estimate that direct payments and market measures for Bulgaria and Romania would amount to some €2.5 billion in total over the 2007–09 period (assuming that accession takes place on 1 January 2007), plus a further €3 billion for rural development. A decision on whether direct payments and market measures will be funded from within the ceilings agreed by Heads of Government in October 2002 will be taken as part of the current future financing negotiations.

Damages

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the 10 largest amounts of damages paid out by his Department in the last year for which figures are available, indicating in each case the nature of the claim. [27734]

Mr. Straw: The Foreign and Commonwealth Office paid out the following amounts in damages in the last 12 months. The nature of each claim is indicated.

Date	*Nature of claim*	*Damages (£)*
April 2005	Work related upper limb disorder	33,500
April 2005	Personal Injury Claim	22,000
December 2004	Work related upper limb disorder	4,500

Departmental Assets

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the 10 most valuable *(a)* movable and *(b)* immovable assets owned by his Department. [27375]

Mr. Straw: The 10 most valuable immoveable assets are listed at table 1. All items on the list are property assets comprising land and buildings.

The 10 most valuable moveable assets are listed at table 2.

IT installations have not been included within these lists. At 31 March 2005 the Foreign and Commonwealth Office had IT installations and equipment held at a written down value of £39,811,925, the bulk of which is written down over five years. This includes all capitalised IT installations and is a conglomerate of development costs, software and licences, cabling and hardware. Thus the total cost is a composite of moveable and immoveable items and does not belong to either category.

Table 1: top 10 immoveable assets—all property assets

Location	*Description of asset*	*Value (£)*
London	King Charles Street	50,000,000
Paris	35 Rue du Faubourg St	36,692,372
Moscow	Smolenskaya Compound	29,255,120
Paris	39 Rue du Faubourg St	27,735,404
Hong Kong	British Consulate	26,051,486
London	Old Admiralty Building	25,000,000
Rome	Residence	21,473,163
Rome	80 Via XX Septembre	16,641,243
Washington	3100 Massachusetts Ave	15,718,669
Tokyo	Tokyo Office	15,237,080

Notes:
1. Valuations produced by the Estates Department as at 31 March 2005.
2. Property coming within the bounds of a single compound has been treated as a single asset.

Table 2: top 10 moveable assets

Location	*Description of asset*	*Written down value (£)*	*Type of asset*	*Gross value (£)*
Hanslope Park	Generator	577,367.87	Heavy Machinery	607,755
Washington	Silver (set)	485,000.00	Antiques and Works of Art	485,000
Istanbul	2xChandeliers	350,000.00	Antiques and Works of Art	350,000
Hanslope Park	Generator	292,325.56	Heavy Machinery	307,715
Havana	Rug	130,000.00	Antiques and Works of Art	130,000
New Delhi	Jaguar XJ 4.2	120,000.00	Motor Car	120,000
Islamabad	Jaguar XJ 4.2	120,000.00	Motor Car	120,000
Cairo	Jaguar XJ 4.2	120,000.00	Motor Car	120,000
Iraq	Minibus	111,261.55	Light Commercial Vehicle	152,589
Iraq	Minibus	111,261.55	Light Commercial Vehicle	152,589

Notes:
1. Values as at 31 March 2005.
2. Antiques and works of art were professionally valued during the year. These assets are not depreciated.
3. All other assets listed in table 2 are shown at the written down (depreciated) value. The gross value (purchase cost plus indexed inflation cost) is shown for comparative purpose.
4. The high cost of the vehicles is because they are all armoured.
5. For the purpose of this exercise "moveable" has been interpreted as meaning transportable.

Departmental Salaries

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the 10 highest-paid employees in his Department, broken down by *(a)* job title and *(b)* salary including bonuses; and whether the individual concerned is (i) a civil servant and (ii) a contractor in each case. [27439]

Mr. Straw: The 10 highest paid employees in the Foreign and Commonwealth Office are all civil servants and members of the Senior Management Structure. It is not the practice to release personal information on individual remuneration, but current salary levels are as follows:

Salary range (£)	*Number of officers*
190,000 to 199,000	1
180,000 to 189,999	0
170,000 to 179,999	0
160,000 to 169,999	1
150,000 to 159,999	0
140,000 to 149,999	3
130,000 to 139,999	5

Bonus payments in addition this year for these employees have ranged from £2,000 to £20,000.

Departmental Staff

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff in his Department were *(a)* civil servants, *(b)* contractors and *(c)* other staff in each year since 1997. [27452]

Mr. Straw: Figures for Foreign and Commonwealth Office (FCO) staff numbers are notified to the Cabinet Office according to a central counting convention. The figure for full time equivalent staff is not yet available for 2005. The numbers of UK based employees (i.e. excluding contract staff employed locally at posts) for each of the previous five years, at 1 April and including the FCO's Agency, Wilton Park, were as follows:

	Number
2004	5,970
2003	5,950
2002	5,680
2001	5,500
2000	5,460

The numbers for contract and other staff are devolved and central records of the exact numbers employed are not held centrally. We estimate the total of contract and other staff to be about 700. A significant part of the increase is growth in staff working in visas/consular/security.

EU Presidency

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the progress he has made in achieving his aims for the United Kingdom's presidency of the European Union. [22901]

Mr. Douglas Alexander: As my right hon. Friend the Foreign Secretary recalled to the House on 1 November 2005, *Official Report*, column 720W, the Work Programme for the UK presidency was set out in detail in a White Paper Cmnd 6611, which was presented to the House on 30 June 2005, *Official Report*, columns 1450–52W.

On 1 November the Foreign Secretary also set out progress made in a number of areas so far—better regulation, the post-financial services action plan, development in Africa, sugar reform and the historic decision to open accession negotiations with Turkey and Croatia (*Official Report*, column 721W). Other areas of progress include Counter-terrorism, where we have secured renewed commitment of member states and European Union (EU) institutions to prioritise collective EU action on counter-terrorism, in the wake of the London bombings, by stepping up implementation of the EU's Counter Terrorism Action Plan and co-operating more closely to tackle international threats. And on European security and defence policy/policing missions, our presidency has seen three new missions become operational, including the first in Asia and Aceh. We expect to have a fourth, to assist to Palestinian Authority shortly. On future financing, the Government remain committed to working to try to agree a future financing deal in December.

Holy See

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the new United Kingdom Ambassador to the Holy See is a UK citizen. [29585]

Mr. Straw: The next Ambassador to the Holy See is a British citizen.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 1 November, 2005, *Official Report*, column 954W, on Holy See, what assessment was made of the readership in Scotland of the *(a)* Scotsman, *(b)* Herald, *(c)* Guardian, *(d)* Daily Telegraph, *(e)* Times and *(f)* the Independent when deciding not to advertise the post of UK Ambassador to the Holy See in either *(a)* or *(b)*; and with what comparative readership figures the Department was supplied. [29614]

Mr. Straw: In line with our policy on specialist campaigns, we took advice from the recruitment agency and advertised in those journals with the largest UK circulation and with the means to reach a wide range of potential candidates.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs how many applications were received for the post of UK Ambassador for the Holy See; and how many of these were from applicants with return addresses in *(a)* England and Wales, *(b)* Scotland, *(c)* Northern Ireland and *(d)* overseas. [29615]

Mr. Straw: We received 122 applications for the post of HM Ambassador to the Holy See. The regional breakdown of these applications is as follows:

86 from England;

two from Wales;

four from Scotland;

five from Northern Ireland;

23 from overseas; and

two failed to complete the application form properly and we are unable to confirm where they are from.

Iraq

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs on what date he was first informed that anthrax supplied to Iraq was sourced from the United States. [28482]

Ian Pearson: I assume my hon. Friend is referring to imports by Iraq of anthrax from the United States. There was widespread media coverage in 1991 of the findings of the United Nations Special Commission's (UNSCOM) first inspection of Iraq's biological weapons capability. A number of pathogens were handed over to UNSCOM inspectors which had been sourced from the American type culture collection. These included *Bacillis anthracis*.

Italy

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs whether Government officials had *(a)* direct contact and *(b)* contact via other parties with the Italian national Rocco Marino between 1999 and September 2002; and whether Government officials (i) met and (ii) had contact via other parties with Nicolo Pollari, director of the Italian military intelligence, between 2001 and 2003. [27100]

Mr. Douglas Alexander: It is not the Government's policy to comment on intelligence matters.

Ministerial Travel

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs how much has been spent in each year from 1st May 1997 on ministerial travel, broken down by *(a)* provision and running costs of vehicular transport, *(b)* first class travel by rail, *(c)* standard class travel by rail, *(d)* first class travel by air, *(e)* club or equivalent class travel by air and *(f)* economy class travel by air. [27780]

Mr. Straw: Since 1999 this Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. Information for 1997–98 was included in the 1999 list. The overall cost of Minister's visits for the years 1995–96 and 1996–97 was provided with the 2001 list. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Library of the House.

Information on vehicular and rail transport is not held centrally and could be provided only at disproportionate cost.

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list, for each year since 1995, the number of flights, including helicopter flights, taken by Ministers within his Department for UK and overseas visits; on how many occasions *(a)* charter flights were used and *(b)* first and club class tickets were obtained; and if he will indicate who accompanied the Ministers on each trip. [27799]

Mr. Straw: Since 1999 this Government has published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. Information for 1997–98 was included in the 1999 list. The overall cost of Minister's visits for the years 1995–96 and 1996–97 was provided with the 2001 list. The list shows the number of officials who accompanied me where non-scheduled travel was used. Information on those who accompanied Foreign and Commonwealth Office Ministers on all trips since 1995 could be provided only at disproportionate cost. The Government has also published on an annual basis the cost of all Ministers visits overseas. Copies of the lists are available in the Library of the House.

Lynne Featherstone: To ask the Secretary of State for Foreign and Commonwealth Affairs what the total cost was of amending his travel arrangements and returning from Moscow in order to vote in the House on 9 November; and if he will make a statement. [28565]

Mr. Douglas Alexander: I refer the hon. Member to the answer I gave the hon. Member for Mid-Worcestershire (Peter Luff) on 16 November 2005, *Official Report*, columns 1267- 68W.

Nepal

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the British Ambassador to Nepal has been recalled to London. [29621]

Ian Pearson: No. The British Ambassador to Nepal has not been recalled. The Nepalese Ministry of Foreign Affairs has recently given agreement to the appointment of the present Ambassador's successor, in line with standard practice. The new Ambassador will take up his posting when the present Ambassador completes his tour of duty in June 2006. We will announce the name of the new Ambassador in due course.

Nuclear Non-proliferation

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 31 October 2005, *Official Report*, columns 753–54W, on non-proliferation, what his policy is on whether future projects providing indirect support to the consolidation, secure custody and elimination of special nuclear materials should continue to be financed using Community instruments in the Financial Perspective 2007–2013. [28455]

Mr. Straw: We believe that there should be provision to fund such projects from the Community budget under the next Financial Perspective. We are currently discussing with the Commission a draft of a new Instrument for Nuclear Assistance which we would propose should provide the basis for funding such projects in the next Financial Perspective.

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 31 October 2005, *Official Report*, columns 753–54W, on non-proliferation, whether he expects the Nuclear Safety Instrument in the financial perspective 2007–2013 to enable all existing projects funded by the European Commission that are supportive of nuclear non-proliferation activities to continue at their current levels. [28457]

Mr. Straw: Funding for the Instrument for Nuclear Assistance will need to be agreed as part of the overall funding package agreed for the EU's next financial perspective. The UK, along with five other member states (Germany, France, the Netherlands, Austria and Sweden), believes that the Union's priorities can be funded by a budget stabilised at one per cent. of EU Gross National Income (GNI). The instrument will be funded out of the "external actions" heading of the EC budget. We would prefer to see no growth under this heading. We will want funding for the instrument for nuclear assistance to be consistent with this, but also to provide sufficient resources to allow the commission to make a significant contribution towards achieving the EU's nuclear non-proliferation objectives, including those related to the Global Partnership.

Private Militia

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the merits of regulation of private *(a)* military and *(b)* security companies; and if he will make a statement. [28818]

Mr. Straw: In late 2004 I requested a review by officials of the options for the regulation of the overseas operations of private military and security companies registered in or operating from the United Kingdom. The aim was to follow up on the Green Paper of 2002, "Private Military Companies: Options for Regulation", and to respond to the increase in the activities of private military and security companies in areas of conflict overseas. The review was completed in June 2005.I am currently seeking views from ministerial colleagues on the options for regulation. The Government will keep Parliament fully informed of their proposals in this area.

Retired Officers

Dr. Murrison: To ask the Secretary of State for Foreign and Commonwealth Affairs how many retired officers were employed in overseas postings in each year since 1990; and if he will make a statement. [22619]

Mr. Straw: The Foreign and Commonwealth Office does not have a cadre of retired officers. We currently employ 66 individuals overseas in receipt of a civil service pension on a fee-paid basis, mainly to carry out specialised activities in the areas of security and visa operations. Under civil service pensions rules, such individuals have their pensions abated so that their total remuneration will not exceed their previous salary. The records of previous individual employment history are not held in a form that would provide information on

earlier years or give details of how many individuals may have taken some kind of official retirement. This information could only be obtained at disproportionate cost.

South America

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with governments in the Andean region regarding *(a)* governance reforms and *(b)* the enhancement of democratic values. [27025]

Mr. Douglas Alexander: The UK places great value on its relationship with the Andean region and support efforts aimed at good governance and the promotion of democratic principles, in an effort to find lasting solutions to the challenges facing the region. We regularly impress upon the governments of the Andean region, bilaterally and through our presidency of the EU, the importance we attach to these matters. We will continue to raise important issues such as these at every suitable opportunity, both here in London, through our embassies in the Andean countries and in the course of high level visits in both directions.

Sudan

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in the Darfur region of Sudan. [28932]

Ian Pearson: The sixth round of Darfur peace talks, between the Government of Sudan and the Sudan Liberation Movement (SLM) and the Justice and Equality Movement (JEM), adjourned on 20 October. The UK provided three experts to hold workshops on key areas, particularly security, during this round of negotiations. The parties engaged in negotiations constructively and made some progress on power sharing issues.

However, we judge that progress remains slow. We are urging the parties to make more rapid headway when talks reconvene on 21 November and stand ready to provide further experts to assist the African Union (AU) mediators.

We are concerned about continuing divisions within the SLM. United States Deputy Secretary of State, Robert Zoellick, chaired a meeting with both factions of the SLM and international partners, including the AU and UN, in Nairobi on 8–9 November. The UK participated actively in this meeting, which pressed the SLM to resolve their differences and negotiate with one voice when talks in Abuja reconvene.

We remain firmly committed to the Abuja process, and will maintain a UK presence throughout the talks, in support of the mediation and the parties.

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with permanent members of the United Nations Security Council on an arms embargo on the Sudanese Government. [28934]

Ian Pearson: On 29 March United Nations Security Council Resolution 1591 imposed an arms embargo on the Darfur region of Sudan and made provisions for an assets freeze and travel ban against certain categories of individuals. We have always maintained that the arms embargo should be broadened to cover the whole country, as with the European Union Arms Embargo. We have discussed this matter on several occasions with other members of the Security Council and will continue to do so.

The UN panel of experts on the Sudan resolution will report in the coming weeks on implementation of the existing sanctions and possible further measures. We will urge the Council to follow up their recommendations quickly.

UK Ambassadors

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK ambassadors are not UK citizens; and if he will make a statement. [29590]

Mr. Straw: None.

UK Presidency

Michael Gove: To ask the Secretary of State for Foreign and Commonwealth Affairs what his estimate is of the cost of running the UK presidency of the EU. [29452]

Mr. Douglas Alexander: I refer the hon. Member to the answer I gave my hon. Friend the Member for Vauxhall (Kate Hoey) on 9 June 2005, *Official Report*, columns 660–61W.

United States (Prince of Wales's Visit)

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs who the duty Minister was in attendance in respect of HRH the Prince of Wales's official visit to the US. [26864]

Mr. Straw: No Minister, either from the Foreign and Commonwealth Office or from another Government Department, accompanied Their Royal Highnesses to the United States.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs on what basis Mr. Michael Fawcett was included in the process for the selection and purchase of official gifts given by HRH the Prince of Wales during his official visit to the US; and if he will make a statement. [26865]

Mr. Straw: We have no knowledge of any involvement of Mr. Michael Fawcett. The present for the President was based on a suggestion made by the British embassy in Washington. The presents for Mrs Bush were selected by His Royal Highness The Prince of Wales and The Duchess of Cornwall.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs which persons from the Prince's Foundation for the Built Environment accompanied HRH Prince of Wales on his official visit to the US; whether costs relating to such persons were met from public funds; and if he will make a statement. [26869]

Mr. Straw: No-one from the Prince's Foundation for the Built Environment accompanied His Royal Highness The Prince of Wales on his official visit to the US.

Zanzibar

Mark Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the *(a)* transparency and *(b)* legitimacy of the recent elections in Zanzibar. [28412]

Ian Pearson: I refer the hon. Member to the answer I gave the hon. Member for Buckingham (John Bercow) on 15 November 2005 *Official Report*, column 1186W

NORTHERN IRELAND

11 Plus

Mr. Stephen O'Brien: To ask the Secretary of State for Northern Ireland what criteria were used in making the decision that no pilot tests would be carried out in connection with the removal of the 11 plus. [28763]

Angela E. Smith: Government have accepted the recommendation of the Post-Primary Review Working Group that academic selection should end, with the final Transfer Tests taking place in autumn 2008. Pilot tests will not be required, as future transfer arrangements will be based on parental choice, informed by a Pupil Profile. The Northern Ireland Council for Curriculum, Examinations and Assessment is developing the Pupil Profile and piloting it in a range of schools with teachers and parents involved.

Cancer Patients (Benefits)

Dr. McCrea: To ask the Secretary of State for Northern Ireland what action the Department for Social Development is taking to improve access to the statutory benefits system for patients who have been diagnosed with cancer; and if he will make a statement. [23387]

Mr. Hanson: For those suffering from cancer, the Social Security Agency's disability and carer's service contact centre assists with telephone applications for disability living allowance (DLA), attendance allowance (AA) and carer's allowance (CA). They can also avail of the special rules scheme within DLA and AA to fast track claims for terminally ill customers. Getting either benefit under special rules means the customer gets the highest rate for help with personal care.

In conjunction with Macmillan Cancer Relief, the agency has worked to identify and address the barriers facing cancer patients when accessing benefits. As a result of this there has been:

enhanced cancer awareness training for agency staff;

an information booklet "Help with the Cost of Cancer" was launched in March 2005; and

an outreach service of specialist benefit advisers for those with cancer has been piloted. The pilot is proving successful and the next phase is being considered.

Company Insolvencies

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many company insolvencies there were in Northern Ireland in each of the last 10 years. [28860]

Angela E. Smith: The following table shows the number of insolvent liquidations in each of the last 10 financial years.

Year ending 31 March	*Number of compulsory liquidations*[1]	*Number of insolvent voluntary liquidations*	*Total for year*
1996	71	43	114
1997	66	49	115
1998	71	51	122
1999	62	52	114
2000	64	42	106
2001	77	46	123
2002	56	50	106
2003	67	47	114
2004	84	55	139
2005[2]	71	44	115
Total	689	479	1,168

[1] Excludes any winding-up orders which were subsequently rescinded by the court.
[2] To date.

Cormorants

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what his estimate is of the number of cormorants in Northern Ireland in each of the last 10 years. [28850]

Angela E. Smith: A 10-year average of 2,773 cormorants are present in Northern Ireland during the winter months (November to February), when numbers are highest. Data for the past 10 years is as follows:

Winter population of Cormorants for Northern Ireland 1995–2005

	Population
2004–05	2,507
2003–04	3,613
2002–03	3,606
2001–02	1,706
2000–01	2,508
1999–2000	3,116
1998–99	3,725
1997–98	2,447
1996–97	1,978
1995–96	2,522
Average	2,773

There are around 600 breeding pairs in summer.

Crosshill Quarry, Crumlin

Dr. McCrea: To ask the Secretary of State for Northern Ireland on what date the railway carriages in Crosshill Quarry, Crumlin, were cut up and repositioned. [28640]

Angela E. Smith: I refer the hon. Gentleman to the response I gave on Thursday 3 November 2005, *Official Report*, column 1369W.

Dr. McCrea: To ask the Secretary of State for Northern Ireland under what conditions the deposit of the railway carriages in Crosshill Quarry, Crumlin, laid down by the planning appeal tribunal in 1983 were set aside. [28641]

Angela E. Smith: I would refer the hon. Gentleman to the response I gave on 3 November 2005, *Official Report*, column 1368W.

Disabled Access

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland which Government buildings in Northern Ireland remain to be adapted to meet the needs of people with disabilities; and when the necessary adaptations are expected to be completed in each case. [24983]

Angela E. Smith: Details of Government buildings which remain to be adapted to meet DDA requirements have been placed in the Library.

Electronic Human Resources

Mark Durkan: To ask the Secretary of State for Northern Ireland whether an Equality Impact Assessment was carried out in respect of the proposal to outsource the Civil Service Electronic Human Resources work; and what assessment was made of the equality issues involved. [26823]

Angela E. Smith: The proposal to outsource Human Resource work, which would be carried out in a Shared Service Centre, is being considered as part of the Equality Impact Assessment of the eHR policy. Ministers have been briefed on the equality issues.

Emergency Drills

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland on what dates since October 2001, local authorities and emergency services in Northern Ireland have carried out emergency drills for terrorist attacks; where such drills took place; and which agencies were involved. [22764]

Mr. Woodward: Exercises carried out by Government, local authorities and the emergency services in response to the terrorist threat since October 2001 are detailed in the table:

Date of exercise	*Exercise organised by*	*Nature of Exercise/Scenario*	*Location*	*Agencies involved*
20 June 2002	Northern Ireland Ambulance Service (NIAS)	Terrorist Chemical Attack on Windsor Park.	Table top Exercise	NIAS, Northern Ireland Fire and Rescue Service, Royal Victoria Hospital, Belfast City Hospital
26 February 2003	Ballymena Borough Council	Chemical attack exercise	Table top Exercise Ballymena Showgrounds	NIAS, NIFRS, PSNI, Ballymena Council
25 May 2003	Police Service of Northern Ireland (PSNI)	Cross border civilian plane crash	Live Exercise in Fermanagh	Multi Agency, local authorities, PSNI and An Garda Siochana
23 July 2003	Emergency Medical Assistance and Rescue Team (EMART)	Test of call out procedures for delivery of PODS containing equipment for dealing with a CBRN incident	Transported from storage in Belfast/Omagh areas to Tyrone County Hospital and Downe Hospital	EMART Project Manager, NIAS and NIFRS
5-6 March 2004	EMART	Chemical attack exercise	Tabletop and exercise at Stormont Hotel and NT Civil Sports Pavilion	EMART Project Manager and EMART Volunteers, PSNI, NIFRS, NIAS
8 April 2004	OFMDFM / NIO	Exercise Counterbalance—a National Programme of seminars, presentations and table top exercises to raise awareness of CBRN	Park Avenue Hotel	DHSSPS, NIFRS, NIAS, MoD, HQNI, NIO, PSNI, Metropolitan Police, Home Office, London Resilience Team, Emergency Planning College, Maritime and Coastguard Agency
26 May 2004	PSNI / NIO	Terrorist release of gas at die Odyssey Arena	New Salesman Exercise, Marine Court, Bangor	PSNI, NIO, Home Office, HQNI, MoD, NIFRS, NIAS, and various technical experts from GB
4 September 2004	EMART	Coping with a disaster where there is a lack of infrastructure	Test of EMART communications, mobilisation of 50 bed ward and staffing a casualty clearing station	University of Ulster Professional Development Unit with the Territorial Army
24 October 2004	Northern Ireland Fire and Rescue Service (NIFRS)	Explosion on board a ferry. Unknown chemical involved and possibility of terrorist attack	Warrenpoint Harbour	NIFRS NIAS
17 December 2004	OFMDFM	Tabletop Exercise to test senior officials from NI Departments and NIO	Stormont	NI Departments, NIO
9 February 2005	Royal Victoria Hospital (RVH)	Nerve gas attack	Tabletop exercise carried out at RVH	RVH Personnel NIAS
13 April 2005	PSNI	NIFRS Decontamination Capability	Steeple Barracks, Antrim	NIFRS
18 May 2005	NIO	Crisis Management Workshop—A series of presentations and tabletop exercises for NIO emergency responders	Stormont	NIO, PSNI, MoD
10 June 2005	NIO	Command Post Exercise to test the Government's response to a terrorist attack on NI infrastructure	Stormont	NIO, NI Departments, PSNI, NIFRS, HSE, HQNI, Home Office, Cabinet Office

Date of exercise	Exercise organised by	Nature of Exercise/Scenario	Location	Agencies involved
7/8 July 2005	PSNI	CBRN Exercise in relation to visit to Belfast of the EU Employment Ministers	Belfast	PSNI, NIFRS, NIAS
10 September 2005	Regional Virus Laboratory	To test courier arrangements for transportation of potential smallpox clinical specimen for specialist analysis	Regional Viral Laboratories to Health Protection Agency Specialist Laboratory in GB	Laboratory personnel and courier service provider

Notes:
1. Many hospital trusts have not carried out specific exercises dealing with a terrorist attack but continue to test and review major incident plans, designed to enable Trusts to respond to any major emergency, where a large number of casualties result, including plans to deal with chemical and radioactive contamination.
2. There are no centrally held figures on specific local government exercises. Information would need to be sought from individual councils.

Grammar Schools

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland what recent discussions he has had with parents about the grammar school system of education in Northern Ireland; and if he will make a statement. [29350]

Angela E. Smith: During the last two months, I have had meetings with key interests to discuss new admissions arrangements for post-primary schools. This has included a meeting with two groups representing parents—the Concerned Parents for Education and the Parental Alliance for Choice in Education.

It is important to hear the full range of views on this issue before making decisions on the way forward. I want to put in place a better system that provides choice, better opportunities and flexibility to all young people to enable them to reach their full potential.

I will be publishing a summary report on the responses to the consultation on new admissions arrangements and making an announcement on the way forward shortly.

Marine Bill

Lady Hermon: To ask the Secretary of State for Northern Ireland what progress he has made in developing proposals for a Marine Bill for Northern Ireland; and what resources have been set aside to implement the legislation. [28191]

Angela E. Smith: The Department for Environment, Food and Rural Affairs (DEFRA) has lead responsibility for taking forward work associated with the introduction of a Marine Bill. DEFRA officials have held discussions with the devolved administrations about the scope for their inclusion in the Bill.

In light of these discussions officials in the Department of the Environment are currently considering possible options taking account of the policy development work and resources which would be necessary to enable Northern Ireland to participate in the Bill in line with the DEFRA timetable.

No final decisions have yet been taken.

Parades Commission

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will bring forward legislative proposals to ensure that parades for which no proper application has been submitted to the Parades Commission can be regulated by the Parades Commission. [558]

Mr. Hain: The current legal position in respect of giving advance notice of parades is set out in section 6 of the Public Processions (Northern Ireland) Act 1998. A person who organises or takes part in a parade in respect of which the requirements of section 6 as to notice have not been satisfied is guilty of an offence. The investigation and prosecution of such offences is a matter for the PSNI and the Public Prosecution Service. The Government have no plans to change the legal framework regarding this matter.

Mr. Donaldson: To ask the Secretary of State for Northern Ireland when he plans to announce the appointment of the new Chairman and Members of the Parades Commission in Northern Ireland. [25494]

Mr. Woodward: The Government are committed to ensuring, so far as is practicable, that the Parades Commission is representative of the people of Northern Ireland. The current appointments expire on 31 December. A reappointments process began on 25 July and is on schedule for the new Commission to start on 1 January 2006.

We have received 94 applications for membership of the Parades Commission and 49 applications for the position of Chair. We are pleased with the volume and quality of applications received from both sides of the community.

The process is being run in close co-operation with the Office of the Commissioner for Public Appointments (OCPA). An OCPA independent assessor is one of three panel members sifting and interviewing applicants for both Chair and membership.

Pensioners Parliament

Mr. Dodds: To ask the Secretary of State for Northern Ireland what public funding has been provided to Northern Ireland groups dealing with senior citizens' issues in Northern Ireland to attend a Pensioners Parliament in the United Kingdom in the last five years. [4887]

Angela E. Smith: I understand that Departments provide funding for some age sector organisations. However, I am not aware of any Departments having received requests for funding for individuals to attend the Pensioners Parliament.

Post Offices

Mr. Donaldson: To ask the Secretary of State for Northern Ireland what representations he has received about the proposed closure of Crown post offices in Northern Ireland; and if he will make a statement.[28983]

Angela E. Smith: Representations have been made by the Communication Workers Union about the future of Crown post offices in Northern Ireland. Two parliamentary questions have also been answered on matters relating to the closure of post offices and the transfer of Crown post offices to private franchise in Northern Ireland. I would refer the hon. Member to the answers I gave to the hon. Member for South Antrim (Dr. McCrea) dated 10 October 2005, *Official Report*, columns 269W-70W and 14 November 2005, *Official Report*, column 1025W.

The Post Office, posts and the regulation of postal services are reserved matters. Decisions on individual closures and conversions of directly managed Crown post offices are operational and commercial matters for Post Office Ltd.

Post-16 Education

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* 16, *(b)* 17, *(c)* 18, *(d)* 19, *(e)* 20 and *(f)* 21-year-olds were in further education in Northern Ireland in each of the last 10 years. [28863]

Angela E. Smith: The following table details the number of young people (aged 16–21) who attended a further education college in NI over the 10 year period 1995–96 to 2004–05.

Students[1] in Further Education in Northern Ireland aged between 16 and 21 years, 1995–96 to 2004–05

	Age[2]						
Academic year	*16*	*17*	*18*	*19*	*20*	*21*	*Total 16 to 21-year-olds*
2004–05	9,764	9,306	7,139	4,689	3,147	2,630	36,675
2003–04	10,392	9,344	6,884	4,544	3,372	2,594	37,130
2002–03	9,657	10,036	6,728	4,341	2,759	2,095	35,616
2001–02	10,257	10,198	7,051	4,203	2,736	2,176	36,621
2000–01	10,475	10,139	7,083	4,263	2,828	2,040	36,828
1999–2000	10,673	10,302	7,548	4,526	2,893	2,072	38,014
1998–99	10,286	10,068	7,697	4,469	2,729	2,019	37,268
1997–98	10,419	10,656	7,687	4,429	2,761	2,095	38,047
1996–97	11,118	10,346	7,618	4,216	2,684	2,070	38,052
1995–96	10,417	10,137	7,177	4,086	2,648	2,028	36,493

[1] Data relates to a snapshot of students on 1 November of the relevant academic year.
[2] Age is at 1 July at the beginning of the relevant academic year.

FESR snapshot

Punishment Beatings

Mr. Wallace: To ask the Secretary of State for Northern Ireland (1) if he will list *(a)* dissident Republican and *(b)* Loyalist groups which have been linked to punishment beatings since July; [24767]

(2) when he intends to answer question 24767 tabled by the hon. Member for Lancaster and Wyre on 2 November. [29683]

Mr. Woodward: PSNI statistics for the period in question confirm that Loyalist paramilitaries carried out 13 assaults while "dissident" Republicans were responsible for one assault.

It should be noted that PSNI do not record attribution by specific loyalist faction, In many cases victims and witnesses to paramilitary assaults are unwilling or unable to provide the police with information that could assist in identifying such groups.

Race Crimes

Mark Durkan: To ask the Secretary of State for Northern Ireland how many race crimes have been referred by the Police Service for Northern Ireland to the Public Prosecution Service over the past three years; how many prosecutions were brought; and how many convictions were secured. [24734]

Mr. Woodward: I refer the hon. Gentleman to the answer given by my hon. Friend the Parliamentary Under Secretary of State (David Hanson) on 24 October 2005, *Official Report*, column 110W).

Statistics relating to prosecutions for racially motivated crimes are not currently available. The table outlines the number of racially motivated crimes cleared by the police in 2004–05 (the first financial year for which data is available). A breakdown by clearance type is provided which includes the number of crimes cleared by way of a charge or summons.

Crime clearance method	*1 April 2004 to 31 March 2005*
Charge / Summons	59
Caution / informal warning (including juvenile)	11
No further police action [1]	31
Total crimes cleared	101

[1] Includes cases where the complainant declined to prosecute, and where the suspected offender is under the age of criminal responsibility or has died.

Retail Market

Lady Hermon: To ask the Secretary of State for Northern Ireland what assessment his Department has made of the extent of competition in the Northern Ireland retail market; and if he will make a statement. [28908]

Mr. Sutcliffe: I have been asked to reply.

The Department has not undertaken any research into this market. Competition in the supermarket and grocery sectors is a matter for the independent competition authorities, in this instance the Office of Fair Trading (OFT).

Lady Hermon: To ask the Secretary of State for Northern Ireland what research has been undertaken by his Department into the market share of each of the four largest multiple retail chains in Northern Ireland. [28909]

Mr. Sutcliffe: I have been asked to reply.

The Department has not undertaken any research into this market. Competition in the supermarket and grocery sectors is a matter for the independent competition authorities, in this instance the Office of Fair Trading (OFT).

Roads

Dr. McCrea: To ask the Secretary of State for Northern Ireland what assessment he has made of the reasons for the recent changes in funding for structural roads maintenance; what was the initial external budget for structural maintenance in each district council area in the financial year *(a)* 2003, *(b)* 2004 and *(c)* 2005–06; and what action is being taken to ensure that the allocation of funding for this purpose is sufficient to enable the targets set in the Regional Transportation Strategy to be met. [28440]

Mr. Woodward: The draft Budget provides that, by 2008, total Government spending in NI will exceed £16 billion, a jump of more than 50 per cent. since 1997. Public expenditure in NI is by far the highest figure for any region of the UK and is 29 per cent. higher than the UK average.

Notwithstanding this, there are many pressures on the Northern Ireland Budget and the roads' programme must compete for funding along with other spending programmes. The draft Priorities and Budget 2006–08 is presently out for consultation. It allocated additional resources for Health and for Education and this inevitably had some implications for other programmes including roads maintenance. It is expected that the revised Budget will be announced in December 2005.

The Regional Transportation Strategy (2002–12) identified strategic transportation investment priorities and considered potential funding sources and affordability of planned initiatives over the 10-year period. It was explained in the RTS that the level of public expenditure funding for the strategy would be determined through the normal budgetary process, which will take account of the needs of other departments and decisions on priorities.

I should explain that Roads Service's maintenance budgets are not allocated at the outset of the financial year on a district council basis. Therefore, it is not possible to give an initial budget for structural maintenance in each district council area as requested. A breakdown of structural maintenance expenditure by district council is set out as follows for 2003–04 and 2004–05. It should be noted that these figures are based on the expenditure in the previous two financial years and that they include the contribution made by the Roads Service in-house contractor.

The structural maintenance budget for the 2005–06 year is currently £60.5 million, however a breakdown of this amount at the district council level cannot be provided at this stage.

£ million

District council	*Structural maintenance*	
	2003–04 outturn	*2004–05 outturn*
Antrim	3.0	2.4
Coleraine	3.4	2.4
Limavady	2.6	2.1
Moyle	1.3	1.3
Ballymoney	2.1	1.5
Derry	3.2	2.7
Ballymena	3.3	3.0
Larne	1.6	1.4
Belfast	6.4	5.9
Castlereagh	1.4	1.2
Newtownabbey	2.0	2.2
Carrickfergus	0.9	0.8
North Down	2.6	1.3
Lisburn	4.8	4.5
Ards	2.3	2.2
Armagh	3.9	4.1
Newry and Mourne	4.4	4.9
Banbridge	2.6	2.4
Craigavon	3.2	3.4
Down	3.5	3.4
Magherafelt	2.7	2.2
Omagh	4.9	4.0
Strabane	3.4	3.9
Cookstown	2.5	2.2
Fermanagh	5.5	4.6
Dungannon	5.4	4.0
Total structural maintenance summary	82.9	73.8

Total structural maintenance—summary

£ million

	Outturn	*Budget*
2003–04	82.9	—
2004–05	73.8	—
2005–06	—	60.5

School Admissions

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland when he expects to introduce legislation to change the admissions policy of schools in Northern Ireland; and if he will make a statement. [29551]

Angela E. Smith: I am considering the responses to the consultation on admissions arrangements and will announce my decisions on the way forward shortly.

School Transport

Sammy Wilson: To ask the Secretary of State for Northern Ireland what estimate he has made of the annual cost of school transport if the compulsory seat belt policy is implemented on school buses in Northern Ireland. [29206]

Angela E. Smith: The cost of the provision of seat belts on school buses is currently under consideration by the Department of the Environment in its assessment of the four key recommendations of the Northern Ireland Assembly's home to school transport public inquiry. It is expected that the findings of this work, which is being carried out in partnership with the Department for Regional Development and the Department of Education, will be published shortly.

DOE is currently analysing the results of school bus occupancy surveys carried out in April/May and September this year which are informing the final stages of the assessment.

Security Guards (Crown Insignia)

Mr. McGrady: To ask the Secretary of State for Northern Ireland whether security guards providing services to Northern Ireland Civil Service buildings wear Crown insignia. [619]

Angela E. Smith: The wearing of Crown insignia by support grades providing security guard services to NICS buildings is a matter for each Department to determine. Currently 67 staff are supplied with a uniform with Crown insignia. Some security guards for NICS buildings, are provided by private contractors who do not wear Crown insignia.

Sewage (Strangford)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans he has *(a)* to improve the sewage system at Darragh Cross and *(b)* to upgrade the system to include the villages of Raffrey and Derryboye; and if he will make a statement. [2590]

Mr. Woodward: The Chief Executive of Water Service (Mrs. Katharine Bryan) has been asked to write to the hon. Member in response to this question.

Letter from Mrs. Katharine Bryan to Mrs. Iris Robinson, dated June 2005.

You recently asked a Parliamentary Question asking the Secretary of State for Northern Ireland what plans he has to improve the sewerage system at Darragh Cross and to upgrade the system to include the villages of Raffrey and Derryboye (2590). I have been asked to reply as this issue falls within my responsibility as Chief Executive of Water Service.

The existing foul sewer, sewage pumping station and associated pumping main on the Killyleagh Road, Darragh Cross were upgraded in 2004 to cater for existing and future development. Water Service plans to decommission the existing wastewater treatment works at Darragh Cross and to pump the wastewater to the Saintfield Wastewater Treatment Works, which is to be upgraded to ensure compliance with future regulatory standards and to cater for future development. The project is scheduled to commence in early 2006 and to be completed in the summer of 2007, subject to all statutory approvals being obtained.

Like many other small settlements in Northern Ireland, Derryboye and Raffrey do not presently have public sewerage facilities and properties in the areas are currently served by private septic tanks, Water Service plans to carry out a detailed investigation to determine the economic viability of providing first time sewerage facilities for both areas, following the publication of the Ards/Down Area Plan 2015.

Social Work Students

Dr. Alasdair McDonnell: To ask the Secretary of State for Northern Ireland if he will make social work degree students from Northern Ireland studying outside Northern Ireland eligible for bursaries. [25526]

Mr. Woodward: Northern Ireland students undertaking higher education courses in social work are entitled to receive support in accordance with the Education (Student Support) Regulations. Such support comprises income-assessed grants towards tuition fees, higher education bursaries, student loans and supplementary grants.

Separately, from the mandatory arrangements described above the DHSSPS administers an incentive scheme, designed to attract Northern Ireland domiciled students to study for social work in Northern Ireland, in order to best meet the needs of the Northern Ireland social services work force. Social work students from Northern Ireland intending to study outside Northern Ireland therefore fall outside the terms of the incentive scheme, but remain able to apply for the usual student support in accordance with the Education (Student Support) Regulations.

However, in light of experience in operating the scheme, the DHSSPS is planning to review, from an equality perspective, that aspect of the scheme that precludes support funding for students from Northern Ireland, studying outside Northern Ireland.

Unauthorised Encampments

Mr. Dodds: To ask the Secretary of State for Northern Ireland what plans he has to introduce measures to combat unauthorised encampments. [27764]

Mr. Hanson: The Unauthorised Encampments (Northern Ireland) Order 2005 includes provisions aimed at combating unauthorised encampments. However, as indicated during the debate into the legislation, I intend to defer bringing the substantive provisions of the order into effect until I am satisfied that an adequate number of transit sites is operational in Northern Ireland, I anticipate that five sites will be operational in 2006, I am reviewing the situation with the Housing Executive with a view to enabling the necessary provisions as soon as possible once the sites are operational.

Water Service

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will make a statement on the rationalisation process in the Water Service. [1434]

Mr. Woodward: The Chief Executive of Water Service (Mrs. Katharine Bryan) has been asked to write to the hon. Member in response to this question.

Letter from Mrs. Katharine Bryan to Mr. Eddie McGrady, dated 2 June 2005:

You recently tabled a Parliamentary Question asking the Secretary of State for Northern Ireland if he will make a statement on the rationalisation process in the Water Service (1434). I have been asked to reply as this issue fails within my responsibility as Chief Executive of Water Service.

A key part of the Government's Water Reform agenda is the need to reduce costs and improve efficiency in order to minimize charges to customers. Water Service has been set a target of £43 million reductions in operating costs by April 2009. By March 2005, £12 million of that had been delivered.

In order to meet these targets, the size of the workforce is reducing and will reduce further. To date all reductions have been made by natural wastage. The Minister has made it clear that all possible steps will be taken to avoid compulsory redundancy.

Water Service Management are looking at all areas of expenditure to reduce costs. These include examining the number of offices and depots required in future. No decisions have yet been reached in. this area. Any changes resulting from the review would

be subject to the normal requirements regarding equality, industrial relations and personnel procedures, In addition Water Service is looking at how it delivers its services in a number of areas. Among the options being considered is the centralisation of those services where quality and/or cost improvements would result. Once again, any decisions reached in these areas would require all the appropriate procedures to be followed.

Youth Funding

Mark Durkan: To ask the Secretary of State for Northern Ireland if he will list the *(a)* actions and *(b)* activities to be funded by the children and young people's funding package announced in Budget and Priorities 2006 to 2008, indicating (i) the amounts attached to each and (ii) the planned delivery mechanisms. [24850]

Angela E. Smith: It is intended that the package, which will initially be targeted on disadvantaged areas, will support the development of innovative approaches to delivering early years' and pre-school education and other provision for the 0–4s, After School Activities and Youth provision, strengthened child protection arrangements, development of inter-agency co-operation and collaboration and improved educational provision and support for Looked After Children and Young People. Details of the actions, activities, associated allocations and delivery mechanisms for the funding package have not yet been determined and these will be agreed by the Secretary of State before the final Budget announcement in December.

TRADE AND INDUSTRY

Charities

Peter Bottomley: To ask the Secretary of State for Trade and Industry when charities lost exemption from competition rules on exchange of information; what mechanism was used to make the change; for what reasons it was made; and how it was communicated to *(a)* Parliament, *(b)* charities and *(c)* the general public. [28556]

Mr. Sutcliffe: Since coming into force in March 2000, the Competition Act 1998 has applied to all undertakings. This includes charities where they are carrying out economic activities. The Competition Act 1998 represented a major strengthening of UK competition law and was the subject of extensive public consultation. In particular the aims of the Bill were outlined in detail in the August 1997 consultation document "A prohibition approach to anti-competitive agreements and abuse of dominant position". The draft Bill was debated fully in Parliament.

Clear Skies Programme

Mr. Peter Ainsworth: To ask the Secretary of State for Trade and Industry what assessment he has made of *(a)* the quality and *(b)* the number of (i) solar hot water, (ii) biomass, (iii) wind, (iv) ground source heat pump and (v) hydro projects supported by the Clear Skies grant programme since 2002; and if he will make a statement. [27461]

Malcolm Wicks *[holding answer 11 November 2005]:* The information requested is as follows.

(a) The quality of projects supported under the Clear Skies programme has been maintained through establishing an approved installer and products list. Quality is also maintained by having an independent selection panel for community projects.

(b) Clear Skies has been a successful programme and has exceeded its original targets for installations.

Mr. Drew: To ask the Secretary of State for Trade and Industry what assessment he has made of the funding requirements of solar photovoltaics following the end of the Clear Skies scheme. [25367]

Malcolm Wicks: The Department has supported photovoltaics since 2002 through the £31 million Major Photovoltaics Demonstration Programme. We plan to continue its support for photovoltaics and other building scale renewables through a low carbon buildings programme, which is currently under development. The new programme will have a budget of £30 million over three years. It will start in April 2006 subject to EU state aids clearance.

We have also commissioned a report to study the economic potential for the UK of microgeneration technologies and this report will be published shortly.

Coal Imports

Mr. Crabb: To ask the Secretary of State for Trade and Industry how much coal has been imported from China in the last five years. [29730]

Malcolm Wicks: The total amount of coal imported by the UK from China over the five years from 2000 to 2004 was 1,579,000 tonnes.

A breakdown of the amounts is shown in the following table.

Thousand tonnes

	Steam coal	*Anthracite*	*Total*
2000	—	143	143
2001	295	410	705
2002	208	80	288
2003	170	40	210
2004	190	43	233
Total	863	716	1,579

Source:
HM Revenue and Customs as reported in Table G.5 of Annex G to the Digest of UK Energy Statistics in 2005 (on DTI website)

Correspondence

Mr. Martyn Jones: To ask the Secretary of State for Trade and Industry when he will reply to the letters from the hon. Member for Clwyd, South of 5 May 2004, 15 June 2004, 26 July 2004 and 22 March 2005 relating to his constituent Mr. Arthur Roberts. [25462]

Mr. Sutcliffe: Due to a number of administrative errors these letters were overlooked. Please accept my apologies for the very poor handling of your constituent's concerns. Your letters are now being urgently processed and you will receive a response shortly.

The Department of Trade and Industry takes seriously its responsibility for responding to Members' correspondence and has new procedures in place to avoid errors such as this in the future.

Criminal Offences

Simon Hughes: To ask the Secretary of State for Trade and Industry if he will list the criminal offences created in legislation sponsored by his Department between the end of the 2003–04 session and the end of April 2005, broken down by Act. [28471]

Alan Johnson *[holding answer 14 November 2005]:* There were no criminal offences created in legislation sponsored by my Department between the end of the 2003–04 session and the end of April 2005.

Departmental Rebranding

Dr. Cable: To ask the Secretary of State for Trade and Industry how much has been spent on rebranding in his Department and related agencies in each of the last five years. [18325]

Alan Johnson: In 2002–03 the Department spent £450,000, in 2003–04 £100,000, in 2004–05 £10,000, on identity development and design guidelines towards the rationalisation around the single DTI logo.

In 2005 the proposal to change the name of the Department cost a total of £30,000.

In 2003 the rebranding of British Trade International (BTI) to UK Trade and Investment (UKTI) cost £600,000.

Letter from Jeanne Spinks to Dr. Vincent Cable, dated 17 November 2005:

You have asked the Secretary of State for Trade and Industry, how much has been spent on rebranding in his Department and related agencies in each of the last five years.

The Employment Tribunals Service (ETS) have spent £10,407 on rebranding in the last five years. This is broken down per financial year as follows:

2000–01—£5,000 for design of Corporate Identity and new ETS logo

2001–02—£4,982 for design of Corporate Identity

2002–03—£425 for design of 'DTI Service' logo and boilerplate

Letter from Desmond Flynn to Dr. Vincent Cable, dated 17 November 2005:

The Secretary of State has asked me to reply to your question (2005/1161) regarding expenditure in the Insolvency Service Agency on rebranding during the last five years.

The Insolvency Service has not spent anything on rebranding as such. We publish a wide variety of leaflets which are reprinted at frequent intervals and this has enabled us to take on board any DTI branding changes at no additional cost.

Letter from Martin Wyn Griffith to Dr. Vincent Cable, dated 17 November 2005:

I refer to your parliamentary question tabled on 12 October asking for details of how much has been spent on rebranding in the Department for Trade and Industry and related agencies in each of the last five years. The Secretary of State has asked me to reply on behalf of the Small Business Service.

Since the setting up of the Small Business Service in 2000 there has been no rebranding but a short project was undertaken in 2003 with regard to considering the brand but this was not taken forward.

Letter from Claire Clancy to Dr. Vincent Cable, dated 17 November 2005:

I am responding to your recently tabled Parliamentary Question to the Secretary of State for Trade and Industry on behalf of Companies House, which is an Executive Agency of the DTI.

The amount spent by Companies House on re-branding in each of the last five years is as follows:

	£
2000–01	0
2001–02	156,000
2002–03	15,000
2003–04	0
2004–05	0

Letter from Jeff Llewellyn to Dr. Vincent Cable, dated 17 November 2005:

The Secretary of State for Trade and Industry has asked me to reply on behalf of the National Weights and Measures Laboratory (NWML) to your question regarding the amount spent on rebranding by the Department of Trade and Industry and related Agencies in each of the last five years.

The amount spent on rebranding by the National Weights & Measures Laboratory (NWML) during the last five years has been minimal. Stocks of redundant stationery and publicity materials have been small and design work was completed mainly by DTI. NWML staff have spent a small amount of time discussing rebranding issues with HQ staff.

Departmental Sickness Absence

Norman Lamb: To ask the Secretary of State for Trade and Industry what guidelines his Department has in place to deal with sickness absence; and what steps are being taken to reduce the rate of sickness absence. [28768]

Alan Johnson: The DTI has a range of guidelines in place to deal with sickness absence. The DTI takes the management of sickness absence very seriously and has tightened up the procedures for reporting, improving data collection and handling absences, including coaching managers to gain the knowledge and skills to manage specific cases.

Departmental Skills Development Plan

Mr. Gibb: To ask the Secretary of State for Trade and Industry which individual is responsible for developing and implementing his Department's Skills Development Plan. [23836]

Alan Johnson: I refer the hon. Member to the reply given to him by my right hon. Friend the Chancellor of the Duchy of Lancaster and Minister for the Cabinet Office on 2 November 2005, *Official Report*, column 1074W.

Electricity Supply

Mr. Chaytor: To ask the Secretary of State for Trade and Industry what research has been undertaken by his Department into reducing electricity demand through replacement of inefficient end-use of electricity by more efficient technologies in order to reduce insecurities created by a reduced capacity margin in electricity supply. [25597]

Alan Johnson *[holding answer 15 November 2005]*: DEFRA has the overall lead in Whitehall on energy efficiency, including to support relevant research both directly and via the Carbon Trust. Directly funded research by DEFRA into the potential for cost effective energy efficiency in the business, public and households sectors, primarily to establish the scope for carbon savings, is currently in the order of £200,000 per year. Carbon Trust investment in R&D into low carbon technologies and programmes to promote energy efficiency in the business and public sectors is more substantial. More information on relevant programmes can be found at: http://www.thecarbontrust.co.uk/carbontrust/

Research councils expenditure on energy efficiency research since 1999 is set out in the following table:

	Energy efficiency and low carbon innovation (£000)
1999–2000	1,694
2000–01	1,400
2001–02	1,671
2002–03	1,980
2003–04	1,212
2004–05	2,914

Energy efficiency research features as a key element of the research councils Carbon Vision Programme (funded jointly with the Carbon Trust). Details of programmes and relevant research projects funded by EPSRC can be found at the new energy programme website www.epsrc.ac.uk/energy, which has a specific page on energy efficiency (http://www.epsrc.ac.uk/researchhighlights/energy/guide/energyefficiency.htm)

Emissions Targets

Norman Lamb: To ask the Secretary of State for Trade and Industry whether it is a target of his Department to achieve a 20 per cent. reduction in carbon dioxide emissions by 2010; what progress his Department has made towards achieving its public service agreement target 4; and if he will make a statement. [28510]

Alan Johnson: The Government's goal is to achieve a 20 per cent. reduction in CO_2 emissions on 1990 levels by 2010. DTI PSA 4 states that my Department will lead work to deliver the goals of energy policy, including work to move towards the 20 per cent. reduction, through measures including energy efficiency and renewables.

The Government publish annual reports of progress against the energy policy goals set out in PSA 4. The next progress report will be published in mid December and available on my Department's website.

The Government will set out both an assessment of progress against our 20 per cent. goal and further measures to contribute towards its achievement, in a revised climate change programme, which we are aiming to publish around the turn of the year.

Gender Equality

Mr. Hayes: To ask the Secretary of State for Trade and Industry if he will list UK organisations in receipt of *(a)* UK and *(b)* EU funds for projects promoting gender equality, broken down by (i) project and (ii) amount; and if he will make a statement. [27971]

Alan Johnson: This answer cannot be provided as the information can be obtained only at disproportionate cost.

Government Chief Scientific Adviser

Dr. Gibson: To ask the Secretary of State for Trade and Industry what overseas visits the Chief Adviser for the Government on Science has made in the last two years; where his interests are recorded; what meetings he has had with the Prime Minister in the last two years; and which of the chief scientific advisers to Government Departments he has met in the last 12 months. [24389]

Alan Johnson: A list of the Chief Scientific Adviser's (CSA) international visits during the past two years is as follows.

Dates	*International visits*
November 2003	Canada
December 2003	Holland
December 2003	Japan
February 2004	Japan/Taiwan
March 2004	India
April 2004	Belgium
June 2004	France
2004	Germany
July 2004	Russia
July 2004	Korea/China
October 2004	Spain
October 2004	Rome
October 2004	Belgium
November 2004	Switzerland
December 2004	Italy
February 2005	India
March 2005	Poland
April 2005	Portugal
May 2005	South Africa/Tanzania
May 2005	Germany
June 2005	Canada
June 2005	Brazil
May 2005	Italy
September 2005	USA
October 2005	Senegal
October 2005	Australia/Singapore
October 2005	Russia

The CSA has agreed the handling of his relevant interests with the permanent secretary, DTI, in accordance with the terms and conditions of his employment.

The CSA has met my right hon. Friend the Prime Minister regularly during the past two years.

The CSA has met all the Chief Scientific Advisers to Government Departments regularly during the past year.

IT Projects

Mr. Laws: To ask the Secretary of State for Trade and Industry how many IT projects have been developed for his Department since 2001; and whether he has agreed to make public Gateway Reviews for these projects *(a)* in full and *(b)* in part. [23490]

Alan Johnson: The majority of the Department's IT services are provided through a PFI agreement with Fujitsu Services. The Department has not been asked to make public, either in full or in part, any project requiring a Gateway Review.

Low-carbon Buildings

Mr. Peter Ainsworth: To ask the Secretary of State for Trade and Industry pursuant to his written statement on 2 November 2005, *Official Report*, column 47WS, on low-carbon buildings, what assessment he has made of the likely impact of the arrangements for grant support he has announced on *(a)* private sector investment in the UK micro-renewables industry, and *(b)* the ability of micro-renewables to contribute to future Government energy efficiency and renewable energy targets. [27460]

Malcolm Wicks *[holding answer 11 November 2005]:* The information requested is as follows:

(a) The Clear Skies and Solar PV Programmes have contributed to the development of the micro generation industry in the UK, including an installer base. The new low carbon buildings programme will continue to fund the installation of micro generation technologies in household, community and large-scale projects. The new programme and the wider micro generation strategy currently under development will aim to introduce further measures to help develop a sustainable market for all the buildings renewable technologies.

(b) The focus on energy efficiency and grant support for renewable technologies under the new programme will continue to make a contribution to energy efficiency and renewable energy targets.

Medical Research Council

Mr. Lansley: To ask the Secretary of State for Trade and Industry what the budget of the Medical Research Council has been in each year since 1997–98; and what percentage of the budget was spent in each year. [27542]

Alan Johnson: While the Medical Research Council (MRC) has some separate external income, it derives its main funding from the Science Budget. The following table sets out MRC's allocations from the Science Budget and the proportion of that allocation spent in each year, from 1997–98. Where the proportion of expenditure exceeds 100 per cent. the excess represents the utilisation of unspent budget available from previous years.

Financial year	*Budget (allocation) £ million*	*Percentage spent*
1997–98	289.1	100.9
1998–99	290.2	98.8
1999–2000	304.5	101.2
2000–01	319.2	100.2
2001–02	349.6	96.5
2002–03	377.2	91.9
2003–04	430.6	97.1
2004–05	455.2	92.4

Notes:
1. Cash basis 1997–98 to 2000–01 RAB basis 2001–02 onwards.
2. Figures are the total of current and capital

Microgeneration

Barbara Follett: To ask the Secretary of State for Trade and Industry what assessment he has made of the merits of encouraging the use of microgeneration in homes and businesses. [29236]

Malcolm Wicks: A public consultation on the Government strategy to promote microgeneration was held between 23 June and 23 September this year. 200 responses were received and are being analysed. In addition a study into the costs and benefits of microgeneration was commissioned and is expected to report shortly. The findings of this study and the responses to the consultation are being fed into the process of developing the final strategy, which will be published in April 2006.

Offshore Wind Power

Mr. Blizzard: To ask the Secretary of State for Trade and Industry what contribution he expects offshore wind power to make to Government policy for tackling climate change. [29249]

Malcolm Wicks: The Government have a target of 10 per cent. of electricity to come from renewables sources by 2010. This would save approximately 2.5 million tonnes of carbon per year if the equivalent amount of energy were generated from gas. Current assessments suggest that as much as 7 per cent. of electricity could be generated from onshore and offshore wind by 2010.

Four Round 1 offshore projects, totalling 400MW in generation capacity, should be operational by the end of 2005. A further eight Round 1 projects have been awarded grant support and are being progressed. Two Round 2 offshore projects have recently submitted applications for consent.

Renewable Energy

Keith Vaz: To ask the Secretary of State for Trade and Industry what plans the Government have to power their buildings from renewable energy sources. [26637]

Alan Johnson: The Department has purchased electricity from renewable sources since 1999. The amount bought equates to average of 32.3 per cent. of the total electricity consumed on the HQ estate which compares favourably to the Sustainable Development in Government (SDIG) energy target which is to buy 10 per cent. by 2008.

The Departments strategy is to increase the percentage of renewable energy supplied to the estate as existing contracts are reviewed, if available.

Norman Lamb: To ask the Secretary of State for Trade and Industry how much of the total expenditure in 2005 under the capital grant programme for biomass research was funded by *(a)* his Department and *(b)* the National Lottery. [28569]

Malcolm Wicks: The bio-energy capital grants scheme provides support for specific projects which deploy biomass technologies. It does not support pure research into biomass.

Under the scheme, the DTI and the Big Lottery Fund both provide funding for qualifying projects but for administrative reasons, individual projects are either supported by DTI or by the lottery.

From 1 January 2005 to date, the Big Lottery Fund has provided funding for capital projects of £3,166,965 but the DTI has provided no funding as yet. The present imbalance in the drawdown of funds is due primarily to the timing of individual projects.

Skills Sector (National Co-ordination)

Norman Lamb: To ask the Secretary of State for Trade and Industry what formal co-ordination in respect of skills issues takes place between the regional development agencies, the Learning and Skills Councils and the sector skills councils; how frequently these agencies meet; and whether meetings take place at *(a)* board and *(b)* operational level. [28567]

Phil Hope: I have been asked to reply.

The Skills White Paper 21st Century Skills: Realising Our Potential invited Regional Development Agencies (RDAs) to lead the establishment of Regional Skills Partnerships (RSPs). These bring together the RDA, the Learning and Skills Council (LSC) and Sector Skills Councils (SSCs) with other regional partners to plan and co-ordinate the provision of skills and business support that reflects the priorities of the Regional Economic Strategy. The organisation of RSPs and the number and frequency of meetings varies regionally.

At national level the RDAs are represented on the board of the LSC. The Skills for Business Network and the LSC are involved in the governance and programme board arrangements for the Skills Strategy with meetings taking place monthly.

Solar Photovoltaics

Keith Vaz: To ask the Secretary of State for Trade and Industry what research he has commissioned on the viability of photovoltaic solar cells as a significant national renewable energy source. [26636]

Malcolm Wicks: The Renewables Innovation Review (February 2004), which looked at the viability of photovoltaics and other renewable technologies, suggested that the environmental benefits in buildings could be maximised by developing an appropriate mix of building integrated renewables and energy efficiency. It recommended taking this forward through a technology blind, capital grant based, low carbon building programme and this is what we intend to do. The new low carbon buildings programme will have a budget of £30 million over three years. It will start in April 2006 subject to EU state aids clearance.

We have also commissioned a report to study the UK potential for micro generation technologies and this report will be published shortly.

Lynne Jones: To ask the Secretary of State for Trade and Industry what assessment he has made of the impact of the Government's solar photovoltaics major demonstration programme on private sector investment in the UK solar industry. [29487]

Malcolm Wicks: The solar photovoltaics major demonstration and Clear Skies programmes have contributed to the development of the micro generation industry in the UK, including an installer base. The new low carbon buildings programme will continue to fund the installation of microgeneration technologies in household, community and large-scale projects. A budget of £30 million over three years for the programme was announced on 2 November. It will be launched in April 2006 subject to EU state aids clearance.

The new programme and the wider micro generation strategy currently under development will aim to introduce further measures to help develop a sustainable market for solar PV as well as all the building renewable technologies.

Lynne Jones: To ask the Secretary of State for Trade and Industry if he will take steps to ensure levels of capital grant support to the *(a)* solar photovoltaics and *(b)* other micro-renewable industries increase during the six years of the low carbon building programme. [29488]

Malcolm Wicks: I recently announced a budget of £30 million over three years for the new low carbon buildings programme, which is due to start in April 2006 subject to EU state aids approval.

Further options and support for the micro renewable sector will be considered in the future.

Statistics of Trade Act

Mr. Amess: To ask the Secretary of State for Trade and Industry (1) how many *(a)* males and *(b)* females have been (i) charged and (ii) convicted in England and Wales of offences under section 4 of the Statistics of Trade Act 1947 in each year since 1984; [28271]

(2) if he will make a statement on the operation of the Statistics of Trade Act 1947. [28272]

John Healey: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell to Mr. David Amess, dated 17 November 2005:

As National Statistician I have been asked to reply to your recent Parliamentary Questions asking how many *(a)* males and *(b)* females have been (i) charged and (ii) convicted in England and Wales of offences under section 4 of the Statistics of Trade Act 1947 in each year since 1984 (28271), and if I will make a statement on the operation of the Statistics of Trade Act 1947. (28272).

To address your first question, the Office for National Statistics (ONS) carries out its functions under the provision of the Statistics of Trade Act 1947. Penalties are provided under section 4, that can be imposed by a Magistrates' Court in the event of failure to comply with our legal request. This response relates to summons and convictions relating to surveys conducted by ONS under the 1947 Act, and excludes any other government departments. Our understanding is that we are the main users of the 1947 Act, and to our knowledge few other government departments impose

penalties under section 4, Legal action is taken against businesses who fail to comply rather than individuals and so therefore a gender breakdown is not appropriate.

The attached table shows the figures for the period requested. I have provided the information on the basis of the number in receipt of a summons and those that then go on to be convicted. The difference is those that have been withdrawn due to their willingness to comply. Only those who remain unwilling to comply will be heard in the Magistrates' Court and ultimately convicted.

To address your second question; again, I must make it clear that the policy only relates to ONS' operation of the 1947 Act. ONS has signed up to an 'enforcement concordat' which is regulated by the Cabinet Office. Under this agreement ONS have given an undertaking to 'carry out our duties in a fair, equitable and consistent manner'.

We recognise that most businesses want to comply with the law. We will, therefore take care to help businesses and others meet their legal obligations without unnecessary expense, while taking firm action, including prosecution where appropriate, against those who flout the law.

All businesses are provided with information regarding their statutory obligation to complete ONS questionnaires and they are advised on the consequences of non-compliance. We believe in, prevention being better than the cure and our role in enforcing compliance actively involves working with businesses, especially small and medium sized businesses, to advise on, and assist with compliance. We will discuss general issues, specific compliance failures or problems, with anyone experiencing difficulties, and continue to offer assistance after the receipt of the summons in order to gain compliance and prevent prosecution.

Number of summons issued, including those withdrawn and convicted, under the Statistics of Trade Act 1947, for the period 1984–2004

	Number of summons issued	*Number withdrawn because they complied before court appearance*	*Number convicted*
1984	30	2	28
1985	3	0	3
1986	9	2	7
1987	12	2	10
1988	9	2	7
1989	8	1	7
1990	9	0	9
1991	8	7	1
1992	1	0	1
1993	36	25	11
1994	16	9	7
1995	32	26	6
1996	29	25	4
1997	22	16	6
1998	17	12	5
1999	39	34	5
2000	24	22	2
2001	24	19	5
2002	25	22	3
2003	19	15	4
2004	27	20	7

Note:
From 1993 onwards, reveals the policy adopted is that every effort is made to gain compliance, prosecution is only used as a last resort.

Two Roof Strategy

Mr. Amess: To ask the Secretary of State for Trade and Industry if he will make a statement on the progress of his Department's two roof strategy. [28276]

Alan Johnson: The two roof programme is a ground breaking change programme to rationalise its central London estate and transform the way we use our workspace. This core element of the DTI's Efficiency Programme offers a new and radical approach to workspace utilisation and will allow the Department to reduce its accommodation by approximately 30 per cent. Starting in 1 Victoria Street, the accommodation is being remodelled as part of a wider change programme to support team based desking in a flexible, open plan working environment on the basis of providing on average eight desks for every 10 people to be accommodated. This has enabled us to increase the capacity of our main HQ building from 1,680 under the original, traditional approach to approximately 2,400 now and to release other buildings on the estate for reuse or disposal. This change programme will now be applied to the rest of our London accommodation.

TREASURY

Corporation Tax

Mr. Crabb: To ask the Chancellor of the Exchequer how much corporation tax was raised from businesses in Wales in each year since 1997. [29746]

Dawn Primarolo: The information is not available to estimate the amount of corporation tax raised from businesses in Wales in each year since 1997.

Economic Productivity

Peter Law: To ask the Chancellor of the Exchequer what assessment he has made of the relationship between primary energy use and economic productivity. [29005]

John Healey: ONS figures show that energy consumption in the UK, as measured by the consumption of primary fuels or equivalents, has risen by 8 per cent. since 1990. Over the same time period, Gross Domestic Product has increased by more than 36 per cent. in real terms, and the UK's productivity performance continues to improve.

While oil prices have increased lately, it should be noted that actual productivity (trend output per hour worked) is estimated to have grown by 2.35 per cent. over the recent past (1997H1–2005Q1)-higher than growth of 2.03 per cent. over the previous economic cycle (1986Q2–1997H1).

Hospital Births (Southampton)

Sandra Gidley: To ask the Chancellor of the Exchequer how many babies have been born in each hospital operated by Southampton University Hospitals Trust in each of the last five years. [29189]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell to Sandra Gidley, dated 17 November 2005:

As National Statistician, I have been asked to reply to your request for the number of babies born in each hospital operated by Southampton University Hospitals Trust in each of the last five years. (29189)

The table below shows the number of live births occurring in the requested hospitals and birth centres.

Live births occurring in Southampton University Trust Hospitals 2000–04

Place of birth	Year of birth 2000	2001	2002	2003	2004
Princess Anne hospital,Southampton[1]	4319	4197	4283	4405	4459
Hythe Birth Centre	102	132	65	114	110
Lymington Birth Centre	121	105	95	85	148
Romsey Birth Centre	49	59	58	71	75

[1] Includes Broadlands Birth Centre which is co-located with Princess Anne hospital and cannot be separately identified.

Illegal Drugs (Staffordshire)

Mr. Jenkins: To ask the Chancellor of the Exchequer how many deaths in Staffordshire were caused by illegal drugs in each year since 1997. [29384]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell to Mr. Brian Jenkins, dated 17 November 2005:

As National Statistician I have been asked to reply to your recent question asking how many deaths in Staffordshire have been caused by illegal drugs since 1997. (29384)

Figures readily available from death certification relate deaths due to drug poisoning, not the total number that were attributable to drug use. These figures are produced from a special database which contains deaths where the underlying cause was drug poisoning. Deaths that may be caused indirectly by drug use, for example HIV infection or road traffic accidents, are not included. Death registration data are not the best source of information on these "indirect" deaths, because information on the role of drug use in the death may not be provided on the death certificate.

The most recent year for which figures are available is 2003. The table below shows deaths certified as due to drug poisoning and involving drugs controlled under the Misuse of Drugs Act for each year from 1997 to 2003.

Deaths certified as due to drug poisoning[1] and involving drugs controlled under the Misuse of Drugs Act, Staffordshire,[2] 1997–2003[3]

	Number of deaths
1997	10
1998	11
1999	21
2000	11
2001	8
2002	16
2003	12

[1] Defined using the following codes from the International Classification of Diseases, Tenth Revision for 2001–2003: F11-F16, F18-F19, X40-X44, X60-X64, Y10-Y14, X85 and the following codes from the International Classification of Diseases, Ninth Revision for 1997–2000: 292, 304, 305.2–305.9, E850-E858, E950.0-E950.5, E962.0 and E980.0-E980.5.

[2] Usual residents of the county of Staffordshire, excluding the Unitary Authority of Stoke on Trent.

[3] Data are for deaths occurring in each calendar year.

Income Tax Returns

Martin Horwood: To ask the Chancellor of the Exchequer how many fines were issued for the late return of income tax returns in each year since 2000, broken down by tax office; and how many were subsequently refunded in each year. [29049]

Dawn Primarolo: The following table sets out the numbers of first and second fixed penalty notices issued for failure to file self assessment tax returns by the due date, listed by Area for each year from 2001–02 (first year available) to 2004–05 (latest full year). Details of how many penalties were subsequently refunded each year are not held.

Long-term Limiting Illness

Mr. Neil Turner: To ask the Chancellor of the Exchequer what percentage of 65 to 74-year-olds are recorded as having a long-term limiting illness in *(a)* Inner London local authorities, *(b)* Outer London local authorities, *(c)* English metropolitan authorities outside London, *(d)* Wigan metropolitan borough council area, *(e)* Salford city council area, *(f)* Knowsley metropolitan borough council area, *(g)* South Tyneside council area, *(h)* Leeds city council area and (i) Wolverhampton city council area. [29473]

John Healey: The information requested falls within the responsibility of the national statistician who has been asked to reply.

Letter from Karen Dunnell to Mr. Neil Turner, dated 17 November 2005:

As National Statistician, I have been asked to reply to your recent question concerning what percentage of 65 to 74 year olds are recorded as having a long-term limiting illness in *(a)* Inner London local authorities, *(b)* Outer London local authorities, *(c)* English metropolitan authorities outside London, *(d)* Wigan Metropolitan Borough Council area, *(e)* Salford City Council area, *(f)* Knowsley Metropolitan Borough Council area, *(g)* South Tyneside Council area, *(h)* Leeds City Council area and (i) Wolverhampton City Council area. (29473)

We have interpreted "English metropolitan authorities outside London" to mean the metropolitan counties of Tyne and Wear, Greater Manchester, Merseyside, South Yorkshire, West Yorkshire and West Midlands

The table below shows the percentage of people aged between 65 and 74 in each of the requested geographies who were recorded as suffering from a limiting long-term illness on Census day (29 April 2001). The data have been taken from table S016 on the CD accompaniment to the "Census 2001 National Report for England and Wales part 1" which is available in the House of Commons Library.

England

	All people aged 65 to 74	*All people aged 65 to 74 who suffer from a limiting long-term illness*	*Percentage of people aged 65 to 74 who suffer from a limiting long-term illness*
Inner London Boroughs	151,246	66,920	44
Outer London Boroughs	311,813	119,187	38
English Metropolitan Counties	898,913	429,599	48
Wigan	23,823	12,725	53
Salford	18,320	9,264	51
Knowsley	13,548	7,762	57
South Tyneside	14,643	7,436	51
Leeds	57,254	25,028	44
Wolverhampton	21,250	10,094	48

Source:
Table S016 Census 2001 National Report for England and Wales part 1.

Network Rail

Mike Penning: To ask the Chancellor of the Exchequer what recent discussions he had with his Cabinet colleagues on the classification of Network Rail's liabilities; and if he will make a statement.

Mr. Des Browne: Treasury ministers meet regularly with Ministerial colleagues from other departments to discuss a range of issues. It has been the practice of successive governments not to disclose the details of such meetings. To do so could harm the frankness and candour of internal discussion. All such meetings are conducted in accordance with the Ministerial Code.

The ONS classified Network Rail as a Private Non-financial Corporation from 1 April 2003. ONS reached its decision on using internationally recognised standards for producing economic accounts. The ONS acts as an independent agency in compiling the public sector finances.

Public Service Pensions

Mr. Willetts: To ask the Chancellor of the Exchequer what estimate he has made of the percentage of gross domestic product which would be accounted for by public service pensions before the proposed reforms to the scheme in *(a)* 2003–04, *(b)* 2013–14, *(c)* 2023–24, *(d)* 2033–34, *(e)* 2043–44 and *(f)* 2053–54. [27045]

John Healey: Figures for spending on public service pensions are being reconsidered in the light of updated assumptions and revised figures should be available at the time of the forthcoming pre-Budget report.

Solar Photovoltaics Programme

Dr. Iddon: To ask the Chancellor of the Exchequer what economic assessment he has made of the 2003 Energy White Paper's commitment to a 2002 to 2012 solar photovoltaics programme; and if he will make a statement. [29334]

Malcolm Wicks: I have been asked to reply.

The Department has supported Photo voltaics since 2002 through the £31 million major photovoltaics demonstration programme. We plan to continue support for photovoltaics and other building scale renewables through a low carbon buildings programme, which is currently under development. The new programme will have a budget of £30 million over three years and will start in April 2006 subject to EU state aids clearance.

Torbay/Plymouth Unitary Authorities

Mr. Sanders: To ask the Chancellor of the Exchequer pursuant to the letter of 14 November from the National Statistician to the hon. Member for Torbay, what the figures are for the unitary authorities of *(a)* Torbay and *(b)* Plymouth. [29586]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell to Mr. Adrian Sanders, dated 17 November 2005:

As National Statistician, I have been asked to reply to your recent question, pursuant to my letter of 14th November,

regarding what the figures are for the unitary authorities of *(a)* Torbay and *(b)* Plymouth. (29586)

As in our previous response we have interpreted "carer" to mean any person who provides unpaid care.

The table below shows the number of people in Torbay and in Plymouth unitary authorities on Census day (29 April 2001) who were providing unpaid care, and of those how many were providing more than 50 hours of unpaid care per week. The data have been taken from table KS08 in *Census 2001 Key Statistics for local authorities in England and Wales* which is available in the House of Commons Library.

All people: Plymouth and Torbay UAs

		Provision of unpaid care	
Area	*All people*	*All people who provide unpaid care*	*All people who provide unpaid care : 50 or more hours of care a week*
Plymouth UA	240,720	24,038	3,932
Torbay UA	129,706	13,881	3,582

Table KS08 Census 2001 Key Statistics for local authorities in England and Wales.

Figures are not available for subsequent years.

Written Answers to Questions

Monday 21 November 2005

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Avian Influenza

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs who is responsible for licensing avian quarantine centres in the UK; how long such a licence is valid; and how many have been issued for *(a)* new and *(b)* existing centres in each year since 2000. [24652]

Mr. Bradshaw: Commission Decision 2000/666 requires quarantine facilities or centres to be approved by the competent authorities. In England approval is carried out by the State Veterinary Service.

Each approval lasts for one year and is renewed only after a satisfactory re-inspection.

Further to my answer given to the hon. Member on 7 November 2005, *Official Report*, column 6W, current records show that there are 52 bird quarantine facilities and centres in the UK that currently hold licences.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs how many avian quarantine centres have closed down because their licences were withdrawn in each year since 1997. [24653]

Mr. Bradshaw: Commission Decision 2000/666 requires quarantine facilities or centres to be approved by the competent authority of each member state. In England approval is carried out by the State Veterinary Service (SVS). The SVS has only ever withdrawn the approval for one avian quarantine facility or centre.

Anne Main: To ask the Secretary of State for Environment, Food and Rural Affairs what plans are in place to inform hon. Members of an outbreak of H5N1 within their constituencies; and if she will make a statement. [27441]

Mr. Bradshaw: The Department will inform hon. Members of an outbreak of highly pathogenic Avian influenza in their constituencies immediately a case is confirmed. This was the practice during the foot and mouth disease epidemic in 2001.

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make an assessment of the incidence of avian influenza in other countries. [28154]

Mr. Bradshaw: To date, there have been incidences of Highly Pathogenic Avian Influenza (HPAI) in Thailand, Vietnam, China, Mongolia, Russia, Kazakhstan, Romania, Turkey and Croatia.

Low Pathogenic Avian Influenza, which generally only causes mild disease or no disease at all in birds, is found throughout the world in wild bird populations.

Defra monitors the global situation closely and undertakes a qualitative risk analysis when new disease incident in an EU member state, a country on the border of the EU or one of the UK's third country trading partners has been notified. These risk assessments are published on the Department's website: http://defraweb/animalh/diseases/monitoring/riskassess.htm.

Information on the incidence of human influenza internationally is collated and distributed through a number of systems, including the World Health Organisation Influenza Surveillance Programme and the European Influenza Surveillance Scheme. The UK contributes to and receives data from both of these systems.

Mr. Dunne: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on her Department's recent preparations for a possible outbreak of Avian influenza in the UK. [28264]

Mr. Bradshaw: The Government already have in place an Exotic Animal Disease Generic Contingency Plan, which includes a section dealing specifically with an outbreak of Avian influenza. This would be invoked immediately if the need arose.

In addition the Government has:

Laid regulations which will enable us to implement the contingency plan in an effective manner;

Worked with our European partners to halt the importation of live wild birds on a temporary basis and impose additional restrictions on pet birds;

Banned imports of poultry meat and other products from affected areas;

Put in place surveillance arrangements on certain species of migratory wild birds;

Worked to stop bird fairs, markets and shows unless an individual risk assessment deems the risk to be low;

Announced plans for a register with Defra to enable us to have a compete database of poultry holdings;

Launched a review of avian quarantine arrangements;

Issued biosecurity advice with the aid of the poultry industry and distributed it to 3,800 vet practices in Great Britain alongside adverts in trade and specialist press.

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the latest outbreak of avian influenza in China. [25307]

Mr. Bradshaw: The UK recognises that the situation continues to develop worldwide. We are monitoring it closely and have stepped up work on surveillance, biosecurity and emergency preparedness.

When DEFRA is officially notified of a new disease incident in an EU member state, a country on the border of the EU or one of the UK's third country trading partners, we carry out a qualitative risk analysis. These are published on our website at: http://www.defra.gov.uk/animalh/diseases/monitoring/riskassess.htm

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether *(a)* broiler birds are allowed to go to slaughter and *(b)* replacement chicks are allowed to enter the farm if a flock is in a movement restriction zone; [26890]

(2) whether eggs will be able to go to the usual market each day if a layer unit is placed in a movement restriction zone; [26891]

(3) whether eggs will be able to leave the farm if a breeder unit is placed in a movement restriction zone. [26892]

Mr. Bradshaw: Current legislation bans movements of poultry and hatching eggs within the infected area around an outbreak. However, in certain circumstances, movements will be permitted under license and subject to biosecurity controls. These include:

(i) broiler birds going for immediate slaughter to a designated slaughterhouse;

(ii) the movement of day old chicks to premises where there are no other poultry; and

(iii) the movement of hatching eggs to a designated hatchery, subject to the eggs and their packing being disinfected before dispatch.

The movement of table eggs from farms in the infected area would be subject to biosecurity controls but the retail trade will not be affected.

Jeff Ennis: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* advice her Department has given to and *(b)* discussions her Department has had with poultry handlers to alert them to the possible dangers of an avian influenza outbreak. [27012]

Mr. Bradshaw: The Department has issued information regarding biosecurity advice and information on how to protect both poultry and workers from the risks of avian influenza.

We have distributed this guidance material to our partners in the industry who are helping to distribute to their members, who cover the great majority of bird keepers. In addition, the material has been mailed to 3,800 vet practices in Great Britain in order to reach the hobby keeper. We have also placed adverts in trade and specialist press to get biosecurity and surveillance messages across to this same group.

We have also had regular meetings with major stakeholders in order to keep our industry partners involved and updated with events.

Bees

Mr. Willis: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to put the supply of medicines for bees under the control of veterinary surgeons and licensed pharmacists. [29267]

Mr. Bradshaw: All authorised bee medicines in the UK are available as general sale products. There are no plans to put the supply of medicines for bees under the control of veterinary surgeons and licensed pharmacists. Changes in European legislation, implemented by the Veterinary Medicines Regulations 2005, require medicines for food producing animals to be POM. This change will take effect on 1 January 2007 before which the Commission are due to produce a list of exemption criteria for the POM requirement. The UK has proposed to the Commission that bee medicines should be in the exempt list.

Mr. Willis: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Veterinary Medicines Directorate is taking to ensure that beekeepers can become qualified in the supply of products for the control of varroa mites. [29268]

Mr. Bradshaw: Currently there is no requirement for a retailer to have any qualifications in order to supply medicines to treat bees in respect of varroasis.

However, on 1 January 2007 the provision in the Council Directive 2001/82/EC, as amended, which requires all medicines used in the treatment of food-producing animals to be prescription only medicines will come into force. The UK has asked for bee medicines to be exempted from the POM requirement. If this is not agreed, a beekeeper will have to be registered as a suitably qualified person (SQP) if they wish to supply these products. My officials have discussed the SQP requirements with the British Beekeepers Association and are aware of their wish to progress the provision of training for beekeepers as SQPs who are able to prescribe and supply products to treat diseases in bees. The British Beekeepers Association will be meeting the Animal Medicines Training Regulatory Authority early in 2006 to discuss this. If the exemption is agreed, the current sales arrangements for bee medicines will continue.

Birds

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs whether Pegasus Birds quarantine centre continues to hold a licence to quarantine birds; and when Pegasus Birds quarantine centre was last inspected. [28713]

Mr. Bradshaw: Commission Decision 2000/666 requires quarantine facilities or centres to be approved by the competent authority of each member state. In England approval is carried out by the State Veterinary Service (SVS).

Bird quarantine premises have annual approval visits by a Government Veterinary Officer. They are also visited at least three times by an approved Official Veterinarian during the quarantine period of each consignment.

The last approval visit for the quarantine premises in Essex was in December 2004. A further approval visit will be required if the owners wish to use the premises for imported birds in the future.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what checks were made on *(a)* Mr. Howard Savage and *(b)* Mr. Brett Hammond of Pegasus Birds to assess whether it would be appropriate to grant them a licence to quarantine birds. [28714]

Mr. Bradshaw: Checks are not carried out on individuals submitting applications for approval of quarantine premises.

The conditions for approving quarantine premises are laid down in Commission Decision 2000/666/EC. Approvals are based on location of premises, structural requirements, management requirements and welfare

provisions. Recommendations for approval or non-approval following a veterinary visit can include other known, relevant information.

Approvals are effective for one year and are dependent on all the laid-down conditions being met. Approvals may be withdrawn at any time should serious deficiencies occur.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the possibility that birds that had come into contact with the bird flu virus may have left Pegasus Birds quarantine centre. [28716]

Mr. Bradshaw: Essex county council is conducting an on-going investigation into the case at the Pegasus Centre. There is no evidence that we are aware of that live birds were removed from the facility during their period of quarantine.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs whether Pegasus Birds quarantine facility in South Fambridge meets all requirements of the licence to quarantine birds. [28720]

Mr. Bradshaw: Essex county council is conducting an on-going investigation into the Pegasus Centre.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how many facilities with licences to quarantine birds operate in the UK; and if she will order immediate inspections of them. [28717]

Mr. Bradshaw: Further to the answer given to the hon. Member for Brecon and Radnorshire (Mr. Williams) on 7 November 2005, *Official Report*, column 6W, current records show that there are 52 bird quarantine facilities and centres in the UK that hold licences.

We are currently awaiting an independent review of the avian quarantine system, which is due to report early in December.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what steps are being taken to prevent *(a)* deliberate and *(b)* accidental failures in the implementation of the quarantine rules. [28718]

Mr. Bradshaw: There is currently an independent review of the avian quarantine system being undertaken. This is due to report early in December.

Mr. Letwin: To ask the Secretary of State for Environment, Food and Rural Affairs how controls on live wild bird imports at ports of entry will be increased to prevent the smuggling of such birds once a ban on live wild bird imports is in place. [27315]

Margaret Beckett: We are working closely with the responsible enforcement authorities and HM Revenue and Customs (HMRC) on the issue of avian influenza. All enforcement authorities are on their guard for signs of illegal trade or movement of birds or poultry products that may be driven underground because of the various bans in place. The UK has asked enforcement authorities in other EU member states to be extra vigilant to protect the EU from further disease.

HMRC is responsible for action to prevent and detect illegally imported animal products from outside the EU and animals of endangered species covered by CITES (convention on international trade in endangered species). Enforcement control for other imports of animals rests with the SVS agency at the border inspection post and once inland, with the local authority.

Departmental Spending

Dr. Starkey: To ask the Secretary of State for Environment, Food and Rural Affairs how much funding was allocated by her Department to Milton Keynes for *(a)* capital projects and *(b)* revenue funding in each of the last five years. [23510]

Jim Knight: Expenditure information is not currently held by the Department on a constituency basis and could be provided only at disproportionate cost. Chapter 8 of Public Expenditure Statistical Analysis shows the outturn of public expenditure by region.

Fisheries

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what steps *(a)* her Department and *(b)* the EC and other EU member states are taking to monitor the level of cetacean by-catch and standings, with particular reference to that associated with the winter bass fishery. [28016]

Mr. Bradshaw: Council Regulation EC No. 812/2004 of April 2004, laying down measures concerning incidental catches of cetaceans, requires all member states to implement monitoring schemes with effect from 1 January 2005. These schemes are intended to provide representative data on by-catch in specified fisheries, including pelagic trawling in ICES sub area VII where the winter bass fishery takes place. Member states are required to provide an annual report to the Commission on the implementation of the observer schemes, with the first report due by 1 June 2006. We already have observer schemes in place to enable these requirements to be met.

In addition, we have recently published on the Defra website a report of Defra-funded research by the Sea Mammal Research Unit on by-catch observations and mitigation work in the UK bass pair trawl fishery in the 2004–05 season. A copy of this report will also be placed in the House Library.

I am not in a position to comment on the steps taken by other member states to monitor by-catch and strandings. However, Commissioner Borg has recently written to all member states on the subject of cetacean by-catch, stressing the importance of full compliance with the monitoring and reporting obligations of the Council regulation.

All cetacean species are protected against intentional killing, injury, capture or disturbance under the Wildlife and Countryside Act 1981, and since October 1994 are further protected under the Conservation (Natural Habitats, etc.) Regulations 1994 which implement the EC Directive on the Conservation of Natural Habitats and of Wild Flora and Fauna (the 'Habitats Directive'—92/43/EEC). To help monitor our compliance with the

legislation we have since 1990, funded a scheme for recording incidents of stranded cetaceans (whales, dolphins and porpoises) around the British Isles.

The information collected from this project is compared to identify the number of animals stranded and causes of death. If trends are identified, mitigation measures are taken to help prevent further loss of these species. This project has also help to identify a number of new research areas in connection with cetaceans that needed further investigation.

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what recent research she has *(a)* commissioned and *(b)* evaluated on the ability of (i) decapod crustaceans and (ii) cephalopods to experience pain; and if she will make a statement. [27997]

Mr. Bradshaw: DEFRA has not directly commissioned any research on the ability of decapod crustaceans or cephalopods to experience pain.

However, other research evaluated by DEFRA veterinary and scientific advisers shows no evidence that crustaceans are capable of conscious awareness, a prerequisite for experiencing pain.

The current scientific evidence on the ability of cephalopods to experience pain is less clear-cut. However, the use of certain animals, including cephalopods, in research, is being carefully considered at EU level.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will list the occasions since 21 March when monitoring of *(a)* fish stocks and *(b)* other marine wildlife has been instigated following the loss of a harmful cargo into the sea, giving in each case (i) the nature of the cargo, (ii) the period of monitoring and (iii) the results of that monitoring; [27828]

(2) what monitoring of *(a)* fish stocks and *(b)* other marine wildlife occurs in parts of UK waters where harmful cargoes are known to have been lost overboard. [27829]

Mr. Bradshaw: There have been no such occasions since 21 March.

For English waters the Department assesses whether any environmental impact assessment is required following a pollution incident or loss of a hazardous cargo that may cause pollution, and makes arrangements for its preparation. The devolved Administrations make their own arrangements.

The last such assessment in the UK was requested by the Secretary of State for Wales on 27 March 1996 following the Sea Empr[illegible] Incident. The Sea Empress Environmental Evaluation Committee published its report in 1998—"The Environmental Impact of the Sea Empress Oil Spill", the Stationery Office, ISBN 0-11-702156-3.

The Department d[illegible]s carry out regular monitoring of fish stocks and marin[illegible]ldlife throughout our waters, in addition to any spec[illegible] studies required following pollution incidents. A wide variety of monitoring stations are in use to obtain a thorough overview. This may include monitoring stations in parts of UK waters where harmful cargoes are known to have been lost overboard, but they were not placed there specifically because of cargo loss. The most recent report of these regular monitoring activities is set out in "Charting progress: an integrated assessment of the state of UK seas" was published on 1 March 2005. A copy was placed in the Library of the House, and it can be downloaded from DEFRA's website:

http://www.defra.gov.uk/environment/water/marine/uk/stateofsea/index.htm

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many incidents in the last year for which figures are available of *(a)* marine pollution and *(b)* coastal pollution have resulted in (i) court actions and (ii) fines; and what the (A) nature and (B) level of (i) conviction and (ii) financial penalty was in each case. [27830]

Mr. Bradshaw: Information is not held in this form.

The Department's Sea Fisheries Inspectorate carried out a prosecution on behalf of DEFRA in 2004 following deposits of dredged material into the sea without the required licence under the Food and Environment Protection Act 1985 for the deposit of substances and articles in the sea. One of the joint defendants was fined £40,000 and the other £20,000.

The Maritime and Coastguard Agency (MCA) of the Department for Transport have carried out one prosecution this year following dumping of garbage including sleeping bags, polystyrene and plastic bags into the sea under the Merchant Shipping (Prevention of Pollution by Garbage) Regulations 1998. The defendant was fined £2,000.

The Maritime and Coastguard Agency have carried out two prosecutions this year following breaches of the UK maritime pollution legislation. One defendant was fined £20,000 and £11,344 costs and the other defendant was fined £5,000 and £4,379.70 costs.

The MCA sponsor the Advisory Committee for the Protection of the Sea to produce an annual survey of reported discharges attributed to vessels and offshore oil and gas installations. The report for 2004 records 10 successful prosecutions for oil pollution offences. Total fines imposed by the competent authorities which included ports and harbours amounted to £122,200, providing a mean value of £12,200.

The Environment Agency (who have regulatory powers in coastal waters up to three miles offshore) have recorded 11 minor "marine" incidents in 2004 for which no formal enforcement action was taken.

The Department of Trade and Industry carried out a prosecution this year following an unpermitted discharge of an offshore chemical under the Offshore Chemicals Regulations 2002. The offshore platform operator was fined £3,000 in a Scottish Court.

Landfill

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs how many suitably engineered commercial licensed landfill sites are capable of processing a consignment of bird carcases; where they are situated; and if she will make a statement. [29324]

Mr. Bradshaw *[holding answer 17 November 2005]:* In consultation with the Environment Agency, officials are currently reviewing the suitability for poultry carcase disposal of all commercial licensed landfills. Once this review is complete a list of potentially suitable sites will be made public.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs how many suitably engineered commercial licensed landfill sites are under construction. [29325]

Mr. Bradshaw *[holding answer 17 November 2005]:* Defra and the Environment Agency will only consider commercial licensed landfills for carcase disposal that are already in operation. The review of potentially suitable sites will therefore not assess any sites that are under construction.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the risk of transmission of Avian influenza by birds scavenging infected carcasses buried in suitably engineered commercial licensed landfills. [29326]

Mr. Bradshaw *[holding answer 17 November 2005]:* It is acknowledged that if scavenging birds were to come into direct contact with the carcases of infected birds that had recently died or been killed for disease control purposes, there is a small risk of them becoming infected and transmitting the disease to other birds.

In the event that commercial licensed landfill was used for carcase disposal this risk would be mitigated by ensuring that carcases were immediately covered with other material to a depth of at least 1 m and that at the end of each working day, carcases were covered by at least 2 m of cover material. All sites used for carcase disposal will have Pollution, Prevention and Control (PPC) conditions in place as well as a bespoke bird deterrent/management plan drawn up and implemented by bird control experts from the Central Science Laboratory.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of whether there is sufficient capacity in suitably engineered commercial licensed landfills to dispose of the projected number of bird carcases infected with Avian influenza in the event of incineration capacity being fully utilised. [29386]

Mr. Bradshaw *[holding answer 17 November 2005]:* Officials are working with the Environment Agency to review the capacity of suitably licensed landfills for the disposal of infected poultry carcases, in the event that there is insufficient capacity at incineration and rendering plants. Based on the capacity as assessed following the foot and mouth disease outbreak in 2001, officials advise that there would be more than sufficient capacity in commercial licensed landfill to dispose of the projected number of poultry carcases.

Live Animals (Transport)

Mr. Letwin: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received on the imposition of a maximum time limit on the transport of live animals. [27329]

Margaret Beckett: Representations have been made by welfare organisations and individuals to limit the length of time animals could be transported to slaughter. However, agreement on journey times could not be reached by a majority of member states in negotiations on new welfare during transport rules last year. We will continue to press for improvements in the review of these rules, which is to take place in 2011.

Ministerial Visits

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs how many times she has visited *(a)* Dacorum and *(b)* Hertfordshire in her official capacity in the past 12 months; and what the purpose was of each visit. [29920]

Margaret Beckett: My official duties have not involved visits to either location in the past 12 months.

Special Advisers

John Hemming: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the special advisers in post in her Department, broken down by pay band; and what the total budgeted cost to her Department of special advisers is for 2005–06. [29417]

Margaret Beckett: Since 2003, the Government has published on an annual basis the names and overall cost of special advisers and the number in each pay band. For the most recent information I refer the hon. Member to the statement made by the Prime Minister on Thursday 21 July 2005, *Official Report*, columns 158–162WS.

Information on the numbers of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House.

Tidal Surges (Essex)

Mr. Jenkin: To ask the Secretary of State for Environment, Food and Rural Affairs what estimates have been made of the *(a)* probabilities and *(b)* heights of tidal surges affecting the Essex coastline in each of the next five decades; and if she will make a statement. [30601]

Mr. Morley: Defra has policy responsibility for flood risk management in England. The principal authority with operational responsibility is the Environment Agency. The agency has undertaken no work to assign future probabilities to surge height estimates along the Essex coast. However, detailed studies have been completed to determine peak water levels for design and planning purposes along the Thames Estuary. These water levels are projected into the future by applying the Defra precautionary allowances for the effects of sea level rise. The Environment Agency has commissioned research to better understand future probabilities of sea levels in the Southern North Sea.

Veterinary Surgeons

David Lepper: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on proposals to review the Veterinary Surgeons Act 1966; and what the arrangements are for public consultation on such a review. [29018]

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to bring in a bill dealing with veterinary misconduct. [30397]

Mr. Bradshaw: We issued a consultation document on the modernisation of the Veterinary Surgeons Act on 24 September 2003. The Government remain committed to introducing new proposals concerning the regulation of the veterinary profession. It is important that we reflect the way that veterinary services have changed and the need for regulatory bodies and professions as a whole to be accountable and transparent in their dealings with their customers. There is particular need for change in relation to the procedures that govern the way that complaints about the conduct of veterinary surgeons are handled.

We are developing options on which to base a draft Bill and will ensure that there is appropriate consultation of stakeholders.

Waste

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to promote waste minimisation alongside household waste recycling; and what measures are used to gauge progress. [28488]

Mr. Bradshaw *[holding answer 15 November 2005]:* Waste minimisation is at the top of the waste hierarchy set out in the Government's Waste Strategy 2000. That strategy is itself currently under review, but there is no question of our downplaying the role of minimisation in future.

Currently waste minimisation is incentivised by a wide range of policy drivers, including notably the landfill tax escalator, landfill allowance trading scheme (LATS), the waste minimisation work of the Waste Resources and Action Programme (WRAP) and the tonnage recovery and recycling obligations in the packaging Regulations which encourage businesses to reduce the amount of packaging going through their companies.

A number of measures are used to gauge the success of waste minimisation policies including statistics on waste arisings and other forms of research.

Wind Farms

Mrs. Moon: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the availability of the terms of consents for wind farm applications under the Food and Environment Protection Act 1985 in response to requests for access from local groups. [27299]

Mr. Bradshaw: In addition to a consent under the Electricity Act 1989 (or an Order under the Transport and Works Act 1992), the construction of an offshore wind farm also requires a licence under the Food and Environment Protection Act 1985.

Any such licence and the terms and conditions which it applies, are available to the public by virtue of the Deposits in the Sea (Public registers of Information) Regulations 1996 and may be inspected at the offices of the licensing authority.

Mrs. Moon: To ask the Secretary of State for Environment, Food and Rural Affairs whether account is taken of science-based evidence provided by local groups within proceedings to consider consents for wind farms under the Food and Environment Act 1985. [27300]

Mr. Bradshaw: The construction of an offshore wind farm requires both a consent under the Electricity Act 1989 (or an Order under the Transport and Works Act 1992) and a licence under the Food and Environment Protection Act 1985.

Proposed marine wind farms are subject to environmental impact assessment by Regulators under the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000 (or Transport and Works (Assessment of Environmental Effects) Regulations 2000 (England and Wales)); the Environmental Statement being advertised for public inspection.

Comments and representations made in response to this consultation process together with any views expressed by a range of other stakeholders will be taken into account by the consenting and licensing authorities in determining whether to grant approval to the project and, if so, any terms and conditions that will apply.

SOLICITOR-GENERAL

Army Prosecuting Authority

Mr. Mullin: To ask the Solicitor-General what arrangements exist for independent inspection of the Army Prosecuting Authority; and if he will make a statement. [29563]

The Solicitor-General: At present no arrangements exist for an independent inspection of the Army Prosecution Authority.

Departmental Skills Development Plan

Mr. Gibb: To ask the Solicitor-General if he will place in the Library a copy of his Department's Skills Development Plan. [23862]

The Solicitor-General: I am answering this question on behalf of the Crown Prosecution Service (CPS), Treasury Solicitor's Department (TSol), Serious Fraud Office (SFO), Revenue and Customs Prosecution Office (RCPO) and HMCPS Inspectorate (HMCPSI).

The CPS, as the largest of my departments has a skills strategy, which is part of their workforce development plan. I will place a copy in the Library.

TSol addresses its skills and development needs via its annual training and development plan. This plan aims to ensure that everyone in TSol has the knowledge, skills and abilities necessary to undertake their jobs effectively and to realise their potential. A copy of this plan will be placed in the Library.

SFO currently does not have a departmental skills development plan; and RCPO as a new department has yet to devise its detailed training and development plan.

HMCPSI is considering how best to take forward its skills development plan in the context of the specialist nature of inspection work, the requirements of professional skills for Government and the work of the Government legal service. Many of HMCPSI staff are on loan to the Inspectorate and will fall within the remit of their parent Department skills development plans.

Domestic Violence

Lynne Featherstone: To ask the Solicitor-General how many prosecutions for domestic violence in the jurisdiction of London courts have *(a)* come to court and *(b)* resulted in conviction in each of the last five years. [28395]

The Solicitor-General: During the year April 2004 to March 2005, there were a total of 2,807 prosecutions for domestic violence in the jurisdiction of the London courts. Of these, 1,365 (48.6 per cent.) were convicted, 1,187 (42.3 per cent.) were dropped, and 255 (9.1 per cent.) were acquitted.

For the current year from 1 April 2005 to 9 November 2005, there were a total of 2,568 prosecutions for domestic violence. Of these 1,330 (51.8 per cent.) were convicted, 995 (38.7 per cent.) were dropped and 243 (9.5 per cent.) were acquitted.

Comparable figures are not held for previous years.

SCOTLAND

Departmental Spending

David T.C. Davies: To ask the Secretary of State for Scotland how much his Department spent on items of art in 2004–05. [23463]

David Cairns: The Scotland Office has not spent any money on the purchase of works of art in 2004–05.

Scottish Grand Committee

Mr. Moore: To ask the Secretary of State for Scotland how many meetings of the Scottish Grand Committee there were in *(a)* 2004 and *(b)* to date in 2005; where the meetings were held; and what the subject matter of debate was in each case. [29792]

David Cairns: There have been no meetings of the Scottish Grand Committee in the period stated and neither have there been any requests for meetings.

TRANSPORT

Carbon Management Programme

Norman Lamb: To ask the Secretary of State for Transport whether his Department will sign up to the Carbon Trust's carbon management programme. [23718]

Ms Buck: The Department will consider joining the carbon management programme and officials have made contact with the Carbon Trust regarding this initiative. A decision will be taken in light of these discussions and after the Defra experiences have been evaluated.

The Department has already pledged to offset the carbon dioxide from DfT official air travel as part of a Government wide commitment and is leading a pan-government contract to facilitate the purchase of emission reductions generated by a Clean Development Mechanism project or portfolio of projects. This project, or projects, will need to provide Certified Emissions Reductions to offset at least 100,000t CO_2 emissions, associated with pan-government air travel, per year and provide significant and quantified sustainable development benefits.

Cargo Transfers

Mark Lazarowicz: To ask the Secretary of State for Transport (1) what measures are in place to allow relevant local authorities a role in the supervision of ship-to-ship cargo transfer operations in estuaries around the UK coast; [19650]

(2) what account he will take of the protection of the marine environment when he decides on the application by Melbourne Marine Services for ship-to-ship cargo operations in the Firth of Forth; [19673]

(3) when he expects to make a decision on the application by Melbourne Marine Services for ship-to-ship cargo transfer operations in the Firth of Forth. [19674]

Dr. Ladyman: Local authorities do not have a role in the supervision of ship-to-ship cargo transfer operations.

The application which has been submitted to the Department's Maritime and Coastguard Agency is from Forth Ports plc, and relates to the oil spill contingency plan for Forth Ports plc's harbour authority area and its revision and amplification to address the specific risks associated with ship-to-ship transfers of oil in that harbour authority area. The Secretary of State for Transport does not decide whether a ship-to-ship transfer may or may not take place. The MCA's role is limited to approving harbour authorities' oil spill contingency plans which address the potential risks of such activities.

As the Secretary of State for Transport announced today, the Maritime and Coastguard Agency (MCA) is to co-ordinate a public consultation to assess the implications for relevant nature conservation sites of Forth Ports plc's revised and amplified oil spill contingency plan. The consultation will last 12 weeks, and is designed to establish whether the revised and amplified plan will adversely affect the integrity of those nature conservation sites.

At the end of this process, in the light of the consultation responses and taking into account the advice of Scottish Natural Heritage, the statutory nature conservation authority, the MCA will finalise its appropriate assessment and consider whether any amendments to the plan are needed.

Consultants

Martin Horwood: To ask the Secretary of State for Transport what steps the Department takes to ensure that consultancies do not claim excessive expenses while working for his Department and its agencies. [29061]

Ms Buck: Where a consultant incurs travel and subsistence expenses as a result of carrying out contracted service for the Department, the costs will either be included in the tendered price or recovered separately, depending on the nature of the work and the amount of travel involved.

Where expenses are included in the tendered price, the Department's conditions of contract stipulate that the rates shall not exceed the upper limit of allowances payable to departmental staff of equivalent status. Where expenses are recovered separately they are reimbursed at cost, subject the upper limit of allowances payable to departmental staff of equivalent status.

The Department's conditions of contract make it clear that any travel undertaken as a consequence of performing the contract must utilise the most effective means (taking into account the cost of travel, the cost of meals and accommodation and savings in time) for the whole journey, and that claims for travelling and subsistence must be related to the performance of the duties for the purposes of the contract, and be certified as such. Visits abroad require the prior approval of the Department.

It is the responsibility of the Department's contract manager in each case to ensure that all invoices submitted by the consultant are in accordance with the Department's terms and conditions of contract.

Departmental Assets

Mike Penning: To ask the Secretary of State for Transport if he will list the 10 most valuable *(a)* movable and *(b)* immovable assets owned by his Department. [27378]

Ms Buck: The information is as follows:

Departments 10 highest movable and immovable assets

		£
Movable assets		
Cnis System Replacement	MCA	2,097,774
Automatic Identification Sys	MCA	1,348,547
Data Warehouse	MCA	592,655
ICCS Milford Haven Comms	MCA	460,072
Road Inspection Vehicle	HA	888,000
SAP System	DSA	1,355,000
Internet Booking System	DSA	701,000
ASR System	DSA	671,000
PCs in Test Centres Network	DSA	443,000
Scrter digital printers	DVLA	1,825,300
Immovable assets		
Channel Tunnel Rail Link Land	DfT (c)	1,554,100,000
Transport Direct Portal	DfT (c)	23,715,970
IMO Building -4 Albert Embankment	DfT (c)	21,816,387
Trunk Road Network	HA	72,144,374,000
Land at Dartford	HA	35,989,000
National Traffice Control Centre	HA	46,714,000
Directs Road User	DfT(c)	8,739,607
Cardington Training Centre (Freehold)	DSA	7,513,000
Main HQ, York	SRA	13,060,000
Kew Bridge North	SRA	9,000,000

Departmental Equipment

Mr. George Howarth: To ask the Secretary of State for Transport how many *(a)* mobile phones, *(b)* lap top computers and *(c)* desk top computers there are within the Department; and what their cost to the Department was in 2004–05. [26532]

Ms Buck: The information for the Department and its agencies is as follows:

DfT HQ

The requested information is not held centrally and could be obtained only at disproportionate cost. The following figures are estimates based on the available information.

	Number	*Cost in 2004–05 (£)*
Mobile phones	724	48,289
Lap top computers	778	151,219
Desk top computers	2,113	633,121.70

DSA

	Number	*Cost in 2004–05 (£)*
Mobile phones	222	41,523.29
Lap top computers	132	[1]—
Desk top computers	1,394	[1]—

[1] Information on the costs of lap top and desk top computers in 2004–05 is not available as the period covered the transition from one managed service contract to another. Such information could be obtained only at disproportionate cost.

DVLA

	Number	*Cost in 2004–05 (£)*
Mobile phones	452	34,521.86
Lap top computers	307	16,746.56
Desk top computers	8,668	89,863.64

Highways Agency

	Number	*Cost in 2004–05 (£)*
Mobile phones	1,066	233,056.90
Lap top computers	753	78,397.18
Desk top computers	[1]2,887	530,499.64

[1] Includes 46 thin client terminals.

MCA

	Number	*Cost in 2004–05 (£)*
Mobile phones	474	142,246
Lap top computers	451	42,580
Desk top computers	857	16,020

VCA

	Number	*Cost in 2004–05 (£)*
Mobile phones	58	1,747
Lap top computers	54	42,000
Desk top computers	56	30,000

VOSA

	Number	*Cost in 2004–05 (£)*
Mobile phones	1,079	357,008
Lap top computers	1,010	n/a
Desk top computers	1,240	n/a

n/a = not available

Notes:

1. The numbers of lap top and desk top computers were those in use at the end of March 2005.

2. It is not possible to determine the cost of lap top and desktop computers in 2004–05 as VOSA pay Atos Origin on a managed service basis, rather than for just the supply of equipment. Therefore, the equipment costs are wrapped up into a monthly charge for service provision (including all network costs, software, hardware, the helpdesk etc.).

Heavy Goods Vehicles

Mr. Drew: To ask the Secretary of State for Transport how many responses were received to the consultation on applications of conspicuity markings to heavy vehicles; and how many were *(a)* for and *(b)* against change. [30804]

Dr. Ladyman: We received 71 responses to the consultation, of which 55 supported the mandatory fitment of conspicuity markings. Seven responses were opposed and the remainder expressed no clear opinion.

Among those opposed were major trade bodies, who represent the views of members operating over 200,000 goods vehicles and so represent a significant level of opposition to mandatory conspicuity marking.

A note about responses to the consultation is in preparation and will be published shortly on the Department for Transport website.

Mr. Drew: To ask the Secretary of State for Transport pursuant to the answer of 17th October 2005, *Official Report*, column 678W, on heavy goods vehicles, why the United Kingdom opposed the proposal made at the GRE Committee of the UNECE to make ECE 104 retro-reflective tape mandatory on the side and rear of heavy goods vehicles; and how many countries *(a)* supported and *(b)* opposed the United Kingdom's position. [30805]

Dr. Ladyman: We have been concerned that the mandatory use of retro-reflective marking tape will add additional burdens on the haulage industry associated with the cost of fitting and maintaining the tape. In light of this the UK proposed that fitment of the tape should be optional.

None of the other countries present at the meeting supported the UK position and in view of this the UK has agreed to the amendment of UNECE regulations to mandate the use of retro-reflective marking tape.

Hybrid Cars

Mr. Peter Robinson: To ask the Secretary of State for Transport how many hybrid petrol/electric cars have been sold in the United Kingdom in each of the last five years. [28848]

Dr. Ladyman: The following table shows the number of hybrid electric cars newly registered in the UK from January 2001 to September 2005 according to the Drivers and Vehicle Licensing Agency database.

	Number of hybrid cars (petrol/electric)
2001	569
2002	283
2003	374
2004	1,569
2005 (to September)	4,061

Invalid Carriages

Bob Russell: To ask the Secretary of State for Transport when he will publish the report of the Consultation on the Transport Review of Class 2 and Class 3 Powered Wheelchairs and Powered Scooters (Invalid Carriages); and if he will make a statement. [28635]

Ms Buck: The research into the use of these vehicles has been completed and we are considering the recommendations made in the final report and we hope to publish it before the end of this year.

Merseytram Services

Mrs. Ellman: To ask the Secretary of State for Transport what assessment he has made of the likely impact of Merseytram Line 1 on regeneration in Merseyside. [26247]

Derek Twigg *[holding answer 8 November 2005]:* It is for scheme promoters to undertake a detailed assessment of the impact of their light rail scheme on regeneration, as part of their bid for major scheme funding. Merseytravel submitted its Economic Impact Report for Merseytram Line 1 in December 2004.

The Department considered that the promoters' assessment of regeneration and employment impacts had overstated the creation of additional jobs.

Ministerial Travel

Norman Baker: To ask the Secretary of State for Transport how much has been spent in each year from 1 May 1997 on ministerial travel arrangements, broken down by *(a)* provision and running costs of vehicular transport, *(b)* first class travel by rail, *(c)* standard class travel by rail, *(d)* first class travel by air, *(e)* club or equivalent class travel by air and *(f)* economy class travel by air. [27775]

Ms Buck: All ministerial travel is undertaken in accordance with the rules set out in the Ministerial Code and Travel by Ministers, copies of which are available in the Libraries of the House.

In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers

costing £500 or more during each financial year. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. These report information for the financial years 1995–96 to 2004–05. Information for 2005–06 will be published as soon as it is ready after the end of the current financial year.

The Department for Transport was formed on 29 May 2002 and gained an additional Minister in July 2003. Travel and subsistence costs incurred by Ministers and their private office staff when travelling in the United Kingdom during each financial year are as follows:

	£
29 May 2002 to 31 March 2003	22,311
1 April 2003 to 31 March 2004	47,880
1 April 2004 to 31 March 2005	51,840

Ministers use a variety of public transport services when undertaking departmental business. However, information about the mode and class of transport used by Ministers on departmental business is not held centrally and cannot be obtained without incurring disproportionate cost.

My hon. Friend the Parliamentary Secretary at the Cabinet Office (Mr. Murphy) has asked Roy Burke, Chief Executive of the Government Car and Despatch Agency (GCDA) to write to the hon. Member with details of costs of ministerial vehicles provided to Departments in 2004–05. Copies of his letter will be placed in the Library.

For information for the financial years 2000–01 to 2003–04 I refer the hon. Member to the letters from the Chief Executive of the GCDA to the hon. Member for Buckingham (John Bercow) dated 10 January 2005 and to the then hon. Member for Arundel and South Downs (Howard Flight) dated 13 September 2003. Copies of these letters are available in the Library.

Mike Penning: To ask the Secretary of State for Transport if he will list, for each year since 1995, the number of flights, including helicopter flights, taken by Ministers within his Department for UK and overseas visits; on how many occasions *(a)* charter flights were used and *(b)* first and club class tickets were obtained; and if he will indicate who accompanied the Ministers on each trip. [27811]

Ms Buck: The detailed information requested can not be obtained without incurring disproportionate cost.

However, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The list indicates when non-scheduled flights were used, and shows how many Officials accompanied Ministers in those circumstances. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. These report information for the financial years 1995–96 to 2004–05. Information for 2005–06 will be published as soon as it is ready after the end of the current financial year.

All ministerial travel is undertaken in accordance with the rules set out in the "Ministerial Code" and "Travel by Ministers", copies of which are available in the Libraries of the House.

Motorways

Mr. Lidington: To ask the Secretary of State for Transport how many miles of motorway in England have been resurfaced across their entire width with a noise suppressing surface. [30084]

Dr. Ladyman: The motorway network comprises 3,593 miles of two and three lane carriageway, of which 680 miles has been resurfaced with quieter surfacing across all respective carriageway lanes.

The Highways Agency does not record motorway carriageway data on a route basis. The motorway and trunk road network is managed on the basis of the two individual carriageways that comprise a motorway route (ie one carriageway in each direction); information for a complete width of motorway along a prescribed route cannot therefore be readily reported.

Mr. Paul Goodman: To ask the Secretary of State for Transport how many kilometres of motorway received quiet surfacing in all lanes in *(a)* 2004, *(b)* 2003 and *(c)* 2002; and what percentage of the highway network each figure represents. [30093]

Dr. Ladyman: Motorway carriageway lengths that were resurfaced with quieter surfacing in all lanes and in both directions in each of the identified years, together with the associated percentage of the motorway network are shown in the table:

	Carriageway length (km)	*% of motorway network*
2002	146	2.5
2003	241	4.2
2004	97	1.7

Mr. Lidington: To ask the Secretary of State for Transport if he will list the stretches of the M40 across which all lanes have been resurfaced with a noise suppressing surface; and what the length of the stretch involved is in each case. [30083]

Dr. Ladyman: The lengths of M40 motorway that have surfacing with noise reducing properties across all running lanes (not including the hardshoulder) are as follows:

Location	*Carriageway direction*	*Length (metres)*
2,200m north of J1A to 900m north of J4	Both	17,000
5,800m north of J4 to 5,960m north of J4	Both	160
200m south of J5 to 300m north of J5	South	500
170m south of J6 to 1,050m north of J6	Both	1,220
1,100m north of J6 to 2,080m north of J6	Both	980
2,130m north of J6 to 100m north of J8	Both	8,370
400m north of J8A to 800m north of J8A	South	400
5,400m north of J8A to 5,500m north of J8A	South	100
5,700m north of J8A to 5,860m north of J8A	South	160
5,860m north of J8A to 5,880m north of J8A	Both	20
5,880m north of J8A to 5,900m north of J8A	South	20
6,800m south of J9 to 6,700m south of J9	North	100
3,830m south of J10 to 3,760m south of J10	South	70
2,600m south of J10 to 2,300m south of J10	North	300

Location	Carriageway direction	Length (metres)
2,300m south of J10 to 2,100m south of J10	Both	200
1,100m south of J10 to 1,000m south of J10	North	100
5,900m north of J10 to 5,960m north of J10	South	60
6,000m north of J10 to 6,100m north of J10	North	100
7,000m north of J10 to 7,100m north of J10	Both	100
7,500m south of J11 to 7,400m south of J11	Both	100
7,000m south of J11 to 6,900m south of J11	South	100
6,900m south of J11 to 6,800m south of J11	North	100
5,200m south of J11 to 5,100m south of J11	North	100
3,500m south of J11 to 3,300m south of J11	South	200
3,300m south of J11 to 3,200m south of J11	Both	100
2,900m south of J11 to 2,800m south of J11	Both	100
2,500m south of J11 to 2,400m south of J11	Both	100
700m north of J11 to 900m north of J11	Both	200
1,200m north of J11 to 1,300m north of J11	Both	100
1,300m north of J11 to 1,400m north of J11	South	100
1,600m north of J11 to 1,700m north of J11	Both	100
1,800m north of J11 to 1,900m north of J11	North	100
5,600m north of J11 to 5,700m north of J11	North	100
8,290m south of J12 to 8,210m south of J12	North	80
5,800m south of J12 to 5,520m south of J12	South	280
5,200m south of J12 to 5,100m south of J12	North	100
1,400m south of J12 to 1,300m south of J12	South	100
2,100m north of J12 to 2,400m north of J12	South	300
3,400m north of J12 to 3,600m north of J12	Both	200
4,600m south of J13 to 4,400m south of J13	Both	200
4,400m south of J13 to 4,100m south of J13	South	300
4,000m south of J13 to 2,800m south of J13	North	1,200
1,400m north of J13 to 900m north of J14	South	2,200
900m north of J14 to 1,000m north of J14	Both	100
1,000m north of J14 to 300m south of J15	South	800
10,800m north of J15 to 10,900m north of J15	South	100
11,220m north of J15 to 11,290m north of J15	South	70

National Port Traffic

Mr. George Howarth: To ask the Secretary of State for Transport when he expects consultation will begin on a national ports strategy. [28085]

Dr. Ladyman: We expect to begin consultation early next year. General discussions have been held with some major stakeholders.

Ports Policy

Vera Baird: To ask the Secretary of State for Transport what date has been set for the release of the forthcoming review of ports policy. [30431]

Dr. Ladyman: We expect to issue a discussion document early next year.

Railways

Mr. George Howarth: To ask the Secretary of State for Transport whether franchises for passenger rail services specify the proportion of standard class carriages to first class carriages that must be provided on intercity routes. [28078]

Derek Twigg: When letting new franchises, it is at a bidder's discretion to specify what proportion of standard class to first class carriages on intercity routes it will provide.

Road Accidents (Cumbria)

Tim Farron: To ask the Secretary of State for Transport how many *(a)* pedestrians, *(b)* cyclists, *(c)* drivers and *(d)* car occupants have been (i) injured and (ii) killed in Cumbria in each of the last six years for which figures are available. [30463]

Dr. Ladyman: The number of killed and injured pedestrian, cyclist, driver and car occupant casualties in Cumbria are given in the following table for the years 1999 to 2004.

	Pedestrians		Cyclists		Drivers[1]		Car Occupants[2]	
	Killed	Injured[3]	Killed	Injured[3]	Killed	Injured[3]	Killed	Injured[3]
1999	9	292	1	151	37	1,526	44	2,024
2000	11	252	1	135	31	1,465	34	1,914
2001	7	257	2	133	30	1,454	30	1,873
2002	10	265	3	138	27	1,547	25	1,977
2003	5	250	0	139	35	1,511	32	1,867
2004	7	291	3	118	28	1,486	37	1,853

[1] Drivers of all motor vehicles.
[2] Includes both car drivers and passengers. Car drivers have been counted in both the car occupants and drivers columns.
[3] Includes both serious and slight injuries.

Speed Limits

Mrs. Maria Miller: To ask the Secretary of State for Transport when the procedure for changing speed limits on A roads was last reviewed; and if he will make a statement. [28327]

Dr. Ladyman *[holding answer 17 November 2005]:* The Government has no current plans to review the national speed limits for which it is responsible, namely:

70 mph for motorways and dual carriageways;

60 mph for single carriageway roads;

30 mph for urban street-lit roads ('restricted roads').

Where they feel that the national limit does not reflect local needs and considerations, traffic authorities (local highway authorities and the Highways Agency) have the powers to set local speed limits through section 84 of the Road Traffic Regulation Act 1984. This power applies to their entire road network, irrespective of the classification of roads (A, B, C and Unclassified roads).

To help ensure consistency in the setting of local speed limits, the Department has issued guidance, currently set out in Circular Roads 1/93. Many developments have taken place in speed management since 1993, and the Department consulted on draft updated guidance on setting local speed limits at the end of 2004. As well as further improving clarity and consistency, the draft seeks to re-emphasise that the function of a road should be one of the important factors in determining what an appropriate speed is. It will also incorporate important wider factors such as quality of life through, for

example, striking a more sensible balance between road safety, accessibility and environmental objectives, especially in rural areas.

The updated guidance on the setting of local speed limits will be published shortly.

HOUSE OF COMMONS COMMISSION

Abingdon Green Ticket Booth

Mr. Kevan Jones: To ask the hon. Member for North Devon, representing the House of Commons Commission what the cost of providing the ticket-booth on Abingdon Green during the summer was; and who bears the cost. [28722]

Nick Harvey: The cost of erecting and fitting out the ticket booth at the beginning of the season and taking it down at the end amounted to some £73,000. Electricity used during the summer opening is estimated to have cost some £230. 60 per cent. of these costs are borne by the House of Commons and the remainder by the House of Lords.

Cleaners' Pay

Lynne Jones: To ask the hon. Member for North Devon, representing the House of Commons Commission pursuant to the oral answer of 18 October 2005, *Official Report*, column 699, on cleaners' pay and conditions, if the Commission will meet the Transport and General Workers Union and the employers of the contract cleaners employed on the Parliamentary Estate; and if he will make a statement. [30840]

Nick Harvey: The Commission has no plans for such a meeting. The current dispute is between the employers and their employees. I refer the hon. Member to my answer of 15 November 2005, *Official Report*, column 1102W.

Information Office

Mr. Steen: To ask the hon. Member for North Devon, representing the House of Commons Commission how many enquiries the House of Commons Information Office has received in each of the past three years; how many members of staff it employs; and what the cost has been of providing the service in each of the last three years. [30166]

Nick Harvey: The following table shows the information requested:

Financial year	*2002–03*	*2003–04*	*2004–05*
Enquiries			
Number of enquiries received	75,700	64,720	58,067
Staff			
Full-time equivalents in post at year-end	12.5	12.5	12.5
Finance (£000)			
Total identifiable costs[1]	426.5	442.2	431.5
of which			
Staff costs[2]	344.9	345.0	319.7

[1] Figures exclude costs which cannot be identified separately from the Library's budget (stationery, publications, training, IT support, postage) and costs which are not included in departmental budgets (IT network, telephones, accommodation, utilities).

[2] Includes provision for pension liabilities, calculated as 17 per cent. of basic pay.

The number of enquiries received has declined over the last three years as the House of Commons Information Office has made more information generally available to the public via the Parliamentary website. This includes the Weekly Information Bulletin, factsheets about the work and history of the House, the Constituency Locata service and, most recently, Commons Knowledge, a newsletter providing information on forthcoming business, following the Commission's agreement to a recommendation made by the Select Committee on Modernisation of the House of Commons.

TRADE AND INDUSTRY

Business Incentives

Charles Hendry: To ask the Secretary of State for Trade and Industry if he will list the initiatives, awards and grant programmes offered by his Department for *(a)* small businesses and *(b)* all businesses. [25610]

Alun Michael *[holding answer 7 November 2005]*: The national Business Link website—www.businesslink.gov.uk—contains advice and information on support available to businesses, whether directly from the Department or via Business Link and many other sources.

Carbon Offset Scheme

Mr. Alan Reid: To ask the Secretary of State for Trade and Industry how much is planned to be spent by *(a)* his Department and *(b)* each agency of his Department in (i) the 2005–06 financial year and (ii) each of the next four financial years on the carbon offset scheme; how many flights are planned to be subject to the scheme in each case; what the distance of those flights is; and what carbon dioxide emissions are planned to be offset in each case. [21508]

Alan Johnson: The interdepartmental scheme to offset carbon emissions from UK official air travel will come into effect from April 2006. The scheme is currently being developed by an interdepartmental working group led by DEFRA but the formula for calculating the level of contributions required to be made by Departments has yet to be agreed. My Department does not yet have firm forecasts of the level of carbon dioxide emissions to be used in order to calculate the expenditure required. It is assumed that all departmental UK and overseas flights will be covered by the scheme.

Contributions to the scheme are due to start in the financial year 2006–07. The scheme is currently only focusing on core government departments and not their agencies so any figures will exclude air travel by my Department's agencies.

The scheme also covers travel and other energy usage associated with events hosted for the EU presidency and contributions to the scheme will be made in 2006–07

to cover carbon offsets; Defra are in the process of developing the formula to calculate the level of contributions required.

Company Communications

Charles Hendry: To ask the Secretary of State for Trade and Industry what assessment he has made of the proportion of company shareholders who would prefer to receive company communications in electronic form. [26992]

Barry Gardiner: Consultation to the White Paper on Company Law Reform published in March this year revealed broad support for the Government's proposals to facilitate greater use of electronic communications. Initial estimates prepared with the help of interested stakeholders suggest cost-savings in the region of £47 million per annum for FTSE-listed companies and a likely take-up of hard copy information by 0.3 per cent. to 5 per cent. of shareholders.

The Government recognise that shareholders should be able to receive company communications in a form which is convenient to them. That is why the Company Law Reform Bill will enable shareholders to approve the use of electronic communications, but permit the legal titleholder of the share to receive documents in hard copy.

Company Directors

Charles Hendry: To ask the Secretary of State for Trade and Industry what steps he will take to ensure that company shareholders without access to the internet do not become disenfranchised from exercising their rights as shareholders if a company opts to communicate through electronic means. [27002]

Alun Michael *[holding answer 10 November 2005]:* The Company Law Reform Bill will allow companies to use electronic communications with their members. This will enable companies and their members to benefit from the immediacy of electronic dialogue. However, the Government recognise that electronic communications will not suit everyone. A change to the use of electronic communications will need to be approved by a resolution of the members of the company. In addition, a member, that is the legal titleholder to shares, will have the right to require the company to send a hard copy version of documents or information.

The Bill also provides a power for the Secretary of State to make regulations to require companies to send documents or information to a person or persons nominated by the member. Such persons could, for example, be those investing in shares through intermediaries. The regulations may require documents or information to be supplied to nominated persons in hard copy form, if the Secretary of State is satisfied that the additional benefits to nominated persons would outweigh the likely costs resulting from such an obligation.

Contingency Planning (Power Supplies)

John Hemming: To ask the Secretary of State for Trade and Industry what range of scenarios the Government Chief Scientific Adviser is considering in terms of oil and gas reserves for contingency planning purposes. [27930]

Barry Gardiner: Currently, the Office of Science and Technology, headed by the Government Chief Scientific Adviser, is reviewing a large number of issues through its Horizon Scanning Centre and Foresight programme. Energy is one of these issues.

The selection of future Foresight projects requires that the projects must tackle issues which look ahead at least 10 years, are driven by science and technology, have outcomes that can be influenced, are not covered by work carried on elsewhere, require an inter-disciplinary approach and command support from other organisations.

It is too soon to consider the range of scenarios that might be explored in any of these future projects.

Energy contingency planning is primarily carried out by the DTI's Energy Group.

Departmental Contracts (Direct Mail)

Norman Baker: To ask the Secretary of State for Trade and Industry how many contracts were signed by his Department in *(a)* 2005–06 to date and *(b)* 2004–05 for direct mail; and what the value was in each case. [27797]

Alun Michael: The Department of Trade and Industry, through the Strategy and Communications Unit, have spent the following amounts on direct mail:

	£
2004–05	
Queens Awards	115,473
Dispute Resolution	491,655
Information and consultation	85,250
Total	692,378
2005–06	
Queens Awards	90,000
National Minimum Wage	997.53
Total	90,997.53

These figures were sourced through HM's Government Central Office of Information.

Departmental Overseas Offices

Norman Lamb: To ask the Secretary of State for Trade and Industry which agencies of his Department maintain offices overseas, broken down by *(a)* country where each office is maintained, *(b)* number of staff, *(c)* agency and *(d)* cost of each office in 2004–05. [28920]

Alun Michael: None of the Department's executive agencies maintain offices overseas. Of the non-departmental bodies sponsored by the Department the only ones that maintain overseas offices are *(a)* the research councils, who collectively operate an office in Brussels which employs 10 staff costing £640,000 and *(b)* the regional development agencies for which the table gives details of the regional development agencies offices by country, the number of staff and the annual costs (where known).

UK Trade and Investment is technically neither an agency nor a sponsored body of the DTI. It brings together the work of the Foreign and Commonwealth Office and the Department of Trade and Industry in supporting companies in the UK trading internationally, and overseas enterprises seeking to locate in the UK. Its overseas resources, including staff and the premises they occupy, are provided by the Foreign and Commonwealth Office.

[1] Collaboration between Advantage West Midlands and East Midlands Development Agency—costs not known.
[2] Collaboration between North West Development Agency, One North East and Yorkshire Forward.
[3] Contribution to East of England European Partnership office in Brussels.
[4] Collaboration between North West Development Agency and Yorkshire Forward.
[5] Total costs of South West's representation in Australia, China and Japan is £520,000.
Note:
The London Development Agency does not have any offices outside the UK.

Flexitime Rules

Norman Lamb: To ask the Secretary of State for Trade and Industry what arrangements are in place to monitor the *(a)* operation of and *(b)* compliance with flexitime rules for staff in his Department. [28730]

Alan Johnson: Individual directorates operate their own flexitime arrangements within a framework set out by the Department. Directorates are advised to ensure that local managers and supervisors are aware of their responsibilities for the operation and control of the scheme and make clear to staff and new recruits who join an office flexitime scheme that disciplinary action may be taken if the scheme is abused.

Norman Lamb: To ask the Secretary of State for Trade and Industry what the terms are of the flexitime arrangements for staff in his Department. [28732]

Alan Johnson: Individual directorates within the Department operate their own flexitime arrangements. This enables staff to vary their times of arrival and departure from work, vary the length and timing of their lunch breaks and take time off if they work extra hours. Staff are required to record the hours that they work either manually or electronically. Flexible working hours (FWH) schemes usually have four week accounting periods and within limits staff can carry over from one accounting period to the next an excess or deficit in the hours they worked compared to their conditioned hours. Credits are given for authorised absences such as visits to the doctor and to allow for the effect of exceptional transport delays.

Learning and Skills Council

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what new companies have started up in the field of adult guidance provision since the Learning and Skills Council took over from the training and enterprise councils. [28586]

Phil Hope: I have been asked to reply.

Neither my Department nor the LSC record business start ups in adult guidance.

Management and Leadership Programme

Norman Lamb: To ask the Secretary of State for Trade and Industry if he will make a statement on the progress of the Management and Leadership programme of the Small Business Service; and whether complete coverage across England is expected by the end of 2005. [28919]

Phil Hope: I have been asked to reply.

At 30 September 2005 over 21,000 employers were engaged with the Leadership and Management Development Programme for Managing Directors of SMEs. Over 10,000 have had their development needs assessed and started or completed their development programme. All English regions are covered by this programme.

Packaging

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what representations he has received calling for a further regulatory impact assessment on the effects of REACH EU chemicals policy on downstream users, with particular reference to packaging manufacturing; and if he will make a statement. [28491]

Barry Gardiner *[holding answer 15 November 2005]:* The Government have received a number of representations from different parts of industry, including the packaging sector, as well as from many other stakeholders on all aspects of the proposed REACH Regulation (Registration, Evaluation and Authorisation of Chemicals). These included responses to the UK's public consultation last year.

Within the UK, REACH was subject to a regulatory impact assessment in 2004, and a further impact assessment was carried out this year, which examined the implications of the regulation for some downstream sectors, including can coatings, taking into account information supplied by metal packaging manufacturers.

Across the EU, REACH has been subject to over 50 regulatory impact assessments. This includes the European Commission's extended impact assessment of October 2003, which estimated that changes made to its draft proposals could save up to €10.6 billion. The Commission also carried out a further impact assessment this year in partnership with industry, trade union, consumer and environmental organisations. That assessment considered the impact of REACH on certain downstream users of chemical substances, including flexible packaging manufacturers.

The considerable amount of work carried out in assessing the impact of the REACH proposals has been invaluable in determining costs and benefits, and in informing the negotiations.

Palm Oil

Mr. Hancock: To ask the Secretary of State for Trade and Industry (1) what recent discussions he has had with *(a)* UK supermarkets, *(b)* ministerial colleagues and *(c)* others about the sourcing of palm oil imported into the UK, with particular reference to the habitat of the orang-utan; [27995]

(2) what recent research he has *(a)* commissioned and *(b)* evaluated on the relationship between increased imports of palm oil into the UK and the threat to the future of the orang-utan. [27996]

Mr. Thomas: I have been asked to reply.

The UK Government support the conservation and sustainable management of rainforests, helping to protect forest habitats, including those of the orang-utan. The UK Government are in discussion with EU member states about the threats to these tropical rainforests caused by oil palm expansion. The UK Government are taking a number of steps to tackle these issues and these are outlined as follows.

The former Advisory Committee on Consumer Products and the Environment (appointed in 1999 by the, Department for the Environment, Transport and the Regions (DETR)) considered palm oil in the context of the scope for retailers and others to influence the supply chain. As part of its work, in 2001, the Committee brought together a number of UK players including several leading retailers, to discuss and identify the scope for practical action to tackle the environmental issues associated with this commodity.

Building on that experience the Department for the Environment, Food and Rural Affairs (Defra) commissioned, on the Committee's behalf, a feasibility study to assess how a broader sustainable commodities initiative might work as a tool to reduce the negative impact of commodity crops. The study concluded that there was no single best way forward for an initiative to suit all commodities or supply chain actors. Instead an initiative should consist of a coherent set of different activities. The study is available on line at—http://www.defra.gov.uk/environment/consumerprod/accpe/research/index.htm.

Based on the study, the advisory committee made a number of recommendations in its third report, "From Principles to Action", around the need for a policy framework, information, best practice guidance and sharing of experience. These recommendations are being fed into the development of the Government's Food Industry Sustainability Strategy.

Defra is commissioning some further research work into the impacts of commodities on the biodiversity in international communities. The outcomes of this work will identify the range of commodities and inform future policy development. palm oil will be one of the commodities studied in this project.

A Roundtable on Sustainable Palm Oil has been established, which is running a pilot programme in sustainable palm oil production in Malaysia. This is a two year scheme running from November 2005 which is subject to review at the end of this period. The programme is monitoring whether palm oil can be grown in both a legal and sustainable manner.

Post Offices

Norman Lamb: To ask the Secretary of State for Trade and Industry what progress has been made in securing approval from the European Commission for

the proposed subsidy for the two years to March 2008 to support the rural post office network; and if he will make a statement. [28496]

Barry Gardiner: Formal notification was presented to the European Commission on 18 March 2005. Discussions at official level are ongoing.

Norman Lamb: To ask the Secretary of State for Trade and Industry whether the Government plan to provide on-going subsidies to support the rural post office network beyond March 2008; and if he will make a statement. [28523]

Barry Gardiner: Government has made it clear that it will make informed decisions about the longer-term future of the rural post office network in light of the Post Office Limited report into their trials of new and innovative means of delivering postal services to rural communities. The report is due to be delivered to Government by the end of this year. This will be considered alongside analysis of the network currently being conducted.

Norman Lamb: To ask the Secretary of State for Trade and Industry what assessment his Department has made of the long-term viability of the Post Office rural network in the event that on-going subsidies are not available; what estimate he has made of the number of post offices which would be at risk of closure; and if he will make a statement. [28663]

Barry Gardiner: No decision will be taken on the longer-term future of the rural post office network until Government has considered the findings of the Post Office Limited report of their pilot programme, trialling new and innovative ways of delivering postal services to rural communities. The report is due to be presented to Government at the end of the year. This will be considered alongside analysis of the network currently being conducted.

The Government's annual support of £150 million helps Post Office Limited to maintain non-commercial post offices in rural locations.

Royal Mail

Mr. Newmark: To ask the Secretary of State for Trade and Industry what is the total amount of unfunded pension liabilities from Royal Mail Group plc. [28358]

Barry Gardiner: As set out in Royal Mail's 2004–05 accounts, the deficit in the pension scheme was £3,906 million.

UK Competitiveness

Norman Lamb: To ask the Secretary of State for Trade and Industry what initiatives his Department has in place to ensure that there will be progress by 2006 towards his Department's targets *(a)* to improve UK competitiveness and *(b)* narrow the productivity gap with the United States; and if he will make a statement. [28626]

Barry Gardiner: The Government's approach to raising UK competitiveness and closing the productivity gap with our main competitors, such as the USA, is based on maintaining macroeconomic stability to allow firms and individuals to invest for the future, and implementing microeconomic reforms to remove the barriers which prevent markets from functioning efficiently.

The Government has identified five drivers of productivity: investment, innovation, skills, enterprise and competition. A programme of reforms has been initiated to boost productivity through each of these drivers, along with cross-cutting policies. The DTI is pursuing these through its Five-Year Plan and PSA 1 target.

Examples of DTI policies to boost productivity include:

- reforming the competition framework in the UK. The Enterprise Act 2002 has made the UK competition authorities (Competition Commission and OFT) independent, and has given the OFT a more proactive role in investigating markets that may not be working well for consumers;
- the Technology Strategy, which supports collaborative R and D and knowledge transfer networks through strong business input. £320 million of funding is available over the period 2005 to 2008; and
- the Science Budget; the 2004 Spending Review announced additional funding for the UK's successful science base—an additional £1 billion for over the spending review period, equivalent to annual growth in funding of 5.8 per cent. in real terms.

The DTI also actively works with other Government Departments in the development of their policies which can impact on productivity—for example with DfES on Education and Skills policy.

Unum Provident

Harry Cohen: To ask the Secretary of State for Trade and Industry whether his Department has entered a contract with Unum Provident. [25930]

Alan Johnson: According to centrally held records, my Department has not entered into any contract with Unum Provident.

DEFENCE

A400M

Mr. Hancock: To ask the Secretary of State for Defence if he will list the major UK suppliers to the A400M programme. [28354]

Mr. Ingram: The major UK suppliers to the A400M programme are: Airbus UK, Rolls Royce, Messier Dowty, Goodrich Aerospace UK and Marshall Aerospace.

Afghanistan

Mr. Ancram: To ask the Secretary of State for Defence what his assessment is of the current level of insurgency attacks in Afghanistan; and if he will make a statement. [27160]

Mr. Ingram: The security situation in Afghanistan is broadly stable, if sometimes fragile, with levels of insurgent attacks driven largely by seasonal factors, particularly the weather. There was an upsurge in violence around the 18 September National Assembly election, as widely anticipated, though polling day itself

was not significantly disrupted. Neither the Taliban nor other insurgent groups currently pose a credible strategic threat to the stability of Afghanistan.

Mr. Ancram: To ask the Secretary of State for Defence (1) what progress has been made in training the Afghan National Army; and if he will make a statement; [27166]

(2) what the target strength is for the Afghan National Army; and when it is expected to be achieved; [27165]

(3) if he will make a statement on progress made in *(a)* the training and fielding of Afghan combat troops, *(b)* the equipping of Afghan combat troops and *(c)* establishing the institutions the Afghan army needs to sustain itself. [27163]

Mr. Ingram: The training, equipping and development of sustaining institutions for the Afghan National Army (ANA) is led by the US. Other countries, including the UK, provide assistance (for example, the UK trains non-commissioned officers). The current target strength for the ANA is 70,000 by the end of 2009. Good progress towards this target is being made, with many ANA units now capable of conducting combat operations, albeit with support from international forces, in terms of both equipment and logistics. The ANA is now also well established in the regions.

The Afghan Ministry of Defence, as the key institution leading the development of the ANA, has made good progress under the leadership of Defence Minister Wardak and with the help of international partners. The UK is currently engaged in a project to build civil service capacity within the Afghan MOD, with the aim of creating a self-sustaining department.

Mr. Drew: To ask the Secretary of State for Defence what steps he is taking to increase recruitment and retention of the Afghan National Police *(a)* unilaterally and *(b)* multilaterally. [29599]

Mr. Ingram: Plans for the recruitment and retention of the Afghan National Police are a matter for the Government of Afghanistan in consultation with Germany, who lead in this area, and the United States, who are providing resources in support of police reform.

Aircraft Crashes

Mr. Arbuthnot: To ask the Secretary of State for Defence pursuant to the answer of 26 October 2005, *Official Report*, column 374W, on aircraft crashes, what function *(a)* the radar altitude hold on the Chinook HC1 and *(b)* the radar altimeter hold on the Chinook HC2 performed; and if he will make a statement. [25112]

Mr. Touhig: The function of the radar altimeter hold on the Chinook HC Mk 1 and the Chinook HC Mk 2 is identical. It provides a means by which the aircraft can maintain a constant height above the surface in the hover or at low speeds.

Mr. Arbuthnot: To ask the Secretary of State for Defence pursuant to the answer of 26 October 2005, *Official Report*, column 344W, on aircraft crashes, why the radar altimeter hold cleared for use on the Chinook HC2 was subject to restrictions; and if he will make a statement. [25114]

Mr. Touhig: The radar altimeter hold on the Chinook HC2 was cleared for use subject to restrictions put in place to ensure that the aircraft was operated safely.

Aldermaston Weapons Establishment

Norman Baker: To ask the Secretary of State for Defence how many and what percentage of the personnel at the Aldermaston Weapons Establishment are *(a)* US citizens, *(b)* employed by US corporations and *(c)* employed by the US Government, broken down by grade. [25012]

John Reid: The Atomic Weapons Establishment is managed under Government owned contractor operated ('GOCO') arrangements. The management and operation company, AWE plc, has the following personnel working at AWE sites:

Five US citizens. This is less than 0.1 per cent. of the total number of personnel. Broken down by grade these are a managing director and four senior managers.

87 subcontractors from US corporations. This equates to approximately 1.6 per cent. of the total number of personnel.

No US Government employees.

The breakdown by grade for personnel employed by US corporations could be provided only at disproportionate cost because AWE plc does not hold the information.

Anthrax

Mr. Hancock: To ask the Secretary of State for Defence what assessment he has made of the *(a)* types and *(b)* amounts of anthrax which have been supplied to Iraq by the USA since 1980; and if he will make a statement. [27646]

John Reid: I refer the hon. Member to the answer my hon. Friend the Minister of State, Foreign and Commonwealth Affairs (Dr. Howells) gave on 14 October 2005, *Official Report*, column 643W.

Armed Forces

Mr. Gordon Prentice: To ask the Secretary of State for Defence what arrangements are in place to provide entertainment to service personnel in *(a)* Iraq, *(b)* Afghanistan and *(c)* other countries where the military serve. [29400]

Mr. Touhig: Entertainment for service personnel in Iraq, Afghanistan and in other countries is primarily delivered by the operational welfare package (OWP). The OWP provides a leisure and relaxation element that includes: British Forces Broadcast Service (BFBS) multi-television and radio; televisions, videocassette recorders, DVD players and radios; videocassettes or DVDs; live combined services' entertainment shows; newspapers, magazines, books and board games.

Eligibility for the OWP is based on the length of time overseas and by personnel numbers. Operations, exercises and deployments require an expected duration of two months or more to be eligible and containing more than 20 personnel, below which it is not cost-effective to provide OWP. In addition, OWP is not provided for locations that have a developed

infrastructure, where most elements are available already, or for personnel in receipt of local overseas allowance.

BFBS also provides television and radio services to other countries where service personnel are stationed. These include north west Europe, Ascension, Belize, Brunei (radio only), Canada, Cyprus, and the Falkland Islands, together with Her Majesty's ships.

Mr. Hollobone: To ask the Secretary of State for Defence how many serving *(a)* regular *(b)* territorial and *(c)* reserve armed forces personnel were recorded as living in Kettering constituency in each year since 1997. [29257]

Mr. Touhig: Historically statistics at parliamentary constituency level have not been produced.

Posted location data by local authority, for regular personnel are published in TSP 10, "UK Regular Forces Distribution Across UK", quarterly from 1 July 2004 to 1 July 2005. Copies are available in the Library of the House. There were no regular personnel posted to the borough of Kettering during this time and records show that no regular personnel have been posted to Kettering between 1997 and 2004.

Data on the residential location of armed forces personnel are not held centrally and could be provided only at disproportionate cost.

Army Tanks

Mr. Hoyle: To ask the Secretary of State for Defence how many tanks have been sold by the Government in the last five years; and to which countries. [28087]

Mr. Ingram: One surplus demilitarised Chieftain MK5/3 Main Battle Tank (MET) was sold commercially in 2004 and nine surplus Challenger 1 MET hulks were disposed of by scrap metal recovery. No surplus MBTs have been sold on a Government-to-Government basis in the last five years. However, 399 Challenger 1 MBTs have been gifted to the Jordanian armed forces under the Al Hussein Project.

British Army Training (Kenya)

Adam Price: To ask the Secretary of State for Defence whether agreement has been reached with the Kenyan Government on the resumption of British Army training in Kenya. [28928]

Mr. Ingram: The British Army continues to conduct training in Kenya. However, some exercises have been constrained by a Kenyan Government decision to limit the areas where troops can train. Detailed negotiations between the Governments of Kenya and the United Kingdom about adjusting these restrictions are proceeding. In the meantime, the Memorandum of Understanding between the two Governments which expired in December 2004 has been extended.

Carrier Programme

Dr. Julian Lewis: To ask the Secretary of State for Defence what the status is of the process he described in Washington DC as a final perusal of UK plans to build two large aircraft carriers; what aspects of the carrier programme are being perused; and whether this constitutes a lessening of the Government's commitment to build the carriers. [27462]

John Reid *[holding answer 14 November 2005]:* The future aircraft carrier (CVF) project is in its assessment phase, the aim of which is to balance the key parameters of performance, cost and time. The main investment decision will be taken when we know with confidence the risks involved in building the carriers, when we have a proper understanding of the costs involved and the implications in terms of the wider interface with other projects.

The Government remains fully committed to the future carrier programme which represents a quantum step up in military capability for the UK's armed forces.

Consultants

Martin Horwood: To ask the Secretary of State for Defence what steps the Department takes to ensure that consultancies do not claim excessive expenses while working for his Department and its agencies. [29100]

Mr. Touhig: All the Ministry of Defence contracts are placed on the basis of providing best value for money. In many cases consultancy contracts are awarded through framework arrangements which have been agreed with consultancy suppliers. To get themselves onto the framework agreements the consultants will have taken part in a competitive tender and the agreed charging rates and expenses will accordingly have been subject to competitive pressure. Where MOD teams place contracts outside of the framework agreements they must be able to demonstrate value for money and that prices, including arrangements for payment of expenses, are fair and reasonable.

The MOD is actively considering, along with other parts of central government, how best to maximise public sector buying power in this market. One likely outcome of this work is a much greater use of centralised framework agreements by the MOD and across government.

Martin Horwood: To ask the Secretary of State for Defence if he will list departmental projects conducted by consultants in each year since 2000; what the cost was in each case; and what the total cost of employing consultants was in each year. [29101]

Mr. Touhig: A list of projects conducted by consultants is not held centrally by the Ministry of Defence and could be provided only at disproportionate cost.

However, summaries of MOD expenditure on external assistance, of which consultancy is a part, are available in the Library of the House for the years 1995–96 to 2005–06.

Martin Horwood: To ask the Secretary of State for Defence what mechanisms are in place to assess the effectiveness of consultant-led projects in his Department; what sanctions are available to penalise consultants who run unsuccessful projects; how many projects conducted by consultants were assessed as unsuccessful in each year since 2000; and what sanctions were imposed in each case. [29115]

Mr. Touhig: Most consultants used by the Ministry of Defence are engaged to support projects, not to lead them. That said, the mechanisms to assess a consultant's performance will be similar whether the consultancy is acting in a lead or support role. Primarily this will focus on an assessment by the MOD project team of the consultant's performance in relation to the contracted statement of requirements, including any deliverables. In the short term we would expect any shortfalls in the performance of a consultant to be addressed through discussion with the MOD project manager. In the longer term MOD has a contractual remedy for poor performance in DEFCON 92 'Failure of Performance'.

Information on the number of projects by consultants that were assessed as unsuccessful is not held in the format requested and can be provided only at disproportionate cost.

Court Cases

Mr. Hayes: To ask the Secretary of State for Defence what the total cost to date has been of court cases involving military personnel in Iraq; and if he will list the amounts awarded to date to lawyers acting for Iraqis, broken down by firm. [27860]

Mr. Ingram: The total cost of court cases involving military personnel in Iraq is not held centrally. The Military Court Service does not hold such information by location.

The Ministry of Defence has not reimbursed any costs for lawyers acting on behalf of Iraqis.

Mr. Mullin: To ask the Secretary of State for Defence how many criminal cases in which all proceedings are complete involving military personnel on active service have been transferred from military to civil jurisdiction for trial in each of the last five years; and what the reason was in each case. [29565]

The Solicitor-General: I have been asked to reply as the responsible Minister for supervising both the Service Prosecuting Authorities and the Crown Prosecution Service.

Where an offence alleged to have been committed by servicemen is triable in England and Wales in either the court martial or the civilian courts, it is ultimately the Attorney General's decision which prosecutor will consider the allegation. The Service Prosecuting Authorities will deal with the vast majority of cases concerning servicemen. However, in exceptional cases the CPS may deal with the allegation.

Trooper Williams is the only case in the last five years when a criminal case involving military personnel on active service have been transferred from military in which all proceedings are complete to civil jurisdiction for trial.

The charge against Trooper Williams was murder. He had been charged and had the charge dismissed by his commanding officer without the independent prosecutor, the Army Prosecuting Authority considering the allegation. As a result of the charge being dismissed the provisions of the Army Act 1955 Section 134 (1) precluded him being tried by a court martial for either murder or manslaughter. As a result the Army Prosecuting Authority could not consider the allegation.

However in accordance with the Army Act 1955 Section 33(1) as Trooper Williams had not been tried for an offence by a court martial, not had an offence committed by him taken into consideration by a court martial in sentencing him nor had the charge dealt with summarily by his commanding officer, a civil court could try him. The case was therefore transferred to the civilian jurisdiction so that the Crown Prosecution Service as an independent prosecutor could consider the allegation.

Defence Logistics Savings

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will break down the £2.8 billion of savings in defence logistics by area where savings will be made; and where the savings will be reinvested. [29224]

Mr. Ingram: The £2.8 billion refers to savings from all the programmes contributing towards the Department's Spending Review 2004 efficiency target, not just to savings in the logistics function. A breakdown of how the Department intends to achieve this target can be found in the MOD Efficiency Technical Note www.mod.uk/issues/finance/efficiency.htm, which was published on the Department's website last October. These figures have subsequently been refined and an updated version of the Note will be published at the end of this month.

All savings will be re-invested in the Defence budget and will help fund the improvements in military capability set out in last year's White Paper on Future Capabilities.

Distinguished Service Order

Mr. Gordon Prentice: To ask the Secretary of State for Defence how many soldiers awarded the Distinguished Service Order since 1980 have had it withdrawn subsequently following a court martial or conviction in a civilian court. [29401]

Mr. Touhig: Of the 37 DSOs awarded since 1980 none have been withdrawn.

Freedom of Information

Mr. Hancock: To ask the Secretary of State for Defence how many requests he has received to disclose information under the Freedom of Information Act 2000; and what the average time taken to make a decision on the disclosures has been. [28351]

Mr. Touhig: The Ministry of Defence had received a total of 2,882 requests to disclose information under the Freedom of Information Act up to 30 June, the second quarter of 2005. We do not collect data on the average time taken to make a decision on disclosure and could provide this information only at disproportionate cost. However, during the second quarter, 80 per cent. of requests for information were answered within the 20-day deadline and 83 per cent. within the 20-day deadline or with a permitted extension. The Department for Constitutional Affairs publish these statistics on their website and will publish information for the third quarter in mid-December.

Departmental Salaries

Mike Penning: To ask the Secretary of State for Defence if he will list the 10 highest paid employees in his Department, broken down by *(a)* job title and *(b)* salary including bonuses; and whether the individual concerned is (i) a civil servant and (ii) a contractor in each case. [27433]

Mr. Touhig: Details of the 10 highest paid civilian employees within the Ministry of Defence are as follows:

Position	*Pay band*	*Bonus*
Permanent Secretary 2nd PUS Chief Defence Procurement Chief Scientific Adviser	Within the Permanent Secretaries' pay range of £130,350 to £264,250	Potential to earn up to 15 per cent. of salary dependent on performance
Head Defence Export Services[1] Personnel Director Deputy Chief Executive of the Defence Procurement Agency Deputy Chief of Defence Logistics	Within SCS Pay Band 3 range of £93,139 to £198,197	Potential to earn bonuses up to £12,500 in 2005 pay round, subject to relative assessment and quota
Chief Executive Army Base Repair Organisation Chief Executive Defence Aviation Repair Agency	Both fixed term appointments—salaries are within Pay Band 2 range of £75,606 to £159,659	Potential to earn up to 10 per cent. of salary depending on performance

[1] Additional funding provided by defence industry to make salary commensurate with equivalent level post in the private sector. Has potential to earn up to 10 per cent. of salary depending on performance.

Information on the salaries and other benefits of the Defence Management Board, which includes senior military appointments, is contained in the Ministry of Defence's Annual Report and Accounts 2004–05 (HC 464).

HMS Sheffield

Mr. Hancock: To ask the Secretary of State for Defence (1) if he will publish the contents of the typed manuscripts of evidence produced by the Board of Inquiry into the sinking of HMS Sheffield; [28338]

(2) which individuals were called to give evidence to the Board of Inquiry into the sinking of HMS Sheffield; [28341]

(3) who were the *(a)* members and *(b)* stenographer of the Board of Inquiry into the sinking of HMS Sheffield; [28342]

(4) what instructions were given to the former Commander-in-Chief, Lord Fieldhouse of Gosport, by *(a)* the First Sea Lord, *(b)* the Admiralty Board and *(c)* the Cabinet Office with regard to convening court martial proceedings relating to the loss of HMS Sheffield. [28343]

Mr. Ingram: I refer the hon. Member to my letter to him reference D/MSU/2/5/1 dated 7 April 2005, a copy of which is available in the Library of the House. I will write to the hon. Member shortly with a progress report on the departmental review that I commissioned to consider what information can be made publicly available concerning the investigation into the loss of HMS Sheffield during the Falklands conflict.

Iraq

Mr. Ancram: To ask the Secretary of State for Defence if he will make a statement on progress made in training and equipping units and individuals of the Iraqi Ministry of Defence and the Ministry of the Interior in Multinational Division South East Iraq. [23042]

John Reid: The coalition-wide effort to train and equip the Iraqi security forces (ISF) to conduct self-sufficient security operations, border enforcement, and law and order, has, to date, trained more than 206,000 Iraqis nationally, including almost all the Iraqi Army based in MND(SE), and 62 per cent. of the Iraqi Police Service in the United Kingdom area of operations. Coalition funds have procured various vehicles, weapons, airport x-ray machines, communications equipment and infrastructure improvements. The most recent part of a continuing UK programme of assistance to the ISF will see a further £15.5 million of vehicles, communications equipment and infrastructure improvements provided to enhance this capability in MND(SE).

Adam Price: To ask the Secretary of State for Defence (1) what reports he has received of Mujahideen-e-Khalq offices or safe-houses being operated in Basra; [29620]

(2) what reports he has received of the continued presence of members or former members of the Mujahideen-e-Khalq at *(a)* Camp Habib near Basra and *(b)* (i) Camp Homayun and (ii) Camp Mujarmi near Amarah in Iraq. [29619]

Mr. Ingram *[holding answer 17 November 2005]:* There is some reporting, but no evidence, of active Mujaheddin-e-Khalq in Basrah. We have received no reports of the continued presence of former Mujaheddin-e-Khalq members in these or any other Iraqi camps.

Kandahar Airport

Mr. Drew: To ask the Secretary of State for Defence what improvements are being made to Kandahar airport; and what additional air capability this will enable. [29610]

Mr. Ingram: The runways, taxiways and aircraft parking areas at Kandahar airfield are currently in a poor state of repair and are thus being renovated. On completion, more aircraft types will be able to operate from the airfield than is now the case.

Media Relations

Mr. Salmond: To ask the Secretary of State for Defence how much his Department spent on external media relations in each year since 2001. [29578]

Mr. Touhig: The Ministry of Defence does not record expenditure on external media relations in the form requested, and this information could be provided only at disproportionate cost.

Military Afloat Reach and Sustainability Project

Mr. Kevan Jones: To ask the Secretary of State for Defence whether a commitment has been made that all Royal Navy ships under the Military Afloat Reach and Sustainability project will be built in the UK. [26022]

Mr. Ingram: I refer the hon. Member to the answer I gave on 9 November 2005, *Official Report*, column 551W, to the right hon. and learned Member for Devizes (Mr. Ancram).

Military Police

Mr. Mullin: To ask the Secretary of State for Defence what independent *(a)* inspection and *(b)* supervision is undertaken of investigations by military police; and if he will make a statement. [29566]

Mr. Ingram: The service police have an internal supervision and inspection regime. All serious inquiries are supervised by trained crime managers and, in appropriate cases, a Home Office-trained senior investigating officer. The progress of such cases is also monitored by respective Provost Marshal staff and, in the case of the Royal Military Police, the Office of Standards Casework (Army).

An internal inspection system also exists which includes peer review and formal bi-annual technical inspections. In addition, the civilian police have carried out 'cold case' reviews and peer reviews on individual cases. The service police are also inspected annually by the Office of Surveillance Commissioners and the Information Services Commissioner.

We are also currently discussing with HM Inspectorate of Constabulary the possibility of some form of independent inspection of the service police, akin to that currently undertaken on the Ministry of Defence police and Home Office police forces.

Northern Ireland (Past Operations Review)

Mr. Clappison: To ask the Secretary of State for Defence if he will make a statement on the plans for reviewing past operations carried out by HM Armed Forces in Northern Ireland; whether the Police Service of Northern Ireland will be involved in the review; whether the Royal Military Police will play a role in the review; and what rights will be afforded to *(a)* serving and *(b)* former members of the armed forces who are subject to the review. [26995]

Mr. Ingram: The Police Service of Northern Ireland (PSNI) is reviewing more than 2,000 unresolved deaths from the troubles. More than 300 of those deaths have been attributed to the security forces by the PSNI.

The Royal Military Police (RMP) is providing information to the PSNI to support the review. The Ministry of Defence will provide whatever assistance is appropriate for serving and former members of the armed forces who are required to assist the PSNI.

Nuclear Decommissioning

Mr. Newmark: To ask the Secretary of State for Defence what proportion of the Government's projected liabilities for nuclear decommissioning are classified as off balance sheet. [28359]

Malcolm Wicks: I have been asked to reply.

The Nuclear Decommissioning Authority (NDA) assumed responsibility for the decommissioning and clean up of the UK's civil nuclear legacy on 1 April 2005. The NDA's draft strategy estimates the civil nuclear liability at about £56 billion. This is based on each of the NDA's sites' Life Cycle Baselines for 2004—these set out the scope, schedule, and cost of work over their lifetime. The NDA have examined the liabilities and have concluded that none are classed as 'off balance sheet'. The NDA's accounts for 2005–06 will ensure transparency in respect of all their activities.

Nuclear Deterrent

Dr. Julian Lewis: To ask the Secretary of State for Defence what indications he has received from the United States Department of Defense of the time scale in which Trident missiles will continue to be manufactured. [25058]

John Reid *[holding answer 9 November 2005]:* It is not Ministry of Defence policy to release details about the manufacture of Trident missiles, including discussions with other Governments, as this could prejudice national security and international relations.

Radar Altimeter Hold

Mr. Arbuthnot: To ask the Secretary of State for Defence if he will place in the Library copies of the documentation covering the clearance of the Radar altimeter hold, together with any documented restrictions, for use on the HC1 and HC2 Chinook helicopters. [25492]

Mr. Touhig: I will place a copy of the trials report on the modified Chinook HC1 radar altimeter hold produced by the MOD(PE) Aeroplane and Armament Experimental Establishment (now QinetiQ) in December 1985 in the Library of the House. The radar altimeter on the Chinook HC2 is identical to that of the modified Chinook HC1 and therefore the results of trials on the HC1 were read across to the HC2.

RAF Facilities (Scotland)

John Thurso: To ask the Secretary of State for Defence what assessment he has made of the economic impact of *(a)* proposed closures and *(b)* reductions in provision at RAF facilities in Scotland, broken down by each RAF station affected. [27373]

Mr. Ingram: The Ministry of Defence is funded by the tax payer to meet Defence needs.

We are always willing to work with the Scottish Executive and relevant local authorities to consider any measures within the Defence remit that might assist the local community where decisions have local impact.

RAF Projects

Andrew Rosindell: To ask the Secretary of State for Defence if he will make a statement on progress on the *(a)* F-35 Joint Strike Fighter, *(b)* Hawk 128, *(c)* Airbus A330 and *(d)* Typhoon Project; and what the estimated costs were (i) at the beginning of the project and (ii) at the most recent available date. [27624]

Mr. Ingram: We are negotiating the Joint Strike Fighter memorandum of understanding for the co-operative production, support and follow on development phase and expect to conclude these negotiations next year.

The Hawk 128 design and development contract was placed in December 2004. Negotiations with BAE Systems regarding a production contract are ongoing.

Final negotiations on the Future Strategic Tanker Aircraft (FSTA) project are ongoing with AirTanker Ltd. on a 27-year contract for a public finance initiative service based upon Airbus A330 aircraft.

19 Typhoon production aircraft have been delivered to the RAF and over 1,900 in-service sorties have been flown. The aircraft are now engaged in pilot training and operational evaluation to enable operational deployment during the second half of this decade.

The estimated costs for these projects at (i) the beginning of the project and (ii) the most recent available data (MPR04):

£ million

	(i) Beginning of project	*(ii) Most recent available data*
Joint Strike Fighter (demonstration phase only)	2,236	2,573
Hawk 128	Up to 722	Up to 722
FSTA	Up to 13,900	Up to 13,100
Typhoon	16,671	19,014

Royal Marine Patrol Boats

Mr. Ellwood: To ask the Secretary of State for Defence if he will make a statement on the Royal Marine patrol boats held by Iran. [30343]

Mr. Ingram: Through diplomatic channels we have raised the return of the boats with the Iranian authorities on numerous occasions, at both ministerial and senior official level, in Tehran and London. We continue to press for their return.

Royal Ordnance Factory (Chorley)

Mr. Hoyle: To ask the Secretary of State for Defence how many meetings the Minister of State has had with *(a)* Royal Ordnance and *(b)* the Transport and General Workers Union to discuss the proposed closure of the Royal Ordnance factory at Chorley. [28010]

Mr. Ingram: None. Closure of BAEs Chorley is a matter forBAEs.

St. Helena

Norman Baker: To ask the Secretary of State for Defence what assessment he has made of the potential military use of an airport on St. Helena by *(a)* the UK and *(b)* the US; what representations he has received on this matter from the US authorities; and if he will make a statement. [29430]

Mr. Ingram: There has been no assessment made of the potential military use of an airport on St. Helena by the UK or the US. No representations have been received by the UK Government from the US authorities on this matter.

Staff Discipline

David T.C. Davies: To ask the Secretary of State for Defence how many employees have been dismissed by his Department in each of the last five years for which figures are available. [29124]

Mr. Touhig: The following table gives details of the number of Ministry of Defence civilian employees dismissed in each of the financial years 2000–01 to 2004–05.

Civilian employee dismissals between 2000–01 and 2004–05

Financial year	*Headcount*
2000–01	160
2001–02	160
2002–03	150
2003–04	150
2004–05	190

Note:
This table uses the revised definition of civilian personnel (www.dasa.mod.uk). But auxiliary and locally engaged civilian staff for whom no information on civilian dismissals is available.

Temporary Fire-fighting Duties

Andrew Rosindell: To ask the Secretary of State for Defence what the cost has been of using British troops for temporary fire-fighting duties in each of the last 10 years. [27616]

Mr. Ingram: The Ministry of Defence (MOD) has provided military assistance in the form of temporary fire-fighting duties on 16 occasions during the last 10 years. In certain cases no strikes took place and MOD incurred costs for contingency planning and preparation only; these are marked with an asterisk. Additional costs are normally recovered from the requesting Department.

£

Fire authority	*Dates*	*Approximate costs including VAT invoiced centrally by MOD*
Merseyside	1995–96	1,200,000
Essex	1996	*12,000
Derbyshire	1996	145,000
Essex	1997	65,000
Greater Manchester	1997	*3,000
London	1998	*10,000
Surrey	1998	*1,000
Essex	1998	1,772,000
West Yorkshire and Greater Manchester	1999	*175
Northern Ireland	2000	*100

£

Fire authority	Dates	Approximate costs including VAT invoiced centrally by MOD
Merseyside	2001	660,000
Cleveland	2002	*5,000
National	2002–03	88,000,000
National	2004	*707,000
Suffolk	2005	[1]—
West Midlands	2005	[1]—

[1] Costs not yet available.

Territorial Army

Bill Wiggin: To ask the Secretary of State for Defence when he expects the review of the Territorial Army to report. [29513]

Mr. Touhig: I expect to receive a report on the review of the Territorial Army before the end of the year.

Trident

Lynne Jones: To ask the Secretary of State for Defence what the process will be leading to a decision on the replacement of Trident; and in what ways he expects Parliament to be involved. [29591]

John Reid: I refer my hon. Friend to the answer that I gave on 14 October 2005, *Official Report*, column 619W, to the Member for Berwickshire, Roxburgh and Selkirk (Mr. Moore).

Warrior Armoured Vehicle

Mr. Gerald Howarth: To ask the Secretary of State for Defence how many of the UK's Warrior armoured vehicle fleet are unavailable for active service. [29225]

Mr. Ingram: There are currently 794 Warrior Infantry Fighting Vehicles in the Departmental fleet. As at 16 November 2005 164 of these are classed as not immediately available. However, 115 of these vehicles are undergoing only minor repair and they would be made available should the operational situation require it. The remaining 49 vehicles are those programmed for routine maintenance or requiring in depth repair and in this respect are classed as not being available for active service.

Warships

Mr. Gerald Howarth: To ask the Secretary of State for Defence pursuant to the answer of 3 November 2005, *Official Report*, column 1264W, on warships, what services are being provided by Swan Hunter to BAE Systems for £62 million in support of the two Landing Ships Dock (Auxiliary) vessels being built; and if he will list the major items of lead yard equipment and services. [28333]

Mr. Ingram: Swan Hunter, as the Lead Yard Supplier of services and equipment provide BAE Systems with information for: Pricing and Planning; Design and Build; Trials, Test and Setting to work; Jigs and Tools; Acceptance and Approvals; Support Documentation. The company also provides Design, Technical and Management Services, and Material Ordering and Supply. The greater part of the cost is for many items of equipment.

Mr. Gerald Howarth: To ask the Secretary of State for Defence pursuant to the answer of 3 November 2005, *Official Report*, column 1264W, on warships, how much of the £11 million for initial spares provisioning for the four Landing Ships Dock (Auxiliary) vessels is to be paid to Swan Hunter; and what the schedule for such payments is. [28334]

Mr. Ingram: Swan Hunter is contractually responsible for the provision of all initial spares for the four Landing Ships Dock (Auxiliary) vessels. Consequently all payments are made to the company upon delivery of each batch received, for which the aggregated contract value is £11 million. The majority of which have now been paid.

Mr. Gerald Howarth: To ask the Secretary of State for Defence pursuant to the answer of 3 November 2005, *Official Report*, column 1264W, on warships, when he expects discussions with Swan Hunter and BAE Systems over further cost increases to the Landing Ships Dock (Auxiliary) contract to be completed; and when he expects to be able to publish details of those further cost increases. [28336]

Mr. Ingram: Discussions with both companies are continuing with an aim to concluding them as soon as possible. I will be in a position to make a statement when they are completed.

Mr. Gerald Howarth: To ask the Secretary of State for Defence pursuant to the answer of 3 November 2005, *Official Report*, column 1264W, on warships, when the decision was taken to make payments to Swan Hunter of £62 million in relation to BAE Systems' ships; and when these payments were made. [28337]

Mr. Ingram: The Ministry of Defence agreed contract amendments with Swan Hunter in May 2001 and June 2001, for the provision of Lead Yard Services to support the build of a further two Landing Ships Dock (Auxiliary) vessels. A further contract amendment was agreed with the company in March 2002, for the provision of Lead Yard Equipment. Payments have been made on a regular basis using the milestone payment scheme.

Widescreen Televisions

Norman Lamb: To ask the Secretary of State for Defence how many widescreen televisions have been purchased by his Department for use in Whitehall Headquarters in each of the last five years; and at what cost in each year. [21097]

Mr. Ingram: The information requested is not held centrally and could be provided only at disproportionate cost. However, as part of the Ministry of Defence Head Office building refurbishment, five widescreen televisions were purchased in financial year 2001–02 at a total cost of £12,500, and 134 at a total cost of £348,000 in financial year 2003–04.

TREASURY

Capital Gains Tax Relief (Retired Tenants)

Mr. Hollobone: To ask the Chancellor of the Exchequer what recent consideration has been given to proposals to use capital gains tax relief to encourage landlords to offer alternative accommodation to their retiring farm tenants. [29732]

Dawn Primarolo: The whole tax system, including CGT, is kept under review by the Government.

Consultants/Special Advisers

Mike Penning: To ask the Chancellor of the Exchequer how many *(a)* consultants and *(b)* special advisers were employed by his Department in each year since 1997; what the cost of each was in each year; and if he will make a statement. [27406]

Martin Horwood: To ask the Chancellor of the Exchequer if he will list departmental projects conducted by consultants in each year since 2000; what the cost was in each case; and what the total cost of employing consultants was in each year. [29091]

John Healey: The Treasury does not record centrally numbers of consultants. For the cost of consultants, I refer to the answers given to the hon. Member for Great Grimsby (Mr. Mitchell) on 10 October 2005, *Official Report*, column 281W, and to the hon. Member for Buckingham (John Bercow) on 25 March 2002, *Official Report*, column 733W. Details of the individual projects conducted are not held centrally and could be provided only at disproportionate cost.

The number and cost of special advisers employed by the Government is reported annually by the Prime Minister, most recently on 21 July 2005, *Official Report*, column 160WS.

Departmental Assets

Mike Penning: To ask the Chancellor of the Exchequer if he will list the 10 most valuable *(a)* movable and *(b)* immovable assets owned by his Department. [27374]

John Healey: HM Treasury's only immovable assets are:

1. the land and building at 1 Horse Guards Road
2. surplus freehold property at Honeypot Lane, Stanmore (OGC)
3. freehold premises at Thistle Street, Edinburgh (OGC)
4. leasehold improvements to premises at Philpot Lane (DMO)

The 10 most valuable movable assets are:

1. Records Management system (Jigsaw)
2. Government Financial Management system (Coins)
3. HM Treasury internal accounts production system (Abacus)
4. Market risk system (DMO)
5. Exchequer Funds and Accounts treasury accounting system (Tripp)
6. Silver ink stand (1 of set of 3)
7. Silver ink stand (1 of set of 3)
8. Silver ink stand (1 of set of 3)
9. E-learning database
10. Cashflow forecasting software (DMO)

The Treasury's silver is either on display at 10 Downing street, the Cabinet Office, or stored for safekeeping at the Bank of England.

Departmental Salaries

Mike Penning: To ask the Chancellor of the Exchequer if he will list the 10 highest paid employees in his Department, broken down by *(a)* job title and *(b)* salary including bonuses; and whether the individual concerned is (i) a civil servant and (ii) a contractor in each case. [27438]

John Healey: Details on salaries for Treasury employees are set out in the Treasury's Resource Accounts 2004–05, copies of which are available in the Library or accessible via the Treasury's public website: http://www.hm-treasury.gov.uk./media/3A6/1E/resource_accounts_2004–5.pdf

The Treasury uses contractors from time to time but they are not members of the staff of the Department.

Departmental Underspending

Mr. Prisk: To ask the Chancellor of the Exchequer what the total value was of public underspending by each Government Department in financial year *(a)* 2003–04 and *(b)* 2004–05. [29397]

Mr. Des Browne: Provisional outturn against departmental expenditure limits in 2003–04 and 2004–05 is published in the Public Expenditure Outturn White Paper (PEOWP) for the relevant years (Cm. 6293 and Cm. 6639 respectively), copies of which have been laid before the House and placed in the Library. Changes between provisional and final outturn in 2003–04 have been reflected in the end year flexibility amounts presented in PEOWP 2004–05.

Direct Mail Contracts

Norman Baker: To ask the Chancellor of the Exchequer how many contracts for direct mail were signed by his Department in *(a)* 2005–06 to date and *(b)* 2004–05 and what the value was in each case. [27681]

John Healey: None.

ECOFIN Meeting

Mr. Francois: To ask the Chancellor of the Exchequer what main agenda items are to be discussed at the ECOFIN meeting on 24 November; and whether they will include the United Kingdom's EU budget rebate. [30565]

John Healey: There are three main agenda items for ECOFIN on 24 November. First, the Court of Auditors will present the Annual Report for 2004; second the council will consider Preliminary Draft Amending Budget No. 8 for 2005; and third the council will conclude its second reading of the Draft Budget for 2006. The UK abatement is not on the agenda.

EU Budget

Mr. Francois: To ask the Chancellor of the Exchequer what the Government's key objectives are in the negotiations regarding the UK rebate from the EU budget; and if he will make a statement. [30562]

John Healey: I refer the hon. Gentleman to my right hon. Friend the Prime Minister's statement to the House on 20 June 2005.

Mr. Francois: To ask the Chancellor of the Exchequer what the UK's VAT contribution to the EU Budget was in *(a)* 2004 and *(b)* 2005; and what he expects it to be in 2006. [30563]

John Healey: The UK's VAT-based contributions to the EC Budget in the years 2003–04 and 2004–05, and the latest estimates of these for 2005–06 and 2006–07, are as follows:

	£ billion
2003–04	2.6
2004–05	1.9
2005–06	1.9
2006–07	2.0

Mr. Francois: To ask the Chancellor of the Exchequer how much money has been saved to UK public funds as a result of the UK rebate from the EU budget since 1984. [30564]

John Healey: From 1985–86, when the UK abatement came into effect, to the end of 2004–05, the value totalled £44.2 billion.

Excess Winter Deaths

Mr. Burstow: To ask the Chancellor of the Exchequer how many excess winter deaths there were in London, broken down by each London borough, in each of the last five years. [29555]

John Healey: The information requested falls within the responsibility of the national statistician who has been asked to reply.

Letter from Karen Dunnell to Mr. Paul Burstow, dated 21 November 2005:

As National Statistician, I have been asked to reply to your recent question asking how many excess winter deaths there were in London, broken down by each London Borough, in each of the last five years. (29555)

The latest available figures on excess winter deaths (the excess number of deaths each winter compared to the average during other months of the year) for local authorities are for 2003/4. Figures for London and its constituent boroughs are given in the attached table.

Excess winter deaths[1] for London and London boroughs[2], 1999–2000 to 2003–04

	1999–2000		2000–01		2001–02		2002–03		2003–04	
	EWD	EWD Index[3]	EWD	EWD Index[3]	EWD	EWD Index[3]	EWD	EWD Index[3]	EWD	EWD Index[3]
London	5,880	31.4	2,780	15.0	2,750	15.1	2,810	15.5	2,030	11.3

[1] Excess winter deaths (EWD) are defined by the Office for National Statistics as the difference between the number of deaths during the four winter months (December to March) and the average number of deaths during the preceding four months (August to November) and the following four months (April to July). Figures are rounded to the nearest 10.

[2] The figures provided relate to residents of these areas.

[3] The excess winter deaths index is calculated as the excess number of winter deaths divided by the average number of non-winter deaths, expressed as a percentage.

Financial Ombudsman Service

Justine Greening: To ask the Chancellor of the Exchequer in what percentage of complaints submitted to the Financial Ombudsman Service resolved *(a)* after investigation by an adjudicator and *(b)* by final decision of an ombudsman the complaint was (i) found to be outside the FOS jurisdiction, (ii) withdrawn by the customer, (iii) not treated fairly by the firm concerned, (iv) treated fairly by the firm concerned, (v) treated generally fairly but the firm had agreed a goodwill payment and (vi) been subject to an offer from the firm but the FOS negotiated an improved amount, broken down by stage at which the complaint was resolved. [29875]

John Healey: In the year ending 31 March 2005, the Financial Ombudsman Service received 110,963 cases and resolved 90,908 cases.

The following table provides a breakdown of the outcome of cases in the categories asked for.

Cases to year ended 31 March 2005

	Percentage of cases resolved by an adjudicator	*Percentage of cases resolved by an ombudsman*
Cases found to be outside jurisdiction	9	11
Cases withdrawn by the customer	5	1
Cases where the customer had not been treated fairly by the firm concerned	36	32
Cases where the customer had been treated fairly by the firm concerned	45	48
Cases where the customer had been treated fairly but the firm concerned had agreed a goodwill payment	2	2
Cases where the customer had received an offer from the firm concerned but the FOS negotiated an improved settlement	3	6

Government Balance Sheets

Stephen Hammond: To ask the Chancellor of the Exchequer what pension fund deficits of former nationalised industries are on the Government Balance Sheet. [27042]

Mr. Des Browne: Government Departments report all assets and liabilities in an open and transparent way in accordance with independently set accounting standards, which are based on those used in the private sector, and are subject to independent audit. Any government liabilities in respect of private sector pension funds are shown in individual departmental accounts but data is not held centrally on this.

HM Revenue and Customs

Mr. Laws: To ask the Chancellor of the Exchequer (1) whether HM Revenue and Customs is proposing to change the facilities which they offer to taxpayers who call at their inquiry offices; [29827]

(2) if HM Revenue and Customs will take steps to ensure that any taxpayer who is disabled is always able to meet staff face-to-face when attending an inquiry office. [29828]

Dawn Primarolo: There are no proposals to change the facilities offered at inquiry centres.

HMRC will continue to offer a face to face service to those who need it. All inquiry centres are disability discrimination compliant and have a range of special services including induction loops and crystal listening devices for those who are hard of hearing.

Mr. Laws: To ask the Chancellor of the Exchequer what public consultations his Department has undertaken in the last five years on changes to services provided to taxpayers who attend inquiry offices. [30538]

Dawn Primarolo: HMRC has undertaken no such public consultations in the last five years. No changes have been made in that period to the services provided in inquiry centres other than to extend those services to new products (such as tax credits).

Ministerial Travel

Kate Hoey: To ask the Chancellor of the Exchequer (1) what the cost was to public funds of his return from Israel on 9 November; [29104]

(2) what was the total cost of his two visits to Israel in the week beginning 7 November. [29105]

Sarah Teather: To ask the Chancellor of the Exchequer what the additional cost was to public funds of his return from Israel on 9 November 2005. [30170]

John Healey: I refer the hon. Members to the answer I gave on 15 November 2005.

National Minimum Wage

Margaret Moran: To ask the Chancellor of the Exchequer how many companies in Luton have been *(a)* fined and *(b)* forced to cease trading for non-compliance with the national minimum wage since it was introduced. [30637]

Dawn Primarolo: The information requested is not available.

Near Cash Resources

Mr. Prisk: To ask the Chancellor of the Exchequer what the maximum amount of near cash resources is that *(a)* Government Departments as a whole and *(b)* each Government Department can use in 2005–06 drawn from public underspending in financial year 2004–05. [29396]

Mr. Des Browne: The amount Departments can draw-down and use from underspending in previous years, known as end year flexibility (EYF), is not calculated on the basis of underspending in 2004–05 only but on

cumulative underspends since the EYF scheme began. Resource EYF stocks carried into 2005–06 by Departments and in total were published in the Public Expenditure Outturn White Paper (PEOWP) 2004–05 (Cm. 6639), copies of which were laid before the House and placed in the Library. Departmental drawdown of end-year flexibility entitlement is scrutinised by HM Treasury for tautness and realism and resulting budgetary limits are agreed and published in supplementary estimates in November and February.

PAC Report (Duchies of Cornwall and Lancaster)

Andrew George: To ask the Chancellor of the Exchequer (1) when he expects to reply to the Public Accounts Committee Report, "The Accounts of the Duchies of Cornwall and Lancaster", published on 28 July; [30088]

(2) what assessment he has made of the Public Accounts Committee Report, "The Accounts of the Duchies of Cornwall and Lancaster", which was published on 28 July; and if he will seek to vary the method of accountability which applies to the Duchies. [30165]

John Healey: The Treasury Minute dated 7 November 2005 on the Nineteenth Report from the Committee of Public Accounts, Session 2004–05 (Cm 6682), gave the Government's response to the recommendations made direct to HM Treasury. The opportunity was also taken to publish the Duchies of Cornwall and Lancaster's responses to the recommendations made direct to them, within the same document as the Treasury Minute.

Tax Credits

Mr. Laws: To ask the Chancellor of the Exchequer in how many cases where tax credit overpayments have been disputed *(a)* they have been written off, *(b)* additional tax credits have been awarded to deal with hardship and *(c)* have claimants in receipt of additional tax credits due to hardship, also (i) disputed their overpayment and (ii) had it written off in (A) 2003–04, (B) 2004–05 and (C) 2005–06 to date. [23679]

Dawn Primarolo: HM Revenue and Customs (HMRC) wrote off around 150,000 disputed overpayment requests up to 30 September 2005.

For numbers of additional tax credits payments I refer the hon. Member to the answer I gave my right hon. Friend the Member for Birkenhead (Mr. Field) on 8 November 2005, *Official Report*, column 331W. HMRC does not hold information on the number of additional tax credits payments made to claimants who have disputed an overpayment or subsequently go on to dispute an overpayment.

Mr. Laws: To ask the Chancellor of the Exchequer whether new members of staff in tax credit call centres have given advice to helpline callers before beginning training. [25247]

Dawn Primarolo: All new members of staff in the tax credit call centres receive the required training before giving advice to helpline callers. This training covers information on tax credits, relating to eligibility, entitlement, claiming and payment. In addition the training covers use of the computer system used within tax credits and also teaches them call handling skills/techniques. No adviser is able to give advice to a member of the public until this training has been completed.

Daniel Kawczynski: To ask the Chancellor of the Exchequer if he will allow overpayments through the tax credit system to be repaid to the Exchequer in one lump sum rather than in instalments. [29159]

Dawn Primarolo: I refer to the reply to the right hon. Member for Birkenhead (Mr. Field) on 20 January 2005, *Official Report*, columns 1103–04W.

Mr. Andrew Turner: To ask the Chancellor of the Exchequer when he will recommence interrupted payments in respect of tax credit case no. JA 24 43 02 C (2005/09 012378); and if he will cease sending letters demanding repayment of sums allegedly overpaid. [29315]

Dawn Primarolo *[holding answer 17 November 2005]*: HM Revenue and Customs is statutorily debarred from disclosing information relating to the tax credits affairs of individuals. I have asked the Tax Credit Office to write to the hon. Gentleman about his constituent's case.

Mr. Laws: To ask the Chancellor of the Exchequer how many awards of tax credits have been wrongly made to people subject to immigration control in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date; and what the estimated value is of these overpayments. [29707]

Dawn Primarolo: This information is not available except at disproportionate costs.

Mr. Laws: To ask the Chancellor of the Exchequer in how many tax credit cases from 2003–04 an overpayment was identified where there was no ongoing award. [30007]

Dawn Primarolo: The information requested can be found in table 2 of 'Child and Working Tax Credits Statistics—Supplement on Payments in 2003–04'. The publication can be found on the HMRC website from the following link: http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-quarterly-stats.htm.

Mr. Laws: To ask the Chancellor of the Exchequer how many child tax credit awards ended in 2003–04 because *(a)* a couple split up and the joint award ended and *(b)* a household went from being a lone parent to a couple household. [30010]

Dawn Primarolo: The information requested is not available and can be obtained only at a disproportionate cost.

Vera Baird: To ask the Chancellor of the Exchequer how many working tax credit overpayments have resulted in weekly repayments in excess of £50 in Redcar and Cleveland in the last 12 months. [30430]

Dawn Primarolo: The information requested is not available.

Mr. Frank Field: To ask the Chancellor of the Exchequer how many tax credit underpayments resulted from an error in which a child or children were no longer shown on an award notice. [30679]

Dawn Primarolo: This information is not available.

Tsunami Appeal

Ms Katy Clark: To ask the Chancellor of the Exchequer what tax arrangements were made by the Treasury regarding the proceeds of the Tsunami appeal in the UK. [29981]

Dawn Primarolo: Charities raising money for the Tsunami benefit from the same tax reliefs available to all UK charities.

Vehicle Taxation

Tom Brake: To ask the Chancellor of the Exchequer what assessment he has made of the merits of changing the system of taxation of vehicles at point of sale to promote the use of fuel-efficient vehicles. [28239]

John Healey: The Chancellor keeps all taxation policy under review giving consideration to all relevant economic, social and environmental factors in the context of the Budget process.

World GDP

Mr. Hollobone: To ask the Chancellor of the Exchequer what forecasts he has made of the proportionate share of world gross domestic product in *(a)* 2010, *(b)* 2025 and *(c)* 2050 which can be expected to be won by (i) the EU, (ii) the US, (iii) China and (iv) India. [30496]

Mr. Ivan Lewis: HM Treasury does not forecast shares of world GDP. However, HMT published estimated shares of world GDP (at purchasing power parity) for selected countries in 2015, in the paper "Long term economic challenges and opportunities for the UK", which accompanied the 2004 pre-Budget report (see chart 3.2, p23).

Updated information is set out in the following table. HMT estimates do not extend beyond 2015, nor do they provide a figure for the EU.

World GDP shares—percentage (in purchasing power parity)

Country	*2004*	*2010*[1]
US	20.9	20.0
China	13.2	16.5
India	5.9	6.9

[1] Estimates.

Note:

These estimates are subject to considerable uncertainties and do not constitute formal HMT forecasts.

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Mr. Andrew Mitchell: To ask the Secretary of State for Foreign and Commonwealth Affairs how much money was disbursed to Afghan farmers as compensation for the destruction of poppies in 2003; and how much remains to be paid. [28208]

Dr. Howells: In 2003, the Afghan Transitional Authority ran a non-compensated eradication programme through the provincial governors. No compensation, therefore, was disbursed to Afghan farmers during this year.

Mr. Andrew Mitchell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the UK Government's attempts to tackle poppy production in the Nangarhar area of Afghanistan. [28209]

Dr. Howells: The UK, as lead nation on counter narcotics (CN), remains committed to supporting the Afghan Government in the implementation of their comprehensive 2005 CN Implementation Plan and in updating their National Drug Control Strategy. We continue to work with the Afghan Government and others to increase activity in all areas of their strategy. As well as co-ordinating the activity of international partners, we are providing substantial financial and practical support—more than £270 million over the next three years. I refer to the reply I gave the hon. Member for Bognor Regis and Littlehampton (Mr. Gibb) on 6 June 2005, *Official Report*, column 235W, on the counter narcotics programme in Afghanistan which includes support to Nangarhar.

In August, the United Nations Office on Drugs and Crime (UNODC) announced provisional cultivation figures for 2004–05 from their annual poppy survey, which showed that cultivation had dropped by 21 per cent. to 104,000 hectares in Afghanistan. Nangarhar saw the greatest decrease, with opium poppy cultivation dropping by 96 per cent. to 1,093 hectares. Success can be partly attributed to an effective Government of Afghanistan communications campaign in late 2004–05, which we supported, alongside Governor-led eradication initiatives and a market adjustment to high levels of cultivation in 2004. UNODC are due to publish their final report in the next few weeks, but these figures are unlikely to change.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs how many countries are being invited to the forthcoming London conference on the future of Afghanistan; and whether Iran is included. [29601]

Dr. Howells: While the conference has not yet been formally announced, planning is now under way. The finalised invitation list will closely follow that for the Berlin Conference in 2004. Iran will be invited.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs on what grounds candidates were disqualified from standing in the recent Afghan elections; and if he will make a statement. [29602]

Dr. Howells: A full list of disqualified candidates, with reasons, is available on the Electoral Complaints Commission website at www.ecc.org.af.

Ambassadors (Honours)

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs how many serving United Kingdom ambassadors have *(a)* received and *(b)* not received honours. [29722]

Mr. Straw: Of the current 147 ambassadors (which includes heads of delegation/permanent representatives to international organisations who hold the personal rank of ambassador) and high commissioners, 58 have received honours during their careers and 89 have not.

Arms Trade

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the percentage of British *(a)* produced and *(b)* brokered arms whose end users are embargoed. [28911]

Dr. Howells: The Government take the enforcement of UN and other arms embargoes seriously, and is proud of the UK's robust and transparent system of export controls. The UK therefore issues licences for the export or brokering of military goods to destinations and end users covered by an arms embargo only where supply would be consistent with exemptions to the embargo concerned, for example, for humanitarian end-use. We do not issue licenses for destinations where there is a clear risk that exported items might be diverted to embargoed states. Any potential breach of UN and other arms embargoes is investigated thoroughly.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department has taken to support an international arms trade treaty. [28912]

Dr. Howells: The Government have been pursuing the initiative for an international Arms Trade Treaty during the UK's presidencies of the G8 and of the EU. At Gleneagles in July, Heads of State of the G8 agreed that the

> "development of international standards in arms transfers . . . would be an important step toward tackling the undesirable proliferation of conventional arms".

On 3 October EU Foreign Ministers added the EU's voice to the growing support for an international treaty to establish common standards for the global trade in conventional arms, and called for the start of a formal negotiation process at the UN at the earliest opportunity. The Government will continue to work to build the broad consensus needed to secure the start to negotiations in the UN.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the merits of a legally binding treaty on marking and tracing small arms. [28913]

Dr. Howells: The Open Ended Working Group that ended in New York on 17 June 2005 reached a consensus on a politically binding document. This is a first and important step in the implementation of the 2001 United Nations Programme of Action on Small Arms and Light Weapons demonstrates acceptance of the principle that such weapons should be marked and traced in an agreed manner. The UK believes that implementation will be more effective if an agreement is legally binding. The UK would welcome further discussion at the June 2006 Review Conference on this issue as well as on transfer controls. We hope that discussions on the establishment of a Group of Government Experts to look at all aspects of illicit brokering, will lead in due course to a new legally binding instrument.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department has taken to increase the *(a)* resources and *(b)* capacity available to enforce arms controls. [28914]

Dr. Howells: Advice from the Foreign and Commonwealth Office (FCO) to the Department of Trade and Industry on the majority of export licence applications is carried out by the 15 member Export Licensing Team (ELT) in Counter Proliferation Department. At the beginning of 2005, the FCO began to centralise the FCO's export licensing work in the ELT, in order to improve efficiency. FCO performance for Standard Individual Export Licences currently exceeds targets (e.g. 93 per cent. of FCO recommendations are made within 10 working days, against a target of 70 per cent.). Audits of recommendations confirm that they are fully consistent with the Consolidated EU and National Arms Export Licensing Criteria. The FCO is continuing to improve processing to ensure that performance for all licence types remains high.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department has taken to assert full extra-territorial controls on arms brokering, including small arms. [28915]

Dr. Howells: The Export Control Act (2002) introduced comprehensive controls on the brokering of all equipment on the UK's Military List where any part of the activity takes place in the UK. In addition, where a UN or full-scope EU, Organisation for Security and Co-operation in Europe or UK national arms embargo is in place, these controls extend extra-territorially to UK nationals wherever they are.

The Government continues to believe that, given the very real concerns about conflict of jurisdiction, and over administration and enforcement, extra-territorial controls should only be applied to the most sensitive transfers. The Government believes that, in most cases, multilateral action remains the most effective way to combat the illicit and irresponsible trade in small arms and light weapons. This approach is at the heart of our support for the UN Programme of Action on small arms and light weapons, and for a treaty on the international arms trade.

BBC World Service

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the possible impact of cuts to the BBC World Service radio provision upon *(a)* the UK's international standing and reputation and *(b)* the success of British foreign policy. [26988]

Mr. Straw: The BBC World Service (BBCWS) contributes to Britain's international standing and reputation by being the world's best-known and most respected voice in international broadcasting. To maintain its position, BBCWS must continually take into account shifting global priorities, new technologies and changing audience preferences. Failure to do so would inevitably reduce the impact and value for money.

While continuing to provide global services in English, the BBCWS, in response to the Government's Green Paper, has reprioritised its vernacular services to focus on the countries where they can have most impact and where there is the greatest need. It was right to do so. Further reprioritisation will be necessary in the future. The closure of low impact services has released resources for investment in new media services, including the launch of a 12-hour Arabic TV service.

Bulgaria

Mrs. Ellman: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the EU's Comprehensive Monitoring Report's findings in relation to the justice system in Bulgaria. [29282]

Mr. Douglas Alexander: The Commission states in its Comprehensive Monitoring Report of 25 October that Bulgaria should continue with its efforts to reform the pre-trial phase and improve the accountability of the justice system. We support its assessment.

Consultants

Martin Horwood: To ask the Secretary of State for Foreign and Commonwealth Affairs what mechanisms are in place to assess the effectiveness of consultant-led projects in his Department; what sanctions are available to penalise consultants who run unsuccessful projects; how many projects conducted by consultants were assessed as unsuccessful in each year since 2000; and what sanctions were imposed. [29074]

Mr. Straw: The Foreign and Commonwealth Office (FCO) assesses the effectiveness of consultant-led projects through defined project management processes based on the Office of Government Commerce good practice. Evaluation of success or otherwise is carried out through review processes both at the end of stages within a project, drawing out lessons learned that can be immediately incorporated into later stages of the same project, and through final evaluation in project evaluation reports and post implementation reviews.

FCO contracts do not include penalty clauses as these are not enforceable in English law. The FCO seeks to reach agreement at the outset on the genuine losses that would be incurred by the FCO in the event of a failure to deliver. These then form the basis of any damages payable to the FCO and are included in the contract as liquidated damages. The FCO also makes wide use of service credit regimes where performance failures lead to pre-agreed reductions in payments to the contractor.

The FCO does not hold a centralised record of projects conducted by consultants that have been assessed as unsuccessful and the sanctions imposed. This information could therefore be provided only at disproportionate cost.

Martin Horwood: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Department takes to ensure that consultancies do not claim excessive expenses while working for his Department and its agencies. [29075]

Mr. Straw: The Foreign and Commonwealth Office agrees the level of expenses that may be claimed by consultancies through a fully itemised pricing schedule in each contract. This includes travel, travel time, subsistence/expenses, leave and leave relief.

Correspondence

Clare Short: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter from the right hon. Member for Birmingham, Ladywood, of 7 December 2004 regarding the Middle East peace process (acknowledgement reference 1 84476/04). [29148]

Dr. Howells: I apologise for the delay. My right hon. Friend the Foreign Secretary will reply to my right hon. Friend shortly.

Clare Short: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter from the right hon. Member for Birmingham, Ladywood, of 9 May 2005 on behalf of a constituent, Carol Parsons, (acknowledgement reference 1 88801/05). [29153]

Ian Pearson: According to Foreign and Commonwealth Office records my right hon. Friend the Foreign Secretary replied to my right hon. Friend on 11 May 2005.1 will ensure that a copy of the letter is sent to my right hon. Friend for information.

Departmental Contracts (Direct Mail)

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs how many contracts for direct mail were signed by his Department in *(a)* 2005–06 to date and *(b)* 2004–05; and what the value was in each case. [27781]

Mr. Straw: No contracts have been signed by the Foreign and Commonwealth Office in the financial year 2005–06 to date.

In the financial year 2004–05 one contract was signed with the Central Office of Information. This was for the distribution of EU guides to organisations on the Benefits Agency publicity register (including Citizens Advice Bureaux, doctors surgeries, Post Offices etc). The contract was worth £38,859.68 inclusive of VAT.

Departmental Spending

David T.C. Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department spent on items of art in 2004–05. [23471]

Mr. Straw: The Foreign and Commonwealth Office spent a total of £3,658 on the purchase of works of art in the financial year 2004–05. This was all spent as part of the restoration of the Consulate in Istanbul.

As far as renovation and restoration etc. of works of art is concerned, records of this are not kept centrally.

Equal Opportunities

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on recent activity by his Department's *(a)* Gender

Advisory Group and *(b)* Disability Action Group, with particular reference to official meetings with outside bodies. [27742]

Mr. Straw: The Gender Advisory Group, a group of staff from all grades and departments around the Foreign and Commonwealth Office (FCO), chaired by the board champion on gender, Mr. Martin Donnelly, has met three times this year. The meetings have included discussions on a wide range of gender issues, including role models, an internal study on career progression for women, and the FCO nursery. Alison Platt, non-executive member of the FCO board and a member of Opportunity Now's leadership team, attended June's meeting. There have also been targeted meetings for women intending to attend internal assessment and development centres. The group has been consulted about the FCO's targets for women in the senior management structure and feeder grades, and on the streamlining of the FCO's human resources operation. The FCO hosted an Opportunity Now seminar in May and members have attended other gender-related seminars. The group's chair has called on Waqar Azmi, the civil service diversity adviser.

The Disability Action Group, a group of staff from all grades and departments around the FCO, including the board champion on disability, Mr. Dickie Stagg, has met three times this year. The meetings have included discussions on a wide range of disability issues, in particular for staff overseas, support and training for managers of disabled staff, disabled access at overseas posts, accessibility of FCO literature and websites, the FCO's disability policy and disability training. The group has been consulted about the FCO's targets for disabled officers in the senior management structure and feeder grades, and on the streamlining of the FCO's human resources operation. The group completed the Employers' Forum on Disability (EFD) Benchmark for the FCO and members of the group have attended EFD breakfast briefings. A personal development programme, run by Disability Matters, was held for disabled staff in April and May this year. Members of the group have met their counterparts in the Department for Constitutional Affairs.

Ethiopia/Eritrea

Mrs. Ellman: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Ethiopian Government concerning the recent violence in Ethiopia, with particular reference to relations between the Ethiopian People's Democratic Front and the opposition Coalition for Unity and Democracy Party; and if he will make a statement. [27599]

Ian Pearson: We are gravely concerned about the outbreak of violence in Ethiopia since 1 November which has resulted in a number of deaths and injuries and a large number of detentions, including of the Coalition for Unity and Democracy leadership and civil society and media leaders.

On 6 November, my right hon. Friend the Secretary of State for International Development (Hilary Benn) spoke to Prime Minister Meles. This followed action by my noble Friend the Foreign and Commonwealth Office Minister for Africa (Lord Triesman of Tottenham) who summoned the Ethiopian Chargé d'Affaires on 1 November to register our concerns. Our ambassador in Ethiopia has also raised our concerns with both Prime Minister Meles and with the Ethiopian Foreign Minister.

In our capacity as presidency of the European Union, our ambassador to Ethiopia held a press conference in Addis Ababa with the United States ambassador on 6 November, where we called for the Government to restore peace and confidence in the democracy building process by ensuring due process of law and respect for human rights.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* the Government of Ethiopia and *(b)* the Government of Eritrea regarding the escalation of tensions along the Ethiopia-Eritrea border. [26989]

Ian Pearson: We are working within the United Nations Security Council to ensure that the matter is urgently addressed. A UN resolution on this issue is currently being discussed. We are also working with European Union (EU) partners to urge the Eritreans to lift the restrictions put on UN helicopter flights and vehicle movements. As EU presidency, our ambassador to Ethiopia also raised this issue with Prime Minister Meles and urged continuing restraint. My noble Friend the Foreign and Commonwealth Office Minister for Africa (Lord Triesman of Tottenham) made this clear to the Eritrean ambassador on 28 July and again on 18 October.

Foreign Decorations

Dr. Julian Lewis: To ask the Secretary of State for Foreign and Commonwealth Affairs whether a previous decision by the Government to award a campaign service medal or clasp is a relevant factor in decisions taken subsequently to grant or refuse permission for a medal offered by a foreign government in respect of the same campaign to be *(a)* accepted and *(b)* worn. [30620]

Mr. Straw: Yes, I am informed that such decisions have been seen as relevant factors in decisions relating to the subsequent accepting and wearing of non-British awards.

G8 Global Partnership

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 31 October 2005, *Official Report*, columns 753–54W, on non-proliferation, what assessment he has made of whether instruments being defined for the next Financial Perspective 2007 to 2013 will allow community financing to support projects being implemented through legal and administrative frameworks created by countries participating in the G8 Global Partnership. [28483]

Mr. Straw: We believe that only those measures to support the G8 Global Partnership that fall within Community competence should be financed by Community instruments. This means that not all projects to support the G8 Global Partnership can be funded by Community Instruments. However, there are also proposals on the table for a Joint Action in support of specific Global Partnership projects, to be funded from the Common Foreign and Security Policy budget.

As I said in my answer of 31 October 2005, *Official Report*, columns 753–54W, on non-proliferation, we want to ensure that the overall package agreed for the EU's next Financial Perspective provides sufficient resources to allow the Community to contribute to the EU's non proliferation objectives, including those under the Global Partnership, within an overall budget of no more than 1 per cent. of EU Gross National Income.

Holy See

Mr. Mackay: To ask the Secretary of State for Foreign and Commonwealth Affairs who has been appointed as the UK's Ambassador to the Holy See; when the announcement was made public; how it was publicised; what the new Ambassador's *(a)* background and *(b)* experience is; and if he will make a statement. [29794]

Mr. Straw: Mr. Francis Campbell has been appointed as the next British Ambassador to the Holy See. The appointment was announced, in the usual way, in an FCO press notice on 15 November 2005. The Permanent Under Secretary also wrote to the Foreign Affairs Committee to inform them of the appointment. I have arranged for copies of the press notice, which includes Mr. Campbell's CV, to be placed in the Library of the House.

Iran

Mr. Maples: To ask the Secretary of State for Foreign and Commonwealth Affairs whether Iran has imposed restrictions on UK imports; and if he will make a statement. [26996]

Dr. Howells: We have received a number of reports about recent restrictions on the import into Iran of goods of UK origin. The Iranian authorities have not confirmed that restrictions are in place. UK Trade and Investment and the British embassy in Tehran are advising British companies in response to individual inquiries and via their websites. We continue to monitor the situation.

Iraq

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what funds from the Development Fund for Iraq are not accounted for. [28404]

Mr. Straw: The Government are not aware that there are any funds from the Development Fund for Iraq unaccounted for. Although the audit of the Development Fund for Iraq's financial management under the Coalition Provisional Authority between May 2003 and June 2004, carried out by the US Office of the Special Inspector General for Iraq Reconstruction and the external auditor KPMG, found $8.8 billion of funds to have less than adequate financial controls, the audit did not assert that this money could not be accounted for.

The UK, alongside the World Bank, International Monetary Fund and other donors, continues to work with the Iraqi Government to improve accountability and transparency in Iraq's public finances.

Peter Law: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer to the hon. Member for Carmarthen, East and Dinefwr (Adam Price) of 1 November 2005, *Official Report*, columns 949–50W, on Iraq, if he will place in the Library a copy of the survey to which he refers; and whether he has any plans to fund further such surveys. [26787]

Dr. Howells: A copy of the public opinion survey will be placed in the Library of the House. There are no plans to carry out any further similar surveys.

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 7 November 2005, *Official Report*, column 174W, on the Iraq-Niger uranium deal, if he will ascertain from Senator Rockefeller's office when the Senator expects his investigation to report; and if he will place the information he receives in the Library. [28820]

Dr. Howells: We have asked the Federal Bureau of Investigation when their investigation will be completed, but they are not yet in a position to give any indication.

Ivory Coast

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effectiveness of the enforcement of the arms embargo imposed upon the Ivory Coast. [27023]

Ian Pearson: The Government's assessment of the effectiveness of the arms embargo on Cote d'Ivoire is based on the reports of the UN group of experts, set up by the UN Security Council to monitor the arms embargo. In its latest report, the group of experts stated that, since the imposition of the arms embargo on Cote d'Ivoire the Government of Cote d'Ivoire has restrained procurement of weapons and munitions. The group found no evidence of recent deliveries of weapons and ammunition to the most prominent militias. However, the group of experts did highlight some cases where the embargo may have been breached. The UN Security Council is now carefully considering these cases. The UK continues, through its membership of the UN Security Council and relevant UN Sanctions Committee, to press for robust enforcement of the UN arms embargo.

Ministerial Travel

Mr. Holloway: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost was of rearranging his flight from Moscow on 9 November; and whether the cost was met by public funds. [28887]

Mr. Douglas Alexander: I refer the hon. Member to the answer I gave the hon. Member for Mid-Worcestershire (Peter Luff) on 16 November 2005, *Official Report*, columns 1267–68W.

National Minimum Wage

Ms Katy Clark: To ask the Secretary of State for Foreign and Commonwealth Affairs how many

employees in his Department were affected by the rise in the national minimum wage on 1 October. [28979]

Mr. Straw: None.

Nuclear Non-proliferation

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 31 October 2005, *Official Report*, columns 753–54W, on non-proliferation, whether he expects the Stability Instrument in the Financial Perspective 2007–13 to enable the financing of programmes that *(a)* provide support to chemical weapon destruction facilities and *(b)* relate to bio-safety. [28458]

Mr. Straw: The current draft of the Stability Instrument under discussion in Brussels does not provide for funding to finance programmes that provide support for chemical weapon destruction facilities or that relate to bio-safety. This instrument is intended to finance assistance to help establish, re-establish or maintain the essential conditions necessary to permit the effective implementation of the European Community's development assistance and co-operation policies and to contribute to the reinforcement of stability, in particular in a situation of crisis or emerging crisis.

Public Service Agreement

Mr. Philip Hammond: To ask the Secretary of State for Foreign and Commonwealth Affairs which data sources he will use to measure progress against 2004 Public Service Agreement target number 2. [29944]

Mr. Straw: The 2004 Public Service Agreement (PSA) target number 2 covers Foreign and Commonwealth Office (FCO) work on reducing the "risk from international terrorism".

The FCO will use a variety of data sources including the Joint Terrorism Analysis Centre's assessments of international terrorist threats and of terrorism trends, networks and capabilities; reporting from our diplomatic posts on trends in other governments' will and capacity to counter terrorism, and their success, or otherwise, in doing so; evaluations of our counter-terrorism capacity-building programmes in priority countries; and reports from government experts on the enhancement of protective security measures which reduce the vulnerability of UK citizens and UK interests overseas.

As with other Government Departments, the FCO publishes an Autumn Performance Report containing progress against our PSA targets. The 2005 report will be published by early December and will be available in the Library of the House. It will contain information on the data sources used to generate performance assessments.

Mr. Philip Hammond: To ask the Secretary of State for Foreign and Commonwealth Affairs which data sources he will use to measure progress against 2004 Public Service Agreement target number 4. [29945]

Mr. Straw: The 2004 Public Service Agreement (PSA) target number 4 covers Foreign and Commonwealth Office (FCO) work on promoting a "reformed and effective EU", ranging from future financing to the Common Foreign and Security Policy. As this target touches on a wide variety of FCO activity, we draw on many data sources to measure progress across the target.

These sources include: internal judgments made by the FCO and other Departments, based on feedback inter alia from other member states and the EU institutions; the outcome of Council and other EU-level meetings; political reporting from our Diplomatic Posts; and media commentary in the UK and across the rest of Europe. We use the Eurobarometer opinion poll to measure public awareness of the EU.

As with other Government Departments, the FCO publishes an Autumn Performance Report containing progress against our PSA targets. The 2005 report will be published by early December and will be available in the Library of the House. It will contain information on the data sources used to generate performance assessments.

Mr. Philip Hammond: To ask the Secretary of State for Foreign and Commonwealth Affairs which data sources he will use to measure progress against 2004 public service agreement target number 7. [29946]

Mr. Straw: The 2004 public service agreement (PSA) target number 7 covers Foreign and Commonwealth Office (FCO) work on increasing

> "understanding of and engagement with, Islamic countries and communities",

and promoting political and socio-economic reform.

Our data sources for measuring progress against this target will include Freedom House, EU Neighbourhood Policy Action Plans, World Bank regional studies, United Nations Development Programme—Human Development Reports, Pew Global Attitudes Surveys and other surveys.

As with other Government Departments, the FCO publishes an autumn performance report containing progress against our PSA targets. The 2005 report will be published by early December and will be available in the Library of the House. It will contain information on the data sources used to generate performance assessments.

Mr. Philip Hammond: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the 2004 public service agreement target number 9 applies to each year within the target period. [29947]

Mr. Straw: Yes.

Mr. Philip Hammond: To ask the Secretary of State for Foreign and Commonwealth Affairs which data sources he will use to measure progress against 2004 public service agreement target number 8. [29948]

Mr. Straw: The 2004 public service agreement (PSA) target number 8 covers Foreign and Commonwealth Office (FCO) work on promoting

> "sustainable development, underpinned by democracy, good governance and human rights".

Details of the data sources we use to assess performance across this target are contained in the FCO's PSA 'Technical Note'. This document is available on the FCO website. Pages 33 to 36 relate to PSA 8:
http://www.fco.gov.uk/Files/KFile/SR04PSATechnicalNote.0.pdf.

Delivery of the PSA is also supported by the Global Opportunities Fund Sustainable Development Programme, which provides £5 million per year for sustainable development and human rights projects in priority countries. Progress is measured individually for each project.

Specific aims, targets and objectives on the issues covered by PSA 8 are set out in our Sustainable Development Strategy and our Strategy on Human Rights, Democracy and Good Governance, both available at www.fco.gov.uk.

As with other Government Departments, the FCO publishes an autumn performance report (APR) containing progress against our PSA targets. The 2005 report will be published by early December and will be available in the Library of the House. It will contain information on the data sources used to generate performance assessments.

Recruitment Practices

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in reforming recruitment practices within his Department. [29604]

Mr. Straw: The Foreign and Commonwealth Office (FCO) is constantly striving to improve its recruitment practices. For instance, in order to improve our diversity and bring in expertise from the private sector, we are opening up more senior jobs to open competition. These include the Ambassador to the Holy See, the Director of UKVisas, the Legal Adviser and the Head of Science and Innovation.

In addition, we are streamlining our recruitment processes at administrative, operational and policy entry levels by using the latest on-line application and sifting packages and following a proactive diversity advertising policy.

All of this is considered with the fundamental principle of the Civil Service Commissioners' Recruitment Code, which states that selection for appointment should be made on merit on the basis of fair and open competition.

Russia

Sarah Teather: To ask the Secretary of State for Foreign and Commonwealth Affairs what the additional cost was to public funds of his return from Moscow on 9 November. [30168]

Mr. Douglas Alexander: I refer the hon. Member to the answer I gave to the hon. Member for Mid-Worcestershire (Peter Luff) on 16 November 2005, *Official Report*, columns 1267–68.

Senegal

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* the Government of Senegal, *(b)* other Governments in Africa and *(c)* his EU counterparts regarding the extradition of Hissene Habre to Belgium. [27029]

Ian Pearson: I refer the hon. Member to the answer I gave to my hon. Friend the Member for Sunderland, South (Mr. Mullin) on 16 November 2005, *Official Report*, column 1270W. In addition I can confirm that we have not had any discussions concerning the extradition of Hissene Habre with other Governments in Africa. This issue was briefly discussed in the EU Africa Working Group on 12 October 2005.

Turkish Republic of Northern Cyprus

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance his Department has provided to Mr. Andrew Gaudyn, whose daughter was abducted to the Turkish Republic of Northern Cyprus; and if he will make a statement. [30751]

Mr. Douglas Alexander: The British High Commission in Nicosia and Child Abduction Section (CAS) at the Foreign and Commonwealth Office have been in regular contact with Mr. Gaudyn and will continue to provide appropriate consular assistance. An official from CAS attended a meeting with Mr. Gaudyn's solicitor, the Crown Prosecution Service, Gwent Police and the National Criminal Intelligence Service to discuss the case on 20 October.

US Detention Centres

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what information *(a)* he and *(b)* his officials have received of detention centres operated by the United States Administration situated in (i) European Union states and (ii) other European states. [28403]

Mr. Straw: None.

CABINET OFFICE

Consultants

Martin Horwood: To ask the Chancellor of the Duchy of Lancaster if he will list departmental projects conducted by consultants in each year since 2000; what the cost was in each case; and what the total cost of employing consultants was in each year. [29086]

Mr. Jim Murphy: All projects in the Department are conducted by senior responsible owners who are civil servants; they may engage consultants to provide advice and assistance with the delivery of a project.

Information about the involvement of consultants in individual projects, and the cost of these, is not held centrally and may not be obtained without incurring disproportionate costs.

The total expenditure on the use of consultants since 2000 is shown in the table.

	£ million
2000–01	10.93
2001–02	16.88
2002–03	13.39
2003–04	15.93
2004–05	12.70

Note:

Figures relating to financial years prior to 2001–02 include Centre for Management and Policy Studies, Regional Co-ordination Unit, Government Car and Despatch Agency and Central Office of Information. Figures from 2002–03 include 'core' Cabinet Office only.

Martin Horwood: To ask the Chancellor of the Duchy of Lancaster what steps the Department takes to ensure that consultancies do not claim excessive expenses while working for the Department and its agencies. [29087]

Mr. Jim Murphy: When engaging consultancies the Department would include, as part of its contract, terms and conditions which would provide for reasonable expenses to be reimbursed against receipts. That, in conjunction with appropriately robust contract management arrangements, ensures that consultancies do not claim excessive expenses.

Martin Horwood: To ask the Chancellor of the Duchy of Lancaster what mechanisms are in place to assess the effectiveness of consultant-led projects in his Department; what sanctions are available to penalise consultants who run unsuccessful projects; how many projects conducted by consultants were assessed as unsuccessful in each year since 2000; and what sanctions were imposed in each case. [29122]

Mr. Jim Murphy: All projects in the Department are led by senior responsible owners who are civil servants; they may engage consultants to provide advice and assistance with the delivery of a project.

When engaging consultants the Department would include, as part of the contract, terms and conditions that would provide sanctions should they fail to meet contractual obligations. That, in conjunction with appropriately robust contract management arrangements ensures consultants deliver work within the terms and conditions of their contract. If they were to breach their contract we would exercise our right to invoke our legal rights under the terms and conditions of the contract.

Public Service Agreement

Mr. Philip Hammond: To ask the Chancellor of the Duchy of Lancaster what data sources he will use for the purposes of measuring performance against 2004 public service agreement target number 3. [29862]

Mr. Jim Murphy: Data sources for measuring performance against public service agreement (PSA) targets can be found in the technical notes which are in the public domain and are available on the Cabinet Office website at http://www.cabinetoffice.gov.uk/reports/service-delivery/2005/index.asp.

LEADER OF THE HOUSE

Consultants

Martin Horwood: To ask the Leader of the House (1) what mechanisms are in place to assess the effectiveness of consultant-led projects in his Office; what sanctions are available to penalise consultants who run unsuccessful projects; how many projects conducted by consultants were assessed as unsuccessful in each year since 2000; and what sanctions were imposed in each case; [29119]

(2) if he will list projects conducted for his Office by consultants in each year since 2000; what the cost was in each case; and what the total cost of employing consultants was in each year; [29093]

(3) what steps his Office takes to ensure that consultancies do not claim excessive expenses. [29092]

Mr. Hoon: The Office of the Leader of the House of Commons has employed consultants on only one occasion since 2000, and this was successful.

	Details of consultants employed
Date	August 2005
Project	Review of database technical applications
Cost	£3,760
Total costs	£3,760

No provision was made to enable them to claim expenses.

When letting consultancy projects, we follow the principles and practices set out in the Office of Government Commerce's best practice guidance, "Delivering world-class consultancy services in the public sector".

Modernisation

Ben Chapman: To ask the Leader of the House what assessment he has made of the new working hours of the House. [29757]

Mr. Hoon: I have made no formal assessment of the new arrangements.

The new working hours were agreed following a debate on 26 January this year. Given the recent history on this subject, it seems reasonable to allow time for the new hours to be tested. I do not plan to revisit this issue in the immediate future, but I remain open to representations.

CHURCH COMMISSIONERS

New Churches

26. **Mr. Hollobone:** To ask the hon. Member for Middlesbrough, representing the Church Commissioners if he will make a statement on the Church Commissioners' policy on encouraging the establishment of churches in new residential areas. [29662]

Sir Stuart Bell: The Church Commissioners do not have a policy on the establishment of churches in new residential areas, an initiative which lies with individual dioceses. They do however make available over £4 million p.a. to support dioceses' mission initiatives.

Zurbaran Paintings

27. **Helen Goodman:** To ask the hon. Member for Middlesbrough, representing the Church Commissioners if he will make a statement on the future of the Zubarán paintings owned by the Commissioners, which hang in Auckland Castle. [29663]

Sir Stuart Bell: The Commissioners' Board of Governors recently agreed to retain ownership of the paintings and to re-examine their future, along with the suitability of Auckland Castle, in five years.

INTERNATIONAL DEVELOPMENT

Afghanistan

Mr. Austin Mitchell: To ask the Secretary of State for International Development how much money was disbursed to Afghan farmers as compensation for the destruction of poppies in 2003; and how much remains to be paid. [26827]

Dr. Howells: I have been asked to reply.

In 2003, the Afghan Transitional Authority ran a non-compensated eradication programme through the provincial governors. No compensation, therefore, was disbursed to Afghan farmers during this year.

Climate Change

Peter Law: To ask the Secretary of State for International Development what research he has *(a)* commissioned and *(b)* evaluated on the implications of climate change for humanitarian response; and if he will make a statement. [20931]

Hilary Benn: Disaster risk reduction is a key part of adaptation to climate change. The UK is working with the international community to help developing countries improve climate information and manage climate risks.

DFID is part of an informal donors' group on climate change called the Vulnerability and Adaptation Resource Group (VARG). Through VARG, DFID has been involved in the production of a paper entitled "Poverty and Climate Change" (2003) which highlighted the growing significance of climate change on development and called for action to manage related risks. We are now working with other donors on a second paper on disaster risk reduction and climate change. This paper will seek to identify links between disaster prevention and climate change adaptation and to highlight any potential conflicts in current approaches.

DFID is also working with the UN, World Bank and developing countries, particularly the most disaster prone, to help them tackle disaster risk more effectively. We plan to publish a policy and implementation plan on our approach to disaster risk reduction later this year. This will include ways in which we aim to integrate climate change adaptation into disaster risk reduction work.

At Gleneagles, G8 Heads invited the World Bank to develop and implement "best practice" guidelines for screening investments in climate sensitive sectors. The aim would be to determine how impacts related to climate change might affect the performance of such investments. For example, investments in long-life infrastructure, such as housing, roads, bridges and industry, could be at increased risk of flooding or hurricanes. G8 Heads further encouraged all major bilateral and multilateral development organisations to follow suit. DFID is working to begin implementation of such arrangements by 2008. This is in line with the Commission for Africa recommendation.

Correspondence

Mr. Cameron: To ask the Secretary of State for International Development when his Department will respond to the letter of 24 August 2004 sent by Mrs. Susie Howard with regard to the SAT rural education programme in Honduras (JFS 1353). [23172]

Mr. Thomas: DFID offers its sincere apologies for the delay in responding to the letter from Mrs. Susie Howard.

The letter was addressed to a senior education adviser, but unfortunately at that time he had left that position, having been posted to Thailand.

A DFID official spoke with Mrs. Susie Howard explaining the delay and apologies were offered together with assurances that her letter would be answered by the end of November 2005.

The letter from DFID will respond to the suggestions made by Mrs. Susie Howard regarding the SAT rural programme in Honduras.

Departmental Staff

Mike Penning: To ask the Secretary of State for International Development how many personnel were employed in his Department in each year since 1997, broken down by *(a)* civil servants, *(b)* contractors and *(c)* other staff. [27569]

Hilary Benn: Details of DFID home civil service (HCS) staff numbers are published in Civil Service Statistics which are available in the Library of the House of Commons and on the Cabinet Office Statistics website at: http://www.civilservice.gov.uk/management_of_the_civil_service/statistics/civil_service_statistics/index.asp

For ease of reference, these figures since 1997 are detailed in the following table:

	(a) DFID HCS number
1997	1,000
1998	1,050
1999	1,160
2000	1,210
2001	1,260
2002	1,520
2003	1,600
2004	1,780
2005	1,880

No historical records are available of the number of contractors engaged by the organisation that would enable us to provide the information requested.

In addition to our home civil service personnel, DFID employs staff in country in our overseas offices. Historically we have also employed staff on fixed-term technical co-operation contracts (TCOs), although these arrangements were discontinued in July 2002. The numbers of personnel in each of these categories are as follows:

	Staff appointed in country (SAIC), i.e. locally engaged staff overseas	*Fixed-term contract staff serving on development projects overseas*
1997	330	621
1998	356	537
1999	280	490
2000	404	666
2001	424	575
2002	739	436
2003	874	333
2004	914	182
2005	989	[1]28

[1] Still serving on contracts started before July 2002.

Details of our casual and agency temporary staff numbers are not held centrally within DFID and could be obtained only by incurring a disproportionate cost to the organisation.

David T.C. Davies: To ask the Secretary of State for International Development how many employees have been dismissed by his Department in each of the last five years for which figures are available. [29130]

Mr. Thomas: Over the last five years, the number of staff who have been dismissed by DFID, are shown in the table:

Year of dismissal (1 April to 30 March)	*Total*
2000-01	0
2001-02	1
2002-03	7
2003-04	5
2004-05	8
2005-06 (To date)	5

This data includes all dismissals in our Headquarter offices in the UK and our offices overseas, where we employ both UK-based staff and staff appointed in country.

International Monetary Fund/World Bank

Mr. Jim Cunningham: To ask the Secretary of State for International Development what steps his Department is taking to ensure that the *(a)* International Monetary Fund and *(b)* World Bank is more transparent and accountable in its operations. [29392]

Hilary Benn: The UK has consistently pushed for improvements in transparency and accountability at both the World Bank and International Monetary Fund (IMF). Both organisations now make a large proportion of their information public.

In the IMF, all major policy documents, summaries of board discussions and country documents are made publicly available with the consent of the country authorities. The Independent Evaluation Office provides comprehensive independent scrutiny of the IMF's work and we are currently contributing to an external evaluation of its effectiveness.

Nearly all World Bank documents are made public. The World Bank has also established approximately 65 Public Information Centres around the world, which provide the general public with copies of its publications and access to its website.

The UK has consistently pressed the World Bank to publish more information, for example, board minutes, executive directors' statements, and country policy and institutional assessment (CPIA) scores. CPIA scores play a significant role in determining how the World Bank allocates its concessional resources.

Partly as a result of our efforts, a revised World Bank disclosure policy was approved in March 2005. Board minutes will now be made public. All country assistance strategies will be made public as a rule. There will also be a pilot programme of publishing some board documents at the same time as they are sent to the board. In addition, this year, it was agreed that the World Bank would disclose CPIA scores, starting with the 2005 CPIA exercise. We regard these recent moves as significant steps in the right direction. However, we will continue to press for further improvements to transparency and accountability in the World Bank and IMF.

Pakistan

Mr. Gordon Prentice: To ask the Secretary of State for International Development whether he is making funds available to charter helicopters in Pakistan to take relief aid to remote communities in Kashmir; and if he will make a statement. [29399]

Hilary Benn: DFID's contributions to the United Nations and the International Committee of the Red Cross (ICRC) includes support for the provision of helicopters to deliver relief supplies and undertake medical evacuations. Two Puma helicopters for the ICRC were transported to Pakistan by the Ministry of Defence from Spain. We have also funded the marginal costs of three British military heavy-lift CH-47 Chinook helicopters that have been carrying out humanitarian assistance flights since 28 October. In addition, DFID has channelled more than £2.2 million through the United Nations Humanitarian Air Service (UNHAS) for helicopter provision.

On 17 November, the United Nations reported a total of 98 helicopters in operation and another eight due to arrive in the area, though the number of helicopters flying on any one day can vary due to weather conditions and maintenance. It is important that the helicopter operation is maintained while relief needs remain. Therefore, the British Government has been actively urging donors to ensure sufficient funding to maintain the United Nations helicopter fleet and we are also considering further support to UNHAS.

Special Advisers

John Hemming: To ask the Secretary of State for International Development if he will list the special advisers in post in his Department, broken down by pay band; and what the total budgeted cost to his Department of special advisers is for 2005–06. [29407]

Hilary Benn: Since 2003, the Government have published on an annual basis the names and overall cost of special advisers and the number in each pay band. For the most recent information I refer the hon. Member to the statement made by my right hon. Friend, the Prime Minister on 21 July 2005, *Official Report*, columns 158–162WS.

Information on the numbers of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House.

Information relating to costs for 2005–06 will be published after the end of the current financial year.

St. Helena

Norman Baker: To ask the Secretary of State for International Development why contractors were appointed in respect of the proposed airport on St. Helena before an environmental impact assessment had been carried out. [29424]

Mr. Thomas: Contractors have not yet been appointed. An independent team is currently in St. Helena, carrying out an environmental impact assessment. Prequalification of potentially suitable contractors for the airport construction is being undertaken in parallel with this work; and a notice seeking capability statements was issued last month in the *Official Journal* of the European Union. The invitation to tender for the airport construction contract will be issued only once the outcome of the environmental impact assessment has been incorporated into the tender documents.

Norman Baker: To ask the Secretary of State for International Development if he will make a statement on the planning inquiry process followed in respect of the proposed airport on St. Helena. [29425]

Mr. Thomas: The St. Helena Government are fully involved in planning for the airport. A planning application will be submitted in accordance with prevailing local legislation, prior to issue of an invitation to tender for design, construction and operation of the airport. Independent expertise will be provided to assist in reviewing the application.

Norman Baker: To ask the Secretary of State for International Development what statutory controls are in place to protect the environment on St. Helena, with particular reference to *(a)* the feeding ground of the St. Helena firebird and *(b)* the native Giant Earwig; and what steps the Joint Nature Conservancy Council has taken on this issue. [29427]

Mr. Thomas: So far as we know, there is not a bird species known as 'the firebird' in St. Helena. But there is a 'Wirebird' (*Charadrius sanctaehelenae*), that is endemic to the island. It is currently protected under St. Helena's Endangered Species Protection Ordinance 1996 (as revised in 2001) and is specifically listed in the schedule to the ordinance.

The Giant Earwig (*Labidura herculeana*) is believed to be extinct. We understand live specimens were last seen in the late 1960s. Subsequent attempts to find it, including by the Zoological Society of London, have failed. Were it to be rediscovered, it would be eligible for protection under the same ordinance. It is not currently listed in the schedule.

The Joint Nature Conservation Committee, although not directly involved in matters relating to these two species, is aware of their conservation status through contacts with Government Departments and the UK Overseas Territories Conservation Forum.

Norman Baker: To ask the Secretary of State for International Development why members of the Planning and Development Board on St. Helena have been required to sign the Official Secrets Acts. [29429]

Mr. Thomas: The St. Helena Development Board, which provides policy advice to the St. Helena Executive Council, includes representatives of the island community who are not employed as public servants. Although its work is conducted as openly as possible, with summaries of its discussions made available, the board occasionally considers material which is commercially or otherwise sensitive. All board members, therefore, have been required to make the same commitment to confidentiality as is normally required of public servants.

United States

Miss McIntosh: To ask the Secretary of State for International Development on what grounds the US blocked packaged meals donated by the UK for the victims of Hurricane Katrina. [27082]

Hilary Benn: The United Kingdom delivered around 475,000 operational ration packs in response to a specific and urgent request from the United States' authorities following Hurricane Katrina. Some of the packs were distributed to the disaster area but the majority were impounded because they did not comply with US regulations concerning the import of processed meat products from the rest of the world. They also fell foul of a ban on the import of ruminant products from the EU. The UK was not aware that there was a danger of the packs being impounded until after a majority of the ration packs had been sent to the US. Once informed of the problem, the UK stopped the despatch of any further packs from the UK.

Miss McIntosh: To ask the Secretary of State for International Development what representations he has made to encourage the US authorities to accept British beef when offered as humanitarian aid. [27083]

Hilary Benn: I have not made any representations to the US authorities about accepting British beef when offered as humanitarian aid. The humanitarian circumstances were exceptional and I would not expect the situation to arise again.

ELECTORAL COMMISSION

Dual Registration

Chris Ruane: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what research the Electoral Commission has undertaken into the number of electors who have dual registration in each constituency in the UK; and what measures are in place to prevent double voting. [26421]

Peter Viggers: The Commission informs me that it has undertaken no specific research into the number of electors in each constituency in the United Kingdom who are also on the electoral roll in another constituency. However, in the course of its policy review of the electoral registration process in the United Kingdom, the Commission received a number of submissions raising the issue of dual registration. These submissions informed the Commission's recommendations for reform of the registration process, first published in 2003.

Although it is possible to be registered at more than one address, it is an offence for an elector to vote more than once in any particular election, as set out in Section 61 of the Representation of the People Act 1983. Although it may be possible to detect instances of unlawful double voting by comparison of marked registers after the election, in the absence of a national electronic register there are no mechanisms in place specifically designed to prevent such conduct, or unlawful registration in more than one place.

Electoral Commission

Chris Ruane: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what the budget for the Electoral Commission was in each of the past five years; and how many staff were employed in each year. [26410]

Peter Viggers: The estimates provision made in respect of each of the years concerned, and the average full-time equivalent staff employed by the Commission, is set out in the following table.

	Estimates provision (£ million)	*Staff (average full-time equivalent)*
2001–02	7.516	39
2002–03	20.284	102
2003–04	25.708	132
2004–05	38.356	150
2005–06	24.101	[1]155

[1] Estimated.

Chris Ruane: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission if he will list the main areas of activity of the Electoral Commission in each of the last five years. [26411]

Peter Viggers: The Electoral Commission has advised me that its main areas of activity in each of the last five years have been: the regulation of political party finances; promoting public awareness of our electoral systems; reporting on the conduct of elections; reviewing electoral law and procedures; and advising Government and Returning Officers and Electoral Registration Officers.

The Commission has also completed a Periodic Electoral Review of local government boundaries in England, having taken over the functions of the Local Government Boundary Commission for England in April 2002. It also discharged a range of statutory responsibilities in relation to the regional referendum held in the north-east in November 2004.

Chris Ruane: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission how much the Commission spent on *(a)* salaries, *(b)* publications, *(c)* advertising and *(d)* other major items in each of the past five years. [26417]

Peter Viggers: Details of expenditure on salaries, publications, and advertising in each of the years concerned, supplied by the Electoral Commission, is set out in the following table.

£ million

	Salaries	*Publications*	*Advertising*
2001–02	[1]800	0.443	0.228
2002–03	2.060	0.542	4.721
2003–04	3.270	0.503	4.238
2004–05	4.697	0.412	4.937
2005–06	4.750	0.452	5.328

[1] Estimated

The Electoral Commission has advised me that other major items of expenditure in this period have included: Training for the European Parliamentary elections (2003–04 to 2004–05—£2.52 million); and the north-east regional referendum (2004–05 £4.00 million).

Further detailed information in respect of the years 2001–02 to 2003–04 is available in the Commission's Annual Reports and Accounts. These are available in the Library of the House. The Commission's Report and Accounts for 2004–05 have been laid before the House and will be published shortly.

Chris Ruane: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what the salaries of the board members of the Commission were in each of the past five years. [26418]

Peter Viggers: Information on the emoluments of board members of the Electoral Commission before 2004–05 is given in the Commission's Reports and Accounts for the years in question, copies of which are available in the Library of the House. The Commission's Report and Accounts for 2004–05 have been laid before the House and will be published shortly.

Chris Ruane: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what the expenditure of the Commission was over the past five years. [26419]

Peter Viggers: The outturn expenditure of the Electoral Commission in each of the years concerned is set out in the following table.

Outturn expenditure

	£ million
2001–02	6.066
2002–03	18.160
2003–04	18.635
2004–05	24.824
2005–06	[1]23.974

[1] Estimated

Local Government Databases

Chris Ruane: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what research the Commission has undertaken on recent changes in the law that allow local authority electoral registration officers to consult local government databases. [28160]

Peter Viggers: The Commission informs me that it has undertaken no specific research into the impact of the changes introduced by the Representation of the People Regulations 2001 that allow local authority electoral registration officers to consult local government databases.

Polling Cards/Postal Ballots

Chris Ruane: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what advice the Commission gives to local authorities on the timing of the issuing of *(a)* polling cards and *(b)* postal ballots. [26415]

Peter Viggers: The Commission informs me that its guidance urges returning officers to issue poll cards as soon as practicable. This is in line with the law relating to parliamentary elections, which requires returning officers to send poll cards to electors and their proxies as soon as practicable after the election has been called.

The Commission's guidance advises that it is good practice to issue postal votes to all who have applied as soon as practicable after the relevant deadline to allow a maximum amount of time for ballot papers to be dispatched and for the voter to return them. For continuing postal voters, returning officers cannot, by law, despatch postal ballot packs until after the deadline for changes to existing absent vote arrangements, which is currently 11 days before polling day. For people who apply after this time, postal votes are required to be issued as soon as practicable after the application has been granted.

Registration

Chris Ruane: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission when the Commission last reviewed the guidelines for procedures used by Electoral Registration Officers for individuals who have failed to register; and what system is in place to monitor compliance to these guidelines. [26413]

Peter Viggers: The Commission informs me that it last reviewed its guidance on the conduct of the electoral registration canvass in the summer of 2005. This guidance is advisory, and as such the Commission has no system in place to monitor compliance with it.

Chris Ruane: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what representations the Commission has received on Electoral Registration Officers using central government databases to improve the electoral registers. [26414]

Peter Viggers: The Commission has informed me that it has received a number of representations on a range of electoral registration issues.

In 2002, the Commission specifically sought views on whether better data-sharing between local and central government databases would help Electoral Registration Officers improve the accuracy of electoral registers. The Commission received 32 representations addressing this issue, from Electoral Registration Officers, political parties and other organisations. While a significant majority supported improved data sharing, some of the specific suggestions made could not be implemented under existing electoral and data protection law.

Research Funding

Chris Ruane: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what resource allocation the Electoral Commission has made for research into *(a)* under-registration and *(b)* postal vote fraud in each of the last five years. [28159]

Peter Viggers: The Commission informs me that expenditure on dedicated research on registration issues in Great Britain and Northern Ireland in each of the last five years is as set out in the following table:

£

	Great Britain	Northern Ireland
2001–02[2]	—	—
2002–03[1]	—	39,405
2003–04[1]	—	40,185
2004–05[1]	106,750	39,314
2005–06[2]	—	29,500

[1] Actual
[2] Provision

In addition the Commission has regularly conducted research into public opinion about electoral issues generally, including registration and the security of postal voting. The following table sets out the overall expenditure on such public opinion research projects in each of the last five years that have addressed one or both of these subjects:

£

2001–02[1]	60,000
2002–03[1]	89,065
2003–04[1]	346,332
2004–05[1]	343,706
2005–06[2]	218,305

[1] Actual
[2] Provision

In addition to research projects, the Commission invests significant resources in identifying and analysing the scale and frequency of postal voting fraud, through

monitoring electoral petitions and fraud prosecutions and liaison with the police, prosecuting authorities, and Electoral Registration and Returning Officers.

Under-registration/Postal Fraud

Chris Ruane: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what assessment the Commission has made of the likely impact under-registration may have on the size of the electorates in new constituencies proposed by the Boundaries Commission. [26420]

Peter Viggers: The Commission advises me that it has made no such assessment. Its recently published report "Understanding electoral registration" includes a detailed analysis of the extent and reasons for non-registration in Great Britain.

Chris Ruane: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what representations the Electoral Commission has received on *(a)* under-registration and *(b)* postal fraud in each of the last five years. [26408]

Peter Viggers: The Electoral Commission has advised me that it has received a number of representations about registration rates and postal voting fraud. In the last five years, it has conducted comprehensive policy reviews of the registration process and the law on postal voting. In both cases, it sought and received the views of a wide range of organisations and individuals on the existing arrangements and possible changes to them.

CULTURE, MEDIA AND SPORT

Licensing Act

11. **Mr. Bone:** To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the impact of the Licensing Act 2003 on levels of crime and disorder. [29645]

James Purnell: The Licensing Act 2003 does not come into effect until 24 November, so the Government cannot yet assess its impact. However, the introduction of effective measures to tackle crime and disorder by licence holders is one of the main features of the new licensing framework. These measures include closed circuit television, door security, and Pubwatch schemes.

19. **Stephen Hammond:** To ask the Secretary of State for Culture, Media and Sport whether the provisions of the Licensing Act 2003 distinguish between sports clubs and commercial pubs; and if she will make a statement. [29653]

James Purnell: The Licensing Act 2003 distinguishes between amateur sports clubs which qualify as members' clubs, and commercial premises including public houses. The former require only Club Premises Certificates for the supply of alcohol. The latter also require personal licences and designated premises supervisors.

Amusement Arcades

12. **Mr. Sanders:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on her Department's policy on small stakes and low value prizes in amusement arcades. [29646]

Mr. Lammy: The maximum stakes and prizes that will apply to gaming machines in arcades once the Gambling Act 2005 is implemented were published alongside the draft Bill.

Olympic Games

13. **Mark Pritchard:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the role of provincial sports training facilities for the 2012 Olympics. [29647]

Tessa Jowell: We expect a number of visiting teams to want to undertake pre-Games training in the UK.

The London Organising Committee, in partnership with the British Olympic Association, will produce a pre-Games Training Camp guide that will comprehensively detail the facilities and services that the UK can offer visiting teams.

This guide will be the primary means of informing National Olympic Committees when choosing where to stage their pre-Games preparation camps for 2012. I am sure that the first class sporting facilities at the National Sports Centre at Lilleshall will prove attractive to visiting teams.

15. **Dr. Cable:** To ask the Secretary of State for Culture, Media and Sport what financial commitments she has entered into in respect of cost overruns for the London Olympics. [29649]

Tessa Jowell: We will make every effort to avoid cost overruns. But, just in case this is not possible our Memorandum of Understanding with the Mayor of London provides for an agreement to share the costs between him and the National Lottery.

Slave Trade (Abolition Anniversary)

14. **Ms Diana R. Johnson:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on plans to celebrate in 2007 the 200th anniversary of the abolition of the slave trade. [29648]

Mr. Lammy: The 200th anniversary of Parliament's abolition of the slave trade is an important opportunity to mark a crucial turning point in this country's history. Many cities, museums, churches and others are already planning to mark the anniversary, with exhibitions, the opening of new galleries, and community-led events. I am working closely with colleagues to ensure that the Government play their part in 2007.

BBC

16. **Mr. Sheerman:** To ask the Secretary of State for Culture, Media and Sport if she will discuss the BBC's parliamentary and political coverage with the Chairman and Director General as part of the Charter renewal process. [29650]

Tessa Jowell: The Green Paper, "A Strong BBC, independent of Government", proposes that 'sustaining citizenship' should be one of the BBC's core public purposes in the next Charter period. It makes clear that high quality news and current affairs, and coverage of Parliament, are central to this purpose.

17. **Jeremy Corbyn:** To ask the Secretary of State for Culture, Media and Sport what account her Department is taking in the charter renewal process of the decision to open up 25 per cent. of BBC production to independent companies. [29651]

Tessa Jowell: We will assess the BBC's proposals against the goal of delivering the best possible programmes for licence fee payers, and respond in the White Paper. We believe that goal will be met by balancing competition from independent producers with a thriving base of in-house production.

Music Teaching

18. **Simon Hughes:** To ask the Secretary of State for Culture, Media and Sport what steps her Department is taking to increase the playing of musical instruments by young people. [29652]

Mr. Lammy: Responsibility for music within schools falls with the Department for Education and Skills.

My Department continues to work very closely with Education and Skills colleagues on the Music Manifesto, which celebrated its first anniversary in July. This sets out a series of shared aims for music education over the next three to five years.

Last week I jointly announced with the Parliamentary Under-Secretary of State for Schools a £2 million investment in three new Music Manifesto pathfinder centres at The Sage Gateshead, the Roundhouse in London and the Hallé in Manchester. Over the next two and a half years these pathfinders will benefit over 100,000 young people and more than 500 music teachers and leaders.

Commonwealth Institute Building

Miss McIntosh: To ask the Secretary of State for Culture, Media and Sport what representations she has received concerning the condition of the Commonwealth Institute building; and if she will make a statement. [28339]

Mr. Lammy: My right hon. Friend the Secretary of State received a number of representations on the condition of the Commonwealth Institute building. These were fully considered as part of the decision not to de-list the building.

Correspondence

Clare Short: To ask the Secretary of State for Culture, Media and Sport when the Minister for Creative Industries and Tourism will reply to the letter from the right hon. Member for Birmingham, Ladywood of 19 September on behalf of a constituent, Nigel Clarke. [29150]

James Purnell: I wrote to my right hon. Friend the Member for Birmingham, Ladywood on the 16 November 2005.

Damages

Mr. Hayes: To ask the Secretary of State for Culture, Media and Sport if she will list the 10 largest amounts of damages paid out by her Department in the last year for which figures are available, indicating in each case the nature of the claim. [27728]

Mr. Lammy: This information could be provided only at disproportionate cost.

Departmental Assets

Mike Penning: To ask the Secretary of State for Culture, Media and Sport if she will list the 10 most valuable *(a)* movable and *(b)* immovable assets owned by her Department. [27382]

Mr. Lammy: The 10 most valuable *(a)* movable and *(b)* immovable assets owned by the Department are as follows:

(a) movable assets

The 10 most valuable movable assets owned by the Department for Culture, Media and Sport are works of art within the Government Art Collection.

It is not possible to give an accurate estimate of the value of the Government Art Collection, which has no current market valuation. The current monetary value of a work of art can be accurately assessed only at the time of purchase or sale or by professional valuation. In the former case, the collection is not actively traded; in the latter, it would not be justified expenditure of public funds to have the whole collection valued professionally.

(b) immovable assets

The Department owns the freehold of a site to the north of the British Library at St. Pancras. This was professionally re-valued at 31 March 2005 at £18,980,000. This valuation reflects the current block on use of the site while it is required for construction of the channel tunnel rail link terminus at St. Pancras.

The nine next most valuable immovable assets are all managed by the Department's agency, The Royal Parks, and are as follows.

	£
Serpentine Gallery (Kensington Gardens)	3,878,000
Inn the Park (St James's Park)	2,873,395
The Old Police House (Hyde Park)	1,619,000
Nursery Site (Hyde Park)	1,348,000
The Lido (Hyde Park)	1,177,000
Storey's Gate Lodge (St James's Park)	916,000
Nursery (Regent's Park)	866,000
Pembroke Lodge (Richmond Park)	770,000
Storeyard Complex (Hyde Park)	696,000

The freehold of Blythe House at Olympia, London W14 is owned by the Department, and it was last valued for DCMS as at 31 March 2004 at a depreciated replacement cost of £21,800,000.

Blythe House is not carried on the Department's balance sheet as the risks and rewards of ownership are considered to lie with the three museums occupying the building for storage, each of which disclose the value of their share in their balance sheet, and has therefore been excluded from this list.

The National Asset Register also includes the freeholds of properties occupied by DCMS sponsored NDPBs. These have been excluded from this table as the freeholds are vested in the Boards of Trustees of the national museums and galleries and the British Library, each of which is an exempt charity.

Departmental Estates

Mr. Maples: To ask the Secretary of State for Culture, Media and Sport who is responsible for managing the estates of her Department; what relevant specialist qualifications he or she holds; and what the details are of his or her career to date. [26312]

Mr. Lammy: John Belza is the Department's Head of Procurement and Property Services. He has an MSc in Procurement, City and Guilds in Mechanical Engineering and Building Maintenance; is a Fellow of the Chartered Institute of Purchasing and Supply, a Member of the Institute of Leadership and Management, and is a PRINCE 2 practitioner. Since leaving the Life Guards in 1993, John has worked in the private, voluntary and public sectors in facilities management, purchasing and procurement roles, before joining DCMS in 2005.

Departmental Staff

Mr. Maples: To ask the Secretary of State for Culture, Media and Sport who the Head of the Finance and Planning Division is in her Department; what specialist finance qualifications he or she holds; and what the details are of his or her career to date. [26313]

Mr. Lammy: The current Head of Finance and Planning Division in DCMS does not hold a specialist finance qualification but has held a number of relevant posts in Finance Divisions in other Government Departments. He reports to the Department's Chief Operating Officer and Finance Director who is responsible for finance issues at board level and does hold a specialist qualification.

The current holders of these posts are set out in the Civil Service Yearbook.

Mr. Maples: To ask the Secretary of State for Culture, Media and Sport who the Head of Personnel and Central Services is in her Department; what relevant specialist qualifications he or she holds; and what the details are of his or her career to date. [26314]

Mr. Lammy: Shaun Cove is the Department's Head of Human and Business Resources. He has recently completed studying for an MA in Human Resource Strategy and Change and has eight years' experience in human resources practice, both in DCMS and what is now the Office for National Statistics, where he worked from 1985 to 1994. Since joining DCMS and prior to his roles in human resources, Shaun worked in museums and galleries sponsorship, international tourism policy, as secretary to the DCMS Board and as a Bill team leader.

Disability Discrimination Act

Mrs. James: To ask the Secretary of State for Culture, Media and Sport what assessment her Department has made of the progress of leisure and tourism facilities towards complying with the Disability Discrimination Act 1995. [29274]

James Purnell: I refer my hon. Friend to the answer given to my hon. Friend the member for West Lancashire (Rosie Cooper) on 13 June 2005, *Official Report*, column 2-3, by my right hon. Friend the Minister for Sport.

English Heritage

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport how many English Heritage sites she has visited in the last 12 months. [25874]

Tessa Jowell: I have been a member of both English Heritage and The National Trust for many years. Both organisations provide excellent value for money and make an important contribution to the nation's tourism and leisure industries. This year I have been to a number of heritage and cultural sites and events, both privately and in my official capacity as Secretary of State.

Essex

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport if she will list the top 10 tourist attractions in Essex in terms of numbers visiting or attending in each of the last three years for which figures are available. [30072]

James Purnell: My Department does not keep a central record of the tourist attractions throughout the United Kingdom. VisitBritain who promote tourism in England and overseas carry out an annual survey of visitor attractions, and from this the visitor numbers to the top 10 tourist attractions in Essex in each of the last three years are as follows:

Tourist attraction	*2004*	*2003*	*2002*
Weald Country Park	[1]500,000	[1]500,000	[1]500,000
Colchester Zoo	469,928	541,628	—
Hadleigh Castle Country Park	[1]200,000	[1]200,000	—
Marsh Farm Country Park	147,346	146,992	132,161
High Woods Country Park	[1]140,000	[1]130,000	[1]125,000
Audley End House	108,002	116,839	105,215
Dedham Art and Craft Centre	80,000	75,000	75,000
Chelmsford Museum	44,721	38,969	43,837
Audley End Miniature Railway	42,175	42,509	41,786
Great Notley Country Park and Discovery Centre	[1]42,000	[1]45,000	[1]40,000

[1] Estimated

Gambling Commission

Mark Simmonds: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the funding of the Gambling Commission's new headquarters in Birmingham. [30299]

Mr. Caborn: In line with the recommendations of the Lyons Review that more public bodies should be located outside London, the Gambling Commission has acquired new headquarters in Birmingham. Funding for this will come from the grant provided by my Department.

The Commission has secured a competitive rent for their new property with a significant rent-free period at a rate which compares very favourably with the rent for

their current premises in London. It followed Office of Government Commerce recommended procedures in selecting the property, including completion of internal gateway reviews. The acquisition of new headquarters in Birmingham is part of the transition project to establish by September 2007 a fully operational Gambling Commission under the new regulatory system introduced by the Gambling Act 2005. The move will be completed by summer 2006.

Licensing Applications

Mrs. May: To ask the Secretary of State for Culture, Media and Sport what guidance the Government have provided to local authorities on informing local residents of a premises licence application made under the Licensing Act 2003. [24969]

James Purnell: The burden of advertising applications for premises licences falls on the applicants, rather than on local authorities. Articles 25 and 26 of the Licensing Act 2003 (Premises licences and club premises certificates) Regulations 2005 include detailed provisions covering the form and nature of advertisements required of applicants.

Should local authorities wish, additionally, to undertake any further advertisement of applications, it is a matter for them.

London Olympics

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport what representations she has made to the Secretary of State for Transport on ensuring that train services to the South West are ready to meet the transport requirements of the 2012 Olympics. [30349]

Mr. Caborn: There has been regular communication between the Department for Culture, Media and Sport, and the Department for Transport regarding the Olympic Transport Proposals that were set out in the Candidature File submitted to the International Olympic Committee in November 2004. The Government is confident that these proposals will be sufficient to meet the transport needs of the 2012 Games.

Public Libraries

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport what percentage of loaned items were accounted for by the borrowing of *(a)* books, *(b)* videos, *(c)* DVDs and *(d)* CDs from libraries in (i) Brent and (ii) each borough in London in each year since 1997. [30112]

Mr. Lammy: This information is not held centrally. However, I refer the hon. Member to the reply I gave her on 29 June 2005 on book loans by London libraries and on 3 November about the loan of audio-visual items by Brent libraries and London libraries. The following table shows the number of book and total loans by Brent from 1997–98 and 2003–04 and total loans by London libraries as a whole for the same period. These figures are drawn from the Chartered Institute of Public Finance and Accountancy's annual Public Library Statistics (Actuals) which also contain figures for individual library authorities. Copies are kept in the House of Commons Library.

	Brent		*Greater London*
	Book loans	*All loans*	*All loans*
1997–98	1,419,752	[1]1,419,752	61,908,130
1998–99	1,216,032	[1]1,216,032	59,372,374
1999–2000	1,094,504	1,254,051	54,700,891
2000–01	1,055,862	1,247,619	52,949,785
2001–02	1,098,832	1,308,111	50,836,822
2002–03	1,139,873	1,381,696	49,390,102
2003–04	1,148,616	1,374,667	46,867,270

[1] No "Total Audio-visual, electronic and other issues" figure shown by Brent for this year.

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport what total stock of *(a)* DVDs, *(b)* videos and *(c)* CDs was owned by libraries in (i) Brent and (ii) each borough in London in each year since 1997. [30169]

Mr. Lammy: This information is not held centrally. However, the following table shows the numbers of sound recordings (encompassing talking books and music) and videos/DVDs held by (i) Brent and (ii) all inner and outer London libraries (including Brent) from 1997–98 to 2003–04. These figures are drawn from the Chartered Institute of Public Finance and Accountancy's (CIPFA's) annual Public Library Statistics (Actuals) which also contain figures for London's 33 individual library authorities. Copies are kept in the House of Commons Library.

	Brent		*Greater London*	
	Sound Recordings	*Video/ DVD*	*Sound Recordings*	*Video/ DVD*
1997–98	[1]26,042	9,608	[2]874,174	260,857
1998–99	41,779	15,659	1,141,705	296,693
1999–2000	27,325	16,687	1,127,467	332,299
2000–01	21,161	13,955	1,122,182	363,675
2001–02	19,228	14,805	1,088,827	368,480
2002–03	18,455	20,028	1,422,612	437,779
2003–04	15,906	20,104	1,048,091	442,305

[1] Music only. Brent entered their audiobook holdings within their overall bookstock figure for this year.
[2] Music only for parity.
Note:
The above table includes loan items only. It does not take account of any materials held in this media for reference purposes. These are not easily identifiable within the CIPFA statistics.

Youth Shelters

Dr. Kumar: To ask the Secretary of State for Culture, Media and Sport how many council-funded youth shelters have opened in *(a)* England, *(b)* the Tees Valley and *(c)* Middlesbrough South and East Cleveland constituency in each year since 1997. [29914]

Mr. Lammy: Information is not held centrally on the number of council-funded youth shelters.

Dr. Kumar: To ask the Secretary of State for Culture, Media and Sport whether she plans to fund the expansion of youth shelters in England. [29915]

Mr. Lammy: I have no plans to fund the expansion of youth shelters in England. However, my Department is working closely with the Department for Education and Skills on the implementation of "Youth Matters", the youth Green Paper which was published in July this year.

A key strand in Youth Matters is the provision of more "things to do and places to go" for young people in their local area and more choice and influence over what is available.

Youth Matters proposes the establishment of an "Opportunity Fund" in each local authority to be spent at young people's discretion on projects they want to do to improve things to do and places to go in their area. This could include the provision of youth shelters.

EDUCATION AND SKILLS

"Youth Matters"

Mr. Malik: To ask the Secretary of State for Education and Skills what assessment she plans to make of the implications of Youth Matters for black and minority ethnic young people and organisations. [26643]

Maria Eagle: The proposals in Youth Matters will improve the lives of all young people, including those from black and minority ethnic groups. In preparing the Government's response to the consultation we are considering carefully the views from black and minority ethnic organisations and young people.

0870 Numbers

Andrew Rosindell: To ask the Secretary of State for Education and Skills how the revenue raised from her Department's 0870 prefix contact telephone number is spent. [26438]

Maria Eagle: The Department for Education and Skills does not participate in revenue share schemes associated with 0870 numbers and therefore derives no revenue from the use of these numbers.

Adult Education

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what percentage of colleges are charging fees to adults for level two education. [27955]

Bill Rammell: On the 21 October, I made an announcement, setting out the Government's strategic direction for the learning and skills sector for the coming period. My main purpose for doing so was to ensure the 2006/07 funding allocations process began with a clear and concise message on the principles that will underpin funding over the next two years. Our priorities include helping disadvantaged adults gain basic and Level 2 skills for employability and progression to Level 3. From 2005/06 all Further Education colleges are offering free tuition to learners undertaking a first full level 2 qualification.

Colleges will continue to collect fees from other adult learners unless they are exempt from tuition fees because they are receiving an income based benefit; the pension guarantee credit; or higher rates of the working tax credit. Adults studying literacy and numeracy, Skills for Life programmes, are exempt from all fees.

Adult Guidance Provision

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what adult guidance provision there is in each local authority area. [28573]

Phil Hope: The Department's policy on information, advice and guidance services on learning and work for adults is delivered by the Learning and Skills Council primarily through an integrated information and advice service. This service comprises the national learndirect telephone and on-line advice service, and a network of 47 local nextstep information and advice providers, and is available to adults in each local authority area. In addition, adults participating in any LSC funded learning can access information and advice services through their learning provider.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what her Department's policy is on adult guidance provision. [28578]

Phil Hope: The Department's policy is that every adult in England should have access to a free, integrated information and advice service on learning and work delivered through the national learndirect telephone and on-line advice service and local nextstep information and advice services. Priority is given within this service to those adults who do not have a qualification at Level 2, since they are more likely to lack the skills foundation for employability and lifelong learning, and are less likely to get a secure, well paid job. In addition, adults participating in any LSC funded learning can also access information and advice services through their learning provider.

The White Paper "Skills: getting on in business, getting on at work" sets out a long-term ambition: that everyone should be able to get help if and when they want it to take stock of where they are in their lives and their careers; to review where they would like to get to; and assess what steps they can take to get there. We are jointly conducting a review with the Department for Work and Pensions, the DTI, the LSC, Ufi learndirect, Jobcentre Plus, and the Sector Skills Development Agency to help determine how best to achieve this goal, which will be concluded by the end of 2006. We are extending the learndirect telephone service on a trial basis from January 2006 to provide more intensive personal guidance to inform the review. Adults throughout England seeking to progress in their careers; wanting to gain the skills for jobs typically requiring a Level 3 qualification; and returning to work from career breaks, will benefit from the new service.

Autism

Lynne Featherstone: To ask the Secretary of State for Education and Skills what steps the Government is taking to ensure all staff working in *(a)* schools and *(b)* other children's services receive sufficient and suitable training to equip them to work with children with autism. [29258]

Jacqui Smith: I would refer the hon. Member to the reply given on 3 November 2005, *Official Report*, column 1309W, in response to her earlier question on minimum training standards for people who work with autistic children.

Once qualified, all teachers are expected to identify their development needs through performance management arrangements, and to address identified needs by undertaking appropriate professional development. This includes strengthening knowledge of special educational

needs. All schools receive a School Development Grant which they are able to use to support improvements in any aspect of teaching and learning. Local authorities may retain a proportion of this grant, under certain conditions, to provide specific training and development of SEN.

The Department's published SEN Strategy, "Removing Barriers to Achievement" recognised the importance of training and committed us to work closely with the Training and Development Agency for Schools to ensure that initial teacher training and programmes of continuing professional development provide a good grounding in core skills and knowledge of SEN, which of course covers a wide range of conditions, including autism.

We have commissioned the IDA to carry forward a range of initiatives designed to improve and strengthen the SEN skills and confidence of trainees, newly qualified and established teachers. These initiatives will be implemented over the period 2005—2008 at a cost of approximately £1.1 million. The TDA will be reviewing its Standards, as part of its new responsibilities for the school work force, and the Department will feed in to that process.

On the wider children's services front, we have developed the Common Core of Skills and Knowledge to support and focus professional development in the children's work force, including those working for private and voluntary sector. It also covers those working with disadvantaged children as well as those with a disability. The Common Core sets out the areas of expertise that everyone working with children, young people and families (including those who work as volunteers) should be able to demonstrate. It sets out the skills and knowledge that, if accredited, could form the basis of a minimum competence for working with children, young people and their families.

There is funding available under the National Training Strategy Grant and Human Resources Development Strategy through local authorities and other organisations, for a number of initiatives to support social work, education and training, provide financial support to students and strengthen the social work and social care work force (with children and adults). It would be appropriate for some of this to be used for training for those in children's services working with children with autism, but the Government does not specify a proportion that has to be used in this way.

Basic Skills Agency

Mr. Gibb: To ask the Secretary of State for Education and Skills what assessment she has made of the performance of the Basic Skills Agency; what funding it has received since 1997; and if she will make a statement. [28302]

Phil Hope: The Basic Skills Agency (BSA) has received a total of £52 million in core grant funding since the 1996–97 financial year. The agency has also received additional funding for fixed term initiatives and contracts.

The BSA as a 'near to Government body', was subject to a quinquennial review in 2001. The review reported positively that BSA was making

> "a valuable contribution across the breadth of its activities"

and that there was

> "a very strong case for retention of the Agency as an independent body at arms length to the Department, with a remit which continues to cover basic skills both for pupils and adults".

The Department for Education and Skills regularly reviews the Agency's performance and is responsible for approving the BSA's strategic plan and annual delivery plan. DfES continues to work closely with the BSA on the delivery of its current three-year strategic plan and annual delivery plan, which is supported by DfES core funding. BSA's performance is reviewed each month against their delivery plan and their core grant is paid on the basis of this assessment.

Children's Organisations

Tim Loughton: To ask the Secretary of State for Education and Skills which children's organisations the Minister for Children has met since May. [28250]

Beverley Hughes: In my ministerial capacity, I have met a wide range of organisations which represent the interests of children, young peoples and families, and have also visited a large number of local projects and spoken at a wide range of events. My colleague, Maria Eagle, Parliamentary Undersecretary of State for Children, Young People and Families, has also met a wide range of organisations. National level organisations that have been represented at meetings with me, since May, include:

4Children
AFRUCA (Africans Unite Against Child Abuse)
Asian Families Counselling Service
Barnardo's
CAFCASS
Children and Youth Board
Children's Commissioner
Children's Right's Alliance for England
Children's Workforce Development Council
The Children's Society
Churches Child Protection Advisory Service
Continyou
Coram Family
Council for Disabled Children
Daycare Trust
Early Childhood Forum
Family Links
Father's Direct
Forum for Rural Children and Young People
National Childbirth Trust
National Childminding Association
National Children's Bureau
National Children's Homes
National Council for Voluntary Youth Services
National Council of Voluntary Childcare Organisations
National Day Nurseries Association
National Family and Parenting Institute
National Youth Agency
National Society for the Prevention of Cruelty to Children
One Plus One
Parentline Plus

Pre-School Learning Alliance
Refugee Council
REU
Special Education Consortium
Teenage Pregnancy Strategy Independent Advisory Group

Consultants

Martin Horwood: To ask the Secretary of State for Education and Skills what steps the Department takes to ensure that consultancies do not claim excessive expenses while working for her Department and its agencies. [29102]

Bill Rammell: My Department has effective financial controls in place, and follows HM Treasury "Government Accounting 2000" guidelines on the responsibilities of Accounting Officers.

My Department also uses 'model' contracts for Consultancy which contain specific clauses and guidance to ensure that Departmental limits are applied to consultancy expenses claims. In addition to this the Departments policy is to ensure that invoices are thoroughly checked for propriety and value for money.

Departmental Engagements

Tim Loughton: To ask the Secretary of State for Education and Skills what the Minister for Children's departmental engagements have been since 1 September. [28251]

Beverley Hughes: My external departmental engagements from 1 September to 11 November are listed as follows:

	Engagement
1 September 2005	Metropolitan Police Child Abuse Command, London
2 September 2005	Parent Partnership, Beechwood Family Support, Watford
7 September 2005	Michael SIEFF Foundation Conference "Every Young Person Matters"
8 September 2005	Milton Keynes, Round Table discussion with Children's services partners
	Galley Hill Education Centre, Milton Keynes
9 September 2005	Health Inequalities Conference, Manchester
	Benchill Play centre, Manchester
21 September 2005	Early Childhood Forum, London Children's Workforce Network, London
23 September 2005	Chester Youth Forum, Chester
27 September 2005	RU-OK? (Young people' substance abuse project), Brighton
30 September 2005	Brook Advisory Centre, Manchester
3 October 2005	Harpurhey Centre, North Manchester Sixth Form College, Manchester
	Grange Community Resource Centre, Manchester
	URBIS—Museum of Urban life, Manchester
	Manchester Town Hall, Manchester
4 October 2005	Saltash college, Cornwall
	Estover Community College
	Devon Children's Trust—Roundtable discussion with Children's Services partners, Exeter
5 October 2005	Bideford Sure Start Children's Centre, Cornwall
	Flashpoint Life Skills Centre, Cornwall
	Bodmin SHARE information and advice service, Cornwall
7 October 2005	Bridehill Sure Start Children's Centre, Stockport
	Stepping Hill Hospital Birth Centre, Stockport
10 October 2005	Roundtable discussion with Children's Services partners, Hull
11 October 2005	Coram Family, London
	Local Government Association Youth Matters conference
	Reception for childminders and pre-school teachers in Enfield, House of Commons
12 October 2005	Teenage Magazine Arbitration Panel, Holborn
13 October 2005	ACPO Youth Justice Conference, Belfast
19 October 2005	Paediatrics and Child Health Conference, London
	IPPR Active Fatherhood project launch, London
20 October 2005	DfES Social Enterprise Seminar, London
21 October 2005	LGA/ADSS Conference, Birmingham
	NFPI Parents Consultation event, Old Trafford
25 October 2005	NPQICL Graduation Ceremony
26 October 2005	BAAF Private Fostering Reception, House of Commons
31 October 2005	Whitby High Schools, Ellesmere Port
1 November 2005	Daycare Trust Annual Conference, London
	Ormiston Children and Families Trust Launch event, House of Commons
	Connexions Youth Green Paper Event, London
8 November 2005	Gospel Oak Children's Centre, London
	"Brake" launch of Road Safety Week Campaign; London
	NSPCC Reception, London
	DfES Board of Children, Young People and Families Stakeholders, London
9 November 2005	West London Centre of Vocational Excellence Centre
10 November 2005	Continyou Extra Community Conference, Coventry

Educational Attainment

Paul Rowen: To ask the Secretary of State for Education and Skills what the percentage of working-age adults with no qualifications is in each constituency; and if she will make a statement. [28936]

Phil Hope: The information requested has been placed in the House Libraries.

Family Law Cases (Perjury)

Tim Loughton: To ask the Secretary of State for Education and Skills if she will take steps to ensure that evidence given in family law cases is subject to the law on perjury. [28650]

Bridget Prentice: I have been asked to reply.

The current law on perjury already applies to evidence given in family proceedings.

Further Education

Mr. Jenkins: To ask the Secretary of State for Education and Skills what plans her Department has to review the levels of funding allocated to further education in *(a)* Tamworth and *(b)* England. [26163]

Bill Rammell: Our 14 to 19 and Skills White Papers clearly articulate our priorities for post-14 education and training. Higher participation among young people must have the highest priority, alongside helping disadvantaged adults gain basic and Level 2 skills for employability and progression to Level 3. Starting from these strategic objectives we have reviewed the SR2004 settlement announced in April 2004 and we have agreed a funding strategy with the LSC for the next two years that is driven by policy priorities and the successes of the sector.

On 21 October, I made an announcement, setting out the Government's strategic direction for the learning and skills sector for the coming period. My main purpose for doing so was to ensure the 2006/07 funding allocations process began with a clear and concise message on the principles that will underpin funding over the next two years.

In addition, the Learning and Skills Council (LSC) published 'Priorities for Success'—a document that sets out the funding strategy for the next two years in more detail. This document is available on the LSC's website.

Although more funding will be going into the sector, we will focus funding even more strongly on key priorities of raising participation and achievement 14 to 19 and driving down the skills deficit in the adult work force. This will mean that less provision outside these priority areas can be supported at previous levels, and that there has to be a new balance of responsibilities between Government, employers and learners to achieve this.

We confirmed our overall funding to the LSC for 2006–07 in our grant letter of 30 October 2005. The LSC will now allocate resources to regions, and local LSCs will make initial allocations to colleges in January 2006 for 2006/07.

Higher Education

Sammy Wilson: To ask the Secretary of State for Education and Skills what funding the Government has provided for higher education in each of the last five years. [29266]

Bill Rammell: The total funding for higher education in England in the last five years is shown in the following table.

£ million

	HE funding
2001–02	6,048
2002–03	6,354
2003–04	6,807
2004–05	7,201
2005–06	7,631

Source:
DfES Departmental Report 2005, Annex B.

Funding for HE in the devolved Administrations and in Northern Ireland is provided separately.

IT Projects

Dr. Cable: To ask the Secretary of State for Education and Skills how many IT projects which cost over £1 million and were introduced since 1997 are in use in her Department. [26618]

Bill Rammell: I refer the hon. Member to the answer given by the Parliamentary Under Secretary of State for Children Young People and Families on 3 November 2005, *Official Report*, column 1314W.

Learning and Skills Council

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills pursuant to her answer of 18 October 2005, *Official Report*, column 961W, on the Learning and Skills Council, when she expects learner numbers for 2004/05 to be available. [28603]

Bill Rammell: Learner numbers for the full year 2004/05 funded by the Learning and Skills Council (LSC) in further education (FE), work based learning (WBL) and adult and community learning (ACL) will be published on 8 December 2005. The format will be a statistical first release (SFR) posted on both the Department's and LSC's websites:

http://www.dfes.gov.uk/rsgateway/DB/SFR/index.shtml

http://www.lsc.gov.uk/National/Partners/Data/Statistics/LearnerStatistics/StatisticalFirstReleases/StatisticalFirstRelease200405.htm

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills pursuant to the answer of 18 October 2005, *Official Report*, column 961W, on the Learning and Skills Council and of 8 November 2005 to question 19348, what the funding per learner was for those *(a)* studying levels four and five and *(b)* in higher education. [28651]

Bill Rammell: HEFCE funds all prescribed courses of higher education as defined by the Education Prescribed Courses of Higher Education Regulations 1998 and can also fund "non-prescribed" higher education courses. Prescribed higher education courses represents the vast majority of publicly funded higher education courses.

The LSC funds a proportion of "non-prescribed" vocational and professional courses at levels 4 and 5. In 2003/04 there were 72,000 learners studying non-prescribed higher education courses in FECs and a further 70,000 learners studying prescribed higher education in FECs. The LSC funding per learner for non-prescribed higher education in 2003/04 was £600. This is the level of annual funding from the LSC rather than the funding for the whole qualification and does not take into account contributions from individuals or employers.

Ministerial Travel

Norman Baker: To ask the Secretary of State for Education and Skills how much has been spent in each year from 1 May 1997 on ministerial travel, broken down by *(a)* provision and running costs of vehicular transport, *(b)* first class travel by rail, *(c)* standard class travel by rail, *(d)* first class travel by air, *(e)* club or equivalent class travel by air and *(f)* economy class travel by air. [27790]

Maria Eagle: The information on the cost of ministerial travel could be provided only at a disproportionate cost.

Ministerial travel is undertaken in accordance with the rules set out in the "Ministerial Code" and "Travel by Ministers", copies of which are available in the Libraries of the House.

In respect of ministerial cars provided by the Government Car and Despatch Service, my hon. Friend the Parliamentary Secretary at the Cabinet Office has asked Roy Burke, chief executive of the Government Car and Despatch Agency (GCDA) to write to the hon. Member with details of the costs of ministerial vehicles provided to Departments in 2004–05. Copies of his letter will be placed in the Library.

For information for the financial years 2000–01 to 2003–04 I refer the hon. Member to the letters from the chief executive of the GCDA to the hon. Member for Buckingham (John Bercow), dated 10 January 2005 and to the then hon. Member for Arundel and South Downs dated 13 September 2003. Copies of these letters are available in the Library.

In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. These report information for the financial years 1995–96 to 2004–05. Information for 2005–06 will be published as soon as it is ready after the end of the current financial year.

Mike Penning: To ask the Secretary of State for Education and Skills if she will list, for each year since 1995, the number of flights, including helicopter flights, taken by Ministers within her Department for UK and overseas visits; on how many occasions *(a)* charter flights were used and *(b)* first and club class tickets were obtained; and if she will indicate who accompanied the Ministers on each trip. [27802]

Maria Eagle: The information on the number of flights taken could be provided only at a disproportionate cost.

Ministerial travel is undertaken in accordance with the rules set out in the "Ministerial Code" and "Travel by Ministers", copies of which are available in the Libraries of the House.

In respect of overseas travel by Ministers, since 1999 the Government has published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The list indicates when non-scheduled flights were used, and shows how many officials accompanied Ministers in those circumstances. The Government has also published on an annual basis the cost of all Ministers visits overseas. Copies of the lists are available in the Libraries of the House. These report information reaching back to 1995–96. Information for 2005–06 will be published after the end of the financial year.

Nutritional Standards

Mr. Burstow: To ask the Secretary of State for Education and Skills what representations her Department has received regarding extending the introduction of minimum nutritional standards in schools to children's homes and other accommodation for looked-after children; and what representations her Department has made to the Commission for Social Care Inspection in relation to nutritional standards regarding the planned review of national minimum standards for children's services. [29538]

Maria Eagle: My Department has received no representations regarding extending the introduction of minimum nutritional standards in schools to children's homes and other placement settings for looked after children, nor has it made any representations about nutritional standards to the Commission for Social Inspection (CSCI).

The review of all national minimum standards for children's social services is being taken forward as a joint project involving the Department for Education Skills, Department of Health and CSCI. The review will consider what changes are needed to ensure that children's social services are regulated and inspected in line with the Government's 10 principles for inspection. Nutrition for looked after children who are living in regulated settings, including children's homes, will be considered as a part the review. A full public consultation will be held on all key proposals.

Offender Learning

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills how the re-apportionment of funds as laid out in "Priorities for Success" will affect offender learning. [28572]

Phil Hope: The Learning and Skills Council's document "Priorities for Success" and the Secretary of State's grant letter to the LSC for 2006–07 both stress the importance of learning and skills for offenders as the LSC moves to take full responsibility for planning and funding this group of learners from 31 July 2006. The resources transferring from the Department to the LSC to fund these new responsibilities will be ring-fenced for offender learning.

Engagement of offender learning with mainstream provision is a key benefit of the LSC taking up its new responsibilities. "Priorities for Success" will mean mainstream providers are encouraged to focus on the needs of offender learners, especially those who continue courses of study that were started while in custody, with a consequent focusing of the public funds already in the system onto this priority group.

Offender Learning Schemes

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills pursuant to the answer of 7 November 2005, *Official Report*, columns 124–25W, on offender learning schemes, whether she expects the proposals to be published before Christmas. [28942]

Phil Hope: Yes, it is our intention to publish the proposals prior to Christmas.

Post-16 Funding

Kerry McCarthy: To ask the Secretary of State for Education and Skills pursuant to the answer to the hon. Member for Worcester of 27 October 2005, *Official Report*, column 478W, on post-16 funding, when she expects to make an announcement on the action she plans to take. [30717]

Bill Rammell: The Secretary of State announced on 16 November 2005 our plans for narrowing the funding gap between school sixth forms and Further Education (FE) colleges for like-for-like 16–19 provision. We recognise that the funding gap will not be easy to close but we have taken some important steps in the funding package we announced on 21 October 2005. We have confirmed that for young people in FE in 2006/07 we will match the Schools' Minimum Funding Guarantee, which will be announced later this year. We estimate that this, together with other measures to correct technical anomalies, will reduce the gap from 13 per cent. to 8 per cent. by 2006/07. From 2008 we will look to bring consistency to the treatment of student retention and achievement across school sixth forms and colleges which we expect to narrow the gap by a further 3 per cent. Beyond that we will work to establish a common funding approach across the two sectors as part of the Learning and Skills Council's Agenda for Change.

Private Sector Training Expenditure

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills how much *(a)* manufacturing, *(b)* construction, *(c)* food and drink and *(d)* financial services industries have spent on education and training in each of the last five years. [24996]

Phil Hope: Analysis of the National Employers Skills Survey (2004) indicates that the estimated annual employer expenditure on training by sector was as follows: Manufacturing—£440 million; Construction—£240 million; Food and Drink—£80 million; and Financial services—£280 million.

This is the expenditure that employers reported as their "(out of pocket)" expenses only, and does not take into account internal training costs nor the cost of employees being away from their workplaces. The National Employers Skills Survey (2005) will address these issues and provide a more accurate reflection of the actual employer expenditure on Education and Training.

Comparable data for previous years is not available.

Protection of Children

Jenny Willott: To ask the Secretary of State for Education and Skills how many *(a)* referrals, *(b)* Provisional Listings and *(c)* Confirmed Listings have been made to the Protection of Children Act List since it was established; and if she will make a statement. [29349]

Maria Eagle: Since the establishment of the Protection of Children Act List in October 2000 there have been:

(a) 1,063 referrals to the List

(b) 776 Provisional Listings

(c) 461 Confirmed Listings

Additionally there have been 791 Provisional Listings and 81 Confirmed Listings as a result of cross referral from the Protection of Vulnerable Adults Scheme.

There are currently 1,276 people on the Protection of Children Act List. This is made up from the figures above and individuals whose names were transferred from the Consultancy Service Index, which was maintained by the Department of Health prior to the introduction of the Protection of Children Act.

Pupil Statistics

Jon Trickett: To ask the Secretary of State for Education and Skills how many children aged between five and 11 years are in full-time state education; and what estimate she has made of the figure for 2010. [27769]

Jacqui Smith: The information requested is shown in the table.

Maintained nursery, primary, secondary and special schools, pupil referral units, city technology colleges and academies: number (headcount) of pupils aged 5 to 11[1]

England

	Pupils aged 5 to 11	
	January 2005[2,3]	*Projections for January 2010*[4,5]
Full-time pupils	4,054,630	3,864,910
Part-time pupils	380	330
Total pupils	4,055,010	3,865,240

[1] Includes solely and dually registered pupils.

Schools

Mr. Kidney: To ask the Secretary of State for Education and Skills what capital funding her Department *(a)* provides and *(b)* facilitates for rural schools for premises expansion. [29593]

Jacqui Smith: The Department provides capital investment that can be used for premises expansion, including at rural schools, through the following programmes. We cannot break this down for just rural schools.

£ million

	2005–06	*2006–07*	*2007–08*
Schools Devolved Funding	805	1,000	1,050
LEA Delegated funding			
Modernisation	602	602	602
Basic Need	590	400	400
School Access Initiative	84	84	84
BSF Programme	2,118	2,177	[1]2,240
Academies	207	365	467
VA Schools	352	444	473
LSC Single Budget	0	70	100
Targeted Capital Fund	200	300	500

Note:
[1] Includes £1.2/£1.25/£1.3 billion of PFI credits

Tim Farron: To ask the Secretary of State for Education and Skills how many *(a)* primary and *(b)* secondary schools in Westmorland and Lonsdale are expected to have a budget deficit in the 2005–06 financial year. [30462]

Jacqui Smith: The information requested is not yet available. The Department is due to collect the section 52 outturn data relating to the 2005–06 financial year from October 2006.

Sector Skills Council

Mr. Boswell: To ask the Secretary of State for Education and Skills if she will make a statement on the establishment of a sector skills council for government, with particular reference to arrangements for *(a)* licensing and monitoring and *(b)* governance. [29529]

Phil Hope: The Sector Skills Development Agency (SSDA) will convene a Licence Assessment Panel (LAP) to take place on 18 November to assess the business case for the Government Skills Sector Skills Council (SSC). The outcome will be that the LAP will either recommend that the Secretary of State licenses the SSC, requires further work on the business case to be addressed, or rejects the proposal outright. The LAP will need to be satisfied that the proposed governance arrangements for the SSC comply with the standard required of all SSCs. The SSDA would be responsible for monitoring the performance of Government Skills, as for all SSCs, through a three year funding arrangement.

Self-governing Trusts

Mr. David Anderson: To ask the Secretary of State for Education and Skills what steps schools will be required to take to become self-governing trusts. [29729]

Jacqui Smith: Where the governing body of an existing school proposes to acquire a trust, it will consult and publish statutory proposals, setting out details of the proposed trust and the rationale for acquiring it. It will normally be for individual governing bodies to decide such proposals, but where the governing body has failed to take proper account of the views of a majority of parents or there are serious concerns about the impact of the acquisition of the trust on school standards, the local authority may refer the proposals to the Schools Adjudicator whose decision on them will be final.

Skills for Life Courses

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills pursuant to the answers of 7 November 2005, *Official Report*, column 130W, on Skills for Life courses, if she will place in the Library the evidence referred to in her answer to question 24962. [28941]

Phil Hope: It has been drawn to my attention that while the answer I made to question 24962 was done so in good faith and was based upon information passed to me by officials, it was inaccurate in its interpretation of the evidence referred to. I very much regret this.

The Department is currently undertaking a longitudinal study of literacy and numeracy learners in FE colleges—a subset of Skills for Life learners. Reports on both the first and second stages of the survey will be published at the end of November 2005. The study found that 25 per cent. of this learner group had no qualifications and 86 per cent. had neither English nor Maths at Level 2 [a good GCSE A*-C]. In addition, 32 per cent. of this learner group were continuing with their full time education while 68 per cent. of learners had left. Among those who had left, 70 per cent. had left at age 16 or under. However, this does not rule out the possibility that these learners will have undertaken any post-16 education.

There is further published evidence that also suggests a large proportion of participants on Skills for Life courses may have left school at or before the minimum age and may have no formal educational qualifications. I have placed in the Library of the House copies of two published DfES research reports which contain this evidence: "Evaluation of Adult Basic Skills Pathfinder Extension Activities: An Overview" by Michael White of the Policy Studies Institute; and "Evaluation Outcomes for Learners in Pathfinder Areas", which the company Taylor Nelson Sofres were commissioned to conduct.

Teachers

Rosie Cooper: To ask the Secretary of State for Education and Skills how many secondary school teachers in West Lancashire have a *(a)* first class degree, *(b)* upper second degree, *(c)* lower second degree, *(d)* third class degree and *(e)* no degree. [27848]

Jacqui Smith: The information is not available in the requested form.

The following table provides degree class information for full-time regular teachers in service in maintained secondary schools in Lancashire local authority in 2003, the latest information available. For comparison, the degree class of those teachers qualifying during 2002 is also provided.

Percentage of full-time teachers in secondary school service in Lancashire local authority 2003 by class of degree held and year of qualification

Class of degree	Year of qualification: All years	2002
1st Honours	4.4	7.3
2nd Honours[1]	76.6	78.6
3rd and unclassified honours	6.3	4.2
Pass/Other[2]	11.4	9.4
No degree recorded[3]	1.3	0.5
Total	100	100

[1] Information for 2nd class honours degrees cannot be split into 2:1 or 2:2 categories.
[2] Includes degrees obtained outside of the UK, teachers whose class of degree is not recorded and a small number of teachers with higher degrees where the class of their first degree is not known.
[3] Includes teachers with a Certificate of Education. Some of these teachers may have gained degree level qualifications after entering teaching. No details of these qualifications are available.
Source:
Database of Teachers Records

Mr. Davey: To ask the Secretary of State for Education and Skills what the total cost of conducting the numeracy, literacy and ICT skills tests prior to entering teaching *(a)* has been since their introduction and *(b)* was in 2004–05; and what the planned expenditure on the tests is in 2005–06. [29301]

Jacqui Smith: Over the whole period since introduction, up to and including the financial year 2003–04, the cost to the Teacher Training Agency of developing and then running the QTS skills tests was approximately £19.5 million. The Teacher Training Agency spent £4.1 million on all three Skills Tests in 2004–05, and the Training and Development Agency for Schools is planning to spend £3.75 million on them in 2005–06.

Mr. Davey: To ask the Secretary of State for Education and Skills what assessment she has made of the impact of the initial teacher training skills tests on *(a)* standards of teaching and learning and *(b)* the efficacy of teachers in the discharge of their responsibilities since their introduction. [29308]

Jacqui Smith: The skills tests help to safeguard the quality of teaching and learning provided by schools by preventing people without the necessary basic skills in ICT, numeracy and literacy—which are needed as part of teachers day-to-day work—from qualifying as teachers. The cost of providing these tests represents less than 0.5 per cent. of the total cost of initial teacher training.

The future role and purpose of the skills tests is included in the current review by the Training and Development Agency of the requirements and standards for the award of qualified teacher status.

Train2Gain Programme

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills whether a cost benefit analysis has been undertaken of the role of training brokers in the Train2Gain programme. [25074]

Phil Hope: The White Paper "Skills: Getting on in business, getting on at work" published in March this year made it clear that the lessons learnt from the Employer Training Pilots (ETP) will influence the development of a quality National Employer Training Programme.

The evidence from the pilots shows that the skills brokers are a tried and tested method of engaging employers in the development of their businesses and employees and is a key element of the success of the pilots. For example, the ETP Year 2 Evaluation carried out by the Institute for Employment Studies and published alongside the White Paper, shows that brokers have been very successful in helping to engage hard to reach employers. The evaluation showed these employers found the role of brokers in carrying out a training needs analysis a major attraction. 63 per cent. of hard to reach employers cited the help of brokers linking training to business needs as an attraction of ETP (as did 55 per cent. of easy to reach employers) and thus helping to maximise the added value of the programme. Employers saw the support given to help them access flexible and responsive provision that meets their needs as a major attraction of the pilots (76 per cent. of employers cited flexibly delivered training as an attraction of ETP and 19 per cent. said it was the most attractive feature). Helping to broker the right learning for the employers and learners helps to reduce dropout and ensure high success rates.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what is the role of a training broker in the Train2Gain programme. [25088]

Phil Hope: The White Paper "Skills: Getting on in business, getting on at work" published in March this year clearly states that "at the heart of the National Employer Training Programme is a brokerage service that will work on behalf of the employer." Skills brokers will provide independent and impartial advice to employers on the best type of training available and then source its delivery, to meet employer needs. Brokers will help employers find their way through the often complex world of skills training and help them develop relationships with training providers which will give them the best return on their investment. Brokers are there to make the employer's search for suitable training simpler and cost-effective. Once a training relationship to meet employer's needs is in place, it is for the employer and training provider to work directly together. So long as the employer is satisfied with the quality of training they are getting, the training provider can carry on supplying it.

Brokers will particularly focus on reaching employers who may otherwise not invest in training, particularly small and medium-sized employers. The White Paper clearly states that raising the skill levels of this group is a fundamental aim.

Training

Mr. Boswell: To ask the Secretary of State for Education and Skills what information she collates on the provision of training by employers in the *(a)* private sector and *(b)* public sector, according to the age of employee receiving that training. [28668]

Phil Hope: The Labour Force Survey collects data on a quarterly basis from a representative sample of adults in the UK. It can identify employees in receipt of job-related education or training in the last three months

and in the last four weeks. The age of the employees and whether they work in the public or private sector are also identified.

Vocational Education

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills what assessment she has made of the effects of vocational education on industry in Coventry. [29330]

Phil Hope: My Department is committed to ensuring that everyone has the skills he or she needs to be employable and personally fulfilled. Our 14–19 and Skills White Papers set out our strategies for ensuring that education and training meets the needs of employers.

The Coventry and Warwickshire Learning and Skills Council (LSC) is responsible for the effective planning and funding of learning to raise the skills of the workforce and the potential workforce. It engages through the year with providers and employers to ensure that provision matches employer skills demands.

In order to assess its effectiveness, the local LSC carries out an annual national employer skills survey. Employers are asked about their skills shortages and their satisfaction with local further education provision. Key findings include:

Skills gaps (existing gaps in the workforce) as a percentage of employment have reduced by 8.2 per cent. between 2003 and 2005 and skills shortage vacancies (employers reporting recruitment difficulties) as a percentage of vacancies have reduced from 15.9 per cent. in 2003 to 11.7 per cent. in 2005.

The number of individuals in the adult workforce with no qualifications has reduced by 8 per cent. between 2000 and 2004 and those with only Level 1 has reduced by 2 per cent.

68 per cent. of 19-year-olds have reached Level 2 attainment, which is 1 per cent. above the national average.

86 per cent. of employers were reporting satisfaction with the services provided by further education establishments.

NORTHERN IRELAND

Assets Recovery Agency

Mr. McGrady: To ask the Secretary of State for Northern Ireland what assessment he has made of the work of the Assets Recovery Agency since its establishment; and if he will take steps to provide the money recovered as a result of its work to Government Departments in Northern Ireland. [29479]

Mr. Woodward: The Assets Recovery Agency has had a significant impact on organised criminals in Northern Ireland. During 2004–05 the Agency in Northern Ireland disrupted eight criminal gangs, restrained £3.7 million, obtained recovery orders and tax assessments to the value of almost £1.5 million and realised receipts to the value of £780,000.

The Agency is making good progress against the targets set in this year's business plan.

A new assets recovery incentive scheme, to commence in 2006–07, will enable all law enforcement agencies to receive a 50 per cent. share of the receipts from confiscations. In addition, the Organised Crime Task Force plans to develop an assets recovery strategy in consultation with Task Force partner agencies, including the NI Departments.

Barron Inquiry

Adam Price: To ask the Secretary of State for Northern Ireland whether he has asked the security services to provide the Irish Government with the information they are seeking as a result of the Barron Inquiry into the Dublin and Monaghan bombings. [28366]

Mr. Hain: I am aware that these terrible tragedies continue to be painful for the victims and for their relatives. The British Government welcomed the establishment of the Barron Inquiry into the Dublin and Monaghan bombings, and co-operated with it as fully as possible.

As Justice Barron recognised, we have a responsibility to ensure the personal safety of individuals, and this was a factor in the way in which the material he requested on the Dublin and Monaghan bombings was passed to the inquiry. For that reason we did not provide Justice Barron with original documents. However, the information passed to his inquiry accurately reflects all the relevant information on the Dublin/Monaghan bombings uncovered by the Government's trawl of its files.

This information has also recently been made available by the British Government to Patrick MacEntee, sole member of the new Commission of Investigation into the Dublin and Monaghan bombings of 1974. In addition to this, we have provided Mr. MacEntee with further information which he has requested in relation to his specific terms of reference.

Big Lottery Fund

Mr. Dodds: To ask the Secretary of State for Northern Ireland what consultations he has had on the composition of the Committee to advise on devolved expenditure under the Big Lottery Fund. [7096]

Mr. Hanson: Legislation is not yet in place for the establishment of a committee to advise on devolved expenditure under the Big Lottery Fund, Northern Ireland will be consulted on arrangements for the establishment of the committee in due course.

Cancer Campaigning Group

Dr. McCrea: To ask the Secretary of State for Northern Ireland whether he has received a copy of the Call for Action document published in 2004 by the Cancer Campaigning Group; and whether he has received an invitation to attend the group's reception on 30 November. [30148]

Mr. Woodward: My right hon. Friend the Secretary of State has not received a copy of the 2004 Call for Action document or an invitation to attend the Cancer Campaigning Group's reception on 30 November

Consultants

Martin Horwood: To ask the Secretary of State for Northern Ireland what mechanisms are in place to assess the effectiveness of consultant-led projects in his

Department; what sanctions are available to penalise consultants who run unsuccessful projects; how many projects conducted by consultants were assessed as unsuccessful in each year since 2000; and what sanctions were imposed. [29066]

Mr. Woodward: The information following refers to the Northern Ireland Office and its Agencies. It does not include information for its NDPBs or the 11 Departments of the Northern Ireland Administration.

Any consultancy-led project, in the Department and its agencies, is carried out on the basis of a detailed work package description. The outputs of the consultancy project are compared against the quality defined in the work package. Should the outputs of the project not meet the quality criteria, then the consultancy is required to remedy the deficiencies.

None of the projects conducted by consultants since 2000 have been adjudged unsuccessful.

Martin Horwood: To ask the Secretary of State for Northern Ireland what steps the Department takes to ensure that consultancies do not claim excessive expenses while working for his Department and its agencies. [29067]

Mr. Woodward: The following information refers to the Northern Ireland Office and its agencies. It does not include information for its NDPBs or the 11 Departments of the Northern Ireland Administration.

The Department's Central Procurement Unit facilitates the tender process and they state in tender documentation that mileage rates will be paid in accordance with civil service rates. They also ask firms to either give an estimated figure for travel expenditure or state that their daily rate includes all expenses. Before approving payment to firms, staff within the Department are responsible for ensuring that the amount of expenses claimed is not excessive.

Damages

Mr. Hayes: To ask the Secretary of State for Northern Ireland if he will list the 10 largest amounts of damages paid out by his Department in the last year for which figures are available; and what the nature of the claim was in each case. [27737]

Mr. Woodward: The following information refers to all damages paid out in the last year by the Northern Ireland Office (five in total). It does not include information for its agencies, NDPBs or the 11 departments of the Northern Ireland Administration.

Date damages were awarded	*Amount of damages paid out by NIO (£)*	*Nature of claim*
July 2005	30,000	Member of staff fell on steps leading to Civil Service building. The full amount awarded (£60,000) was equally apportioned between NIO and DFP.
September 2004	26,000	Alleged discrimination/victimisation case.
October 2004	15,000	Member of staff broke wrist at sports day.
October 2005	6,000	Alleged breach of contract.
January 2005	750	Back injury incurred in the workplace.

Dentistry

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many dentists were operating under the NHS in Northern Ireland in *(a)* 1994 and *(b)* 2004. [29882]

Mr. Woodward: Information requested is provided in the following table.

Number of general practitioner, hospital based and community based NHS dentists as at 31 March 1994 and 31 March 2004

	NHS dentists (headcount)	
	1994	*2004*
General practitioner	570	720
Hospital based	78	71
Community based	76	94
Total	724	885

Source:
General practitioner figures—Central Services Agency Hospital and Community Based—HRMS

Departmental Sickness Absences

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many working days were lost due to sickness absence in the Department of Health and Personal Social Services in each of the last five years. [30767]

Mr. Woodward: The number of working days lost in the Department of Health, Social Services and Public Safety as a result of sickness absence in the last five years is detailed as follows.

Financial year	*Number of days lost*
2000–01	11,043
2001–02	13,313
2002–03	12,637
2003–04	12,128
2004–05	9,584

District Policing Partnership

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how much money each district policing partnership received in each year for which figures are available. [28871]

Mr. Woodward: All DPPs, except Dungannon and South Tyrone which was established in December 2004, were established on 1 March 2003. Under schedule 3 of the Police (Northern Ireland) Act 2000 the board is required to fund 75 per cent. of the expenses reasonably incurred by the council in that year in connection with the establishment of, or the exercise of functions by, a DPP. The council funds the remaining 25 per cent. The

Policing Board has advised me that the following figures represent 100 per cent. cost of each DPP for the complete financial years.

	2002–03	2003–04	2004–05
Antrim	20,371	149,966	104,480
Ards	13,801	165,114	144,297
Armagh	27,381	169,333	124,888
Ballymena	17,188	154,711	116,569
Ballymoney	20,821	143,604	124,908
Banbridge	30,727	157,631	130,332
Belfast	56,387	468,453	278,591
Carrickfergus	29,057	130,167	108,729
Castlereagh	14,963	164,879	128,713
Coleraine	15,784	155,052	129,626
Cookstown	13,233	127,349	117,608
Craigavon	12,918	153,310	128,876
Derry	8,750	197,649	155,865
Down	16,491	160,345	124,394
Dungannon and South Tyrone	8,691	81,791	105,951
Fermanagh	25,121	155,156	130,444
Lame	17,838	127,043	126,055
Limavady	26,512	148,906	126,801
Lisburn	55,282	216,995	158,293
Magherafelt	11,261	119,447	94,605
Moyle	20,866	128,734	118,092
Newry and Mourne	16,230	185,071	138,768
Newtownabbey	18,313	184,407	147,441
North Down	17,286	180,574	129,190
Omagh	14,349	137,296	125,448
Strabane	15,900	127,114	118,350
Total	545,521	4,290,097	3,437,314

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how much was spent on *(a)* advertising and *(b)* publishing in each year for which figures are available by each district policing partnership. [28872]

Mr. Woodward: The Policing Board has advised me that the following figures show the expenditure on advertising and publishing in each year since the establishment of each respective DPP.

Costs for publishing are not collected separately, but expenditure details are available under the heading 'PR and publications' and these are shown in the table. Expenditure in this heading may include publicity materials, PR events and other expenditure relating to advertising and 'gaining the co-operation of the public in preventing crime'.

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many members each district policing partnership has, broken down by *(a)* independent members and *(b)* elected members. [28873]

Mr. Woodward: Under schedule 3 of the Police (Northern Ireland) Act 2000 a DPP may consist of 15, 17, or 19 members. The Policing Board has advised me of the following number of members in each current DPP.

DPP	Independent	Political
Antrim	9	10
Ards	9	10
Armagh	9	10
Ballymena	9	10
Bally money	9	10
Banbridge	8	9
Belfast	9	10

North Down	9	10
Omagh	7	8
Strabane	7	8
Total	215	241

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what the cost was of policing each district policing partnership public meeting in each year since their formation. [28874]

Mr. Woodward: The PSNI has advised me that it does not hold the cost of policing each DPP on a central financial record. To gather this information would incur disproportionate cost.

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what the cost was of recruiting independent members in each district policing partnership in each year since their formation. [28875]

Mr. Woodward: Under schedule 3 of the Police (Northern Ireland) Act 2000 the Board is required to fund 75 per cent. of the expenses reasonably incurred by the council in that year in connection with the establishment of, or the exercise of functions by, a DPP. The council funds the remaining 25 per cent. The Policing Board has advised me that the figures represent the expenditure apportioned to each DPP.

[1] The current campaign has just been completed and final costs are not yet available for the selection and interviewing stage of the recruitment process.
[2] A business case has been approved for this exercise at a total cost of £449,000.

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* private and *(b)* public district policing partnership meetings were held by each District Policing Partnership in each year for which figures are available. [28876]

Mr. Woodward: The Policing Board has informed me that it does not monitor private meetings of the DPP and no record is maintained of the number of private meetings held. The Policing Board has confirmed the following number of public meetings.

Meetings held in public

	2003–04	2004–05	2005–06 to date
Antrim	4	6	1
Ards	6	7	4
Armagh	6	5	3
Ballymena	4	6	5
Ballymoney	5	5	4
Banbridge	6	6	4
Belfast	17	19	10
Carrickfergus	6	5	4
Castlereagh	6	6	6
Coleraine	6	6	4
Cookstown	5	4	2
Craigavon	4	7	2
Derry	3	3	2
Down	6	7	2
Dungannon and South Tyrone	[1]0	[1]0	4
Fermanagh	5	7	5
Larne	5	5	2
Limavady	4	6	5
Lisburn	7	5	6
Magherafelt	5	5	4
Moyle	5	6	5
Newry and Mourne	4	5	3
Newtownabbey	5	6	2
North Down	6	7	4
Omagh	5	4	6
Strabane	3	6	3

[1] The DPP in Dungannon and South Tyrone was not established until December 2004.

Driving Offences

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many people were stopped for not wearing their seatbelts in each of the last five years, broken down by Police Service of Northern Ireland district; and what type of fine was imposed upon each individual. [28869]

Mr. Woodward: An overall figure for the number of people stopped is not available as the Police Service of Northern Ireland does not maintain a record of those who were warned or given advice. Enforcement activity in respect of failure to wear seatbelts is largely by way of non-endorsable fixed penalty notices and figures in relation to this have been placed in the Library. Figures relating to prosecutions for failure to wear a seatbelt are not available for 2000–03, however I can confirm that the number of prosecutions in 2004 was 1,756.

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many people were fined for using mobile phones while driving in each year for which records are held, broken down by Police Service of Northern Ireland district. [28870]

Mr. Woodward: The following table provides details of the number of fixed penalty notices issued for the use of a mobile phone while driving.

Hospital Staff (Attacks)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many working hours have been lost at each accident and emergency hospital in Northern Ireland in each of the last three years due to staff being injured or suffering stress following attacks by members of the public. [30286]

Mr. Woodward: The information requested is not readily available and can be provided only at disproportionate cost.

Hospitals (Bed Occupancy)

Dr. McCrea: To ask the Secretary of State for Northern Ireland what the average percentage occupancy of beds at the *(a)* Antrim Area Hospital, *(b)* Whiteabbey Hospital, *(c)* Mid-Ulster Hospital and *(d)* Craigavon Area Hospital was over the last 12 months. [30216]

Mr. Woodward: Percentage bed occupancy rates during 2004–05 for Antrim Area Hospital, Whiteabbey Hospital, Mid-Ulster Hospital and Craigavon Area Hospital are shown in the following table.

Bed occupancy by hospital for 2004–05

Hospital	*Percentage*
Antrim Area Hospital	76.4
Whiteabbey Hospital	94.4
Mid-Ulster Hospital	74.5
Craigavon Area Hospital	79.9

Note:
Day case admissions are excluded from the calculation for bed occupancy.

Departmental Information Return KH03a

Junk Food Advertising

Dr. McCrea: To ask the Secretary of State for Northern Ireland whether the Government plans to restrict the advertising of crisps and cola drinks in Northern Ireland. [30219]

Mr. Woodward: Advertising is regulated throughout the UK by the Advertising Standards Authority. The UK Government, in the public health White Paper, "Choosing Health", committed itself to securing, by 2007, a comprehensive and effective strategy for action to restrict the advertising and promotion to children of foods and drinks that are high in fat, salt and sugar. The Office of Communications (Ofcom) will, therefore, in the early part of 2006, be issuing a public consultation on broadcast advertising and promotion of food to children. As broadcast advertising is not a devolved matter, the consultation will be carried out on a UK-wide basis.

Knife Crime

Mr. Dodds: To ask the Secretary of State for Northern Ireland (1) what measures are in place to tackle knife crime in Northern Ireland; [28774]

(2) what consultations he has held on stronger measures to deal with knife crime in Northern Ireland; [28775]

(3) what plans he has to prevent the sale of knives to people under 18 in Northern Ireland; [28776]

(4) what steps he has taken to prevent the carrying of knives in public by *(a)* people under 18 and *(b)* others in Northern Ireland; [28777]

(5) whether he has plans to introduce powers to give schools means to stop pupils from bringing knives into schools in Northern Ireland; [28778]

(6) how many crimes occurred in *(a)* North Belfast and *(b)* Northern Ireland where knives were used in each year between 1997 and 2001–02; [28779]

(7) what plans he has to amend the powers of the police in Northern Ireland in relation to the stop and search of people suspected of carrying knives. [28780]

Mr. Hanson: Figures relating to knife crime are as follows:

Crimes recorded where a knife was involved in the incident

Financial year	*Northern Ireland*	*North Belfast District Command Unit*
1998–99	770	76
1999–2000	713	76
2000–01	700	65
2001–02	1,016	118
2002–03	986	135
2003–04	985	112
2004–05	1,000	141

Notes:
1. Figures relate to offences where a knife was involved in the incident—it is not known how the knife was actually used.
2. Figures prior to 1998 were collected on different counting rules and are not directly comparable.
3. Figures from 2001–02 onwards are based on the computerised crime recording system ICIS and comparisons with previous years are not appropriate.
4. Figures for 2002–03 to 2004–05 are provided for completeness.
5. Figures for 2004–05 are provisional and may be subject to revision.

Source:
Central Statistics Unit, Police Service of Northern Ireland.

It is a criminal offence to have a knife in public without good reason or lawful authority and it is an offence to manufacture, sell or lend an offensive weapon or, for example, a flick knife. The police have a number of stop-and-search powers do deal with persons suspected of carrying knives. Under the Police and Criminal Evidence (Northern Ireland) Order 1989 (PACE) police have powers to stop and search a person or vehicle where they have reasonable grounds for suspecting that they will find any article in relation to an offence of having an article with a blade or sharp point—with the exception of certain folding pocket knives—in a public place. The Public Order (Northern Ireland) Order 1987 allows police to stop and search any person or vehicle for offensive weapons or dangerous instruments whether or not they have reasonable grounds for suspicion in order to prevent serious violence in a locality. It is also an offence to have a knife or offensive weapon in a school, and the police may enter a school to search for such items. My Officials have been in contact with the Police Service of Northern Ireland in relation to knife crime and legislation and following consultation with the Home Office I have decided to extend to Northern Ireland those provisions in the Violent Crime Reduction Bill which will raise the age at which a person may lawfully be sold a knife from 16 to 18 years of age. I have no immediate plans for further change but I will keep the law in this sensitive and difficult area under review.

Libraries

Dr. McCrea: To ask the Secretary of State for Northern Ireland when the Department expects the new library to be built in Antrim town. [30127]

Mr. Hanson: I cannot say when a new library will be built in Antrim, but I can confirm that the need for the new library for Antrim has already been established.

Officials in the NEELB and DCAL are working closely to finalise an economic appraisal of the Board's proposed replacement and the Department should be able to support the proposal as soon as the necessary approvals have been given.

It will be important for Antrim to have a new purpose built library as part of the Board's proposals for better service delivery.

Live Cattle Exports

Dr. McCrea: To ask the Secretary of State for Northern Ireland what the cost was of policing animal welfare demonstrations during the export of live cattle from Northern Ireland to the Republic of Ireland in the last year for which figures are available. [28317]

Mr. Woodward: The PSNI finance department does not hold such information on a central financial record/database or at local DCU level. Information in the form requested is not readily available and could be obtained only at disproportionate cost.

Looked-after Children

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many children in Northern Ireland are *(a)* in public care, *(b)* living with foster carers and *(c)* waiting for adoptive families. [30539]

Mr. Woodward: At 31 March 2004 (the latest date for which such information is available centrally), there were 2,510 children looked after in public care in Northern Ireland, and 1,529 of these children were living with foster carers. Information on the number of children waiting for adoptive families is not available centrally.

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many children in Northern Ireland for whom adoption was planned have not been adopted in each of the last five years. [30540]

Mr. Woodward: Information on the numbers of children in Northern Ireland for whom adoption was the plan that were not adopted is not available centrally.

Loughall Police Station Shootings

Mr. Robathan: To ask the Secretary of State for Northern Ireland what instructions he has given to the Police Service of Northern Ireland to re-open the investigation into the shooting incident at Loughall Police Station on 8 May 1987 when eight terrorists of the Provisional IRA's East Tyrone Brigade were killed by the SAS. [27356]

Mr. Woodward: Decisions regarding the re-opening of police investigations are operational matters for the Chief Constable. However the PSNI has advised us that this incident will be looked at by the Historical Enquiry Team in due course. Its remit is to re-examine all deaths attributable to the security situation in Northern Ireland between 1969 and the signing of the Good Friday Agreement in 1998.

Magilligan Prison

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what assessment he has made of the performance of the Foyleview sub-unit at Magilligan prison since its opening in dealing with those prisoners eligible to be housed there. [30092]

Mr. Woodward: There has been no formal evaluation of the work of the Foyleview Unit at Magilligan prison. However, based on experience it does prove beneficial to reducing re-offending.

Since the unit opened in 1994, 889 inmates have been housed there. Of that number, 208 were de-selected for breaches of the contract entered into with the governor as a condition of placement in the unit. A further six inmates self de-selected.

Of the remaining 675 inmates, at least 29 are known to have re-offended since their release and subsequently been given a further custodial sentence by the courts.

Foyleview makes a positive contribution to the local community with the inmates involved in numerous work projects throughout the area. Their efforts in working in the community have met with widespread approval.

Military Prosecutions

Mr. Robathan: To ask the Secretary of State for Northern Ireland (1) what arrangements he proposes to make for *(a)* the prosecution and *(b)* the punishment of armed forces personnel in relation to incidents in Northern Ireland during the recent period of the troubles; [27357]

(2) what arrangements he proposes to make for *(a)* the prosecution and *(b)* the punishment of on-the-run terrorists in relation to incidents in Northern Ireland during the recent period of the troubles. [27358]

Mr. Hain: I refer the hon. Gentleman to the Northern Ireland (Offences) Bill, which was introduced on 9 November 2005. The scheme set out in this Bill will be available for qualifying offences where individuals met the criteria set out in the Bill. The Bill covers offences under UK law committed before the Belfast Agreement (10 April 1998) in connection with terrorism and the affairs of Northern Ireland.

All other offences committed after 10 April 1998 or by individuals not meeting the criteria will be dealt with through the normal criminal justice arrangements.

Ministerial Travel

Mike Penning: To ask the Secretary of State for Northern Ireland if he will list, for each year since 1995, the number of flights, including helicopter flights, taken by ministers within his Department for UK and overseas visits; on how many occasions *(a)* charter flights were used and *(b)* first and club class tickets were obtained; and if he will indicate who accompanied the ministers on each trip. [27807]

Mr. Hain: Ministerial travel is conducted in accordance with the Ministerial Code and Travel by Ministers, copies of which are available in the Libraries of the House.

In respect of domestic travel the information required could be provided only at disproportionate cost.

Since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The list indicates when non-scheduled flights were used. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. These report information reaching back to 1995–96. Information for 2005–06 will be published after the end of the financial year.

This answer only applies to the Northern Ireland Office and not to the 11 Departments of the devolved administration.

Missing Children

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many children were reported missing in each of the last five years, broken down by Police Service Northern Ireland district. [28881]

Mr. Woodward: The information requested is not currently available centrally and could be provided only at disproportionate cost.

Motoring Offences

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many drivers were prosecuted during 2004 in Northern Ireland for driving without *(a)* vehicle insurance and *(b)* motor tax. [30090]

Mr. Woodward: The information requested is not yet available. Data relating to prosecutions during 2004 will become available in early 2006.

Murders

Mr. Andrew Turner: To ask the Secretary of State for Northern Ireland if he will list those persons who have been murdered in Northern Ireland during the current troubles, stating in each case whether anyone has been *(a)* charged and *(b)* convicted of the murder in cases in which all proceedings are complete. [29548]

Mr. Woodward: In response to a parliamentary question in 1995, a document entitled "List of deaths due to the security situation, 1969 to 1995" was placed in the Library. It is impossible to answer the remainder of the question within the time available. However, the PSNI is currently preparing an updated list and upon completion a copy will be placed in the Library.

National Minimum Wage

Ms Katy Clark: To ask the Secretary of State for Northern Ireland how many employees in his Department were affected by the rise in the national minimum wage on 1 October. [28974]

Mr. Woodward: Negotiations with the trade unions on the 2005 pay round for Northern Ireland Office staff are ongoing. The 2004 rates are still in effect, and 88 staff in the lowest grade on the minimum of the pay scale were in receipt of £5.04 per hour. In light of the increase in the national minimum wage, as an interim measure, we increased their salaries to £5.05 per hour from 1 October 2005.

The 2005 pay settlement, backdated to 1 April, will result in all staff being paid above the national minimum wage.

Northern Ireland (Offences) Bill

Mr. Donaldson: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of individuals who are likely to be affected by the special arrangements proposed in the Northern Ireland (Offences) Bill. [28980]

Mr. Hain: Decisions on whether an individual is eligible for the scheme will be taken by an independent Certification Commissioner using criteria set out in the Bill. The number of individuals who are affected by the legislation will depend on the outcome of the Commissioner's decisions. The Government do not hold figures on how many people would meet the eligibility requirements of the scheme.

On-the-runs

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many people he expects will be affected by the proposed legislation regarding on-the-runs in relation to offences committed in *(a)* Northern Ireland and *(b)* England, Scotland and Wales. [27017]

Mr. Hain: The Northern Ireland (Offences) Bill was introduced in Parliament on 9 November 2005.

It provides that an independent Certification Commissioner would determine whether individuals are eligible for the proposed scheme, using criteria set out in the Bill. The number of individuals who are affected by the legislation will depend on the outcome of the Commissioner's decisions.

Operation Viper

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many fixed penalties fines were issued in each district command by the operations command units during the most recent Operation Viper. [28853]

Mr. Woodward: The most recent Operation Viper took place on 14 and 15 October 2005. Figures on the number of fixed penalty fines issued during this operation are not yet available.

Police Service of Northern Ireland

Mr. Robathan: To ask the Secretary of State for Northern Ireland what role the C3 branch of the Police Service of Northern Ireland plays regarding intelligence surrounding the deaths of terrorists and civilians in Northern Ireland at the hands of security forces. [27317]

Mr. Woodward: C3 branch of the Police Service for Northern Ireland are tasked with the gathering, assessment and dissemination of intelligence for all serious crime.

Mr. Robathan: To ask the Secretary of State for Northern Ireland what assistance has been requested from the Ministry of Defence by the Police Service of Northern Ireland for historical review. [27326]

Mr. Woodward: I am advised that senior managers from the Historical Enquiries Team (C8) of PSNI have been in regular contact with the Tribunals and Inquiries Unit of the Ministry of Defence (MOD) while the HET has been in the process of setting up. The MOD has been fully supportive and discussions are continuing about a formal Memorandum of Understanding, to govern the exchange of any information required.

Lady Hermon: To ask the Secretary of State for Northern Ireland pursuant to the answer of 3 November 2005, *Official Report*, column 1378W, on police, how many members of the Police Service of Northern Ireland Diving Unit have been available for operational duties in each month in 2005; and what the unit's budget allocation was in each of the last five years. [28994]

Mr. Woodward: The funding of the unit is provided from central budgets and costs are not readily available.

Listed in the following table are the duties of the Underwater Search Unit in 2005. Seventeen members were on training days when called out.

Month	Call-outs	Training days	Members
January	1	4	7
February	7	3	6
March	11	1	6
April	4	2	7
May	9	3	7
June	13	2	6
July	9	—	5
August	6	4	5
September	11	3	6
October	13	1	6

Note:
Total number of days for Underwater Search Unit duties is 107.

Punishment Beatings

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many punishment beatings were reported in each of the last 12 months, broken down by district command unit. [28852]

Mr. Woodward: The following table "Casualties as a result of paramilitary style assaults from October 2004 to September 2005" refers. You should note that 2005 statistics are provisional and subject to minor amendment.

Casualties as a result of paramilitary style assaults—October 2004 to September 2005

Road Deaths

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many people were killed on the roads of Northern Ireland *(a)* in each year from 1994 to 2004 and *(b)* in each month in 2005. [28859]

Mr. Woodward: The number of people killed on the roads of Northern Ireland *(a)* in each year from 1994 to 2004 and *(b)* in each month in the year 2005 are provided in the following tables:

	Number of fatalities
1994	157
1995	144
1996	142
1997	144
1998	160
1999	141
2000	171
2001	148
2002	150
2003	150
2004	147

September	14
October	9
Total	107

Smoking

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what assessment he has made of the likely impact of the ban on smoking in public places in Northern Ireland in the first five years of operation. [29886]

Mr. Woodward: The introduction of smoke-free legislation will protect children, employees and the public in general from the increased health risks associated with exposure to second hand smoke such as lung cancer, ischaemic heart disease, stroke, asthma and other circulatory and respiratory diseases. Experience elsewhere suggests that comprehensive controls also help reduce smoking prevalence.

The draft smoke-free legislation will be issued for public consultation early in the new year and will be accompanied by a draft Regulatory Impact Assessment, which will address both the health and economic implications of tobacco control measures.

Special Advisers

John Hemming: To ask the Secretary of State for Northern Ireland if he will list the special advisers in post in his Department, broken down by pay band; and what the total budgeted cost to his Department of special advisers is for 2005–06. [29406]

Mr. Woodward: Since 2003, the Government have published on an annual basis the names and overall cost of special advisers and the number in each pay band. For the most recent information I refer the hon. Member to the statement made by my right hon. Friend, the Prime Minister on 21 July 2005, *Official Report*, columns 158–62WS.

Information on the numbers of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House.

Information relating to costs for 2005–06 will be published after the end of the current financial year.

Speed Detection Devices

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland on how many occasions the *(a)* Operational Command Unit and *(b)* District Command Unit have used speed detection devices on the Upper Newtownards Road in each of the last six months. [28868]

Mr. Woodward: The information requested is not recorded.

Staff Discipline

David T.C. Davies: To ask the Secretary of State for Northern Ireland how many employees have been dismissed by his Department in each of the last five years for which figures are available. [29131]

Mr. Woodward: The following table sets out the number of employees who have been dismissed by the Northern Ireland Office in each of the last five years.

Date dismissed	Reason for dismissal	Number
6 October 2000	Misconduct	1
27 August 2004	Inefficiency—poor performance	1
27 August 2004	Misconduct	1

Stinger Devices

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 24 October 2005, *Official Report*, column 120W, on stinger devices, how many stinger type devices there are in each police district in Northern Ireland. [28878]

Mr. Woodward: The information requested is provided in the table as follows:

Stinger devices by DCU	Number
Belfast, East	6
Belfast, West	17
Newtownabbey	4
Larne	2
Coleraine	0
Ballymena	2
Moyle	3
Carrickfergus	2
Lisburn	10
Craigavon	3
Armagh	5
Antrim	9
Belfast, North	15
Belfast, South	13
Castlereagh	4
North Down	8
Ards	3
Banbridge	2
Ballymoney	2
Cookstown	2
Dungannon	9
Down	7
Fermanagh	20
Foyle	9
Limavady	1
Magherafelt	4
Newry and Mourne	6
Omagh	6
Strabane	4
Total	178

Tax Credits (Helpline)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland if he will re-introduce an intermediary telephone helpline for recognised advisory services to contact the Regional Inland Revenue Office in Belfast in relation to tax credit inquiries from Northern Ireland. [17125]

Dawn Primarolo: I have been asked to reply.

HM Revenue and Customs' Tax Credit Office continues to maintain a telephone helpline service for recognised advisory services in Northern Ireland.

Under-age Drinking

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland (1) how many cases of under-age drinking the Police Service of Northern Ireland have brought to local councils in Northern Ireland in the last 10 years; [28858]

(2) how many times the Police Service of Northern Ireland have brought cases regarding the breach of drinking by-laws to each of the local government authorities in each of the last five years. [28864]

Mr. Hain: The Chief Constable has advised me that to obtain such information would require a manual trawl of records in each of the 29 District Command Units and could be obtained only at disproportionate cost.

Vehicle and Pedestrian Attacks

Lady Hermon: To ask the Secretary of State for Northern Ireland (1) how many attacks were recorded on the stretch of road from Newtownards Road, Bridge End area to Westbourne Church *(a)* on vehicles and *(b)* on pedestrians in each of the past 12 months; and what the perceived (i) religious and (ii) political affiliations were of (A) the victims and (B) the attackers; [28188]

(2) how many attacks have been recorded on the stretch of road from Mount Pottinger Corner to Central Station in Belfast *(a)* on vehicles and *(b)* on pedestrians in each of the past 12 months; and what the perceived (i) religious and (ii) political affiliations were of (A) the victims and (B) the attackers. [28189]

Mr. Woodward: The PSNI does not record the religious or political affiliation of perpetrators and victims of crimes.

To ascertain the number vehicles subject to criminal damage and persons subject to assault in tightly defined geographical areas such as those listed in the questions would require the services of a police analyst. To have an analyst undertake this research would extract them from their prioritised work in East Belfast DCU, incurring disproportionate cost to answer the question.

The DCU Commander in East Belfast suggests that it may help for the Sector Commander responsible for that area to meet with Lady Hermon or other UUP representative to discuss the matter further.

Waiting Lists/Times

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the average waiting time was in *(a)* 2004 and *(b)* 2005 for people in Northern Ireland who required an MRI scan. [29881]

Mr. Woodward: The information requested is not collected centrally.

CONSTITUTIONAL AFFAIRS

Chorley Magistrates Court

Mr. Hoyle: To ask the Minister of State, Department for Constitutional Affairs (1) how many court sessions took place at Chorley magistrates court in each of the last three years; [29491]

(2) what plans she has to increase the number of court sessions in magistrates courts to reduce the time from arrest to trial; [29492]

(3) how many magistrates operate from Chorley court; and if she will make a statement; [29493]

(4) what plans there are to increase the number of magistrates in *(a)* Chorley and *(b)* Lancashire; [29494]

(5) if she will make a statement on the future of Chorley magistrates court. [29510]

Ms Harman: The number of half day sittings at Chorley magistrates court for the last three years are *(a)* 998 for 2002 *(b)* 852 for 2003 and *(c)* 621 for 2004.

The Government established the new organisation of Her Majesty's Courts Service on 1 April 2005 to administer all Magistrates, County and Crown Courts. This will allow increased flexibility of sitting across all courts. Under this Government targets have been established to bring more offenders to justice and a Criminal Case Management Framework has been introduced to ensure cases are properly prepared and to reduce unnecessary delay.

The number of magistrates sitting at Chorley magistrates court is 74. The average number of sittings was 32.16 (during the period 1 January 2004 until 31 December 2004) the weighted caseload was 18,324.25.

The Advisory Committee for this area will meet on 12 December 2005, to discuss the likely requirements in 2006–07 for Chorley, Ormskirk and South Ribble Local Justice Areas. A major press and radio campaign was launched on 12 September 2005. Out of a total of 108 completed application forms received to date nine are for Chorley.

There has been significant investment in Chorley magistrates court in the last two years and it forms an integral part of the future plans for the area. Her Majesty's Court Service Area Director for Lancashire is consulting on a possible merger of the three local benches but has confirmed that this would not affect the future of any of the courts at Chorley, Leyland, or Ormskirk under present business needs.

Congestion Charge

Mr. Spellar: To ask the Minister of State, Department for Constitutional Affairs how much the Government car service has paid to Transport for London in congestion charges since they were introduced. [27426]

Mr. Jim Murphy: I have been asked to reply.

The responsibility for the provision of ministerial cars and drivers has been delegated under the terms of the Framework Document to the Government Car Despatch Agency. I have asked its chief executive Mr. Roy Burke to write to the right, hon. Member. Copies of his letter will be placed in the Library.

Coroners

Jon Trickett: To ask the Minister of State, Department for Constitutional Affairs what representations she has received in connection with the current review of coroners services from *(a)* the National Missing Persons Helpline, *(b)* pathologists and *(c)* forensic scientists. [27601]

Ms Harman: There have been three formal opportunities for representative groups, or particular organisations, to make submissions about coroner services in recent years: to the Shipman Inquiry; to the Fundamental Review of the Coroner System; and in response to the Government's consequent Position Paper in 2004. Representations have been received from the Royal College of Pathologists on all three occasions, together with a number of comments from individual pathologists; from the British Association of Forensic Science to the Fundamental Review; but no representations have been received from the National Missing Persons Helpline.

Jon Trickett: To ask the Minister of State, Department for Constitutional Affairs what recent discussions she has had with representatives of coroners courts on the identification of dead persons. [27603]

Ms Harman: I have had general discussions with *(a)* coroner officers *(b)* coroners and *(c)* Associated Chief of Police Offices. Discussions in individual cases take place as necessary.

Domestic Violence Court (Teesside)

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs what plans she has for a specialist domestic violence court in Teesside. [29466]

Ms Harman: The Department for Constitutional Affairs wrote to all magistrates courts committees on 15 December 2004 asking for expressions of interest in setting up a specialist DV court (SDVC). Teesside magistrates court was not among those who responded and was therefore not included in the selection process for establishing the first 25 specialist domestic violence court systems across England and Wales. The Home Office has recently announced a further £1 million to develop and extend the programme further in 2006–07. As before, all areas across England and Wales will be invited to put themselves forward for inclusion in the programme and a further selection process is planned for early in the new year..

Electoral Administration Bill

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what role the right hon. Member for Makerfield (Mr. McCartney) played in the drafting of the Electoral Administration Bill. [25590]

Ms Harman: The right hon. Member for Makerfield played no part in the drafting of the Bill. He is a Member of the Legislative Programme and the Constitutional Affairs sub-committee on Electoral Policy (CA(EP) which approved the content of the Bill.

Female Judges/Magistrates

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs what steps she is taking to increase the number of female *(a)* judges and *(b)* magistrates sitting in the Teesside courts. [29440]

Ms Harman: The Department for Constitutional Affairs is taking forward a Judicial Diversity programme which is aimed at increasing applications for judicial office from groups currently under-represented in the judiciary, including women. The Judicial Diversity programme focuses on three main areas:

Encouraging applications and raising awareness

Removing barriers to appointment

Ensuring that the way judicial office operates encourages and supports a more diverse judiciary.

As part of the work to encourage applications and raise awareness, the Department is conducting a number of outreach events. Events were held at Newcastle Upon Tyne in June 2005 and at Bedlington magistrates court in October 2005 to inform lawyers about the appointments process and encourage them to apply.

There is a managed recruitment campaign in South Cleveland, aimed at encouraging members of the community to apply for the magistracy. My Department is currently supporting the local Advisory Committee's plans to recruit a further 15 magistrates. Together, we launched a major press and radio campaign at the beginning of October 2005. This was supplemented by a presentation at Teesside University on 3 October and an open day at Teesside Law Courts 22 October.

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs what proportion of the magistrates sitting at Middlesbrough and Guisborough magistrates courts is female. [29471]

Ms Harman: The total number of female magistrates on the Teesside bench, that sits at Middlesbrough, is 131 out of a total of 310 (42.2 per cent.). The Langbaurgh East bench, which sits at Guisborough magistrates court, has 44 magistrates of which 19 are female (43.1 per cent.).

Great War Medal Index Cards

Mr. Stephen O'Brien: To ask the Minister of State, Department for Constitutional Affairs pursuant to the answers of 7 November 2005, *Official Report*, columns 165–66W, on the Great War Medal Index Cards, whether other *(a)* organisations and *(b)* museums were given the opportunity to bid for ownership of the cards; and how the Western Front Association was informed that the National Archives wished to pass on the cards. [28939]

Ms Harman: The Ministry of Defence, together with the National Archives, held discussions with the Imperial War Museum (IWM), the National Army Museum, the Fleet Air Arm Museum, the Women's Library and Lancashire Military Museums concerning the First World War Army Medal Index Cards.

The considerable publicity given to this subject last spring provided an opportunity for other organisations to express an interest in acquiring the cards. This publicity prompted the Western Front Association to contact the National Archives.

Junior Judges

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs what plans she has for the mentoring of junior salaried judges to encourage them to progress to higher judicial office. [30426]

Ms Harman: I refer the hon. Member to my reply to the hon. Member for Leicester, East (Keith Vaz) on the 14 November 2005, *Official Report*, column 1000W.

Legal Aid

Mr. Dodds: To ask the Minister of State, Department for Constitutional Affairs how much legal aid was paid to *(a)* solicitors, *(b)* junior counsel and *(c)* senior counsel in each year in England and Wales since 2000. [14583]

Bridget Prentice: The table sets out the payments made both for the Community Legal Service and the Criminal Defence Service. Payment records at the Legal Services Commission do not differentiate between junior and senior counsel. The figures shown therefore account for payments made to all categories of barrister and solicitor.

The figures are gross (i.e. not the cost to public funds) and do not include payments to other people and organisations such as Not for Profit agencies, mediators, trainers and the service for providing police station telephone advice. Figures shown in the Legal Services Commission's annual reports do include such figures.

£000

	Community legal service		*Criminal defence service*	
	Solicitor[1]	*Barrister*	*Solicitor*[1]	*Barrister*
2000–01	967,166	188,139	628,634	249,700
2001–02	881,942	192,062	723,363	265,180
2002–03	867,425	189,376	774,371	317,365
2003–04	908,209	198,050	825,277	351,020
2004–05	810,643	182,760	834,624	354,178

[1] Figures include third party disbursements (for example, expert witnesses)

Lord Justice Wall Investigation

Sandra Gidley: To ask the Minister of State, Department for Constitutional Affairs when Lord Justice Wall is expected to report on his investigation into five cases in which the family courts were involved and children were subsequently killed during contact visits. [29333]

Bridget Prentice: Lord Justice Wall has been conducting an internal review, from the judicial perspective, for the President of the Family Division. This is in the light of broad concerns expressed rather than a response to individual complaints. This is a judicial matter.

Privy Council

Andrew Mackinlay: To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer of 16 November 2005, *Official Report*, column 1339W on what date the Privy Council meeting

was held at Balmoral; which Ministers attended; whether each *(a)* departed from and *(b)* returned to London; and what business was conducted. [30779]

Ms Harman: The Privy Council meeting at Balmoral Castle was held on 13 September 2004, and was attended by Baroness Amos, Alan Milburn and Alan Johnson. All the Ministers departed from and returned to London. The business of the meeting was to swear in Alan Johnson as Secretary of State for Work and Pensions. Following the Privy Council meeting, in a separate audience with the Queen, Alan Milburn made affirmation as Chancellor of the Duchy of Lancaster.

Queen's Counsel

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs whether the panel for interviewing and recommending appointments to the role of Queen's counsel will be subject to the proposed duty on public authorities to promote gender equality. [30424]

Ms Harman: Queen's counsel remains a public appointment for the time being. The Secretary of State has already included improvements in fairness and diversity in the goals for the QC scheme agreed by the professions. The Equality Bill is currently before Parliament. As currently drafted, I expect that both the QC selection panel in making recommendations to the Secretary of State, and the Secretary of State in advising Her Majesty, will be subject to the duty. In any event, the Secretary of State expects equal treatment to be an essential part of the panel's consideration of applications.

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs how many Queen's counsel appointed in each of the last five years *(a)* in England and *(b)* on the north eastern circuit were women. [29469]

Ms Harman: No Queen's counsel have been appointed since Easter 2003; we expect the first new recommendations to come from the independent selection panel in April or May 2006. The numbers of female appointees for the whole of England and Wales in the last five years were:

	Number of female appointees
2001	10
2002	12
2003	9

Figures for individual circuits are not held centrally and could be provided only at disproportionate cost.

Rape Trials

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs in how many rape trials at a Crown court *(a)* a female and *(b)* a male judge sat in each of the last five years; and how many cases resulted in (i) conviction and (ii) acquittal in each case. [29756]

Ms Harman: We do not hold centrally information on the gender of the judge who sits on trials including rape trials. Departmental records however show that there were a total of 6,237 rape trials for the period starting 2001 up to now. 2,059 trials resulted in a conviction and 3,615 in an acquittal. 563 resulted in 'other' disposal such as the jury being unable to agree on a verdict.

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs how many rape trials were listed as floating cases in the first half of 2005 in *(a)* the central criminal court and *(b)* Teesside Crown court. [30425]

Ms Harman: Departmental records show that during the first half of 2005, there were no rape trials listed as floaters at the central criminal court. There were two cases listed as floaters at Teesside Crown court but this should be placed in the context of 21 cases listed for trial where there was at least one count of rape.

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs how many rape trials in which all proceedings are complete have been conducted in Teesside Crown Court under the revised definition of that offence in the Sexual Offences Act 2003; and what verdicts have been returned in each case. [29439]

Ms Harman: Departmental records show that there have been 12 completed rape trials under the revised definition of that offence under the Sexual Offences Act 2003 at Teesside Crown Court. Three resulted in a conviction and nine in an acquittal.

Teesside Crown Court

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs what facilities for video-linked examination in chief and cross examinations are in use in *(a)* Teesside Crown Court and *(b)* Middlesbrough and Guisborough magistrates courts; and what further facilities are proposed in each of the next two years. [29467]

Ms Harman: Teesside Crown court has six videolink facilities, Middlesbrough magistrates court has four videolink facilities, and Guisbrough magistrates court has one videolink installed that can be used for giving evidence in chief and cross examination.

There are no current plans to install additional videolinks in the magistrates courts. However, the Department is putting together a business case for additional equipment in Crown court centres for 2006.

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs what proportion of the permanent judiciary in Teesside Crown court is female. [29468]

Ms Harman: There are nine judges who sit permanently at Teesside Crown court. Currently none of them are female.

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs what proportion of Crown court recorders *(a)* in England and *(b)* sitting regularly in Teesside Crown court are women. [29470]

Ms Harman: There are 1,276 recorders who sit in crime in England of whom 180 are women.

Of the 51 recorders assigned to the Cleveland/ Durham/Northumbria pool, five are female. Four of these sit regularly at Teesside Crown court.

Trials (Special Measures)

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs if she will include trials concerning special measures among those where special measures for the protection of witnesses are automatically approved. [734]

Fiona Mactaggart: I have been asked to reply.

The Government recognise that giving evidence in court can be a traumatic experience.

Because of the nature of sexual offences and the sensitivity of the evidence that is given, complainants in sexual offences are automatically eligible for special measures unless they advise the court that they do not want such assistance. Witnesses aged under 17 years are also automatically eligible for special measures assistance. A victim of domestic violence who falls into one of these categories will be eligible automatically for special measures.

Other complainants and witnesses, including those who are victims of domestic violence but who do not fall into these automatic categories, whose quality of evidence may be diminished by reason of incapacity or because of fear or distress about testifying can apply to the court for a special measures direction.

The Government believe that allowing courts to apply these principles strikes the right balance enabling measures to be taken which are appropriate to the particular circumstances of a case taking account of the needs and wishes of individual complainants and witnesses. We have no plans to amend the legislation to make special measures automatic in cases of domestic violence.

In addition to the practical measures available in cases of domestic violence, the specialist domestic violence courts programme we are taking forward is about situating the court and the criminal justice system as part of a community wide response to domestic violence which places the victim at the heart of the process. We have a programme in place to expand the existing network of specialist courts across the country and propose to develop courts in 25 areas by April 2006. Additional funding of £1 million was announced in October 2005 to expand the programme further in 2006–07.

Young Voters

Mr. Iain Wright: To ask the Minister of State, Department for Constitutional Affairs what percentage of people aged 18 to 21 years voted in the *(a)* 1992, *(b)* 1997, *(c)* 2001 and *(d)* 2005 general elections. [28927]

Ms Harman: No record is kept of categories of electors who cast votes in UK elections based upon age. Elections in the UK are conducted on the basis of the relevant electoral register which does not identify the age of electors.

PRIME MINISTER

Aircraft Carriers

Mr. Gerald Howarth: To ask the Prime Minister what discussions he has had with the Secretary of State for Defence regarding the eligibility of Swan Hunter to bid for inclusion in the CVF programme. [27689]

The Prime Minister: I have regular meetings and discussions with ministerial colleagues and others on a wide range of subjects. Information relating to internal meetings, discussion and advice is not disclosed as to do so could harm the frankness and candour of internal discussion.

China

Mr. Hancock: To ask the Prime Minister if he will list the *(a)* occasions and *(b)* dates when he has raised human rights in (i) Tibet and (ii) China with members of the Chinese Government in each of the last three years; [26879]

Miss McIntosh: To ask the Prime Minister whether he discussed Tibet with *(a)* Chinese President Hu Jintao and *(b)* Premier Wen Jiabao during his meetings with them in September; and if he will make a statement. [27078]

The Prime Minister: I refer the hon. Members to the answer I gave to the hon. Member for Lewes (Norman Baker) on 17 October 2005, *Official Report*, column 663W.

I also refer the hon. Members to the answer given by my hon. Friend the Minister of State for the Foreign and Commonwealth Office (Ian Pearson) to the hon. Member for Portsmouth, South (Mr. Hancock) on Friday 11 November, *Official Report*, column 863–64W.

Commission for Africa

Andrew George: To ask the Prime Minister what discussions he has had with members of the Commission for Africa since it reported. [30234]

The Prime Minister: I have remained in contact with members of the Commission for Africa since it reported, including during the G8 summit at Gleneagles in July. Following the launch of the Commission for Africa's Report in March, our priority has been to ensure that its recommendations are implemented. The report itself is only a first step, and is only valuable if we act on it and use it to achieve change to support Africa's development.

Departmental Consultants/Special Advisers

Mike Penning: To ask the Prime Minister how many *(a)* consultants and *(b)* special advisers were employed by his Office in each year since 1997; what the cost of each was in each year; and if he will make a statement. [27407]

The Prime Minister: In relation to the employment of consultants my office forms part of the Cabinet Office. I refer the hon. Member to the answer given to him by my hon. Friend the Parliamentary Secretary for the Cabinet Office (Mr. Murphy) on Wednesday 16 November 2005, *Official Report*, column 1257W.

In relation to special advisers, since 2003, the Government have published on an annual basis the names and overall cost of special advisers and the number in each payband. I refer the hon. Member to the written ministerial statement I made on Thursday 21 July 2005, *Official Report*, 158–61WS. Information on the numbers of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House.

John Hemming: To ask the Prime Minister if he will list the special advisers in post in his Office, broken down by pay band; and what the total budgeted cost to his Office of special advisers is for 2005–06. [29405]

The Prime Minister: I refer the hon. Member to the written ministerial statement I made on Thursday 21 July 2005, *Official Report*, 158–61WS.

Information on special advisers for 2005–06 will be published in the normal way once it has been completed.

Departmental Staff

Mike Penning: To ask the Prime Minister how many staff in his Office were *(a)* civil servants, *(b)* contractors and *(c)* other staff in each year since 1997. [27450]

The Prime Minister: For these purposes my office forms part of the Cabinet Office. I refer the hon. Member to the answer given to him by my hon. Friend the Parliamentary Secretary for the Cabinet Office (Mr. Murphy) on Thursday 17 November 2005, *Official Report*, column 1407W.

Financial Accountability

Mr. Hayes: To ask the Prime Minister if he will make a statement on the chain of financial accountability for the Prime Minister's Office; and what codes govern the legality of spending therein. [27746]

The Prime Minister: My Office forms part of the Cabinet Office for budgeting purposes, and its expenditure is reported in the Cabinet Office's resource accounts, copies of which are available in the Libraries of the House. The Cabinet Office is subject to the normal rules of government accounting.

G8 Climate Change Conference

Bill Wiggin: To ask the Prime Minister pursuant to his speech of 2 November 2005 at the G8 climate change conference, whether his statement on external imposition of internal targets referred to *(a)* the Kyoto protocol and *(b)* the general concept of binding greenhouse gas reduction targets; and what assessment he has made of whether a framework of the kind he refers to for the private sector would require binding targets to be effective. [29517]

The Prime Minister: I refer the hon. Member to the speech I gave at the Lord Mayor's banquet on 14 November 2005. A copy of this is available on the Number 10 website.

Gifts

Mr. David Jones: To ask the Prime Minister what procedures he followed under paragraph 5.25 of the Ministerial Code in respect of gifts of watches and other jewellery to him and his family by the Prime Minister of Italy. [29927]

The Prime Minister: This is accounted for in the annual published list of gifts received by Ministers valued at more than £140. Information for the period June 2001 to 31 March 2005 is available in the Libraries of the House.

Media Relations

Mr. Salmond: To ask the Prime Minister how much his Office spent on external media relations in each year since 2001. [29572]

The Prime Minister: I refer the hon. Member to the answer I gave to him on 10 October 2005, *Official Report*, column 165W.

Ministerial Committee on Intelligence Services

Mr. Clappison: To ask the Prime Minister if he will list the dates on which the Ministerial Committee on Intelligence Services has met since December 2003. [29422]

The Prime Minister: Information relating to internal meetings, discussion and advice and the proceedings of Cabinet and Cabinet committees is generally not disclosed as to do so could harm the frankness and candour of internal discussion.

Ministerial Resignations (Payments)

Mr. Laws: To ask the Prime Minister if he will review the rules under which Ministers who resign receive lump sum payments in cases where *(a)* their resignation is caused by an error of judgment or by a failure of policy and *(b)* they return to Government within a period of two years; and if he will make a statement. [30543]

The Prime Minister: I refer the hon. Member to the letter I sent him on Monday 14 November 2005. Copies of the letter have been placed in the Libraries of the House.

Ministerial Travel

Norman Baker: To ask the Prime Minister how much has been spent in each year from 1 May 1997 on his official travel, broken down by *(a)* provision and running costs of vehicular transport, *(b)* first class travel by rail, *(c)* standard class travel by rail, *(d)* first class travel by air, *(e)* club or equivalent class travel by air and *(f)* economy class travel by air. [27671]

The Prime Minister: The information requested cannot be provided without incurring disproportionate costs.

However, in respect of ministerial cars provided by the Government Car and Despatch Agency (GCDA) my hon. Friend the Parliamentary Secretary at the Cabinet Office (Mr. Murphy) has asked Roy Burke, Chief Executive of the GCDA to write to the hon. Member with details of the costs of ministerial vehicles provided to Departments in 2004–05. Copies of his letter will be placed in the Library of the House. For information for the financial years 2000–01 to 2003–04 I refer the hon. Member to the letters from the Chief Executive of the GCDA to the hon. Member for Buckingham (John Bercow) dated 10 January 2005 and

to the then hon. Member for Arundel and South Downs (Howard Flight) dated 13 September 2003. Copies of these letters are available in the Library of the House.

In respect of overseas travel, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. Copies of these lists are available in the Library of the House. Information on the number of officials accompanying ministers on overseas visits is included in the list. All Ministers travel arrangements are in accordance with the arrangements for official travel set out in Chapter 10 of the Ministerial Code, and the accompanying guidance document, "Travel by Ministers". Information for the year 2005–06 will be published as soon as it is ready after the end of the financial year.

Mike Penning: To ask the Prime Minister how many *(a)* flights and *(b)* helicopter flights have been taken by Ministers within his Department for (i) UK and (ii) overseas visits; on how many occasions (A) charter flights were used and (B) first and club class tickets were obtained; and who accompanied the Ministers on each trip. [27805]

The Prime Minister: The information requested cannot be provided without incurring disproportionate costs.

However in respect of overseas travel, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. Copies of these lists are available in the Library of the House. Information on the number of officials accompanying ministers on overseas visits is included in the list. All Ministers travel arrangements are in accordance with the arrangements for official travel set out in Chapter 10 of the Ministerial Code, and the accompanying guidance document, "Travel by Ministers". Information for the year 2005–06 will be published as soon as it is ready after the end of the financial year.

Mr. Hands: To ask the Prime Minister when he last travelled on the London underground on official business. [30703]

The Prime Minister: I travel making the most efficient and cost-effective arrangements, and use the underground as and when appropriate. My travel arrangements are in accordance with the arrangements for official travel set out in Chapter 10 of the Ministerial Code, and the accompanying guidance document, "Travel by Ministers".

Ministerial Visits

Mike Penning: To ask the Prime Minister how many times he has visited *(a)* Dacorum and *(b)* Hertfordshire in his official capacity in the last 12 months; and what the purpose was of each visit. [29922]

The Prime Minister: I have visited Hertfordshire twice in the last year. My visits cover a range of matters including health, education, criminal justice and the economy. I travel making the most efficient and cost-effective arrangements. My travel arrangements are in accordance with the arrangements for official travel set out in Chapter 10 of the Ministerial Code, and the accompanying guidance document, "Travel by Ministers".

Staff Discipline

David T.C. Davies: To ask the Prime Minister how many employees have been dismissed from his Office in each of the last five years for which figures are available. [29132]

The Prime Minister: For these purposes my office forms part of the Cabinet Office. I have therefore asked my hon. Friend the Parliamentary Secretary for the Cabinet Office to reply. A copy of the reply will be placed in the Library of the House.

Terrorism Legislation

Grant Shapps: To ask the Prime Minister pursuant to his oral answer of 9 November 2005, *Official Report*, column 298W, to the right hon. and learned Member for Folkestone and Hythe (Mr. Howard), what means he used to calculate the conversion between gigabytes and feet. [28485]

The Prime Minister: The method of calculation was taken from the 'New Perspectives Series' published by Thomson Leaning entitled 'Computer Concepts, Fourth Edition, Enhanced' (June Parsons and Dan Oja, Chapter 4, Section D), which calculates that a computer hard drive of 20.4 gigabytes would equate to 5.4 million sheets of single spaced normal text, which would in turn produce a stack of paper around 1,800 feet high. The computer hard drive in question equalled 750 gigabytes which would, therefore, have produced the equivalent of 198 million sheets of paper standing at 66,176 feet high.

Visits

Bob Spink: To ask the Prime Minister if he will visit Cyprus during his term of office. [30384]

The Prime Minister: I have no current plans to do so.

WORK AND PENSIONS

0870 Numbers

Dr. Cable: To ask the Secretary of State for Work and Pensions if he will list the occasions in the last five years on which 0870 telephone numbers have been used by his Department as contact numbers for members of the public; and how much revenue was received from the use of 0870 contact numbers in each of the last five years for which records are available. [24467]

Mrs. McGuire: All contact numbers used by the Department for members of the public operate on 0845 (local rate) or 0800 (free) phone numbers. There are no records available of 0870 numbers having been used by the Department for Work and Pensions as contact numbers for members of the public.

Benefits

Mr. Davey: To ask the Secretary of State for Work and Pensions (1) what proportion of incapacity benefit claimants do not have a first level 2 qualification; [25381]

(2) what proportion of lone parents on benefits do not have a first level 2 qualification. [25382]

Mrs. McGuire: The information is not available.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions pursuant to the answer of 7 November 2005, *Official Report*, columns 144–45 to the right hon. and learned Member for Kensington and Chelsea (Sir Malcolm Rifkind) on new deal, *(a)* how many and *(b)* what proportion of people who registered with a new deal for disabled people job broker (i) found part-time work which was not sustained, (ii) found full-time work which was not sustained and (ii) did not find work, from July 2001 to May 2005. [28993]

Margaret Hodge *[holding answer 15 November 2005]:* Between July 2001 and May 2005, a total of 144,360 people had registered with a new deal for disabled people (NDDP) job broker. The number of people gaining a job up to May 2005, following registration with an NDDP job broker, was 59,560. Of these, 29,170 (20.2 per cent.) found sustained full-time jobs and 16,420 (11.4 per cent.) found unsustained full time jobs; 8,620 people (59.7 per cent.) found sustained part-time jobs and 5,340 (3.7 per cent.) found unsustained part-time jobs.

In the same period, 84,800 (58.7 per cent.) of those registered with an NDDP job broker had not yet found work. However, 67,230 of these were still participating in the programme and so may go on to gain a job.

Notes:

1. For the purposes of new deal for disabled people, a job is regarded as sustained when a person, placed into work through an NDDP job broker, remains in work for 13 out of 39 weeks. Prior to October 2003, an NDDP job was regarded as sustained when a person, placed into work through an NDDP job broker, remained in work for 26 out of 39 weeks.
2. NDDP jobs data relates only to the number of individuals gaining a job through an NDDP job broker. A measure of sustainability is not available for non-job broker jobs.
3. Although data are now available on people into jobs through NDDP up to the end of August 2005, data provided is up to the end of May 2005, to allow three months for the job to be recorded as sustained.
4. Figures are rounded to the nearest 10.

DWP Information Directorate

Mr. Laws: To ask the Secretary of State for Work and Pensions what proportion of benefit claims are being handled manually because of flaws in the CMS IT system; and if he will make a statement. [28360]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie to Mr. David Laws, dated 21 November 2005:

The Secretary of State has asked me to reply to your question concerning the proportion of benefit claims being handled manually because of the flaws in the Customer Management IT System (CMS).

Jobcentre Plus is undergoing a massive change programme. We are making substantial investment to modernise our IT, which will result in an improved service to customers, irrespective of where they live. We currently have rolled out around 2/3 of the national network using the CMS system. Initially, we encountered some problems with performance and reliability, but these have been dealt with through a series of performance releases.

CMS now performs to agreed service levels. However, in recent weeks our customers have experienced difficulties in getting through to our contact centres. We have taken steps to tackle these problems, by introducing temporary adjustments, including some clerical activities, to streamline business processes whilst we go through this transition period.

The current position is that we have 9 of our 24 contact centres operating some clerical processes. The extent of clerical activity will vary between different offices. It is not possible to identify the proportion of claims not subject to the full CMS processes, but we continue to deliver full CMS supported processes in around two-thirds of our contact centres and in well over three-quarters of linked sites. This situation is changing all of the time. Early indications are encouraging, and we have seen week-on-week improvements in call handling since the beginning of September.

I hope this is helpful.

Mr. Holloway: To ask the Secretary of State for Work and Pensions how many people in Gravesham constituency were in receipt of incapacity benefit in each year since May 1997. [28374]

Mrs. McGuire: The information is in the table.

Incapacity benefit (IB) and severe disablement allowance (SDA) claimants in the Gravesham parliamentary constituency

May 1997	3,300
May 1998	3,600
May 1999	3,300
May 2000	3,300
May 2001	3,300
May 2002	3,300
May 2003	3,400
May 2004	3,500
May 2005	3,500

Notes:

1. The parliamentary constituency figures for the years 1997 to 1999 have been produced using the 5 per cent. data and have been rated up proportionally using the Great Britain WPLS 100 per cent. IB/SDA totals.
2. Figures are rounded to the nearest hundred. 'Claimant' figures include all IB and SDA (including IB credits only cases).

Source:
DWP Information Directorate, 5 per cent, Samples from 1997 to 1999 and Work and Pensions Longitudinal Study (WPLS) 100 per cent. data thereafter.

Mr. Holloway: To ask the Secretary of State for Work and Pensions how many pensioners in Gravesham constituency were entitled to an income-related benefit in each year since 1997. [28375]

Mr. Timms: The information requested is not available.

Estimates of the number of pensioners entitled to the main income-related benefits are available on a national basis only. These can be found in the DWP report series: "Income Related Benefits Estimates of Take-Up"; copies of which are available in the Library.

Sir Malcolm Rifkind: To ask the Secretary of State for Work and Pensions how many working age incapacity benefit claimants receive income support with a disability premium; and how this number has changed since May 1997. [27980]

Mrs. McGuire: The information is in the table.

Working-age incapacity benefit (IB) and severe disability allowance (SDA) claimants also in receipt of income support with a disability premium.

	IB/SDA total	*Receiving income support with a disability premium*
May 1997	2,624,600	749,500
May 2005	2,741,200	1,050,600

Notes:

1. The figures for 1997 have been produced using the 5 per cent. data and have been rated up proportionally using the Great Britain WPLS 100 per cent. IB/SDA totals.

2. Figures are rounded to the nearest hundred. 'claimant' figures include all IB and SDA (including IB credits only cases).

Source:

DWP Information Directorate, 5 per cent. samples from 1997 to 1999 and Work and Pensions longitudinal study (WPLS) 100 per cent. data thereafter.

Mr. Brady: To ask the Secretary of State for Work and Pensions (1) what percentage of benefit claims in integrated benefit system pilots areas have taken longer than the 12-day target to process; [28388]

(2) what the average time taken to process a benefit claim has been in the integrated benefit system pilot areas. [28389]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie to Mr. Graham Brady, dated 21 November 2005:

The Secretary of State has asked me to reply to your questions concerning what percentage of benefit claims have taken longer than the 12-day target to process and the average time taken to process a benefit claim in the integrated benefit system pilot areas. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus is currently in the process of rolling out its integrated offices and so the number of such outlets changes quickly and, at the same time, we are rationalising and centralising the sites where benefit processing is carried out.

Jobcentre Plus administers many types of benefit. There are two that have a 12-day clearance target: Job Seeker's Allowance and Income Support.

Processing Centres keep statistics about the number of claims that are cleared and how long it took. The statistics only show where the claim was processed, not where it originated. Processing Centres have no means to differentiate between claims that have been made via its new integrated offices and existing service outlets. Unfortunately, this means that we cannot answer the question in the manner in which you requested the information.

We can say, however, that in September, Jobcentre plus had processed 180,639 claims to Job Seeker's Allowance and had completed 93.3% of these within the12 day clearance target. I am pleased to say that the Actual Average Clearance time for Income Support was 10.8 days, which is well within our target.

I hope this is helpful.

Consultants

Martin Horwood: To ask the Secretary of State for Work and Pensions what mechanisms are in place to assess the effectiveness of consultant-led projects in his Department; what sanctions are available to penalise consultants who run unsuccessful projects; how many projects conducted by consultants were assessed as unsuccessful in each year since 2000; and what sanctions were imposed in each case. [29118]

Margaret Hodge: DWP do not use consultants to lead projects within the Department as they are only engaged to support DWP-led projects.

The majority of engagements for consultancy are awarded on a fixed price basis with payment only made when products have been satisfactorily delivered. Longer-term engagements will have a number of break/review points built into the contract where the customer will review what has been delivered. In cases of poor delivery the contract can be terminated. Therefore, we do not have a system of sanctions in place, consultants are paid if and when we are satisfied with the work delivered. Some contracts will also include a performance-based system of incentivisation.

Correspondence

Clare Short: To ask the Secretary of State for Work and Pensions when the Minister of State will reply to the letter from the right hon. Member for Birmingham, Ladywood, dated 22 September concerning job vacancies. [26642]

Margaret Hodge: I replied to my right hon. Friend on 15 November 2005.

Customer Management Systems

Mr. Boswell: To ask the Secretary of State for Work and Pensions if he will make a statement on the operation of the second-generation customer management system in call centres and benefits offices, with particular reference to efficiency in *(a)* call handling, *(b)* payment of benefits and *(c)* interaction with local authority housing benefit claims. [28691]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie to Mr. Tim Boswell, dated 21 November 2005:

The Secretary of State for Work and Pensions has asked me to reply to your enquiry concerning the operation of the second generation Customer Management System (CMS) in Contact Centres and benefit offices. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

CMS is the IT system that has been implemented to support a number of changes in the way our customers claim Jobcentre Plus benefits. These changes are part of a wider programme of service delivery modernisation in Jobcentre Plus that also includes, for example, greater use of telephone based contact with our customers and the adoption of standard operating processes.

CMS was first introduced in Livingston in July 2003 and rollout to other sites commenced in October 2003. A second release was introduced on 13 December 2004, which made a number of improvements. This included electronic data transfer of information gathered in CMS directly into the Income Support Computer and Jobseeker's Allowance Payment Systems.

With any major change, there is often a period of 'settling in' and this has been the case for the introduction of CMS and the new processes that it supports. Initially we encountered some difficulties in terms of speed, capacity and reliability of the system, although, not entirely to do with CMS itself but related to complementary systems that CMS relies upon. A series of technical releases have largely addressed these issues and the computer system itself is now performing as expected.

As with all IT systems CMS has meant a significant change in the way staff in Jobcentre Plus do their job. They require a good understanding of how the whole process links together, including the importance of gathering information on behalf of Local Authorities (LA) and of getting it right at each stage. To support this we have developed in consultation with practitioners, a "toolkit" of advice and guidance aimed at all relevant staff and managers designed to explain and reinforce correct practice and allow managers to monitor consistently. Key messages have also been enhanced in the learning and development material being delivered to our staff.

Despite this programme of improvement work, we know from feedback from LAs that there is further work to be done to ensure that the operation of CMS is successful. The process works best in those LAs where there are effective liaison arrangements between Jobcentre Plus and the LA. Ongoing improvement work is overseen by a joint DWP/Local Authority Association (LAA) steering group. The introduction of CMS Release 3 on 31st October 2005 addressed many of the issues around the amount of clerical documentation associated with the initial releases. The removal of these clerical workarounds through this release will lead to further improvements and will be evaluated by the LAA in early 2006.

Jobcentre Plus is undergoing a massive change programme and is making considerable investment in improved information technology. However change on this scale does create challenges in maintaining levels of customer service for some parts of the business during this period of transition and transformation. As a result, some customers claiming working age benefits have, of late, experienced difficulties getting through to some of our contact centres. We have put measures in place to address this, including temporary adjustments to streamline business processes in order to maintain customer service whilst we go through this transition period. We have also strengthened recruitment plans supported by robust training programmes.

Early indications following the process adjustments are encouraging. We have seen week on week improvements in customer service since beginning of September. Whilst we have sought to minimise the impact of these changes for our staff and customers, some disruption has been unavoidable and this may regrettably contribute to delays in processing benefit claims for some customers.

I hope this is helpful.

Departmental Budget

Helen Goodman: To ask the Secretary of State for Work and Pensions what the latest estimate is of underspend by his Department *(a)* in cash terms and *(b)* as a percentage of departmental budget for financial year 2004–05. [18463]

Mrs. McGuire: Outturn information for the Department for Work and Pensions was published in the Public Expenditure Outturn White Paper 2004–05 (Cm. 6639).

Disability Living Allowance

Rosie Cooper: To ask the Secretary of State for Work and Pensions how many people in West Lancashire are in receipt of disability living allowance high rate case component as well as high rate mobility. [27836]

Mrs. McGuire: The administration of disability living allowance is a matter for the Chief Executive of the Disability and Carers Service, Mr. Terry Moran. He will write to the hon. Member with the information requested.

Letter from Terry Moran to Rosie Cooper, dated 21 November 2005:

You asked the Secretary of State for Work and Pensions, how many people in West Lancashire are in receipt of disability living allowance high rate case component as well as high rate mobility. The Minister for Disabled People, Anne McGuire MP, promised you a substantive reply from the Chief Executive of the Disability and Carers Service.

The requested information is in the following table:

Disability living allowance, claimants in West Lancashire Parliamentary Constituency, receiving both higher rate mobility and highest rate care components, as at May 2005

	Thousand
	Number
Higher components DLA	0.9

Notes:

1. Numbers are rounded to the nearest hundred and are expressed in thousands.
2. Parliamentary constituencies are allocated using the relevant ONS postcode.

Source:

DWP Information Directorate: Work and Pensions Longitudinal Study

I hope this is helpful.

General Medical Service

Tim Loughton: To ask the Secretary of State for Work and Pensions whether the Department has made a submission to the General Medical Service contract review. [28256]

Margaret Hodge: General practitioners have a key role to play in contributing to the success of the Government's welfare reform agenda. They remain the first point of contact for patients and have a significant influence in helping people with health conditions or disabilities remain in work, or regain fitness for work at the appropriate time.

The Department for Work and Pensions is working closely with the Department of Health to provide incentives to general practitioners to assist their patients of working age to remain fit for work or regain fitness for work. A submission has been made to include, as one of the requirements in the quality outcomes framework of the GP contract, referral for employment advice of patients with mental health problems whose job would be at risk.

Gershon Review

Mr. Francois: To ask the Secretary of State for Work and Pensions who in the Department has been made responsible for achieving the efficiency objectives set for the Department by the Gershon review. [21320]

Mrs. McGuire: The Secretary of State is responsible for the overall delivery of the Department's efficiency programme.

Income Support (Appeals)

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions what the average length of time taken by his Department to process requests for appeals of claims for income support awards was in the last 12 months for which figures are available. [20353]

Mrs. McGuire: The administration of the Appeals Service is a matter for the chief executive of the Appeals Service, Christina Townsend. She will write to the hon. Member.

Letter from Christina Townsend to Mr. Paul Goodman, dated 21 November 2005:

The Secretary of State has asked me to reply to your question regarding the average length of time taken by his Department to process requests for appeals of claims for income support awards in the last 12 months for which figures are available.

The information you have requested is shown in the table.

Income support appeals 2004–05 by average total clearance duration

	Number of weeks
Lodged to received	11
Received by Appeals Service to outcome	14
Lodged to outcome	25

Notes:

1. All figures are subject to change as more up to date data becomes available.

2. "Lodged" denotes when an appeal is submitted to the first tier agency. Lodged data only enters the GAPS database when the appeal reaches the Appeals Service.

3. Duration is derived by calculating the time difference from when an appeal is lodged until when it is cleared. It is represented in weeks, to the nearest whole week.

4. Year 2004–05 is represented by all outcomes from April 2004 to March 2005 (including those cases that may have been lodged in an earlier year).

Source:

100 per cent. download of the generic appeals processing system

I am unable to comment on the 11 weeks that it takes on average for an income support appeal to reach the Appeals Service, as this is a matter for the first tier agency preparing the appeal.

The 14 week figure quoted takes into account the duration from receipt of the appeal until its conclusion and includes those appeals that are adjourned at first hearing upon judicial direction. This, therefore, increases the overall duration and is an issue outside of my remit of responsibility for the Administration of this Service.

I can also let you know that the Secretary of State set a target for 2004–05 that the average waiting time for an appeal to be heard from receipt in the Appeals Service should be no more than 11 weeks and we met this target during 2004–05 for all appeals. specifically for income support appeals, we achieved a 10.3 weeks average waiting time. During this period, the average clearance time for an appeal from receipt in the Appeals Service, including those cases cleared before a tribunal hearing, was 8.89 weeks.

We are constantly looking at ways in which to improve the level of service that we offer our customers. We are working with the first tier agencies to agree national service agreements in order to establish, amongst other things, a reduced end-to-end clearance target. We are also currently looking at how to improve our customers' overall experience of our Service, including reducing the time they must wait for their appeal to be heard, and we will be capturing customer feedback on this.

I hope this information is helpful.

Jobcentre Plus

Mr. Boswell: To ask the Secretary of State for Work and Pensions (1) if he will make a statement on progress in meeting the agreed staff headcount reduction targets for the Jobcentre Plus; [28692]

(2) how many staff are employed by Jobcentre Plus; and how many were employed by Jobcentre offices in the last year of operation. [28697]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie to Mr. Tim Boswell:

The Secretary of State has asked me to reply to your questions regarding Jobcentre Plus staff. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

At the inception of Jobcentre Plus on 1 April 2002 there were 85,880 full time equivalent staff, which included 34,040 staff employed by the Employment Service which was responsible for the delivery of services through Jobcentres. Jobcentre Plus employed 72,831 full time equivalent staff as at 30 September 2005.

We are making good progress against the staff reduction targets set for us by Ministers, and are on course to meet the March 2008 target of 65,710 full time equivalent staff.

I hope this is helpful.

Mr. Boswell: To ask the Secretary of State for Work and Pensions how many assaults there were on the staff of Jobcentre Plus in each of the last three years; and how many of these assaults resulted in successful prosecution. [28704]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie to Mr. Tim Boswell, dated 21 November 2005:

The Secretary of State has asked me to reply to your question concerning the number of assaults on Jobcentre Plus staff in each of the last three years and how many of these assaults resulted in prosecution. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

In answer to your specific questions we have limited our response to actual physical assaults, although we also data collect on other categories of unacceptable behaviour. The available data on actual physical assaults for the last three years in Jobcentre Plus is provided below. Data is not held on how many of these assaults resulted in successful prosecution, and could be obtained only at disproportionate cost.

Calendar year	*Assaults*
2002	203
2003	235
2004	329

It may be helpful if I explain the background to these figures. Although data indicates there has been a rise in the number of incidents reported in the last 3 years it is not possible to identify any causal relationships. Not only are there significant variables such as staffing levels, types and numbers of offices and methods of service delivery over this period which render year on year comparisons, this period also coincides with a number of initiatives within the Department encouraging staff to report all incidents so that lessons can be learned and appropriate remedial action taken.

Sir Malcolm Rifkind: To ask the Secretary of State for Work and Pensions (1) which independent consultants were engaged for the Jobcentre Plus Programme procurement review; what reports were commissioned as part of the review; and whether he plans to publish the reports that were commissioned as part of the review; [27870]

(2) when he expects to publish the findings of the Jobcentre Plus programme procurement review; [27871]

(3) what the status is of the Jobcentre Plus programme procurement review. [27864]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the right hon. and learned Member.

Letter from Lesley Strathie to Sir Malcolm Rifkind, dated 21 November 2005:

The Secretary of State has asked me to reply to your questions concerning the Jobcentre Plus programme procurement review. This is something which falls within the responsibilities delegated to me as chief executive of Jobcentre Plus.

The research into Jobcentre Plus programme procurement policy and procedures was commissioned from independent consultants PKF and Rocksharp. Their work was completed in the spring of 2003. The findings were presented to senior managers and formed the basis of the recommendations and actions of the programme procurement review. The review was supported by the Jobcentre Plus board and a steering group which included the DWP Director of Procurement. The findings and recommendations from the reviews were not required or presented in the format of final reports' intended for publication.

The ongoing work in delivering outstanding recommendations of the review and in developing further changes in support of the efficiency agenda is continuing as part of the wider DWP procurement modernisation programme.

I hope this is helpful.

Jobseeker's Allowance

Mr. Laws: To ask the Secretary of State for Work and Pensions if he will make a statement on the efficiency of the computer system dealing with the processing of claims for jobseeker's allowance. [24537]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie to Mr. David Laws, dated 21 November 2005:

The Secretary of State has asked me to reply to your question concerning the efficiency of the computer system dealing with the processing of claims for Jobseeker's Allowance (JSA).

Claims to JSA are processed using two computer systems. The JSA Payments Systems (JSAPS) which was implemented in 1996 is used to process completed claims and make payments of JSA to customers. This system has a very good record of reliability. Since 2003 Jobcentre Plus has been introducing a new process for taking claims for benefit, supported by the Customer Management computer system (CMS).

Jobcentre Plus is undergoing a massive change programme and is making considerable investment in improved IT. CMS is the first stage of our IT modernisation programme and is being implemented as part of the roll out programme to support the Jobcentre Plus new and repeat claim standard operating model. We started to introduce CMS in October 2003 and we brought in additional enhancements in December 2004 with CMS release 2. CMS Release 2 introduced new functionality to enable electronic data transfer from CMS to legacy benefit systems including JSAPS. Electronic data transfer replaces the need for manual re-keying of information that has already been gathered in CMS as part of the new claims process.

The modifications introduced by CMS release 2 led to some transitional problems with reliability and speed. These problems have since been addressed through a series of performance releases and CMS and is now delivering as agreed.

CMS Release 3, which went live on 31 October 2005, has been driven by user feedback and introduced a number of enhancements that make the process easier to follow and reduces the opportunity for error and the subsequent need for re-work. The enhancements to CMS Release 3 have been well received by staff.

I hope this is helpful.

Kvaerner Pension Fund

Mr. Weir: To ask the Secretary of State for Work and Pensions what discussions he has had with the Pension Regulator regarding the Kvaerner pension fund. [30796]

Mr. Timms: Ministers have had no discussions with the Pensions Regulator about this case.

Lone Parents

Mr. Laws: To ask the Secretary of State for Work and Pensions how many lone parents have had *(a)* work-focused interviews every six months, *(b)* their income support reduced as a sanction for failure to attend a compulsory work-focused interview and *(c)* their work-focused interview deferred or waived since the sanctioning regime was introduced. [25257]

Margaret Hodge: Lone Parents are required to participate in a Work Focused Interview (WFI) when they make a new claim for income support (IS). They are also required to attend a WFI after six months and 12 months on IS and annually thereafter. WFIs for existing IS customers were rolled out from April 2001. Since October 2005, lone parents with a youngest child aged at least 14 have been required to attend a WFI at quarterly intervals.

There have been 1,981,000 Lone Parent WFIs attended by 1,064,600 lone parents since they were first introduced. The breakdown of these interviews is in the following table.

Customers attending lone parent work focused interviews

Initial interviews			
New and repeat IS claimants	*Existing claimants*	*Six month review meetings*	*Annual review meetings*
596,000	468,000	214,000	342,000

Notes:

1. Customers making a new or repeat claim have been required to attend an initial WFI, six month WFI and then annual interviews since April 2002.
2. Figures are for individuals attending.
3. Figures are rounded to the nearest thousand.
4. During the same period, 57,000 lone parents have been sanctioned for failing to participate in a WFI. Sanctions are lifted immediately once the lone parent participates in the WFI.
5. 91,100 lone parents have had their WFI deferred at least once and 24,000 have had their WFI waived. Interviews can be deferred or waived if it is not helpful to hold them on the due date. Reasons for deferral can include a recent bereavement, illness, or caring responsibilities. A waiver can be applied in cases of severe disablement or terminal illness.

DWP Disability and Work Division, Jobcentre and New Deal for Lone Parents Evaluation Databases (August 2005)

New Deal

Mr. Boswell: To ask the Secretary of State for Work and Pensions if he will make a statement on the current performance of each New Deal programme in respect of *(a)* the number of job-placements and *(b)* the cost-effectiveness of each placement. [21272]

Margaret Hodge: A total of 1,429,000 people had gained a job through the New Deal programme up to March 2005. The average cost of helping a person into work was £2,047.

Information on expenditure and the average cost of helping a person into work through each New Deal programme is in the table.

New Deal—people into work and cost per person into work

	Spend (£ million)	*Number of people gaining a job*	*Average cost per person gaining a job (£)*
New Deal for Young People	1,699	620,000	2,739
New Deal for 25 plus	800	237,000	3,377
New Deal for 50 Plus	254	140,000	1,813
New Deal for Disabled People	133	61,000	2,180
New Deal for Lone Parents	97	397,000	244
New Deal for Partners	3	4,000	939
Total	2,909	1,429,000	2,047

Notes:

1. Expenditure data exclude administrative costs.
2. Expenditure figures include programme costs and the costs of allowances paid to participants, apart from the 50 plus element of the working tax credit.
3. Information is provided to March 2005 as this is the latest available date for confirmed expenditure figures.
4. Figures for number of people gaining a job are rounded to the nearest thousand.
5. New Deal expenditure figures are rounded to the nearest million.
6. New Deal average cost figures are rounded to the nearest pound.
7. Figures for numbers of people into work on individual New Deal programmes will not sum to the total number of people into work through all the New Deals as some people will have gained a job through more than one New Deal programme.

Source:

Department for Work and Pensions Departmental Report
Department for Work and Pensions Information Directorate

The cost of helping people into work varies across the New Deals as programmes have different client groups and components. People on the mandatory New Deal programmes have generally been claiming jobseeker's allowance for some time, and can require more intensive support to overcome employment barriers than those participating on some of the voluntary New Deals. Costs can also be higher if allowances are paid to participants and employers, and can also be influenced by payments to external providers.

An investment in helping people into work, including those claiming Incapacity benefit, not only makes an immediate difference to those individuals, but also results in savings to the economy in future benefit payments.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what proportion of the total number of recorded job entries through the new deal for disabled people, excluding pathways to work pilot areas, *(a)* returned to incapacity benefits and *(b)* claimed jobseeker's allowance within (i) one month, (ii) two months, (iii) six months and (iv) 12 months in (A) 2003–04 and (B) 2004–05. [30678]

Margaret Hodge: The available information is in the table.

Percentage

	2003–04	*2004–05*
Jobs gained	18,680	32,590
Proportion claiming Jobseekers allowance within period stated		
1 month	1	2
2 months	3	3
6 months	7	n/a
12 months	11	n/a
Proportion claiming incapacity benefits within period stated		
1 month	3	3
2 months	6	6
6 months	13	n/a
12 months	20	n/a

Notes:

1. The proportion of people claiming a benefit within six months and 12 months for 2004–05 is not yet available as benefits data is only available up to May 2005.
2. Incapacity benefits data includes: incapacity benefits including passported incapacity benefit; attendance allowance; severe disability allowance; disability living allowance and income support with a disability premium.

3. Figures are for jobs gained following registration with a new deal for disabled people job broker, and jobs gained through contact with Jobcentre Plus.

4. All figures exclude people registering with new deal for disabled people job brokers in the following pathways to work pilot areas: Bridgend, Rhondda, Cynon and Taff; Renfrewshire, Inverclyde, Argyll and Bute; Derbyshire; Essex; Gateshead and South Tyneside; Lancashire East; and Somerset.

5. Years relate to April 2003 to March 2004, and April 2004 to March 2005.

6. Information is for jobs gained, not individuals into jobs.

7. The Work and Pensions Longitudinal Study links benefit and employment information held by the Department for Work and Pensions with employment records held by the Inland Revenue.

Source:

Work and Pensions Longitudinal Study, DWP

Mr. Stephen O'Brien: To ask the Secretary of State for Work and Pensions what percentage of young people *(a)* starting and *(b)* completing the New Deal for Young People have lacked basic skills. [25202]

Margaret Hodge: When New Deal for Young People (NDYP) participants attend their first NDYP interview, their personal adviser will consider whether it is appropriate to refer them for a formal basic skills assessment. If a basic skills need is identified during the assessment, NDYP participants can be referred to Basic Skills provision, which will aim to address their skills needs.

Between April 2001 and July 2005 there were 715,130 starts to New Deal for Young People, of which 86,430 (12 per cent.) subsequently started Basic Skills provision while on the programme[1]. Information is not available prior to April 2001. Information on the number of people lacking basic skills on completion of New Deal for Young People is not collected.

[1] Source: DWP Information Directorate.

Obesity

Tim Loughton: To ask the Secretary of State for Work and Pensions what research he has *(a)* commissioned and *(b)* evaluated on the effect on the economy of sickness absence due to obesity in the last five years. [28689]

Margaret Hodge: This Department has not commissioned or evaluated any research on the effect on the economy of sickness absence due to obesity within the last five years.

Outsourced Programmes

Sir Malcolm Rifkind: To ask the Secretary of State for Work and Pensions (1) what the total value was of outsourced *(a)* employment and *(b)* training programmes in London for each year since 2001; [27865]

(2) what the total value was of outsourced *(a)* employment and *(b)* training programmes for each year since 2001. [27866]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the right hon. and learned Member.

Letter from Lesley Strathie to Sir Malcolm Rifkind, dated 21 November 2005:

The Secretary of State has asked me to reply to your question concerning what the total value was of outsourced employment and training programmes in London for each year since 2001. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The table below details the amounts spent in London on employment and training programmes, both by Jobcentre Plus London Region and by DWP Work, Welfare & Equality Group on Employment Zones and Action teams.

£ million

	2001–02	*2002–03*	*2003–04*	*2004–05*
Employment programmes	67	93	118	141
Training programmes	35	22	26	42
Total programmes	101	115	144	184

Notes:

1. Figures are rounded to the nearest £ million and exclude receipts.
2. Figures also exclude expenditure under centrally managed budgets.
3. Figures may not sum due to rounding.

The amounts shown for training programmes cover work-based learning for adults and basic skills training which have a close employment focus. In the same way, many of our employment programmes have elements of training within them.

I hope this is helpful.

Pathways to Work

Mr. Frank Field: To ask the Secretary of State for Work and Pensions pursuant to the answer to the hon. Member for Yeovil (Mr. Laws) of 28 October 2005, *Official Report*, column 609W, on Pathways to Work, if he will list the destinations other than work of the terminations from incapacity benefit and severe disability allowance; how many of those terminated from incapacity benefit and severe disability allowance took up employment; and how many were in each other category. [26747]

Margaret Hodge *[holding answer 10 November 2005]:* The information provided in my previous answer was sourced from Information Directorate 5 per cent. sample data. There are no additional breakdowns available from 5 per cent. sample data to those provided in that answer.

Work and Pensions Longitudinal Study (WPLS) 100 per cent. data offers the potential to follow benefit claimants who move onto employment schemes or into work. However, we do not expect to be in a position to release WPLS-based figures on benefit leavers into employment until the second half of 2006.

In the meantime, the annual Destination of Benefit Leavers Survey provides estimates on the proportion of benefit leavers who go to work, education and training, other benefits and so on. The latest published figures from the 2004 survey show that 52 per cent. of incapacity benefit leavers nationally moved into work of 16 hours or more per week.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many *(a)* existing and *(b)* new claimants of incapacity benefits (i) were covered by Pathways to Work pilots in (A) October 2003, (B) April 2004 and (C) October 2005 and (ii) he expects to be covered in (1) April 2006 and (2) October 2006. [26862]

Margaret Hodge *[holding answer 10 November 2005]:* The information is in the table.

Pathways to Work incapacity benefit totals

	Existing customer case load	*New customers in month*
October 2003[1,2]	114,700	2,300
April 2004[2,3]	251,500	4,800
October 2005[4,5]	415,100	7,700
April 2006[5,6]	731,500	13,300
October 2006[5,7]	853,300	15,000

[1] Jobcentre Plus Districts included: Renfrewshire Inverclyde Argyll and Bute; Bridgend Rhondda Cynon and Taf and Derbyshire

[2] Data to April and actual. Data after this point are forecast data.

[3] Jobcentre Plus Districts included: As note 1 plus Essex, Gateshead and South Tyneside, Somerset and East Lancashire.

[4] Jobcentre Plus Districts included: As note 3 plus Glasgow, Cumbria, Lancashire West and Tees Valley.

[5] Figures are rounded to the nearest hundred.

[6] Jobcentre Plus Districts included: As note 4 plus Barnsley Rotherham and Doncaster, City of Sunderland, County Durham, Lanarkshire and East Dumbarton, Liverpool and Wirral, Manchester and Salford and Swansea and West Wales.

[7] Jobcentre Plus Districts included: As note 6 plus Eastern Valleys, Greater Mersey and Staffordshire.

Pensions

Mr. McGovern: To ask the Secretary of State for Work and Pensions what provision there is for members of pension schemes to claim ill health pensions from the Pension Protection Fund (PPF) *(a)* while their scheme is in the assessment period and *(b)* once it has been accepted into the PPF. [30578]

Mr. Timms: While a scheme is in an assessment period trustees may make awards of ill health pensions in accordance with their scheme rules. However, any payments made must not exceed the level of compensation that the PPF would pay.

The PPF will compensate members entitled to ill health pensions at the 100 per cent. level if the pension was in payment prior to the assessment period or if the application was made before the assessment period and certain legislative conditions are met.

In all other circumstances, compensation to scheme members who have been awarded an ill health pension is calculated in the same way as compensation to any other scheme member of the same age.

There are no provisions to enable scheme members to claim ill health pensions from the Pension Protection Fund once the PPF has assumed responsibility for a scheme.

However, any scheme member may take early payment of their compensation at a capped level of 90 per cent. from age 50, subject to actuarial reduction.

Mr. Harper: To ask the Secretary of State for Work and Pensions what the normal retirement age is for members of the local government pension scheme. [26138]

Mr. Woolas: I have been asked to reply.

The local government pension scheme has a retirement age of 65, but members can choose to retire without employer consent from age 60, in which case any pension coming into payment may be subject to an actuarial reduction as a result of coming into payment early.

Mr. Donaldson: To ask the Secretary of State for Work and Pensions what the level of the basic state pension in the United Kingdom is as a percentage of gross domestic product; and what assessment he has made of how this compares with other European Union countries. [30757]

Mr. Timms: The figure for the amount spent on state pensions as a whole in the UK as a proportion of gross domestic product (GDP) is 5.5 per cent. Studies by the European Union's Economic Policy Committee have shown the average figure for the European Union 15 is 10.5 per cent., with the UK's system deemed to be sustainable in the long-term. Such figures do not, of course, take account of non-state provision, which is significantly higher in the UK than in many other member states.

It should be stressed that the UK's system of support for the elderly is aimed at addressing poverty as well as replacing in-work income. An up-to-date and more indicative comparison is the harmonised expenditure on the elderly as a percentage of GDP. The European Statistical Agency's data published in October 2005 show that the UK spent 11.7 per cent. in 2002 (before the introduction of pension credit and age-related payments), which is at the upper end of the overall range of expenditure in EU member states, of between 3.6 and 14.9 per cent.

Note:
The European Union 15 member states at 30 April 2004 comprised: Austria; Belgium; Denmark; Finland; France; Germany; Greece; Ireland; Italy; Luxembourg; Netherlands; Portugal; Spain; Sweden; and the UK.

Sources:
1. The European Union's Economic Policy Committee study: "Budgetary Challenges posed by ageing populations: the impact on public spending on pensions, health and long-term care for the elderly and possible indicators of the long-term sustainability of public finances" EPC 2001, EPC/ECFIN/655/01-EN Final.
2. Joint report of the Commission and the Council on adequate and sustainable pensions March 2003.
3. EUROSTAT's (the European Statistical Agency) October 2005 publication, "European social policy statistics: Social protection—Expenditure and receipts".

Mr. Donaldson: To ask the Secretary of State for Work and Pensions if he will restore the link between the state pension and average earnings; and if he will make a statement. [30758]

Mr. Timms: We will continue to administer the state pension in its current form. We will review the pensions system following the publication next week of the second report of the Pensions Commission, in the light of the National Pensions Debate which is under way at present. We are aiming for a broad consensus for reforms to the pensions system.

Mr. Andrew Turner: To ask the Secretary of State for Work and Pensions how many approaches have been made by the Pensions Service offering a benefits entitlement check *(a)* by letter, *(b)* by telephone, *(c)* by home visit and *(d)* in total in each year for which

information is available; what follow-up takes place where no reply is received to letters or telephone calls; how many people requested a home visit in each year; what the cost has been of the initiative; and what assessment he has made of the extent of increased access to benefits as a result thereof. [30542]

Mr. Timms: The administration of The Pension Service is a matter for the chief executive, Miss Alexis Cleveland. She will write to the hon. Member.

Letter from Alexis Cleveland to Mr. Andrew Turner, dated 21 November 2005:

The Secretary of State has asked me to reply to your question concerning how many approaches have been made by The Pension Service offering a benefits entitlement check *(a)* by letter *(b)* by telephone *(c)* by home visit and *(d)* in total in each year for which information is available; what follow-up takes place where no reply is received to letters or telephone calls; how many people requested a home visit in each year; what the cost has been of the initiative; and what assessment he has made of the extent of increased access to benefits as a result thereof. This is something that falls within the responsibilities delegated to me as Chief Executive of The Pension Service.

Since April 2005 The Pension Service has offered a full holistic benefit entitlement check on all visits to customers, as a standard service. Also a specific campaign has been run to contact customers we believe to be highly eligible for additional benefits. Between April and October 2005 The Pension Service made 106,427 approaches by letter, 16,291 by telephone, and 9,039 through visits. As a result of the campaign and routine visits 549,849 customers were offered a benefit entitlement check.

The initial home visit is arranged either by ringing the customer and agreeing a date and time or by sending out a letter. In the latter instance, a contact number is provided in case the date is not convenient or if the customer chooses not to be visited. If the customer is not in, they are either contacted by phone if a number is available and an appointment rearranged or a further letter is sent out advising the customer of the new appointment. It is standard practice for two attempted visits to be made on different days of the week at different times. Contact details are left with the customer should they choose to take up the benefit entitlement check.

It is not possible to separate the costs of the full entitlement check from other Local Service activity however, the additional cost of the entitlement campaign from April—October 2005 was £1,088,000. The cumulative value of additional benefit generated over a full year is estimated at £350 million.

Poverty

Chris Ruane: To ask the Secretary of State for Work and Pensions how many children were living in poverty in each *(a)* constituency and *(b)* local authority area in each of the last 30 years. [20314]

Margaret Hodge: Specific information regarding low income for Great Britain is available in "Households Below Average Income 1994/95–2003/04", available in the Library. The threshold of below 60 per cent. contemporary median income is the most commonly used in reporting trends in low income.

The data source does not allow us to provide robust estimates below regional level. Estimates at a regional level can be provided using data from 1994–95.

The number of children in households with low incomes, by Government Office Regions, Scotland and Wales over the period 1994–95 to 2003–04, is presented in the following table:

Number of children

Million

	Three-year rolling averages							
	1994–95 to 1996–97	*1995–96 to 1997–98*	*1996–97 to 1998–99*	*1997–98 to 1999–2000*	*1998–99 to 2000–01*	*1999–2000 to 2001–02*	*2000–01 to 2002–03*	*2001–02 to 2003–04*

Scotland	0.34	0.35	0.34	0.33	0.32	0.32	0.30	0.28

Notes:

1. Figures are provided using a three-year rolled average, as single-year estimates do not provide a robust guide to year on year changes. Hence, figures are not consistent with previously published single-year estimates and there may be differences in changes over time. In circumstances such as a change in trend, rolled-averages will show less variation than single year estimates.

2. Table shows number of children in millions rounded to the nearest 10 thousand.

3. In this answer low income is determined for individuals as living in households with incomes below 60 per cent. of the GB median.

Sarah Teather: To ask the Secretary of State for Work and Pensions how many *(a)* children and *(b)* pensioners were living in poverty in (i) Brent, (ii) Brent East and (iii) London in (A) 1997 and (B) 2005. [24480]

Margaret Hodge: Poverty is about more than low income. It is also about health, housing, education and the quality of the environment. The seventh annual 'Opportunity for all' report, published recently, sets out the Government's strategy for tackling poverty and social exclusion and presents information on the indicators used to measure progress against this.

Specific information regarding low income for Great Britain is available in "Households Below Average Income (HBAI) 1994/95–2003/04", available in the Library. The threshold of below 60 per cent. contemporary median income is the most commonly used in reporting trends in low income.

The information requested is not available below regional level. Information for numbers in London is presented in the following table.

Children and pensioners living in households in London with less than 60 per cent. of relative median household income 1996–97 to 1998–99 and 2001–02 to 2003–04

	Three-year rolling averages	
	1996–97 to 1998–99	*2001–02 to 2003–04*
Before housing costs		
Number of children (million)	0.39	0.37
Percentage of children	25	23
Number of pensioners (million)	0.19	0.19
Percentage of all pensioners	19	19
After housing costs		
Number of children (million)	0.65	0.60
Percentage of children	41	38
Number of pensioners (million)	0.30	0.24
Percentage of all pensioners	30	24

Notes:

1. Figures are provided using a three-year rolled average, as single-year estimates do not provide a robust guide to year on year changes. Hence, figures are not consistent with previously published single-year estimates and there may be differences in changes over time. In circumstances such as a change in trend, rolled-averages will show less variation than single year estimates.
2. In this answer low income is determined for individuals as living in households with incomes below 60 per cent. of the GB median.
3. Tables show numbers of children/pensioners in millions rounded to the nearest 10,000, and percentages to the nearest percentage point.

Rosie Cooper: To ask the Secretary of State for Work and Pensions how many children were living in poverty in West Lancashire in each of the last 30 years for which figures are available. [27916]

Margaret Hodge: Specific information regarding low income for Great Britain is available in "Households Below Average Income 1994–95 to 2003–04". The threshold of below 60 per cent. contemporary median income is the most commonly used in reporting trends in low income.

Information below regional level is not available. Estimates at a regional level can be provided using data from 1994–95. The available information is in the table.

The number of children and the percentage of children living in households in households with low incomes, for the North West and Merseyside Government Office Regions, over the period 1994–95 to 2003–04

	Three year rolling averages	
	Number of children (in millions)	*Percentage of children*
Before housing costs		
1994–95 to 1996–97	0.41	26

Source:

Family Resources Survey

Mr. Laws: To ask the Secretary of State for Work and Pensions how many *(a)* children, *(b)* pensioners and *(c)* working age adults have been living in (i) relative and (ii) absolute poverty in the UK since 1979; and if he will make a statement. [21959]

Margaret Hodge: Specific information regarding low income for Great Britain is available in "Households Below Average Income (HBAI) 1994/95–2003/04", available in the Library. The threshold of below 60 per cent. contemporary median income is the most commonly used in reporting trends in low income.

There is no fully consistent low-income time series using a single data source since 1979. The latest time series on a consistent basis is only available from 1994–95, which is sourced from the Family Resources Survey and covers Great Britain. Previous HBAI results were sourced from the Family Expenditure Survey (FES), which employed a slightly different definition of income and related to the United Kingdom. FES estimates are also presented for GB, for consistency with the FRS.

The following table gives the number of children living in relative low income and the number in absolute low income for years that estimates are available from 1979. Absolute low income is defined here as living in a household with income below 60 per cent. of 1996–97

median income held constant in real terms, and relative low income is defined as below 60 per cent. of contemporary median income.

	Income below 60 per cent. of 1996–97 median income held constant in real terms		Income below 60 per cent. of relative median income	
	Before housing costs	After housing costs	Before housing costs	After housing costs
1979[1]	4.6	5.1	1.7	1.9
1981[1]	5.5	5.8	2.4	2.7
1987[1]	3.9	4.4	2.6	3.1
1988–89[1]	3.5	3.9	2.9	3.3
1990–91[1]	3.6	4.3	3.2	3.9
1991–92[1]	3.8	4.4	3.4	4.1
1992–93[1]	3.9	4.6	3.5	4.3
1993–94[1]	3.6	4.4	3.3	4.2
1979[2]	4.4	4.8	1.6	1.8
1981[2]	5.2	5.5	2.2	2.5
1987[2]	3.6	4.2	2.5	3.0
1988–89[2]	3.3	3.6	2.7	3.1

Further information showing the proportion and number of individuals living in low income households, including annual levels, can be found in the publication "Households Below Average Income 1994/95–2003/04". This also reports statistics between 1979 and 1995–96, using the data source and income definitions previously employed for the 'Households Below Average Income' series.

Press Officers

Sir Malcolm Rifkind: To ask the Secretary of State for Work and Pensions how many press officers *(a)* are employed in the Department and *(b)* he expects to be employed in 2006–07; and what the estimated cost is in each case. [27863]

Mrs. McGuire: The last full year for which figures are available is 2004–05.

As at 31 March 2005 19 national press officers and 23 regional press officers were employed at a total cost of £1,533,703.

The costs are based on average salaries for the year and take into account the number of press officers (excluding vacancies) in post each month.

As at 11 November 2005 there are no plans to increase the overall number of press officers employed by the Department and therefore the only increase in costs will be the annual increase in salary costs already agreed as part of the 2005 pay settlement.

Rachel Scully

Mr. Frank Field: To ask the Secretary of State for Work and Pensions whether the retirement pension forecast team has been able to supply Rachel Scully, a constituent of the right hon. Member for Birkenhead, with a forecast of her pension which takes into account *(a)* her underlying entitlement to carer's allowance and *(b)* the awarding of credits for her second state pension. [30677]

Mr. Timms: I refer my right hon. Friend to the answer I gave him on 16 November 2005, *Official Report*, column 1257W.

DEPUTY PRIME MINISTER

Business Rates

Mr. Maude: To ask the Deputy Prime Minister what assessment he has made of the impact of the business rates revaluation on businesses in *(a)* Horsham, *(b)* West Sussex and *(c)* England. [25716]

Mr. Woolas: The assessment of the impact of revaluation on businesses in England was integral to the setting of the non-domestic rating multiplier for 2005–06 and the transitional arrangements. This assessment was done at a higher level than that of individual businesses.

Carbon Monoxide Poisoning

Jon Trickett: To ask the Deputy Prime Minister what training is provided to fire services on identifying injury caused by carbon monoxide poisoning. [28956]

Jim Fitzpatrick: The firefighter job description (rolemap) requires firefighters to receive training in First Aid. This training, which must be delivered by appropriate providers such as St. Johns Ambulance Service, includes information on signs and symptoms of medical condition to ensure appropriate action is taken. Firefighters are also trained to administer treatment to support the stabilisation of a casualty's condition.

Community Right to Buy

Mrs. Spelman: To ask the Deputy Prime Minister what plans he has to introduce a community right to buy; and if he will make a statement. [26918]

Yvette Cooper: The Office of the Deputy Prime Minister's discussion document, "Citizen Engagement and Public Services: Why Neighbourhoods Matter" (January 2005), invited a debate about whether the idea of a community right to buy should be pursued, and the debate is ongoing.

Consultants

Martin Horwood: To ask the Deputy Prime Minister what mechanisms are in place to assess the effectiveness of consultant-led projects in his Department; what sanctions are available to penalise consultants who run unsuccessful projects; how many projects conducted by consultants were assessed as unsuccessful in each year since 2000; and what sanctions were imposed in each case. [29121]

Jim Fitzpatrick: The Office of the Deputy Prime Minister has a number of means to monitor the effectiveness of consultant-led projects, including regular progress meetings with the contractor and using the Gateway process to ensure that the aims of projects are met. There have been no incidents when consultant-led projects have been deemed to be unsuccessful and ODPM exercised legal remedies as a result.

Correspondence

Clare Short: To ask the Deputy Prime Minister when he will reply to the letter from the right hon. Member for Birmingham, Ladywood, dated 14 July, on the siting of telecommunications equipment on Birmingham city council land. [26641]

Yvette Cooper: My noble Friend Baroness Andrews replied to the letter on 16 November.

Council Tax

Mr. Holloway: To ask the Deputy Prime Minister if he will make further funds available to local authorities to allow them to reduce council tax rates. [28593]

Mr. Woolas: I refer the hon. Member to the answer given to the hon. Member for Leicester, East (Keith Vaz) on the 16 November 2005, *Official Report*, column 1235–36W.

Mrs. Spelman: To ask the Deputy Prime Minister when the Government plan to re-commence work on council tax revaluation in England. [29727]

Mr. Woolas: The Government will not take a view on this until we have received Sir Michael Lyons' final report and considered it.

Departmental Contracts (Direct Mail)

Norman Baker: To ask the Deputy Prime Minister how many contracts for direct mail were signed by his Department in *(a)* 2005–06 to date and *(b)* 2004–05; and what the value was in each case. [27678]

Jim Fitzpatrick: The information requested is not held centrally and could be provided only at disproportionate cost.

Departmental Staff

Mike Penning: To ask the Deputy Prime Minister how many staff in his Department were *(a)* civil servants, *(b)* contractors and *(c)* other staff in each year since 1997. [27457]

Jim Fitzpatrick: The Office of the Deputy Prime Minister was established on 29 May 2002.

The figures for civil servants are available in table C on the civil service statistics, which covers permanent staff numbers, on a full-time equivalent basis in the Office of the Deputy Prime Minister (its predecessor) and agencies from 1998 and 2004. Civil service statistics 2004 are available in the Library and on the Cabinet Office Statistics website at: http://www.civilservice.gov.uk/management_of_the_civil_service/statistics/civil_service_statistics/index.asp

Figures for contractors and other staff are available for ODPM (Central) for 2004 and 2005, are tabled as follows, as headcount. Figures for part *(b)* includes consultants, and part *(c)* covers 'other staff' as temporary agency staff.

Headcount

	Contractors	*Other staff*
2004	110	161
2005	190	130

Source:
ODPM (Central) HR IS

There is no centrally collected data for parts *(b)* and *(c)* for the Government Offices and the Executive Agencies (Planning Inspectorate, The Fire Service College and Queen Elizabeth II Conference Centre).

Designated Growth Areas

Anne Main: To ask the Deputy Prime Minister what estimate he has made of the infrastructure costs for each designated growth area within England; and if he will make a statement. [27440]

Yvette Cooper: Government remain strongly committed to the principle that infrastructure must be sufficient to support growth and is an essential element in achieving more sustainable communities. For example, between 1998–99 and 2002–03 public spending in the South East and Eastern Regions increased by over 17 per cent. in real terms per head of population.

The Government's approach is to ensure that infrastructure, including public services, is provided in step with growth, as plans for individual growth locations are developed. The main elements of this approach are ensuring that mainstream funding reflects the needs of growth, maximising the potential for private sector contributions and making available selective additional grant funding to unlock major growth schemes and locations.

Assessing the infrastructure requirements for particular localities is a complex and lengthy process. It needs to assess the detailed layout of a development as it evolves and to allow for changing approaches to service provision affecting what is needed and when. The Government are encouraging local delivery partners to focus on identifying, prioritising and sourcing investment in their locations—based on their individual circumstances and priorities, and using a mix of public and private funding. This approach is being taken forward in the Milton Keynes Prospectus and is being developed in other growth location business plans.

The Government's aim is to provide as much information as it can on likely future levels of support but this needs to be made within the context of the public expenditure cycle.

Disabled Facilities Grant

Sarah Teather: To ask the Deputy Prime Minister when he expects to put forward proposals for reform of the Disabled Facilities Grant. [28892]

Yvette Cooper: I refer the hon. Member to the written statement given to the House on 27 October 2005, *Official Report*, column 13WS.

Fire Service

Steve McCabe: To ask the Deputy Prime Minister pursuant to the answer of 7 November 2005, *Official Report*, column 180W what the average response time was in England in each year. [29686]

Jim Fitzpatrick: The available information covers attendance at primary fires. The following table shows the average response time to primary fires attended by all Fire and Rescue Services in England each month during 2004–05. (Monthly data was requested and provided for the previous question on West Midlands). This is measured in minutes from time of first call to the fire and rescue service to time of arrival at the scene.

Primary fires attended in England: Average response times 2004–05

Month	*Response time (minutes)*
April	6.6
May	6.6
June	6.8
July	6.9
August	7.0
September	6.9
October	6.8
November	6.8
December	6.8
January	6.9
February	7.1
March	7.0
2004–05	6.9

Notes:
1. Figures for 2004–05 are provisional.
2. Data excludes late calls, heat and smoke damage only incidents.

Source:
Fire & Rescue Service FDR1 returns to ODPM.

Ed Balls: To ask the Deputy Prime Minister how many firefighters serviced *(a)* West Yorkshire and *(b)* Normanton constituency (i) in 1997 and (ii) at the latest date for which figures are available. [29176]

Jim Fitzpatrick: The number of firefighters at West Yorkshire fire and rescue service in 1997 and 2004 is set out as follows:

	1997[1]	*2004*[1]
Whole-time firefighters	1,739	1,658
Retained duty system firefighters	180	165
Total number of firefighters	1,919	1,823

[1] Information provided refer to work force at 31 March.

Source:
ODPM annual returns

Data on the number of firefighters at the constituency level are not available.

Ed Balls: To ask the Deputy Prime Minister what provision for fire safety risk assessment there is in *(a)* West Yorkshire and *(b)* Normanton constituency. [29177]

Jim Fitzpatrick: The Office of the Deputy Prime Minister has been maintaining records of attacks on firefighters since 2004. Since 1 April 2004 there have been reports of 75 attacks on firefighters of the West Yorkshire Fire and Rescue Service but no reports of attacks on firefighters in the Normanton area.

In common with other Fire and Rescue Authorities, it is the policy of West Yorkshire Fire and Rescue Service that the attending Incident Commander should conduct a dynamic risk assessment. That assessment includes the threat of attack.

All West Yorkshires fire appliances are equipped with silent witness cameras fitted in the crew cab. This helps to deter acts against crews and provides video evidence to the police in the event of an incident.

Mrs. Humble: To ask the Deputy Prime Minister what assessment he has made of the likely impact on fire and rescue service average response times in Blackpool, North and Fleetwood of establishing a regional fire control room for the north west region. [29332]

Jim Fitzpatrick: The Office of the Deputy Prime Minister expects that the establishment of a new national network of control centres will result in response times, under normal operating conditions, which are as good as or better than now. We expect particular improvement however during surges in demand or very large incidents. Currently, it is not possible to assess the impact on response times in Blackpool, North and Fleetwood.

Homelessness

Mrs. Spelman: To ask the Deputy Prime Minister how many *(a)* homeless children and *(b)* homeless households with children were in temporary accommodation in each (i) year and (ii) quarter since 1997. [26911]

Yvette Cooper: Information reported quarterly by local authorities includes the number of households in temporary accommodation on the last day of the quarter, as arranged by the local authority under homelessness legislation. The number of these households which include dependent children or a pregnant woman has been reported since March 2002, and the number of children or expected children in these households has been reported since June 2004. Available information is summarised in the following table.

In January 2005 the Government announced in "Homes for All" their commitment to halve the number of all households in temporary accommodation by 2010.

Households with dependent[1] children in temporary accommodation[2] as arranged by local authorities under homelessness legislation, and the number of children[1], on the last day of each quarter: England

	Households with children or a pregnant woman	*Number of children/ expected children*
2002		
31 March	54,660	n/a
30 June	58,870	n/a
30 September	61,740	n/a
31 December	60,310	n/a
2003		
31 March	61,510	n/a
30 June	65,040	n/a
30 September	67,260	n/a
31 December	67,540	n/a
2004		
31 March	70,580	n/a
30 June[3]	71,640	121,590
30 September[3]	72,510	122,530
31 December[3]	72,800	124,630
2005		
31 March[3]	72,670	125,860
30 June[3]	72,810	124,900

n/a = Denotes data not collected.

[1] Includes households where an expectant mother is present.

[2] Households in temporary accommodation arranged by local authorities pending enquiries or after being accepted as homeless under the 1996 Act.

[3] Provisional data.

Notes:

1. Data on households containing dependent children has been collected from March 2002.
2. Data on children in temporary accommodation has been collected from June 2004.

ODPM P1E Homelessness returns (quarterly).

Hostels Improvement Programme

Sarah Teather: To ask the Deputy Prime Minister if he will make a statement on the progress of the Hostels Improvement Programme. [28891]

Yvette Cooper: The Office of the Deputy Prime Minister is investing £90 million over the next three years through the Hostels Capital Improvement Programme. Underlying the programme is the need to change the very nature of hostels so that they provide better opportunities for people who have experienced homelessness. Hostels will cease to be a place of last resort, but instead will be centres of excellence and choice which positively change lives. The programme is a large undertaking with around 80 projects in 34 local authorities being developed in a partnership between government, councils and the voluntary sector.

The three year £90 million Hostels Capital Improvement Programme is in its early stages and most projects are at the planning and pre-works stage.

Household Overcrowding

Sarah Teather: To ask the Deputy Prime Minister when he will publish the consultation paper on the revision of standards for determining levels of household overcrowding; and if he will make a statement. [28822]

Yvette Cooper: The Office of the Deputy Prime Minister remains committed to publishing a consultation paper on the future of the statutory overcrowding standards, and will do so as soon as possible.

Housing

Mrs. Spelman: To ask the Deputy Prime Minister what changes the Government have made to planning *(a)* guidance and *(b)* regulations relating to (i) section 106 agreements and (ii) affordable housing quotas since 1997. [26910]

Yvette Cooper: The Office of the Deputy Prime Minister (ODPM) published in July this year Circular 5/05, which provides guidance to local planning authorities in England on the use of section 106 agreements as part of proposed development. This replaced previous guidance set out in DoE Circular 1/97. The Town and Country Planning (General Development Procedure) (Amendment) (England) Order 2002 (S.I. 2002 No.828), requires local planning authorities to put details of section 106 and other agreements that relate to planning applications on their planning registers for public inspection.

Current planning policies, in Planning Policy Guidance note 3: Housing and DETR Circular 6/98, incorporate guidance on the amount of, and the site-size thresholds above which, affordable housing should be sought on application sites. ODPM has not published any regulations relating to planning for affordable housing since 1997.

Mr. Jenkins: To ask the Deputy Prime Minister what total receipts were generated from right-to-buy sales in Tamworth in each year since 1980. [27492]

Yvette Cooper: The total capital receipts from right-to-buy sales of local authority dwellings in Tamworth in the years from 1996–97 onwards are in the following table. These figures are net of discounts and are as reported by local authorities.

	Tamworth (£ million)
1996–97	1.4
1997–98	2.9
1998–99	2
1999–00	3.2
2000–01	2.6
2001–02	4.2
2002–03	7.6
2003–04	10.3
2004–05	7.1

Source:
Quarterly PI(A/B) return received from local authorities.

The information for years prior to 1996–97 is not centrally available.

Mr. Jenkins: To ask the Deputy Prime Minister if he will break down the number of right-to-buy sales in Tamworth since 1980 by *(a)* bed-sit, *(b)* one-bed, *(c)* two-bed, *(d)* three-bed and *(e)* four or more bedrooms. [27493]

Yvette Cooper: Information is not held centrally on the numbers of bedrooms of local authority dwellings sold through right-to-buy, and could be provided only at disproportionate cost.

Rosie Cooper: To ask the Deputy Prime Minister how much was allocated to council house refits for disabled people in West Lancashire in the last year for which figures are available; and what this represents as a proportion of the total budget for council housing refits. [27698]

Yvette Cooper: According to West Lancashire's 2005 Business Plan Annual Monitoring (BPAM) return, over the period 2004–05 they spent £491,000 on disabled/elderly adaptations within their local authority-owned housing. This represents 9.6 per cent. of their total expenditure on capital works over the same period.

The Office of the Deputy Prime Minister does not hold expenditure data on disabled adaptations alone.

Sarah Teather: To ask the Deputy Prime Minister what proportion of social rented housing in each local authority in London in each year since 1990 has been *(a)* bedsit, *(b)* one-bedroom, *(c)* two-bedroom, *(d)* three-bedroom and *(e)* four-bedroom or more. [28896]

Yvette Cooper: The breakdown requested is not available for all years. The information requested has been made available in the Library of the House.

Sarah Teather: To ask the Deputy Prime Minister what proportion of social rented housing in each Government office region in each year since 1990 has been *(a)* bedsit, *(b)* one-bedroom, *(c)* two-bedroom, *(d)* three-bedroom and *(e)* four-bedroom or more. [28897]

Yvette Cooper: The breakdown requested is not available for all years. The information requested is tabled as follows.

Distribution of social stock for Government office regions by size by year

Percentage

	Bedsits and one-bedroom	*Two-bedroom*	*Three-bedroom and over*
1998			
North East	23.4	36.9	39.7

The Regulatory Statistical Return of the Housing Corporation and the HAR/10
The unaudited Second Subsidy Claim form from local authorities
Not all local authorities filled in returns for all years.

Mr. Marsden: To ask the Deputy Prime Minister what steps the Government are taking to improve conditions for older people living in private rented sector housing. [29017]

Yvette Cooper: The Government have introduced a wide range of measures to ensure that elderly people who live in the privately rented sector can enjoy decent homes that are warm and free of hazards. The provisions in the Housing Act 2004 to enable local authorities to assess properties against a range of health and safety criteria will tackle the worst conditions—cold, damp, and the risk of falls. These will be reinforced by provisions which require many of the higher risk properties in the sector to be licensed in order to improve management standards.

In addition, a range of financial assistance and advice is available to improve living conditions in the sector. Local authorities have powers under the Regulatory Reform (Housing Assistance) Order 2002 to provide assistance either to landlords or tenants for this purpose. The types of assistance on offer are a matter for local discretion.

The Government policy has also taken steps to increase the number of warm homes that are energy efficient. Private tenants can seek advice from the Energy Saving Trust, and in his recent Budgets my right hon. Friend the Chancellor has provided through the landlords energy saving allowance important tax reliefs to private landlords who invest in energy saving measures such as cavity wall insulation and double glazing.

The 'Warm Front' scheme tackles fuel poverty among vulnerable households in both the private rented and owner occupied sectors. The scheme provides grants for packages of insulation and heating improvements, including central heating systems, for eligible households. It is available for landlords with tenants on benefits, provided the tenant stays with the landlord for at least two years.

Tim Farron: To ask the Deputy Prime Minister how many people are on the housing list waiting to be re-housed in Westmorland and Lonsdale. [29966]

Yvette Cooper: Information on households (rather than people) is available at local authority and not parliamentary constituency level. Westmorland and Lonsdale is situated within South Lakeland.

Local authorities in England report the numbers of households on their housing waiting list as at 1 April in their annual Housing Strategy Statistical Appendix returns. Households looking for transfer within the local authority's stock are not included.

The number of households on South Lakeland's housing waiting list as at 1 April 2005 was 3,240.

Sarah Teather: To ask the Deputy Prime Minister what the total expenditure on *(a)* intermediate rent, *(b)* homebuy new build and *(c)* mixed funded for sale programmes has been, broken down by local authority. [28825]

Yvette Cooper: A table detailing the total funding through the Housing Corporation's Approved Development Programme, including Keyworker Living, for each local authority area last year (2004–05) has been made available in the Library of the House.

Mr. Streeter: To ask the Deputy Prime Minister what steps he is taking to enable first-time buyers in the South Hams to buy a home locally. [27370]

Yvette Cooper: Recognising the acute need for affordable housing in the South West, the Government have given a 48 per cent. increase in capital funding—

which is the highest funding increase of all English regions—to the south-west. This will be used to support the new building of affordable homes for rent, and the Government's new Homebuy products which will help first-time buyers into home ownership. Around £42 million over the next two years is intended to be allocated to the districts in the Plymouth housing market area, including South Hams, up from £23.6 million over 2004–06.

Mr. Lancaster: To ask the Deputy Prime Minister whether any of the Government's homebuy schemes will be piloted in Milton Keynes. [28312]

Yvette Cooper: At the present time it is not possible to say whether any of the Office of The Deputy Prime Minister's new homebuy schemes will be piloted in Milton Keynes. The Housing Corporation are currently considering bids submitted by housing associations and other housing providers for funding the schemes as part of its National Affordable Housing Programme for 2006–08. Decisions are expected early next year.

We will also be running a limited number of early social homebuy pilots in advance of the next National Affordable Housing Programme round—however, proposals agreed with the Housing Corporation do not include any provision in Milton Keynes.

Local Government Finance

Sarah Teather: To ask the Deputy Prime Minister what *(a)* the average expenditure by (i) county councils and (ii) district councils on the functions for which they are responsible and *(b)* the average population served by (A) county councils and (B) district councils was in (1) 2002–03, (2) 2003–04 and (3) 2004–05. [28890]

Mr. Woolas: The average expenditure by county and district councils on the functions for which they are responsible and the average population served by county and district councils in 2002–03, 2003–04 and 2004–05 are as shown in the following table.

	2002–03	*2003–04*	*2004–05*
County councils average expenditure (£000)	606,377	689,035	710,447
County councils average population	679,629	683,938	687,974
District councils average expenditure (£000)	12,082	13,837	13,298
District councils average population	97,090	97,705	98,282

The data are as reported by local authorities and are taken from the Revenue Summary (RS) return for 2002–03 and 2003–04, and the Revenue Account budget (RA) return for 2004–05.

The definition of council expenditure used here is that expenditure funded from Aggregate External Finance (AEF), council tax and authorities' reserves.

Comparisons across years may not be valid due to changes in the method of reporting the information. In particular, the outturn data for 2002–03 have been calculated on a non-FRS (Financial Reporting Standard) 17 basis while the outturn data for 2003–04 have been calculated on an FRS 17 basis. The budget data for 2004–05 are a mix of FRS 17 and non-FRS 17. This is because the FRS 17 reporting was first introduced in 2004–05 budget form and, after consultation, local authorities were given the option to complete their form either on a non-FRS 17 basis or on an FRS 17 basis. Hence, figures for different years may not be directly comparable.

The population figures are the mid-year estimates (ie 30 June) published by the Office for National Statistics (ONS).

Local Government Pensions

Mr. Newmark: To ask the Deputy Prime Minister what the total amount of local government pension liabilities is if calculated using a discount rate based on index linked gilts; and what rate was used for the calculation. [26223]

Mr. Woolas: The information requested is not held centrally and is a matter for each individual local authority pension fund in the light of its independent actuarial and other professional advice.

Mobile Phone Masts

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 10 October 2005, *Official Report*, column 413W, on mobile phone masts, if he will list the meetings his *(a)* Ministers, *(b)* special advisers and *(c)* civil servants have had with mobile phone mast operators or their representatives since 1 January. [19711]

Yvette Cooper: There have been no meetings between Ministers in the Office of the Deputy Prime Minister or their special advisers and the five mobile network operators, or their representatives since 1 January.

Officials have met with mobile networks operators or their representatives for briefing on: the findings of the Deloitte and Touche review of the implementation of the operators' Ten Commitments; the MORI Planners—Quantitive Research Over Five Years; and the MORI General Public—Pyramid Research. Officials have also held quarterly liaison meetings with the MOA.

In addition, representatives of the mobile networks operators have attended project meetings for the review of the General Permitted Development Order; the review of the Code of Best Practice for Mobile Phone Network Development; and the research project to identify the future direction of mobile phone and electronic communications network technology.

Pathfinder

Mrs. Spelman: To ask the Deputy Prime Minister what estimate the Government have made of the average price of a property facing demolition in the Pathfinder areas. [29723]

Yvette Cooper: I refer the hon. Member to my previous answer given on 17 October 2005, *Official Report*, column 814W.

Planning

Mr. Streeter: To ask the Deputy Prime Minister whether a local authority may advertise planning applications on its website rather than in local newspapers; and if he will make a statement. [28262]

Yvette Cooper: Local authorities must advertise planning applications in a local paper when required to by the Town and Country Planning (General Development Procedure) Order 1995.

Mr. Cox: To ask the Deputy Prime Minister what were the *(a)* average, *(b)* longest and *(c)* shortest times taken by the Government Office South West (i) to determine whether a planning application referred to it by a local authority required full consideration and (ii) to announce its final decision where a full inquiry was required in each of the last six years. [28438]

Yvette Cooper: The information is set out in the following tables 1 and 2. Table 1 includes the percentage of decisions on whether referred cases should be called in for determination by the First Secretary of State, my right hon. Friend the Deputy Prime Minister completed within the statutory 21 day period. This indicates that in every year the average case has been dealt with in less than three weeks.

Table 1: determination of whether to call-in referred application

	Total number of referrals	*Longest time to reach decision (weeks)*	*Shortest time to reach decision (days)*	*Percentage decided in 21 days*
2000	151	60	2	88
2001	149	41	3	83
2002	144	39	2	79
2003	174	46	4	77
2004	159	41	2	81
2005[1]	93	32	2	85

[1] To date.

Table 2: determination of called-in applications

Weeks

	Longest time from call-in to decision	*Shortest time from call-in to decision*	*Average time from call-in to decision*
2000	74	39	51
2001	51	32	40
2002	47	42	45
2003	72	40	50
2004	50	38	44
2005[1]	72	55	63

[1] To date.

Peter Law: To ask the Deputy Prime Minister if he will make it his policy to establish a centralised mechanism to collect data on the number of planning permissions granted for housing development on green belt land. [28885]

Yvette Cooper: A centralised national database of planning permissions granted or refused by each local planning authority is maintained on a quarterly basis. Aggregate statistics on permissions for housing development are collected but not details of individual applications or their location in each authority, including on green belt land. A special inquiry to local authorities to provide such detail would be an extra burden on them and could not be justified. The Office of the Deputy Prime Minister is currently exploring other ways of obtaining information more efficiently through "e-planning" initiatives.

Property Valuation

Sarah Teather: To ask the Deputy Prime Minister how many days' notice a valuation officer must give before visiting a property. [30660]

Mr. Woolas: Section 26 (2) of the Local Government and Finance Act 1992 states that if exercising his or her power of entry, the valuation officer must give at least three days notice in writing of the proposed exercise of the power.

The Valuation Office Agency's Charter on Council Tax states that if a valuation officer needs to see inside a taxpayer's property he or she will give seven days notice, wherever possible, contacting the taxpayer to arrange a convenient appointment.

Regional Government

Mrs. Spelman: To ask the Deputy Prime Minister what information his Department would need to collect to be able to publish figures for the total expenditure of the English regional chambers. [26904]

Yvette Cooper: Regional assemblies are voluntary bodies. We do not collect information on regional assembly expenditure. I refer the hon. Member to my answer given on 17 October 2005, *Official Report*, column 817W, which details grant made by the Office of the Deputy Prime Minister to regional assemblies between 2001–02 and 2005–06

Mrs. Spelman: To ask the Deputy Prime Minister what guidance he has issued to the regional chambers on their duties under the Human Rights Act 1998; and if he will make a statement. [26907]

Yvette Cooper: My right hon. Friend the Deputy Prime Minister has not issued any guidance to the regional assemblies on their duties under the Human Rights Act.

Mrs. Spelman: To ask the Deputy Prime Minister if he will place the interim report commissioned from Arup on regional assemblies in the Library. [26915]

Yvette Cooper: Copies of the interim report prepared by Arup on regional assemblies have been placed in the Library of the House.

Staffordshire County Council

Mr. Jenkins: To ask the Deputy Prime Minister what *(a)* revenue and *(b)* capital funding his Department has allocated to Staffordshire county council in each of the last 10 years. [27499]

Jim Fitzpatrick: The Office of the Deputy Prime Minister (ODPM) was established following the Machinery of Government changes on 29 May 2002. The following table sets out payments made to Staffordshire county council since 2002–03.

All Figures (£ million)

	Funding	
	(a) Revenue	*(b) Capital*
2002–03	404.520	0.200
2003–04	468.167	1.800
2004–05	486.441	0.506
Total	1359.128	2.506

Town Councils

Mr. Steen: To ask the Deputy Prime Minister pursuant to the answer of 9 November 2005, *Official Report*, columns 495–96W, on town councils, what the reason is for the time taken by his office receiving a proposal for the creation of a new town council and his office making orders to implement the proposal. [30167]

Mr. Woolas: The period referred to in my previous answer of between six and nine months is not a delay, but the period for undertaking the necessary consultative and other processes needed to implement a proposal to create a new town council.

Valuation Office Agency

Mrs. Spelman: To ask the Deputy Prime Minister what work the Valuation Office Agency is conducting on matters relating to the valuation of domestic properties. [26902]

Mr. Woolas: The statutory responsibilities of the Listing Officers employed by the Valuation Office Agency (VOA) to compile and maintain valuation lists for council tax purposes in England continue. For the current (1993) lists this means banding new properties, amending the banding of existing properties and deleting entries from the lists where properties are demolished or converted to non-domestic use. (Amendments to bandings may occur where there are physical changes that would result in a lower band, or where an improvement has been made that would take the property into a higher band and there has been a subsequent sale.) These activities will now be undertaken with the benefit of the newly digitised database of property records, which the VOA will ensure is comprehensive and up to date. This means that the VOA can introduce improved processes for handling data internally—as it will no longer be reliant on paper records—and can also provide a better service to council tax payers and to billing authorities in relation to the 1993 lists. In particular it will be better placed to deal quickly with enquiries or appeals from tax payers about their current bandings. Additionally, to secure the investment made to date in the automated valuation model technology, the VOA will complete the necessary work to ensure that the model is available for use in all its locations. Although introduced to support the 2007 revaluation, the VOA plans to use the model's capability to support the 1993 lists and also for other valuation work on domestic property which it undertakes within its statutory remit.

Mrs. Spelman: To ask the Deputy Prime Minister what plans the Valuation Office Agency has to reduce its staff following his announcement of the delay in the council tax revaluation in England. [26905]

Mr. Woolas: The Valuation Office Agency has reviewed its staffing need in the light of the postponement of the council tax revaluation. The immediate impact on staffing is that some 420 staff working on casual and fixed term contracts will have left the Agency by 18 November 2005. The Agency is now running an early departure scheme for permanent employees and it is anticipated that some 600 more staff will leave in the period between 30 March 2006 and 30 June 2006. It is anticipated that, coupled with natural wastage, the total reduction will amount to some 1,250 staff.

Wind Farms

Mrs. Moon: To ask the Deputy Prime Minister (1) how many public inquiries as a result of wind farm development planning applications in the last five years have resulted in the planning application being *(a)* upheld and *(b)* recommended for refusal; [27010]

(2) how many wind farm planning applications have *(a)* been examined by inspectors at public inquiry and *(b)* called in; and how many have been (i) approved and (ii) refused in each category. [27301]

Yvette Cooper: In the last five years in England, there have been 14 public inquiries held as a result of wind farm development planning applications. All of these were planning appeals and of these, eight resulted in the planning application being allowed and six resulted in a refusal of planning permission. There have been no such planning applications that have been called in during the last five years.

HEALTH

Alcohol Treatment

John Bercow: To ask the Secretary of State for Health if she will make a statement on the findings of her Department's audit of alcohol treatment and models of care for alcohol misuse. [26694]

Caroline Flint: The alcohol needs assessment research project (ANARP) was published on 1 November 2005, this provided valuable data for the programme of improvement. The ANARP confirms that there are 696 treatment services available in England, these results show that there are 43 per cent. more agencies providing alcohol treatment services than previously identified. The models of care for alcohol misusers will be published in December 2005.

Assaults (Ambulance Staff)

Mr. Marsden: To ask the Secretary of State for Health what steps her Department is taking *(a)* to reduce the number of assaults on ambulance staff while on duty and *(b)* to increase the number of prosecutions in cases where assaults have been made on ambulance staff while on duty. [25240]

Jane Kennedy: In November 2003 a comprehensive range of measures were introduced by the national health service to tackle the problem of violence against NHS staff, including those that work in the ambulance services. Since that time an estimated 85,000 frontline NHS staff have been trained to prevent and manage violence. This work is supported by advice and guidance from the NHS Security Management Service (NHS SMS).

The number of prosecutions identified involving those who have physically assaulted NHS staff has risen from 51 in 2002–03 to 759 in 2004–05. Other initiatives include the introduction of professional skills and expertise at local level through the role of the local

security management specialist who is trained to tackle security-related problems such as violence against NHS staff; this is supported by accredited training, advice and guidance from the NHS SMS. A key project of the NHS SMS will be to build strong links locally with the police and Crown Prosecution Service to ensure all cases of assaults are professionally investigated and prosecuted where appropriate. This will be supported by a memorandum of understanding between the NHS and the Association of Chief Police Officers, as well as advice and guidance from the NHS SMS legal protection unit.

Mr. Marsden: To ask the Secretary of State for Health what steps her Department has taken to disseminate best practice in reducing assaults on ambulance staff while on duty. [25241]

Jane Kennedy: In November 2003, a comprehensive range of measures were introduced by the national health service to tackle the problem of violence against NHS staff, including those that work in the ambulance services, supported by the NHS Security Management Service (NHS SMS).

These initiatives include the introduction of the role of the local security management specialist to provide NHS health bodies for the first-time ever with professional skills and expertise locally to tackle security-related problems such as violence against NHS staff. This is supported centrally by accredited training, advice and guidance from the NHS SMS. The NHS security management manual is supplied to trained and accredited local security management specialist and provides best practice guidance on a range of security matters, including tackling violence against staff. A specific training syllabus for the prevention and management of violence is being developed for ambulance personnel and will be launched in 2006.

The NHS SMS is currently working with the Home Office on a project known as the safer hospitals project. One of the strands of this work is devoted to evaluating how the use of technology and other interventions can be used to better protect ambulance staff. The project is due to report in early 2006.

Attention Deficit Disorder

Tim Loughton: To ask the Secretary of State for Health what guidelines she has issued on the prescription of medicines for adults which are used to treat attention deficit hyperactivity disorder in children; and what research the Department has *(a)* commissioned and *(b)* evaluated on this matter. [24417]

Mr. Byrne: The Department has asked the National Institute for Health and Clinical Excellence to prepare a guideline on the effectiveness of methylphenidate and other pharmacological and psychological interventions in combination or separately for the treatment of attention deficit hyperactivity disorder. The guideline should apply to the treatment of children, young people and adults where evidence for treatment effectiveness is available. The Department has not directly commissioned or evaluated research on the prescription of medicines for adults which are used to treat attention deficit hyperactivity disorder in children.

Audiology Services

Linda Gilroy: To ask the Secretary of State for Health what steps she is taking *(a)* to improve capacity to deliver audiology services and *(b)* to reduce waiting times for fitting digital hearing aids. [28477]

Mr. Byrne *[holding answer 14 November 2005]:* Several initiatives have been introduced to improve capacity to deliver audiology services. These are the national framework contract public private partnership to bring in additional independent sector capacity, the development of a new degree to help to address the shortage of audiologists and the introduction of Hearing Direct which is follow-up care and advice for hearing aid users who would benefit from this.

The figures on waiting times for digital hearing aids are not collected centrally.

Barnsley Primary Care Trust (Redundancies)

Mr. Illsley: To ask the Secretary of State for Health (1) what estimate she has made of the likely cost of redundancies for the Barnsley Primary Care Trust in *(a)* 2005, *(b)* 2006 and *(c)* 2007; [20400]

(2) what estimate she has made of the number of posts to be *(a)* lost and *(b)* restructured in each health establishment in South Yorkshire for each year from 2005 to 2008, broken down by grade; [20401]

(3) what estimate she has made of the likely cost of redundancies for health establishments in South Yorkshire in each year from 2005 to 2008. [20402]

Mr. Byrne: Strategic health authorities were required to provide proposals for local commissioning arrangements to the Department by 15 October. All proposals, including staff implications, will be subject to full local consultation. Once final decisions have been taken, the Department will consider whether there is a need to issue guidance.

Bed Closures

Mr. Burstow: To ask the Secretary of State for Health what the net number of bed closures in *(a)* London and *(b)* each NHS Trust in London was in 2004–05, broken down by bed type. [24375]

Mr. Byrne: The Department does not hold this information in the format requested.

Carbon Management Programme

Norman Lamb: To ask the Secretary of State for Health whether her Department will sign up to the Carbon Trust's Carbon Management programme. [23728]

Caroline Flint: This Department supports and aims to meet the Government's strategy to reduce carbon emissions and improve the energy efficiency of the Government estate. The Department's estate consists mainly of administrative buildings, and we do not consider that the Carbon Trust's programme would be appropriate at this time.

We will continue to encourage the national health service to work with the Carbon Trust, and to offer best assistance.

Care Homes

Mr. Evans: To ask the Secretary of State for Health how many care homes have closed in the Ribble Valley in each of the last five years. [21164]

Mr. Byrne: The information is not available in the format requested, as the Commission for Social Care Inspection (CSCI) does not collect data by constituency. Nor does CSCI collect information on home closures or the reason for closure. CSCI does however collect information on the number of homes that de-register, although this could be for a variety of reasons including closure or to re-register in another category.

Mr. Burstow: To ask the Secretary of State for Health (1) what the timetable is for acting on those recommendations in the Office of Fair Trading Care Homes Study with which she has agreed; [22265]

(2) for what reasons she took a different view from that expressed by the Commission for Social Care Inspection on the Office of Fair Trading's Care Homes study. [23066]

Mr. Byrne: The Office of Fair Trading's (OFT) report on care homes for older people in the United Kingdom made a number of specific recommendations for central government, the devolved administrations, the regulators, including the Commission for Social Care Inspection (CSCI), local councils and care homes. The Government's action plan published on 17 August covers all the recommendations that the OFT directed at central government in England. As the independent inspectorate for all social care services in England, the CSCI responded separately to the OFT report and addressed the specific recommendations directed at them.

The Government's action plan included the timetable for the intended actions. The plan stated that some issues would be considered in the context of next steps on "Independence, Well-being and Choice", which will be set out in the forthcoming White Paper planned to be published at the turn of the year. The Government also committed to consider through the review of the national minimum standards (NMS) and associated regulations the most effective way to address other issues. It intends to issue revised NMS and regulations for consultation in spring 2006, with the intention of implementing changes from April 2007.

Childhood Obesity

Mr. Lansley: To ask the Secretary of State for Health what target date has been set for halting the rise in obesity among children under 11 years; how the target to reduce emergency bed days by 5 per cent. by 2008 will be measured; how the target to offer a personalised care plan for vulnerable adults most at risk is to be measured; and whether the targets to *(a)* increase life expectancy, *(b)* reduce mortality rates from heart disease, stroke and related diseases, *(c)* reduce the inequalities gap in mortality rates from heart disease and *(d)* reduce mortality rates from cancer by 2010 will be based on average data from 2009 to 2011 [26541]

Caroline Flint: The Department's public service agreement (PSA) targets and associated technical notes were agreed with Her Majesty's Treasury as part of 2004 spending review and are published on the Department's website at www.dh.gov.uk/assetRoot/04/08/69/19/04086919.pdf. PSA technical notes contain the measurement details of the targets including target dates, data sources, coverage and references to further relevant technical information.

Continuing Care

Adam Price: To ask the Secretary of State for Health (1) what the average time taken was to complete a successful claim for the reimbursement of wrongly charged continuing care in the last year for which figures are available; [24490]

(2) what is the timetable for reviewing claims for reimbursement for individuals who have been wrongly charged for continuing care; [24529]

(3) how many primary health trusts in England have launched advertising campaigns on the reimbursement of erroneous charges for continuing care. [24530]

Mr. Byrne: Information relating to the average time taken to complete a successful reimbursement claim for national health service continuing care is not collected centrally.

In England, strategic health authorities are seeking to complete all new cases coming to light within two months of the receipt of all the relevant documents.

The Department will not set any further deadlines for completing investigations because there are still a number of new cases coming to light it would be inappropriate to imply that there is a cut off date.

Information relating to the number of primary care trusts in England who have launched advertising campaigns on the review process for reimbursement of continuing care charges is not held centrally.

Delayed Discharges

Mr. Burns: To ask the Secretary of State for Health how many delayed discharges there were in England in each of the last six years for which figures are available; and if she will make a statement. [28108]

Mr. Byrne *[holding answer 14 November 2005]:* I refer the hon. Member to the reply I gave on 24 October 2005, *Official Report*, column 174W.

Dentistry

Mr. Drew: To ask the Secretary of State for Health if she will arrange for UK-based students qualifying for dentistry to undertake a period of employment in the NHS in return for full or partial remittance of fees. [24698]

Ms Rosie Winterton: On graduation, almost all newly qualified dentists undertake one year's vocational training in a dental practice with a significant

commitment to national health service dentistry. Some primary care trusts (PCTs), in areas where there are shortages of NHS dentists, already offer inducement payments to dentists to undertake their vocational training in their areas. We are encouraging PCTs to build on this experience by considering other innovative methods of attracting dentists to make their careers in the NHS. I will ensure the review team is aware of my hon. Friend's suggestion.

Departmental Energy Consumption

Norman Lamb: To ask the Secretary of State for Health how much energy has been consumed by her Department in each of the last five years; and how much was spent on energy in each year. [22462]

Jane Kennedy: The information requested is shown in the tables.

Consumption and cost of energy for the Department of Health, including NHS Pensions Agency until April 2004

	2000-01	2001-02	2002-03	2003-04	2004-05
Consumption kilowatt-hour (kWh)

Total	28,146	54,132	49,928	37,036	46,342

[1] Combined figure

Departmental Estate

Julia Goldsworthy: To ask the Secretary of State for Health what steps have been taken in the context of assessment of the environmental impact of her Department to provide a clear description of her Department's estate, including executive agencies, staff numbers, buildings and land management. [22099]

Caroline Flint: I understand that this question relates to BREEAM (British Research Establishment Environmental Assessment Method) and sustainable development.

The Department reports annually on its progress against the targets contained in the "Framework for Sustainable Development on the Government Estate". The data for 2004–05 is currently being analysed by independent consultants. It will shortly be published, with a commentary by the Sustainable Development Commission, on the Government's sustainable development website at www.sustainable-development.gov.uk. The data for 2003–04 is currently available on the website.

Payment by Results

Helen Jones: To ask the Secretary of State for Health what action she is taking following the publication of the report by the Audit Commission entitled "Early Lessons From Payment By Results". [25556]

Mr. Byrne *[holding answer 7 November 2005]:* The Audit Commission's report, "Early Lessons from Payment by Results" (October 2005), provides useful insight into the experience of those national health service organisations at the forefront of implementing payment by results. Many of the key recommendations from the report are either already being implemented or are being taken forward for subsequent years.

For example, the Department has consulted on a draft code of conduct, which aims to establish clear expectations on how organisations will conduct business under payment by results and the Department will be finalising the code of conduct for next year.

In addition, the Department is working with the Audit Commission to develop an assurance framework for payment by results, which will focus on improving data quality and assuring the appropriateness of payments. Tariff changes for 2006–07 will be announced in due course.

Emergency Bed Service

Sandra Gidley: To ask the Secretary of State for Health if she will make a statement on the emergency bed service. [18771]

Mr. Byrne: The emergency bed service, run by the London Ambulance Service, provides a range of information on bed availability to the national health service in the London area.

The service also provides the NHS nationally with vital information on the availability of intensive care beds via the centrally funded intensive care bed register. This service is available 24 hours a day; seven days a week; 365 days a year.

Funding Criteria

Mike Penning: To ask the Secretary of State for Health (1) what criteria were used in setting the funding allocation for *(a)* Lambeth primary care trust and *(b)* Dacorum primary care trust for 2005–06; and if she will make a statement; [24724]

(2) what criteria were used in setting the funding allocation to Salford primary care trust for 2005–06; and if she will make a statement. [24725]

Ms Rosie Winterton: Revenue allocations are made directly to primary care trusts (PCTs) on the basis of the relative needs of their populations. A weighted capitation formula is used to determine each PCT's target share of available resources.

The components of the formula are used to weight each PCTs crude population according to their relative need (age, and additional need) for health care and the unavoidable geographical differences in the cost of providing health care (market forces factor).

GM Crops

Mr. Drew: To ask the Secretary of State for Health what recommendations she made regarding GM Maize—GA21 prior to its submission to the EU regulatory authority. [25231]

Caroline Flint: An application for authorisation of products derived from GA21 maize was made to the Dutch authorities in 1998 under the novel foods regulation (EC) No. 258/97. The Food Standards Agency (FSA) is the UK Competent Authority under the novel foods regulation and seeks expert advice on the safety of Genetically Modified foods from the independent Advisory Committee on Novel Foods and Processes (ACNFP).

The dossier on GA21 maize was reviewed by the ACNFP during 2000. They identified certain shortcomings in the available data and its advice formed the basis of the United Kingdom's objection to the initial assessment report from the Dutch Competent Authority. These shortcomings, and questions raised by other member states, were addressed by Monsanto in a supplementary dossier that they provided to the EC Scientific Committee on Food (SCF) for further assessment. The SCF concluded in March 2002 that GA21 maize is as safe as conventional, non-GM maize.

As the supplementary data and the SCF evaluation answered the ACNFP's initial questions, the FSA has advised Ministers that GA21 maize meets the necessary criteria for authorisation. The UK therefore voted in favour when European Union member states voted on the authorisation of GA21 maize in April and October of this year.

General Practitioners

Andrew Rosindell: To ask the Secretary of State for Health how many registered general practitioners there were in the NHS in each year since 1992. [26468]

Mr. Byrne: The requested information is shown in the table.

All Practitioners (excluding retainers and registrars)[1] for England, 1992 to June 2005

	Number (headcount)
1992	26,572
1993	26,931
1994	27,290
1995	27,465
1996	27,811
1997	28,046
1998	28,251
1999	28,467
2000	28,593
2001	28,802
2002	29,202
2003	30,358
2004	31,523
June 2005	32,418

[1] General medical practitioners (excluding retainers and registrars) includes contracted GPs, GMS others and PMS others. Prior to September 2004 this group included GMS unrestricted principals, PMS contracted GPs, PMS salaried GPs, restricted principals, assistants, salaried doctors (para 52 SFA), PMS other, flexible career scheme GPs and GP returners.

Note:

Data as at 1 October 1992–99, 30 September 2000–04 and 30 June 2005.

NHS Health and Social Care Information Centre General and Personal Medical Services Statistics.

Mr. Evans: To ask the Secretary of State for Health how many GPs per head of population there have been in *(a)* Ribble Valley and *(b)* Lancashire in each year since 1997. [29043]

Mr. Byrne *[holding answer 16 November 2005]:* The information requested is shown in the following table.

General medical practitioners (excluding retainers and registrars)[1] per 100,000 head of population, by Government office region, strategic health authority and primary care trust, 1997–2004—England

NHS Health and Social Care Information Centre General and Personal Medical Services Statistics 2001 ONS Population Census

Health Services (Leeds)

Mr. Truswell: To ask the Secretary of State for Health (1) what services provided by the Leeds Hospitals Teaching Trust will be transferred to the proposed surgical independent sector treatment centre serving Leeds patients; [18924]

(2) what maximum income of the proposed surgical independent sector treatment centre serving Leeds patients will be underwritten over the first five years of its existence; [18925]

(3) when she expects the proposed surgical independent sector treatment centre serving Leeds patients to come into operation. [18926]

Mr. Byrne: Existing local health services have not been transferred to Eccleshill Treatment Centre. The services offered are additional and patients have a choice about where they attend.

The issues raised are subject to the outcome of the on-going procurement process.

Healthcare Assistants

Peter Law: To ask the Secretary of State for Health what plans she has to increase the salaries of healthcare assistants. [23558]

Mr. Byrne: Many healthcare assistants are benefiting from assimilation to the new Agenda for Change National Health Service pay system under which their pay is based on the knowledge, responsibility, skills and effort required for their job, rather than their historic job title or occupational group. In addition, the department has provided evidence to the Nurses and Other Health Professions Review Body asking them to recommend an increase in pay from next April within prudent financial limits. A copy of this is available on the Department's website at www.dh.gov.uk/assetRoot/04/12/08/41/04120841.pdf.

Human Rights Act

Mr. Burstow: To ask the Secretary of State for Health (1) if she will make it her policy to make compliance with the Human Rights Act 1998 a condition of registration under the Care Standards Act 2000; [22182]

(2) if she will make it her policy to require local authorities entering into contracts with care providers to ensure that the recipient of care services has the full protection of the Human Rights Act 1998. [22183]

Mr. Byrne: Consideration has been given to the application of the Human Rights Act (HRA) 1998 to independent sector bodies carrying out national health service services, and to organisations registered under the Care Standards Act 2000. This is, however, an issue tied into the wider question of the meaning given to public authority in the Human Rights Act 1998 and elsewhere in discrimination law and it will, therefore, be considered in the context of the discrimination law review currently being undertaken by the Government.

Local authorities are public authorities and are subject to the HRA. Local authorities are expected to take account of the relevant aspects of the HRA in their contracting arrangements, including those with care providers. On the recommendation of the parliamentary joint committee on human rights, guidance was published in March 2005 on contracting for services in the light of the HRA.

Influenza

Sandra Gidley: To ask the Secretary of State for Health how stockpiled supplies of antiviral drugs will be distributed. [21219]

Caroline Flint: Primary care trusts will be responsible for developing plans for the distribution of antivirals. We have recently published a framework for the National health service for stockpiling, distributing and using antivirals which is available on our website: www.dh.gov.uk/pandemicflu.

Mr. Lansley: To ask the Secretary of State for Health what support has been given to research and development of a vaccine against possible pandemic strains of avian influenza in each year since 1997. [20862]

Jane Kennedy: The development of a vaccine that will give effective protection against a new strain of influenza virus has to follow the emergence of the strain in humans.

The Department is currently finalising a strategy that will ensure that its vaccine, anti-viral and diagnosis related research activities are in line with those of other research funders in the United Kingdom, in Europe and in North America. At the same time, the Medical Research Council will hold a workshop in December to identify particular strategic research needs for pandemic influenza. When this consultation process is complete, the Government will be in a position to commission high quality research that is both applicable to the needs of the UK and coordinated with the efforts of other countries.

The main agencies through which the Government support influenza research are the Medical Research Council (MRC) and the Biotechnology and Biological Sciences Research Council (BBSRC). The research councils are independent bodies funded by the Department of Trade and Industry via the Office of Science and Technology.

MRC expenditure on research on influenza in the years from 1997–98 is shown in the table.

	£ million
1997–98	1.21
1998–99	2.06
1999–2000	1.49
2000–01	0.85
2001–02	1.07
2003–04	1.38
2004–05	1.62

The MRC additionally supports a large infections portfolio that includes research aimed at improved treatment through developing new vaccines and drugs, and understanding how infectious organisms evade the body's immune defences and evolve drug resistance. Aspects of this research will be relevant to influenza.

The BBSRC spent some £2.5 million on influenza research in the years 2001–05. Earlier information is not available. In the last two years £0.5 million of the total has been spent on research on avian influenza, and has been aimed at understanding the virus and nature of infection.

The Department funds research to support policy and to provide the evidence needed to underpin quality improvement and service development in the national health service. The Department's national research programme spend on research related to pandemic influenza vaccination in the period from 1997 to 2004 was £417,000.

Steve Webb: To ask the Secretary of State for Health which categories of *(a)* healthcare and *(b)* other key workers will be prioritised during an influenza pandemic to receive a pandemic virus vaccine once it has been developed. [24523]

Caroline Flint: Once a vaccine for the pandemic flu strain has been developed, healthcare workers and key workers in other essential services may need to be vaccinated first, as it will be important to maintain health and other essential services during the pandemic. Final decisions regarding prioritisation will be made on the basis of information emerging from the early stages of the pandemic about the virus and those groups most at risk.

Mr. Roger Williams: To ask the Secretary of State for Health (1) what discussions she has had with the Welsh Assembly Government on dealing with an influenza pandemic in Wales; and if she will make a statement; [24502]

(2) what discussions she has had with her National Assembly for Wales Government counterpart on cross-border issues arising from contingency planning for an influenza pandemic. [24642]

Caroline Flint: Discussions have not taken place with Welsh colleagues at ministerial level although we have worked closely with Welsh Assembly Government officials in the development of the "UK Influenza Pandemic Contingency Plan" that provides the framework for the overall response to a pandemic.

We also maintain a continuing dialogue with Assembly officials directly and through other channels such as the Cabinet Office working group on operational arrangements and guidance for the public and health professionals.

Information Technology

Gregory Barker: To ask the Secretary of State for Health if she will make a statement on the actual costs against planned expenditure of the patient information systems being built by private companies in the NHS. [27217]

Mr. Byrne *[holding answer 10 November 2005]:* Under the terms of the contracts let by NHS Connecting for Health, the agency which is delivering the NHS National Programme for Information Technology, a significant proportion of the risks has been transferred to the supplier. Payment to the supplier depends on system deployment. This incentivises deployment, and payments can be clawed back where subsequent milestones are not met. NHS Connecting for Health has retained extensive rights to terminate contracts for failure to achieve the required performance levels and to receive compensation for missed milestones.

Lichfield Hospital

Michael Fabricant: To ask the Secretary of State for Health pursuant to the answer of 2 November 2005, *Official Report*, columns 1146–47W, on Lichfield hospital, whether a maternity unit will be provided at the new hospital under construction in Lichfield. [26684]

Ms Rosie Winterton: Shropshire and Staffordshire strategic health authority reports that the maternity unit currently at the Victoria hospital will transfer to the new hospital in Lichfield.

Literacy and Numeracy

Mr. Gibb: To ask the Secretary of State for Health how many employees in her Department requested training to improve their *(a)* literacy and *(b)* numeracy skills in each year since 2002. [23420]

Jane Kennedy: The Department does not hold this information.

Mr. Gibb: To ask the Secretary of State for Health how much her Department spent on in-house training on *(a)* literacy and *(b)* numeracy (i) in total and (ii) per head in each year since 2002. [23431]

Jane Kennedy: This information is not held by the Department

Medical Careers

Dr. Fox: To ask the Secretary of State for Health what steps her Department is taking to ensure the management of a successful transition to modernising medical careers. [25322]

Mr. Byrne: All aspects of the implementation of modernising medical careers (MMC) are governed through the following structures. The MMC United Kingdom strategy group, attended by the four UK Chief Medical Officers, sets the strategic direction. Implementation in England is managed through the MMC programme delivery board. Input from a wide range of stakeholders is obtained through the MMC UK advisory board. There is also close working with individual stakeholders to manage different aspects of the process.

These bodies are currently developing and assessing the structure of specialist and general practitioners training following the successful introduction of foundation programmes in August this year. Their work encompasses career structures and career prospects for junior doctors.

Mental Health

Ed Balls: To ask the Secretary of State for Health what specialist services are available for families affected by mental health problems in *(a)* Normanton constituency, *(b)* Wakefield East primary care trust, *(c)* Wakefield West primary care trust, *(d)* Wakefield district and *(e)* West Yorkshire. [24246]

Mr. Byrne: The specialist services available for families affected by mental health problems within Wakefield and across West Yorkshire are shown in the list.

Total Services in Wakefield Local Implementation Team by service name, as at September 2005:

Accident and Emergency Liaison Service
Acute Liaison Team
Adult Psychological Therapies
Airedale Community Mental Health Team
Approved Social Worker Rota
Back in Touch Project
Carers Mental Health Link
Castle Lodge
Catering Plus Ltd.
Community Link Service
Crisis Resolution Service
Day Treatment Service—Baghill House, Pontefract
Day Treatment Service—Garden Street, Wakefield
Direct Impact
Development Initiative for Voluntary Arts (DIVA)
EDT
Fieldhead Befriending Scheme
Grove House
Home Based Break Service
Hyde Park
Joint Group of Users and Carers
Mental Health Reference Group
Mind Matters
Network 2000
Newton Lodge
Open House (Out of Hours Drop-in)
Out Patients
Pioneer Project
Pontefract Assertive Outreach Team
Pontefract CMHT
Primary Care Liaison Treatment and Training (PLATT) Service
Priory Unit
Psychiatric Liaison Service
Rethink Carers Group
Richmond Fellowship Advocacy Service
Saville Park
South Kirkby CMHT
Specialist Psychotherapy Service
Targeting Your Needs—Mental Wellbeing Project
Thomas Owen House
Wakefield Assertive Outreach Team
Wakefield Carer Development Service
Wakefield District Patient Advice and Liaison Service
Wakefield District Prison Mental Health In-reach Service
Wakefield Friendship, Social and Support Group
Wakefield Mental Health Employment Consortium
Wakefield North CMHT
Wakefield Self Help Depression Group
Wakefield South Community Mental Health Team
Wakefield Walk-in Centre
Workstep

Adult Mental Health Service Mapping

Tim Loughton: To ask the Secretary of State for Health whether the Government plans to use the review of the general practitioners contract to establish incentives for general practitioners to set up a register for those with mental health problems. [24418]

Mr. Byrne: NHS Employers, on behalf of United Kingdom health Ministers, are responsible for reviewing the General Medical Service contract with the British Medical Association's general practitioners committee. Negotiators have confirmed some changes will be made to the quality and outcomes framework from April 2006, but negotiations are still in progress.

Lynne Jones: To ask the Secretary of State for Health what proportion of the £1 billion allocation to mental health services has been directed to mental health services for *(a)* child and adolescent mental health services and *(b)* services of those over 60 years of age. [24944]

Mr. Byrne: The additional investment amounting to £1 billion since the publication of the national service framework for mental health was spent by national health service trusts on mental health services for adults of working age. There has also been additional investment on mental health services for other ages, details of which are shown in the report of the "2004–05 National Survey of Investment in Mental Health Services" which is available on the Department's website at www.dh.gov.uk/assetRoot/04/11/52/96/04115296.pdf.

Midwives

Mr. Bafon: To ask the Secretary of State for Health (1) what plans she has to implement the Independent Midwives Association's NHS community midwifery model; and if she will make a statement; [16670]

(2) what discussions she has had with *(a)* officials and *(b)* independent organisations about the possibility of implementing the NHS community midwifery model. [16671]

Mr. Byrne: Officials met with the Independent Midwives Association (IMA) on 3 August to discuss their proposal of a national health service community midwifery model. The group agreed that it would be a useful exercise to pilot the IMA model with a small group of independent midwives. The IMA was asked to put together a proposal for this pilot, which could then be discussed with primary care trusts who had expressed an interest in working with the IMA community midwifery model. This pilot is being developed.

Joan Walley: To ask the Secretary of State for Health what assessment she has made of the number of extra midwives needed to enable full choice by 2009 in the NHS of where and how women will give birth. [23150]

Mr. Byrne: The Government's manifesto stated that by 2009, all women will have choice over where and how they have their baby and what pain relief to use.

The numbers of midwives needed is a matter for local determination, but the number of students entering midwifery training was 2,374 in 2004–05 compared with 1,652 in 1996–97 and the vacancy rate for midwives was 1.8 per cent. in 2005 compared with 3.3 per cent. in 2004.

MRSA

Mr. Austin Mitchell: To ask the Secretary of State for Health what the MRSA rates per thousand patient beds were for acute hospitals with *(a)* above and *(b)* below average levels of bed utilisation in each year since 2000. [20505]

Jane Kennedy: The information is not available in the requested format.

Mr. Austin Mitchell: To ask the Secretary of State for Health what assessment she has made of a possible relationship between higher rates of bed utilisation and the incidence of MRSA. [20506]

Jane Kennedy: As part of its programme to reduce health care associated infections, the Department is working on an internal desk analysis of hospital organisation specialty mix and methicillin resistant *Staphylococcus aureus* (MRSA). This indicates a statistical correlation but bed occupancy is only one of the factors that influences infection rates. The Department acknowledges the importance of assessing the impact of initiatives on the incidence of MRSA.

NHS Ambulance Trusts

Mrs. Spelman: To ask the Secretary of State for Health if she will make a statement on her plans to re-structure NHS ambulance trusts. [24593]

Mr. Byrne: The Department published the outcome of a strategic review of the national health service ambulance services on 30 June 2005, "Taking Healthcare to the Patient: Transforming NHS Ambulance Services". The review, led by the national ambulance adviser, supported by a group of stakeholders, sets out how ambulance services can be transformed from a service focusing primarily on resuscitation, trauma and acute

care towards becoming a mobile health resource for the whole NHS—taking healthcare to the patient in the community.

The review will realise a range of benefits for patients; and staff including:

Patients will receive improved care, consistently receiving the right response, first time, in time.

More patients treated in the community, and potentially 1 million fewer unnecessary accident and emergency attendances

Greater job satisfaction for staff as they use additional knowledge and skills to care for patients

More effective and efficient use of NHS resources

Improvements in self care and health promotion.

In order to realise the vision and the benefits of "Taking Healthcare to the Patient-Transforming NHS Ambulance Services", ambulance trusts need to be of a size that enables appropriate investment in people and resources to underpin current and future services and enable the vision set out in the ambulance review to be delivered. We are therefore proposing that there should be fewer, bigger ambulance trusts and will be undertaking public consultation on these proposals this winter. These proposals will ensure resources are targeted to where they are most needed—improving patient care and supporting front-line services. A three-month statutory consultation on the reconfiguration of ambulance trusts is expected to commence early next month.

NHS Expenditure

Dr. Richard Taylor: To ask the Secretary of State for Health what percentage of the NHS budget was spent on administrative costs in *(a)* 1975 and *(b)* 1995; and what estimate she has made of the likely percentage after the full implementation of payment by results. [20360]

Mr. Byrne: National health service administrative cost expenditure was not collected prior to 1996–97. Payment by results does not introduce new administrative costs into the NHS but creates incentives for organisations to improve the efficiency of existing administrative functions.

Mr. Amess: To ask the Secretary of State for Health what the spending on the national health service in England *(a)* in cash terms, *(b)* adjusted for retail price inflation and *(c)* adjusted for inflation in NHS costs has been in each year since 1975. [20167]

Mr. Byrne: The required run of national health service expenditure figures is shown in the table.

NHS total net expenditure: England—1975–76 to 2004–05 (2004–05 prices)

£ billion

		Net NHS expenditure actual[1]	*Net NHS expenditure 2004–05 prices*	*Net NHS expenditure adjusted by HCHS pay and price inflation*
Cash[2]				
1975–76	Outturn	4.413	23.401	22.783
1976–77	Outturn	5.032	23.529	23.448
1977–78	Outturn	5.555	22.862	23.918
1978–79	Outturn	6.273	23.258	23.556
1979–80	Outturn	7.447	23.635	22.914
1980–81	Outturn	9.700	26.051	24.051
1981–82	Outturn	10.854	26.617	26.941
1982–83	Outturn	11.819	27.070	27.214
1983–84	Outturn	12.494	27.359	27.227
1984–85	Outturn	13.407	27.899	27.749
1985–86	Outturn	14.176	27.984	28.121
1986–87	Outturn	15.173	29.028	27.993
1987–88	Outturn	16.668	30.206	29.390
1988–89	Outturn	18.420	31.198	30.181
1989–90	Outturn	19.855	31.395	31.635
1990–91	Outturn	22.326	32.740	32.476
1991–92	Outturn	25.353	35.063	33.769
1992–93	Outturn	27.968	37.488	36.182
1993–94	Outturn	28.942	37.827	37.517
1994–95	Outturn	30.590	39.376	38.967
1995–96	Outturn	31.985	40.048	39.703
1996–97	Outturn	32.997	39.906	40.151
1997–98	Outturn	34.664	40.718	41.059
1998–99	Outturn	36.608	41.914	41.387
1999–2000	Outturn	39.681	44.780	43.648
RB stage one[3]				
1999–2000	Outturn	40.201	45.139	
2000–01	Outturn	43.932	48.691	47.396
2001–02	Outturn	49.021	53.022	51.856
2002–03	Outturn	54.042	56.653	56.256
RB stage two[4,5]				
2003–04	Outturn	63.001	64.339	
2004–05	Outturn	69.710	69.710	69.486

Notes:

1. Expenditure pre 1999–2000 is on a cash basis.
2. Expenditure figures from 1999–2000 to 2002–03 are on a stage one resource budgeting basis.
3. Expenditure figures from 2003–04 to 2004–05 are on a stage two resource budgeting basis.
4. The resource budgeting stage two actual net expenditure figures shown for 2003–04 to 2004–05 are consistent with the 2005 departmental report.
5. Figures are not consistent over the period (1971–72 to 2004–05); hence no comparisons should be made across different periods.
6. Table is based on 2004–05 prices using the gross domestic product deflator series as at 28 September 2005.
7. Hospital and Community Health Services (HCHS) pay and price inflation is a weighted aveage of two separate inflation indices, the pay cost index (PCI) and the health service cost indes (HSCI). Up to and including 1984–85, pay inflation was calculated using the pay settlements. From 1985–86 the PCI measures pay inflation in the HCHS. The PCI is itself a weighted average of increases in unit staff costs for each of the staff groups within the HCHS sector. Pay cost inflation tends to be higher than pay settlement inflation, because of an element of pay drift within each staff group. Pay drift is the tendency for there to be a gradual shift up the incremental scales, and is additional to settlement inflation.
8. The HSCI is calculated monthly to measure the price change for each of 41 sub-indices of goods and services purchased by the HCHS. The sub-indices are weighted together according to the proportion of total expenditure which they represent to give the overall HSCI value. The pay cost index and the health service cost index are weighted together according to the proportion of HCHS expenditure on each. This provides an HCHS combined pay and prices inflation figure.

NHS Trusts

Tim Farron: To ask the Secretary of State for Health how many NHS trusts in England are *(a)* in deficit and *(b)* in surplus; and what the aggregate financial position is of all NHS trusts in England. [24618]

Mr. Byrne: The 2004–05 audited financial position of all national health service organisations (strategic health authorities, primary care trusts and NHS trusts) is available in the Library. It is also available on the Department's website at: www.dh.gov.uk/PublicationsAndStatistics/FreedomOfInformation/ClassesOfInformation/fs/en

This information includes those NHS trusts that ended 2004–05 with an underspend and those NHS trusts that reported an overspend.

NHS Staff (Overseas Recruitment)

Mr. Baron: To ask the Secretary of State for Health how many *(a)* nurses and midwives and *(b)* doctors have been recruited through bilateral agreements or memoranda of understanding with (i) India, (ii) Indonesia, (iii) the Philippines, (iv) South Africa, and (v) Spain in each year that such agreements and memoranda have been in operation. [26858]

Mr. Byrne *[holding answer 10 November 2005]:* We have bilateral agreements or memoranda of understanding with India, Indonesia, Philippines, South Africa and Spain. The numbers of doctors and nurses registering with the General Medical Council (GMC) and Nursing and Midwifery Council (NMC) in each year that such agreements and memoranda have been in operation are shown in tables 1 and 2.

Table 1: Doctors, including specialist registrars, general practitioners and junior doctors registered with the GMC

	Year of registration			
Country	*2001*	*2002*	*2003*	*2004*
India	n/a	1,892	2,985	3,643
Indonesia	n/a	0	0	1
Philippines	n/a	8	17	16
South Africa	n/a	n/a	3,204	4
Spain	88	115	121	107

Table 2: Nurses registered with the NMC

	Year of registration			
Country	*2001*	*2002*	*2003*	*2004*
India	n/a	1,352	2,655	3,709
Indonesia	n/a	0	5	1
Philippines	n/a	4,361	4,747	2,898
South Africa	n/a	n/a	1,878	1,202
Spain	374	197	308	220

Note:
These tables relate to registration and therefore do not identify where the individual was employed or even if the individual secured employment in the United Kingdom.

Nurses

Mr. Ruffley: To ask the Secretary of State for Health how many nurses per 100 beds there have been in *(a)* England and *(b)* the West Suffolk hospital in each year since 1997. [25073]

Mr. Byrne: The information requested is shown in the table.

NHS hospital and community health services: Qualified Nursing, Midwifery and Health Visiting Staff in England and West Sussex Hospitals NHS Trust as at 30 September

Headcount

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*
England								
Qualified nurses	300,467	304,563	310,142	316,752	330,535	346,537	364,692	375,371
Number of beds	193,625	190,006	186,290	186,091	184,871	183,826	184,207	181,772
Nurses per 100 beds	155	160	166	170	179	189	198	207
RGR—West Suffolk Hospitals NHS Trust								
Qualified nurses	688	612	719	728	832	860	1,001	1,013
Number of beds	713	673	664	687	679	638	676	631
Nurses per 100 beds	96	91	108	106	123	135	148	161

Note:
Nurses per 100 bed figures are rounded to the nearest whole number.
Source:
Health and Social Care Information Centre Non-Medical Workforce Census Department of Health form KH03

Nutrition

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 24 October 2005, ref 18939, concerning nutrition in care homes, what issues were discussed with the nutritional advisory group. [22366]

Mr. Byrne: I understand from the Chair of the Commission for Social Care Inspection (CSCI) that the range of issues the Commission has discussed with the Nutritional Advisory Group for the Elderly (NAGE) is as follows.

Joint working between CSCI and NAGE.

Reviewing and updating guidance, on the management of nutrition and dietary care for people in care homes.

When providers should seek expert advice on the nutritional and dietary needs of the people they care for.

Arrangements for continued liaison between NAGE, local national health service dieticians and CSCI.

Obesity

Dr. Cable: To ask the Secretary of State for Health how much has been spent by her Department on

advertising the effects obesity has on causing *(a)* hypertension, *(b)* diabetes and *(c)* cardiovascular disease in each of the last five years for which figures are available. [18334]

Caroline Flint: The message that obesity is a major contributor to coronary heart disease, stroke and type two diabetes, is highlighted in the Chief Medical Officer's report "At least Five a Week" and "Choosing Health", the White Paper. Both reports emphasise the importance of healthy eating and participating in regular physical activity in order to remain healthy.

Reducing obesity is one of the six overarching priorities in the White Paper, which sets out a comprehensive plan of action including curbs on marketing. Current action to tackle obesity includes further restrictions on food promotion to children, the reform of the welfare food scheme into healthy start, the healthy schools programme, the 5 A DAY programme and the school fruit and vegetable scheme.

Andrew Rosindell: To ask the Secretary of State for Health what steps she is taking to tackle obesity in *(a)* children and *(b)* adults. [25096]

Caroline Flint: Reducing obesity is one of the six overarching priorities of the "Choosing Health" White Paper, published in November 2004. In July 2004, the Government set a public service agreement (PSA) target to halt the year-on-year increase in obesity among children under 11 by 2010 in the context of a broader strategy to tackle obesity in the population as a whole.

The White Paper delivery plan, Delivering "Choosing Health: making healthier choices easier", together with discrete plans focusing on nutrition, "Choosing a Better Diet a food and health action plan" and physical activity, Choosing Activity: a physical activity action plan" published in March 2005 set out how the White Paper commitments will be delivered and how they will contribute to delivery of the obesity target.

Specific action will include:

Campaigns—to raise awareness;

Labelling—including better signposting of food;

Food Promotion-restrictions on marketing of unhealthy food to children;

Work with Industry—to encourage more healthy processed foods;

Children and young people—including action on school and physical activity; and

Action in the national health service—more effective practical action to manage, prevent and treat obesity.

Patient Choice

Tony Baldry: To ask the Secretary of State for Health what assessment she has made of the likely impact on choice and plurality within the NHS of the policy set out in Commissioning a patient-led NHS; and if she will make a statement. [20394]

Mr. Byrne: To give patients choice, especially in areas of significant health inequalities, we need to encourage innovation and new models of provision and commission services from providers who can prove to be more responsive to patients' needs and expectations. By strengthening the commissioning function of primary care trusts (PCTs) through Commissioning a patient-led NHS, we are further enabling them to achieve these important aims.

Any proposed changes to the local provision of primary and community healthcare services will be subject to full local consultation and be based on PCT decisions taken locally.

Pennine Acute Hospital Trust

Paul Rowen: To ask the Secretary of State for Health what her estimate is of *(a)* the cost of implementation and *(b)* the capital investment required for each of the five options for the Pennine Acute Hospital Trust under the Healthy Futures Site Options reconfiguration exercise. [28465]

Mr. Byrne *[holding answer 14 November 2005]:* The cost of implementation and the capital investment required for the three (not five) options of the reconfiguration of health services in the North East sector of Greater Manchester, known as healthy futures, is not yet available. Full details of the costs of all the options, capital and revenue, are due to be published in the formal consultation document which is due to be issued on 7 December and will be made available on the website at: www.bestforhealth.nhs.uk

Paul Rowen: To ask the Secretary of State for Health (1) what the future capital investment programme is for the Pennine Acute Hospital Trust; [28466]

(2) what capital investment has taken place since 1997 in each of the hospitals that make up the Pennine Acute Hospital Trust. [28469]

Mr. Byrne *[holding answer 14 November 2005]:* This is a matter for the Pennine Acute Hospital Trust. The information requested can be obtained from the trust and the Greater Manchester Strategic Health Authority.

Paul Rowen: To ask the Secretary of State for Health what income has been obtained from the sale of surplus land and property in the hospitals that make up the Pennine Acute Hospital Trust since 1997. [28467]

Mr. Byrne *[holding answer 14 November 2005]:* The information requested is not held centrally.

Policy Development

Mr. Gordon Prentice: To ask the Secretary of State for Health how many *(a)* focus groups and *(b)* other public consultation meetings to help develop and refine policy on health her Department has commissioned in the last year; what the cost was of each; and if she will make a statement. [24401]

Jane Kennedy: The information requested could be provided only at disproportionate cost.

The Department is committed to consulting and involving the public so as to help develop and refine policy. Focus groups and other public consultation meetings are used when these represent an economical, efficient and effective means to achieve this end.

School Nurses

Tim Loughton: To ask the Secretary of State for Health (1) what estimate her Department has made of the optimum number of school nurses in England; [24249]

(2) how many school nurses are practising; [24250]

(3) how many school nurses work *(a)* part time and *(b)* full time; [24251]

(4) in how many schools on average each *(a)* full-time and *(b)* part-time school nurse practises; [24252]

(5) how many school nurses have been in practice in each year since 1997. [24254]

Mr. Byrne: The majority of school nurses are currently employed and managed by the local national health service primary care trust (PCT). They were counted fully for the first time in the September 2004 NHS workforce census, which showed that there were 2,409 qualified nurses working in school nursing, of whom 856 were qualified school nurses. The next count will be available from the September 2005 census. Information on numbers of school nurses employed in the NHS working part time and full time is shown in the table.

We are providing new funding so that by 2010 every PCT, working with children's trusts and local authorities, will be resourced to have at least one full-time, year-round, qualified school nurse working with each cluster or group of primary schools and the related secondary school, taking account of health needs and school populations.

Information is not collected centrally on the number of schools in which each school nurse practises.

NHS hospital and community health services: qualified nurses working in school nursing by nature of contract in England by headcount as at 30 September 2004

headcount

	Total	*Full time*	*Part time*	*Bank*
Qualified nurses working in school nursing	2,409	313	2,058	38
of which

Department of Health Non-Medical Workforce Census 2004

Smoking

Mr. Lansley: To ask the Secretary of State for Health what model was used to determine the costs and benefits of options one to four for banning smoking in enclosed public places contained within the partial regulatory impact assessment on the smoke free aspect of the Health Bill. [25271]

Caroline Flint: Paragraph 28 of the partial regulatory impact assessment sets out details of the methodology followed for assessing the costs and benefits, which are discussed in more detail in the published economic paper, "Smoke free public places-a report to the Chief Medical Officer" is available on the Department's website:

www.dh.gov.uk/asset/Root/04/10/27/66/04102766.pdf.

A copy of the paper is available in the Library.

Social Services

Mr. Lansley: To ask the Secretary of State for Health what plans she has to develop a national tariff for social care services. [23098]

Mr. Byrne: Payment by results (PbR) is being implemented to regulate the way money flows around the national health service; to provide the right balance of incentives to reward good performance, to support sustainable reductions in waiting times for patients, and to make the best use of available capacity. We currently have no plans to substitute PbR for the Best Value regime that governs local authority contracting.

Mr. Burstow: To ask the Secretary of State for Health under what legal powers local authority social services departments establish panels of elected members to make decisions about the funding of care packages and placements. [22472]

Mr. Byrne: It is for each local authority to organise its decision-making processes as it thinks best in accordance with the procedures for local government decision making laid down in local government legislation.

Where a local authority has in place executive arrangements, any function, which is the responsibility of the executive, must be discharged in accordance with sections 14, 15 or 16 of the Local Government Act 2000, depending on the type of executive arrangements in place, and regulations made under section 18 to 20 of the Local Government Act 2000.

Section 101 of the Local Government Act 1972, allows a local authority to arrange for the discharge of any of their functions, which are the responsibility of the full council by a committee, sub-committee or officer of the authority.

Tamiflu

Steve Webb: To ask the Secretary of State for Health whether her Department is involved in negotiations with Roche to speed up manufacturing of Tamiflu; and if she will make a statement. [22090]

Caroline Flint: Officials have been in regular contact with Roche and the company has recently agreed to bring forward the delivery date from December 2006 to September 2006. We will continue to work very closely with them over the course of the deliveries.

Travel Costs

Steve Webb: To ask the Secretary of State for Health what estimate she has made of the additional cost of claims under the hospital travel costs scheme arising from her patient choice policy; and whether relatives will be able to claim under the scheme for long distance visits to patients in hospital. [25541]

Ms Rosie Winterton: The hospital travel cost scheme is a statutory scheme for people on low incomes. The Department does not collect information on the cost of the scheme.

Visitors are not eligible for assistance under the scheme.

Velcade

Richard Burden: To ask the Secretary of State for Health if she will make a statement on the progress of the fast track referral to the National Institute for Health and Clinical Excellence of velcade for the treatment of multiple myeloma. [24550]

Jane Kennedy: Velcade for multiple myeloma was referred to the National Institute for Health and Clinical Excellence (NICE) on 20 July 2005. Velcade will be one of the first drugs to be appraised using NICE'S new Single Technology Appraisal process, which will allow guidance to be issued shortly after any licence is granted.

Veterans (Noise-induced Hearing Loss)

Mr. Kemp: To ask the Secretary of State for Health what medical and scientific research her Department has commissioned to support the use of 50 decibels as the threshold for veterans claiming compensation for noise-induced hearing loss as a result of their military service; and if she will re-assess this threshold. [25894]

Mr. Touhig: I have been asked to reply.

Neither the Ministry of Defence, which is responsible for veterans' matters, nor the former Department of Social Security, which was responsible for the War Pensions Scheme until 2001 and remains responsible for the related civilian Industrial Injuries Scheme, have commissioned medical or scientific research on this issue. However, the Government's approach to noise-induced sensorineural hearing loss assessment is based on contemporary scientific evidence and understanding. This has been confirmed in recent years by several reviews carried out by independent audiological experts including an Industrial Injuries Advisory Council review which confirmed the appropriateness of the threshold in November 2002. Any change to our approach would need to result from further medical and scientific evidence.

HOME DEPARTMENT

Air Weapons

Rosie Cooper: To ask the Secretary of State for the Home Department how many incidents of violence involving the use of air weapons there were in West Lancashire in the last year for which figures are available. [27685]

Hazel Blears: Lancashire police recorded 23 violent offences involving the use of air weapons during 2003–04. The corresponding figure for West Lancashire is not available centrally.

Antisocial Behaviour

Mr. Beith: To ask the Secretary of State for the Home Department pursuant to the answer of 2 November 2005, *Official Report*, column 1103W, on antisocial behaviour, what the role is of the head of the antisocial behaviour unit in implementing the policies set out in the answer; and what the reasons were for the time taken to reply to the question. [29023]

Hazel Blears *[holding answer 16 November 2005]:* The Government's Co-ordinator for Respect (formerly National Director of the antisocial behaviour unit), is responsible for driving forward the Government's Respect agenda including: supporting the work on neighbourhood policing, police reform and alcohol and violent crime strategies. An action plan setting out our plans will be published by the turn of the year.

Unfortunately, performance data in respect of your Parliamentary Questions (PQs) is not available. I am sorry you did not receive a more prompt reply to your question. Ministers and officials make every effort to answer questions substantively in accordance with performance guidelines. However this is not always possible. I have asked those responsible for oversight of the Department's PQs to look at how we can improve our performance.

Rosie Cooper: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in West Lancashire in each year since they were introduced. [27694]

Hazel Blears: A table giving a breakdown by the local government authority area in which prohibitions are imposed within antisocial behaviour orders (ASBOs) is available on the Crime Reduction website at www.crimereduction.gov.uk. This table gives data by year since ASBOs were introduced.

Anti-terrorism Legislation

Mr. Mullin: To ask the Secretary of State for the Home Department how many people have been *(a)* detained and *(b)* arrested under powers in anti-terrorism legislation and subsequently (i) released without charge or (ii) not charged with an offence relating to terrorism in (A) each of the five years up to the end of 2004 and (B) in the first nine months of this year. [18605]

Mr. Charles Clarke: Section 45(4) of the Terrorism Act 2000 confers the power to detain a person only for the amount of time reasonably required to conduct a search authorised by virtue of section 44 of the Act. Records for stops and searches carried out under these powers and subsequent arrests under anti-terrorism legislation are shown in the following table.

No information is collated centrally on the charges arising from these particular arrests subsequent to the use of stop and search powers.

Total stops and searches under section 44 for the financial year 2004–05 will be published in December this year. Data for the financial year 2005–06 will be published in December 2006.

Detention under anti-terrorism legislation is also provided for following an arrest under section 41 of the Terrorism Act 2000. Figures available show that between 11 September 2001 and 30 September 2005, 895 people were arrested under this power. Of these, 138

were charged with offences under the Terrorism Act. The remainder were either released without charge or dealt with under other legislation.

	Stops and searches	*Arrests*
1999-2000	[1]1,900	1
2000-01	[2]6,400	1
2001-02	[2]10,200	20
2002-03	[3]32,100	18
2003-04	[3]33,800	19

[1] Conducted under sections 13A and 13B of the Prevention of Terrorism (Temporary Provisions) Act 1989, which preceded powers under section 44 of the Terrorism Act 2000.
[2] Conducted under 13A and 13B of the Prevention of Terrorism (Temporary Provisions) Act 1989, and section 44 of the Terrorism Act 2000.
[3] Under section 44.

Arrestee Survey

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on the findings of the Arrestee Survey referred to on page 102 of the 2005 Departmental Report. [26656]

Paul Goggins: The findings of the Arrestee Survey are not yet available. The results from the first year of the survey will be published shortly and will be made available on the Home Office website and a copy placed in the Library.

Rosie Cooper: To ask the Secretary of State for the Home Department how much has been allocated to fund antisocial behaviour orders in West Lancashire in 2005. [28141]

Hazel Blears: We do not allocate any funding for antisocial behaviour orders. (ASBOs) are obtained from courts on application from local agencies and it is the responsibility of these agencies, in accordance with partnership working arrangements, to meet any associated costs.

Asylum and Immigration

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what plans the Department has to re-evaluate the cost-effectiveness of legal assistance for asylum seekers. [29501]

Bridget Prentice: I have been asked to reply.

The arrangements for providing publicly funded legal services for asylum seekers are subject to monitoring and review to ensure that they remain effective and provide value for money for the taxpayer.

Review and evaluation work is being undertaken currently on the reforms of legal aid introduced in April 2004, on the Immigration and Asylum Accreditation Scheme introduced as part of the April 2004 reforms, and on the arrangements for the review and reconsideration of appeal decisions made by the Asylum and Immigration Tribunal that were introduced in April 2005.

Mr. McGrady: To ask the Secretary of State for the Home Department if he will ensure that decisions to detain asylum seekers *(a)* are automatically and regularly reviewed as to lawfulness, necessity and appropriateness by a court or similar independent body and *(b)* are accompanied by the provision of legal aid; and if he will ensure that alternative non-custodial measures are considered before resorting to detention. [29516]

Mr. McNulty: Immigration detention is used sparingly and for the shortest period necessary. In all cases all reasonable alternatives to detention must be considered before detention is authorised.

All detention is subject to administrative review at regular intervals. Further, we are satisfied that access to judicial review and habeas corpus provide sufficient means by which the lawfulness of detention may be challenged.

Measures to bring asylum legal aid under effective control and to cut unnecessary expenditure were implemented by the Government in April 2004. These new measures were introduced to ensure that funding is concentrated only on meritorious cases, to improve the control of costs and to introduce a system of quality assurance for suppliers of immigration legal advice.

Mr. McGrady: To ask the Secretary of State for the Home Department if he will seek a statutory prohibition on the detention of *(a)* vulnerable and *(b)* ill asylum seekers. [29528]

Mr. McNulty: It is already the case that certain persons are normally considered suitable for detention in only exceptional circumstances. Elderly persons, pregnant women, those suffering from serious medical conditions or who are otherwise mentally ill and those where there is independent evidence to show that they have been tortured would be included among those persons who would usually be considered unsuitable for detention. Detaining officers will always consider on a case by case basis whether detention is appropriate in any particular case. There is health care provision at all removal centres and the needs of detainees who require medical attention are addressed.

Daniel Kawczynski: To ask the Secretary of State for the Home Department how many Libyan asylum seekers are in the United Kingdom. [24296]

Mr. McNulty: Information on the total number of Libyan asylum seekers currently in the UK is not available. This could be obtained only at disproportionate cost. Some applicants may leave the United Kingdom without informing the Immigration Service.

E-borders and ID cards will enable us to monitor this more precisely in the future.

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department what information he collects on the treatment in their country of origin of failed asylum seekers who were Christian converts from Islam and are returned to Islamic countries; and if he will make a statement. [24818]

Mr. McNulty: The Home Office collects information from a wide range of sources about conditions in the countries of origin of asylum seekers. This country of origin information (COI) focuses on the main issues raised in asylum and human rights applications. Where relevant, the COI regarding Islamic countries covers the treatment and legal position of failed asylum seekers, Christians and converts to Christianity. We do not routinely monitor the treatment of individuals once

removed from the UK. But any specific allegations of ill-treatment of returned failed asylum seekers are followed up through the Foreign and Commonwealth Office and with those Non Governmental Organisations (NGOs) operating within the country concerned.

Mr. Holloway: To ask the Secretary of State for the Home Department how many failed Zimbabwean asylum seekers are awaiting deportation. [28627]

Mr. McNulty: This information is not available.

Published statistics on immigration and asylum issues are available on the Home Office's Research Development and Statistics website:

http://www.homeoffice.gov.uk/rds/immigration1.html

Andrew Rosindell: To ask the Secretary of State for the Home Department how many illegal immigrants have been caught trying to enter the UK through Tilbury Docks in each of the last 10 years. [27123]

Mr. McNulty: In recent times there have been no recorded clandestine arrivals at Tilbury, other than stowaways. The last clandestine arrival recorded was in 2003.

Between 1996 and 2003 there have been on average 45 cases per year, where passengers have been subject to further examination on board vessels at Tilbury. Cases have decreased to an average of 10 per year in 2004 and 2005, as a result of increased security.

Adam Afriyie: To ask the Secretary of State for the Home Department what measures the Government are taking to regulate immigration. [24094]

Mr. McNulty: We have already made significant improvements to the regulation of immigration to the United Kingdom by:

expanding our juxtaposed controls, (the establishment of frontier control zones in key locations overseas to enable UK Immigration Officers to consider and decide the admissibility of passengers prior to embarkation for the UK);

the deployment of new detection technology at Continental ports, and

the expansion of our airline liaison network overseas.

These measures have had a significant impact both on deterring illegal immigration and reducing asylum intake.

In our five-year strategy we announced our intention to further improve border controls through initiatives such as a further expansion of the airline liaison network and the introduction of iris biometric automated gates at our major ports. Also, all visa applicants will be fingerprinted by 2008, and pre boarding checks of all persons entering and leaving the UK will be introduced through the e-borders programme. e-Borders will also deliver timely data, information, intelligence and risk assessments to relevant Government agencies on all passengers seeking to enter or leave the UK.

The five-year strategy also proposed that a point-based system should be introduced to facilitate migration beneficial to the UK economy while helping to maintain the protection and security of the public through:

being clearer and more transparent and easier for applicants, employers and educational institutions to understand and use objective and easily verifiable criteria;

allowing applicants to self-assess online to decide whether they have enough points to make an application;

supporting our ongoing efforts to tackle abuse, so that the public and genuine migrants can have confidence in the immigration system;

developing the principle that those who benefit from migration should help us maintain its integrity through the introduction of sponsorship as integral to the workings of the new system.

Cannabis

Tim Loughton: To ask the Secretary of State for the Home Department what estimate he has made of the prevalence of cannabis use by *(a)* adults and *(b)* minors in England in each of the last 10 years. [28445]

Paul Goggins: Estimates of cannabis use among the adult population in England and Wales are available from the British crime survey, which has included a consistent self completion module of questions on illicit drug use since 1996. The figures for cannabis use since 1996 are shown in the table. The latest published figures for 2004–05 show cannabis use in the last year was reported by 9.7 per cent. of 16 to 59-year-olds, a statistically significant decrease compared with the previous year. Estimates of drug use among minors are available from the survey of smoking, drinking and drug use among secondary schoolchildren in England. Comparable estimates of drug use are available from 2001 to 2004. The level of cannabis use in the last year among the 11 to 15-year-olds in this survey remained stable at 13 per cent. between 2001 and 2003 before declining to 11 per cent. in 2004.

16 to 59-year-olds reporting cannabis use in the year before interview from the British crime survey

	Percentage
1996	9.5
1998	10.3
2000	10.5
2001–02	10.6
2002–03	10.9
2003–04	10.8
2004–05	9.7

Chief Constables

Mark Pritchard: To ask the Secretary of State for the Home Department what his policy is on the replacement of retiring police chief constables. [24748]

Hazel Blears: The general policy for the replacement of retiring police chief constables is in line with section four of the Home Office guidance on the appointment process of chief police officers (available on the Home Office Police website at http://police.homeoffice.gov.uk/trainingandcareerdevelopment/index.html/chiefofficerrecruit.html/) and section 11 Police Act 1996.

In his capacity as chair of the Senior Appointments Panel (a tri-partite body which advises me in the exercise of my role in approving chief police officer appointments) Sir Ronnie Flanagan, Her Majesty's Chief Inspector of Constabulary, recently wrote to police authorities addressing the implications of Her Majesty's Inspectorate of Constabulary's 'Closing the Gap' report on the current structure of policing. The

letter presented the panel's view that, except where specific approval had already been granted, the common sense approach would be to advise police authorities not to proceed with existing or future plans to recruit new chief constables and accordingly sought their support in maintaining a consistent approach in these exceptional circumstances. I am placing a copy of this letter in the Library.

Child Deaths in Custody

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what steps he is taking to reduce the number of child deaths in custody. [24291]

Fiona Mactaggart: The Home Office and the Youth Justice Board (YJB) are working closely together to prevent the deaths of young people held in their care. The YJB has funded a dedicated juvenile outreach team to assist juvenile establishments further develop and maintain their local suicide and self-harm prevention strategies. Nationally, there is a specific suicide prevention strategy for juvenile prisoners. This focuses on promotion of peer support through insider schemes; counselling, support groups and specialised psychological intervention for those who self-harm; vulnerability recognition; and child protection training. We continue to learn lessons from previous incidents to inform our strategies for the future. Suicide prevention work is also increasingly linked with the wider Safeguards Development Programme, as part of which safeguards managers and local authority social workers have been appointed at juvenile establishments, and there has been a programme of minor works across establishments to improve provision of safer and reduced risk accommodation and other built-environment improvements.

Child Offenders

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what steps he is taking to reduce the use of penal custody for child offenders. [26689]

Fiona Mactaggart: The Government firmly believe that young people should only be sent to custody as a last resort. We have made available to the courts strong community penalties, with more young offenders being intensively supervised in the community to help reduce re-offending. The Youth Justice Board is also committed to lowering the number of young people in custody and has a target to reduce the population of those remanded and sentenced to secure facilities by 10 per cent. by March 2008.

Rosie Cooper: To ask the Secretary of State for the Home Department how many children in West Lancashire under the age of 10 years would have been charged in the last 12 months if they had been over the age of criminality when they committed their misdemeanour. [27859]

Hazel Blears: The information requested is not collected centrally.

Chinese Official Visit

Harry Cohen: To ask the Secretary of State for the Home Department what assessment he has made of the policing of the protest during the official Chinese visit in October 1999 in preparation for the forthcoming state visit of the Chinese Premier; and if he will make a statement. [25035]

Paul Goggins: The policing of the state visits is an operational matter for the Commissioner of the Police of the Metropolis. He has confirmed that the Metropolitan police facilitated lawful assembly and legitimate protest during the state visit of the President of China from 8 to 10 November 2005.

Community Service

Mr. Ian Taylor: To ask the Secretary of State for the Home Department how many community-based projects for offenders sentenced to community service there are in Surrey. [27517]

Fiona Mactaggart: There are 249 probation supervised community-based projects for offenders sentenced to Unpaid Work in the Surrey Probation Area

Mr. Ian Taylor: To ask the Secretary of State for the Home Department how many non-completed community-based sentences there were in the last period for which figures are available. [27518]

Fiona Mactaggart: Information on the completion rates for the main types of community sentence, for each year since 1993, can be found in table 5.1 of the Home Office Statistical Bulletin: Offender Management Caseload Statistics 2003, a copy of which can be found in the Library.

Correspondence

Mr. Lidington: To ask the Secretary of State for the Home Department when he will reply to the letter of 6 July from the hon. Member for Aylesbury (Home Office reference M16069/5; IND reference K1195526) about the immigration status of Mrs. Y.B.K. of Aylesbury. [24835]

Mr. McNulty *[holding answer 7 November 2005]:* I wrote to the hon. Member on 3 November.

Mr. Lidington: To ask the Secretary of State for the Home Department when he will reply to the letter of 20 July from the hon. Member for Aylesbury (Home Office reference M17814/5 and P400744) about the immigration and asylum status of Mr. J. P. of Aylesbury. [24836]

Mr. McNulty *[holding answer 7 November 2005]:* I wrote to the hon. Member on 3 November.

Clare Short: To ask the Secretary of State for the Home Department when he will reply to the letter dated 5 July 2005 from the right hon. Member for Birmingham, Ladywood on behalf of Babo Yoro Ho ref Y1000875/B572069. [28442]

Mr. McNulty: The Immigration and Nationality Directorate (IND) wrote to my right hon. Friend on 14 November 2005.

Clare Short: To ask the Secretary of State for the Home Department when he will reply to the letter from the right hon. Member for Birmingham, Ladywood, dated 25 May, and acknowledged on 8 June, ref B10929/5, on behalf of Thabiso Tshuma T1052684. [28443]

Mr. McNulty: The Immigration and Nationality Directorate (IND) wrote to my right hon. Friend on 14 November 2005.

Clare Short: To ask the Secretary of State for the Home Department when the Minister of State for Immigration, Citizenship and Nationality will reply to the letters dated 18 July 2005, acknowledgement ref B16662/5, and 21 September 2005, not yet acknowledged, from the right hon. Member for Birmingham, Ladywood on behalf of Wajid Hussein H1105609. [28444]

Mr. McNulty: The Immigration and Nationality Directorate (IND) wrote to my right hon. Friend on 14 November 2005.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter dated 5 October from the right hon. Member for Manchester, Gorton, with regard to Mr. Oluyomi Akinola. [29107]

Mr. Charles Clarke: I wrote to my right hon. Friend on 15 November 2005.

Clare Short: To ask the Secretary of State for the Home Department when he will reply to the letter from the right hon. Member for Birmingham, Ladywood, of *(a)* 7 April 2005 on behalf of Honya Sharif, daughter of Nask Omar Abdulla (Home Office reference S1165302) and *(b)* 20 June 2005 on behalf of Idel Austin (Home Office reference C1016519). [29149]

Mr. McNulty: The information is as follows:

(a) The Immigration and Nationality Directorate wrote to my right hon. Friend on 27 September 2005 in response to my right hon. Friend's letter of 6 September 2005 regarding Honya Sharif. I am sorry that my right hon. Friend did not receive a reply to her letter of 7 April 2005.

(b) The Immigration and Nationality Directorate wrote to my right hon. Friend on 16 November 2005.

Clare Short: To ask the Secretary of State for the Home Department when the Immigration and Nationality Directorate will reply to the letter from the right hon. Member for Birmingham, Ladywood, of *(a)* 24 January 2005 on behalf of Rose Kalunga Nyota (Home Office reference number N1072499), *(b)* 5 July 2005 on behalf of Antelia Barrow (Home Office reference M1136710/ M136710, correspondence ref B15228/5) and *(c)* 19 July 2005 on behalf of Matoko Matoko (Home office reference M1169837, correspondence reference B16758/5). [29154]

Mr. McNulty: The information is as follows:

(a) The Immigration and Nationality Directorate wrote to my right hon. Friend on 18 April 2005.

(b) The Immigration and Nationality Directorate wrote to my right hon. Friend on 16 November 2005.

(c) The Immigration and Nationality Directorate wrote to my right hon. Friend on 16 November 2005.

Clare Short: To ask the Secretary of State for the Home Department when the Immigration and Nationality Directorate will reply to the letter from the right hon. Member for Birmingham, Ladywood, of *(a)* 20 July 2005 on behalf of Zobair Zobar (Home Office reference M1169298, correspondence reference B16804/5), *(b)* 9 August 2005 on behalf of Vincent Massaguoi (Home Office reference M1114924/2, correspondence reference B18798/5) and *(c)* 23 August 2005 on behalf of Evrard Lefunga Mbunzama (Home Office reference M1175103, correspondence reference B19997/5). [29155]

Mr. McNulty: The information is as follows:

(a) The Immigration and Nationality Directorate wrote to my right hon. Friend on 13 September 2005.

(b) The Immigration and Nationality Directorate wrote to my right hon. Friend on 16 November 2005.

(c) The Immigration and Nationality Directorate wrote to my right hon. Friend on 16 November 2005.

Clare Short: To ask the Secretary of State for the Home Department when the Immigration and Nationality Directorate will reply to the letter from the right hon. Member for Birmingham, Ladywood, of *(a)* 21 September 2005 on behalf of Mohammed Javadi (Home Office reference J1027716, correspondence reference B22390/5) and *(b)* 10 August 2005 on behalf of Sukria Osman Ali, wife of Mr. Fayaq (Home Office reference F1042572/2, correspondence reference B19083/5). [29156]

Mr. McNulty: The information is as follows:

(a) The Immigration and Nationality Directorate wrote to my right hon. Friend on 16 November 2005.

(b) The Immigration and Nationality Directorate wrote to my right hon. Friend on 16 November 2005.

Clare Short: To ask the Secretary of State for the Home Department when the Immigration and Nationality Directorate will reply to the letter from the right hon. Member for Birmingham, Ladywood, *(a)* of 21 June 2005 regarding Naila Rehman, Home Office ref. Q1012504, correspondence ref. B1419615, *(b)* of 29 July 2005 regarding Arelina Ngizambote, Home Office ref. N1081675, correspondence ref. B17949/5, and *(c)* of 9 August 2005 on behalf of Alice Ndayishimye Home Office ref. N180897/2. correspondence ref. B18792/5. [29158]

Mr. McNulty: The information is as follows:

(a) The Immigration and Nationality Directorate wrote to my right hon. Friend on 16 November 2005.

(b) The Immigration and Nationality Directorate wrote to my right hon. Friend on 16 November 2005.

(c) The Immigration and Nationality Directorate wrote to my right hon. Friend on 16 November 2005.

Clare Short: To ask the Secretary of State for the Home Department when he expects *(a)* to acknowledge and *(b)* to reply to the letter from the right hon. Member for Birmingham, Ladywood dated 28 June, Home Office reference 52289997. [29280]

Mr. McNulty: The Immigration and Nationality Directorate wrote to my right hon. Friend on 17 November 2005.

Council Tax Revaluation

Mrs. Spelman: To ask the Secretary of State for the Home Department what *(a)* advice and *(b)* guidance the Office of the Surveillance Commissioner provided to (i) the Valuation Office Agency (VOA), (ii) the Office of the Deputy Prime Minister and (iii) the Treasury in

relation to the conduct of the council tax revaluation by VOA inspectors; and if he will place copies in the Library. [26930]

Mr. Charles Clarke: The Office of Surveillance Commissioners has not given any advice or guidance, nor been asked to give any advice or guidance, in relation to conduct undertaken by the Valuation Office Agency (VOA) for the purpose of valuing properties for council tax. The Agency does not carry out surveillance of individuals and does not operate covertly, and its officers' always identify themselves as VOA officers when carrying out their duties.

Crime

Mike Penning: To ask the Secretary of State for the Home Department how many people convicted of crimes in Hertfordshire received a non-custodial sentence in each year since 1997, broken down by *(a)* ethnicity and *(b)* offence for which they were convicted. [25749]

Hazel Blears: Information taken from the Home Office Court Proceedings database on the number of people convicted for crimes who received a non-custodial sentence, by offence type, in Hertfordshire, 1997 to 2003 is in the table. Court statistics for 2004 will be available in late November.

Information on sentencing and ethnicity is also taken from the Home Office Court Proceedings database. The information for Hertfordshire has not been published centrally in the past due to the high number of persons whose ethnic appearance is classified as 'unknown'. However, some breakdown on ethnicity for Hertfordshire is scheduled to be published in 2004 statistics, which will be available from February 2006.

Number of offenders found guilty at all courts by offence type and sentenced to a non custodial sentence in Hertfordshire police force area, 1997 to 2003[1]

	1997		1998		1999		2000	
Offence type	*Found guilty*	*Non-custodial sentence*	*Found guilty*	*Non-custodial sentence*	*Found guilty*	*Non-custodial sentence*	*Found guilty*	*Non-custodial sentence*
Violence against the person	367	240	368	237	393	256	467	305
Sexual offences	70	24	51	17	49	22	63	21

[1] These data are basis on the principal offence basis

Mike Penning: To ask the Secretary of State for the Home Department how many criminal investigators there were in the Hertfordshire Police Force in each year since 1997; and if he will make a statement. [25800]

Hazel Blears: Information on the functions to which police officers are deployed is collected annually and is only available from March 2000. The deployment of officers to CID and other police functions is an operational matter for the Chief Constable of the Hertfordshire Constabulary (Mr. Frank Whiteley).

The number of CID officers in the Hertfordshire Constabulary are those staff mainly employed in plain clothes for the investigation of crime and who are not part of a specialist unit. More police officers are available to investigate crime with CID, but it is not

their primary policing role within force. Details of the number of CID officers in Hertfordshire Constabulary are set out in the table.

Hertfordshire Constabulary—CID strength since March 2000

As at 31 March:	*Number of CID officers*
2000	207
2001	202
2002	205
2003	280
2004	318
2005	293

Notes:
1. Data for 2000–02 was collected annually by HM Inspectorate of Constabulary
2. Data from 2003 is collected by Home Office Research, Development and Statistics Directorate annually

Mike Penning: To ask the Secretary of State for the Home Department if he will provide additional resources to Hertfordshire police. [25807]

Hazel Blears: Hertfordshire received a good settlement this year. General grants increased by 3.77 per cent. to £108.8 million. This is in line with the minimum increase of 3.75 per cent. increase guaranteed to all police authorities. Hertfordshire gained £4.7 million from our decision to provide funding floor of 3.75 per cent.

The authority has also received around £9.9 million for specific grants for initiatives such as the Neighbourhood Policing Fund, to support the recruitment of 24,000 community support officers across England and Wales by 2008, and for capital. Details of the provisional police funding settlement for 2006–07, and for 2007–08 as part of the move towards three-year settlements, will be announced in late November/early December.

Mike Penning: To ask the Secretary of State for the Home Department what steps the Government is taking to improve *(a)* community engagement and *(b)* neighbourhood policing in Hertfordshire; and if he will make a statement. [25816]

Hazel Blears: The Government are committed to every area in England and Wales benefiting from dedicated, visible, accessible and responsive neighbourhood policing teams by 2008. A key aim of these teams will be to build more effective engagement with the public. To support this, the Home Office and the Association of Police Authorities convened the National Practitioner Panel for Community Engagement in Policing.

The panel has created a Guide to Community Engagement which is a resource for all policing practitioners, and which contains both practical and strategic advice for practitioners who want to develop or improve their approach to engagement. The guide is supported by a database of case studies which showcases recent and ongoing work around the country, and encourages policing practitioners to network with, and learn from, their peers.

The Government are working closely with the Police Service to develop neighbourhood policing, initially within pathfinder areas. In Hertfordshire, this is the Eastern Area Basic Command Unit.

Mike Penning: To ask the Secretary of State for the Home Department what steps the Government are taking to tackle violent crime in Hertfordshire; and if he will make a statement. [25817]

Hazel Blears: The Government are currently taking forward a very full range of work which will continue to reduce violent crime.

In Hertfordshire, street crime, alcohol-related violence and disorder and domestic violence have been identified as priorities, with alcohol as a particular target. The 10 Crime and Disorder Reduction Partnerships have action plans in place at a local level, and additionally there are multi-agency Town Centre Crime Reduction Groups (for example in Watford and Hemel) which focus on violent crime in town-centres where the majority of it occurs. Strategies include enforcement of town-centre no-drinking zones, education within schools, licensed premises inspections, expansion of CCTV coverage and training for CCTV operators, enforcement of underage drinking laws and regular police public order patrols in town centres.

Nationally, there is a huge programme of work. We are, for example, introducing new measures which will give police and local communities the powers they need to tackle guns, knives and alcohol-related violence in the Violent Crime Reduction Bill which is currently before Parliament.

We have also introduced Racial and Religious Hatred Bill, which will make incitement of hatred against persons on the basis of their faith a criminal offence.

Domestic violence is a key priority. Our National Delivery Plan to tackle domestic violence provides support for victims, strengthens the Criminal Justice System to be more responsive to domestic violence cases, holds perpetrators to account and provides resettlement for victims and rehabilitation packages for perpetrators through end-to-end offender management and the concept of a whole sentence plan.

Mr. Vaizey: To ask the Secretary of State for the Home Department how many crimes in Oxfordshire were committed by people who had left the intensive supervision and surveillance programme in 2004–05. [24283]

Fiona Mactaggart: The number of crimes committed by people who had left the intensive supervision and surveillance programme is not collected centrally.

Daniel Kawczynski: To ask the Secretary of State for the Home Department how many alcohol-related crimes were recorded in Shrewsbury in each year since 2002. [29160]

Paul Goggins: The information requested is not collected centrally. It is not possible from the recorded crime statistics to identify those offences which are alcohol related.

Daniel Kawczynski: To ask the Secretary of State for the Home Department what percentage of young offenders re-offended in Shropshire in each year since 2002. [29162]

Fiona Mactaggart: Re-offending rates are not currently available on a regional basis.

Rosie Cooper: To ask the Secretary of State for the Home Department what the *(a)* levels of and *(b)* detection rates were for (i) violent crime, (ii) car crime, (iii) sexual crime, (iv) burglary and (v) robbery in West Lancashire constituency in the last year for which figures are available. [27693]

Hazel Blears: The available information relates to the number of offences recorded and the detection rates in the Lancashire Western Basic Command Unit (BCU) and is given in the table.

The introduction of the Sexual Offences Act 2003 in May 2004 resulted in substantial changes to the sexual offences. In particular, the redefining of the offences of exposure into the sexual offences group resulted in substantial increases in this category nationally.

Recorded crimes and detection rates in the Lancashire Western Basic Command Unit 2004–05

Offence type	*Number of offences*	*Detection rate (percentage)*
Violence against the person	6,661	58
Sexual offences[1]	328	38
Robbery	251	46
Violent crime	*7,240*	*57*
Domestic Burglary	1,153	25
Theft of a motor vehicle	787	26
Theft from a vehicle	1,527	14
Vehicle crime	*2,314*	*18*

[1] The Sexual Offences Act 2003, introduced in May 2004, altered the definition and coverage of sexual offences.

Criminal Cases Review Commission

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what upgrades are being made to the hardware and software elements of the Criminal Cases Review Commission's IT system. [21817]

Fiona Mactaggart: The Commission is currently engaged in a project to implement an electronic records management system. This will enable it to discharge its duties under the Public Records Act 1958, the Data Protection Act 1998 and the Freedom of Information Act 2000. The Office of Criminal Justice Reform has also recently agreed additional funding to maintain and approve the Criminal Cases Review Commission's (CCRC) data mining functionality. This is a retrieval system which enables the CCRC caseworkers to use experience gained in similar cases to reduce the time it takes to deal with new cases.

Criminal Injuries Compensation

Annette Brooke: To ask the Secretary of State for the Home Department (1) what the current average time is from the receipt of an application to the dispatch of an acknowledgement of that application from the Criminal Injuries Compensation Authority; [24709]

(2) what the current average time is from the receipt of an application to the payment of a successful claim by the Criminal Injuries Compensation Authority; [24710]

(3) what the current average waiting time is from application to a decision on whether compensation will be paid by the Criminal Injuries Compensation Authority. [24711]

Fiona Mactaggart *[holding answer 3 November 2005]:* The Criminal Injuries Compensation Authority (CICA) advise that for the period 1 April 2005 to 31 October 2005: the median average time from the receipt of an application to the dispatch of an acknowledgement of that application was nine days; the median elapsed time from receipt of an application to the issue of a decision on whether compensation would be paid (claims assessment stage) was 293 days; and that for cases finalised with a money award the median elapsed time between the receipt of an application for the particular stage of the process and the issue of the payment was: for the first (claims assessment) decision stage 352 days; for the formal review stage 254 days; and for the formal appeals stage (to the independent Criminal Injuries Compensation Appeals Panel) 462 days.

Criminal Justice Act

John Bercow: To ask the Secretary of State for the Home Department which of the sentencing provisions of the Criminal Justice Act 2003 have *(a)* been implemented and *(b)* not been implemented. [26653]

Fiona Mactaggart: All the provisions of part 12 of the Criminal Justice Act 2003 have been commenced apart from: section 151, which provides the court with an additional discretionary power for dealing with persistent petty offenders; sections 154 and 155, which provide for an increase in magistrates courts powers when imposing custodial sentences; sections 161 and 266, which make some amendments to pre-sentence drug testing and drug testing for offenders released on licence and extend the provisions to those aged 14 and over; section 181, which introduces a new custodial sentence of less than 12 months (custody plus) and all related provisions to this new sentence; sections 280–283, which provide for consequential amendments to penalties in relation to the increase in magistrates courts powers; section 298, which is related to the increase in the maximum sentence for some summary-only offences from six months to 51 weeks; section 300, which provides for the court to impose unpaid work or curfew on fine defaulters as an alternative to prison; and section 301, which provides for the court to disqualify a fine defaulter from driving for a period of up to 12 months as an alternative to custody.

Section 183, which provides for the new sentence of intermittent custody, has been commenced but the new sentence is being piloted and is only available at a number of specified courts.

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on progress in implementing the new contracts for electronic monitoring under the Criminal Justice Act 2003. [26655]

Fiona Mactaggart: New contracts for electronic monitoring came into operation on 1 April 2005 throughout the whole of England and Wales.

The contracts are independent of the Criminal Justice Act 2003, but are designed to work with its provisions for the use of electronic monitoring within the criminal justice system.

Cross-border Co-operation

Mr. Hayes: To ask the Secretary of State for the Home Department if he will make a statement on his position on the establishment of an EU grouping of cross-border co-operation, with particular reference to *(a)* the powers proposed for the grouping and *(b)* the treaty base under which the grouping is proposed. [23026]

Mr. McNulty: The 'Convention on the stepping-up of cross-border cooperation, particularly in combating terrorism, cross-border crime and illegal migration' (commonly referred to as the Prüm treaty) was signed in Prüm, Germany on 27 May 2005. The current contracting parties are Germany, Spain, France, Luxembourg, Netherlands, Austria and Belgium. The treaty is open to all EU member states to join if they wish to do so. The Home Office, in consultation with other Government Departments, is currently considering the treaty. The Government have not yet made a decision on whether the UK will accede to the treaty.

(a) The Prüm treaty does not propose any new powers for the contracting parties.

The treaty forms the basis for enhanced cross-border cooperation between the contracting parties, particularly the mutual exchange of information.

(b) The Prüm treaty does not require a treaty base. It is not made under either the treaty on European Union or the treaty establishing the European Community.

Departmental Skills Development Plan

Mr. Gibb: To ask the Secretary of State for the Home Department if he will place in the Library a copy of his Department's Skills Development Plan. [23864]

Mr. Charles Clarke: Skills Development Plans are internal working documents to help departments identify means of addressing skills gaps and are not meant for the public domain. Cabinet Office and DfES are looking at ways to publicise case studies resulting from this work.

Drug Intervention Programme

John Bercow: To ask the Secretary of State for the Home Department if he will list the areas to which the Drugs Intervention Programme is to be extended in 2005–06. [26659]

Paul Goggins: In April 2005, intensive elements of the Drug Interventions Programme (DIP) expanded to a further 33 police Basic Command Unit (BCU) areas with high levels of acquisitive crime. Intensive elements of the programme include testing for Class A drugs on charge for certain trigger offences. The 33 new BCUs build on what has already been achieved in the 64 earlier DIP-intensive BCUs and are listed.

Areas were selected on the basis of number of acquisitive crimes per 1,000 households and the need to harmonise, as far as possible, with other initiatives such as Street Crime and High Crack Areas.

The DIP programme provides a route out of crime and into treatment for drug misusing offenders, using their contact with the Criminal Justice System as an opportunity to engage them in treatment and support. The key elements of DIP are delivered in all areas of England and are presently being rolled out in Wales.

Acquisitive crime—to which drug related crime makes a substantial contribution—is going down and fell by 12 per cent. in the year to April 2005.

BCU name	*DAT area*	*Police force*
Barnsley	Barnsley	South Yorkshire
Brownhills (West Mids H2)	Walsall	West Midlands
Bury	Bury	GMP
Cardiff	Cardiff	South Wales
Coventry Centre (West Mids M1)	Coventry	West Midlands
Coventry NE (West Mids M2)	Coventry	West Midlands
Coventry SE (West Mids M3)	Coventry	West Midlands
Dewsbury	Kirklees	West Yorkshire
Dudley (West Mids J1)	Dudley	West Midlands
Enfield	Enfield	Met
Gateshead	Gateshead	Northumbria
Greenwich	Greenwich	Met
Halesowen (West Mids J2)	Dudley	West Midlands
Hounslow	Hounslow	Met
Huddersfield	Kirklees	West Yorkshire
Kings Heath (West Mids E2)	Birmingham	West Midlands
Newport	Newport	Gwent
Oxford	Oxfordshire	Thames Valley
Redbridge	Redbridge	Met
Rotherham	Rotherham	South Yorkshire
Solihull (West Mids L)	Solihull	West Midlands
Stockport	Stockport	GMP
Sutton Coldfield (West Mids D2)	Birmingham	West Midlands
Swansea	Swansea	South Wales
Wakefield	Wakefield	West Yorkshire
Walsall (West Mids H1)	Walsall	West Midlands
Wednesfield (West Mids G2)	Wolverhampton	West Midlands
West Bromwich (West Mids K1)	Sandwell	West Midlands
Wigan	Wigan	GMP
Wolverhampton (West Mids G1)	Wolverhampton	West Midlands

Drug/Driving Offences

Mr. Duncan: To ask the Secretary of State for the Home Department what drugs are most commonly involved in convictions for driving while under the influence of drugs. [28308]

Paul Goggins: Information held centrally on the Home Office Court Proceedings database does not identify separately the types of drugs involved in convictions for drug driving. There are, however, data for England and Wales which relate to drug tests processed in drug driving cases by the Forensic Science Service between April 2000 and March 2004. These show the following drugs were indicated as present in the following frequencies: Cannabis 72 per cent; Benzodiazepines 35 per cent; Opiates 30 per cent; Cocaine 30 per cent; Amphetamines 17 per cent; and Methadone 9 per cent. The figures are for polydrug use and therefore add up to more than 100 per cent.

Drug-related Crime

Andrew Rosindell: To ask the Secretary of State for the Home Department what the Government's policy is on tackling the link between drug addiction and shoplifting. [21063]

Paul Goggins: Individuals who are charged with theft—which includes shoplifting—in the 97 areas with the highest levels of acquisitive crime are tested for Class A drugs as a part of the Government's Drug Interventions Programme (DIP). Drug testing is one of a number of interventions aimed at identifying drug misusing offenders and persuading them to engage in drug treatment and support.

The Drug Interventions Programme continues to have a positive impact in communities not only by the interventions that it offers but also by delivering a more integrated approach by local agencies to the problems of offenders. Since the programme began, over 29,000 offenders from DIP intensive areas have entered treatment. Acquisitive crime—to which drug related crime (including theft) makes a substantial contribution—is going down and fell by 12 per cent. in the year to April 2005 compared with the previous 12 months.

Electronic Tagging

Mr. Lancaster: To ask the Secretary of State for the Home Department how many people in Milton Keynes who were tagged on early release from prison breached the rules governing their early release in each of the last five years. [20828]

Fiona Mactaggart: The number of prisoners who were released on the Home Detention Curfew scheme (HOC) from Her Majesty's Prison Woodhill who breached the rules governing their early release for each of the last five years is provided in the table. The area in which electronically tagged prisoners reside upon release is not recorded centrally.

Prisoners released on the HOC scheme from HMP Woodhill and those who were recalled, by year of release

	Discharged	*Recalled*[1]
2000	94	2
2001	38	2
2002	92	5
2003	204	25
2004	167	25

[1] Some recalls from HOC are due to the curfewee no longer being able to be monitored through no fault of their own. For example where he or she loses accommodation through no fault of their own.

EU Travel Bans

Mr. Hayes: To ask the Secretary of State for the Home Department pursuant to the answer to the hon. Member for Hemel Hempstead of 19 October 2005, *Official Report*, column 1033W, on EU travel bans, which agencies hold the information. [22583]

Mr. McNulty: The details of those people subject to EU travel bans are detailed on the European Union's website at the following link: http://europa.eu.int/comm/external_relations/cfsp/sanctions/measures.htm.

The Immigration and Nationality Directorate (IND) also hold this information.

Information relating to those who may have already entered the UK in breach of an EU travel ban could be obtained only at disproportionate cost.

Expert Evidence

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what reforms have been introduced to strengthen the quality and objectivity of expert evidence since 2001. [16464]

Fiona Mactaggart: A wide range of changes have been introduced or are under consideration to strengthen the quality and objectivity of expert evidence in the courts. Recent or current initiatives include the following:

Publication of a Code of Practice and a Code of Conduct for registered forensic pathologists have been issued.

A recent Home Office consultation exercise on the need for and possible approaches to quality regulation in forensic science.

The Chief Medical Officer, Sir Liam Donaldson, is due to report before the end of the year on the availability of medical expert witnesses to the courts.

A consultation exercise (which closed on 28 October) led by the Department for Education and Skills is consulting on proposals which reflect recommendations from the report by the Working Group led by Baroness Kennedy on Sudden Unexpected Death in Infancy (published September 2004).

The recent Legal Services Commission consultation paper on the Use of Experts, which included issues relating to the quality of experts.

By December 2005 the Crown Prosecution Service plans to produce guidance for expert witnesses on the importance of fair disclosure of all prosecution material, and the role of experts in the process. This guidance should strengthen the quality and objectivity of prosecution expert evidence in future cases.

The Criminal Procedure Rule Committee recently issued for consultation a set of draft rules on the management in court of expert evidence.

In September 2005 an Experts Protocol for the civil courts came into force, which gives guidance to experts and those who instruct them.

Fatal Driving Offences

Stephen Hammond: To ask the Secretary of State for the Home Department if he will take steps to introduce an offence of causing death by driving without due care and attention which would attract a greater penalty than the offence of driving without due care and attention. [24691]

Fiona Mactaggart: The Government published a consultation paper on the Review of Road Traffic Offences involving Bad Driving on 3 February 2005. The consultation period ended on 6 May 2005 this year and resulted in 185 responses from individuals and organisations and was the subject of 11 petitions.

The Government have now published a summary of that consultation and announced a number of proposals it wishes to take forward arising from the Review. These include a new offence of causing death by careless driving carrying a maximum penalty of five years imprisonment. A measure creating the new offence was tabled on 28 October in the House of Lords as an amendment to the Road Safety Bill currently before Parliament.

Firearms Certificates

Mike Penning: To ask the Secretary of State for the Home Department how many temporary firearms

certificates have been issued by Hertfordshire police in each of the past six months to holders of firearms certificates who are awaiting renewals. [27825]

Hazel Blears: I understand that no temporary firearms certificates have been issued by the Hertfordshire Constabulary in any of the past six months to holders of firearms certificates who are awaiting renewals.

Fireworks

Stephen Williams: To ask the Secretary of State for the Home Department how many prosecutions there have been for *(a)* breaking of the curfew for the use of category 3 and above fireworks and *(b)* the unlawful possession of category 4 fireworks since the Fireworks Regulations 2004 came into force, broken down by police force. [26380]

Hazel Blears: Fireworks Regulations 2004 came into force on 7 August 2004 and 1 January 2005, making permanent the Fireworks Regulations 2003 (Emergency Regulations).

Court statistics for 2004 will be available in late November and 2005 data will be available in autumn 2006.

Offences under the Fireworks Regulations 2004 (made under section 11 of the Fireworks Act 2003) for breach of the national fireworks curfew and the illegal possession of category 4 fireworks can also attract penalty notices for disorder. The numbers of penalty notices issued by police force area are provided in the following table.

Number of penalty notices for disorder issued for possession of a category 4 firework [1] by police force area, 2004 and 2005 [2]

[1] Offence created by Fireworks Regulations 2004 under s11 Fireworks Act 2003.
[2] January-July provisional data.

Mr. Anthony Wright: To ask the Secretary of State for the Home Department how many fines have been imposed by the police in relation to offences relating to fireworks in *(a)* Great Yarmouth constituency, *(b)* Norfolk, *(c)* the Eastern Region and *(d)* England and Wales since the Fireworks Act 2003. [28019]

Hazel Blears: Since 11 October 2004 the police have had powers to issue penalty notices for disorder for four specific firework offences. The number of penalty notices issued for firework offences in Norfolk, the Eastern Region and England and Wales is shown in the table. Centrally available data do not identify Great Yarmouth separately.

RDS—Office for Criminal Justice Reform

Foreign Prisoners (Deportation)

Mr. Hollobone: To ask the Secretary of State for the Home Department what plans he has to deport foreign convicted criminals held in British prisons; and if he will make a statement. [23187]

Mr. McNulty: The Prison Service notifies the Immigration and Nationality Directorate of all prisoners identified as foreign nationals so as to enable consideration of their liability for deportation in accordance with the immigration rules. Foreign national prisoners may be released for deportation when they have served the requisite portion of their sentence (as for any prisoner) or up to 135 days early in accordance with the provisions of the Criminal Justice Act 2003. Prisoners notified of a decision to make a deportation order have a right of appeal against the decision before the order is signed and the prisoner removed.

We are looking to ensure that foreign national prisoners liable to deportation are removed promptly.

Forensic Science Service

John Bercow: To ask the Secretary of State for the Home Department what assessment he has made of the effects of the introduction of a new IT-based management system by the Forensic Science Service; and if he will make a statement. [26680]

Andy Burnham: The Forensic Science Service (FSS) introduced an integrated IT work management, human resources and finance system into the organisation in August 2002.

The consolidation of HR and operational casework information has resulted in a more effective management process, balancing staff resources to meet casework demand. The system manages exhibits at all stages, ensuring continuity and common operational processes across the FSS. These enhancements to the FSS work management capability have assisted in enabling casework to be delivered more efficiently.

Gang Culture

Mr. Lancaster: To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of antisocial behaviour orders in tackling gang culture. [27632]

Hazel Blears: We are currently conducting an evaluation of antisocial behaviour orders (ASBOs). The outcome of this exercise will provide us with indicative findings on:

1. the extent and circumstances under which ASBOs are effective in tackling antisocial behaviour within our neighbourhoods and communities;

2. how ASBOs work as part of wider strategies to tackle antisocial behaviour and protect communities and residents from the adverse impact of antisocial behaviour.

This research will look at the overall effectiveness of ASBOs in tackling antisocial behaviour, it will not focus on specific aspects of behaviour such as gang culture. Published findings will be available in spring 2006.

General Almog

Dr. Starkey: To ask the Secretary of State for the Home Department what discussions *(a)* his Department and *(b)* other Government Departments had with (i) the Israeli embassy in London, (ii) Israeli organisations and (iii) the Israeli Government concerning the arrest warrant for General Almog. [17028]

Fiona Mactaggart: Following the departure of General Almog from the UK, officials of the Israeli Government called on officials at the Foreign and Commonwealth Office at a meeting which was attended by an official from the Home Office. This was the only discussion which involved the Home Office. Information concerning discussions involving other Government Departments is not held by the Home Office.

Home Detention Curfew Scheme

David Davis: To ask the Secretary of State for the Home Department how many people have been released from prison early since the Home Detention Curfew Scheme was introduced. [21844]

Fiona Mactaggart: The requested information for England and Wales, as recorded on the Prison Service IT system, is in the following table. The results for 2005 are up to 22 October.

Prisoners released under Home Detention Curfew by year

England and Wales	*Number*
1999	14,846
2000	15,515
2001	13,649
2002	20,456
2003	21,197
2004	19,311
2005[1]	17,787

[1] Figures for 2005 are up to 22 October

Identity Cards

Julia Goldsworthy: To ask the Secretary of State for the Home Department pursuant to the statement of 18 October 2005, *Official Report*, column 765, on the Identity Cards Bill, when his Department will publish the Gateway Reviews that have been undertaken with regard to identity cards; which Gateway Reviews have been completed; and if he will publish their *(a)* red, amber, green status and *(b)* recommendations. [21155]

Mr. McNulty: The ID cards programme has undergone two OGC Gateway Zero Reviews and one Gateway One Review. The Government have no plans for publishing Gateway Reviews. Publishing the traffic light status awarded by these reviews or their recommendations would be likely to prejudice both the ability of the Office of Government Commerce to examine the effectiveness, efficiency and economy with which other Government Departments exercise their functions and also the formulation and development of Government policy. However the most recent review covering business justification did confirm that the programme was ready to proceed to the next phase.

Mr. Holloway: To ask the Secretary of State for the Home Department what he estimates the cost will be per head of introducing identity cards. [28644]

Mr. McNulty: The current best estimate for the total average annual running costs for issuing biometric passports and ID cards to UK nationals, and running a verification service is £584 million at 2005–06 prices. The current best estimate of the unit cost of an adult passport/ID card package for UK Citizens valid for 10 years is £93 at 2005–06 prices. Within our current

financial estimates of the whole scheme, it will be affordable to set a charge of £30 at current prices for a stand-alone ID card that is valid for 10 years.

Intensive Supervision and Surveillance Programme

John Bercow: To ask the Secretary of State for the Home Department what target he has set for improvement in the Intensive Supervision and Surveillance Programme completion rate. [26674]

Fiona Mactaggart: The Youth Justice Board does not set a target for the completion rate of the Intensive Supervision and Surveillance Programme. The completion rate is, however, one of the benchmarks by which it monitors the programme's performance. The benchmark rate for completion is 60 per cent. and the current completion rate is 56 per cent. The shortfall of 4 per cent. is being addressed through the sharing of good practice, the imaginative application of incentive schemes, the use of varied and stimulating programmes to encourage young people to participate fully, and a concentration on enforcement of national standards.

Licensing Act 1964

Mr. Don Foster: To ask the Secretary of State for the Home Department how many violent offences were committed in and around licensed premises in each police authority area in each year since 1997; and if he will make a statement. [24118]

Hazel Blears: The available information is for 2002–03, 2003–04 and 2004–05 and is given in the table. Information for earlier years is not currently available.

These figures relate to violence recorded by the police rather than violence committed. Therefore they should not be taken as a complete illustration of the number of violent offences committed in connection with licensed premises.

For example, in certain areas where alcohol-related violence is particularly prevalent, local police are more likely to police city centres on Friday and Saturday nights thus recording more incidents of violent offences committed in connection with licensed premises. If football-related violence is a problem, the choice to send police officers to the match will undoubtedly lead to more violent crime being recorded than if they did not attend. There are other examples, such as the pro-active policing of antisocial behaviour which can increase recorded crime.

The number of violent offences committed in connection with licensed premises by force for 2002–03, 2003–04 and 2004–05

	2002–03	2003–04	2004–05

Missing Persons

Andrew Rosindell: To ask the Secretary of State for the Home Department how many people in *(a)* Havering, *(b)* Greater London and *(c)* England and Wales who have been classified as a missing person in each year since 1980 remain missing. [27125]

Hazel Blears: The information requested is not collected centrally by the Home Office.

Multi-agency Public Protection Arrangements

Mrs. Gillan: To ask the Secretary of State for the Home Department how many cases were covered by multi-agency public protection arrangements on 31 March of each year between 2001 and 2005. [23833]

Fiona Mactaggart: The number of offenders managed under multi-agency public protection arrangements (MAPPA) per year (1 April to 31 March) is as follows:

	Number
2001–02	[1]47,209
2002–03	[1]52,809
2003–04	39,492
2004–05	44,592

[1] The figures for the first two years of counting include offenders both in custody and in the community. The figures for the later years include only offenders in the community. This counting rule was changed to reflect the fact that the MAPPA were established specifically to help improve the protection of the public from sexual and violent offenders in the community.

National Identity Register

Lynne Jones: To ask the Secretary of State for the Home Department when it was decided to have 13 items of biometric data per person on the National Identity Register. [19872]

Andy Burnham: No firm decision to hold 13 items of biometric data (facial image, 10 fingerprints and two irises) per person has been taken. The assumption that these 13 items of biometric data will be stored is a working assumption used in our modelling of enrolment processes and in the costing of the business case. Final decisions on the type and quantity of biometric data held will be informed by the procurement process within the constraints imposed by the Identity Cards Bill.

David Howarth: To ask the Secretary of State for the Home Department if he will introduce measures to prevent the disclosure without the consent of the individual of information held on the proposed National Identity Register. [24395]

Mr. McNulty: We expect most of the checks on the register to be done with the consent of the individual. Under Clause 14 of the Bill, regulations may be made prescribing how the individual's authority for the provision of information is to be given. This clause limits the information that may be provided to accredited organisations as part of a verification check. This includes information within paragraphs one, three and four of Schedule one, the photograph, signature, information concerning whether the ID card is valid, voluntary information and confirmation of the answers to security questions. The organisation will only be told that the information provided by the individual coincides with that which is held on the register. The organisation themselves will not be given the answers to the security questions. This limitation on the information that may be checked means that information falling in other parts of Schedule one, for example the records of provision of information (paragraph nine of Schedule 1), may not be provided to organisations verifying identity under the powers in this clause.

One of the purposes of the Identity Cards Scheme, as set out in the Bill at Clause one (3) is the provision of a secure and reliable method for registrable facts about individuals to be verified wherever it is necessary in the public interest. There will be occasions when it is in the public interest for information held on the register to be disclosed without the individual's consent. However, the provision of such information is strictly limited in the Bill. The Identity Cards Bill includes measures to regulate the provision of information without consent and to prevent unauthorised disclosure. Information may be disclosed without consent to security and intelligence agencies to ensure that the scheme benefits the work of those organisations by supporting their stated statutory purposes. The police and Her Majesty's Revenue and Customs may also be provided with the registrable facts held for law enforcement and related purposes, minus the audit log of card use and information about other occasions when a person's record has been checked. Provision of this information to these bodies would only apply in cases of serious crime. The Bill ensures that provision of information without consent will be properly regulated and subject to independent oversight. The Bill also includes regulation making powers that would allow specified information to be provided without consent to other Government Departments or public authorities with the consent of Parliament. The Bill which was introduced to the House of Commons in May 2005 differed from that which was debated in the previous Parliament in that under the current Bill information cannot be disclosed without an individual's consent to organisations which are not public authorities.

Clause 29 of the Bill creates a new offence, that of unauthorised disclosure of information. This offence will apply to persons who hold an office or employment in which the duties relate to the establishment or maintenance of the register, the issue, manufacture, modification, cancellation or surrender of ID cards or the carrying out of the Commissioner's functions. A person guilty of an offence under this section may be liable to two years imprisonment, a fine or both.

Offences Against the Person Act

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females were (i) charged and (ii) convicted in England and Wales of offences under sections (A) 4, (B) 5, (C) 9, (D) 17, (E) 22, (F) 24, (G) 29, (H) 30, (I) 32, (J) 33, (K) 34, (L) 35, (M) 36, (N) 57 and (O) 60 of the Offences Against the Person Act 1861 in each of the last 10 years for which figures are available. [27139]

Hazel Blears: Statistics on the number of males and females charged with an offence are not centrally collected.

Information taken from the Home Office Court Proceedings database on the number of males and females found guilty of the sections under the Offences Against the Person Act 1861 which are requested at all courts England and Wales, 1994—2003 is contained in the table.

Court statistics for 2004 will be available later this month.

Number of males and females found guilty at all courts for certain sections under the Offences Against the Person Act 1861, England and Wales, 1994—2003[1]

		1994		1995		1996		1997

[1] These data are provided on the principal offence basis.

Offensive Weapons

Richard Younger-Ross: To ask the Secretary of State for the Home Department what assessment he has made of the adequacy of the coverage of the list of banned offensive weapons. [25881]

Hazel Blears: The Government are considering whether any further categories of knife or other offensive weapon currently being used in crime should be added to the list of banned offensive weapons.

Richard Younger-Ross: To ask the Secretary of State for the Home Department how many stop and searches for weapons were performed by the police in *(a)* England and Wales and *(b)* the Teignbridge constituency since the coming into force of the Knives Act 1997. [25891]

Hazel Blears: Information from 1998–99 to 2003–04 (latest available) for England and Wales on stops and searches under section 60 of the Criminal Justice and Public Order Act 1994 as amended by section 8 of the Knives Act 1997 is given in the table. The information is available centrally at police force area level only. Data for 2004–05 will be published in December 2005.

Searches of persons or vehicles in anticipation of violence under section 60 of the Criminal Justice and Public Order Act 1994 as amended by section 8 of the Knives Act 1997, section 25 of the Crime and Disorder Act 1998, schedule 7 of the Anti-Terrorism, Crime and Security Act 2001 and SI 2004/1573—England and Wales

	Searches
1998–99[1]	5,500
1999–2000	6,340
2000–01	11,300
2001–02	18,900
2002–03	44,400
2003–04	40,400

[1] S8 of the Knives Act 1997 came into force on 1 March 1999.

Operation Kratos

Mark Pritchard: To ask the Secretary of State for the Home Department what discussions he has held with *(a)* the Metropolitan Police Commissioner and *(b)* the Association of Chief Police Officers on extending the rules of engagement of Operation Kratos to other police operations. [24747]

Hazel Blears: None. Operational tactics are a matter for the police. Operation Kratos is a response developed by the police following 11 September which Ministers were not asked to approve but were told about. The Association of Chief Police Officers are currently reviewing the policy in relation to the handling of suspected suicide bombers. I will await the outcome of that review before considering further involvement. All police use of firearms is subject to the usual law on the use of force. In particular, the Criminal Law Act 1967 provides that the police may use such force as is reasonable in the circumstances to effect an arrest or to prevent crime.

Parking Offences

Paul Rowen: To ask the Secretary of State for the Home Department what assessment he has made of the process by which power was transferred from the police to local authorities following the decriminalisation of parking offences; what steps he took to ensure that this was a smooth transition of authority; and if he will make a statement. [22910]

Paul Goggins: I would refer the hon. Member to the answer given by my hon. Friend the Under-Secretary of State for Transport (Ms Buck) on 31 October 2005, *Official Report*, column 672W.

Mr. Hollobone: To ask the Secretary of State for the Home Department what assessment he has made of the merits of a national parking offenders database; and what representations he has received on this matter. [27292]

Ms Buck: I have been asked to reply.

The Department for Transport has received no representations about a national parking offenders database.

Passports

Mr. Peter Robinson: To ask the Secretary of State for the Home Department how many passport applications have been made online in each of the last five years. [28855]

Andy Burnham: The following table indicates the volume of passport applications received from the online channel since March 2003, the date from which the UK Passport Service has been recording this information.

Period	Online applications received	Total passport applications	Proportion online applications (percentage)
March to December 2003	58,497	5,904,046	1.0
January to December 2004	139,233	6,162,198	2.3
January to October 2005	174,453	5,825,050	3.0

Bob Spink: To ask the Secretary of State for the Home Department what assessment he has made of levels of rejected passport applications due to photographs not meeting requirements; and what percentage of applications were rejected for this reason in each of the last five years. [29196]

Andy Burnham: This data is only available for the weeks commencing 12 September 2005, when the new standards became mandatory, so it is not possible to compare this figure with the last five years.

Reject rates are however showing a decline as the photo booth industry upgrades their booths and the public understand the new standards.

The UKPS are evaluating the guidance in the application pack and continuing to work with both the industry and their partners such as Post Office Ltd. to ensure that inconvenience to customers is kept to a minimum.

The number of applications being rejected because of the photograph not meeting the new requirements is 13.7 per cent. for the last week for which figures are available (week commencing 31 October).

Pensions

Mr. Laws: To ask the Secretary of State for the Home Department what his estimate is of the cost savings to the Exchequer of introducing a pension scheme retirement age of 65 years for all police officers, prison officers and staff employed directly by his Department and its agencies from 2025; and if he will make a statement. [21425]

Hazel Blears: Savings to the Exchequer from introducing new pension allowance (NPA) 65 from 2025 have not been estimated and could be supplied only at disproportionate cost. It is, however, likely that delaying the introduction of NPA 65 until 2025 for those who are not police officers would absorb a substantial part of the expected £13 billion savings that will arise from the implementation of scheme reform within the framework of the principles agreed at the Public Services Forum.

In the case of police officers we are introducing a pension age of 55 for new entrants to the service from April 2006. This is in line with the Government's recognition that services like the police and the armed forces have specific needs which make a lower pension age appropriate for their members. If a calculation of the savings of introducing a pension age of 65 were carried out for the police it is arguable that the cost implications for operational effectiveness should also be taken into account

Perjury

Tim Loughton: To ask the Secretary of State for the Home Department how many successful prosecutions for perjury there have been in each of the last 10 years. [28449]

Fiona Mactaggart: Data from the Home Office Court Proceedings database, showing the number of convictions for perjury at all courts in England and Wales for the last 10 years, is provided in the table.

Data for 2004 will be available in late November.

Offenders found guilty at all courts for perjury England and Wales, 1993 to 2003[1]

	Number
1993	150
1994	144
1995	193
1996	152
1997	173
1998	176
1999	114
2000[2]	135
2001	92
2002	81
2003	108

[1] These data are on the principal offence basis.
[2] Staffordshire police force were only able to submit sample data for persons proceeded against and convicted in the magistrates courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.

Police

Mr. Carswell: To ask the Secretary of State for the Home Department what progress his Department has made in making the police more accountable to local communities. [25449]

Hazel Blears: The Government are committed to strengthening accountability at a local level by introducing dedicated, visible, accessible and responsive neighbourhood policing teams in all areas by 2008. In the White Paper, 'Building Communities Beating Crime', published in November 2004, the Government set out proposals for strengthening the role of the police authority to ensure communities are policed effectively and to increase the public visibility of police authorities, including through the publication of an annual local policing summary. In the light of police force restructuring, we are reviewing the White Paper proposals in relation to the role and composition of police authorities and examining ways to strengthen accountability arrangements at the basic command unit/crime and disorder reduction partnership level. In addition, the White Paper set out proposals for a mechanism to trigger action by the police or other community safety partners in response to unresolved local problems.

Mr. Iain Wright: To ask the Secretary of State for the Home Department what assessment he has made of the merits of allowing police officers to use hand-held electronic devices to record evidence. [25675]

Hazel Blears: The use of hand-held technology continues to play a vital role in modern-day policing. The technology affects the full range of policing activity, from public order operations and road traffic accident investigations to witness statements and recording the identity of suspects on the street.

Hand-held electronic devices enable police officers to access databases, receive and transmit data, and complete forms while out of their stations. Wider use of wireless technology across the forces has the potential to reduce the burden of bureaucracy on the police, enabling them to spend more time patrolling. Reducing bureaucracy and increasing the number of officers on patrol are two key government commitments. A number of options are being explored by the police service to determine the most appropriate way of meeting their needs.

The Home Office continues to work with the police to develop and pilot new uses of technology to support detection and enforcement on the street.

Mr. Harper: To ask the Secretary of State for the Home Department whether he has appointed specialist advisers to review the business cases submitted as part of the police force merger consultation process. [26137]

Hazel Blears: I have brought together a multi-discipline team to support the review of police force structures under the leadership of John Giffard, Chief Constable of Staffordshire. The team includes Home Office officials, officials from other partners in the criminal justice system and seconded police officers. Among the Home Office officials are specialist financial and economic advisers to conduct the analysis of the business cases submitted by police forces and authorities.

Andrew Rosindell: To ask the Secretary of State for the Home Department how many police officers worked overtime in each of the last 10 years; and what the cost of police overtime was in each year. [26446]

Hazel Blears: The table gives estimates of overtime payments made to full-time police officers in England and Wales in each of the last 10 years.

	Number of full-time officers in receipt of overtimes payments			
	Rest days with less than eight days notice	*Rest days with between eight and 14 days notice*	*Other overtime*	*Total amount paid out to full-time officers for overtime (£ million)*
1995	9,003	8,677	57,159	160
1996	9,875	5,866	56,787	160
1997	11,098	7,127	58,267	170
1998	9,091	5,909	51,907	160
1999	9,753	6,851	55,603	180
2000	14,003	8,065	57,396	250
2001	19,461	12,077	62,160	310
2002	18,527	14,448	59,071	290
2003	17,598	14,374	61,687	340
2004	21,675	16,508	68,513	350

Notes:
1. Only full-time officers are included.
2. Annual figures are extrapolated from a sample drawn from November pay bills in each year.
3. Individual officers can receive more than one type of overtime pay.

Source:
Police Negotiating Board annual survey of hours and earnings

Lynne Featherstone: To ask the Secretary of State for the Home Department what minimum educational standards are required for recruitment to the police force; and if he will make a statement. [26564]

Hazel Blears: Although there are no minimum educational standards required to be a police officer, numeracy and literacy are tested early in the application process. Behavioural competencies needed to carry out the role of a police officer are assessed during the recruitment process. However in practice approximately a third of recruits are graduates and 98 per cent. are qualified at GCSE level or above.

John Bercow: To ask the Secretary of State for the Home Department what new methods of police engagement his Department is supporting to lead to the deeper and stronger connection with the public referred to on page 93 of the 2005 Departmental Report. [26699]

Hazel Blears: Visible and responsive neighbourhood policing teams will be key to building a deeper and stronger connection with the public. Every area in England and Wales will benefit from these teams by 2008. The methods of engagement used by these teams will depend on local circumstances, and on the needs and preferences of local communities; there is no uniform way of engaging successfully with every community.

To support this, the National Practitioner Panel for Community Engagement in Policing has created a Guide to Community Engagement for policing practitioners containing practical and strategic advice, supported by case studies, for neighbourhood policing teams and practitioners.

In addition, the Government's Respect Task Force sets out to improve our communities and the lives of people in them by tackling disrespect for others. This includes working together on the neighbourhood renewal and antisocial behaviour agendas, highlighting respect for others and the community, and a key role for Police Community Support Officers (PCSOs) in tackling antisocial behaviour. As part of this we will enable community groups to trigger action in their local areas so that, via their local councillor, they can secure a response from the police or relevant local authority in cases they feel have not been adequately addressed.

Mr. Hollobone: To ask the Secretary of State for the Home Department when he expects the Police Standards Unit to complete its assignment with Northamptonshire police. [27293]

Hazel Blears: The Police Standards Unit has been engaged with Northamptonshire police since spring 2004. The criteria for disengagement have been agreed by the Force, Her Majesty's Inspectorate of Constabulary and the Police Standards Unit. The position of the Force in relation to these criteria is regularly monitored, and disengagement will take place when all parties are satisfied that the criteria have been met.

Bob Spink: To ask the Secretary of State for the Home Department how many *(a)* civilian staff and *(b)* police officers are employed by each police force. [29193]

Hazel Blears: The breakdown of police service strength for 31 March 2005 was published on 25 July 2005 and is available in the Library and on: www.homeoffice.gov.uk/rds/pdfs05/hosb1205.pdf

Within this publication, the numbers of police officers are provided in Table 1 and the numbers of police staff in Table 8a and 8b.

John Hemming: To ask the Secretary of State for the Home Department if he will revise the Police and Criminal Evidence Code to facilitate the re-interview of terrorist detainees after charge; and if he will make a statement. [29012]

Hazel Blears: During Report Stage on the Terrorism Bill on 9 November 2005, my right hon. Friend, the Home Secretary agreed to look at whether it might be possible to extend the circumstances in which post charge interviewing can be used in terrorist cases. We are currently reviewing existing legislation in consultation with the police and the CPS.

Andrew Rosindell: To ask the Secretary of State for the Home Department how many police officers have been found to be using their siren inappropriately in the last five years. [27122]

Hazel Blears: The Government keeps no central record of occasions when a siren has been inappropriately used. The use of sirens on police vehicles is controlled by the Road Vehicles (Construction and Use) Regulations 1986. These provide that such sirens may only be used either to indicate to other road users the urgency of the purposes for which the vehicle is being used, or to warn them of the presence of the vehicle on the road. Training and guidance on when it is appropriate to use police sirens for these purposes is a matter for individual chief officers of police.

Dr. Cable: To ask the Secretary of State for the Home Department (1) what regulations govern the allocation of cells in police stations; [18277]

(2) what assessments are made to determine whether those being held in police stations should share a cell and with whom they should share; [18278]

(3) what the procedures are for allocating shared cells in police stations; [18279]

(4) whether he intends to extend the recommendations concerning the allocation of cells made by the Zahid Mubarek Inquiry final report to police stations. [17794]

Hazel Blears: The PACE Code of Practice on detention, treatment and questioning Code C) requires that as far as is practicable, not more than one person should be detained in each cell; and that a juvenile is not placed in a cell with an adult. The use of police cells is an operational matter for the chief officer of the force concerned. When one person to a cell is not practicable, consideration would be given to moving a detainee to another designated police station. A risk assessment would be carried out in relation to the options available including any risk associated with individual suspects sharing cell accommodation and the impact on the overall safety and security of the custody suite.

Mrs. Dorries: To ask the Secretary of State for the Home Department what steps the Government are taking to improve the quality of local policing in Bedfordshire following the Police Performance Assessment 2004–05; and if he will make a statement. [24370]

Hazel Blears: The Government are committed to a major programme of police reform, to help build safer and stronger communities. This will help to drive performance in every force and includes building a more responsive, citizen-focused police service with neighbourhood policing at its heart.

Instilling a strong performance culture is an important part of ensuring the police deliver an effective service in their local area. This is taking hold, delivering real and sustainable improvements.

In terms of Bedfordshire police's performance and how this is enhanced, as for any force this is principally a matter for the Chief Officer team and the Police Authority.

The Home Office has recently published assessments for every force in the country. Bedfordshire police received the following assessments from the Police Performance Assessments 2004–05.

Performance area	*Delivery*	*Direction*
Reducing crime	Fair	Improved
Investigating crime	Good	Improved
Promoting safety	Fair	Improved
Providing assistance	Good	Stable
Citizen focus	Fair	Stable
Resource use	Good	Stable
Local policing	Poor	Improved

The force received its only poor grading in the Local Policing domain, for performance in comparison to its peers. It is, however, important to note that this is an area where the force showed improvement for the assessment period.

The Government's work with all 43 forces to develop neighbourhood policing, initially within pathfinder areas, will enhance the quality of local policing. In Bedfordshire, this is Luton Division.

Ian Lucas: To ask the Secretary of State for the Home Department on how many occasions police officers from outside the North Wales police area were deployed in the North Wales area in each of the last three years for which records are available; and from which forces those officers were deployed in each case. [24733]

Hazel Blears: Information is only available for secondments coming into a force. Since 2003, North Wales police had no police officers seconded into the force.

Mr. Lancaster: To ask the Secretary of State for the Home Department how many criminal investigators there were in the Milton Keynes division of the Thames Valley police force in each year since 1997; and if he will make a statement. [27182]

Hazel Blears: Information on the functions to which police officers are deployed is collected annually and is only available from March 2000. The deployment of officers to CID and other police functions is an operational matter for the Chief Constable of the Thames Valley police (Mr. Peter Neyroud).

Information on the number of CID officers is collected only at force level. CID officers in the Thames Valley Police are those staff mainly employed in plain clothes for the investigation of crime and who are not part of a specialist unit. More police officers are available to investigate crime with CID, but it is not their primary policing role within the force. Details of the number of CID officers in Thames Valley Police are set out in the table.

Thames Valley police—Number of CID officers since 2000

As at 31 March:	*Number of CID officers*
2000	282
2001	287
2002	299
2003	280
2004	290
2005	315

Notes:

1. Data for 2000 to 2002 was collected annually by HM Inspectorate of Constabulary
2. Data from 2003 is collected by Home Office Research, Development and Statistics Directorate annually.

Prison Staff

Mrs. Dean: To ask the Secretary of State for the Home Department what *(a)* the rate of turnover of prison staff and *(b)* the ratio of staff to prisoners in public sector prisons is; and what estimate he has made of the equivalent figures in private prisons. [23047]

Fiona Mactaggart: The rate of turnover of permanent Prison Service staff during the year ending 30 September 2005 was 8.4 per cent. The calculation includes retirements but excludes staff who have transferred out of the public sector Prison Service to other public sector organisations due to structural re-organisations. The ratio of staff to prisoners in public sector prison establishments on 30 September was one member of staff to 1.5 prisoners.

Information on staffing turnover in the contracted estates is not collected centrally and could be obtained only at disproportionate cost. As at 30 June 2005, there was a ratio of one member of staff to 1.8 prisoners within contracted prisons.

Prison Officers (Salaries)

Mrs. Dean: To ask the Secretary of State for the Home Department what the *(a)* starting salary and *(b)* average salary is of prison officers in public sector prisons; and what estimates he has made of the equivalent rates in private sector prisons. [23018]

Fiona Mactaggart: The current starting salary for new entrant prison officers in public sector prisons is £17,319. For new entrant prison officers regrading from elsewhere in the Prison Service the current starting salary is £18,483. The current average salary for prison officers in public sector prisons is £23,595.

Independent research carried out by DLA MCG Consulting on behalf of the Prison Service Pay Review Body into pay of staff in the 11 privately managed prisons indicates that the average starting salary for prison custody officers is £15,334 and that the current average salary of a prison custody officer is £16,950.

Prisoners

John Bercow: To ask the Secretary of State for the Home Department if he will list the change in the *(a)* number and *(b)* percentage of prisoners leaving custody and entering employment, education or training in each of the last five years. [26654]

Fiona Mactaggart: Information on the numbers of prisoners leaving custody and entering employment, training or education is only available for the last three years. The outcomes include those who attended FRESHSTART appointments at Jobcentre Plus, whereby prisoners who do not have a job or training place to go to on release are linked into employment, training and benefits advice and support immediately after release.

	2002–03	*2003–04*	*2004–05*
Discharges	86,353	87,449	85,685
Info recorded	77,188	82,650	83,991
ETE outcomes (inc. FRESHSTART)	21,327	33,946	41,146
ETE outcomes (inc. FRESHSTART) as percentage of total discharges	25	39	48

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how many and what percentage of prisoners convicted since 1990 have continued to protest their innocence, broken down by category of prisoner. [26688]

Fiona Mactaggart: This information is not centrally recorded by the Prison Service and to provide it would incur disproportionate cost.

Prisons

Lynne Featherstone: To ask the Secretary of State for the Home Department what steps he is taking to improve educational resources for prisoners by *(a)* improved ICT facilities and *(b)* increased internet access in prisons. [16961]

Fiona Mactaggart: The Government have increased ICT provision within the prison estate considerably in recent years through projects such as Prisoners' ICT Academy, which has seen new or upgraded computer workshops installed at 18 establishments, and involvement of Learndirect, which aims to provide up to around 7,000 offenders with secure web-based access to Learndirect courses by December 2006.

Colleagues at the Department for Education and Skills are currently in the process of developing an Offender ICT strategy. As part of this, a pilot at Her Majesty's Prison Leyhill is evaluating a commercial design for a secure 'Internet Kiosk', and the practical benefit that offenders can gain from e-learning within the security constraints required by the prison environment.

Bob Spink: To ask the Secretary of State for the Home Department how many people in Essex who were tagged on early release from prison breached the rules governing their early release in each of the last five years. [19055]

Fiona Mactaggart: The number of prisoners who were released on the Home Detention Curfew scheme (HDC) from Her Majesty's Prison Bullwood Hall and Her Majesty's Prison Chelmsford who breached the rules governing their early release for each of the last five years is provided in the following table. The area in which electronically tagged prisoners reside upon release is not recorded centrally.

Prisoners released on the HOC scheme from HMP Bullwood Hall and Chelmsford and those who were recalled, by year of release

	Discharged	*Recalled*[1]
2000	147	12
2001	139	8
2002	303	25
2003	265	27
2004	125	17

[1] Some recalls from HOC are due to the curfewee no longer being able to be monitored through no fault of their own. For example where he or she loses accommodation through no fault of their own.

Adam Afriyie: To ask the Secretary of State for the Home Department what projections he has made of the prison population in the next five years; and what plans he has to meet those projections. [24169]

Fiona Mactaggart: The latest prison population projections are published in the Home Office Statistical Bulletin 10/05 "Updated And Revised Prison Population Projections, 2005–2011, England and Wales". Figures for 10 scenarios can be found in this document. The scenarios range from 'High' to 'Low'. Projected total prison population figures (annual averages) for High and Low scenarios for the relevant financial years are presented in the following table.

The National Offender Management Service keeps under review the demand on prison places and the capacity of prisons to accommodate those prisoners sent to them by the courts. We are increasing the operational capacity of the prison estate by bringing accommodation back into use and through additional places built at existing prisons.

Projected prison population (end of June figures)

	High	*Low*
2005	76,600	76,110
2006	79,490	76,060
2007	84,260	76,670
2008	87,870	77,310
2009	89,400	77,080
2010	91,500	77,380

Source:
RDS NOMS

Mr. Pelling: To ask the Secretary of State for the Home Department what major changes have been made in the training provided to Prison Officers in the last five years. [25469]

Fiona Mactaggart: All newly recruited Prison Officers now undertake an eight-week Prison Officer Entry Level Training course (POELT), previously known as Prison Officer Initial Training (POINT). The POELT course has recently been rewritten and provides new staff with a foundation level of training in all core skill areas and covering interpersonal skills, mental health awareness, race and diversity, violence reduction and safer custody, along side the more traditional security awareness and practical skills needed to be a prison officer.

There has been an increased emphasis across all prison officer training on offender management and the care of all offenders. The Prison Service is in the process of embedding race and diversity throughout all training courses, where appropriate. An improved quality

assurance system is now in place for all courses, which adheres to the Adult Learning Inspectorate common inspection framework.

John Bercow: To ask the Secretary of State for the Home Department what representations he has received regarding the placing of unsuitable prisoners at Spring Hill prison, with particular reference to *(a)* arsonists and *(b)* violent offenders. [25860]

Fiona Mactaggart: No representations have been received about the placing of unsuitable prisoners at Spring Hill prison. Spring Hill's acceptance criteria excludes any prisoner:

who has an index offence of arson, or any current offence of arson or damage by fire; and

who has more than one previous conviction for arson or damage by fire within the last five years.

These criteria apply to all open prisons.

Mr. Lansley: To ask the Secretary of State for the Home Department what steps he is taking to raise awareness of HIV/AIDS among Prison Service staff; what guidance he has issued to Prison Service staff to ensure the care received by those with HIV/AIDS is fair and equitable; and what plans he has to issue further guidance on this issue. [26019]

Fiona Mactaggart: The Prison Service has issued a number of documents giving comprehensive guidance to support staff with HIV/AIDS. These include Prison Service Order (PSO) "Occupational Health", and is available on the Prison Service website: www.hmprison service.gov.uk/resourcecentre/psispsos.

In addition, PSO 3845, "Blood Borne and Related Communicable Diseases" and the Health and Safety Guidance Note 02/2005 "Risk Assessment and Immunisation for Communicable Diseases" provide further advice and guidance. Copies of these documents are in the Library. All these documents are available to staff via the Prison Service intranet and as hard copies where required. Staff have access to occupational health advisers and additional support is available through staff care and welfare services.

The Prison Service is committed to ensuring that all those in custody receive fair and equitable treatment. Staff guidance is available in the "Health Services for Prisoners Standard" to ensure that those with HIV/AIDS receive appropriate care and was updated in May 2004. There are no immediate plans to issue further guidance on this issue but regular reviews are undertaken to ensure best practice is followed.

Mrs. Gillan: To ask the Secretary of State for the Home Department if he will list the prison establishments where educational services are provided by Amersham and Wycombe College; and what the *(a)* commencement and *(b)* end date of the contract is in each case. [26435]

Fiona Mactaggart: Amersham and Wycombe College provides educational services at the following establishments:

Aylesbury
Belmarsh
Cookham Wood
Elmley
Grendon/Spring Hill
Holloway
Pentonville
Rochester
Standford Hill
Swaleside
Wandsworth
Wormwood Scrubs.

All Amersham and Wycombe contracts started on 1 January 1999 and are contacted to end on 31 August 2007. The Learning and Skills Council (LSC) is currently tendering the education provision for all prisons as part of the Offender Learning and Skills Service. The expected start date for these contracts is 1 August 2006. Providing there are no slippages in the timetable then all the education contracts will be terminated by the Prison Service earlier to coincide with the LSC contract start dates.

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department what assessment he has made of the main routes through which drugs are smuggled into prisons; and if he will make a statement. [26853]

Fiona Mactaggart: As I stated in my reply to a question by the hon. Member for Jarrow on 2 November, the Home Office recently commissioned a substantial piece of research that identifies patterns of drug use and supply routes. The six main routes identified were social visits, mail, new receptions, prison staff, over the perimeter and reception after court visits. Measures are already in place to target these routes and the report will inform the further development of supply reduction strategies.

Private Gregory Bruce

Mrs. Humble: To ask the Secretary of State for the Home Department what the result was of the Thames Valley police investigation into the death of Private Gregory Bruce in Bicester barracks, Oxfordshire. [26748]

Hazel Blears: The Coroner's inquest, based on information in the Thames Valley police investigation report, determined on 13 October 2005 that Private Bruce's death was death by suicide.

Probation Service

Mrs. Gillan: To ask the Secretary of State for the Home Department how many vacancies there are in each probation area where the service *(a)* is and *(b)* is not recruiting. [23830]

Fiona Mactaggart: The following figures represent active vacancies (in terms of full-time equivalent value) in each probation area as at 30 June 2005. This is the most recent information available at present.

An active vacancy is one which an area is actively trying to fill (ie is at some stage of the recruitment process). Where an area has no active vacancies recorded, this can be taken as indicating that they were not recruiting on the day that data was captured.

	Active vacancies
Avon and Somerset	67.90
Bedfordshire	17.20
Cambridgeshire	22.80
Cheshire	21.00
Cumbria	5.50
Derbyshire	8.80
Devon and Cornwall	11.30
Dorset	20.60
Durham	19.80
Dyfed Powys	4.60
Essex	7.00
Gloucestershire	10.09
Gwent	8.00
Hampshire	26.00
Hertfordshire	20.60
Humberside	0.00
Kent	26.96
Lancashire	28.50
Leicestershire	30.60
Lincolnshire	8.00
London	490.77
Greater Manchester	0.00
Merseyside	0.00
Norfolk	5.00
North Yorkshire	0.00
North Wales	7.50
Northamptonshire	19.60
Northumbria	0.00
Nottinghamshire	12.80
South Wales	40.50
South Yorkshire	0.00
Staffordshire	12.50
Suffolk	12.10
Surrey	27.20
Sussex	17.00
Teesside	30.90
Thames Valley	59.20
Warwickshire	5.80
West Mercia	13.60
West Midlands	0.00
West Yorkshire	50.50
Wiltshire	9.60
Total	1,179.82

Note:
Greater Manchester are not able to provide active vacancy figures at present, and the zero values recorded for this area indicate a nil return rather than an absence of vacancies.

Probation Staff (Pay Award)

Mr. Drew: To ask the Secretary of State for the Home Department what was the outcome of the Pay and Reward Review for Probation Staff in England and Wales. [24447]

Fiona Mactaggart: Talks between the employers and trade unions on the National Probation Service pay and reward review are progressing well and a joint statement will be issued shortly.

Public Enquiry Office Belfast

Dr. McCrea: To ask the Secretary of State for the Home Department what circumstances led to the closure of the public enquiry office in Belfast with effect from 15 November 2001; and if the Government will re-establish a public enquiry office in Belfast. [28364]

Mr. McNulty: The decision to close the Belfast Public Enquiry Office (PEO) was based on the fact that only 2,000 callers used the office annually and the operating hours and capacity were very limited. A better service could be provided from the larger PEO situated in Liverpool which offered a full range of services, unlike the restricted service offered at Belfast. There are no plans to reopen the Belfast PEO.

Race Relations (Amendment) Act

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on public bodies' compliance with the Race Relations (Amendment) Act 2000. [26651]

Paul Goggins: The Race Relations (Amendment) Act 2000 extended the provisions of the Race Relations Act to most public authorities by making racial discrimination unlawful in carrying out their functions. It also placed a positive duty on many public authorities to have due regard to the need to eliminate unlawful racial discrimination and to promote equality of opportunity and good relations between persons of different racial groups. The Commission for Racial Equality (CRE) is responsible for enforcing and monitoring the Act.

The CRE has issued more than 200 'minded letters', indicating its willingness to take enforcement action against specific public authorities. In all cases this has resulted in the authorities concerned taking the necessary remedial action required to ensure that they are meeting their responsibilities in relation to race equality. Building on this work, the CRE is drawing up proposals on what it, in partnership with others, could do further to monitor public bodies' progress on meeting their equality targets and obligations under the Race Relations (Amendment) Act. For example, the CRE is currently targeting a range of public authorities to determine their progress in conducting Race Equality Impact Assessments. This will focus on both the number of new policies being assessed and the rigor of individual assessments. A specific focus for the CRE over the coming 12 months will be to ensure that all new policies, including legislation, are subject to Race Equality Impact Assessments. To support this work, the Home Office is working with the Interdepartmental Group on Race Equality to drive this work at a departmental level.

Reconviction Rate

Mr. Bellingham: To ask the Secretary of State for the Home Department what the reconviction rate has been in each year since 1997; and if he will make a statement. [16369]

Fiona Mactaggart: The table shows the available information. The data refers to samples of offenders for the each of the five years shown. Owing to the administrative costs of matching criminal histories, reconviction results are generally based on samples of offenders from the first three months of each year.

Reconviction rates are influenced by a number of different factors relating to the offence and the offender. They can be adjusted to take account of the changing characteristics of offenders and these adjusted rates are published annually on the Home Office's website (http://www.homeoffice.gov.uk/rds/index.htm).

Reconviction rates—percentage of offenders reconvicted within two years for standard list offences

	Offenders discharged from prison in Qtr 1 of each year	*Offenders starting community sentences in Qtr 1 of each year*
2001	61	59
2000	60	59
1999	59	56
1998	59	56
1997	58	55

Recorded Crime Rate

Mr. Ruffley: To ask the Secretary of State for the Home Department what the recorded rate of crime was in Suffolk for each year since 1997 for *(a)* burglary of dwellings, *(b)* violence against the person, *(c)* vehicle crime, *(d)* robbery, *(e)* sexual offences, *(f)* total violent crime, *(g)* theft and handling of stolen goods and *(h)* criminal damage. [24844]

Hazel Blears: The information requested is given in the table.

Table 1: Offences recorded by the police in Suffolk—1997 to 2001–02

Number of offences

Offence	*1997*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*
Violence against the person	2,448	3,820	5,303	6,395	7,354
Sexual offences	400	405	389	421	466
Robbery	141	140	223	177	289
Violent crime	2,989	4,365	5,915	6,993	8,129
Burglary in a dwelling	2,422	2,464	2,332	2,198	2,447
Theft and handling stolen goods	16,952	17,097	17,422	17,196	19,419
Of which:					
Vehicle crime	6,687	6,446	6,501	6,291	6,915
Criminal damage	7,835	7,898	9,547	10,150	12,095

Notes:
1. The coverage was extended and counting rules revised from 1998–99. Figures from that date are not directly comparable with those for 1997.
2. The data in this table is prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later years.

Table 2: Offences recorded by the police in Suffolk 2002–03 to 2004–05

Number of offences

Offence	*2002–03*	*2003–04*	*2004–05*
Violence against the person	7,949	9,529	10,347
Sexual offences	588	641	620
Robbery	249	290	260
Violent crime	8,786	10,460	11,227
Burglary in a dwelling	2,258	2,365	1,763
Theft and handling stolen goods	18,806	18,205	17,609
Of which:			
Vehicle crime	6,282	5,782	5,463
Criminal damage	11,497	12,817	12,781

Notes:
1. The data in this table takes account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.
2. The Sexual Offences Act 2003, introduced in May 2004, altered the definition and coverage of sexual offences.

Re-offending

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what research he has commissioned on the effect on the re-offending rate of *(a)* penal custody, *(b)* restorative justice programmes and *(c)* local authority-run secure accommodation. [24290]

Fiona Mactaggart: The information requested is as follows.

(a) No recent research has been commissioned on the direct effect of penal custody on re-offending rates (as measured by reconviction); however research (Surveying Prisoner Crime Reduction) is being undertaken on the link between interventions received in (as well as outside of) prison, and outcomes (including reconviction). Research has also been commissioned (building on the three Resettlement Surveys undertaken in 2001, 2003 and 2004) to provide information on the links between resettlement factors and reconviction. A large scale sentencing survey is also being undertaken which will provide information about the relative effectiveness (and cost-effectiveness) of different sentences.

(b) Research was commissioned in 2001 to provide robust evidence on the impact of restorative justice (RJ) alongside the criminal justice system (pre and post sentence) on reconviction rates. Other recently conducted research on RJ has included a study examining the impact of a restorative cautioning scheme (Wilcox et al., 2004) and an exploratory study on the effectiveness of RJ schemes (Miers et al., 2001). The evidence from both of these studies on the effect of RJ on reconviction was inconclusive.

To follow up earlier research on the introduction of referral orders (which follow the principles of restorative justice), a reconviction study on those offenders subject

to referral orders has been commissioned by the Youth Justice Board (YJB). Further Youth Justice Board research is being undertaken to evaluate the enhanced effectiveness of using Family Group Conferencing in conjunction with Youth Inclusion and Support Panels to divert highest risk children from offending.

(c) No recent research has been conducted by the Home Office or the Youth Justice Board assessing the effect on the re-offending rate of local authority run secure accommodation.

Secure Training Centres

Ms Keeble: To ask the Secretary of State for the Home Department how many times noise distraction has been used in each of the four secure training centres in each of the last three years. [25601]

Fiona Mactaggart: Information is not held centrally for the entire period. The following table gives details for the period October 2004 to September 2005:

	Use of noise distraction technique
Medway	178
Rainsbrook	63
Oakhill[1]	134
Hassockfield	62

[1] Figures for Oakhill do not include the period 1–18 October 2004.

Ms Keeble: To ask the Secretary of State for the Home Department when he plans to publish the full report of the review of the use of physical control in care in secure training centres. [25602]

Fiona Mactaggart: The Youth Justice Board plans to publish a full report of the review in the near future. A summary of the recommendations of the panel of experts who undertook the review is available on the Board's website.

Shoot to Kill Policy

Andrew Rosindell: To ask the Secretary of State for the Home Department how long he expects the police to maintain the shoot to kill policy for suspected suicide bombers. [27138]

Hazel Blears: Operational tactics to deal with suspected suicide bombers are a matter for the police. All police use of firearms is subject to the usual law on the use of force. In particular, the Criminal Law Act 1967 provides that the police may use such force as is reasonable in the circumstances to effect an arrest or to prevent crime.

Similar Fact Rules

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what changes have been made to the similar fact rules since 1990; and if he will make a statement. [26690]

Fiona Mactaggart: The common law "similar fact" rule allowed the prosecution to rely on a defendant's previous misconduct in certain circumstances. However the Bad Character provisions of the Criminal Justice Act 2003, which were implemented in December 2004, abolished this and other common law rules governing the admissibility of such evidence in criminal proceedings. In their place the Act sets out a number of "gateways" through which evidence of a defendant's bad character may be admissible, where relevant and probative. One of these is where such evidence is

> "relevant to an important matter in issue between the defendant and the prosecution."

The Act makes clear that such

> "matters in issue between the defendant and the prosecution"

include the question whether the defendant has a propensity to commit offences of the kind with which he is charged.

Slavery Memorial Day

Mrs. Ellman: To ask the Secretary of State for the Home Department what discussions he has had about setting up a national slavery memorial day; and if he will make a statement. [17846]

Paul Goggins: Home Office Ministers have had a number of discussions in recent years with individuals and organisations advocating the setting up of a national slavery memorial day. I am currently discussing with ministerial colleagues how the Government will develop their contribution to the bicentenary of the abolition of the slave trade in 2007.

Somalia

Mrs. James: To ask the Secretary of State for the Home Department what assessment he has made of the implications of the political instability in Somalia for his policy of repatriation of Somalian asylum seekers; and if he will make a statement. [27216]

Mr. McNulty: We continue to monitor closely political developments in Somalia and the progress of the transitional Somali Government. The new Somali Government is in the process of deciding where in southern Somalia to base itself and we are aware of the ongoing difficulties it faces in establishing its authority in the country.

Each application is considered against the background of the latest available information about the situation in the country of origin. These sources include intergovernmental organisations, governmental sources and human rights organisations. Full account is taken of the ability of the individual concerned to reside safely in other parts of Somalia where it is not safe for them to return to their home area. Caseworkers have access to the Somalia Country report produced by the Immigration and Nationality Directorate Country of Origin Information Service as well as the Somalia Operational Guidance Note which assesses the most common types of asylum claims received and the circumstances in which they are likely to prove well founded or unfounded.

Stolen Artworks

Mr. Vaizey: To ask the Secretary of State for the Home Department what plans he has to establish a national database for stolen art and artefacts. [20542]

Hazel Blears: As a result of work to consider the business case for such a database, we have decided not to proceed with establishing one at this time:

we are not convinced that it would have a significant impact on crime;

we are not convinced that there is sufficient demand from, or that it would be sufficiently used by, the arts and antiques industry, or the public;

we consider the costs too high given other priorities and the likely impact on crime; and

we are not convinced that the database would become self-financing.

A letter explaining our decision in more detail was sent to the Culture, Media and Sport Select Committee in October 2004.

Instead of the database, the Department for Culture, Media and Sport published on 25 October guidelines to museums on the acquisition of cultural property. They have also provided funds and are working with the Museums, Libraries and Archives Council on the production of a website that will offer advice to anyone wishing to purchase art and antiquities, to help them avoid purchasing illegally traded items.

We are also considering other options for tackling the wider market for stolen goods.

Mr. Vaizey: To ask the Secretary of State for the Home Department (1) what discussions his Department has had with the Council for the Prevention of Art Thefts on the establishment of a national database for stolen art and artefacts; [20543]

(2) what discussions his Department has had with *(a)* the Council for the Prevention of Art Thefts and *(b)* the Association of Chief Police Officers on maintaining and publicising websites detailing lost or stolen artefacts. [20546]

Hazel Blears: During 2003, we received a proposal from the Council for the Prevention of Art Thefts (CoPAT) for the provision of a database of stolen artefacts, which my Officials discussed with them at the time. It did not, however, contain any provision for a publicly accessible website.

Options of the type proposed by CoPAT were also considered as part of work carried out during 2004 to investigate the options and business case for such a database. Discussions were held with both CoPAT and representatives of the Association of Chief Police Officers (ACPO) as part of this work.

ACPO is represented on the Department of Culture, Media and Sport's Enforcement Steering Group (along with the Home Office). The purpose of that Group is to discuss issues relating to the illicit trade in cultural property, including the possible provision of databases and websites. The decision not to proceed with the database was discussed in that forum.

Mr. Vaizey: To ask the Secretary of State for the Home Department what assessment his Department has made of the effectiveness of *(a)* the website of the Metropolitan Police Art and Antiques Squad, *(b)* the website of TRACE and *(c)* the website of the Art Loss register in recovering art and artefacts stolen in the UK. [20544]

Hazel Blears: As part of work to consider the business case and options for a national database for stolen arts and artefacts, the degree to which stolen arts and artefacts were currently recovered and to what extent this would be improved by the provision of a national database was investigated.

A number of forces were consulated, as well as the Art Loss Register. The two forces that responded on this issue did suggest that the database could improve rates of recovery. However, in each case this was based on very small numbers, so the overall impact would be small. The Metropolitan Police Service were not able to respond on this issue in the time available.

The Art Loss Register stated that a significant proportion of property was recovered in 5–10 per cent. of their cases. They considered that this could be increased by up to 30 per cent. but only if the database was supported by experts who offered a service to the police, trade and public. We have not made any assessment of the effectiveness of TRACE.

Taser Weapons

Lembit Öpik: To ask the Secretary of State for the Home Department on how many occasions the use of Taser weapons by the police has resulted in serious injury; and if he will make a statement. [17218]

Hazel Blears: The Defence Scientific Advisory Council's Sub-Committee on the Medical Implications of Less Lethal Weapons (DOMILL) has produced three statements on the medical implications of the use of the Taser. Copies have been placed in the Library. DOMILL's view is that the risk of life-threatening or other serious injuries from Taser appears to be very low and certainly very much lower than that from conventional firearms.

A Taser Deployment Form is completed on each occasion that Taser is deployed. These forms are passed to DOMILL, together with any post-incident medical assessments undertaken by the Force Medical Examiner. From examination of these reports DOMILL are content that the medical issues attributable directly or indirectly to laser use were not unexpected and are addressed by their extant statements.

Terrorism

Peter Law: To ask the Secretary of State for the Home Department how many representations his Department has received from *(a)* lobby organisations and *(b)* members of the public since 7 July on protection against terrorism. [28951]

Mr. Charles Clarke: We have received 128 letters from hon. Members and 305 letters from members of the public on protection from terrorism since 7 July. The number of letters from lobby organisations are not listed separately.

Together Campaign

John Bercow: To ask the Secretary of State for the Home Department if he will list the 50 Action Areas in which the Together campaign has been pursued. [26693]

Hazel Blears: There are currently 10 Trailblazer Areas and 51 Action Areas across the country, designated as "TOGETHER Action Areas", which will get extra help to tackle antisocial behaviour. They are as follows:

51 Action Areas

East of England:

Tendring
Great Yarmouth
Harlow
Ipswich
Norwich
Peterborough
Southend on Sea
Watford

South East:

Canterbury
Dover
Hastings
Oxford
Portsmouth
Reading
Slough
Southampton

South West:

Bournemouth
Exeter
Gloucester
Plymouth
Swindon

East Midlands:

Derby
Leicester
Northampton
Nottingham

West Midlands:

Coventry
Hodge Hill
Sandwell
Wolverhampton

North West:

Wirral
Blackburn
Bolton
Middlesbrough
Newcastle upon Tyne
South Tyneside

Yorkshire and Humberside:

Doncaster
Hull
Kirklees
Wakefield
York

Wales:

Cardiff
Newport
Swansea

London:

Hackney
Southwark

10 Trailblazer Areas

Birmingham
Brighton
Bristol
Camden
Manchester
Leeds
Liverpool
Sheffield
Sunderland
Westminster.

Torture

Dr. Starkey: To ask the Secretary of State for the Home Department what steps he is taking to ensure that resources are available to the police to investigate credible allegations of criminal offences contrary to *(a)* section 1 of the Geneva Conventions Act 1957 and *(b)* section 134 of the Criminal Justice Act 1988 regardless of the nationality of the alleged victims and perpetrators. [19756]

Andy Burnham: The Metropolitan police has the lead responsibility for the investigation of offences under section 1 of the Geneva Conventions Act 1957 and section 134 of the Criminal Justice Act 1988. Provision towards the cost incurred is made through formula funding for the Metropolitan Police Authority.

It is for each police authority to set a budget within the resources available to them and for each chief officer to decide how best to allocate available resources according to operational priorities and objectives.

Town Police Clauses Act

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females have been (i) charged and (ii) convicted in England and Wales of offences under section 36 of the Town Police Clauses Act 1847 in each year since 1984; and if he will make a statement on the operation of that section of the Act. [27142]

Paul Goggins: Statistics on the number of males and females charged with an offence are not centrally collected.

Information taken from the Home Office Court Proceedings database on the number of males and females found guilty of sections 21, 28, 29, 35 and 36 under the Town Police Clauses Act 1847 at all courts England and Wales, 1984—2003 is contained in the table. It is not possible to separately identify the figures for section 36.

Court statistics for 2004 will be available in late November.

Number of males and females found guilty at all courts under certain offences under the Town Police Clauses Act 1847, England and Wales, 1984–2003[1]

Offence description: Offences under the said sections excluding those involving disorderly behaviour, dogs, highways and drunkenness etc.

Statute : Town Police Clauses Act 1847 SS 21, 28, 29, 35 and 36

	Male	Female
1984	139	17
1985	189	11
1986	196	5
1987	150	6
1988	102	6
1989	106	6

2001	41	4
2002	41	3
2003	37	7

[1] These data are provided on the principal offence basis.

Unsolved Murders

Andrew Rosindell: To ask the Secretary of State for the Home Department how many murders committed in each year since 1980 in *(a)* Havering, *(b)* Greater London and *(c)* England and Wales remain unsolved. [27126]

Hazel Blears: The available information is given in the following table for the Metropolitan Police Service and England and Wales. The data are provided from the Homicide database which has data back to 1980 and has the outcome for each homicide. However, it does not hold data at a lower level than police force area. Data are also held on the recorded crime database but offences and outcomes are not linked.

Homicides currently recorded by the police[1]

	Metropolitan Police Service		England and Wales	
	Total currently recorded	Unsolved	Total currently recorded	Unsolved
1980	172	12	536	28
1981	113	20	501	33
1982	172	40	555	56
1983	125	22	481	39
1984	132	28	536	42

Victims' Code of Practice

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on progress in the implementation of the Victims' Code of Practice. [26646]

Fiona Mactaggart: The final Code of Practice for Victims of Crime was laid before Parliament on 19 October 2005. The code will come into force in April 2006, however, criminal justice agencies are aiming to deliver as many of the obligations in the code as they can in advance of April 2006. The Office for Criminal Justice Reform (OCJR) is working intensively with the criminal justice agencies, both nationally and locally, to assist them with delivery of the code.

Victims Fund

Mr. David Jones: To ask the Secretary of State for the Home Department when an announcement is expected to be made about the continuation of the Victims Fund beyond 31 March 2006. [27197]

Fiona Mactaggart: We have been considering the options for future funding schemes within the Victims Fund and expect to make an announcement shortly.

Violent Crime/Sexual Assaults

Andrew Rosindell: To ask the Secretary of State for the Home Department what steps his Department is taking to tackle *(a)* violent crime and *(b)* sexual assaults. [27148]

Hazel Blears: The information is as follows:

(a) The Government are currently taking forward a very full range of work which will continue to reduce violent crime. We are, for example, introducing new measures which will give police and local communities the powers they need to tackle guns, knives and alcohol-related violence in the Violent Crime Reduction Bill which is currently before Parliament.

Domestic violence is also a key priority. Our National Delivery Plan to tackle domestic violence provides support for victims, strengthens the Criminal Justice System to be more responsive to domestic violence cases and holds perpetrators to account.

(b) The Government gives high priority to tackling sexual offending because of the nature and extent of the harm caused to victims.

We have improved the care available to victims of sexual crime by developing the network of Sexual Assault Referral Centres and supporting complementary community-based services. We are committed to bringing more sexual offenders to justice. The Sexual Offences Act 2003 redefined and increased the penalties for many sexual offences.

We are encouraging more victims to report sexual crime and specially trained police officers and prosecutors have been established to deal with rape cases. At court, we have introduced a range of measures to facilitate the giving of evidence by victims.

The Government are particularly determined to ensure that child abuse is tackled rigorously and works with the police and other agencies to minimise the risk of children being sexually abused. We are establishing a centre which will target paedophiles using the Internet to distribute illegal images of and to groom children. Following the Bichard enquiry, wide-ranging action has been implemented to develop joined-up working between different agencies.

We have developed the way that agencies work together to ensure that decisions about managing known sex offenders are based on the best information available. Based on evidence about what really works to reduce offending, programmes are being run in prisons and the community to educate sex offenders about the harm they have caused and bring them to realise what they need to do to stop offending.

Mrs. Dorries: To ask the Secretary of State for the Home Department what steps the Government are taking to tackle violent crime in Bedfordshire; and if he will make a statement. [24369]

Hazel Blears: The Government are currently taking forward a very full range of work which will continue to reduce violent crime.

In Bedfordshire, the Luton Safe and Bed Safe initiatives have made a serious impact on the reported level of violent crime in recent months and Bedfordshire police have been pro-active in tackling these issues. Community Support Officers have been pro-actively enforcing alcohol bans in designated areas. Additional officers are now on the streets on Friday and Saturday nights in town-centres where police strategy involves high-visibility patrols, pro-active use of CCTV and mobile CCTV, mobile police stations, anti-drug operations using sniffer dogs and electronic testing devices, and partnership work with licensees to ensure they take their responsibilities and obligations seriously.

Further priorities are robbery—Operation Falcon in South Bedfordshire has seen significant reductions in the number of robberies—and domestic violence where multi-agency approach has been adopted and best practice has been embedded.

Nationally, there is a huge programme of work. We are, for example, introducing new measures which will give police and local communities the powers they need to tackle guns, knives and alcohol-related violence in the Violent Crime Reduction Bill which is currently before Parliament.

Domestic violence is a key priority. Our National Delivery Plan to tackle domestic violence provides support for victims, strengthens the Criminal Justice System to be more responsive to domestic violence cases, holds perpetrators to account and provides resettlement for victims and rehabilitation packages for perpetrators through end-to-end offender management and the concept of a whole sentence plan.

Andrew Rosindell: To ask the Secretary of State for the Home Department how many *(a)* gun crimes and *(b)* sexual assaults were recorded in each London borough in each year since 1997. [26445]

Hazel Blears: The available information relates to *(a)* offences involving firearms, excluding air weapons, recorded by the Metropolitan Police Service since

1997–98 and *(b)* indecent/sexual assaults recorded by each of the Metropolitan Police's Basic Command Units since 2000–01.

The National Crime Recording Standard was introduced on 1 April 2002 and statistics before and after that date are not directly comparable.

The Sexual Offences Act 2003, introduced in May 2004, re-defined many sexual offences, including indecent assault. As such, data for 2004–05 and earlier years are not directly comparable.

Table 3: Indecent/Sexual assaults recorded in the Metropolitan police force area by Basic Command Unit, 2000–01 and 2001–02

Basic Command Unit	*2000–01*	*2001–02*
Barking and Dagenham	135	136

Total	5,969	5,807	4,952

[1] The National Crime Recording Standard was introduced on 1 April 2002. Figures before and after that date are not directly comparable.

[2] The Sexual Offences Act 2003, introduced in May 2004, altered the definition and coverage of sexual offences. Offences included in Tables 3 and 4: *(a)* up to and including April 2004—indecent assault on a male, indecent assault on a female; *(b)* from May 2004—sexual assault on a male aged 13 and over, sexual assault on a male child under 13, sexual assault on a female aged 13 and over, sexual assault on a female child under 13.

Youth Custody

Lynne Featherstone: To ask the Secretary of State for the Home Department how many individuals under the age of 18 years are serving a custodial sentence in England and Wales; and if he will make a statement. [24549]

Fiona Mactaggart: On 30 September 2005 there were 2,284 persons aged under 18 serving a custodial sentence in England and Wales. This comprised 1,897 in prison establishments, 184 in Local Authority Secure Children's Homes and 203 in Secure Training Centres.

Witnesses

Jenny Willott: To ask the Secretary of State for the Home Department if he will make a statement on the progress of the intermediary scheme provided for in the special measures for vulnerable witnesses under the Youth Justice and Criminal Evidence Act 1999. [29341]

Fiona Mactaggart: Examination of a witness through an intermediary under section 29 of the Youth Justice and Criminal Evidence Act 1999 is currently available in six pathfinder areas: Merseyside; West Midlands; Thames Valley; South Wales; Norfolk; and Devon and Cornwall. Evaluation of the pathfinders will be completed by the end of March 2006 after which plans will be made for further roll out of the scheme in England and Wales.

The latest available information about the number of times that intermediaries have been used is given in the following table.

We have issued recently information packs entitled 'What's my story?' and 'Intermediaries: Giving a voice to vulnerable witnesses' copies of which have been

placed in the Library. These materials are being used to promote awareness and understanding of the intermediary scheme in the pathfinder areas.

Area	Intermediary scheme start date	Number of witnesses assisted by an intermediary as at 15 November 2005[1]
Merseyside	23 February 2004	11
West Midlands	13 September 2004 (Wolverhampton area) 1 November 2004 (all courts in West Midlands)	20
Thames Valley	2 October 2004	51
South Wales[2]	1 February 2005	2
Norfolk	1 February 2005	5
Devon and Cornwall[3]	20 June 2005	9
Total		98

[1] Data refer to the number of witnesses for whom the Office for Criminal Justice Reform has provided a registered intermediary where the intermediary has, or is expected to, carried out a communication needs analysis relating to the witness or has assisted them to understand questions or to make their answers understood during a criminal investigation or trial.
Data refer only to pathfinder areas where notification of availability of the intermediary special measure has been made in accordance with section 18(2) of the Youth Justice and Criminal Evidence Act 1999.
[2] In South Wales trials are restricted to Cardiff Crown court, Cardiff magistrates courts, the Vale of Glamorgan magistrates courts, Newcastle and Ogmore magistrates courts, Miskin magistrates courts.
[3] In Devon and Cornwall trials are restricted to Plymouth Crown court and Plymouth magistrates court.

Mr. Ian Taylor: To ask the Secretary of State for the Home Department what steps he is taking to improve support for witnesses who fear for their wellbeing if they give evidence in open court. [24583]

Fiona Mactaggart: Provisions in the Youth Justice and Criminal Evidence Act 1999 enable a court to order that a witness who suffers fear or distress receives assistance through one or more special measures. These include live videolink, screens and clearing the public gallery. The court may also prohibit publication of information that would lead to public identification of the witness.

Witnesses who are subject to serious intimidation may be provided with specific security measures as part of an on-going risk assessment by the relevant law enforcement agency and in some cases the witness may be relocated. At the end of its second year of operation in October 2005, the National Witness Mobility Service had handled over 300 witness relocation requests received through local police forces and social landlords.

The Serious Organised Crime and Policing Act 2005 provides clear statutory rules and procedures governing witness protection which will be implemented fully by April 2006.

Intimidation of a witness is an offence under section 51 of the Criminal Justice and Public Order Act 1994 in relation to criminal proceedings and section 39 of the Criminal Justice and Police Act 2001 in relation to civil proceedings.

Women's Prisons (Wales)

Mrs. Moon: To ask the Secretary of State for the Home Department if he will commission research into the effect on families of there being no prison for women in Wales. [28728]

Fiona Mactaggart: The Government are aware of the importance of family ties for all prisoners, especially women. A Home Office Resettlement Survey (Home Office Research Findings 248 2005) which included family ties issues for all prisoners was carried out in 2003. There are no current plans to commission specific research into the effect on families of there being no prisons for women in Wales.

There are no plans, at present, to build a women's prison in Wales but accommodation requirements will be kept under review.

Young Offenders

John Bercow: To ask the Secretary of State for the Home Department what the levels of reoffending by young offenders were in *(a)* 2001–02, *(b)* 2002–03, *(c)* 2003–04 and *(d)* 2004–05. [26645]

Hazel Blears: Re-offending rates are not available but reconviction rates are a commonly used proxy for re-offending rates and reconviction rates are published annually by the Home Office.

The most recent data are for those offenders who were discharged from prison, began a community sentence, or received a pre-court disposal in the first quarter of each of the years shown in the table.

Reconviction rates should be used with caution as a number of different factors can influence them. Actual reconviction rates can be adjusted to take account of such factors to provide a like for like comparison with the 2000 baseline year. Where the actual rate is less than the predicted rate, the figures show a relative reduction—like for like—with the 2000 baseline. The most recent data show a reduction in re-offending of 2.4 per cent. against the 2000 baseline.

The Home Office public service agreement target is to reduce re-offending by 5 per cent. by 2006.

Reconviction rates: Percentage of juvenile offenders reconvicted within one year

	Actual reconviction rate	Predicted reconviction rate	Difference between predicted and actual rate
2003	36.9	37.8	-2.4
2002	36.5	37.9	-3.6
2001	35.3	37.0	-4.5
2000	36.8	—	—

Youth Action and Engagement Framework

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on the launch of the new national framework for youth action and engagement. [26665]

Hazel Blears: The Government believe that providing more young people with the opportunity to become involved in volunteering brings huge benefits, both to

young people themselves and to the wider community. We are committed to implementing the national framework for youth action and engagement recommended by the Russell Commission and we have allocated up to £100 million over the next three years to do so.

A key element of the framework is the creation of a dedicated implementation body, which will work in partnership with the voluntary and community sector, the private sector and with young people themselves, to deliver a step change in the quality and quantity of volunteering opportunities. Officials within the Home Office are working with Ian Russell to create this body as an independent charity. This work includes the recruitment of the chair, chief executive officer and board of the charity. An announcement on these key appointments will be made in December 2005 and we expect that the charity will be formally launched in spring 2006.

Youth Justice Board

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on the work of the Youth Justice Board to improve its custodial capacity modelling capability referred to on page 153 of the 2005 Departmental Report. [26671]

Fiona Mactaggart: The Home Office, the Office for Criminal Justice Reform and other stakeholders in the criminal justice system (CJS) have developed a model known as the 'CJS Model', overseen by the CJS Modelling Steering Group. The model mainly involves adult offenders with only a limited section relevant to 10–17 year olds. The Youth Justice Board is in discussion with the Steering Group about the possibility of either extending the current model to cover young offenders or developing a new model specifically for 10–17 year olds.

This work is only at the feasibility stage. It is a difficult area of work which requires extensive resources. The Board is beginning to establish a small data analysis section, and part of its role will be to do modelling work relating to custodial numbers.

Youth Offending Teams

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on progress in filling front-line vacancies in youth offending teams. [26670]

Fiona Mactaggart: Staff in Youth Offending Teams (YOTs) are employed locally and not by the Youth Justice Board. The board supports recruitment and retention of front-line YOT staff, for example through its bespoke National Qualifications Framework for practitioners in the overall context of the Government Workforce strategy. It is also consulting on a Human Resources and Learning strategy 2006–08 and will be issuing guidance on workforce planning to support YOT managers. The vacancies for front-line practitioners in April 2004 was 5.9 per cent., a reduction from 6.5 per cent. in September 2003.

Zimbabweans (Naturalisation)

Daniel Kawczynski: To ask the Secretary of State for the Home Department what steps he is taking to speed up the process for decisions on naturalisation in the UK of Zimbabweans. [29167]

Mr. McNulty: There are no plans to treat Zimbabwean applicants for naturalisation differently from those of any other nationality. Any individual request for priority treatment will be considered on its merits.

Written Answers to Questions

Tuesday 22 November 2005

PRIME MINISTER

Date-based Export Scheme

Tim Farron: To ask the Prime Minister what discussions his Department has had with representatives of the European Commission regarding the lifting of the date-based export scheme; and when the scheme will be lifted. [31084]

The Prime Minister: The Government are in regular contact with the European Commission at all levels about lifting the beef export ban which will end the need for the date-based export scheme.

HEALTH

Mental Health Bill

11. **Dr. Gibson:** To ask the Secretary of State for Health which black and other ethnic organisations have been consulted on the race equality assessment of the Mental Health Bill. [30519]

Mr. Byrne: Our Race Equality Impact Assessment Advisory Group included representation from groups such as the Afiya Trust, Diverse Minds and the All Wales Black and Minority Ethnic Mental Health Group. In addition to consultation events, close consultation with the Black and Minority Ethnic Mental Health Network, focus groups in 13 hospitals and web based consultation, we have also had direct submissions from groups such as the African and Caribbean Mental Health Commission and from the Royal College of Psychiatrists Ethnic Minority Group.

17. **Mrs. Moon:** To ask the Secretary of State for Health in what languages the document on the Mental Health Bill race equality consultation is available. [30525]

Ms Rosie Winterton: There has not been a formal consultation document. Consultation has been an integral part of the race equality impact assessment on the Bill. At our recent race consultation events, language co-ordinators were available to ensure that this was not a barrier to participation.

18. **Mr. Binley:** To ask the Secretary of State for Health when she expects to be in a position to publish the Mental Health Bill. [30526]

Ms Rosie Winterton: The Mental Health Bill was in the Queen's Speech for this session. We plan to introduce it when parliamentary time allows.

NHS Dentistry

13. **Mrs. Hodgson:** To ask the Secretary of State for Health what effect the new dental contract is having on remuneration for dentists undertaking NHS work. [30521]

20. **Stephen Hesford:** To ask the Secretary of State for Health what effect the new dental contract is having on remuneration for dentists undertaking NHS work. [30528]

Ms Rosie Winterton: A committed NHS dentist typically earns an average £80,000 per year. New dental contracts are being introduced from April. Dentists' NHS incomes are guaranteed at current earnings levels until 2009. Dentists in personal dental services arrangements agree a contract with fixed monthly remuneration. This will apply to new general dental services contracts from April.

Mr. Crabb: To ask the Secretary of State for Health what estimate she has made of the number of pensioners who do not have access to an NHS dentist. [24284]

Ms Rosie Winterton: No estimate has been made of the numbers of pensioners in England who may not have access to an national health service dentist. The vast majority of people who contact NHS Direct are given details of practices where they can receive urgent treatment.

Mike Penning: To ask the Secretary of State for Health how many NHS dentists have been practising in the Hemel Hempstead constituency in each year since 1997. [25559]

Ms Rosie Winterton: The information requested is shown in the table.

General dental services (CDS) and personal dental services (PDS)—Dentists in Hemel Hempstead parliamentary constituency as at 30 September each year

	Number
1997	36
1998	38
1999	38
2000	44
2001	44
2002	48
2003	44
2004	48
2005	50

Source:
Dental Practice Board

Sandra Gidley: To ask the Secretary of State for Health when she expects the results of the strategic review of oral health for older people announced by the Chief Dental Officer in April to be published; and if she will make a statement. [25971]

Ms Rosie Winterton: The strategic review of oral health of older people will be published by the British Society of Gerodontology in December and launched at their meeting on 8 December.

Mr. Lansley: To ask the Secretary of State for Health if she will publish the indicative budgets for NHS dentistry for 2006–07 that will be provided to each primary care trust from April 2006. [27553]

Ms Rosie Winterton: We intend to publish the actual budgets for each primary care trust for dentistry at the end of November.

Mr. Drew: To ask the Secretary of State for Health when she expects to publish details of the criteria for the new Units of Dental Activity. [28071]

Ms Rosie Winterton: Under the new arrangements for local commissioning of national health service dentistry from April 2006, units of dental activity (UDA) refer to courses of treatment that are weighted to reflect their relative complexity. The three main categories of courses of treatment correspond to the three bands in the proposed new patient charging system, which was published for three months consultation over the summer. The proposed weightings for different courses of treatments, that is the number of UDA to which they correspond, were set out in the draft general dental services (GDS) and personal dental services (PDS) contract regulations, which were published in August 2005. The final version of those proposed regulations will be laid before Parliament shortly.

At the end of November, GDS dentists are due to receive information showing their level of activity, expressed in terms of UDA, during the reference period, 1 October 2004 to 30 September 2005, and their NHS earnings during the same period. Primary care trusts (PCTs) and dentists will use this as the basis for agreeing new annual contract values and the number of UDA that the dentist is expected to carry out over the course of the year in return for this annual contract value. GDS dentists will be guaranteed an annual contract value based on their reference period earnings, uplifted to reflect 2006–07 pay and prices, provided the dentists agree with their PCT an annual level of UDA to be carried out during 2006–07 equivalent to 95 per cent. of their activity during the reference period.

PDS dentists are due to receive similar information from PCTs at the end of November. PDS dentists will be guaranteed an annual contract value worth at least that of their current PDS agreement, uplifted to 2006–07 pay and prices, in return for carrying out annually an appropriate level of UDA agreed with their PCT.

Mr. Lansley: To ask the Secretary of State for Health how many dentists have been employed in each year since 1997 under *(a)* general dental service contracts and *(b)* personal dental service contracts. [25270]

Ms Rosie Winterton: The information requested is shown in the table.

Number of dentists employed in general dental services (GDS) and personal dental services (PDS) by contract type in England as at 30 September, 1997 to 2005

	GDS and PDS dentists	GDS only dentists	PDS only dentists	Total
1997	0	16,670	0	16,670
1998	0	17,199	0	17,199
1999	57	17,606	92	17,755
2000	132	17,845	190	18,167
2001	282	17,970	470	18,722
2002	329	17,995	622	18,946
2003	383	18,151	726	19,260
2004	842	17,023	1,857	19,722
2005	1,940	13,801	5,149	20,890

Andrew Rosindell: To ask the Secretary of State for Health what plans she has to increase the number of NHS dentists. [25206]

Ms Rosie Winterton: We announced on 9 November, that 1,453 whole-time national health service dentists had been recruited since April 2004, contributing to a net increase of 1,100 dentists at the end of September 2005, according to figures supplied by the Dental Practice Board.

We also announced that 189 additional dental students had begun their studies at dental schools in the United Kingdom, 19 more than the 170 target. By 2009–10, there will be approximately 850 more undergraduates in training than in 2004–05.

Mental Illness

15. **James Brokenshire:** To ask the Secretary of State for Health what assessment she has made of the availability of choice of therapies for people with mental illness. [30523]

Jane Kennedy: We are committed to modernising mental health services to provide patients with quick, easy access to high quality services and effective treatment and care, and to give people greater choice in the treatment and care they receive. Taken together, NHS and local authority expenditure on mental health has increased in real terms by almost £1.27 billion. This is a real increase in resources of over 26.6 per cent. in the period 1999–2000 to 2003–04.

We along with the National Institute for Mental Health in England are supporting local services in implementing our guidance called 'Organising and Delivering Psychological Therapies' in order to promote choice; and develop new ways of working.

Chlamydia Screening Programme

16. **Barbara Keeley:** To ask the Secretary of State for Health if she will make a statement on the National Chlamydia Screening Programme. [30524]

Caroline Flint: Chlamydia screening in England began in April 2003 in 10 areas and was extended to a further 16 areas in April 2004. The 26 programmes cover 25 per cent. of all primary care trusts and offers opportunistic screening to asymptomatic sexually active men and women under 25 years of age. National screening will begin in April 2006. We are currently on target for full implementation in 2007, as set out in the White Paper "Choosing Health: Making Healthier choices easier" published in 2004, copies of which are available in the Library.

21. **Linda Gilroy:** To ask the Secretary of State for Health what steps her Department is taking to improve access to Chlamydia screening. [30529]

Caroline Flint: The National Chlamydia Screening Programme started in April 2003 in 10 areas and was extended to a further 16 areas in April 2004. We are on target for full implementation by 2007.

In addition to the screening programme, we have also contracted Boots to evaluate the potential of retail pharmacies as Chlamydia screening venues. Screening began on 14 November.

The key drivers of the project are wider and easier access to screening services in order to provide quick and easily available screening options.

Paddington Health Campus Report

19. **Mr. Randall:** To ask the Secretary of State for Health whether she has read the independent report on "The Paddington Health Campus: The Lessons Learnt"; and if she will make a statement. [30527]

Mr. Byrne: This report was commissioned by North West London strategic health authority and is for the SHA to consider and respond to in the first instance. However, its conclusions largely concur with a joint Department of Health, Treasury and National Audit Office report into the project which was published last year and which has been acted upon by the Department.

Blindness/Visual Impairment (Rehabilitation Services)

22. **Mr. Hurd:** To ask the Secretary of State for Health what the responsibilities of local authorities are in respect of the provision of rehabilitation services for blind and visually impaired people. [30530]

Mr. Byrne: It is for local authorities to determine how best to provide services to meet the needs of individuals in their populations, in the light of local priorities. This includes assessment and provision of appropriate support and rehabilitation services for blind and partially sighted people.

ME

23. **Sir Nicholas Winterton:** To ask the Secretary of State for Health what recent research her Department has commissioned on myalgic encephalomyelitis. [30531]

Mr. Byrne: The Department has commissioned a number of research projects related to chronic fatigue syndrome and myalgic encephalomyelitis and details of these are available on the National Research Register, which can be accessed through the Department's research and development website [at www.dh.gov.uk/research].

Primary Care Trusts

24. **Helen Goodman:** To ask the Secretary of State for Health if she will make a statement on the future role of primary care trusts. [30532]

Jane Kennedy: Following unprecedented levels of funding, the national health service has made huge improvements but we know there is more to do to ensure that patients get the services they need.

We need stronger primary care trusts with a more focused role to:

Design local health services that best meet the needs of their communities securing availability, quality and fairness for patients.

Ensure that the money is actually spent in the communities where there is greatest need thus supporting the Government's commitment to reducing health inequalities.

Be the custodian of taxpayers money working to ensure the NHS maximises the benefits of its resources.

Support the extension of practice based commissioning so that frontline clinicians who are closest to patients are able to plan and develop services for them.

Work closely with local government to ensure that patients and service users benefit from joined up services.

Nurses

25. **Mr. Jamie Reed:** To ask the Secretary of State for Health what plans her Department has to extend the role of nurses. [30533]

Caroline Flint: We have developed new clinical roles like nurse consultants and modern matrons and community matrons. We have introduced initiatives such as prescribing rights for nurses. We have provided support for new advanced nursing roles in all settings and funded thousands of nurses to take part in leadership programmes.

Abortions

Andrew Rosindell: To ask the Secretary of State for Health what the total cost of NHS-funded abortions was in each year since 1997. [25896]

Caroline Flint: The available information is shown in the following table.

Estimated cost[1], in millions, of national health service funded terminations (performed in the NHS and the independent sector) since 1997

	Estimate cost (£) million
1997–98	34.8
1998–99	42.9
1999–2000	47.0
2000–01	54.4
2001–02	61.6
2002–03	68.7
2003–04	74.6

[1] Total estimated cost based on the average NHS hospital cost for all years.

Alzheimer's Disease

Dr. Blackman-Woods: To ask the Secretary of State for Health when she expects the National Institute of Health and Clinical Excellence to publish its final guidance on the continued use of *(a)* donepezil, *(b)* rivastigmine and *(c)* galantamine to treat Alzheimer's disease. [20516]

Jane Kennedy: This is a matter for the National Institute for Health and Clinical Excellence (NICE). Information about NICE's current work programme is available on the NICE's website at: www.nice.org.uk. I

understand that NICE's appraisal committee is due to meet later in December and NICE will conclude the appraisal in April 2006.

Anti-depressant Drugs

Mr. Burstow: To ask the Secretary of State for Health what the *(a)* number of prescription items and *(b)* prescription expenditure has been for anti-depressant drugs in each year since 1984; and what the percentage change was between (i) 1984 and 1994, (ii) 1994 and 2004 and (iii) 1984 and 2004. [22971]

Jane Kennedy: The number of anti-depressant medicines prescribed by the national health service in England between 1984 and 2004 and the cost of these items during this period is shown in table 1.

Table 1: NHS anti-depressant prescription medications in England 1984–2004: quantity and cost

	Number of anti-depressant medicines prescribed on the NHS in England	*Value of anti-depressant items prescribed on the NHS in England (£)*
1984	6,885,619	25,373,866
1985	6,769,247	25,981,683
1986	7,029,186	27,334,792
1987	7,176,740	30,084,435
1988	7,348,989	31,992,693
1989	7,666,176	35,358,676
1990	8,026,669	40,867,911
1991	8,954,500	54,046,476
1992	9,914,330	81,117,564
1993	10,776,690	98,829,813
1994	11,816,438	117,246,286
1995	13,227,137	146,832,856
1996	14,960,610	191,242,848
1997	16,822,563	239,120,545
1998	18,424,473	279,004,273
1999	20,108,130	315,269,246
2000	22,021,840	310,378,169
2001	24,342,713	341,660,880
2002	26,329,382	380,883,112
2003	27,687,990	395,178,028
2004	28,995,511	400,681,709

The percentage change, in prescription volumes and costs between 1984 and 1994, 1994 and 2004 and 1984 and 2004 is shown in table 2.

Table 2: NHS anti-depressant prescription medications in England: volume and cost percentage changes 1984–94; 1994–2004; and 1984–2004

	Percentage change	
Period	*NHS anti-depressant medications in England: volume growth change*	*NHS anti-depressant medications in England: cost change*
1984–94	71.6	362.1
1994–2004	145.4	241.7
1984–2004	321.1	1,479.1

Anti-tumour Necrosis Therapy

Mr. Amess: To ask the Secretary of State for Health (1) how anti-tumour necrosis therapy out-patients costs will be calculated under the payments by results scheme; and when procedures for purchasing anti-tumour necrosis therapy out-patient services will come into effect; [25549]

(2) how much money was spent on anti-tumour necrosis therapy in England in each of the last five years; [25550]

(3) what the total budget for anti-tumour necrosis factor therapy is for 2006–07 in England; [25551]

(4) how many patients have received anti-tumour necrosis factor therapy in England in each of the last five years; [25552]

(5) how many patients are waiting to commence anti-tumour necrosis factor therapy in England. [25553]

Mr. Byrne: Anti-tumour necrosis therapy is already commissioned at local level under arrangements that should cover the cost of patient attendances at outpatient clinics as well as any anti-tumour necrosis factor drugs (anti-TNF drugs). From 2006–07, payment by results will apply a national tariff to rheumatology out-patient clinics. The tariff will set the price for out-patient attendances and will exclude the additional cost of anti-TNF drugs, for which funding will continue to be negotiated locally. These arrangements are already operating in 2005–06 for national health service foundation trusts and other early implementers of payment by results.

The cost of prescriptions dispensed in the community for the three anti-TNF drugs is shown in the table.

Cost of prescriptions dispensed for anti-TNF drugs, 2000–04

	Cost (£)
2000	12,000
2001	198,000
2002	327,000
2003	833,000
2004	2,312,000

However, the main use for these drugs was in hospitals. An estimate for 2004 costs for anti-TNF drugs dispensed in hospitals, based on a large sample of hospitals, is £71,658,000.

Health bodies are obliged to fund, from general allocations, anti-TNF treatment for those with severe rheumatoid arthritis who meet the clinical guidelines set by the National Institute for Health and Clinical Excellence.

The Department does not hold information on the number of people who have received anti-TNF treatments.

We do not collect information on waiting lists for specific treatments.

Audiology

Mark Pritchard: To ask the Secretary of State for Health if she will make a statement on the roll-out of the newborn hearing screening programme. [24746]

Mr. Byrne: Overall, about 85 per cent. of newborn babies are now being screened by the newborn hearing screening programme. It is expected that all sites will be screening newborn babies for hearing loss by the end of December 2005.

Avian Influenza

Bob Spink: To ask the Secretary of State for Health what action she has taken to reassure consumers about the safety of chicken and turkey meat in the context of the avian influenza threat. [27105]

Caroline Flint: The Government have sought to ensure that the messages they put out about risks to consumers and the wider public posed by avian influenza are evidence-based and proportionate.

The Food Standards Agency (FSA) has advised that avian influenza does not pose a food safety risk for United Kingdom consumers and has made this available through its website. The FSA has also accepted all requests it has received to give television and radio interviews and has had its views well publicised in the media.

Child Health and Social Services

Annette Brooke: To ask the Secretary of State for Health what progress has been made in the implementation of *(a)* the National Service Framework for Children, Young People and Maternity Services, *(b)* Standard 8 of the Framework and *(c)* the autism exemplar chapter of the Framework. [28991]

Mr. Byrne *[holding answer 15 November 2005]:* The national service framework (NSF) for children, young people and maternity services, published in 2004, is a 10-year programme intended to stimulate long term and sustained improvement in children's health.

Standard eight of the NSF relates to children who are disabled or who have complex needs. It requires that they receive co-ordinated, high-quality child and family-centred services that are based on assessed needs, which promote social inclusion and, where possible, which enable them and their families to live normal lives. Toward this end, the Department will shortly publish an exemplar on complex disability, which will be launched on 30 November at a conference to mark one year since the launch of the NSF. In addition, the Council for Disabled Children will be holding a workshop on 8 December, sponsored by the Department, which will look at what more central Government can do to help colleagues to implement standard eight.

Exemplars are not standards against which to measure progress. Rather, they are illustrations of policy in the form of a description of a patient's journey.

Andrew Rosindell: To ask the Secretary of State for Health how many secondary school-age children suffered from *(a)* high cholesterol levels, *(b)* heart failure and *(c)* diabetes in each year since 1995. [25186]

Caroline Flint: The information requested is shown in the table. Patient counts are not available for years prior to 1997–98 and therefore not included.

Diagnosis of school-age children suffering from high cholesterol levels, heart failure and diabetes, England, 1995–96 to 2003–04

	(a) High cholesterol		*(b) Heart failure*		*(c) Diabetes*	
	Finished consultant episodes	*Patient counts*	*Finished consultant episodes*	*Patient counts*	*Finished consultant episodes*	*Patient counts*
1995–96	61	—	84	—	3,598	—
1996–97	35	—	76	—	3,729	—
1997–98	59	41	63	46	4,110	2,495
1998–99	44	38	83	56	4,525	2,680

Hospital Episode Statistics (HES), Health and Social Care Information Centre.

Chronic Obstructive Pulmonary Disorder

Mr. Lansley: To ask the Secretary of State for Health what assessment she has made of whether NHS organisations have implemented the guidance issued by the National Institute of Health and Clinical Excellence on chronic obstructive pulmonary disorder, which was published on 25 February 2004. [27546]

Mr. Byrne: Clinical guidelines from the National Institute for Health and Clinical Excellence (NICE) are reflected in the standards published by the Department, which provide a framework for continuous improvement in the overall quality of care people receive. Clinical guidelines are covered by the developmental standards, standards which the national health service is expected to achieve over time. The Healthcare Commission has responsibility for assessing progress towards achieving these standards.

Clinical Negligence Payments

Rosie Cooper: To ask the Secretary of State for Health what clinical negligence payments were made by hospital trusts within the Cheshire and Mersey Strategic Health Authority in 2004 to 2005. [26372]

Mr. Byrne: The information requested is shown in the table.

Clinical negligence payments made by national health service trusts in the Cheshire and Merseyside Strategic Health Authority area during 2004–05[1]

Trust	*Amount (£)*
5 Borough Partnership NHS Trust	52,863
Aintree Hospitals NHS Trust	1,013,764
Cardiothoracic Centre Liverpool NHS Trust	385,543
Cheshire and Wirral Partnership NHS Trust	14,252
Clatterbridge Centre for Oncology NHS Trust	9,362
Countess of Chester Hospital NHS Foundation Trust	1,696,840

Clinical negligence payments made by national health service trusts in the Cheshire and Merseyside Strategic Health Authority area during 2004-05[1]

Trust	*Amount (£)*
East Cheshire NHS Trust	4,970,088
Liverpool Women's Hospital NHS Foundation Trust	6,700,090
Mersey Care NHS Trust	157,420
Mersey Regional Ambulance Services NHS Trust	6,638
Mid Cheshire Hospitals Trust	1,218,475
North Cheshire Hospitals NHS Trust	2,713,357
Royal Liverpool and Broadgreen Universit Hospitals NHS Trust	934,759
Royal Liverpool Children's NHS Trust	966,097
St. Helens and Knowsley Hospital NHS Trust	1,188,190
Walton Centre for Neurology and Neurosurgery NHS Trust	519,724
Wirral Hospital NHS Trust	5,028,241

[1] Data relate to the 2004-05 financial year as audited by the National Audit Office.

Complementary and Alternative Medicine

David Tredinnick: To ask the Secretary of State for Health what discussions she has had with the National Institute for Health and Clinical Excellence on a full clinical assessment of the cost effectiveness of complementary and alternative medical therapies. [21420]

Jane Kennedy: There have been no formal discussions with the National Institute for Health and Clinical Excellence (NICE) about a full clinical assessment of the cost effectiveness of complementary and alternative medical therapies. However, NICE'S guidance on supportive and palliative care for cancer patients took the view that while there was little conclusive evidence of their effectiveness as a form of treatment, there was some evidence of their value to patients.

Departmental Expenditure (Child Care)

David T.C. Davies: To ask the Secretary of State for Health how much her Department has spent on *(a)* child care and *(b)* child care vouchers for its staff in each of the last five years. [19724]

Jane Kennedy: The Department has a yearly budget allocation for a range of child care provision, including subsidised on-site play-scheme places, nursery and out-of-school allowances that are payable to eligible parents.

The total allocation is shown in the table.

£

	Amount allocated
2005-06	127,000
2004-05	220,000
2003-04	220,000
2002-03	270,000
2001-02	95,725

The Department does not currently offer child care vouchers to staff, but is currently reviewing its child care provision and is looking favourably at child care vouchers as part of a salary sacrifice scheme.

Doctors

Dr. Fox: To ask the Secretary of State for Health what measures she is taking to ensure that doctors trained in the UK are not lost to other countries if they are unable to secure a training post. [25321]

Mr. Byrne: The number of medically qualified hospital and community health services doctors in training and equivalents has increased from 29,572 in 1997 to 40,844 in September 2004, an increase of 11,272 (38 per cent.). The number of general practitioner registrars has increased from 1,343 in 1997 to 2,481 in June 2005, an increase of 1,138 (88 per cent.).

Training opportunities arise each week and a number of junior doctors have long taken up training posts outside the United Kingdom. Any doctor in training who experiences difficulty in obtaining a placement should seek help from their postgraduate dean. Departmental Officials have been working closely with the deans to ensure that help and advice is available.

Eating Disorders

Andrew Rosindell: To ask the Secretary of State for Health what action is being taken by the Government to reduce the number of cases of eating disorders in young girls. [25895]

Caroline Flint: The issue of eating disorders among young people, especially young girls, is a serious problem. Anorexia in particular can have serious consequences for general health and has high rates of mortality.

In January 2004, the National Institute for Health and Clinical Excellence (NICE) published a guideline on the care of people with eating disorders. The guideline makes specific recommendations for the treatment of adolescents and young people in recognition of their unique needs. Some of the recommendations are:

Effective assessment of people with eating disorders, which includes co-ordination of care, the involvement of patients and their carers, providing good information, moral support and getting help early;

Involving family members, including siblings, in the treatment of children and adolescents with eating disorders. Interventions may include sharing of information, advice on behavioural management and facilitating communication;

Offering adolescents with bulimia cognitive behaviour therapy adapted as needed to suit their age, circumstances, level of development and including the family as appropriate; and

Young people are treated in age appropriate settings.

While each patient will have their own individual needs, the guideline gives clear recommendations on the type of treatments that are available and sets out a structured pathway of care. NICE have also published information for the public that explains the guideline and sets out what people with eating disorders can expect from the national health service.

There are opportunities to address healthy eating within the curriculum through science, design and technology and personal, social and health education (PSHE). Children learn about different types of food in the context of a balanced diet, nutrition, safety and hygiene. PSHE also offers scope for schools to explore how young people can access appropriate advice and support.

Equal Pay Claims

Mr. Evans: To ask the Secretary of State for Health (1) what the cost to each NHS trust of legal fees for defending equal pay claims has been in each year since 1997; [25804]

(2) how many of the loans from her Department to each NHS trust since 1997 to cover the costs of equal pay claims have been repaid; and what the timescale was for each such repayment; [25805]

(3) how much has been lent by her Department to each NHS trust to cover the costs of equal pay claims in each year since 1997; [25806]

(4) what the interest rate was on each loan lent by her Department to NHS trusts to cover the costs of equal pay claims since 1997. [25833]

Mr. Byrne: Information about the cost of equal pay claims and associated legal costs is not available centrally. The Department of Health has not made any loans to NHS trusts for the costs of equal pay claims.

General Practitioners

Andrew Rosindell: To ask the Secretary of State for Health what the ratio of men to women general practitioners is. [26470]

Mr. Byrne: The number of general practitioners, excluding returners and registrars, as at 30 September 2004 was 31,523. Of these, 19,288 were men and 12,235 were women—a ratio of 1:0.63.

Mike Penning: To ask the Secretary of State for Health what *(a)* the total number of statins and *(b)* the number per 1,000 population was prescribed by general practitioner practices in Dacorum Primary Care Trust for the years (i) 2003–04 and (ii) 2004–05; and if she will make a statement. [27981]

Ms Rosie Winterton: The information requested is shown in the table.

Total items prescribed the total number of patients and total number of statins items per1,000 population of Dacorum Primary Care Trust (PCT)

	Financial	
	2003–04	*2004–05*
Prescriber name	PCT Dacorum	PCT Dacorum
British National Formulary name	Statins	Statins
Total items	43,874	56,722
Total patients	149,955	149,852
Total number of Statin items per 1,000 population	292.6	378.5

Notes:

ePACT Data

This information was obtained from the prescribing analysis and cost tool (PACT) system, which covers prescriptions prescribed by general practitioner (GP) practices in England and dispensed in the community in the United Kingdom. For data at PCT level, prescriptions written by a GP practice located in a particular PCT but dispensed outside that PCT will be included in the PCT in which the GP practice is based. Prescriptions written in England but dispensed outside England are included.

Prescriptions written in hospitals or clinics that are dispensed in the community, prescriptions dispensed in hospitals and private prescriptions are not included in PACT data. It is important to note this as some BNF sections have a high proportion of prescriptions written in hospitals that are dispensed in the community. For example, BNF chapter 4, "Central Nervous System" has a fair proportion of items written in mental health clinics that are dispensed in the community—these prescriptions are not included in PACT data.

Healthcare Recruitment Agencies

Mike Penning: To ask the Secretary of State for Health whether West Hertfordshire Hospital Trust has used healthcare recruitment agencies based outside the UK for the recruitment of healthcare professionals from developing countries since the Code of Practice was agreed; and if she will make a statement. [25922]

Ms Rosie Winterton: The information requested is not held centrally.

The Code of Practice for the International Recruitment of Healthcare Professionals identifies guiding principles to promote high standards in the recruitment and employment of healthcare professionals from overseas. It is also concerned with the protection of developing countries and seeks to prevent targeted recruitment from developing nations who are experiencing shortages of healthcare staff.

Health Protection Agency

Jim Cousins: To ask the Secretary of State for Health what the expenditure was on the Health Protection Agency for 2004–05; and what the planned expenditure is for *(a)* 2005–06 and *(b)* 2006–07 in (i) cash and (ii) real terms, including the reductions proposed in the NHS non-departmental body review. [30458]

Caroline Flint *[holding answer 21 November 2005]:* Details of the expenditure of the Health Protection Agency (HPA) in 2004–05 are published in its annual report and accounts, which are available in the Library.

The budget for the HPA in 2005–06 is £134,300,000, which includes its planned expenditure. The indicative cash budget for the HPA in 2006–07 will be £137,926,000, which includes a 2.7 per cent. increase to allow for inflation.

The HPA has been asked to make efficiency savings of £4,000,000 in 2006–07, which it is intended will be recycled to HPA front line activities supporting the national health service.

Healthcare Commission

Mr. Benyon: To ask the Secretary of State for Health (1) what guidelines her Department has issued on how long the Healthcare Commission should take *(a)* to make a decision on whether to conduct an inquiry and *(b)* to hold an inquiry and produce a report following the death of a patient in NHS care; [20897]

(2) how many complaints the Healthcare Commission has received about the treatment of patients unable to communicate verbally in each year since its creation; [20901]

(3) how many requests the Healthcare Commission has received to conduct an inquiry into a patient death in hospital in each year since its creation; and how many of these requests have led to inquiries being launched. [20902]

Jane Kennedy: The Healthcare Commission was established by the Health and Social Care (Community Health and Standards) Act 2003 and came into existence

on 1 April 2004. It is independent of Government. The Department does not issue guidelines on how the Healthcare Commission should operate.

Under section 52 of the 2003 Act, the Healthcare Commission has powers to conduct investigations into the provision of health care. The Healthcare Commission has published on its website its own criteria for deciding when it will investigate. Since the end of July 2004, the Healthcare Commission has also had responsibility for managing the second independent review stage of the national health service complaints system.

I understand from the Chairman of the Healthcare Commission that in the first year of its operation, it received 93 referrals which were considered against its criteria for investigation, resulting in a range of actions, including five formal investigations. Between 1 August 2004 and 1 August 2005, the Healthcare Commission also received 8,260 requests for independent review under the NHS complaints system; 3,799 reviews were completed in the same period. I understand that the Commission does not have information on what proportion of referrals relate to individual patient deaths in hospital. I also understand that the Healthcare Commission does not collect information centrally on complaints relating to patients who cannot communicate verbally. 13 per cent. of all cases received to date under the second stage of the NHS complaints system have contained an issue concerning communication.

Household Products (Health Effects)

Norman Baker: To ask the Secretary of State for Health what recent research has been conducted into the impact upon *(a)* indoor air quality and *(b)* human health of the use of air fresheners; what advice has been given to the public relating to their use; and if she will make a statement. [27813]

Caroline Flint: The Department is aware of recent research by the Avon Longitudinal Study of Parents and Children team at the University of Bristol on the effect on health of the use of household products including air fresheners[1]. The results have been noted. However, it is important to be cautious about their interpretation until the results have been supported by other research.

The committee on the medical effects of air pollutants has published a document, "Guidance on the Effects on Health of Indoor Air Pollutants" on its website at: www.advisorybodies.doh.gov.uk/comeap/PDFS/guidanceindoorairQualityDec04.pdf This contains a brief section on volatile organic compounds and on household products. It advises that ensuring good ventilation in homes is the best way to reduce exposure.

Infection Control

Mr. Lansley: To ask the Secretary of State for Health if she will estimate the optimum budget which should be used by an average-sized NHS trust to fund its cleanyourhands campaign; and what resources each NHS trust committed to infection control in the last period for which figures are available. [23031]

Jane Kennedy: National health service trusts have always paid for their own handrubs, but in preparation for cleanyourhands, new contracts for handrubs were developed by the NHS Purchasing and Supply Agency. As a result of these new contracts, significant cost savings have been realised. This has meant that in many cases, individual trusts' existing expenditure on alcohol handrubs has been reduced. Expenditure on infection control is decided locally and information is not collected centrally.

Mr. Lansley: To ask the Secretary of State for Health how many NHS trusts have appointed a director of infection prevention and control; and how many directors of infection prevention and control are also their trust's *(a)* director of finance, *(b)* director of estates and facilities, *(c)* director of nursing and *(d)* non-executive director. [23032]

Jane Kennedy: The information requested is not held centrally.

Influenza

Mr. Lansley: To ask the Secretary of State for Health what estimate she has made of the demand for critical care beds in the event of an influenza pandemic; and if she will make a statement. [20859]

Ms Rosie Winterton: Estimates of the impact of an influenza pandemic are based on the best available evidence. However, the number of people affected and the impact on the health care system will depend on the nature of the pandemic flu virus. The UK Health Department's Influenza Pandemic Contingency Plan estimates the minimum number of excess hospitalisations, including those who may require intensive care, over the course of a pandemic to be 82,500 for the United Kingdom as a whole. The Department is currently working with the Intensive Care Society to estimate the likely impact of an influenza pandemic on critical care services in particular.

Steve Webb: To ask the Secretary of State for Health what assessment she has made of NHS capacity in *(a)* critical care, *(b)* secondary care and *(c)* primary care to cope in the event of an influenza pandemic; and if she will make a statement. [22095]

Ms Rosie Winterton: Estimates of the impact of an influenza pandemic are based on the best available evidence. However, the number of people affected and the impact on the healthcare system will depend on the nature of the pandemic 'flu virus. The United Kingdom health departments' influenza pandemic contingency plan estimates the minimum number of excess hospitalisations, including those who will require intensive care, over the course of a pandemic to be 82,500 for the United Kingdom as a whole. The plan also contains estimates for the demand on primary care during an influenza pandemic. These are based on the best available assumptions. The Department is currently working with the Intensive Care Society and other key stakeholders to estimate the likely impact of an influenza pandemic on critical care services.

We have also provided operational guidance to the national health service to help inform its local planning for a possible influenza pandemic. The Department's routine winter preparations guidance also reinforced the requirement for local NHS to follow guidance from the Department on preparing for an influenza pandemic.

Steve Webb: To ask the Secretary of State for Health what her contingency plan is in the event of an influenza pandemic if daily reports on stocks of antivirals show that supplies are getting low. [22096]

Ms Rosie Winterton: The United Kingdom's stockpile of antivirals is intended primarily to treat all patients who develop influenza given a clinical attack rate of 25 per cent. The stockpile will be carefully managed to ensure that it is used for the 25 per cent. of the population who are expected to become ill. The use of antiviral medicines will be closely monitored from the outset. However, the clinical attack rate will depend on the nature of the virus. Should the attack rate prove higher than expected, or a pandemic strike before the stockpile is fully established, antivirals may need to be prioritised. The published antiviral strategy allows for prioritisation to treat those front line health staff at higher risk due to exposure and the groups identified as being in greatest clinical need. Further advice will be provided during the pandemic by the UK national influenza pandemic committee on the basis of emerging information.

Steve Webb: To ask the Secretary of State for Health what plans her Department has to develop a recovery plan for the period after a possible influenza pandemic. [22124]

Ms Rosie Winterton: "The UK Influenza Pandemic Contingency Plan" recognises that returning to normal business after a pandemic may take some time for all organisations. We will encourage business and service sectors to consider recovery in their planning for a possible influenza pandemic.

Steve Webb: To ask the Secretary of State for Health what factors underlay the assumption of the number of people likely to be affected by an influenza pandemic in her Department's contingency plan; and what preparation is being made for a worst case scenario. [22196]

Ms Rosie Winterton: The base scenario in the United Kingdom influenza pandemic contingency plan assumes that 25 per cent. of the population would have clinical symptoms of pandemic 'flu. This is based on the best available evidence, including considerations of influenza pandemics in the 20th century and independent experts. However, there are many uncertainties and the number of people affected and the impact on the health care system will depend on the nature of the pandemic 'flu virus. That is why the plan outlines scenarios with different numbers of people affected.

The base scenario also considers that at least 0.37 per cent. of those ill will die from pandemic influenza or complications. This is based on the proportion seen in seasonal flu and the 1957 pandemic. Scenarios with a case fatality rate of up to 2.5 per cent. (greater than the pandemic of 1918–19) are also considered in the plan. Local planners are encouraged to consider the range of fatality rates when drawing up their local contingency plans.

Steve Webb: To ask the Secretary of State for Health which of the steps listed in Annex G of her Department's Influenza Pandemic Contingency Plan her Department plans to take; and what the timetable is for those actions. [27047]

Caroline Flint: On 20 October 2005, the Chief Medical Officer, announced that the Department is inviting manufacturers to tender for a contract to supply pandemic flu vaccine once the pandemic strain is known. The proposal to purchase in advance the capacity needed to make pandemic flu vaccine will make sure that an effective vaccine is available for use in the United Kingdom as early as possible after a flu pandemic starts. The UK will need approximately 120 million doses to be available as soon as possible.

We are working closely with other countries, the World Health Organization, and the European Commission and are in regular dialogue with manufacturers to ensure that a vaccine can be developed as quickly as possible once a pandemic influenza strain emerges. This will allow us to put arrangements in place to ensure production of vaccine for the UK population.

We are finalising a contract for the purchase of a two to three million doses of vaccine against the H5N1 strain currently circulating in South East Asia. This vaccine can be used for research and for possible use for healthcare workers in an emergency, and may provide some limited protection against a pandemic emerging from that source. We hope to award this contract shortly.

We are constantly reviewing all issues identified in annex G of the plan and will implement specific measures when we consider it to be necessary.

Mr. Laurence Robertson: To ask the Secretary of State for Health pursuant to the answer of 7 November to Question reference 21455, how much central contingency stock of influenza vaccine her Department holds; how many people this would treat; and if she will make a statement. [28320]

Caroline Flint *[holding answer 14 November 2005]:* The Department has purchased 400,000 doses of flu vaccine. This is sufficient to treat 400,000 adults.

Intermediate Care Beds

Mr. Burns: To ask the Secretary of State for Health how many intermediate care beds there were in England in each of the last six years for which figures are available; and if she will make a statement. [28109]

Mr. Byrne *[holding answer 14 November 2005]:* As at 31 March 2005, there were 29,500 places benefiting over 360,000 people. The NHS Plan aimed for an extra 6,700 places for intermediate care by March 2005; 5,000 residential and 1,700 non-residential places. The national health service has delivered an extra 18,095 places; 270 per cent. more than the combined target. The available data are shown in the table.

Number of intermediate care beds 1999–2000 to 2004–05

	Places in non-residential IC schemes	Intermediate Care beds	People using Intermediate Care
1999–2000	7,149	4,242	132,447
2000–01	[1]	[1]	[1]
2001–02	13,878	7,021	246,034
2002–03	19,078	7,493	284,365
2003–04	17,339	8,697	333,821
2004–05	20,558	8,928	362,664

[1] Information not collected

Source:
Statistical Summary to Chief Executive's Report to the NHS (13 May 2005)

MRSA

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 12 September 2005, *Official Report*, column 2715W, on MRSA, when she expects to publish the results of the evaluation of the pilot. [20750]

Jane Kennedy: We do not plan to prepare a formal report on the pilot. Enhanced surveillance of methicillin-resistant Staphylococcus aureus (MRSA) bacteraemias was rolled out to all trusts on 1 October 2005 on the basis of positive feedback from the Health Protection Agency.

Andrew Rosindell: To ask the Secretary of State for Health what recent action the Government have taken to reduce the number of cases of MRSA in hospitals. [25905]

Jane Kennedy: The Department has established a wide ranging programme of mutually reinforcing activities to support our target to halve methicillin resistant Staphylococcus aureus (MRSA) blood stream infections *(bacteraemias)* by March 2008.

A recent key initiative in June 2005 was the launch of "Saving Lives", which brings many of the programme's activities together to provide trusts with a tool to implement best practice and reduce infection rates. Other recent projects include the launch in September 2005 of new e-learning tools for all national health service staff and in October, enhancement of the MRSA surveillance system.

NICE Guidance

Mr. Burstow: To ask the Secretary of State for Health what estimates have been made by the National Institute for Health and Clinical Excellence (NICE) of *(a)* the gross costs of implementing NICE guidance and *(b)* the number of patients benefiting from such implementation, broken down by disease category. [23004]

Jane Kennedy: This is a matter for the National Institute for Health and Clinical Excellence (NICE).

The Department publishes an assessment of the cost of implementing NICE's guidance in the public expenditure inquiry. In 2005, the total cost of implementing NICE's guidance to date was estimated to be £836 million.

The Department estimates that some tens of thousands of patients have benefited from NICE's guidance.

Parliamentary Questions

Miss McIntosh: To ask the Secretary of State for Health when she expects to reply to the question tabled by the hon. Member for Vale of York on 25 October 2005, ref 22789; and what representations she has received on the mammogram reading at St Margaret's Hospital, Epping. [27065]

Ms Rosie Winterton: I refer the hon. Member to the answer I gave on 8 November 2005, *Official Report*, column 389W. Since the hon. Member's question, I have received one representation on the reading of mammograms at St. Margaret's hospital in Epping.

Pesticides

Mr. Drew: To ask the Secretary of State for Health what steps she is taking to disseminate information on toxicological impacts of pesticides on human beings; and what monitoring and reporting mechanisms are in place. [25499]

Caroline Flint: The Department works closely with other Government Departments and agencies on matters related to the toxicological impacts of pesticides on humans. Information on toxicological impacts of pesticides is widely available to the public. Evaluation documents are published on the Advisory Committee on Pesticides (ACP) website, and such information is published in the ACP annual report. Information is also available from the European Food Safety Authority (EFSA).

The Department for Environment Food and Rural Affairs' pesticides safety directorate (PSD) carries out a yearly survey into all human health incidents reported to approvals holders for amateur and professional pesticide products by users. The results of this survey are published on the PSD website at www.pesticides.gov.uk/home.asp. Any potential exposures to pesticides should be reported to the Health and Safety Executive (HSE), who will investigate complaints involving ill health arising because of a work activity. Once an investigation is complete, details of investigated cases are sent for examination to the HSE's Pesticides Incident Appraisal Panel (PIAP). PIAP reviews all the reports and publishes its conclusions in an annual report that is reviewed by the ACP. The Department of Health has an assessor on the ACP.

Following recommendations of the recent report by the Royal Commission on Environmental Pollution on "Crop spraying and the health of residents and bystanders" the Government will be reviewing these arrangements.

Podiatry

Mr. Baron: To ask the Secretary of State for Health how many podiatry services there are in England broken down by *(a)* primary care trust and *(b)* hospital setting. [26855]

Mr. Byrne *[holding answer 10 November 2005]:* The information requested is not collected centrally. However, all primary care trusts will commission these services to meet the needs of their local population.

Prostate Cancer

Mr. Lansley: To ask the Secretary of State for Health what steps she is taking to raise awareness of the prostate specific antigen (PSA) test for prostate cancer among men; and how many PSA tests have been carried out in each year since 1997. [26013]

Ms Rosie Winterton: The NHS Prostate Cancer Programme, launched in September 2000, set out the Government's commitment to improve early detection of prostate cancer. The prostate cancer risk management programme (PCRMP) has been set up to ensure that all men considering a test for prostate cancer are given information on the benefits, limitations and risks associated with having a prostate specific antigen (PSA) test.

Raising public awareness of prostate cancer is one of the key challenges for the future. We want men to know what their prostate is, what it does and what can go wrong with it. However we have to raise public awareness in a responsible way so as not to cause undue anxiety and worry. Thanks to the work of the prostate cancer advisory group we now have, for the first time, a definitive set of key messages for the general public about the prostate gland, including prostate cancer. The key messages have been agreed by 20 organisations, including charities, patient groups and professional bodies as well as the Department.

On 31 October, we announced a joint venture to pilot raising awareness of the prostate using the key messages in a primary care trust area. The effectiveness of the intervention will be fully evaluated, along with the impact on local health services. £100,000 is being provided by the Government, with the remaining £50,000 being provided by signatories to the prostate cancer charter for action. The pilot is due to begin in spring 2006.

We have provided funding for the following organisations to increase public awareness of prostate cancer:

In 2003–04, we provided £30,000 to the men's health forum to help fund their publication "the Men and Cancer Manual";

We have provided £135,000 to the Prostate Cancer Charity to increase available information about prostate cancer;

We are providing £105,000 to the Prostate Cancer Charity to improve awareness of the risks and symptoms of prostate cancer in African and Afro-Caribbean men in Britain;

We have worked with the prostate cancer charter for action to develop UK Prostate Link, a unique information source for men with prostate cancer, their families and health professionals. UK Prostate Link was launched on 3 November 2005, and is available at: http://prostate-link.org.uk/. £100,000 is being provided by the Government, with the remaining £50,000 being provided by signatories to the prostate cancer charter for action.

The number of PSA tests carried out each year is not collected centrally. However, research funded by the Department and carried out by the cancer screening evaluation unit, Institute of Cancer Research, has shown that the overall rate of PSA testing increased significantly from 1999 to 2002. The number of PSA requests submitted by participating laboratories rose by 42 per cent.

Scans (Poole)

Annette Brooke: To ask the Secretary of State for Health (1) what the waiting time is for *(a)* an urgent scan and *(b)* a non-urgent scan at Poole NHS Trust; [29961]

(2) what the average waiting time is for *(a)* an urgent scan and *(b)* a non-urgent scan in each NHS hospital in England. [29962]

Caroline Flint *[holding answer 21 November 2005]:* Waiting time data for diagnostic scans are not currently collected centrally. A new diagnostic data collection will be rolled out nationally from January 2006 to support delivery of the 2008 18-week target. This will not, however, enable a distinction between waiting times for urgent and non-urgent scans to be made.

School Nurses

Tim Loughton: To ask the Secretary of State for Health what steps are being taken to recruit school nurses. [24253]

Mr. Byrne: The Department is committed to providing new funding so that by 2010, every primary care trust, working with children's trusts and local authorities, will be resourced to have at least one full-time, year-round, qualified school nurse working with each cluster or group of primary schools and the related secondary school.

The Department understands that school nurses have an important and central role to play in tackling health issues among children and younger people, such as obesity, exercise, smoking prevention and cessation and sexual and emotional health.

The Chief Nursing Officer is leading the development and promotion of a new modern role for school nurses, and many school nurses are already modernising their roles and playing a key role in initiatives such as healthy schools, and preventing teenage pregnancy. The NHS Improvement Plan and the nursing strategy "Making a Difference' also point towards an expanded role for school nurses, and a three-year school nurse development programme is currently being updated to ensure school nurses remain a dynamic workforce who are able to contribute to good outcomes for children and young people.

Mr. Gibb: To ask the Secretary of State for Health how many school nurses there are in England. [25656]

Mr. Byrne: As at 30 September 2004, there were 2,409 qualified nurses working in school nursing employed in the national health service in England.

Sign Language

Mr. Waterson: To ask the Secretary of State for Health (1) how much of her Department's budget in 2005–06 is dedicated to funding training in sign language and lip reading; [26824]

(2) what measures she is taking to ensure that the NHS delivers specialist support to those who became severely or profoundly deaf after the age of 16 years. [26847]

Mr. Byrne: This information is not held centrally.

It is the responsibility of the national health service and local authorities to determine how best to provide services for people with hearing impairments. This includes resource allocation for training staff in appropriate means of communication and specialist support services.

Social Care Services

Mr. Lansley: To ask the Secretary of State for Health if she will commission research on the cost-effectiveness of providing preventative social care services. [23099]

Mr. Byrne: The Department's partnerships for older people projects initiative is making available ring-fenced funding of £20 million in 2006–07 and £40 million in 2007–08 to council-led partnerships to establish and test innovative approaches to preventative social and healthcare services. These will be subject to comprehensive evaluation at a local and national level and will become operational on 1 May 2006. The national evaluation will start at the same time as the partnerships pilots and will run for two and half years. Its findings will be integral to the Government's aim of developing an evidence base to support preventative approaches to care for older people.

Southport and Ormskirk Hospital Trust

Rosie Cooper: To ask the Secretary of State for Health whether she expects there will be further ward closures at Southport and Ormskirk hospital trust sites in the next 12 months. [26585]

Mr. Byrne: This is a matter for the Southport and Ormskirk hospital national health service trust to determine in partnership with local stakeholders.

Sudan One

Mark Williams: To ask the Secretary of State for Health if she will list the scientific studies which informed her Department's decision to remove Sudan One from the market. [29213]

Caroline Flint *[holding answer 16 November 2005]:* Sudan One is an illegal substance that is not permitted to be used in food. Under the General Food Law (EC Regulation 178/2002) the food industry has a legal responsibility to withdraw and recall all products known to be contaminated with such substances and to inform consumers.

The decision to recall products containing the dye Sudan One from the market was informed by a risk assessment agreed by the chairs of the independent expert Committees on Toxicity, Mutagenicity and Carcinogenicity of Chemicals in Food, Consumer Products and the Environment.

The risk assessment concluded that, based on the available data, it was prudent to assume that Sudan One is a genotoxic carcinogen. The risk assessment, including a list of the scientific studies on which it is based, was published in the 2003 annual report for the three committees.

Your Health, Your Care, Your Say

Mike Penning: To ask the Secretary of State for Health how many members of the public from the Hemel Hempstead area have been selected to take part in the "Your Health, Your Care, Your Say" consultation exercise. [25750]

Ms Rosie Winterton: Regional events were held in Gateshead, Leicester, London and Plymouth and a citizen's summit was held in Birmingham. None of the participants selected were from Hemel Hempstead.

On 4 November, 147 feedback forms had been received from local consultation events. In addition, over 18,000 on-line questionnaires had been completed and approximately 15,500 hard copies of the questionnaires had been returned. It is possible that participants from Hemel Hempstead may have taken part in these local events or completed the on-line or hard copy form of the questionnaire.

CULTURE, MEDIA AND SPORT

Active People Survey

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much *(a)* statutory funding and *(b)* National Lottery funding Sport England plans to spend on the Active People survey; and if she will make a statement. [21574]

Mr. Caborn *[pursuant to the reply, 31 October 2005, Official Report, c. 525W]:* I regret that my previous answer on how the costs of the Active People survey will be met was incorrect. It should read as follows:

> The £2 million annual cost over three years of the Active People survey will be apportioned by approximately *(a)* £1.1 million of Exchequer funding and *(b)* £0.9 million of Sport England Lottery funding. Sport England will review the apportionment annually.

Arts Council England

Ms Abbott: To ask the Secretary of State for Culture, Media and Sport which black artistic *(a)* companies, *(b)* projects and *(c)* individuals received Arts Council England funding for theatre in 2004–05. [26837]

Mr. Lammy: The table supplied by Arts Council England provides a breakdown of the information requested.

Regularly funded organisation funding for BME led organisations 2004–05

	£
Emma Wolukau Wanambwa Ms	16,000
Francesca Beard	16,000
Kali Theatre Company	131,500
Nitro	230,000
Talawa Theatre Company	463,989
Tamasha Theatre Company	255,625
Tara Arts Croup Ltd	333,125
Theatre Royal Stratford East	768,493
Tiata Fahodzi	131,500
Yellow Earth Theatre	131,500
Peshkar Productions	47,500
Rasa Productions	30,000
Diversity NTCs	60,000
Black Arts Development Project	47,500
Total	2,662,732

Regularly funded organisation funding for BME led organisations 2004–05

	£
Funding for strategic initiatives	
Black Regional Initiative in Theatre	310,000

Oval House Theatre	245,000
Tricycle Theatre Company	648,978
Total	1,306,310
Total	5,457,143

BBC Licence Fee

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport how many complaints have been received regarding the BBC's latest proposals to increase the licence fee; and if she will make a statement. [25873]

James Purnell: My Department regularly receives correspondence relating to the television licence fee. Since the BBC's announcement on 11 October 2005 we have received approximately 60 items of correspondence regarding the BBC's own assessment of its future funding needs. The Government are currently conducting a review of BBC funding to determine the future level of the licence fee and will make an announcement in due course.

Mr. Gauke: To ask the Secretary of State for Culture, Media and Sport (1) what representations the Government have received from the BBC requesting that the application of the BBC television licence fee be extended to premises which do not have a television but which have access to the internet; [27597]

(2) what consideration the Government have given to extending the application of the BBC television licence fee to premises which do not have a television but which have access to the internet. [27598]

James Purnell: The Government have received no such representations from the BBC. However, the BBC, as television licensing authority, considers that the current definition of a television receiver in the licence fee regulations already extends to a PC that is used to watch television programme services over the internet, if they are received at the same time or virtually the same time as they are received elsewhere by conventional means.

The Government have no plans for any changes to the current arrangements but, as indicated in the BBC Charter Review Green Paper published in March 2005, believes that changes to the existing funding model might have to be considered if in future large numbers of people are downloading audio-visual content from the internet and watching it on their computers or mobile phones, rather than using traditional TV services.

Grant Shapps: To ask the Secretary of State for Culture, Media and Sport how many people have black and white television licences. [27040]

James Purnell: As of March 2005, there were 58,000 black and white television licences in force.

Mr. Gregory Campbell: To ask the Secretary of State for Culture, Media and Sport what the additional cost to the public purse would be of reducing the age at which a free television licence can be obtained to 65 years. [29963]

James Purnell *[holding answer 21 November 2005]:* The estimated additional cost of extending free television licences to all households with a person aged 65 or over would be £443 million a year, based on the current licence fee level.

Dr. McCrea: To ask the Secretary of State for Culture, Media and Sport how many television licences have been issued in each constituency in Northern Ireland in each year since 2001. [30193]

James Purnell: TV Licensing, who administer the television licensing system as agents for the BBC, do not record the number of licences issued by constituency. Data by nation and region are estimated from United Kingdom figures and is available only for the last four years. The estimated number of licences issued in Northern Ireland in each of the last four years are as follows:

Year ending 31 March	*Number of licences issued*
2005	585,137
2004	566,739
2003	546,429
2002	525,812

BBC/Commercial Radio

Derek Wyatt: To ask the Secretary of State for Culture, Media and Sport how many written representations her Department has received since 1 October from hon. Members concerning commercial radio and the review of the BBC Charter. [30454]

Tessa Jowell *[holding answer 21 November 2005]:* Since 1 October, my Department has received 27 letters from hon. Members concerning commercial radio and the review of the BBC Charter.

Departmental Contracts (Direct Mail)

Norman Baker: To ask the Secretary of State for Culture, Media and Sport how many contracts were signed by her Department in *(a)* 2005–06 to date and *(b)* 2004–05 for direct mail; and what the value was in each case. [27674]

Mr. Lammy: DCMS has not placed any contracts for direct mail in either; *(a)* 2005–06 or *(b)* 2004–05.

Departmental Salaries

Mike Penning: To ask the Secretary of State for Culture, Media and Sport if she will list the 10 highest-paid employees in her Department, broken down by *(a)* job title and *(b)* salary including bonuses; and whether the individual concerned is (i) a civil servant and (ii) a contractor in each case. [27430]

Mr. Lammy: The information requested is published annually in the Department for Culture, Media and Sport Resource Accounts. The most recently published accounts for 2004–05 were laid before the House of Commons on 19 October 2005 and copies placed in the Libraries of the House.

Digital Television

David T.C. Davies: To ask the Secretary of State for Culture, Media and Sport what steps she is taking to ensure that *(a)* disabled and *(b)* elderly viewers will be able to meet the costs of the television switchover from analogue to digital. [26900]

James Purnell: My right hon. Friend the Secretary of State plans for a support scheme to provide help with equipment and installation and follow-up support for people aged 75 years and over and people with significant disabilities.

Assistance will consist of providing the necessary equipment to convert one TV set and the relevant support to install and use the equipment. The help will be available free of charge for those within the eligible groups on low incomes, and at a modest fee for others. Further details of how the scheme will operate in practice are being developed and will be set out in due course.

Mr. Jim Cunningham: To ask the Secretary of State for Culture, Media and Sport what her most recent estimate is of the date by which households across Coventry, South constituency will be able to receive digital terrestrial broadcasts. [29800]

James Purnell: My right hon. Friend the Secretary of State has confirmed the regional timetable for digital switchover; it will take place between 2008 and 2012 by ITV region in the following order:

	ITV region
2008	Border
2009	West Country, HTV Wales, Granada
2010	HTV West, Grampian, Scottish Television
2011	Yorkshire, Anglia, Central
2012	Meridian, Carlton/LWT (London), Tyne Tees, Ulster

Note:
Further details can be found at www.digitaltelevision.gov.uk

Digital switchover will enable coverage for digital terrestrial television to reach the same level as that of the current analogue signals. It will take place in the Coventry South constituency (central region) in 2011.

Free Television Licences

Jim Sheridan: To ask the Secretary of State for Culture, Media and Sport how many people over 75 years in Paisley and Renfrewshire, North constituency receive free television licences. [28964]

James Purnell: TV Licensing, who administer free television licences for people aged 75 or over as agents for the BBC, are not able to provide geographical breakdowns of the number of free licences issued. However, the number of households with at least one person aged 75 or over claiming the winter fuel payment in the Paisley and Renfrewshire, North constituency in 2004–05 was 2,960, according to Department for Work and Pensions records.

Licence Fee-funded Programmes

Derek Wyatt: To ask the Secretary of State for Culture, Media and Sport if she will take steps to ensure that all programmes funded through the BBC licence fee are made available free of charge only to UK citizens. [30616]

James Purnell *[holding answer 21 November 2005]:* The Government has no plans to take such steps. We do not believe it is practicable or desirable to make British citizenship a criterion for reception of BBC programmes.

Ministerial Travel

Norman Baker: To ask the Secretary of State for Culture, Media and Sport how many air miles were accrued through departmental ministerial travel in 2004–05, broken down by Minister; how many were *(a)* foregone and *(b)* donated to charity, broken down by charity; and whether air miles accrued by officials were required to be (i) foregone and (ii) given to charity. [17330]

Tessa Jowell: I have accrued 49,908 air miles from Ministerial travel in 2004–05.

No air miles were accrued by other Ministers.

Ministerial travel is conducted in accordance with the Ministerial Code and Travel by Ministers. Guidance for Ministers on the use of air miles is set out in the Ministerial Code. The guidance makes clear that air miles should be used only for official purposes or else foregone. However, if it is impracticable to use the benefits for Government travel, there is no objection to Ministers donating them to charity of these is permissible under the terms of the airline's scheme and the charity is one chosen by the airline.

Similar rules are in place for officials.

My air miles were collected in order that they will go towards helping young athletes with their travel costs.

Ministerial Visits

Mike Penning: To ask the Secretary of State for Culture, Media and Sport how many times she has visited *(a)* Dacorum and *(b)* Hertfordshire in her official capacity in the last 12 months; and what the purpose was of each visit. [29921]

Tessa Jowell: During the last 12 months I have not visited Dacorum but have visited Hertfordshire twice. Details are in the following table.

	Venue	Purpose
25 June 2005	Hockerill anglo-European College, Bishops Stortford	Speech to school leavers
20 October 2005	Richard Hale School, Hertford	To view the school sports facilities

National Lottery

Mr. Jim Cunningham: To ask the Secretary of State for Culture, Media and Sport what lottery funding is available for grass root sports clubs in the west midlands region. [29801]

Mr. Caborn: The following amounts of lottery money have been made available to grass root sports clubs in the West Midlands region in this financial year: £3,000,000 from the Community Investment Fund; £500,000 for the Football Foundation and £400,000 through the Awards for All scheme. Active England, which funds a range of projects benefiting grass root sports clubs, will also have invested £10,100,000 in the West Midlands region over the period 2002–03 to 2005–06.

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport what the value has been to date of national lottery grant applications made by organisations in Southend-on-Sea; how many lottery grant applications have been made by organisations in Southend-on-Sea; and how many lottery grant applications in Southend-on-Sea have been approved. [30070]

Mr. Caborn: This Department has never collected comprehensive information on either the number or value of applications for lottery grants received by the distributing bodies.

Since the start of the lottery there have been 330 awards made in Southend-on-Sea borough council area. This information is derived from the Department's lottery award database, searchable at www.lottery.culture.gov.uk, which uses information supplied by the lottery distributors.

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport how much has been paid out in grants from lottery funds to organisations in Southend-on-Sea *(a)* in cash terms and *(b)* as a percentage of the Essex total. [30071]

Mr. Caborn: Since the start of the lottery, £12.4 million of lottery money has been awarded in the Southend-on-Sea borough council area. This is 5.2 per cent. of the total awarded in Essex (£237.9 million). It is not possible to provide a geographical breakdown of lottery payments.

This information is derived from the Department's lottery award database, searchable at www.lottery.culture.gov.uk, which uses information supplied by the lottery distributors.

Mr. Laurence Robertson: To ask the Secretary of State for Culture, Media and Sport how many *(a)* lottery bids have been submitted by and *(b)* grants have been awarded to organisations in each of the six constituencies in Gloucestershire in each year for which figures are available; and what the size of the grant was in each case. [31087]

Mr. Caborn: The Department does not hold information on Lottery applications. There have been almost 2,000 awards in the six parliamentary constituencies in Gloucestershire. The number, and total value, of awards in each constituency in each year are given in the following tables. The information is derived from the Lottery Awards Database, which uses information supplied by the lottery distributors.

	Cheltenham		Cotswold		Forest of Dean	
	Number	Total value (£)	Number	Total value (£)	Number	Total value (£)
1995	4	208,717	10	358,220	6	531,153

Non-departmental Public Bodies

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport if she will list those of her Department's advisory non-departmental public bodies which the Government are required *(a)* to consult prior to legislative proposals and *(b)* to publish their response to advice from. [20107]

Mr. Lammy: The Government are not required to consult prior to legislative proposals or to publish their response to advice in respect of any of the advisory non-departmental public bodies for which the Department for Culture, Media and Sport has responsibility.

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport which of the advisory non-departmental public bodies sponsored by her Department have a statutory base; which *(a)* publish their advice to Government, *(b)* publish an annual report and *(c)* lay an annual report before Parliament; and whether it is under a statutory requirement in each instance. [20108]

Mr. Lammy: My right hon. Friend the Secretary of State has a statutory responsibility to publish and lay before Parliament an annual report on the operation of the Treasure Act, and this includes information which arises from recommendations made by the Treasure Valuation Committee (TVC). However, the committee does not have a statutory base or statutory requirement to publish its advice to Government.

There is no statutory base or statutory requirement to publish advice to Government, publish an annual report or to lay an annual report before Parliament, for any of the other advisory non-departmental public bodies for which the Department for Culture, Media and Sport has responsibility.

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport which of the advisory non-departmental public bodies sponsored by her Department *(a)* hold public meetings, *(b)* conduct public consultation exercises, *(c)* conduct consultation exercises with outside commercial interests, *(d)* publish a register of members' interests, *(e)* publish agendas for meetings and *(f)* publish the minutes of meetings; and whether it is under a statutory requirement in each case. [20109]

Mr. Lammy: The information is as follows.

Advisory Committee on Historic Wreck Sites (ACHWS)

English Heritage, which provides administrative support to the Advisory Committee on Historic Wreck Sites (ACHWS), compiles a register of members' interests in relation to the ACHWS which is available to the public on request. The agendas and minutes of ACHWS meetings are not published but are available on request. The intention is to publish them on the internet in future.

ACHWS do not hold public meetings, conduct public consultation exercises or conduct consultation exercises with outside commercial interests. There is no statutory requirement to perform any of the functions outlined in this question.

Advisory Committee on the Government Art Collection

The Advisory Committee on the Government Art Collection publishes abridged versions of minutes. These can be found at www.gac.culture.gov.uk. The Advisory Committee on the Government Art Collection do not hold public meetings, conduct public consultation exercises, conduct consultation exercises with outside commercial interests, publish a register of members' interests or publish agendas for meetings. There is no statutory requirement to perform any of the functions outlined in this question.

Advisory Council on Libraries

The Advisory Council on Libraries (ACL) publishes a briefing report (summary of the minutes of meetings) on the Department for Culture, Media and Sport's website.

ACL do not hold public meetings, conduct public consultation exercises, conduct consultation exercises with outside commercial interests, publish a register of members' interests or publish agendas for meetings. There is no statutory requirement to perform any of the functions outlined in this question.

Casino Advisory Panel

The Casino Advisory Panel is still considering how it will go about making its recommendations to the Secretary of State. However, it will be expected to consult as widely as possible in formulating its recommendations—this is likely to include the conducting of public consultation exercises and consultation exercises with outside commercial interests.

The panel will make available a register of members' interests on request and plans to publish its meeting agenda and minutes. There is no statutory requirement for the panel to do any of these tasks.

Legal Deposit Advisory Panel

The Legal Deposit Advisory Panel conducts consultation exercises with outside commercial interests. A register of members' interests is not published; however, there is a register which is open to the public (who can call the Department and request to view it).

The panel has only held one meeting so far and the minutes of the meeting have not been published. It is considering publishing summarised minutes on the DCMS website but has not agreed this with the chair of the panel yet. The panel do not hold public meetings, conduct public consultation exercises, conduct consultation exercises with outside commercial interests or publish agendas for meetings. There is no statutory requirement to perform any of the functions outlined in this question.

Reviewing Committee on the Export of Works of Art

A register of Reviewing Committee on the Export of Works of Art (RCEWA) members' interests is held by its secretariat and details can be obtained from the secretariat at the Museums, Libraries and Archives Council. Minutes of RCEWA policy discussions and case hearings held since 1 January 2005 are published on the Museums, Libraries and Archives Council's website.

RCEWA do not hold public meetings, conduct public consultation exercises, conduct consultation exercises with outside commercial interests or publish agendas for its meetings. There is no statutory requirement to perform any of the functions outlined in this question.

Spoliation Advisory Panel

The Spoliation Advisory Panel does not hold public meetings or conduct public consultation exercises or consultation exercises with outside commercial interests, though it does consult individuals and organisations as part of its evidence gathering.

It does not publish a register of members' interests, agendas for meetings or minutes of meetings. There is no statutory requirement to perform any of the functions outlined in this question.

Treasure Valuation Committee (TVC)

The Treasure Valuation Committee has in the past accepted requests for non- members to attend its meetings. There is no statutory requirement to publish the minutes of the meeting, but it is part of the DCMS publication scheme that a record of each meeting should be published on the DCMS website.

TVC do not conduct public consultation exercises, conduct consultation exercises with outside commercial interests, publish a register of members' interests or publish agendas for meetings. There is no statutory requirement to perform any of the functions outlined in this question.

Olympic Delivery Authority

Mrs. May: To ask the Secretary of State for Culture, Media and Sport who was involved in setting the *(a)* person specification and *(b)* job description for the job of chief executive of the Olympic Delivery Authority. [25489]

Tessa Jowell: The person specification and job description for the chief executive of the Olympic Delivery Authority were agreed by me following consultation with the Office of the Deputy Prime Minister, the Greater London authority, the London Organising Committee of the Olympic Games and the London boroughs of Hackney, Newham and Tower Hamlets. In addition to this specific consultation, more general consultation has also taken place with the organisers of previous games.

Olympic Games

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what the budget of the Nations and Regions Group for the London 2012 Olympics is; and how *(a)* Essex and *(b)* Kent will be dealt with by the Group. [25628]

Tessa Jowell *[holding answer 7 November 2005]:* The Nations and Regions Group met on 4 November to discuss how best to co-ordinate UK-wide interests in staging the 2012 Olympic and Paralympic Games, and will meet again early next year to confirm its remit and membership. Any budgetary requirements would need to be considered as part of those discussions.

Each English region has, or is putting place, a regional group responsible for taking work forward and reporting to the Regions and Nations Group. They will include representatives from Regional Development Agencies (RDAs), Regional Sports Boards and other relevant stakeholders. Under this arrangement, Kent would be dealt with through the South East Group, and Essex through the East of England Group.

The RDAs will of course play a vital role in this work, and we will write to them shortly to ask them to develop plans to maximise business and development opportunities offered by the 2012 Olympics in their region.

Among other areas of potential benefit they will wish to consider is the opportunity to host preparation and holding camps for overseas teams. The London Organising Committee for the Olympic Games (LOCOG) and the British Olympic Association (BOA), will develop a Pre-Training Guide by 2008, which will include details of facilities appropriate for use as preparation or training camps. They will work closely with regional representatives to maximise opportunities across the UK.

Mrs. May: To ask the Secretary of State for Culture, Media and Sport what plans her Department has to appoint representatives at a regional level to ensure that each region in the United Kingdom has access to advice on making the most of business and development opportunities offered by the 2012 Olympics. [25650]

Tessa Jowell: The Nations and Region Group, chaired by Charles Allen, met on 4 November to discuss ways to co-ordinate UK wide interests in staging the 2012 Olympic and Paralympic Games. The Group will meet again early next year to confirm its remit and membership.

In the meantime, each of the English Regions, Scotland, Wales and Northern Ireland have established, or are putting in place, regional working groups tasked with taking work forward. Regional groups will involve the Regional Development Agencies (RDAs) and appropriate representatives from Wales, Scotland and Northern Ireland. The RDAs will of course play a vital role, and we will write to them shortly to ask them to develop plans to maximise business arid development opportunities offered by the 2012 Olympics in their region.

Among other areas of potential benefit they will wish to consider is the opportunity to host preparation and holding camps for overseas teams. The London Organising Committee for the Olympic Games (LOCOG) and the British Olympic Association (BOA), will develop a Pre-Training Guide by 2008, which will include details of facilities appropriate for use as preparation or training camps. They will work closely with regional representatives to maximise opportunities across the UK.

Mrs. May: To ask the Secretary of State for Culture, Media and Sport what criteria *(a)* the London Development Agency and *(b)* Transport for London will use to decide which companies will be awarded contracts in relation to the requirements of the Olympic Park; and whether British companies will be given (i) preference and (ii) assistance by the Government when bidding for those contracts. [25707]

Tessa Jowell: The London Development Agency (LDA) and Transport for London are only letting critical contracts in advance of the establishment of the

Olympic Delivery Authority. The contracts will be let on the basis of a number of objective criteria, including cost, quality and capacity to deliver.

The interim Olympic Delivery Authority (interim ODA) is preparing a draft procurement strategy addressing the key criteria that need to be defined to ensure a successful project. The initial draft is expected to be published in December. The interim ODA has already published 'Procurement Principles' setting out its commitment to sustainability, design quality, local benefits, regeneration, legacy use and best value for money.

In accordance with European Union procurement regulation, no preference can be given to UK companies, but the Government will work with the LDA and other public agencies to ensure that UK companies can compete effectively for these contracts and that UK people have the best possible chance of seeing the thousands of jobs that will be created.

Mrs. May: To ask the Secretary of State for Culture, Media and Sport what plans she has to *(a)* meet officials in charge of delivering previous Olympic games and *(b)* visit (i) Beijing, (ii) Athens, (iii) Atlanta, (iv) Barcelona, (v) Seoul, (vi) Los Angeles, (vii) Moscow and (viii) Montreal. [25709]

Tessa Jowell: During the bid phase, the Minister for Sport and Tourism and I visited previous host cities—specifically Athens, Sydney, Barcelona and Beijing.

We drew heavily on the experience of the Sydney games in developing the bid and will continue to draw on the experience of previous host cities as we move forward to hosting the games.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport pursuant to the evidence from the Chief Executive of the British Olympic Association to the Culture, Media and Sport Select Committee on 1 November, which voting members of the British Olympic Association were contacted by *(a)* Sport England and *(b)* the English Institute of Sport in connection with the recent election of the new Chairman of the British Olympic Association. [27642]

Mr. Caborn *[holding answer 11 November 2005]:* I would refer the hon. Member to the answer I gave him on 14 October 2005, *Official Report*, column 605W, where I confirmed that no member of Sport England has discussed the election to the Chairmanship of the British Olympic Association (BOA) with either candidates for the post, potential candidates for the post nor voting members of the BOA.

The identity of the NOC member referred to in my answer of 7 November 2005, *Official Report*, column 157W, is Mr. Graham Bell, the representative of Snowsport Great Britain. I understand that the Chair of the English Institute of Sport (EIS) contacted him to establish whether he was prepared to take a call from a prospective candidate and that he communicated with both in his capacity as a personal friend, and not in his capacity as EIS chair. I understand that at no stage was any attempt made to influence the election of the new chair of the BOA.

Olympic Lottery

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport what Lottery funding is available for grass root sports clubs; and what assessment she has made of the effect on grass root sports clubs of the Olympic funding arrangements. [27352]

Mr. Caborn *[holding answer 11 November 2005]:* Information on the Lottery funding available for grass roots sports clubs in England is provided in the table. Information on the Lottery funding available for grass roots sports clubs in Scotland, Northern Ireland and Wales can be obtained from the Scottish Executive, the Northern Ireland Office and the National Assembly for Wales.

Sport England's business Plan for the next four years identifies a number of Lottery programs that are available to Grass Roots sports clubs either directly or through the National Governing Bodies. The total amount of Lottery funding into those programs amounts to £440.9 million and comprises:

	£
Football Youth Development Project	13,112
Safer Sports Grounds	1,373
UK Athletics	20,000
Community Athletics Refurbishment Program	4,289
National Governing Bodies (Whole Sport Plans)	137,899
Active Communities Development Fund	6,093
Sport Action Zones	2,878
Awards for All	26,400
Community Capital Projects	61,958
Community Investment Fund—Active England	101,682
Community Investment Fund—Open Interventions	65,246
Total (£ million)	440.9

We have been quite clear since launching our Olympic bid three years ago that Lottery proceeds would form a key part of the public funding package. We have allowed for up to £1.5 billion to be raised in this way, some of which will be raised by new Lottery games solely for this purpose. We expect the non-Olympic good causes to receive up to 5 per cent. less in income, as a result of sales diversion, over the eight-year period from 2005 to 2013. In addition, up to £410 million will be redirected from the proceeds of non-Olympic Lottery games after 2009.

Olympic Lottery Games

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the *(a)* income raised by and *(b)* popularity of the first Olympic scratchcard. [26430]

Tessa Jowell: Camelot Group plc has informed us that the Go for Gold scratchcard has been the fastest selling £1 scratchcard of 60 such cards launched since November 2002. Camelot considers that the income raised to date is in line with its estimates for Olympic lottery sales in the initial stages of what is a seven-year plan to raise £750 million towards our overall Olympics funding package.

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the impact of the new Olympic scratchcard on other lottery games. [26475]

Tessa Jowell: It is too early to make an accurate assessment of the impact of the new Go for Gold scratchcard on other national lottery games. Our long-term aim is to grow lottery sales overall—with a view to maximising returns to the good causes from both national lottery and Olympic lottery games. That aim is shared with the National Lottery Commission (the lottery regulator) and is subject to our other, shared overriding statutory duties, namely to ensure that the national lottery is run with due propriety and that the interests of all players are protected.

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport whether her Department has undertaken an analysis of sales of the new Olympic scratchcard by *(a)* geographical region and *(b)* age. [26474]

Tessa Jowell *[holding answer 10 November 2005]:* My Department has not undertaken any specific analysis of sales by either region or age of players. Such matters are for the operator, Camelot Group plc, to consider at an appropriate time, if it believes that they would help it maximise income for the Olympics good cause. However, I am aware that the Go for Gold scratchcard has been very widely distributed across the UK and that initial sales have been very good.

Predictive Diallers

John Hemming: To ask the Secretary of State for Culture, Media and Sport how many calls were made from call centres in her Department in 2004–05 using predictive diallers; how many such calls resulted in contact being made with the recipient without a Government agent available to talk to them; and what assessment she has made of the likely impact of Ofcom's policy on silent calls on the use of predictive diallers in departmental call centres. [28175]

Mr. Lammy: My Department does not operate any call centres.

Tourism

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what steps are being taken *(a)* to encourage tourism and *(b)* to improve tourist facilities in (i) Havering and (ii) Essex. [25887]

James Purnell: My Department allocates £50 million grant in aid to VisitBritain each year to market Britain overseas and England domestically. This activity benefits all parts of the country including Havering and Essex.

The Department allocates grant in aid of £1.9 million to the Greater London authority to support the Mayor in his lead responsibility for tourism in London. One of the Mayor's priorities in this area is the dispersal of visitors throughout all parts of the capital. Havering will benefit from the new East London tourism development strategy, key strands of which include the development of markets, products, sector skills and the encouragement of greater entrepreneurship.

This work has been given new impetus and the profile of East London raised by winning the competition to stage the 2012 Olympic and Paralympic games. A new pan-London Tourism vision and action plan are currently in development to ensure that benefits derived from tourism are maximised.

My Department also allocates grant-in-aid of £3.6 million to the regional development agencies for tourism support, including the East of England Development Agency. This contributes to the work of organisations such as the Essex Development and Regeneration Agency, which promotes Essex as a tourism destination.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal Boarding

Steve McCabe: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many *(a)* fines and *(b)* terms of imprisonment have been imposed on dog and cat home boarders found guilty of operating without a licence under the Animal Boarding Establishment Act 1963 in the last 12 months, broken down by local authority area; [29270]

(2) how many dog and cat home boarders have been found to be operating without a licence under the Animal Boarding Establishment Act 1963 in the last 12 months, broken down by local authority area. [29271]

Mr. Bradshaw: There were no convictions in England and Wales during 2004 for offences under Section 1 (8) of the Animal Boarding Establishments Act 1963 relating to the licensing and inspection of boarding establishment to ensure the welfare of animals, although two separate proceeding were taken forward during this period.

Animal Exhibitions

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what criteria are being applied to establishments exhibiting animals to decide which fall outside of the terms of Article 2 of the Zoo Directive 1999/22/EC. [30915]

Jim Knight: My Department publishes guidance on the criteria which are used to determine whether establishments exhibiting wild animals can be granted exemption from the Zoo Licensing Act 1981 (and hence from Directive 1999/22/EC in accordance with Article 2). These criteria are set out in Annex D of Circular 02/2003 (as amended by more recent guidance on llama and alpaca). The circular and updated guidance can be found at http://www.defra.gov.uk/wildlife-countryside/gwd/zoo.htm.

The criteria were developed with advice from the Zoos Forum, the Government's advisory body on zoo licensing matters. Each application is considered on its merits, along with advice from zoo inspectors, and some flexibility may be applied if there are other relevant considerations.

Batteries

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of batteries was recycled in the most recent year for which figures are available. [29143]

Mr. Bradshaw: A study for the Department for Trade and Industry (DTI), carried out by consultants in 2000, estimated that the recycling rate for spent automotive and industrial batteries in 2003 would be around 90 per cent. of arisings. Data collected more recently indicate that less than 2 per cent. of spent portable batteries are currently being recycled.

Beef

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what the timetable is for ending the EU ban on British beef.[25229]

Mr. Bradshaw: The European Commission has acknowledged that the essential preconditions for lifting the EU export ban have been fulfilled. We are now awaiting proposals from the Commission for legislation to lift the ban. Such proposals would have to be submitted to EU Member States to consider in the Standing Committee for the Food Chain and Animal Health (SCoFCAH). If the Member States were to vote in favour of the proposals in SCoFCAH, they would be translated into all EU languages and presented to the College of Commissioners for formal adoption. We hope that these processes will be completed in early 2006, but this is a best case scenario.

In the meantime we are consulting widely within the UK on the corresponding changes which will be required to domestic legislation. This should enable us to implement the necessary amendments as soon as possible when the EU legal processes are completed. This should enable beef exports from the UK to resume at the earliest opportunity. The consultation package is available on the DEFRA website at http://www.defra.gov.uk/corporate/consult/bse-exports/index.htm.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects beef exports to *(a)* France and *(b)* Germany to begin, following the end of the Over Thirty Months Scheme. [28032]

Mr. Bradshaw: The timing of lifting the export ban remains uncertain but is unlikely to happen before February 2006 at the earliest. The Government are continuing to work in Brussels to ensure that the export ban is lifted as soon as possible.

We would expect Germany and France to comply with EU law when the ban is lifted.

Commmunities Food Supplies

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list those *(a)* organisations, *(b)* communities and *(c)* categories of groups in receipt of Communities food supplies from intervention stocks under Regulation (EEC) 3149/92 as amended by Regulation (EC) 1608/2205; if she will list those that have received such aid in the United Kingdom since May 1997; and if she will make a statement. [27753]

Jim Knight: The Surplus Food Scheme laid down in Commission Regulation (EC) 3149/1992, as amended by Commission Regulation (EC) 1608/2005, allows member states to choose whether or not to participate in the scheme. The UK has chosen not to participate in this scheme since 1998, therefore no organisations, communities or categories of groups are currently in receipt of intervention stocks. The Rural Payments Agency no longer has records relating to this activity.

Criminal Offences

Simon Hughes: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list criminal offences created in legislation sponsored by her Department since May 1997, broken down by Act. [26706]

Jim Knight *[holding answer 9 November 2005]* DEFRA came into being on 8 June 2001 and so it is appropriate to answer the question from that date.

The following Acts created criminal offences in the 2002–03 session of Parliament.

The Animal Health Act 2002 (c.42)

created several criminal offences including the offence of deliberately infecting an animal with any one of 15 diseases specified in the Act, including foot-and-mouth disease. The Schedule created an offence of failing to comply with a restriction notice preventing the use for breeding of sheep that are of a genotype that is susceptible to transmissible *spongiform encephalopathies* (TSE) and also offences of obstructing an inspector carrying out duties under the Act.

The Waste and Emissions Trading Act 2003 (c.33)

provided powers to make offences by regulation for failures to comply with the scheme to be created.

The Water Act 2003 (c.37)

made it an offence under Part one to fail to comply with a notice served by the Environment Agency requiring work to be carried out on facilities for impounding water or a licence application to be made for unlicensed impounding works.

Where abstraction or impounding takes place without a licence or does not comply with the terms of a licence, the Act made it an offence to fail to comply with an enforcement notice issued by the Environment Agency.

Part two created the offence of introducing water to or supplying water from a water undertaker's supply system without being a water undertaker or a licensed supply person. Under Part three it is an offence for an owner of manager of a large raised reservoir to fail to prepare a flood plan when required to do so. Part three also extended the offence of supplying water unfit for human consumption to apply to persons including employees of the water undertaker and self-employed people involved with the supply of water.

During the 2003–04 session the following Acts created criminal offences:

The Gangmasters (Licensing) Act 2004 (c. 11)

makes it an offence for any person to act as an unlicensed gangmaster and for any other person to enter into arrangements with an unlicensed gangmaster.

The Act also created other offences in relation to forgery of documents.

The Highways (Obstruction by Body Corporate) Act 2004 (c.29)

extended the offence of obstructing a highway under the Highways Act

1980 so that the directors, managers and other company officers of a guilty

company may also be found guilty of the obstruction if it was committed

with their consent, connivance or attributable to their neglect.

The Hunting Act 2004 (c.37)

made it an offence under Part one to hunt a wild mammal with a dog, except in some circumstances such as where the dog is being used for stalking and flushing-out only, or to participate in, attend or knowingly facilitate a hare-coursing event.

Part one also makes it an offence for the owner of a dog to permit it to be used for hunting or hare-coursing or for the owner of land to allow the land to be entered or used for hunting or hare-coursing.

During the 2004–2005 session the following Act created criminal offences:

The Clean Neighbourhoods and Environment Act 2005 (c.16)

Created offences in relation to "nuisance parking" which is the selling or repairing of vehicles on a road by persons in business. Part six of the Act created offences in relation to breach of "Dog Control Orders", which in relation to specified land may exclude dogs from the land, or prohibit the fouling of the land, or require dogs to be kept on leads when on the land or may limit the number of dogs a person may take onto the specified land. In relation to certain premises in an "Alarm Notification Area" Part seven of the Act created offences of failing to nominate a key-holder where an audible intruder alarm is present.

The Act also made many existing offences punishable by a fixed penalty notice.

Dairy Farming

Mr. Greg Knight: To ask the Secretary of State for Environment, Food and Rural Affairs how many persons are employed in dairy farming in England; and how many were so employed on the same date in 1997. [27363]

Jim Knight *[holding answer 15 November 2005]:* The following figures show the number of workers and total labour force on holdings in England where dairy is the predominant activity. The employee figures include salaried managers, casual and family workers. Total labour force includes farmers, partners, directors and their spouses (if working on the holding) in addition to the number employed.

	Number employed	*Total labour force*
1997	23,394	58,498
2004	13,592	41,665

Notes:
1. Figures prior to 2000 show main holdings only. From 2000 onwards minor holdings are included.
2. Due to a register improvement exercise in 2001 labour figures prior to this are not directly comparable with later results.

June Agricultural Survey

Departmental Consultants

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the *(a)* private finance initiative and *(b)* public private partnership external consultants used by her Department and each of its agencies in each of the last two years; and what the (i) nature of the work and (ii) cost was in each case. [27920]

Jim Knight: Information about the external consultants used by the Department and its agencies to advise on PFI and PPP is set out in the following tables. Details of the companies with whom PFI and PPP deals themselves have been agreed are available on Partnerships UK's (PUK) website.

PFI

	Agency	*Consultant*	*Nature of work*	£ *Cost*
2003	Defra	Davis Langdon and Everest	Cambridge Eastbrook PFI contract—financial advice	28,000
2003	Defra	Gardiner and Theobald	Cambridge Eastbrook PFI contract—project management	13,000
2003	Defra	Pannell Kerr Foster Associates	Cambridge Eastbrook PFI contract—financial advice	10,000
2003	Defra	Eversheds	Cambridge Eastbrook PFI contract—legal advice	17,000
2003	Defra	Ernst and Young	Financial assessment of Lancashire waste PFI project	40,000
2003–04	Defra	PUK	Development of guidance on PFI outline business case review in the waste sector	20,000
2003–04 2004–05 2005–06	Defra	PUK	Training on waste PFI outline business case review	[1]5,000
2003–04	Defra	PUK	Review of barriers to bank participation in PFI in the waste sector	9,000
2003–04	Defra	Deloitte	Financial assessment of Northumberland waste PFI project	23,000
2004	Defra	Ernst and Young	Waste sector PFI project support	19,000
2004	Defra	KPMG	Financial assessment of Shropshire waste PFI project	26,000
2004	Defra	KPMG	Financial assessment of Wakefield waste PFI project	19,000
2004	Defra	Deloitte	Financial assessment of LB Southwark waste PFI project	31,000
2004	Defra	Deloitte	Financial assessment of Greater Manchester waste PFI project	23,000
2004	Defra	Ernst and Young	Financial assessment of Cambridgeshire CC waste PFI project	40,000
2004	Defra	PwC	Advice on encouraging entry into the waste PFI market	26,000
2004	Defra	Davis Langdon and Everest	Cambridge Eastbrook PFI contract—estate management	32,000
2005	Defra	Davis Langdon and Everest	Cambridge Eastbrook PFI contract-estate management	30,000
2004–05	Environment Agency	PUK	Membership of project board reviewing performance of PFI projects	10,000
2004–05	Environment Agency	PA Consulting/Arup	Review of performance of existing PFI contracts and potential for future PFI support in flood defence work	195,000
2005	Defra	4Ps	Consultancy on various PFI projects in the waste sector	94,000
2005	Defra	Deloitte	Advice on Greater Manchester waste PFI project	9,000
2005	Defra	AEA Tech	PFI stage 2 waste model	4,000
2005	Defra	PUK	Support Defra in providing guidance to authorities preparing PFI outline business cases in the waste sector	27,000
2005–06	Defra	PUK	Provide support to Notts CC in negotiation of their waste PFI preferred bidder	33,000

PFI

	Agency	Consultant	Nature of work	£ Cost
Current and ongoing	Defra	PUK	Guidance development and strategic support to Defra in respect of two potential waste PFI deals in Notts and Cornwall	210,000
Current and ongoing	Defra	PUK	Development of PFI value for money guidance	20,000

[1] per annum.

PPP

£	Agency	Consultant	Nature of work	Cost
End 2003 to February 2005	British Waterways		Waterside Pub Partnership:	
		Nabarro Nathanson	Legal advice	527,000
		Ernst and Young	Financial advice	356,000
		PUK	Government liaison and strategic advice	64,000
		Alan Newman	Project manager	159,000
		Gerald Eve	Property adviser	79,000
		Other	Other smaller items	85,000
End 2003 to March 2005	British Waterways		Wood Wharf PPP:	
		Good Relations	PR/negotiation advice	189,000
		Denton Wilde Sapte	Legal advice	140,000
		Atis Real	Property adviser	451,000
		Berwin Leighton Paisner	Legal advice	762,000
		Deloitte	Financial advice	983,000
		Big Picture Consulting	General project advice	48,000
2005	Environment Agency	PUK	Development of a commercialisation strategy	25,000

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the external consultants used by her Department and each of its agencies, excluding public private partnership and private finance initiative contracts, in each of the last two years; and if she will provide details of the *(a)* nature of the work and *(b)* cost in each case. [27921]

Jim Knight: This information is not held centrally and could be provided only at disproportionate cost.

Departmental Finance

Helen Goodman: To ask the Secretary of State for Environment, Food and Rural Affairs what the latest estimate is of underspend by her Department *(a)* in cash terms and *(b)* as a percentage of departmental budget for financial year 2004–05. [18307]

Jim Knight: For details of the Department's underspend in the 2004–05 fiscal year, I refer the hon. Member to the information contained in the Public Expenditure Outturn White Paper (PEOWP) 2004–05 (Cm 6639). Table 1 of PEOWP 2004–05 gives provisional outturn against Final Resource DEL and Table 1A gives Provisional outturn against Final Capital DEL. A percentage figure can be calculated from the tables.

Departmental Staff

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the 10 highest-paid employees in her Department, broken down by *(a)* job title and *(b)* salary including bonuses; and whether the individual concerned is (i) a civil servant and (ii) a contractor in each case. [27434]

Jim Knight: The posts held by the 10 highest paid employees in Defra as at 1 November 2005 were (in alphabetical order):

Acting Permanent Secretary

Chief Operating Officer

Chief Scientific Adviser and Director General Science, Economics and Statistics

Chief Veterinary Officer and Director General, Animal Health and Welfare

Director, Climate, Energy and Environmental Risk

Director General, Environment

Director General, Natural Resources and Rural Affairs

Director General, Sustainable Farming, Food and Fisheries

Director, Rural Policy

Solicitor and Director General, Legal Services.

One is an inward secondment to Defra and the remainder are direct employees. Their salaries are in the range £113,000 to £152,000 including bonus awards.

The salaries of Chief Executives of Defra's executive agencies are in their individual annual reports, placed before Parliament.

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff in her Department were *(a)* civil servants, *(b)* contractors and *(c)* other staff each year since 1997. [27454]

Jim Knight: Defra was created in June 2001 and this answer relates to the period since then.

(a) Information on the number of civil servants in Defra is contained in Civil Service Statistics 2004 which is available in the Library and on the Cabinet Office Statistics website at: http://www.civilservice.gov.uk/management_of_the_civil_service/statistics/civil_service_statistics/index.asp.

Table C of Civil Service Statistics 2004 shows permanent staff numbers between 1998 and 2004. Table A in each year's publication shows the number of both permanent and casual staff for that year.

(b) and *(c)* Records of the number of contractors and other non-civil servants employed in the Department are not held centrally and could be obtained only at disproportionate cost.

Departmental Transport

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many and what percentage of journeys have been made using public transport in her Department in each year since 2001. [27562]

Jim Knight: I refer the hon. Member to the answer given on 7 November 2005, *Official Report*, column 23W.

Departmental Vehicles

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 7 November 2005, *Official Report*, column 22W, on departmental vehicles, how many vehicles used by her Department use hybrid environmentally friendly technologies. [27561]

Jim Knight: The Defra and Executive Agencies fleet has eight vehicles powered by hybrid environmentally friendly technologies. In addition, the London-based taxi contract, Green Cars, uses only cars that are powered by LPG, or hybrid technologies.

It is not possible to provide information on the number of private cars used for official business that use hybrid environmentally friendly technologies. The Government Car Despatch Agency provides five cars that use hybrid environmentally friendly technologies for ministerial use. These are not part of the Defra fleet.

Direct Mail

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many contracts for direct mail were signed by her Department in *(a)* 2005–06 to date and *(b)* 2004–05; and what the value was in each case. [27896]

Jim Knight: In the financial year 2004–05, two contracts for direct mail were let, and the financial values of each contract were £111,000 and £163,000 respectively. No contracts for direct mail have been let in 2005–06 to date.

Energy Efficiency

Mr. Marsden: To ask the Secretary of State for Environment, Food and Rural Affairs what data her Department has collected since 2003 on the percentage of recipients of Warm Front who are fuel poor. [29013]

Mr. Morley: We do not collect specific data on the fuel poverty status of Warm Front recipients. The eligibility criteria for Warm Front are specifically designed to use receipt of one of a number of qualifying benefits as an indication that a particular householder may be vulnerable and so at risk of fuel poverty.

Households not in receipt of a qualifying benefit at the time of application are offered a benefit entitlement check, which is designed to provide both the potential of increasing household income and to establish eligibility of households to benefit from measures under Warm Front.

Mr. Marsden: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the future funding requirements of *(a)* Warm Front and *(b)* other programmes to combat fuel poverty; and if she will make a statement. [29014]

Mr. Morley: In the last Spending Review we announced an additional £140 million to tackle fuel poverty, taking our total fuel poverty funding to £251 million by 2007–08.

We are currently working with colleagues across Government to review the level of resources and associated activity required to meet our 2010 target of eradicating fuel poverty, as far as reasonably practicable, in vulnerable households in England. This work is being carried out taking into account current projections on fuel prices and household incomes to 2010.

The Decent Homes Standard and the Energy Efficiency Commitment will continue to make a contribution toward the achievement of our target.

Mr. Marsden: To ask the Secretary of State for Environment, Food and Rural Affairs how many central heating systems have been fitted for people aged over 65 years under the Warm Front Scheme in each year since the scheme started; and what percentage this represents of the total systems fitted. [29016]

Mr. Morley: Between the launch of the Warm Front Scheme in June 2000 and the end of March 2005, central heating systems were only available to those aged 60 or over. During this period the following number of new gas central heating systems were installed:

Aged 60+

	Number installed
2000–01	5,118
2001–02	26,915
2002–03	14,492
2003–04	9,546
2004–05	8,643

Of these systems, the following number were installed for applicants over the age of 65:

Aged 65+

	Number installed	*Percentage of total installed*
2000–01	4,148	81
2001–02	18,369	68
2002–03	11,445	78
2003–04	7,828	82
2004–05	7,393	86

Environmental Health Officers

Mr. Gordon Prentice: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to encourage local authorities to recruit more environmental health officers. [28236]

Mr. Woolas: I have been asked to reply.

It is the responsibility of individual authorities to address recruitment and retention issues within the workforce.

The Local Government Association and the Employers Organisation for Local Government have identified shortage of environmental health officers within the sector. They are working with the Office of the Deputy Prime Minister (OPDM) to raise the profile of the profession.

The ODPM Capacity Building Funding provided £780,000 in the year 2004–05 to promote the provision of practical training placements of Environmental Health Officers and Trading Standards Officers within local authorities in England.

A further £760,000 of ODPM Capacity Building Funding has been allocated for 2005–06 to promote further practical training placements and work experience opportunities within local authorities in England.

Environmental Protection

Andrew Mackinlay: To ask the Secretary of State for Environment, Food and Rural Affairs whether it is part of the European Union Acquis that countries are required to have an environmental protection agency or similar organisation separate or at arm's length from Government; and if she will make a statement. [29616]

Mr. Morley *[holding answer 17 November 2005]:* There is no such requirement within the acquis. The administrative structure adopted is a matter for each member state.

Farming

Mr. Bone: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment she has made of the impact of regulations on farm businesses; and if she will make a statement. [29395]

Jim Knight: Defra is developing a new approach to farming regulation and will be publishing more details on this at the end of November. This will be supported by an economic analysis of the impact of the major regulatory proposals on the horizon between now and 2015.

We are also taking part in a major exercise across Whitehall, led by the Better Regulation Executive, to develop a database of our current regulations. This is the starting point for measuring administrative burdens and identifying areas for change.

In its Five Year Strategy published in December 2004, Defra made a commitment to reduce the administrative burdens imposed by its regulations on business, including farming, by at least 25 per cent. by the end of 2009.

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment she has made of the speed with which awards under the Single Farm payments scheme are made. [22163]

Jim Knight: Ministers regularly assess the likely timing of Single Payment Scheme awards with officials at the Rural Payments Agency, which is responsible for the administration of the scheme in England. RPA remains on course to commence payments in February 2006 and complete 96 per cent. of payments by the end of March, in line with announcements made at the start of the year.

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has had with the National Farmers' Union about the impact of fuel prices on the farming industry; and if she will make a statement. [23164]

Jim Knight: In addition to the Minister for Sustainable Farming and Food's regular meetings with the NFU, the Secretary of State and other DEFRA Ministers meet the NFU to discuss a wide range of issues of relevance to rural communities and food producers.

Mr. Evans: To ask the Secretary of State for Environment, Food and Rural Affairs how many new entrants into farming there were in each year since 1997, broken down by type of farm. [27994]

Jim Knight: There is little robust data on the numbers of new entrants by type of farming.

Figures from the June Agricultural and Horticultural Survey indicate the number of holdings in England by farm type in June each year. These figures show the net change in the number of holdings but it is difficult to infer specific information from the figures in terms of new entrants. Please see the following table.

A recent source of information about new entrants to farming is the report into Entry to and Exit from Farming in the UK that was commissioned by DEFRA in 2003. This is available on the DEFRA website at http://statistics.defra.gov.uk/esg/reports/entrvexit/default.asp. Among the more significant findings from this research were that the rate of entry into farming was lower than the rate of exit and that both the rate of entry and the rate of exit were lower than in other sectors. The research found that some 2 per cent. of farmers had entered the industry in the five years up to and including 2003, while up to 18 per cent. of farmers had retired over the same period.

Although the study did not look at rates of entry by farm type, there were indications from the research that the proportion of decision makers who have been farming for 20 years or less was highest in the poultry, horticulture and dairy sectors and lowest in the pig and cereals sectors.

Broader information about new UK businesses in the agricultural sector registering for VAT is given in table 2. VAT registrations do not capture all start-up activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which has risen in each year since 1997. Only 1.8 million out of 4.3 million enterprises were registered for VAT at the start of 2004. Therefore, although the figures show an overall decline in the numbers of businesses registering for VAT in the agricultural sector between 1997 and 2004, this does not necessarily mean that there was a decline in the numbers of new entrants over the same period.

Total registered holdings in England by farm type 1997 to 2004

Farm type	1997	1998	1999	2000	2001	2002	2003	2004
Cereals	21,085	21,473	20,905	20,996	21,340	21,258	21,538	22,879

Department of Trade and Industry

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* dairy, *(b)* arable and *(c)* mixed farms there are in Northamptonshire; and how many there were in each category in (i) 1975, (ii) 1980, (iii) 1990 and (iv) 2000. [29022]

Jim Knight *[holding answer 16 November 2005]:* The number of holdings by farm type in Northamptonshire are as follows:

	(a) Dairy	*(b) Cereals*	*General cropping*	*(c) Mixed*
(i) 1990	107	689	80	219
(ii) 2000	55	683	29	209

Note:
Comparable data for earlier years are not available. Farm type categories have changed over time.
Figures prior to 2000 cover main holdings only. Figures from 2000 onwards include all holdings.

June Agricultural Survey

Flooding

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list communities recorded by the Environment Agency as being subject to flooding in 2000, giving in each case the number of *(a)* commercial and *(b)* residential properties flooded; and for how many and what percentage of properties in each community (i) flood defences have been improved, (ii) flood defence improvements have been approved but not yet implemented and (iii) flood defences improvements have been approved. [27892]

Mr. Morley: The Environment Agency has provided as much information as possible, subject to disproportionate cost limitations, and a copy will be made available in the Library of the House.

As I explained in my answer to a similar previous question from the hon. Member on 10 February 2005, *Official Report*, column 1662W, I regret it has not been possible, without incurring disproportionate cost, to categorise the properties flooded in 2000 by commercial and residential use, or to provide other exact details in response to these questions.

Flower Imports

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what was the total *(a)* volume and *(b)* value of flowers imported into the UK from Kenya for each year since 2001; what discussions her Department has had relating to the involvement of UK companies in the import or production of flowers produced overseas using chemicals banned in the EU; and if she will make a statement. [27831]

Mr. Morley: The total volume and value of imports of fresh cut flowers into the UK from Kenya since 2001 is set out in the given table.

The Department has had no discussions on the use of chemicals in the production of flowers overseas. However, my noble Friend, the Lord Bach, met with a major importer of cut flowers from Kenya on 13 July this year to discuss the impact of changes to plant health import regulations, the resulting increase in inspections of cut flowers to check for the presence of quarantine plant pests, and the charges which have been introduced to cover the cost of those inspections.

0511k009: UK imports of cut flowers from Kenya 2001 to August 2005

Description	2001		2002		2003		2004		January-August 2005	
	Tonnes	£000	Tonnes	£000	Tonnes	£000	Tonnes	£000	Tonnes	£000
Fresh cut flowers: other	2,300	6,946	3,934	12,012	5,549	15,705	10,304	28,416	6,356	17,794
Fresh cut flowers: roses	4,273	14,388	4,746	16,054	5,068	16,264	4,855	14,077	4,333	11,535
Fresh cut flowers: carnations	2,470	6,673	1,831	4,873	961	2,271	1,581	2,810	1,751	4,911
Cut flowers: prepared	1,095	3,786	572	1,998	45	171	8	31	8	37
Fresh cut flowers: gladioli	7	12	120	156	143	485	220	646	22	61
Fresh cut flowers: chrysanthemums	3	18	10	66	25	166	21	133	3	18
Fresh cut flowers: orchids	37	35	8	10	0	17	—	—	—	—
Grand total	10,183	31,859	11,221	35,171	11,792	35,078	16,989	46,112	12,473	34,357

2005 data are subject to amendments.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what controls are placed on the import of flowers into the UK in relation to the use of *(a)* pesticides and *(b)* environmentally unsustainable practices; and if she will make a statement. [27832]

Mr. Morley: We do not monitor imported flowers for pesticides residues nor do we have any power to insist that the material is produced in an environmentally sustainable way. However, EU common quality standards require that marketed cut flowers must be free of pesticide residues that affect the visual quality of the product and the Plant Health Order requires that they must also be free from certain plant pests, which do not normally occur in the UK.

The Pesticides Safety Directorate is providing technical assistance to Kenya, Ghana, Tanzania, Jamaica, St. Lucia and Uganda as part of the EC-funded Pesticides Initiative Programme, which covers the Africa, Caribbean and Pacific group of states. Activities include visits to assist the regulatory authorities with capacity building of their structures and processes, and delivering training programmes covering the technical, policy and procedural requirements of pesticides regulation.

Food Security

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what her Department's policy is towards food security; what recent discussions she has had with the EU on food security; and if she will make a statement. [28030]

Jim Knight: Our food security policy ensures consumers have access to a stable and adequate supply of food. Our domestic agriculture industry has an important contribution to make to the continuity of food supply by improving its ability to produce what the market requires. The reformed CAP, in breaking the link between subsidy and production, is encouraging farmers to produce what the market requires, rather than what subsidies dictate. Our farmers are well placed to produce foodstuffs that Europe's climate is suited to, but we cannot grow all the agricultural products our consumers might want to buy.

However, the UK has long been a net importer of food and national and international food security is best facilitated through improved trading relationships based on more open international markets and reductions in trade distorting subsidies.

The Secretary of State has had no recent discussions with the EU on the subject of food security.

Forests

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make representations to the Chancellor of the Exchequer to encourage more private sector ownership of forests by extending tax concessions to those purchasing forest land. [30992]

Jim Knight: I do not plan to make representations to the Chancellor of the Exchequer on tax concessions for private land purchases. The sector benefits from all income and profits from timber sales being free from corporation tax and income tax. Commercial woodlands continue to be able to attract relief on inheritance tax and there is no capital gains tax on the increase in value of standing timber. In addition, government continues to support sustainable forest management for the provision of public benefits through direct grants from the England woodland grant scheme.

Freedom of Information

Peter Law: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list Freedom of Information (FOI) requests to her Department which have been passed to the FOI clearing house for evaluation, broken down by *(a)* subject and *(b)* date of request. [28943]

Jim Knight: Information about the handling of Freedom of Information requests is published in "Freedom of Information Statistics on Implementation in Central Government". The most recently published report was 30 September 2005 and copies were placed in the Libraries of both Houses. Additional information about the role of the Clearing House can be found on the DCA website at http://www.foi.gov.uk/guidance/index.htmt#2. Departments do not release information about the internal handling of requests, such as details of which requests were referred to the Clearing House for guidance.

Fuel Poverty

Mr. Marsden: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government are taking to identify older people in fuel poverty who are not in receipt of benefits. [29015]

Mr. Morley: The Warm Front Scheme is the Government's main tool for tackling fuel poverty in the private sector. Eligibility for the scheme is via the receipt of one of a number of qualifying benefits.

Those not in receipt of a qualifying benefit at the time of application are offered a benefit entitlement check, which is designed to provide both the potential of increasing household income and to establish eligibility of households to benefit from measures under Warm Front.

Hunts

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs whether hunts which purchase birds of prey are obliged to register the *(a)* purchase, *(b)* sale, *(c)* death and *(d)* loss of such birds; and if she will make a statement. [29841]

Jim Knight: The Wildlife and Countryside Act 1981 makes it a requirement that any bird listed on a Schedule to the Act that is kept in captivity must be ringed and registered with Defra. The list includes some, but not all, species of bird of prey that are likely to be used for hunting. The Act is a possession control, and does not regulate the purchase or sale of specimens. We request that registered keepers of birds notify the Department of the death or loss of a registered bird, but this is not a legal requirement.

The sale (or commercial use) of certain species of birds of prey is regulated by the Convention on International Trade in Endangered Species (CITES), applied by EC Regulations, which requires the use of a certificate issued under Article 10 of Council Regulation. An individual or organisation which purchased or sold listed birds of prey without complying with the regulations would be committing an offence. However, the possession of such a certificate is sufficient. There is no requirement to register individual sales under that certificate with my Department.

Litter Abatement Orders

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs how many litter abatement orders have been served in Hertfordshire in each of the last five years. [26356]

Mr. Bradshaw: None.

Milk Price

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what encouragement she is giving to ensure that a competitive market exists for the price of milk paid to farmers. [23703]

Jim Knight: Competition issues are a matter for the Office of Fair Trading. The Government believe that as long as competition rules are respected, it should not seek to intervene in matters of pricing.

My noble Friend Lord Bach and I will nevertheless be discussing a range of competition issues with colleagues in the Department of Trade and Industry next month. And, through the Dairy Supply Chain Forum, which my noble Friend chairs, we are working with the industry to help it secure a competitive and sustainable future.

Ministerial Travel

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list, for each year since 1995, the number of flights, including helicopter flights, taken by Ministers within her Department for UK and overseas visits; on how many occasions *(a)* charter flights were used and *(b)* first and club class tickets were obtained; and if she will indicate who accompanied the Ministers on each trip. [27801]

Jim Knight: All ministerial travel is undertaken in accordance with the rules set out in the Ministerial Code and Travel by Ministers, copies of which are available in the Libraries of the House. In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The list indicates when non-scheduled flights were used. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Library of the House. These report information reaching back to 1995–96. Information for 2005–06 will be published after the end of the financial year.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been spent in each year from 1 May 1997 on ministerial travel, broken down by *(a)* provision and running costs of vehicular transport, *(b)* first class travel by rail, *(c)* standard class travel by rail, *(d)* first class travel by air, *(e)* club or equivalent class travel by air and *(f)* economy class travel by air. [27894]

Jim Knight: All ministerial travel is undertaken in accordance with the rules set out in the "Ministerial Code" and "Travel by Ministers", copies of which are available in the Libraries of the House. In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The list indicates when non-scheduled flights were used. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Library of the House. These report information reaching back to 1995–96. Information for 2005–06 will be published after the end of the financial year.

Nappies

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how much money the Department has spent on encouraging the use of washable nappies; and if she will make a statement. [25453]

Mr. Bradshaw: The cost of the reusable nappy programme managed by the Waste and Resources Action Programme is £2.8 million for the three years from 2003–06.

Nuclear Waste

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what volume of *(a)* low level, *(b)* intermediate level and *(c)* high level nuclear waste went missing in 2004; and what percentage was recovered. [29144]

Mr. Morley: Further to my previous reply to the hon. Member on 22 June 2005, *Official Report*, column 1040W, the Department is not aware of any radioactive waste that has gone missing.

Palm Oil

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her policy to discuss new regulations with EU colleagues on preventing the importation of palm oil for food production whose production has damaged the habitat of the orangutan. [29029]

Mr. Morley: There have not been any specific discussions concerning the destruction of orangutan habitats for palm oil plantations to date.

DEFRA are commissioning research work into the impacts of internationally sourced commodity production on biodiversity. This work will seek to identify the range of commodities with the largest effects on global biodiversity; palm oil will be one of the commodities investigated. The outcomes of this work will inform future policy development in the UK and abroad. Further research is also being undertaken under the auspices of the Roundtable on Sustainable Palm Oil. This was established in 2004 and is running a pilot programme in sustainable palm oil production in Malaysia.

Notes:

The RSPO is an international organisation which has a range of members from across the globe, (NGOs, businesses and public sector), who recognise the importance of establishing a legal and sustainable international trade in palm oil. Further information on it can be found at: http://www.sustainable-palmoil.org

Single Payment Scheme

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the timing of payments being made under the Single Payment Scheme. [23166]

Jim Knight: Ministers regularly assess the likely timing of Single Payment Scheme awards with officials at the Rural Payments Agency, which is responsible for the administration of the scheme in England. RPA remains on course to commence payments in February 2006 and complete 96 per cent. of payments by the end of March, in line with announcements made at the start of the year.

Sites of Special Scientific Interest

Mrs. Moon: To ask the Secretary of State for Environment, Food and Rural Affairs what public service agreements are in place with local authorities in England for the management of sites of special scientific interest (SSSIs) in their areas; and what funding has been allocated to each relevant local authority in relation to the management of SSSIs in 2005–06. [30638]

Jim Knight *[holding answer 21 November 2005]*: Currently two councils, Cornwall and Essex, have in place local public service agreements (LPSAs) which cover progress towards meeting agreed biodiversity objectives, which can include the management of SSSIs. To the extent that these are met, the councils will receive the standard funding awards that are open to all councils for LPSAs.

English Nature estimate that overall local authorities own or manage about 4.88 per cent. of England's SSSI land. SSSI landowners and managers, such as local authorities, are able to access, subject to condition, a variety of funding streams which can benefit SSSIs, including from English Nature, agri-environment schemes and from lottery or EU sources. The overall funding requirements of local authorities is a matter for the Office of the Deputy Prime Minister.

Special Advisers

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* consultants and *(b)* special advisers were employed by her Department in each year since 1997; what the cost of each was in each year; and if she will make a statement. [27408]

Jim Knight: DEFRA was created in 2001. In respect of consultants I refer the hon. Member to the answers given to the hon. Member for Great Grimsby (Mr. Mitchell) on 13 June 2005, *Official Report*, columns 35–36W, and on 21 July 2005, *Official Report*, columns 1962–63W.

Since 2003, the Government have published on an annual basis the names and overall cost of special advisers and the number in each pay band. For the most recent information I refer the hon. Member to the statement made by the Prime Minister on 21 July 2005, *Official Report*, columns 158–62WS.

Information on the numbers of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House. Information relating to costs for 2005–06 will be published after the end of the current financial year.

Staff Discipline

David T.C. Davies: To ask the Secretary of State for Environment, Food and Rural Affairs how many employees have been dismissed by her Department in each of the last five years for which figures are available. [29127]

Jim Knight: The numbers of employees dismissed from core-defra for each calendar year since it was created on 9 June 2001 are as follows:

	Number
2001	2
2002	5
2003	15
2004	9
2005	13

These dismissals were the result of staff undergoing procedures for misconduct, unsatisfactory attendance and unsatisfactory performance (including probation).

Stewardship Scheme

Alistair Burt: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects the higher level stewardship scheme to be introduced; and if she will make a statement. [26210]

Jim Knight: Environmental Stewardship was launched by the Secretary of State on 3 March 2005. The first applications under the higher level strand of the scheme have been lodged over the summer and continue to be received. Development of the supporting IT has taken longer than hoped but I now expect the first higher level stewardship agreements to come into effect from 1 February next year.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the reason for the delay to the commencement, due on 1 November, of payments to applicants to the Higher Level Stewardship scheme; and if she will arrange for such applicants to be paid the entry level scheme payment by means of an interim arrangement. [27911]

Jim Knight *[holding answer 11 November 2005]:* Testing of the IT system required to support the development of Higher Level Stewardship (HLS) agreements has proved more challenging than expected. It is essential that the system is sufficiently robust to develop complete and accurate agreements that fully satisfy our regulatory obligations. While we had hoped to issue the first agreements from 1 November this year, delayed delivery of the IT system will now mean the first HLS agreements will commence early in the new year. Payments for the scheme commence from six months after the start of an agreement and at six monthly intervals thereafter.

In recognition of the delay we are looking at a mechanism to support the early participation in the Entry Level strand of Environmental Stewardship without applicants having to go through the application process a second time. Officials are currently working on guidance to support this process.

Mr. Evans: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been given under the *(a)* higher and *(b)* entry stewardship scheme in each year since they were introduced. [27992]

Jim Knight: Environmental Stewardship was launched by the Secretary of State on 3 March 2005, however the first Entry Level agreements were not scheduled to come into effect until 1 August 2005. Under the scheme the first payments are made to agreement holders six months from the agreement start date, therefore, the first grants do not become payable until February 2006.

The first Higher Level Stewardship agreements are now expected to come into effect from early next year. The first payments for these agreements also fall due some six months following the agreement start date and at six monthly intervals thereafter

Sugar Regime

Mr. Henderson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the reasons industrial purchasers of sugar in the EU pay more than the institutional price for sugar. [27629]

Jim Knight: The main reason for the difference between institutional and market prices is the current system of national sugar quotas. The limitation of production by quota has produced a fragmented EU market which provides little incentive for competition between sugar processors in different member states. The EU Commission's proposals for reform of the sugar regime are expected to increase trade between member states and competition between beet processors and cane refiners. Further analysis of these issues is given in the Government's regulatory impact assessment of options for reform of the EU Sugar Regime.

Mr. Henderson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will recommend to the Secretary of State for Trade and Industry that she refer the UK sugar processing sector to the Competition Commission. [27630]

Jim Knight: I refer the hon. Member to the answer given to the hon. Member for Pendle (Mr. Prentice) on 9 November 2005, *Official Report*, column 492W.

Mr. Henderson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of whether tradable sugar quotas, as proposed in the European Commission's Communication of July 2004, would be beneficial to UK *(a)* industry, *(b)* agriculture and *(c)* consumers. [27948]

Jim Knight: The European Commission's Communication of July 2004 was a further discussion of options for reform, preparatory to the tabling of formal legislative proposals in June this year. In making its definitive proposals the Commission decided not to proceed with a tradable quota scheme. The analysis relating to this was summarised in the explanatory material and impact assessment studies which the Commission published at the time. A further discussion of these issues is contained in the Government's own regulatory impact assessment, copies of which are available in the Library of the House.

Vulnerable Persons Regulations

Linda Gilroy: To ask the Secretary of State for Environment, Food and Rural Affairs what the take up of the Vulnerable Persons Regulations tariff was in 2004–05, broken down by water company. [28493]

Mr. Morley *[holding answer 15 November 2005]:* The take-up of the Water Industry (Charges) (Vulnerable Groups) Regulations tariff is set out in the table, broken down by company area.

Number of successful applications under the Vulnerable Groups Regulations—2004–05

	Number of successful applicants
Anglian	682
Dwr Cymru	319
United Utilities	1,114
Northumbrian	483

Number of successful applications under the Vulnerable Groups Regulations—2004–05

	Number of successful applicants
Severn Trent	916
South West	1,645
Southern	258
Thames	1,323
Wessex	481
Yorkshire	1,059
Bournemouth and West Hampshire	73
Bristol	93
Cambridge	81
Dee Valley	10
Folkestone and Dover	12
Mid Kent	138
Portsmouth	24
South East Water	91
South Staffs	39
Sutton and East Surrey	38
Tendring Hundred	87
Three Valleys	251
England and Wales	9,217

TRANSPORT

A19

Mr. Iain Wright: To ask the Secretary of State for Transport pursuant to the answer of 28 October 2005, *Official Report*, column 597W, on the A19, (1) what steps his Department is taking to reduce the number of personal injury accidents on the A19 between Tyneside and Teesside; [28757]

(2) what steps his Department has taken to identify specific points of increased risk of personal injury accidents on the A19 between Tyneside and Teesside. [28759]

Dr. Ladyman: The Highways Agency carried out a Route Management Strategy, on the A19 in 2003 that included an assessment of accident rates and identified specific lengths of carriageway where there was an increased risk of personal injury accidents. While this road is better than the national average for 'A' roads in terms of personal injury accidents, a number of improvement schemes were carried out in 2003–04. These included improved lighting, road markings and safety fencing schemes. The Highways Agency will continue to monitor accident trends regularly.

The strategy also identified a need to undertake a Central Reserve Gaps study that has been recently completed. Any high priority gap closure schemes identified in this study will be included in the Highways Agency forward programme of safety improvements subject to funds being available.

Biofuels (Carbon Emissions)

Norman Baker: To ask the Secretary of State for Transport what assessment he has made of the *(a)* practicality of converting aircraft to run on bio-ethanol and *(b)* carbon emission implications of such a switch. [30085]

Ms Buck *[holding answer 21 November 2005]:* The UK project "The Potential for Renewable Energy Sources in Aviation" produced by Imperial College Centre for Energy, Policy and Technology in 2003 for DTI, studied the options for potential renewable fuels for civil aviation. The study examined a whole range of alternative fuels and energy sources including bio-ethanol. Bio-ethanol was found to be inherently unsuitable as it does not contain sufficient energy for a jet fuel, in either mass or volume terms. The practical implications of these two factors are that aircraft range would be reduced compared to conventional fuels, and even if air-frames were redesigned with significantly larger fuel capacity, their take-off weight would be too high.

Buses

Mrs. Moon: To ask the Secretary of State for Transport if he will take steps to ensure that adaptation of buses to facilitate wheelchair access does not involve incorporating steep steps. [30783]

Ms Buck: The Public Service Vehicles Accessibility Regulations 2000 (as amended) require new buses first used on or after 31 December 2000, with a capacity of more than 22 passengers, used on local or scheduled services to be accessible to disabled people including wheelchair users. The regulations allow operators to provide access for wheelchair users by means of a lift or a ramp, and regulated vehicles also require improved access for all passengers through better step dimensions, provision of handrails and colour contrast markings. The end dates by which time all such vehicles are required to meet the regulations depends on vehicle type and range from 2015 to 2020. It is entirely a matter for bus and coach operators to select the most appropriate vehicle type for their operations.

Mrs. Dunwoody: To ask the Secretary of State for Transport if he will amend the Public Service Vehicles Accessibility Regulations such that public service vehicles will be equipped by 2012 to be accessible to people with a range of different disabilities. [30987]

Ms Buck: The Public Service Vehicles Accessibility Regulations 2000 (as amended) make comprehensive provision for improved access for passengers with a wide range of disabilities. The regulations are kept under review and will be developed in line with technology, while taking account of the effect on all stakeholders and the financial implications of any changes.

Carbon Emissions (Aircraft)

Norman Baker: To ask the Secretary of State for Transport what estimate he has made of the likely percentage change in carbon emissions per aircraft arising from technological advances to aircraft design by *(a)* 2020 and *(b)* 2050. [30921]

Ms Buck: The Air Transport White Paper acknowledges European targets for a 50 per cent. improvement in fuel efficiency (which translates to reduced CO_2 emissions) by 2020 based on advances in technology and operational developments. The UK industry has adopted this target—set by the Advisory Council for Aerospace Research in Europe (ACARE) in 2002—in its recently published 'Sustainable Aviation' strategy. The Government have welcomed this commitment. Aviation fuel efficiency targets for 2050

have not been specified though scenarios for aviation environmental performance in 2050 have been produced through collaborative European work.

Cycling

Mr. George Howarth: To ask the Secretary of State for Transport whether the expansion of the UK's cycle network has led to an increase in the number of cyclists *(a)* arrested, *(b)* charged and *(c)* convicted for disobeying traffic signals; and whether the Government plan to introduce tougher measures in this respect. [28086]

Paul Goggins: I have been asked to reply.

Information is not collected centrally on the number of cyclists arrested and charged with disobeying traffic signals The table provides the latest available data on cyclists convicted of neglect of traffic directions or failure to obey a signal.

Number of offenders found guilty for selected cycling offences, England and Wales 1999–2003[1]

	Found guilty
Offence: Neglect of traffic directions. Statute: Road Traffic Act 1988 ss.35 and 36	
1999	60
2000	47
2001	34
2002	16
2003	31
Offence: Failing to obey signal. Statute: Road Traffic Regulation Act 1984 s.28(3)	
1999	41
2000	5
2001	8
2002	7
2003	4

[1] These data are on the principal offence basis.

Source:
RDS—Office for Criminal Justice Reform.

Departmental Staff (Literacy and Numeracy)

Mr. Gibb: To ask the Secretary of State for Transport what proportion of new recruits to his Department do not have a level 2 qualification in English and mathematics. [23768]

Ms Buck: Recruitment into and within the Department for Transport is carried out on the basis of competency assessment. Except for recruitment for specialist posts, specific qualifications are not a requirement, and the Department does not therefore maintain comprehensive data in this area.

Light Pollution

Mr. George Howarth: To ask the Secretary of State for Transport (1) what estimate has been made of the amount of light pollution created by street lights; [28081]

(2) what steps are being taken to limit light pollution from street lights. [28088]

Ms Buck: The Department for Transport has made no estimate of the amount of light pollution caused by street lights.

The Department contributed to advice published by the Government on good street lighting practice to reduce sky glow and light pollution generally. The Institution of Lighting Engineers (ILE) has also published advice.

Light pollution is often a result of the use of low-pressure sodium lighting units. Newer technologies, and in particular high-pressure sodium lighting units, allow much finer control of the light distribution and a reduction in the amount of light directed towards the sky.

The Government support the installation of improved street lighting for new schemes, or for updating older ones. £300 million in PFI credits were made available to local authorities outside London in 2003–04 to help modernise street lighting, and over the following three years a further £85 million in PFI credits has been made available for local authorities in London for this purpose, in addition to the support available through the revenue support grant. This month I announced that an additional £600 million of PFI credits will be made available to authorities in England.

Approximately 30 per cent. of the Highways Agency's road network is lit. All new lighting schemes are designed using efficient luminaries containing high-pressure sodium light sources that place the light where it is needed, carefully limiting spillage to the adjacent environment and the night sky. The less environmentally sensitive low-pressure sodium lighting is generally no longer installed by the Agency.

Major Improvement Projects

Mr. George Howarth: To ask the Secretary of State for Transport if he will list decisions on major transport projects over £5 million made by the Department since May, broken down by region. [27942]

Ms Buck: Outside London the only decisions taken on major transport projects over £5 million since May relate to Local Transport Plan major projects and schemes on the strategic road network. There are broadly two different types of decisions taken on major transport projects—decisions whether to grant funding and whether to grant statutory powers. Within the category of funding decisions, we would include decisions on programme entry, conditional approval and full approval. In terms of the statutory powers, these include Transport and Works Act orders, local road and trunk road orders.

These two types of decisions are taken separately, through independent processes and one decision does not pre-empt the other. We have included both types of decision in this answer, and have set out the information on a regional basis, as follows. Where the project has been approved, the figures quoted relate to the cost to the Department. All figures have been rounded to the nearest £ million.

East of England

Funding decisions

On 18 October, the Papworth Everand Bypass (Cambridgeshire CC) was granted full approval at a total cost of £9 million.

Statutory powers decisions

On 25 August, Luton borough council had orders confirmed in respect of East Luton Corridor Improvement A1081/A505 Airport Way and Connecting Roads and A505 Kimpton Road.

East Midlands

Funding decisions

On 26 July, the Oakham Bypass (Rutland CC) was fully approved at a cost of £10 million.

Statutory powers decisions

On 5 July, Derbyshire county council had orders confirmed in respect of Ilkeston-Awsworth Link Road/Erewash Canal Bridge.

On 28 July, Nottinghamshire county council had orders confirmed in respect of A612 Gedling Transport Improvement Scheme.

On 31 October, Lincolnshire county council had orders confirmed in respect of the A158 Burgh le Marsh Bypass.

North East

Funding decisions

The Pegswood Bypass (Northumberland CC) was given full approval on 18 October at a cost of £8 million.

Statutory powers decisions

The River Tyne (Tunnels) Order 2005, was made on 5 August, and authorises a new road tunnel across the river Tyne.

On 8 June, the City of Sunderland had orders confirmed in respect of the Central Route scheme—A182 and A1191.

North West

Funding decisions

On 17 October, the Blackbrook Diversion (St. Helen's) was granted full approval at a cost of £9 million.

Conditional approval granted on 30 June for funding renewals and capacity enhancements on the existing system of Manchester Metrolink. Government are funding up to £58 million towards total cost of £102 million for the scheme.

On 13 June, a decision was announced which was that full approval could not be given to Merseytram Line 1, due to cost increases, but that £170 million of Government funding remained available if the scheme could be delivered for that cost.

Statutory powers decisions

The Greater Manchester (Leigh Busway) Order 2005 was made on 13 July, and this authorises a new guided busway between Leigh and Ellenbrook in Greater Manchester.

South East

Funding decisions

On 26 July, East Kent Access Phase 1 (Kent CC) was granted full approval at a cost of £18 million.

Statutory powers decisions

On 26 September a decision authorised the making of published draft orders issued on 2005 in respect of the A2 Widening (Phase 2) Pepperhill to Cobham.

On 8 June a decision was issued which authorised the making of part Orders outstanding from the main decision issued on 27 August in relation to the A2/A282/M25 (J2)—Dartford Improvement.

South West

Funding decisions

No funding decisions on transport projects have been taken in the South West since May.

Statutory powers decisions

No statutory powers decisions on transport projects have been taken in the South West since May.

West Midlands

Funding decisions

No funding decisions on transport projects have been taken in the West Midlands since May.

Statutory powers decisions

On 1 July, the Midland Metro (Birmingham City Centre Extension) Order 2005 was made, which authorises an extension of the existing Midland Metro from Snow Hill to Edgbaston.

On 10 June, Herefordshire county council had orders confirmed in respect of A4103 Roman Road/A480 Skew Bridge Stretton.

Yorkshire and Humber

Funding decisions

On 3 November, decision announced that the Government could not support proposals to re-instate the Leeds Supertram scheme that have been put forward by West Yorkshire PTE following the withdrawal of funding for the tram proposal in July 2004. (The schemes value is estimated at £486 million at current prices.)

On 26 July, the A165 Reighton Bypass (North Yorkshire CC) was granted full approval at a cost of £7 million.

On 15 June, the Barnsley Interchange (SYPTE) was granted full approval at a cost of £18 million.

Statutory powers decisions

No statutory powers decisions on transport projects have been taken in Yorkshire and Humber since May.

The Department has not taken any funding decisions on national transport projects in London since May. However, Transport for London would have information about other transport projects in London. There have been two decisions on statutory powers which are listed:

On 4 November, The Docklands Light Railway (Capacity Enhancement) Order 2005 was made, which authorises works to upgrade the DLR between Bank and Lewisham to take three car trains.

On 20 June, an Order that sought authorisation to reconstruct Camden Town underground station in London, the proposed 'London Underground (Camden Town Station) Order 1, was rejected.

Ports Policy

Vera Baird: To ask the Secretary of State for Transport when Ministers expect *(a)* to complete their considerations on individual applications for major port developments and *(b)* announce their decisions. [30432]

Dr. Ladyman: Ministers announced in July 2005 that they were minded to approve the proposal for the London Gateway port development at Shellhaven, subject to clarification of a number of issues. The outcome of our consideration of these issues will be announced in due course. The Department has received reports of public inquiries into proposed ports developments at Bathside Bay, Harwich, and at Felixstowe South. These are under consideration, and announcements will be made as soon as possible.

Public Service Agreements

Mr. Philip Hammond: To ask the Secretary of State for Transport what data sets will be used to measure progress against the need to tackle the significantly higher incidence of road accidents, deaths and injuries in disadvantaged communities as required in 2004 public service agreement target number 5. [29804]

Dr. Ladyman: Performance against the target is measured using the police data on all reported road accidents that involve human injury. The measure used will be the percentage reduction in the number of road

deaths and injuries for the 88 local councils that are eligible to receive Neighbourhood Renewal Funding (NRF), compared to that for England as a whole.

The baseline is the average for the period 1999 to 2001, and the target will be judged against 2005 casualty data.

Railways

Mr. Hayes: To ask the Secretary of State for Transport if he will make a statement on plans for next-generation trains. [22842]

Derek Twigg: The next generation of trains must aim for improved energy efficiency and reliability, without compromising safety and comfort. The new trains just ordered for high speed commuter services into Kent will bring some of the technologies used successfully in Japan. The high speed trains on Great Western, East Coast and Midland lines will need replacing within the next 10–15 years, and the specification for these is being developed. Beyond that, a large number of diesel and electric trains for regional and local services all built in the late 1980s will need replacing by the mid 2020s.

John McDonnell: To ask the Secretary of State for Transport what total costs have been incurred by the Government and Government agencies in the franchising and tendering of passenger rail services since April 2004. [29262]

Derek Twigg: Costs incurred in the specification and tendering of passenger franchise services since April 2004 are £14.4 million.

Mrs. Dunwoody: To ask the Secretary of State for Transport how many rail carriages on average were attached to a passenger train in the United Kingdom in each year between 1994 and 2004, broken down by *(a)* region and *(b)* train operating company where applicable. [29035]

Derek Twigg: This information is not held centrally by the Department and can be provided only at a disproportionate cost.

Mrs. Dunwoody: To ask the Secretary of State for Transport how many train warranties expired in each year between 1994 and 2004; how many train warranties will expire in each year between 2005 and 2010; and if he will make a statement. [29036]

Derek Twigg: Warranties on new trains cover a wide range of systems and components, often with differing warranty periods. It is not therefore possible to say simply that the warranty on a particular train expires on a specific date.

Renewable Transport Fuels Obligation

Mr. Anthony Wright: To ask the Secretary of State for Transport (1) what measures he is taking to ensure that the production of ethanol to meet obligations under the Renewable Transport Fuels Obligation *(a)* is environmentally friendly, *(b)* is sustainable and *(c)* does not lead to significant carbon dioxide output; and if he will make a statement; [30363]

(2) what estimate he has made of the quantity of feedstock used in the production of ethanol to meet obligations under the Renewable Transport Fuels Obligation which is *(a)* imported into the United Kingdom and *(b)* grown in the United Kingdom; and if he will make a statement; [30364]

(3) what estimate he has made of the change in UK carbon dioxide emissions as a result of the introduction of the Renewable Transport Fuels Obligation. [30365]

Dr. Ladyman: As set out in the Secretary of State's Written Statement of 10 November, we anticipate that the Obligation will deliver around one million tonnes of carbon saving per annum once it reaches 5 per cent. of all transport fuels. We are developing carbon and sustainability assurance schemes and companies will be required, to report on the sustainability and carbon savings associated with the fuels they have used to fulfil their requirements under the Obligation.

We anticipate that the feedstocks for the biofuels will come from both the UK and abroad. The relative proportions will depend on a range of factors including international supply and demand and support systems in other countries. The UK currently exports around three million tonnes of wheat per annum, which, if it were processed into bioethanol, could make up 5 per cent. of all petrol sales.

Analysis on the anticipated costs, benefits, risks and opportunities associated with an obligation are set out in a detailed feasibility study and regulatory impact assessment. These are both available in the House Library and via the Department for Transport's website.

Road Accidents

Mrs. Dunwoody: To ask the Secretary of State for Transport what the estimated total cost of road accidents in England was in each year between 1994 and 2004. [30372]

Dr. Ladyman: While the Department for Transport does not hold information on actual costs incurred as the result of road accidents, it does estimate the value of prevention of road accidents in its annually published "Highways Economics Note No.1". Estimates for the total value of prevention of all road accidents 1994 to 2004 are as follows:

	Estimated total cost (£ million)
2004	18,004
2003	18,094
2002	17,760
2001	17,420
2000	16,959
1999	16,280
1998	15,960
1997	14,814
1996	13,920
1995	13,280
1994	13,030

Bill Wiggin: To ask the Secretary of State for Transport what his most recent estimate is of the average cost to public funds of *(a)* a non-fatal and *(b)* a fatal road traffic accident. [30399]

Dr. Ladyman: The values used to estimate the benefits of the prevention of road accidents are set out in the "Highways Economic Note No. 1: 2002 Valuation of the Benefits of Prevention of Road Accidents and Casualties" which can be found on the DfT website at:
http://www.dft.gov.uk/stellent/groups/dft_rdsafety/documents/divisionhomepage/030763.hcsp

The average values, based on 2002 casualty data, were (*a*) serious injury £168,260 and slight injury £16,750 and (*b*) fatal £1,447,490. These amounts are the values to be used in the appraisal of road traffic schemes. They take account of lost output (which includes any non-wage payments paid by the employer), medical and ambulance costs, human costs based on willingness to pay values representing pain, grief and suffering, the costs of policing, insurance and administrative costs and damage to property.

Included within these vales are the costs to public funds for medical, ambulance and police costs. In 2002 prices the average cost was for fatal £6,860, serious £11,900 and slight £1,020. Some element of the lost output cost would also be considered as a cost to public funds. In 2002 prices the average costs were £479,750, £19,520 and £2,320 for fatal, serious and slight accidents respectively.

Up-rating these figures using 2004 casualty data to 2004 prices gives average values for the prevention of accidents as (*a*) serious injury £184,269 and slight injury £18,496 and (*b*) fatal £1,573,217. The average cost in 2004 prices of the lost output element of accident prevention costs were for fatal £522,639, serious £21,379 and slight £2,550. The average medical, ambulance and police costs in 2004 prices were for fatal £7,076, serious £13,025 and slight £1,131.

Mrs. Dunwoody: To ask the Secretary of State for Transport in how many (*a*) road accidents and (*b*) fatal road accidents (i) speed and (ii) drink driving was (A) the leading contributory factor and (B) a contributory factor in each year between 1994 and 2004. [30446]

Dr. Ladyman: Prior to 2005, information regarding contributory factors to accidents was not routinely collected as part of the accident report process. However under a pilot scheme, 15 police forces have collected data on contributory factors to accidents from 1999 onwards allowing an estimate of the presence of these factors in accidents Great Britain to be made. Up to four contributory factors can be assigned to an accident but are given equal merit, and as such we do not have data on leading contributory factors to accidents. The table shows the estimated proportion of fatal and all accidents where excessive speed was deemed to be a contributory factor, based on accidents occurring in the 15 police force areas.

Estimated[1] proportion of fatal and all accidents with excessive speed assigned as a contributory factor

	Fatal accidents	*All accidents*
1999	29	12
2000	26	12
2001	27	12
2002	30	13
2003	30	14
2004	34	13
1999–2004	29	13

[1] Estimates are based on data from the pilot contributory factors scheme.

The estimates for the number of fatal and all personal injury road accidents involving illegal alcohol levels for 1999–2004 are given in the table. The estimates for 2004 are provisional.

	Fatal accidents	*All accidents*
1999	400	11,050
2000	450	11,800
2001	470	12,270
2002	480	13,150
2003	500	12,400
2004[1]	530	11,220

[1] Provisional data. The sample of fatality data from Coroners for 2003 has now been finalised but 2004 estimates are based on a reduced sample of coroners' returns and may be biased. They remain provisional until more complete information for 2004 is available.

Road Freight Traffic

Mr. Hollobone: To ask the Secretary of State for Transport what proportion of road freight traffic was the transport of food products in each of the last five years. [30862]

Dr. Ladyman: The following table contains estimates for transport of food products as a proportion of total kilometres travelled by GB freight.

Food industry HGV kilometres

	2000	*2001*	*2002*	*2003*	*Billion 2004*
Total HGV Kms	23.0	22.2	22.2	22.2	22.3
Food Products Kms	4.7	4.2	4.3	4.2	4.2
Food Products/Total Kms (percentage)	20	19	19	19	19
Packaging Kms	1.0	1.0	1.1	1.1	1.1
Packaging/Total Kms (percentage)	4	5	5	5	5
Fertiliser and Animal Fodder Kms	0.3	0.3	0.3	0.3	0.3
Fertiliser and Animal Fodder/Total Kms (percentage)	1	1	1	1	1
Total Food Industry Kms	6.0	5.5	5.7	5.6	5.6
Total Food Industry/Total Kms (percentage)	26	25	26	25	25

Continuing Survey of Road Goods Transport, DfT

Road Gritting

Martin Horwood: To ask the Secretary of State for Transport what guidance he has issued on *(a)* how frequently roads should be gritted during a prolonged period of cold weather and *(b)* the trigger for gritting to take place; and if he will make a statement. [29106]

Dr. Ladyman: The guidance on how frequently roads should be gritted, and when, is the same during a period of prolonged cold weather as it is at any other time in winter.

The starting point for the Highways Agency's service providers on the motorway and trunk road network is the Trunk Road Maintenance Manual, which gives advice on the method and timing of treatment to prevent ice forming and on dealing with snow. Service providers have the opportunity to use different methods and timings providing they can demonstrate an improved service to achieve the overall objective of keeping the roads free from ice and snow.

For local roads, there is detailed advice on winter service in Section 13 of Well-Maintained Highways; Code of Practice for Highway Maintenance Management, published by the UK Roads Liaison Group in July this year. Among other things, this code advises authorities to formally approve, adopt, and publish, in consultation with users and key stakeholders, a Winter Service Operational Plan, based on the principles of the code. The Department of Transport strongly recommends the code to local authorities.

Road Safety

Mrs. Dunwoody: To ask the Secretary of State for Transport what the average fatality rate was of pedestrians involved in a motor vehicle accident where the vehicle was moving at *(a)* 30 mph and *(b)* 40 mph for each year between 1994 and 2004. [29893]

Dr. Ladyman: In 1979 Aston and Mackay calculated that, as a general rule, an adult pedestrian hit by a vehicle travelling at 30 mph has a 1 in 5 (20 per cent.) chance of being killed, and that a pedestrian hit by a vehicle travelling at 40 mph has a 9 in 10 (90 per cent.) chance of being killed, A child pedestrian hit by a vehicle travelling at 40 mph has a 4 in 5 (80 per cent.) chance of being killed.

Mrs. Dunwoody: To ask the Secretary of State for Transport on what percentage of persistently high risk roads, as defined by the European Road Assessment Programme, speed cameras were installed in each year between 1994 and 2004. [29895]

Dr. Ladyman: The results of the European Road Assessment Programme (EuroRAP) 2004 report on British roads identified 11 stretches of road as being "persistently high risk" based upon casualty data for 1997–99 and 2000–02. The length of these stretches varies between 13 kmh and 56 kmh.

Our records show that cameras operating within the National Safety Camera Programme have been deployed at individual locations on 10 out of 11 of the persistently high risk roads identified.

Mrs. Dunwoody: To ask the Secretary of State for Transport what assessment he has made of whether clearly marked speed cameras are reducing *(a)* road accidents and *(b)* fatalities. [29896]

Dr. Ladyman: The objective of the national safety camera programme is to reduce excessive speeds, injuries arid crashes at camera sites. All cameras operating within the programme have been required to be highly visible and clearly signed since 1 June 2002. No specific assessment has been made of the extent to which this change has contributed to the effectiveness of the programme. However the independent 3-year evaluation report of the programme covering all cameras operating between April 2000 to March 2003 concluded that there had been a 33 per cent. reduction in personal injury collisions and a 40 per cent. reduction in fatalities at camera sites Assessment of the programme over the period April 2000 to March 2004 will be contained in the 4-year evaluation report which will be published shortly.

Mrs. Dunwoody: To ask the Secretary of State for Transport what the criterion is for the percentage of drivers exceeding the speed limit, excluding congestion periods, before *(a)* a fixed speed camera is installed and *(b)* a mobile speed camera is used. [29903]

Dr. Ladyman: The criteria for the percentage of drivers exceeding the speed limit, excluding congestion periods, before either a fixed or mobile safety camera is installed is that at least 20 per cent. of drivers are exceeding the speed limit. In addition speed surveys must show that free flow 85th percentile speed is at or above the ACPO enforcement threshold.

Mrs. Dunwoody: To ask the Secretary of State for Transport what assessment he has made of the impact on road safety of speed cameras between 1994 and 2004; and what *(a)* long-term trends and *(b)* seasonal variations have been recorded. [29904]

Dr. Ladyman: The following independent evaluations have been undertaken for the Department and are available in the Library of the House, and on the Department's website:

A cost recovery system for speed and red-light cameras—two year pilot evaluation (11 February 2003), and

The national safety camera programme—Three year evaluation report (15 June 2004).

West London speed camera demonstration project (5 August 2003)

A four year evaluation report has also been commissioned and is expected shortly.

The two evaluations of the national programme assessed the effectiveness of cameras using a statistical model, in which the effects of long-term trends and seasonal variations were among many different parameters. Full details of the modelling approach are included in the Appendices to these reports.

In respect of the two year report, the statistical model shows that in Great Britain prior to the study period there was a national trend of over 4.5 per cent. per

annum reduction in the number of people killed or seriously injured (KSI) and a 0.75 per cent. per annum reduction in personal injury collisions (PIC). The assessment concluded that even after taking these national trends into account there was a 35 per cent. reduction in the number of KSIs and a 6 per cent. reduction in the number of PICs at camera sites.

The statistical model also shows that the frequency of KSI casualties for the whole of Great Britain increases from quarter to quarter through the year, with those during the first quarter of each year (January to March) being about 10 per cent. less than that during the last quarter (October to December) of the same year. The model did not assess seasonal variations relating directly to the camera sites.

In respect of the three year report, the statistical model shows that in Great Britain over the study period there was a national trend of a little over 4 per cent. per annum reduction in the number of people killed or seriously injured (KSI) and a 1.5 per cent. per annum reduction in personal injury collisions (PIC). The assessment concluded that even after taking these national trends into account there was a 40 per cent. reduction in the number of KSIs and a 33 per cent. reduction in the number of PICs at camera sites.

The statistical model also shows that in urban areas the frequency of KSI casualties for the whole of Great Britain increases from quarter to quarter through the year, and that rural areas have a peak in quarter three. The model did not assess seasonal variations relating directly to the camera sites.

Mrs. Dunwoody: To ask the Secretary of State for Transport how many fixed speed cameras the Government intend to install in England in each of the next five years. [29905]

Dr. Ladyman: The Government do not intend to install any fixed speed cameras in England in each of the next five years. Speed cameras are installed by the local highway authority as the appropriate solution to a road casualty problem following their investigation of that problem. It is not possible to predict in advance where these road casualty problems may arise. Any speed cameras proposed as part of the national safety camera programme will need to meet the site selection rules that apply at the time before being considered for approval as part of the programme.

Anne Milton: To ask the Secretary of State for Transport what representations he has received from *(a)* road safety groups and *(b)* police authorities about the reduction of speed limits in villages and outside schools; and what assessment he has made of the potential impact of the reduction in speed limits *(a)* in villages, (ii) outside schools and (iii) in residential areas from 30 mph to 20 mph on the incidence of accidents. [30182]

Dr. Ladyman: The Department receives occasional representation from road safety groups in support of reduced speed limits, including in villages and outside schools. No such representations have been received from the police at the national level, although we are aware that many police authorities support these measures at the local level.

The Department has not undertaken specific assessment of the reduction of speed limits in villages and outside schools. However, research shows a clear link between reducing vehicle speed and accident reduction, with a 1 mph reduction in average speed expected to lower accident frequency by 5 per cent. It also shows that 20 mph zones and 20 mph speed limits can be effective at reducing collisions and injuries in the right situation, in particular when accompanied by traffic calming measures.

Local authorities already have the powers under section 84 of the Road Traffic Regulation Act 1984 to introduce local speed limits, including 20 mph, if they believe it appropriate to do so. The Department encourages their implementation in areas where vulnerable road users are present, particularly around schools.

Mrs. Dunwoody: To ask the Secretary of State for Transport what percentage of the road network in England had its speed limits enforced by active speed cameras in each year between 1994 and 2004. [30371]

Dr. Ladyman: The Department does not hold this information.

Mrs. Dunwoody: To ask the Secretary of State for Transport what assessment he has made of the effectiveness of *(a)* fixed speed cameras and *(b)* mobile speed cameras; and what criteria he uses to assess effectiveness. [30373]

Dr. Ladyman: The independent 3-year evaluation report of the national safety camera programme assessed the effectiveness of both fixed and mobile cameras using the criteria of reductions in speed and casualties at camera sites. The evaluation concluded that both types of camera were effective in both respects. Fixed cameras had, on the whole, a greater effect in reducing speeding than mobile cameras, reflecting the fact that fixed cameras affect driving behaviour all the time, whereas mobile cameras operate periodically at each location.

Mrs. Dunwoody: To ask the Secretary of State for Transport how many Safety Camera Partnerships there were in England in each year between 1994 and 2004. [30375]

Dr. Ladyman: The first Safety Camera Partnerships were formed in 2000. Their numbers for England for each year are as follows:

	Number
April 2000	6
October 2001	12
April 2002	20
October 2002	26
Ap[illegible]03	33
A[illegible]05	36

[illegible] Avon Somerset and Gloucestershire which joined in 2002
[illegible] Avon and Somerset, and Gloucestershire.

Mrs. Dunwoody: To ask the Secretary of State for Transport what guidance he issues on the minimum number of persons that must be killed or seriously injured at a given site before *(a)* a fixed speed camera and *(b)* a mobile speed camera can be installed. [30376]

Dr. Ladyman: The casualty criteria that must be met before a fixed or mobile speed camera is installed is set out in the Handbook of Rules and Guidance for the National Safety Camera Programme for England and Wales for 2005/06. For fixed camera sites this is at least four killed or seriously injured collisions per site kilometre in the 36 months that forms the baseline period. For mobile camera sites it is at least two killed or seriously injured collisions per site kilometre in the baseline period.

Mrs. Dunwoody: To ask the Secretary of State for Transport what the criteria are for the placement of a fixed speed camera. [30447]

Dr. Ladyman: The handbook of Rules and Guidance for the National Safety Camera Programme for England and Wales 2005/06 sets out the rules for core fixed speed camera sites operating within the Programme. Definitions of terms used are contained in the handbook but in summary the rules are:

Rules for proposed core sites	*Fixed camera sites*
Site length requirements	Between 0.4 and 1.5 km
Number of fatal and serious collisions (KSIs)	At least 4 KSI collisions per km in the baseline period
85th percentile speed at proposed sites	Speed survey shows free-flow 85th percentile speed is at or above ACPO threshold
Percentage over the speed limit	At least 20 per cent. of drivers are exceeding the speed limit, excluding congestion periods
Site conditions that are suitable for the type of enforcement proposed	Loading and unloading of camera can take place safely
No other engineering solutions can be implemented	There has been a site survey carried out by a road safety engineer confirming that no other cost effective engineering solution can be implemented to improve road safety along this stretch of road.

Mrs. Dunwoody: To ask the Secretary of State for Transport how many and what percentage of fixed speed cameras were located on roads with (i) a 30 mph speed limit and (ii) a 40 mph speed limit in each year between 1994 and 2004. [30449]

Dr. Ladyman: The number and percentage of fixed speed cameras newly installed in each year on roads with a 30 mph or 40 mph speed limit from 1994 to 2004 is shown in the following table:

	Number of fixed speed cameras installed in each year			*Percentage of fixed speed cameras installed in each year*	
	In a 30 mph speed limit	*In a 40 mph speed limit*	*Total for all speed limits*	*In a 30 mph speed limit*	*In a 40 mph speed limit*
1994	27	20	54	50	37
1995	78	34	133	59	26
1996	86	37	146	59	25
1997	83	43	160	52	27
1998	117	56	221	53	25
1999	94	59	183	51	32
2000	108	41	172	63	24
2001	139	34	200	70	17
2002	160	39	245	65	16
2003	227	50	312	73	16
2004	230	43	304	76	14

Stone Mastic Asphalt

Bill Wiggin: To ask the Secretary of State for Transport what the cost is of a top dressing of grit on newly-laid stone mastic asphalt. [30398]

Dr. Ladyman: Some local authorities use stone mastic asphalt material (SMA) with a top dressing of grit on their roads at their discretion. The costs of application are not held centrally.

The Highways Agency does not allow the use of SMA on trunk roads including motorways.

Bill Wiggin: To ask the Secretary of State for Transport what research he has *(a)* commissioned and *(b)* evaluated on whether stone mastic asphalt reacts with (i) diesel, (ii) oil (iii) hydraulic fluid and (iv) pre-wetted salt. [30400]

Dr. Ladyman: No specific research has been commissioned nor any evaluation carried out on how stone mastic asphalt reacts with *(a)* contaminants such as diesel, oil and hydraulic fluids and *(b)* with the use of pre-wetted salt. However, a report on research into the affects of contaminants on road surfaces in general, jointly funded by the Highways Agency and the Institute of Accident Investigators entitled 'Friction Tests on Contaminated Surfaces' is planned for publication in late December 2005. The Highways Agency does not allow the use of stone mastic asphalt on trunk roads including motorways.

Bill Wiggin: To ask the Secretary of State for Transport what recent research his Department has undertaken on the coefficient of friction of stone mastic asphalt with regard to motorbikes. [30867]

Dr. Ladyman: No specific research has been undertaken on the coefficient of friction of stone mastic asphalt with regard to motorbikes. Development of the UK standards for the measurement of road surface friction has been based on research that is applicable to motorised vehicles in general.

Transport Staff (Abuse)

Mr. Duncan: To ask the Secretary of State for Transport how many reported incidents of *(a)* verbal abuse and *(b)* physical attack on bus drivers and conductors there have been in each year since 1997. [31177]

Ms Buck: The Department does not collect statistics on the number of incidents of verbal assault. The following table shows the reported number of assaults on bus crews, including conductors and inspectors, in Great Britain up to 2003. The Department no longer collects data on such assaults outside London given serious problems with the quality and robustness of the data received. We are working to find more reliable methods of monitoring and recording incidents of crime on buses.

Assaults on bus crews, Great Britain

	Number
1993	1,492
1994	1,562
1995	1,938
1996	2,154
1997	1,899
1998	1,594
1999	1,680
2000[1]	1,260
2001	2,638
2002	2,874
2003	2,295

[1] Data considered unreliable owing to poor level of reporting.

Sources:
London: TfL reports for the bus operators under its contracts.
Outside London: a panel of large bus operators selected by DfT.

WORK AND PENSIONS

Community Programme for Employment and Social Solidarity.

Mike Penning: To ask the Secretary of State for Work and Pensions if he will make a statement on his Department's policy on the development of a new Community Programme for Employment and Social Solidarity. [27717]

Mr. Plaskitt: The UK, along with other member states, supports the need for this successor EU-level spending programme for the period 2007–13, which will provide financial support for the implementation of the Community's objectives for employment and social affairs and the achievement of the Lisbon goals. It will replace existing programmes to: promote measures to combat direct or indirect discrimination based on racial or ethnic origin, religion or belief, disability, age or sexual orientation; promote gender equality; support analysis, research and cooperation between member states in employment and labour market matters; and encourage cooperation between member states to combat social exclusion. The new programme does not propose a range of specific projects, but rather provides a framework to support EU-level actions under the areas covered, such as developing statistical tools, sharing of best practice, awareness-raising campaigns and support for organisations operating in the relevant fields.

Pensions

Mr. Drew: To ask the Secretary of State for Work and Pensions when he expects to make an announcement on the application of the Financial Assistance Scheme to those not covered in the first tranche of awards who have lost their pension due to the liquidation of their company pension fund. [24696]

Mr. Timms: The departmental website is continually updated to show pension schemes which are assessed as qualifying for the Financial Assistance Scheme. We have made a commitment to review the operation and funding of the Financial Assistance Scheme, alongside other spending priorities, in the next spending review.

Mr. Laws: To ask the Secretary of State for Work and Pensions what his latest estimate is of the expenditure on national insurance rebates for those contracted out of the state second pension for *(a)* the next five years, *(b)* 2020, *(c)* 2030, *(d)* 2040 and *(e)* 2050. [29987]

Mr. Timms: The information is in the table:

Estimated cost of national insurance contribution rebates

£ million

	Occupational schemes			
Tax year	*Defined benefit*	*Defined contribution*	*Personal pension and stakeholder pension schemes*	*Total*
2006–07	7,000	600	3,600	11,200
2007–08	6,300	600	3,600	10,500
2008–09	6,300	600	3,700	10,500
2009–10	6,300	600	3,700	10,600
2010–11	6,300	500	3,700	10,600
2020–21	6,100	400	3,900	10,400
2030–31	6,000	400	3,500	9,900
2040–41	6,300	400	3,700	10,400
2050–51	6,300	400	4,400	11,300

Notes:

1. Figures are based on the December 2004 'Update of the Quinquennial Review of the National Insurance Fund' and are therefore based on the latest published figures which are projected far enough into the future.
2. Figures use rebate rates calculated on the assumptions underlying the current rebates which have now been superseded by the Government Actuary's consultation document published in September.
3. Figures cover Great Britain only.
4. Due to rounding figures in the 'Total' column do not always sum.
5. Figures are rounded to the nearest £100 million.
6. Figures are on an accruals basis and are in constant 2005–06 price terms.

Source:
Government Actuary's Department.

Mr. Ian Taylor: To ask the Secretary of State for Work and Pensions how many complaints have been received against the Pensions Ombudsman in each of the last three years. [28349]

Mr. Timms: The Pensions Ombudsman's aim in response to a complaint is to send a full reply within seven working days. Where a complaint cannot be resolved it may be referred by an hon. Member to the Parliamentary and Health Service Ombudsman. The number of complaints that were referred is in the following table:

	Number of complaints referred
2002–03	11
2003–04	6
2004–05	13

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) whether enough information was gathered on the Universal Vehicle Group Pension Scheme during the 2004 data collection exercise to determine whether or not its members were eligible for the Financial Assistance Scheme; and if he will make a statement; [30074]

(2) whether current information held by his Department on the Universal Vehicle Group Pension Scheme is sufficient for its members to qualify for the Financial Assistance Scheme; and if he will make a statement. [30075]

Mr. Timms: No. Minimal information on the Universal Vehicle Group Pension Scheme was provided during the 2004 data collection exercise. The Department sent the scheme administrators a notification and qualification form on 1 September 2005, which needs completing, signing and returning before the Department can decide whether the scheme is a qualifying pension scheme for the purposes of the Financial Assistance Scheme. The Department has since been in contact with the administrators who have confirmed that the form has been forwarded onto the trustees, who have until the end of the notification period—28 February 2006—to return part A (notification details) of the form.

DEPUTY PRIME MINISTER

Cabinet Meetings

Sarah Teather: To ask the Deputy Prime Minister what criteria will be used to decide which Cabinet Minister in his Department will speak on issues concerning his Department at meetings of the Cabinet. [28744]

Jim Fitzpatrick: As members of the Cabinet, both my right hon. Friends can and do speak on a wide range of issues discussed by Cabinet.

Council Tax

Bob Spink: To ask the Deputy Prime Minister what assessment he has made of the impact of council tax increases on pensioners; and if he will make a statement. [29263]

Mr. Woolas: The Government recognise the concerns of many pensioners, particularly those on low or fixed incomes, about council tax. This Government have already taken action to improve pensioner incomes, spending nearly £11 billion extra on pensioners in 2005–06 compared to 1997 as a result of measures we have introduced since then. On average, after allowing for inflation, pensioner households are about £1,500 better off this year than they would have been under the system which operated in 1997. The least well-off third of pensioner households are, on average, £2,000 better off.

Help with council tax bills is available for those who are least well off through council tax benefit (CTB). Nearly two and a half million people aged 60 or over now benefit, though the Government are concerned that many pensioners do not claim their entitlement. The Department for Work and Pensions is taking active measures to ensure that people are made aware of CTB and are encouraged to take up their entitlement.

The Government are providing additional money to pensioners specifically to help them pay their council tax bills. We gave £100 to households with someone 70 or over in 2004–05. In 2005–06 households with someone aged 65 or over are receiving £200, usually with their with winter fuel payment, unless they are receiving; the guarantee credit element of pension credit (people getting the guarantee credit element of pension credit are already entitled to up to a 100 per cent. rebate on their council tax bills). Households with someone aged 70 or over getting the guarantee credit element of pension credit are receiving £50 to help with living costs.

While no decisions have been taken on capping in 2006–07 and beyond, we will not hesitate to use our capping powers to protect council taxpayers from excessive council tax rises in the future. In 2003–04, the last year in which capping was not undertaken, the average council tax increase in England was 12.9 per cent. This fell to 5.9 per cent. in 2004–05 and again to 4.1 per cent. in 2005–06.

Sir Michael Lyons is currently conducting an Inquiry into the financing of local government in the context of its wider functions and future role. He is aware of the widespread concerns about how the current council tax system affects pensioners and others on low and fixed incomes. Sir Michael is due to report before the end of 2006 and the Government will carefully consider his recommendations.

Mike Penning: To ask the Deputy Prime Minister what proportion of spending by *(a)* Hertfordshire county council and *(b)* Dacorum borough council has been financed from council tax in each year since 1st January 1996. [29568]

Mr. Woolas: The percentage of Revenue Expenditure by Hertfordshire county council and Dacorum borough council that has been financed from council tax in each financial year since 1 January 1996 is tabled as follows:

Percentage

	Hertfordshire	*Dacorum*
1996–97	26.6	32.4
1997–98	27.4	30.2
1998–99	29.7	42.3

Percentage

	Hertfordshire	*Dacorum*
1999–2000	30.7	28.0
2000–01	29.9	37.6
2001–02	29.9	33.7
2002–03	31.5	39.7
2003–04	33.3	39.6
2004–05	32.2	45.0
2005–06	31.7	46.3

The data are as reported by local authorities and are taken from Revenue Summary (RS) returns for 1996–97 to 2003–04, and Revenue Account budget (RA) returns for 2004–05 and 2005–06.

The definition of council expenditure used here is that expenditure funded from Aggregate External Finance (AEF), council tax and authorities' reserves.

Comparisons across years may not be valid due to changes in the method of reporting the information. In particular, the outturn data for 1996–97 to 2002–03 have been calculated on a non-FRS (Financial Reporting Standard) 17 basis while the outturn data for 2003–04 has been calculated on an FRS 17 basis. The budget data for 2004–05 and 2005–06 are a mix of FRS 17 and non-FRS 17. This is because for their 2004–05 and 2005–06 budget forms local authorities, after consultation, were given the option to complete their forms either on a non-FRS 17 basis or on an FRS 17 basis. Hence, figures for different years may not be directly comparable.

Sarah Teather: To ask the Deputy Prime Minister whether former residents of a dwelling can be required to give information about that dwelling for the purposes of a valuation of a property for council tax purposes.[30658]

Mr. Woolas *[holding answer 21 November 2005]:* Under Section 27(2) of the Local Government Finance Act 1992 former owners or occupiers of a dwelling can be required to give valuation officers information about that dwelling.

However, in practice, listing officers of the Valuation Office Agency will only need to discuss information about a dwelling with a former owner or occupier if *(a)* that person has an outstanding council tax appeal relating to a dwelling he or she previously owned or occupied or *(b)* to find out when a dwelling was constructed or adapted into a separate dwelling if this took place before the present occupier took up occupation.

Firefighters

Ed Balls: To ask the Deputy Prime Minister what protection is available for firefighters in England who are attacked in execution of their duty. [29178]

Jim Fitzpatrick: Firefighters enjoy the same legal protection from violence as anyone else. The criminal law already contains a wide range of power to deal with violent behaviour. There is a hierarchy of offences against the person where injury results, ranging from grievous bodily harm through actual bodily harm to common law offences of assault and battery, depending on the injuries inflicted. Courts have the power to impose the appropriate sentence, taking into account all the circumstances of a particular case. It is to be expected that the Courts would regard attacks on emergency personnel in the execution of their duty as being particularly serious offences. Maximum penalties for offences of violence range from six months for common assault to life imprisonment for causing grievous bodily harm with intent.

The Fire and Rescue Services seek to assess and manage the risk of potential attack in the execution of their duties. Fire and Rescue Services will ask the Police to attend any incident that would be considered threatening to the fire crew and are encouraged to report any incidents so that prosecution can be brought forward where appropriate.

Fire and Rescue Services are also introducing preventative measures such as video cameras in the cabs of appliances to help identify offenders.

Housing

Mr. Dismore: To ask the Deputy Prime Minister how many registered social landlord properties were sold on the open market other than to tenants in each of the last five years *(a)* in London and *(b)* in each English region. [24270]

Yvette Cooper: The following table gives the numbers of homes disposed of by Registered Social Landlords on the open market or at auction each year for the past five years. These data are not recorded on a regional basis and may include open market disposals to tenants. However all these sales were at market value, that is, they do not include any disposals made to tenants at any discount under schemes such as Right to Buy or Right to Acquire.

Financial year	*Number of homes*
2000–01	3,563
2001–02	2,974
2002–03	2,083
2003–04	4,111
2004–05	5,950
Total	18,681

Source:
Housing Corporation

Sarah Teather: To ask the Deputy Prime Minister if he will require English Partnerships to make a commitment to deliver social rented housing on the 17 sites being made available under the London Wide Initiative. [28893]

Yvette Cooper: Any development undertaken on the sites used for the London Wide Initiative will be subject to the normal planning regime. Work is continuing between English Partnerships, its development partners and the relevant local authorities on the total mix of houses on each site. This will be in accordance with respective local authorities' planning policies and agreed planning obligations. The sites will therefore provide social rented housing in accordance with housing need.

Sarah Teather: To ask the Deputy Prime Minister if he will place in the Library copies of each regional housing board's recommended investment strategy for 2006 to 2008. [28743]

Yvette Cooper: Copies have been made available in the Library of the House.

Local Government Finance

Mr. Andrew Turner: To ask the Deputy Prime Minister pursuant to the answer of 15 November 2005, *Official Report*, column 1121W, when the information to which the answer refers will be placed in the Library. [31085]

Mr. Woolas: The information has now been deposited in the Library of the House.

Ministerial Meetings

Sarah Teather: To ask the Deputy Prime Minister how many meetings concerning issues for which his Department is responsible *(a)* he has, *(b)* the Minister of Communities and Local Government has and *(c)* both have attended since May. [28745]

Jim Fitzpatrick: Both of my right hon. Friends have a wide range of meetings in their roles as departmental Ministers and constituency MPs. The topics covered by these meetings are many and varied.

Non-departmental Public Bodies

Mr. Amess: To ask the Deputy Prime Minister which of the advisory non-departmental public bodies sponsored by his Department *(a)* have a statutory base, *(b)* publish their advice to Government, *(c)* publish an annual report and *(d)* lay an annual report before Parliament; and whether this is under a statutory requirement in each case. [29749]

Jim Fitzpatrick: The Advisory Panel on the Beacon Scheme *(a)* does not have a statutory base and *(b)* does publish its advice to Government. The Advisory Panel on Standards for the Planning Inspectorate *(a)* does not have a statutory base and *(b)* does publish its advice to Government. The Building Regulations Advisory Committee *(a)* does have a statutory base which is Section 14 of the Building Act 1984 and *(b)* does not publish its advice to Government. The National Community Forum *(a)* does not have a statutory base and *(b)* does not publish its advice to Government.

All four bodies *(c)* publish annual reports and *(d)* none of the four lay those annual reports before Parliament. None of the four are under a statutory requirement to do any of the above.

Mr. Amess: To ask the Deputy Prime Minister which of the advisory non-departmental public bodies sponsored by his Department *(a)* hold public meetings, *(b)* conduct public consultation exercises, *(c)* conduct consultation exercises with outside commercial interests, *(d)* publish a register of Members' interests, *(e)* publish agendas for meetings and *(f)* publish the minutes of meetings; and whether this is under a statutory requirement in each case. [29750]

Jim Fitzpatrick: None of the Office of the Deputy Prime Minister's four advisory non-departmental public bodies (NDPBs) *(a)* hold public meetings or *(b)* conduct public consultation exercises.

The Advisory Panel on the Beacon Scheme *(c)* conducts consultation exercises with outside commercial interests, *(d)* does not publish a register of Members' interests and *(e)* and *(f)* does not publish either agendas for or minutes of meetings. It would consider what could be made available on request.

The Advisory Panel on Standards for the Planning Inspectorate *(c)* consults professional organisations on the Planning Inspectorate's performance, *(d)* does not publish a register of Members' interests and *(e)* and *(f)* does not publish either agendas for or minutes of meetings although both would be made available on request.

The Building Regulations Advisory Committee *(c)* does not conduct consultation exercises with outside commercial interests. While it does not publish *(d)* a register of Members' interests and *(e)* and *(f)* agendas for and minutes of meetings, it makes all available on request.

The National Community Forum *(c)* does not conduct consultation exercises with outside commercial interests and *(d)* publishes a register of Members' interests. It does not publish *(e)* and *(f)* either agendas for or minutes of meetings.

None of the four bodies is under a statutory requirement to do any of the above.

Planning Applications

Mrs. Moon: To ask the Deputy Prime Minister how many planning applications recommended for refusal in the last five years following a full public inquiry have subsequently been approved. [27009]

Yvette Cooper: In the last five years in England there have been 1,106 called in planning applications and recovered planning appeals decided by my right hon. Friend the Deputy Prime Minister the First Secretary of State. Of these, 22 were planning applications where an Inspector had recommended a refusal of planning permission following a public inquiry, but which were subsequently approved by the First Secretary of State.

Public Service Agreements

Mike Penning: To ask the Deputy Prime Minister how many public service agreements have been entered into with local authorities covering Hemel Hempstead constituency in the last five years; and if he will make a statement. [29569]

Mr. Woolas: The Government have signed a local public service agreement with Hertfordshire county council which runs from April, 2003 to March, 2006. Local public service agreements have now become the 'reward element' of Local Area Agreements (LAA), and the Government are currently negotiating an LAA with Hertfordshire county council and its partners to run from April, 2006 to March 2009, which will include this reward element.

South West Regional Assembly

Mr. Ellwood: To ask the Deputy Prime Minister what the cost to public funds was of the South West Regional Assembly in 2004–05. [30351]

Yvette Cooper: I refer the hon. Member to the answer given on 17 October 2005, *Official Report*, column 817W to the hon. Member for Meriden (Mrs. Spelman).

Tree Maintenance

Mrs. Spelman: To ask the Deputy Prime Minister what guidance his Department has given to local authorities on tree maintenance near highways. [29728]

Ms Buck: I have been asked to reply.

Guidance on the inspection, condition and maintenance of trees on or near highways is given at sections 9 and 10 of "Well-maintained Highways: Code of Practice for Highway Maintenance Management" published by the UK Roads Liaison Group in July this year. The Department for Transport strongly recommends this code to local authorities.

Unitary Local Government

Mrs. Spelman: To ask the Deputy Prime Minister what research the Government *(a)* have conducted since 1997 and *(b)* is conducting on unitary local government in England. [26903]

Mr. Woolas: The Office of the Deputy Prime Minister (ODPM) was created in May 2002. Since then (and indeed since 1997 as the Department of Environment, Transport and the Regions (DETR) and then the Department for Transport, Local Government and the Regions (DTLR)) we have undertaken one piece of research specifically on unitaries as part of its annual Local and Regional Government Research Programme. This was commissioned from PricewaterhouseCoopers and sought to produce a financial model for the calculation of potential costs associated with the creation of unitary authorities in those regions where referendums for elected regional assemblies were due to be held. The model considered a limited range of well-defined costs—the 'costs of being in business'—and is available on the Boundary Committee for England website at www.boundarycommittee.org.uk.

DEFENCE

Afghanistan

Mr. Ancram: To ask the Secretary of State for Defence how many forces have been contributed by each country contributing to the International Security Assistance Force; and if he will make a statement. [27162]

Mr. Ingram: International Security Assistance Force currently numbers about 10,000 troops from 36 NATO and non-NATO troop contributing countries. Individual contributions by each country change on a regular basis due to the rotation of troops. Information on numbers of troops currently deployed is a matter for the troop contributing nations.

Mr. Drew: To ask the Secretary of State for Defence for how long the UK plans to continue to embed troops within the Afghan national army. [29681]

Mr. Ingram: The United States has the lead in training the Afghan National Army. Currently, the United Kingdom does not embed trainers with the Afghan National Army, but does provide support by training its Non-Commissioned Officers, a commitment we have recently agreed to extend to September 2006.

Mr. Ancram: To ask the Secretary of State for Defence what recent discussions he has had with his *(a)* United States and *(b)* European Union counterparts on the deployment of additional British troops to Afghanistan; and if he will make a statement. [29887]

Mr. Ingram: My right hon. Friend the Secretary of State for Defence has regular discussions with our Allies, including US and EU counterparts, on the deployment of additional troops to Afghanistan. We have made no final decisions on a deployment to Southern Afghanistan next year, but we are making some timely, prudent and common sense preparations for a potential deployment. A statement will be made to the House when a decision has been made.

Mr. Drew: To ask the Secretary of State for Defence what plans he has to extend the training period for recruits with the Afghan National Army; and what discussions he has had with UK allies on this. [29598]

Mr. Ingram: The training period for recruits within the Afghan National Army is a matter for the United States, who lead in this area. The United Kingdom currently supports training for Non-Commissioned Officers and we have recently agreed to extend this commitment to September 2006. We continue to discuss the requirement for training the Afghan National Army with the US and other partner nations.

Mr. Drew: To ask the Secretary of State for Defence what the strength is of *(a)* the Afghan army and *(b)* the Afghan police; and what he estimates the required establishment to be in each case. [29600]

Mr. Ingram: The United States is the lead nation for developing the Afghan National Army (ANA); the current target strength for the ANA is 70,000 personnel. Germany is the lead nation for developing the Afghan National Police (ANP); the current target strength for the ANP is 62,000 personnel. The ANA is about 30,000 strong and the ANP some 50,000 strong.

Mr. Drew: To ask the Secretary of State for Defence how many British troops are in Afghanistan, broken down by service and regiment; and what levels of deployment are expected once the UK takes on the leadership of the Allied Rapid Reaction Corps. [29608]

Mr. Ingram: As of 16 November 2005, there were approximately 1,060 British personnel in Afghanistan, broken down as follows:

Service	*Number*
Royal Navy/Royal Marines	30
Army	790
Royal Air Force	240

All personnel from the Royal Navy and Royal Marines are individual augmentees, as are some from the other Services. The principal Army unit serving in Afghanistan is the First Battalion, The Royal Gloucestershire, Berkshire and Wiltshire Light Infantry, while that for the Royal Air Force is 4 Squadron.

The Allied Rapid Reaction Corps (ARRC) is the British-led High Readiness Force (Land) Headquarters, one of six NATO possesses. These headquarters currently command the International Security Assistance Force in turn. Final decisions on the size of the ARRC's deployment have not been made.

Aircraft Crashes

Mr. Arbuthnot: To ask the Secretary of State for Defence pursuant to the Answer of 26 October 2005, *Official Report*, column 374W, on aircraft crashes, why the radar altitude hold was not cleared for use on the Chinook HC1; and if he will make a statement. [25113]

Mr. Touhig: The radar altitude hold was not cleared for use on the Chinook HC1 because, during acceptance trials, a small number of technical problems were identified with its use. However, the non-operation of the radar altitude hold did not affect overall safety of the aircraft as the altimeter could be set to give both visual and audio indications of a drop in altitude.

Armed Forces

Mr. Drew: To ask the Secretary of State for Defence what changes in the rules of engagement are being made as the UK takes on leadership of the Allied Rapid Reaction Force. [29680]

Mr. Ingram: The Allied Rapid Reaction Corps (ARRC) is the British-led High Readiness Force (Land) Headquarters, one of six NATO possesses. These headquarters command the International Security Assistance Force in turn. The Headquarters Group of the ARRC will operate under Rules of Engagement compatible with those agreed by NATO, but it has been the practice of successive Governments not to comment in detail on the Rules of Engagement under which our armed forces operate.

Andrew Rosindell: To ask the Secretary of State for Defence how many complaints about inappropriate kit have been recorded in the recent campaigns in *(a)* Iraq and *(b)* Afghanistan. [27615]

Mr. Ingram: I understand that this question refers specifically to clothing and backpacks. There have been no officially reported complaints within the chain of command about inappropriate clothing or backpacks from either Iraq or Afghanistan during the last 12 months for which records are maintained. The equipment provided to armed forces personnel is sufficient and appropriate for the tasks they are required to undertake.

Adam Price: To ask the Secretary of State for Defence for what reasons applications from Fiji to join the armed services are on hold. [28929]

Mr. Touhig: The recruitment of Fijian Nationals is not on hold. Fijian nationals may still apply to join the armed services in the same way as applicants from any other Commonwealth Country.

However, the practice of the Commonwealth Selection Team visiting Fiji has been placed on hold pending a review of the procedures used to select and support Fijians in the British Army.

Mr. Burstow: To ask the Secretary of State for Defence when his Department last reviewed the duty free status of cigarettes for armed service personnel. [29275]

Mr. Touhig: Service personnel are able to purchase duty free cigarettes when on board HM Ships in international waters and normally when overseas, although quantities may be limited by local agreements. The arrangements are well established and have not been subject to review.

Mr. Burstow: To ask the Secretary of State for Defence what recent assessment he has made of the prevalence of smoking among armed service personnel. [29276]

Mr. Touhig: The most recent completed assessment of prevalence of smoking amongst armed service personnel was carried out by the Defence Dental Services as part of their annual dental inspections for the year 2004–05. It recorded smoking prevalence of 23 per cent. for the Royal Navy., 33 per cent. for the Army and 19.6 per cent. for the RAF.

Mr. Burstow: To ask the Secretary of State for Defence what assessment he has made of the impact of the armed forces' entitlement to duty free cigarettes on the prevalence of smoking among service personnel. [29277]

Mr. Touhig: There has been no assessment specifically relating to the impact on the prevalence of smoking of the availability of duty free cigarettes to Service personnel serving abroad.

Army Recruitment Campaigns

Dr. McCrea: To ask the Secretary of State for Defence what the cost was of the British Army recruitment campaigns in Northern Ireland in each of the last five years. [30223]

Mr. Touhig: The regional recruitment marketing costs for Commander Regional Recruiting Northern Ireland, one of the nine Commanders Regional Recruiting within the United Kingdom, for the last five financial years are detailed in the table. These cover activities including: local marketing, newspapers, printing and local Regimental Recruiting Team marketing, but exclude staff costs. They also exclude national advertising, television, radio, response handing, magazines, education and citizenship, national events and exhibitions and Camouflage (Youth programme), which are funded centrally by Headquarters Recruiting Group, a part of the Army Training and Recruiting Agency. It is not possible to apportion these national costs to regional areas of the United Kingdom.

Financial year	*Cost of marketing (£ million)*
2000–01	0.360
2001–02	0.311
2002–03	0.371
2003–04	0.262
2004–05	0.641

The reduction in the costs for 2003–04 was due to a general redeployment of regional marketing funds to Headquarters Recruiting Group's national recruiting operation.

Additional funding was provided to Northern Ireland in 2004–05 to fund a bespoke television advertising campaign on Ulster Television to counter the difficult recruiting environment, which nationally grew towards the end of the year.

Harrier Aircraft

Mr. Ellwood: To ask the Secretary of State for Defence if he will make a statement on the future of the Harrier aircraft fleet. [30344]

Mr. Ingram: By April 2006, the Joint Force Harrier (JFH) will have migrated to an all Harrier Ground Reconnaissance force, comprising GR7, GR9 and T10 aircraft, following the withdrawal of the Sea Harrier aircraft from service. The Harrier GR force will remain in service until it is replaced by the Joint Combat Aircraft around the middle of the next decade.

Courts Martial

Mr. Gordon Prentice: To ask the Secretary of State for Defence how many *(a)* soldiers and *(b)* officers in the British Army have resumed their military careers after being found not guilty by a court martial in each of the last 10 years. [29775]

Mr. Touhig: All soldiers and officers who are found not guilty at a court martial may, in principle, continue their military career. However, if it is deemed appropriate, subsequent administrative action could be taken which could result in discharge from the Army. Service personnel might also choose to seek premature voluntary release.

The figures in the following table indicate the numbers in each of the last 10 years who have been found not guilty at court martial.

	Number acquitted
1995	30
1996	40
1997	34
1998	70
1999	65
2000	82
2001	145
2002	65
2003	70
2004	57

The numbers of those discharged as a result of administrative action after having been found not guilty at court martial, or who choose to leave voluntarily, could not be provided without incurring disproportionate costs.

Sarah Teather: To ask the Secretary of State for Defence how many members of the armed forces were *(a)* charged and *(b)* found guilty at courts martial for each category of serious crimes of violence up to that of murder in cases where all proceedings are complete in each of the past 10 years; and how many of those found guilty were (i) sent to prison, (ii) dismissed, (iii) dismissed in disgrace and (iv) retained in the forces following a period of imprisonment in each year. [30227]

Mr. Touhig: This information is not held centrally and could be provided only at disproportionate cost.

Decorations

Dr. Julian Lewis: To ask the Secretary of State for Defence if he will list the theatres for service in which General Service Medals and Clasps have ceased to be awarded, broken down by *(a)* date and *(b)* reasons for the decision in each case. [30535]

Mr. Touhig *[holding answer 21 November 2005]:* There is currently only one General Service Medal (GSM) in issue, for service in Northern Ireland. GSMs no longer in issue would have been terminated because the operation ended or the risk and rigour diminished. It must be noted that medals and clasps are not in the gift of the Ministry of Defence—this Department only makes recommendations through the Cabinet Office to the Committee on the Grant of Honours, Decorations and Medals (HD Committee), which in turn makes recommendations to HM The Queen.

The following GSMs have been awarded since the end of the Second World War:

General Service Medal 1918–62 with clasps for:	
a. South East Asia 1945–46	3 September 1945 to 30 November 1946
b. Bomb and Mine Clearance 1945–49	3 September 1945 to 31 December 1949
c. Bomb and Mine Clearance 1945–56	3 September 1945 to 10 November 1956
d. Palestine 1945–48	27 September 1945 to 30 June 1948
e. Malaya	16 June 1948 to 31 July 1960
f. Canal Zone	16 October 1951 to 19 October1954
g. Cyprus	1 April 1955 to 18 April 1959
h. Near East	31 October to 22 December1956
i. Arabian Peninsula	1 January 1957 to 30 June 1960
j. Brunei	8 December to 23 December 1962
The General Service Medal 1962 with clasps for:	
a. Borneo	24 December 1962 to 11 August 1966
b. Radfan	25 April to 31 July 1964
c. South Arabia	1 August 1964 to 30 November 1967
d. Malay Peninsula	17 August 1964 to 11 August 1966
e. South Vietnam	24 December 1962 and 29 May 1964
f. Northern Ireland	14 August 1969 to a date to be decided
g. Dhofar	1 October 1969 to 3 September 1976
h. Lebanon	7 February 1983 to 9 March 1984
i. Mine Clearance (Gulf of Suez)	15 August to 15 October 1984

General Service Medal 1918–62 with clasps for:	
j. Gulf	17 November 1986 to 28 February 1989
k. Kuwait	8 March to 30 September 1991
l. Northern Iraq/Southern Turkey	6 April to 17 July 1991
m. Air Operations Iraq	16 July 1991 to 18 March 2003 (Op Resinate (South)) or 30 April 2003 (Op Resinate (North)).

Diego Garcia

Mr. Ellwood: To ask the Secretary of State for Defence what the UK's military commitment is to Diego Garcia; what other overseas forces are stationed there; and if he will make a statement. [30346]

Mr. Ingram: The United Kingdom's military commitment to Diego Garcia, in the British Indian Ocean Territory, is to maintain and exercise UK sovereignty over the territory, including its territorial waters and airspace. In total, 41 UK military personnel are based there. United States forces are also stationed on the island.

Iraq

Ben Chapman: To ask the Secretary of State for Defence if he will make a statement on the status of British troops in Iraq following the approval of the Iraqi constitution. [29687]

Mr. Ingram: The United Kingdom's armed forces continue to assist the Iraqi Government in providing security and building the capability and capacity of the Iraqi Security Forces so that they may take responsibility for their own security.

UK forces remain in Iraq under the UN mandate set out in United Nations Security Council Resolution (UNSCR) 1546. Following a written request by the Iraqi Government, on 8 November the United Nations Security Council unanimously adopted resolution 1637, which comes into effect on 31 December 2005. This extends the mandate of the Multi-National Force in Iraq (MNF-I), if required, until 31 December 2006. UNSCR 1637 includes the same guarantees as UNSCR 1546, including a commitment on the part of the UN Security Council to review these provisions no later 15 June 2006 and to terminate the mandate of the MNF-I if requested by the new Iraqi Government.

Literacy and Numeracy

Mr. Gibb: To ask the Secretary of State for Defence pursuant to the answer of 7 November 2005, *Official Report*, column 98W on departmental staff literacy and numeracy, how many and what proportion of new recruits to the army in the last 12 months had *(a)* literacy and *(b)* numeracy skills at or below (i) entry level 3, (ii) entry level 2 and (iii) entry level 1. [27877]

Mr. Touhig: Consolidated literacy and numeracy initial assessment figures for recruits to the army in the period 1 November 2004 to 31 October 2005, are provided as follows.

	Literacy			*Numeracy*		
	Entry level 1	*Entry level 2*	*Entry level 3*	*Entry level 1*	*Entry level 2*	*Entry level 3*
Percentage	0.71	7.81	32.51	0.19	7.65	37.11
Number of recruits	72	795	3310	19	770	3737
		10,180				
Total number of recruits[1]		10,070				

[1] Numeracy figures are lower because numeracy assessments were not initially recorded at all locations.

Operation Maturin

Mr. Drew: To ask the Secretary of State for Defence what commitment the UK made to Operation Maturin to help the earthquake victims in Pakistan and Kashmir; how many flights were made by the RAF; how many personnel were involved; what tonnage of *(a)* food and *(b)* other supplies were transported; and where. [29609]

Mr. Ingram: The United Kingdom commitment to Operation Maturin has been both bilateral with Pakistan and through NATO. Bilaterally, the RAF have deployed three CH-47 Chinooks, which have flown and combined total of more than 200 flying hours and delivered nearly 900 tonnes of aid to date, comprising food, tents and blankets, but also tools, plastic sheeting, corrugated iron and baby care equipment. The breakdown of tonnage by individual items is not available. Up to 16 November, they had also evacuated some 325 personnel, 32 of whom were casualties. The number of personnel involved in this deployment is 81 (77 deployed as part of the Support Helicopter Force and four medics).

A six-person Operational Liaison and Reconnaissance Team (ORLT) deployed to Islamabad on 19 October to provide support to the UK operation. A two-man Mobile Air Operations Team deployed to Chaklala airbase, on the weekend of 29 and 30 October, where they carried out a successful reconnaissance of a Forward Operating Base to the north of Islamabad. Four logistic planners deployed to Islamabad on 26 October to assist the UN Joint Logistics Centre (UNJLC), where they are assisting in the development of a UN relief plan, including making more effective use of available aircraft. The MOD has also provided 23,000 vegetarian and halal ration packs, while a four person Joint Media Operations Team is providing coverage of the UK response and assisting NATO where possible.

Four C-17 flights have provided strategic lift, including: the transportation of two civilian Puma helicopters to Pakistan on behalf of DfID and the International Committee of the Red Cross; the transportation of one CH-47 Chinook helicopter and its crew and equipment (two flights); and, on behalf of NATO, the transportation of a medical team of three accompanied by equipment and

a Land Rover. Each flight required a crew often. A total of 57 passengers were transported. Details of the total tonnage carried on these flights is not available.

The United Kingdom has contributed to the NATO relief effort in a number of ways. Four RAF C130 Hercules with six crews, and supporting Specialist Deployed Operating Base elements from RAF Lyneham have been made available to NATO. Three have been deployed to Incirlik, Turkey to deliver aid via the NATO airbridge. One remains in the UK at 48 hours notice to deploy. As of 14 November, they had carried out 30 flights, delivering 288 tonnes of aid (37 per cent. of the total moved by NATO), comprising tents, mattresses, stoves, blankets and medical items. The breakdown of tonnage by individual items is not available. The number of personnel involved in this deployment is currently 91 (84 in Incirlik, and seven in Baku, Azerbaijan).

A RAF Mobile Medical Team of four people (one GP, two Medical Technicians and one Environmental Health Technician) deployed to the region on 16 November. One RAF officer is in Islamabad as part of NATO's own Operational Liaison Reconnaissance Team (OLRT). A seven person UK Liaison party from the UK Joint Force Air Component HQ has joined the French-led Joint Force Air Component HQ and are deployed in France and Pakistan.

In addition to our standing NATO commitments, a sub-unit 59 Independent Commando Squadron Royal Engineers, supported by personnel from 42 Commando Royal Marines, has been offered to NATO. If the offer of this capability is taken up it will comprise 86 personnel deploying to Pakistan.

Royal Navy

Daniel Kawczynski: To ask the Secretary of State for Defence how many Royal Navy personnel are based in *(a)* Gibraltar and *(b)* the Falklands. [29166]

Mr. Ingram: I refer the hon. Member to Tri Service Publication 6, Global Location of UK Regular Forces (TSP 6). Data are provided for the Naval Service, which include the Royal Navy and the Royal Marines.

TSP 6 is published quarterly; the most recent publication shows the numbers of Service personnel at 1 July 2005.

Copies of TSP 6 are held in the House of Commons Library and also available on www.dasa.mod.uk.

Royal Ordnance Factory (Chorley)

Mr. Hoyle: To ask the Secretary of State for Defence how much land at Royal Ordnance factory *(a)* Chorley and *(b)* Heapey is owned by Royal Ordnance. [28012]

Mr. Ingram: BAE, now known as BAE Systems Land Systems, took over Royal Ordnance and their sites in 1987. Land holdings are a matter for the company.

Territorial Army

Ann Winterton: To ask the Secretary of State for Defence pursuant to the answer of 26 October 2005, *Official Report*, column 380W, on military personnel, how many of the Territorial Army personnel who collected their bounty in 2004–05 were *(a)* first-year bounty, *(b)* second-year bounty, *(c)* third-year bounty and *(d)* over three years bounty; and how many voluntary leavers had not passed phase 1 and 2 of basic training. [29537]

Mr. Touhig: This information is not held centrally and can be provided only at disproportionate cost.

Veterans' Badges

Mr. Truswell: To ask the Secretary of State for Defence how many veterans' badges have been allocated to ex-service personnel in Pudsey constituency. [19758]

Mr. Touhig: The scheme was launched in May 2004. There are no accurate records of geographical issue available prior to April 2005.

A total of 16 badges have been issued to ex-service personnel in the Pudsey constituency since April 2005.

On 13 November my right hon. Friend the Secretary of State for Defence announced that eligibility for the badge was being extended to those who served between the two world wars, and from the end of the second world war until the end of 1954

Rosie Cooper: To ask the Secretary of State for Defence how many veterans' badges have been allocated to ex-service personnel in West Lancashire constituency in the last five years. [27697]

Mr. Touhig: The scheme was launched in May 2004. There are no accurate records of geographical issue available before April 2005.

A total of 47 badges have been issued to ex-service personnel in the West Lancashire constituency since April 2005.

On 13 November my right hon. Friend the Secretary of State for Defence announced that eligibility for the badge was being extended to those who served between the two world wars, and from the end of the second world war until the end of 1954.

SOLICITOR-GENERAL

Domestic Violence (Wales)

Mrs. Moon: To ask the Solicitor-General how many domestic violence prosecutions were undertaken in Wales in each year since 2002, broken down by region. [30786]

The Solicitor-General: The following table shows the number of Crown Prosecution Service (CPS) prosecutions for domestic violence offences, finalised in Wales, in the last two financial years, together with comparable figures for each of the four CPS areas located in Wales. The table also shows the number and proportion resulting in conviction and in unsuccessful outcomes.

The CPS does not have comparable full records of domestic violence proceedings before 2004.

Proceedings for domestic violence—Wales: 2004–06

	Convictions	Percentage	Unsuccessful outcomes	Percentage	Total
2004–05					
Dyfed Powys	138	58.5	98	41.5	236
Gwent	268	60.2	177	39.8	445
North Wales	297	67.7	142	32.3	439
South Wales	621	52.5	561	47.5	1,182
Total	1,324	57.5	978	42.5	2,302
2005–06 (1 April 2005 to 17 November 2005)					
Dyfed Powys	119	63.0	70	37.0	189
Gwent	188	60.6	122	39.4	310
North Wales	313	68.0	147	32.0	460
South Wales	455	51.8	424	48.2	879
Total	1,075	58.5	763	41.5	1,838

Serious Fraud Office

Malcolm Bruce: To ask the Solicitor-General if the Serious Fraud Office will investigate the allegations concerning British companies contained in the Volcker report into the UN Oil-for-Food operation in Iraq; and if he will make a statement. [29685]

The Solicitor-General: The Serious Fraud Office is reviewing the Volcker report to determine whether any circumstances mentioned in the report justify involvement of the Serious Fraud Office.

As part of our responsibilities under the OECD convention against corruption the Serious Fraud Office will review all allegations of corruption referred to it against United Kingdom companies or individuals in overseas jurisdictions to determine whether an investigation is warranted.

Malcolm Bruce: To ask the Solicitor-General what assessment the Attorney-General has requested the Serious Fraud Office to produce of the difficulties the Serious Fraud Office faces in detecting, investigating and prosecuting corruption. [31181]

The Solicitor-General: The Attorney-General routinely meets with the Director of the Serious Fraud Office and other senior SFO officials. A standing agenda item at these meetings are case updates and significant allegations reported to the SFO. The updates include briefing on difficulties faced by the SFO at any stage of an investigation or prosecution, for any type of case.

LEADER OF THE HOUSE

Royal Prerogative

Mr. Greg Knight: To ask the Leader of the House if he will bring forward proposals in this Session of Parliament to modernise and improve the parliamentary scrutiny process of ministerial decisions made using the royal prerogative. [29797]

Mr. Hoon: The Government have no plans to alter the present procedures for parliamentary scrutiny of ministerial decisions involving the royal prerogative. The Government accepts and welcomes scrutiny of any of their actions, including those taken under the prerogative. Ministers are already accountable to Parliament for action taken under prerogative powers, as for anything else.

I refer the right hon. Member to the Government Response to the Fourth Report of the Public Administration Committee (HC422) of session 2003–04.

CONSTITUTIONAL AFFAIRS

Care Home Closures (Legal Challenges)

Andrew Mackinlay: To ask the Minister of State, Department for Constitutional Affairs what the policy is of the Legal Services Commission on the granting of legal aid to those seeking to challenge closure of local authority care homes on human rights grounds; and if she will make a statement. [29721]

Bridget Prentice: The Legal Services Commission assesses applications for Community Legal Service funding, including those on human rights grounds, on a case by case basis against the criteria set out in the Funding Code, as established under the Access to Justice Act 1999. This involves consideration of the client's means, the prospects of success for the case, the likely cost, and the benefit to the client and wider public as a whole.

Correspondence

Sir Gerald Kaufman: To ask the Minister of State, Department for Constitutional Affairs if she will require the Crown Prosecution Service to reply to the letter dated 28 September to the Secretary of State from the right hon. Member for Manchester, Gorton which was forwarded to the Crown Prosecution Service on 7 October. [29108]

Ms Harman: The Crown Prosecution Service sent the right hon. Member a substantive reply on 16 November about prosecution aspects of the case. The Lord Chancellor will reply about other aspects of the right hon. Member's letter.

Legal Aid

Mr. Andrew Turner: To ask the Minister of State, Department for Constitutional Affairs how many *(a)* women and *(b)* men received legal aid in respect of care and custody proceedings in each of the last three years for which information is available. [31020]

Bridget Prentice: I will reply to the hon. Member as soon as possible.

Ministerial Travel

Norman Baker: To ask the Minister of State, Department for Constitutional Affairs how much has been spent in each year from 1 May 1997 on ministerial travel, broken down by *(a)* provision and running costs of vehicular transport, *(b)* first class travel by rail, *(c)* standard class travel by rail, *(d)* first class travel by air, *(e)* club or equivalent class travel by air and *(f)* economy class travel by air. [27788]

Bridget Prentice: A year-by-year and travel class breakdown cannot be provided without incurring disproportionate cost. However, my hon. Friend the Parliamentary Secretary at the Cabinet Office has asked Roy Burke, Chief Executive of the Government Car and Despatch Agency (GCDA) to write to the hon. Member with details of the costs of ministerial vehicles provided to Departments in 2004–05. Copies of his letter will be placed in the Library.

For information for the financial years 2000–01 to 2003–04, I refer the hon. Member to the letters from the Chief Executive of the GCDA to the hon. Member for Buckingham (John Bercow) dated 10 January 2005 and to the then hon. Member for Arundel and South Downs (Howard Flight) dated 13 September 2003. Copies of these letters are available in the Library.

In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The Government have also published annually the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. These report information for the financial years 1995–96 to 2004–05. Information for 2005–06 will be published as soon as it is ready after the end of the current financial year. All Ministerial travel is undertaken in accordance with the rules set out in the "Ministerial Code" and "Travel by Ministers", copies of which are available in the Libraries of the House.

NORTHERN IRELAND

Drug Crimes

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* recorded cases of, *(b)* prosecutions for and *(c)* convictions for drug crimes there have been for (i) illegal importation of drugs, (ii) illegal cultivation of drugs, (iii) possession of drugs with intent to supply, (iv) possession of drugs, (v) money laundering-related drugs offences and (vi) other drugs offences in each of the last five years, in each district command unit in Northern Ireland. [28880]

Mr. Woodward: The information requested by the hon. Gentleman has been placed in the Library.

Public Bodies

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland if he will list the public bodies in Northern Ireland which *(a)* fall within the remit of (i) the Office of the Commissioner for Public Appointments for Northern Ireland and (ii) the Office of the Commissioner for Public Appointments and *(b)* are outwith the remit of either body. [30245]

Angela E. Smith: The information requested by the hon. Gentleman has been placed in the Library.

CABINET OFFICE

Government Car and Despatch Agency

Norman Baker: To ask the Chancellor of the Duchy of Lancaster (1) how many cars in the fleet purchased each year since 1997 by the Government Car and Despatch Agency have been converted to alternative environmentally friendly fuels; [30918]

(2) what plans are in place to celebrate the 60th anniversary of the Government Car and Despatch Agency; [30919]

(3) pursuant to page 24 of the Government Car and Despatch Agency Annual Report 2004–05, which Government Departments which are now using the Green Car Service; [30920]

(4) if he will list all those other than Ministers who are entitled to a car and driver supplied by the Government Car and Despatch Agency. [30922]

Mr. Jim Murphy: The responsibility for the provision of ministerial cars and drivers has been delegated under the terms of the Framework Document to the Government Car Despatch Agency. I have asked its chief executive Mr. Roy Burke to write to the right hon. Member. Copies of his letter will be placed in the Library.

TRADE AND INDUSTRY

Nuclear Inspectorate

Norman Baker: To ask the Secretary of State for Trade and Industry how many *(a)* complaints, *(b)* court actions and *(c)* fines there have been in each year since 1995 against the nuclear industry for problems related to (i) odours, (ii) water pollution, (iii) air pollution and (iv) human health impact, (A) in total, (B) in each region and (C) per site. [27794]

Mr. Morley: I have been asked to reply.

It is not possible to provide a reply that fully answers the hon. Member's question without entailing disproportionate cost.

However, details of cases and fines against the nuclear industry have recently been made available in the House of Commons Library following the hon. Member's recent question to my right hon. Friend the Secretary of State for Trade and Industry.

As the Environment Agency's National Enforcement Database was commissioned in 1999, data are only available from that date. The Database identifies pollution cases by their effects on air, water and land and does not include "complaints".

Radioactive Material

Norman Baker: To ask the Secretary of State for Trade and Industry how many accidents there have been in each year since 1975 involving the transportation of radioactive material *(a)* by air, *(b)* by road, *(c)* by rail and *(d)* by ship. [27665]

Dr. Ladyman: I have been asked to reply.

Details of all events involving the transport of radioactive material in the UK since 1989 have been published in a series of annual reports. The latest report in this series is "Radiological Consequences Resulting from Accidents and Incidents Involving the Transport of Radioactive Materials in the UK—2004 Review (HPA-RPD-007)". This report is on the internet at the following address:

http://www.hpa.org.uk/radiation/publications/hpa_rpd_reports/2005/hpa_rod_007.htm

Details of all the previous reports in the series are contained in the reference section of the latest report. A report detailing events occurring during 2005 will be published in late 2006.

Two reports analysing trends in events have also been published, these are: "Review of the Radiological Consequences Resulting from Accidents and Incidents Involving the Transport of Radioactive Materials in the UK from 1964 to 1988 (NRPB-M206)" and "Review of the Radiological Consequences Resulting from Accidents and Incidents Involving the Transport of Radioactive Materials in the UK from 1958 to 1994 (NRPB-R282)".

The reports contain information concerning all abnormal events involving the transport of radioactive material which have been reported to or have otherwise come to the attention of the Department for Transport. The total number of events for each year and mode of transport are:

	Air	*Road*	*Rail*	*Ship*	*Airport*[1]
1975	2	7	0	3	18
1976	1	3	7	1	23
1977	1	5	7	1	20
1978	1	4	6	1	16
1979	1	4	3	1	10
1980	0	3	7	1	11
1981	2	5	6	0	7
1982	1	2	3	0	9
1983	1	5	0	0	2
1984	0	3	4	3	1
1985	1	7	4	0	0
1986	2	2	2	2	0
1987	3	5	5	1	0
1988	1	9	4	3	2
1989	2	6	4	2	0
1990	2	6	7	3	1
1991	4	5	9	3	3
1992	4	8	3	1	0
1993	2	8	6	0	3
1994	5	3	11	0	1
1995	6	16	5	1	1
1996	4	9	4	2	9
1997	7	13	3	1	2
1998	11	13	11	0	9
1999	12	13	6	2	5
2000	7	20	15	1	2
2001	3	12	20	1	0
2002	6	10	0	3	1
2003	4	4	3	0	0
2004	3	14	3	0	0

[1] These are events that occurred in airport warehouses and usually involved packages falling from fork-lift trucks. These have been included separately because to classify them as either air or road events would be misleading.

The events in this table include all abnormal events, howsoever minor, and covers all movements of radioactive material, however small and for whatever reason, usually in connection with medical diagnosis/treatment, research or industrial radiography. The list includes events clearly identifiable as accidents (e.g. dropped packages or road traffic accidents), however, the majority are events such as stolen packages, incorrectly prepared packages or packages transported without the correct labelling/paperwork. Most of these events were minor with no radiological consequences and in some cases were false alarms. Very rarely was radioactive material released to the environment or did people receive significant radiation doses.

Examination of the reports referred to earlier in this answer will give a fuller understanding of the frequency, severity and consequences of accidents involving the transport of radioactive material in the UK. Copies of all these reports are available in the House of Commons Library.

WALES

Business Rates

Mr. Crabb: To ask the Secretary of State for Wales how much was raised in business rates from *(a)* Wales and *(b)* Pembrokeshire in each year since 1990. [29498]

Nick Ainger: The information is in the following table. Details of contributions to the pool between 1990–91 and 1995–96 are taken from the publication "Welsh Local Government Financial Statistics". Details from 1996–97 are taken from the StatsWales website table 00466.

Pembrokeshire county council became a billing authority in 1996.

£000[1]

	Wales	*Pembrokeshire*
1990–91	345,309	n/a
1991–92	401,100	n/a
1992–93	378,745	n/a
1993–94	367,147	n/a
1994–95	354,244	n/a
1995–96	399,535	n/a
1996–97	427,156	16,615
1997–98	460,306	17,608
1998–99	464,848	17,124
1999–2000	489,705	7,082
2000–01	566,400	21,771
2001–02	588,531	21,794
2002–03	562,831	22,099
2003–04[2]	567,085	17,036
2004–05[3]	633,511	21,930

n/a = Not available.

[1] Contribution to non-domestic rating pool.

[2] Unaudited.

[3] Provisional.

Council Tax Revaluation

Mrs. Spelman: To ask the Secretary of State for Wales whether *(a)* computer-assisted mass appraisal and *(b)* the automated valuation model was used in the council tax revaluation in Wales. [29726]

Nick Ainger: No

Mrs. Spelman: To ask the Secretary of State for Wales pursuant to the answer of 14 July 2005, *Official Report*, column 1167W, on Council Tax (Wales), what criteria the Valuation Office Agency used in deciding whether to make use of private sector firms during the council tax revaluation in Wales. [29734]

Nick Ainger: The Valuation Office Agency's listing officers in Wales have a statutory duty, under the Local Government Finance Act 1992 (as amended by the Local Government Act 2003), to compile and maintain valuation lists for council tax purposes. The Valuation Office Agency did not make use of private sector firms during the council tax revaluation in Wales, as it was fully resourced to carry out this task.

Damages

Mr. Hayes: To ask the Secretary of State for Wales if he will list the 10 largest amounts of damages paid out by his Department in the last year for which figures are available, indicating in each case the nature of the claim. [27738]

Mr. Hain: Since the Wales Office was established in July 1999, no claims for damages have been paid.

Departmental Contracts (Direct Mail)

Norman Baker: To ask the Secretary of State for Wales how many contracts were signed by his Department in *(a)* 2005–06 to date and *(b)* 2004–05 for direct mail; and what the value was in each case. [27670]

Mr. Hain: Since the Wales Office was established in July 1999 we have never signed any direct mail contracts.

Hospital Provision

Mike Penning: To ask the Secretary of State for Wales what discussions he has had with the National Assembly for Wales Minister for Health to discuss funding for the provision of new hospitals serving patients in Wales. [25939]

Mr. Amess: To ask the Secretary of State for Wales what discussions he has had with the National Assembly for Wales Minister for Health on funding for the provision of new hospitals serving patients in Wales. [23672]

Nick Ainger: I regularly meet with the Assembly Minister for Health and Social Services to discuss a range of issues, including funding for the provision of new hospitals in Wales.

Capital expenditure for building hospitals is detailed within the Welsh Assembly's Capital Investment Plan. This includes a major rebuilding scheme aimed at modernising health and social care and increasing capacity. It will be delivered by investment in the NHS infrastructure in Wales increasing from £120 million in the current financial year to £309 million in 2007–08.

There are currently 55 schemes of which 30 have either on-site development or fully approved business cases 25 which are actively progressing through the business case process, in addition there are 47 schemes in the planning stage.

Of the current schemes, the funding already approved for the first three years of the Capital Investment Plan includes the following projects where work is already ongoing:

2nd Rhondda Community Hospital (Ysbyty Cwm Rhondda)

Porthmadoc Community Hospital

Orthopaedic Surgery facilities in Newport and Llandough

Tenby Community Hospital

Carmarthen Accident and Emergency

South Pembrokeshire Hospital

And the following schemes, where it is anticipated that work will start within the next two years:

Caerphilly Local General Hospital

Ebbw Vale Hospital for Blaenau Gwent

Holywell Community Hospital

Cynon Valley Neighbourhood Hospital

Bro Morgannwg—Modernisation of Mental Health

Gwent Main Delivery Unit

Gwent Clinical School (Health Science Institute)

In addition, work is currently taking place with the NHS to develop a 10-year capital investment plan to 2014–15.

Ministerial Travel

Bill Wiggin: To ask the Secretary of State for Wales how many journeys he has made between London and Cardiff on official business since 2002 by *(a)* car, *(b)* train, *(c)* bus, *(d)* coach, *(e)* helicopter and *(f)* aeroplane; and what the costs of travel were in each year. [30856]

Mr. Hain: All ministerial travel is undertaken in accordance with the rules set out in the "Ministerial Code" and "Travel by Ministers", copies of which are available in the Libraries of the House.

Details on the number of journeys made by car could be provided only at disproportionate cost. My hon. Friend the Under-Secretary of State for the Cabinet Office has asked Roy Burke, chief executive of the Government Car and Despatch Agency (GCDA) to write to the hon. Member for Lewes (Norman Baker) with details of the costs of ministerial vehicles provided to Departments in 2004–05. Copies of his letter will be placed in the Library.

For information for the financial years 2000–01 to 2003–04 I refer the hon. Member to the letters from the chief executive of the GCDA to the hon. Member for Buckingham (John Bercow) dated 10 January 2005 and to the then hon. Member for Arundel and South Downs (Howard Flight) dated 13 September 2003. Copies of these letters are available in the Library.

I have made 428 journeys by train.

The total cost of train journeys per calendar year were:

	£
2002	11,593
2003	9,568
2004	8,400

I have not used any other method of transport between London and Cardiff.

Ministerial Visits

Bill Wiggin: To ask the Secretary of State for Wales if he will list the dates and venues of visits he has made to armed forces' bases in Wales since October 2002. [30857]

Mr. Hain: I visited Maindy Barracks in February 2004 and Brecon Barracks in July 2004.

NHS Hospital Beds

Bill Wiggin: To ask the Secretary of State for Wales what recent discussions he has had in Cabinet on the number of NHS hospital beds in Wales. [30858]

Mr. Hain: The provision of access to NHS treatment in Wales is the responsibility of the Welsh Assembly Government. In my role as Secretary of State for Wales, I discuss issues relating to health service delivery regularly with the First Minister.

I also regularly discuss matters relating to health services in Wales with my right hon. Friend the Secretary of State for Health. For example, in the current Session, my right hon. Friend has introduced two Bills, the Health Bill and the NHS Redress Bill, which contain provisions relating to Wales.

I will continue to raise such matters with Cabinet colleagues when it is appropriate to do so.

Rural Workers (Pay)

Mike Penning: To ask the Secretary of State for Wales what recent assessment he has made of levels of pay for workers in rural Wales; and if he will make a statement. [25940]

Nick Ainger: The Office for National Statistics (ONS) publishes details of pay and earnings within Wales for employees in all industries and occupation by unitary authority that is taken from the Annual Survey of Hours and Earnings.

This information is published on the ONS website: www.statistics.gov.uk

FOREIGN AND COMMONWEALTH AFFAIRS

Ambassadors

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs by what additional amount the frais allowance was increased in this financial year in respect of the United Kingdom's ambassador to the United States; and for what purposes. [26867]

Mr. Straw: The Frais provision of Her Majesty's Ambassador to the United States of America was slightly lower at the beginning of the current financial year compared to the previous one. This reflected movements in the exchange rate of the US Dollar to the Pound and in the cost of living index comparing Washington with the UK. However Frais was underspent by £29,000 the previous financial year and it was agreed that, that amount could be carried over to this financial year to be available for possible additional expenditure in respect of the EU and G8 presidencies, as well as the visit of Their Royal Highnesses The Prince of Wales and the Duchess of Cornwall. This expenditure will need to be accounted for in the usual way.

Assets Recovery Agency

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has received any complaint from the Assets Recovery Agency in respect of any overseas territory failing *(a)* to comply with requests from the Agency and *(b)* to legislate to facilitate the Agency's work; and if he will make a statement. [30086]

Mr. Douglas Alexander *[holding answer 21 November 2005]:* The Assets Recovery Agency has not raised any complaints with my right hon. Friend the Foreign Secretary with regard to any Overseas Territory failing to comply with Agency requests or to legislate appropriately.

The Assets Recovery Agency is currently exploring with some countries and Overseas Territories how the civil recovery part of the UK legislation could be enforced in their jurisdictions. Police and Her Majesty's

Revenue and Customs also continue to liaise and co-operate with other jurisdictions in their application of the criminal confiscation and cash seizure aspects of the Proceeds of Crime Act 2002.

Brazil

Justine Greening: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the trial and conviction in Brazil of Craig Alden; and if he will make a statement. [29873]

Mr. Douglas Alexander *[holding answer 21 November 2005]:* In the light of concerns about the fairness of the trial proceedings that led to Craig Alden's conviction in 2002, the Foreign and Commonwealth Office (FCO) offered Mr. Alden the services of a member of the FCO pro bono lawyers panel, Jeremy Richardson QC, to review the conduct of his case. The decision to offer Mr. Alden this assistance was made without prejudice to the fact that the Government, as in all cases of British Nationals subject to trial proceedings overseas, takes no position as to the guilt or innocence of the accused.

Jeremy Richardson produced two reports on Mr. Alden's case. Mr. Richardson concluded that the trial proceedings in the case were flawed, and that this raised doubts about the fairness of Mr. Alden's conviction. The Government supported Mr. Alden's application to the Brazilian Government for Presidential Expulsion. My right hon. Friend the Foreign Secretary wrote to the Brazilian Foreign Minister in March 2005, highlighting the concerns about the trial process raised in Mr. Richardson's reports. In August 2005, the Brazilian authorities informed British Embassy officials of their intention to reject Mr. Alden's request for Presidential Expulsion. My right hon. Friend the Foreign Secretary has recently received a formal written response from the Brazilian Foreign Minister confirming the rejection. My noble Friend the Parliamentary Under-Secretary of State at the FCO raised that matter with the Brazillian ambassador on 16 November. Mr. Alden has been on hunger strike since 1 November.

We have strongly urged Mr. Alden to reconsider this course of action. Consular officials are in regular contact. The British Embassy nurse visited him on 11 November to assess his condition. We continue to make daily checks on Mr. Alden's health.

Consular officials in London have regular contact with Mr. Alden's family and supporters, and met them most recently on 14 November.

China

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Chinese Government about the forced repatriation of North Korean asylum seekers in China. [29161]

Ian Pearson: We have raised concerns about the forced repatriation of North Korean border crossers on a number of occasions with the Chinese Government. We did so most recently at the UK China Human Rights Dialogue in June 2005. There was also a discussion of this issue at the EU China Human Rights Dialogue in October 2005.

Mr. Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations were made to the Chinese delegation during the recent state visit regarding *(a)* reports of religious persecution in China and *(b)* the status of Tibet. [29169]

Ian Pearson: My right hon. Friend the Prime Minister raised human rights with President Hu but not specifically religious persecution or the status of Tibet. My right hon. Friend the Foreign Secretary and the Chinese Foreign Minister discussed the issue of Tibet and the international parliamentary convention to be held in Scotland later this month. Freedom of religion was a focus for the recent EU China Human Rights Dialogue, held in Beijing on 24 October 2005.

Consultants

Martin Horwood: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list departmental projects conducted by consultants in each year since 2000; what the cost was in each case; and what the total cost of employing consultants was in each year. [29076]

Mr. Straw: Expenditure on external consultants in general is reported annually in the Foreign and Commonwealth Office's (FCO) Departmental Report, copies of which are available in the Library of the House and on the FCO's website at www.fco.gov.uk.

Information on expenditure on individual projects is not held centrally and could be obtained only at disproportionate cost. The vast majority of the work undertaken for the FCO by consultants in each year since 2000 was associated with our major Information Communication Technology and estate construction programmes.

Overall expenditure on external consultants since 2000 is:

	£ million
2000–01	17.9
2001–02	20.1
2002–03	23.7
2003–04	23.2

Expenditure for 2004–05 is in the process of being collated and will be published in the FCO's Departmental Report in April 2006.

Egypt

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Egyptian authorities that provision should be made for Egyptian citizens who are not members of the three official faiths to enable them to receive identity cards; and if he will make a statement. [29303]

Dr. Howells: As stated in the Egyptian constitution, all Egyptian citizens should be treated equally, regardless of religion. We agree that provision should be made for all Egyptian citizens to enable them to receive identity cards.

The UK, along with Australia, the USA, Canada and Ireland, took part in a demarche on the Egyptian Government in December 2004 on the topic of identity cards. We plan to raise our concerns again with the Egyptian Government before the end of the year.

EU Legislation

Michael Gove: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list EU legislation in force which cites as its legal basis Article 308 of the treaties *(a)* wholly and *(b)* in part. [29454]

Mr. Douglas Alexander: The information requested is not held centrally and could only be obtained at disproportionate cost.

Article 308 requires, in order for it to be used as a legal base for action, that a proposal be necessary for the attainment of a Community objective, and have unanimous support at the Council. The Government have given an undertaking that, where the Commission puts forward a legislative proposal citing Article 308 as its legal base, the Commission's justification of this choice of legal base will be provided to the Scrutiny Committees.

Michael Gove: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* directives, *(b)* regulations and *(c)* decisions have been adopted in the EU in each month in 2005. [29458]

Mr. Douglas Alexander: Directives, regulations and decisions adopted in the EU are published in the *Official Journal* of the European Union, which can be found at http://europa.eu.int/eur-lex/lex/JOIndex.do?ihmlang=en

Michael Gove: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* directives, *(b)* regulations and *(c)* decisions have been repealed in the EU in each month in 2005. [29459]

Mr. Douglas Alexander: The Foreign and Commonwealth Office does not hold this information centrally. Information for this year could be obtained only at disproportionate cost. Details of legislation repealed in previous years is available in House of Commons Standard Note SN/IA/2888.

As part of the Better Regulation agenda, the European Commission has expressed a firm commitment to the repeal of irrelevant or obsolete legislation. The UK is a strong supporter of the Better Regulation agenda. We welcome the Commission's recent communication on the simplification of the regulatory environment which is available in the House of Commons Library and includes proposals to repeal, codify, recast or modify 222 pieces of legislation, affecting more that 1,400 related legal Acts.

Falun Gong

Sammy Wilson: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking to address the persecution of Falun Gong practitioners in China. [29142]

Ian Pearson: We raised the matter of human rights abuses against Falun Gong practitioners at the UK China Human Rights Dialogue in June 2005. Falun Gong cases have been included among individual cases of concern on which we have sought responses from the Chinese authorities. Cases of Falun Gong practitioners were also raised at the EU China Human Rights Dialogue in October 2005. We will continue to raise such cases where appropriate.

Forced Labour (China)

Sammy Wilson: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of China on forced labour in China. [29141]

Ian Pearson: We have regularly raised concerns about the practice of re-education through labour (RTL) in China with the Chinese Government. My right hon. Friend the Foreign Secretary discussed reform of RTL with the Chinese Foreign Minister during his visit to China in January 2005. My right hon. Friend the Prime Minister raised this issue during his visit to China in September 2005. RTL was also discussed at the EU China Human Rights Dialogue in October 2005

Iran

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Iranian Government regarding the al-Qaeda operatives they claim are in their custody. [29588]

Dr. Howells: We continue to press Iran to take effective action against members of al-Qaeda and other terrorist groups using Iran as a base, transit route or refuge. We have also sought information about members of al-Qaeda that Iran is reportedly detaining. We want to see Iran co-operate actively with the rest of the international community against these groups. It is vital for all states to work closely together to defeat terrorism.

Iraq

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of how many private military contractors have been killed in Iraq since March 2003. [28405]

Mr. Straw: From our consular records, we are aware of at least 21 British nationals who have been killed in Iraq since March 2003 while working as private military or security contractors. However, this figure is not definitive as our records do not as a formality include details of employers of those British nationals who die abroad. We are also aware of a number of private military and security contractors of other nationalities who have been killed in Iraq during this period. However, we are unable to provide any figures on these as we do not keep statistics on deaths of foreign nationals abroad.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will conduct an inquiry into the implications for the UK of the manipulation of the UN oil-for-food programme in Iraq following the final Volcker report, with particular reference to *(a)* British citizens identified in the report and *(b)* those who received oil concessions from Iraq. [29603]

Dr. Howells: The Government have no plans to hold a separate inquiry into allegations surrounding the Oil-for-Food Programme. The Government believe that the UN and member states need to learn the lessons from the comprehensive investigation carried out by the Independent Inquiry Committee (IIC), chaired by Paul Volcker. The Government co-operated fully with the IIC throughout its investigation and the IIC's findings have been brought to the attention of the relevant UK investigative authorities. Since the publication of the IIC's final report, the Government have also asked the IIC for any further information it holds on British companies and individuals named in the report and will promptly pass any information received on to the relevant UK authorities to consider what further action is required.

Scrutiny Reserve Resolution

Michael Gove: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the occasions on which the Government have overridden the scrutiny reserve resolution in each year since 1980. [29453]

Mr. Douglas Alexander: Figures were only collected from 2001.

	Number of overrides
2001	[1]80
2002	71
2003	75
2004	43
2005 (January to June)	[1]53

[1] Figures are higher for 2001 and 2005 to date because for part of these years Parliament was dissolved and there were periods immediately after the opening of Parliament before the Scrutiny Committees could be re-appointed.

Senegal

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what his position is on *(a)* Belgium's decision to charge Hissene Habre with crimes against humanity and torture and *(b)* the extradition of Hissene Habre to Belgium. [27028]

Ian Pearson: It is a matter for the Belgian authorities to decide whether to bring charges against Hissene Habre in accordance with Belgian law, and whether to request his extradition from Senegal. However, I can confirm that Mr. Habre was detained in Dakar on 15 November pending a Court of Appeal judgment on the merits of the Belgian extradition request. While the request is still under consideration, it is our policy not to pre-judge the outcome of the judicial deliberations.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what action has been taken by his Department to support efforts to bring Hissene Habre to justice for crimes against humanity. [27030]

Ian Pearson: I refer the hon. Member to the answer I gave to my hon. Friend the Member for Sunderland, South (Mr. Mullin) on 16 November 2005, *Official Report*, column 1270W, and to the answers I gave the hon. Member on 21 November 2005, *Official Report*, columns 1591–92W and today (UIN 27028).

Staff Discipline

David T.C. Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs how many employees have been dismissed by his Department in each of the last five years for which figures are available. [29128]

Mr. Straw: Figures are not kept for staff who have been dismissed for reasons other than misconduct.

The numbers of staff who were dismissed for reasons of misconduct are as follows:

	Number
2001	1
2002	1
2003	5
2004	2
2005[1]	2

[1] To date.

In answer to a question from my hon. Friend the Member for Thurrock (Andrew Mackinlay) on 20 December 2004, *Official Report*, column 1399W, my right hon. Friend the Minister of State at the Foreign and Commonwealth Office stated that three members of staff had been dismissed as a consequence of misconduct in 2004. This figure included one member of staff who was dismissed for reasons of inefficiency and should not have been included in the 2004 total.

Uganda

Mark Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the arrest of opposition leaders in Uganda. [29807]

Ian Pearson: Following the arrest of Dr. Kiiza Besigye on 14 November, our high commissioner in Kampala, representing the EU presidency, called on President Museveni to express our concern and to press for an early and transparent trial. On 16 November, Dr. Besigye and 23 other opposition activists were charged with treason and additionally, in the case of Dr. Besigye, rape. My noble Friend the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, also spoke with the Ugandan Foreign Minister Kutesa on 17 November to express deep concern at these developments. We continue to urge the Ugandan authorities to ensure that due legal process and protection under the constitution are afforded to all those who have been indicted and that a fair and transparent trial is held as soon as possible.

Mr. Joyce: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the arrest in Uganda of Dr. Kizza Besigye. [30379]

Ian Pearson: I refer my hon. Friend to the reply I gave the hon. Member for Boston and Skegness (Mark Simmonds) today (UIN 29807).

United States (European Detention Centres)

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has

received reports of detention centres for terror suspects run by the US Central Intelligence Agency in Central and Eastern Europe. [28729]

Dr. Howells: I refer my hon. Friend to the answer my right hon. Friend the Foreign Secretary gave the right hon. Member for North-East Fife (Sir Menzies Campbell) on 21 November 2005, *Official Report*, column 1592W.

West Papua

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will give details of UK-supplied military equipment currently deployed in West Papua; what guarantees he has from the Indonesian government concerning the use of UK-supplied military equipment in West Papua; what measures he has taken to ensure that UK-supplied equipment in West Papua is used in compliance with guarantees given by the Indonesian government; and if he will make a statement. [26136]

Ian Pearson: We are not aware of any UK-supplied equipment currently deployed in Papua. We have consistently made clear to the Indonesian authorities that no British-supplied equipment, or indeed any other equipment, should be used in any human rights abuses.

All export license applications for Indonesia are rigorously assessed on a case by case basis against the EU Consolidated Criteria taking account of the circumstances prevailing at the time. We no longer seek guarantees or assurances over and above these Criteria for the use of British built equipment. If a licence application is not consistent with these Criteria it stands to be refused. Assurances are not enforceable and cannot override the assessment of the application against the criteria.

TREASURY

0870 Numbers

Dr. Cable: To ask the Chancellor of the Exchequer if he will list the occasions in the last five years on which 0870 telephone numbers have been used by his Department as contact numbers for members of the public; and how much revenue was received from the use of 0870 contact numbers in each of the last five years for which records are available. [24461]

John Healey: HM Revenue and Customs (HMRC) currently has contracts with two companies for telecommunications services, including non-geographic number provision (eg 0870). In the former Inland Revenue, 0870 numbers have been used mainly to provide international access to a range of customer contact services and helplines, including for example, the international Self Assessment orderline, IR35, and Construction Industry Scheme orderline, as well as new tax credits. In the former HM Customs and Excise, 0870 numbers have been used mainly in the law enforcement area.

On average HMRC receives around 50,000 calls from the public to 0870 numbers every month. A detailed breakdown of calls to these numbers over the last five years would be available only at disproportionate cost. HMRC does not make any profit from the use of 0870 numbers.

HM Treasury does not use 0870 numbers.

Average Annual Wages

Dr. McCrea: To ask the Chancellor of the Exchequer what the average yearly wage was in each region of the United Kingdom in 2004. [30226]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl to Dr. William McCrea, dated 22 November 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question concerning what the average yearly wage in each region of the United Kingdom was in 2004. I am replying in her absence. (30226)

Currently average earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for full time employees on adult rates of pay who have been in the same job for more than one year. This is the standard definition used for ASHE. The ASHE does not collect data on the self employed and people who do unpaid work.

The attached table shows the Average Gross Annual Earnings for full time employees in all regions of the UK for 2004. These statistics are also available on the National Statistics website http://www.statistics.gov.uk/statbase/Product.asp?vlnk=13290&More=n. Table 7 is earnings by region for place of work; Table 8 is earnings by region for place of residence.

The ASHE, carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It is a one per cent sample of all employees who are members of pay-as-you-earn (PAYE) schemes.

Gross annual pay for full-time employee jobs[1]

£

	2004			
	Work region		*Home region*	
	Median	*Mean*	*Median*	*Mean*
United Kingdom	22,100	27,000	22,100	27,000
Great Britain	22,100	27,200	22,100	27,200
England and Wales	22,300	27,500	22,300	27,600
England	22,400	27,800	22,500	27,800
North East	19,200	22,400	19,300	22,400
North West	20,700	24,500	20,900	24,700
Yorkshire and The Humber	20,400	24,100	20,500	24,000
East Midlands	20,700	23,700	20,900	24,500
West Midlands	20,800	24,400	20,800	24,500
South West	20,700	24,500	21,000	25,200
East	22,300	26,700	23,700	29,400
London	28,800	39,600	27,100	37,000

Gross annual pay for full-time employee jobs[1]

£

	2004			
	Work region		*Home region*	
	Median	*Mean*	*Median*	*Mean*
South East	23,700	28,600	24,700	31,000
Wales	20,100	22,800	20,300	22,800
Scotland	20,600	23,900	20,600	24,000
Northern Ireland	19,600	23,100	19,600	23,100

[1] Employees on adult rates that have been in the same job for more than one year.

Notes:

1. The Annual Survey of Hours and Earnings, (ASHE), carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It is a one per cent sample of all employees.
2. Average gross annual earnings for employees on adult rates who have been in the same job for more than a year.
3. Northern Ireland unit level data are collected by DETINI under the same criteria as ASHE. The dataset is then passed to ONS.
4. The median replaces the mean as the headline statistic. The weighted mean is the sum of the weighted values divided by the sum of the weights. The median is the value below which 50 per cent. of employees fall. It is preferred over the mean for earnings data as it is influenced less by extreme values and because of the skewed distribution of earnings data.

Annual Survey of Hours and Earnings, Office for National Statistics.

Charity Collections

Mr. Philip Hammond: To ask the Chancellor of the Exchequer whether *(a)* guidance and *(b)* rules are in place on collections for charities within the Department and agencies for which he is responsible. [29465]

John Healey: Each Government Department determines its own policies towards collecting monies for charities. There is no explicit guidance, nor rules relating to collections for charities within the Treasury or its associated bodies, but across the Chancellor's Departments, charities are supported through practical means. For example, the Treasury and HM Revenue and Customs (HMRC) have provided secondments to the Giving Campaign and the Princes Trust, have a payroll giving scheme which has been opened and promoted to staff and have also publicised particular charitable appeals.

Construction Industry Scheme

Dr. Cable: To ask the Chancellor of the Exchequer what assessment he has made of the merits of an exemption for charitable organisations from the construction industry scheme prior to the implementation of the remainder of the deferred scheme; and if he will make a statement. [31193]

John Healey: The regulations which were laid on 25 July 2005 exempt charities and others from the operation of the new scheme.

There are currently no plans to make any alterations to the existing scheme, which is now expected to continue until 5 April 2007.

Departmental Performance Reports

Dr. Tony Wright: To ask the Chancellor of the Exchequer if he will place in the Library the guidance provided to Government Departments by his Department on what they should disclose in their 2005 autumn performance reports. [30682]

Mr. Des Browne: A copy of the guidance issued for the 2005 autumn performance reports has been placed in the Library.

EU's Financial Services Action Plan

Michael Gove: To ask Chancellor of the Exchequer how many of the measures outlined in the EU's Financial Services Action Plan have been implemented in the UK; whether an impact assessment has been made of each measure; and what estimate he has made of *(a)* the financial costs and *(b)* the benefits of each measure. [29451]

Mrs. Villiers: To ask the Chancellor of the Exchequer (1) what cost impact assessment has been undertaken of the *(a)* EU Markets in Financial Instruments Directive, *(b)* EU legislation agreed under the Financial Services Action Plan and *(c)* EU Capital Adequacy Directive implementing the Basel 2 Accord; and if he will place copies of such assessments in the Library; [29765]

(2) whether the Department has conducted cost impact assessments in relation to the Prospectus Directive; [30230]

(3) whether his Department has conducted cost impact assessments in relation to the EU Market Abuse Directive. [30274]

John Healey: Of the 42 measures in the Financial Services Action Plan, 16 are Commission communications or recommendations which do not require transposition into member states' national law and regulations. For a further seven measures the deadline for transposition has not yet been reached. The UK has transposed the remaining 19 measures, although only partially in the case of the Directive on Occupational Retirement Provision. The Government expect the legislation required to complete its transposition to be in place before the end of 2005.

The impact, financial costs and benefits of FSAP measures, including the Market in Financial Instruments Directive, the Capital Requirements Directive, Prospectus Directive and Market Abuse Directive, which require transposition and have a regulatory impact have been assessed in the documents listed as follows.

FSAP measure	*HMT regulatory impact assessments*	*FSA cost-benefit analysis*
Prospectus Directive	http://www.hm-treasury.gov.uk/media/1EA/06/20050519_Final_RIA.pdf	http://www.fsa.gov.uk/pubs/cp/cp04_16.pdf http://www.fsa.gov.uk/pubs/cp/cp05_07.pdf

Financial Ombudsman Service

Justine Greening: To ask the Chancellor of the Exchequer how many complaints were made to the Financial Ombudsman Service in relation to life insurance policies in each year between 1997 and 2005; and how many were resolved *(a)* at the assessment stage, *(b)* after investigation by an adjudicator and *(c)* by final decision of an ombudsman in each case. [29874]

Dawn Primarolo *[holding answer 21 November 2005]:* The Financial Ombudsman Service (FOS) gained statutory powers on 1 December 2001. Composite data for life insurance related disputes (incorporating complaints about both whole of life policies and endowments other than those linked to mortgages) are only available from the year ending 31 March 2001.

Also, FOS statistics do not record a distinction between the assessment stage and the initial investigation by an adjudicator.

The percentages for life insurance cases resolved from this date at the assessment and investigation and the ombudsman stages are as follows:

	Percentage
Assessment and investigation	
1 April 2001 to 31 March 2002	89.05
1 April 2002 to 31 March 2003	90.35
1 April 2003 to 31 March 2004	93.35
1 April 2004 to 31 March 2005	91.95
Ombudsman	
1 April 2001 to 31 March 2002	10.95
1 April 2002 to 31 March 2003	9.65
1 April 2003 to 31 March 2004	6.65
1 April 2004 to 31 March 2005	8.05

Insurance Premium Tax

Gregory Barker: To ask the Chancellor of the Exchequer what steps are being taken to combat fraud by insurance companies paying the insurance premium tax. [29815]

John Healey: HM Revenue and Customs continues to develop its risk-based compliance strategy for all taxes to ensure that resource is targeted most effectively at key risk areas.

Gregory Barker: To ask the Chancellor of the Exchequer what plans he has to reform the insurance premium tax. [29820]

John Healey: The Government keeps all taxes under review.

Low-income Households

Mr. Philip Hammond: To ask the Chancellor of the Exchequer whether he uses *(a)* income before housing costs and *(b)* income after housing costs when calculating the number of children in relative low income households for the purposes of measuring performance against 2004 PSA Target 7. [30058]

Mr. Des Browne: The methodology for measurement of 2004 PSA target 7 is set out in the technical note for the target, published by HM Treasury in July 2004. This is available online at:

http://www.hm-treasury.gov.uk./media/EFF/68/julytechnicalnote_300704.pdf

Media Relations

Mr. Salmond: To ask the Chancellor of the Exchequer how much his Department spent on external media relations in each year since 2001. [29613]

John Healey: HM Treasury has not spent any money on external media relations in the years from 2002–03 through to 2004–05. Due to a change in accounting system, information on spending, if any, on external media relations in earlier years could be provided only at disproportionate cost.

Ministerial Decisions (Dissent)

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer if he will list the instances since 1990 when an accounting officer has passed a Note of Dissent to the Comptroller and Auditor General in respect of a ministerial decision. [28099]

John Healey: The following table lists the ministerial directions that the Treasury has been informed of since 1990.

	Department	*Subject of direction*	*Category of direction*
1990	Export Credits Guarantee Department (ECGD)	Sale of British Aerospace (now BAe Systems) Hawk jets to Kenya	Economy, efficiency and effectiveness
1991	Ministry of Defence (MOD)	Chieftain Tank replacement	Economy, efficiency and effectiveness
1991	The former Overseas Development Agency (ODA)	Pergau Dam project	Economy, efficiency and effectiveness
1992	MOD	HMS Endurance replacement	Economy, efficiency and effectiveness
1992	MOD	Closure of depot at Royal Navy Stores Depot (RNSD) Copenacre	Economy, efficiency and effectiveness
1992	The former Ministry of Agriculture, Fisheries and Food (MAFF)	Location of Divisional Offices	Economy, efficiency and effectiveness
1992	MOD	Image Intensifiers	Economy, efficiency and effectiveness
1993	ECGD	Guarantees for Export and Investments in Russia	Economy, efficiency and effectiveness
1995	MOD	Medium Support Helicopters	Economy, efficiency and effectiveness
1995	ECGD	ECGD support to Jordan	Economy, efficiency and effectiveness
1995	The former Department of Environment, Transport and the Regions (DETR)	Re-examination of the wreck of the MV Derbyshire	Economy, efficiency and effectiveness
1995	DETR—the former Office of Passenger Rail Franchising (OPRAF)	Decision on Profit Purticipation in the passenger rail franchising programme	Economy, efficiency and effectiveness
1995	DETR-OPRAF	Decision on Revenue Risk sharing in the passenger rail franchising programme	Economy, efficiency and effectiveness
1997	DETR	Millennium Exhibition: Expenditure to regenerate the Greenwich Peninsula and to provide a site for the Millennium Exhibition	Economy, efficiency and effectiveness
1997	DETR	Channel Tunnel Rail Link and exceptional hardship	Economy, efficiency and effectiveness
1998	The former Department of Social Security (DSS)	Benefits Agency/Post Office Counters Ltd (BA/POCL) automation project	Economy, efficiency and effectiveness

	Department	Subject of direction	Category of direction
1998	DSS	Benefits Agency/Post Office Counters Ltd IBA/POCL) automation project	Economy, efficiency and effectiveness
1998	Northern Ireland Court Service	Concerns an individual's personnel records	Propriety/regularity
1998	MOD	Sale of Cadet Property in Moffat	Propriety/regularity
1998	DSS	Benefits Integrity Project	Propriety/regularity
1999	DSS	Benefits Integrity Project	Propriety/regularity
1999	DSS	Benefits Integrity Project	Propriety/regularity
1999	ECGD	Cashmere Exporters	Economy, efficiency and effectiveness
1999	ECGD	ECGD Cover—Indonesia	Economy, efficiency and effectiveness
2000	ECGD	ECGD Cover—Romania	Economy, efficiency and effectiveness
2000	MOD	Use of public funds to provide financial assistance to meet cost of air flight to Croatia for member of public to attend trial of those accused of murder of his son, a British Serviceman	Propriety/regularity
2001	MOD	Roll-on, Roll-off (RoRo) ferries	Economy, efficiency and effectiveness
2001	Department of Trade and Industry (DTI)	Regional Selective Assistance (RSA)	Regularity/propriety
2002	DETR	A43 Silverstone bypass	Economy, efficiency and effectiveness
2003	DTI	Regional Selective Assistance (RSA)	Economy, efficiency and effectiveness
2003	MOD	Acquisition of BAe Hawk trainer aircraft	Economy, efficiency and effectiveness
2005	DTI	Bombardier C-series launch investment	Value for Money

Note:
This table consolidates all of the information given by Treasury Ministers in written answers on the subject of ministerial directions since the answer given by former Chief Secretary on 23 October 2000, *Official Report*, column 74W.

Ministerial Visit

Lynne Featherstone: To ask the Chancellor of the Exchequer pursuant to the answer of 17 November 2005, *Official* Report, columns 1519–1520W, if he will break down the total cost by individual and mode of transport; whether the costs include the costs incurred for the travel arrangements of special advisers; whether *(a)* his flights from Ramallah to the UK and *(b)* the subsequent return flight were (i) chartered flights, (ii) RAF flights and (iii) private flights; and if he will make a statement. [31183]

John Healey: I set out the costs in my answer of 17 November 2005, *Official Report*, columns 1519–1520W. These costs related solely to scheduled flights leaving and returning to Tel Aviv. No costs were incurred by special advisers.

Non-EU Immigration

David Davis: To ask the Chancellor of the Exchequer what the total net immigration from non-EU countries was in each year since 1997. [30795]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell to Mr. David Davis, dated 22 November 2005:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about the total net immigration from non-EU countries in each year since 1997. (30795)

Table 1, attached below, shows estimates of net immigration from non-EU countries by all citizenships. These data are only available up to 2003. The equivalent figures for 2004 will be published in spring 2006.

Table 1: Total International Migration[1]: time series 1997 to 2003, Net immigration from non-EU2 countries—United Kingdom

	All countries	Thousand Non-EU countries[2, 3]
1997	+ 46.8	+ 38.1
1998	+ 138.8	+ 114.8
1999	+ 163.0	+ 166.8
2000	+ 162.8	+ 170.4
2001	+ 171.8	+ 178.9
2002	+ 153.4	+ 189.1
2003	+ 151.0	+ 171.6

+ denotes a net inflow figure.
- denotes a net outflow figure.

[1] Data for 1997–2003 are based mainly on data from the International Passenger Survey. Includes adjustments for (1) those whose intended length of stay changes so that their migrant status changes; (2) asylum seekers and their dependants not identified by the IPS; and (3) flows between the UK and the Republic of Ireland.

[2] Figures for all years show the non-EU as constituted at 1 January 1995. Therefore, up to and including 2003, the non-EU grouping includes the 10 accession countries of Cyprus, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia.

[3] Includes EU citizens coming in from non-EU countries.

Overseas Public Assets

Malcolm Bruce: To ask the Chancellor of the Exchequer (1) what estimate his Department has made of the amount of money circulating in the UK financial system which is derived from the illicit acquisition of foreign states' public assets; [29691]

(2) what procedures his Department has in place for *(a)* identifying and *(b)* tracking money in the United Kingdom derived from the illicit acquisition of foreign states' public assets. [29692]

John Healey: The UK's anti-money laundering controls are supported by a robust and tested legal framework in relation to the identification and prevention of the movement of illicit funds through the country's financial system regardless of their origin.

Investigations generated by financial sector reporting to NCIS under this framework are a matter for law enforcement. It is not possible to comment on current investigations or amounts of funds concerned without the risk of prejudicing the outcome of those investigations.

Public Service Agreements

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what baseline shares he will use to measure a reduction in the illicit market share for spirits for the purposes of measuring performance against 2004 Public Service Agreement target number 2. [29858]

Mr. Des Browne: The PSA target 1.2 states that by 2007–08 the market share for illicit spirits will be reduced by half. The methodology used to measure performance is set out in "HM Customs: Public Service Agreement 2005–06 to 2007–08 technical note".

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what *(a)* funding will be withheld from and *(b)* other action will be taken in his Department if public service agreement target number (i) one, (ii) two and (iii) three is not met. [30634]

Mr. Des Browne: Performance is taken into account in spending reviews, when the increased performance information and data provided through PSAs helps to inform those areas where policies are working well, and those where further reform might be needed.

SIPPs

Mr. Greenway: To ask the Chancellor of the Exchequer if he will make it his policy to restrict holders of self invested personal pensions from using their pension funds to purchase second homes in rural areas. [24100]

Tim Farron: To ask the Chancellor of the Exchequer if he will make it his policy to exempt rural homes from the provisions in the next Budget for the new self-invested personal pension scheme. [31086]

Dawn Primarolo: Pension simplification sweeps away the numerous existing tax regimes and replaces them with a single universal regime for tax-privileged pension savings from 6 April 2006. These changes have been widely welcomed by savers and the financial services and pensions industry.

The Government keeps all aspects of the tax system under review. Where there is evidence of abuse, it will take appropriate action to stop it.

Solar Photovoltaics Programme

Alan Simpson: To ask the Chancellor of the Exchequer what provision the Treasury has made in its allocation of funding for the Department for Trade and Industry for the capital grant required to meet the Government White Paper commitment to a 10-year solar voltaics programme in line with that of Germany and Japan. [29978]

John Healey: Under the 2004 Spending Review, DTI received funding at departmental level for the three financial years to 2007–08. Allocation to programmes to support photovoltaics within the overall DTI budget is a matter for DTI Ministers.

Special Advisers

John Hemming: To ask the Chancellor of the Exchequer if he will list the special advisers in post in his Department, broken down by pay band; and what the total budgeted cost to his Department of special advisers is for 2005–06. [29416]

John Healey: For the list of special advisers in HM Treasury I refer the hon. Gentleman to the answer provided by my hon. Friend the Under-Secretary of State for the Cabinet Office on 16 November 2005, *Official Report*, column 1257W.

Information relating to costs for 2005–06 will be published after the end of the current financial year.

Staff Discipline

David T.C. Davies: To ask the Chancellor of the Exchequer how many employees have been dismissed by his Department in each of the last five years for which figures are available. [29136]

John Healey: The number of employees dismissed by HM Treasury in each of the last five years for conduct and capability is as follows:

	Number
2001	0
2002	3
2003	4
2004	0
2005	0

Tax Credits

Miss Widdecombe: To ask Chancellor of the Exchequer how much has been paid to claimants as a result of errors in the tax credit system; how much has been paid in compensation for distress caused by the errors; and how many claimants have been subject to tax credit errors. [23201]

Dawn Primarolo: For information on the amount paid as a result of errors, and the number of people affected by errors, I refer to the answer given to the hon. Member for Yeovil (Mr. Laws) on 2 November 2005, *Official Report*, column 1056W.

The circumstances in which HM Revenue and Customs will make compensation payments to its customers are explained in the Department's Code of Practice 1 "Putting things right" which is available at www.hmrc.gov.uk. The Department will pay compensation for reasonable costs incurred as a direct result of its mistakes or delays and to recognise worry and distress caused by those mistakes and delays. It does not keep separate details of compensation payments made specifically due to errors or delays. For the value of compensation payments up to 31 May 2005, I refer to the answer I gave the hon. Member for Yeovil (Mr. Laws) on 4 July 2005, *Official Report*, columns 95–96W. The value of compensation payments made between 1 June 2005 and 30 September 2005 was around £410,000.

Lynne Featherstone: To ask the Chancellor of the Exchequer how many copies of *(a)* notification of tax credit awards and *(b)* tax credit award guidance notes (TC602NOTES) are sent to each recipient. [26336]

Dawn Primarolo: HM Revenue and Customs (HMRC) is statutorily obliged to issue an award notice (TC602) to each claimant when a new claim is decided. An award notice is also sent to each claimant when their award is finalised, renewed or they report a change of circumstance. A copy of the guidance notes is issued with each award notice.

Where a claim is made through the tax credits online service, or if a claimant fails to sign their claim, they are sent an extra copy of their award notice when HMRC decide their claim. Where an unsigned claim is from a couple, HMRC send a joint award notice with an extra copy and only one set of guidance notes. The extra copy of the award notice has a declaration they should sign and return to HMRC to confirm the details on their award notice are correct.

Vera Baird: To ask the Chancellor of the Exchequer what the largest single overpayment of working tax credit in Redcar and Cleveland was in the last 12 months. [30429]

Dawn Primarolo: The information requested is not available except at disproportionate cost.

Mr. Laws: To ask the Chancellor of the Exchequer how many *(a)* tax credit complaints and *(b)* other complaints relating to Her Majesty's Revenue and Customs have been received by the Parliamentary Ombudsman in each month since March 2004; and if he will make a statement. [30546]

Dawn Primarolo: The Parliamentary Ombudsman, Ann Abraham, is an independent office-holder. She operates under the provisions of the Parliamentary Commissioner Act 1967 (as amended).

The Parliamentary Ombudsman publishes information about the number of investigable complaints she has received in her annual report to Parliament. Her 2004–05 Annual Report, HC 348, was published on 20 July.

Wales

Bill Wiggin: To ask the Chancellor of the Exchequer how much public money has been spent in Wales in each year since 1997; and how much public money will be spent in Wales in each year until 2010. [31045]

Mr. Des Browne: Identifiable public spending in Wales is published in Chapter 8 of Public Expenditure Statistical Analyses (Cm 6521). PESA also includes the Wales departmental expenditure limit for the years up to 2007–08. Spending beyond then will be considered in the 2007 Comprehensive Spending Review.

Bill Wiggin: To ask the Chancellor of the Exchequer how much tax revenue has been received from Wales in each year since 1997; and how much tax revenue he expects to receive from Wales in each year until 2010. [31059]

Dawn Primarolo: The following figures from the ONS 2005 publication of household income show estimates of income tax, council taxes and vehicle taxes paid by households in Wales and the United Kingdom for the period 1997 to 2003. They were produced by ONS for the estimation of sub-national gross disposable household income and were published in April 2005.

Estimates of taxes paid by households[1]

		£ million
	Wales	*United Kingdom*
1997	3,214	89,219
1998	3,696	104,820
1999	3,953	112,790
2000	4,148	122,967
2001	4,420	131,007
2002	4,543	132,222
2003	4,742	137,255

[1] Taxes paid by households and non-profit institutions serving households.

No corresponding information is available on taxes paid by organisations or on other taxes paid by households. Projected figures on tax revenue from Wales are not available.

HOME DEPARTMENT

Alcohol and Drug Misuse

Rosie Cooper: To ask the Secretary of State for the Home Department how many people were convicted of *(a)* drunkenness, *(b)* driving after consuming alcohol or taking drugs and *(c)* causing death by dangerous driving when under the influence of drink or drugs in West Lancashire in each year since 1997. [27917]

Paul Goggins: Data from the Home Office Court Proceedings database on the number of persons convicted for drunkenness, driving after consuming alcohol or taking drugs and causing death by dangerous driving when under the influence of drink or drugs in Lancashire police force area, 1997 to 2003, are given in the following table. It is not possible to identify those convicted in the West Lancashire area, as the data are not collected at this level of detail.

Court statistics for 2004 will be available late November.

Number of offenders found guilty at all courts for various offences in Lancashire police force area, 1997 to 2003[1]

	Drunkenness (simple)[2]	*Drunkenness (with aggravation)*[3]	*Driving after consuming alcohol or drugs*[4]	*Causing death by dangerous driving or careless driving while under the influence of drink or drugs*[5]
1997	224	1,237	3,003	11
1998	216	1,319	2,591	7
1999	182	1,444	2,349	3
2000	247	1,682	2,312	4
2001	181	1,815	2,059	7
2002	177	1,643	2,316	7
2003	74	1,574	2,393	6

[1] These data are provided on the principal offence basis.

[2] Includes offences under S.12 Licensing Act 1872, Sporting Events (Control of Alcohol etc) Act 1985 SS.1(4), 1A(4), 2.(2) and S.12 Criminal Justice & Police Act 2001.
[3] Includes offences under S.91 Criminal Justice Act 1967. S.12 Licensing Act 1872, S.174 Licensing Act 1964, S.9(4) Late Night Refreshment Houses Act 1969, S.28 London Hackney Carriage Act 1843, SS.101(1)*(a)*/*(b)*, (4) & (5) Merchant Shipping Act 1995, S.2 Licensing Act 1902 and S.61 Town Police Clauses Act 1847.
[4] Includes offences under sections 4(1),4(2), 5(1)*(a)*, 5(1)*(b)*, 6(4) and 7(6) Road traffic Act 1988.
[5] Includes offences under Road Traffic Act 1988 S.1 as added by Road Traffic Act 1991 S.1 and Road Traffic Act 1988 S.3A as added by Road Traffic Act 1991 S.3 and amended by Criminal Justice Act 1993 S.6

Armed Police (Rules of Engagement)

Mr. Wallace: To ask the Secretary of State for the Home Department what plans he has to review the rules of engagement for armed police opening fire. [28555]

Hazel Blears: Operational tactics when using firearms are a matter for the police. All police use of firearms is subject to the usual law on the use of force. In particular, the Criminal Law Act 1967 provides that the police may use such force as is reasonable in the circumstances to effect an arrest or to prevent crime.

Arson

Andrew Rosindell: To ask the Secretary of State for the Home Department what steps his Department is taking to reduce arson; and if he will make a statement. [29024]

Hazel Blears: The Government are fully committed to tackling arson through the achievement of our public service agreement targets to reduce deliberate fires, crime and the fear of crime and through our continued engagement in the work of the Arson Control Forum (ACF), which is led by the Office of the Deputy Prime Minister. The ACF (established in April 2001) provides the strategic direction for the national fight against arson. The Forum has invested a total of £11.3 million in local arson prevention initiatives since its creation.

We have also recognised the important contribution of the fire and rescue service to multi-agency working. Since 1 April 2003, all fire and rescue service authorities have been statutory partners in local crime and disorder reduction partnerships (CDRPs). This is helping to ensure that the fire and rescue services play a full role in community safety and help local communities to tackle arson and the associated areas of crime.

Asylum and Immigration

Mr. Gerrard: To ask the Secretary of State for the Home Department what estimate he has made of the number of families who would be affected by the national implementation of section 9 of the Asylum and Immigration (Treatment of Claimants) Act 2004. [29486]

Mr. McNulty: Section 9 enables NASS support to be withdrawn from failed asylum seeking families who are failing without reasonable excuse to take reasonable steps to leave the UK voluntarily, or to place themselves in a position in which they can do so. A lengthy process has been developed which provides oral and written warnings that families' support may be withdrawn if they fail to take steps to leave. Whether support is actually withdrawn depends on the families' reactions, and it is not therefore possible to provide a realistic estimate of the number of families which might be affected by any national roll out of section 9.

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department what is the average time failed asylum seekers have been detained under the Asylum and Immigration Act 2004 before being deported; how many people are being detained under the Act; and if he will make a statement. [29786]

Mr. McNulty *[holding answer 21 November 2005]:* Information on the average length of detention prior to the removal or deportation of failed asylum seekers is unavailable. It would be available by examination of individual case files only at disproportionate cost.

Quarterly snapshots are published showing the number of people detained under Immigration Act powers on the last Saturday of each quarter and these can be broken down by the length of detention. The latest published statistics on the number of asylum seekers detained covers the second quarter of 2005. Information on the number of persons detained, as at 25 June 2005 are published in the Quarterly Asylum Bulletin, table 13, on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Jenny Willott: To ask the Secretary of State for the Home Department how his Department *(a)* monitors, *(b)* records and *(c)* budgets for spending on transferring failed asylum seekers between detention centres in the UK; and if he will make a statement. [30079]

Mr. McNulty: The in-country escorting contract for immigration detainees is monitored by an escorting monitor who reviews performance by means which include regular meetings with the contractor, review of movement and other data and feedback from stakeholders.

A record is maintained of the number of inter detention estate transfers of all immigration detainees.

There is no budget allocation specifically for the transfer of failed asylum seekers between detention centres. The escorting contract price is inclusive of all moves.

Andrew Rosindell: To ask the Secretary of State for the Home Department what steps the Government are taking to reduce the number of asylum applications to the UK; and if he will make a statement. [26466]

Mr. McNulty: We have already made real progress in reducing the number of unfounded asylum applications. The monthly number of asylum applications have fallen by 75 per cent. between October 2002 and September 2005. This reduction follows the implementation of a range of legislative and operational measures designed to reduce the number of unfounded asylum applications.

We have also dramatically reduced processing times. Around 80 per cent. of asylum claims now receive an initial decision within two months. At the same time the

number of failed asylum seekers being removed from the UK has risen significantly. In 2004 over 1,000 asylum seekers were removed each month, compared with around 400 per month in 1996.

In February 2005 we published our five-year strategy for asylum and immigration, "Controlling our borders: Making migration work for Britain". The strategy set out a range of measures to strengthen our border controls and reform our asylum system. We expect that the deterrent effect of these measures will further reduce the number of unfounded asylum applications in the United Kingdom. The 'New Asylum Model' will introduce faster tightly-managed processes for all new asylum claimants, including: a new screening process for asylum applicants that enables us to put them through a processing track tailored to the characteristics of their claim; a clear contact management strategy for each processing track including compulsory contact management for those not detained; and the introduction of specialist case managers who will manage each asylum case from application right through to integration or removal. Measures to strengthen our border controls include; the roll-out of fingerprinting of all visa applicants; expanding the network of airline liaison officers who advise check-in staff on forged documents; introducing electronic checks on all those entering and leaving the country; and the roll-out of new technology, including the e-borders programme, to create a fully integrated system of immigration control.

Court Orders

Ed Balls: To ask the Secretary of State for the Home Department how many *(a)* antisocial behaviour orders, *(b)* individual support orders, *(c)* enforced parenting orders and *(d)* voluntary parenting contracts have been issued in (i) West Yorkshire and (ii) Normanton constituency since each was established. [29175]

Hazel Blears: The available information, as notified to the Home Office, on the numbers of antisocial behaviour orders (ASBOs) issued and the number of Individual Support Orders and Parenting Orders issued in tandem is given in the table.

The Youth Justice Board collect data on parenting contracts related to crime and antisocial behaviour from Youth Offending Teams (YOTs). These data are collected at YOT area level only.

The number of antisocial behaviour orders (ASBOs), individual support orders (ISOs) and parenting orders (POs) issued within West Yorkshire, as notified to the Home Office, from 1 June 2000[1] to 31 March 2005 (latest available).

Area	ASBOs issued	ISOs issued	POs issued [2]
West Yorkshire	399	—	—
of which:			
Wakefield metropolitan district council[3]	39	—	—

[1] From 1 April 1999 to 31 May 2000 data were collected on aggregate numbers only by police force area. During this period four ASBOs were issued within West Yorkshire.

[2] Parenting Orders issued along with an ASBO.

[3] In which the constituency of Normanton is located. Number of orders issued is based on those orders where prohibitions within the order relate to the local government authority area.

Crime

Mr. Holloway: To ask the Secretary of State for the Home Department if he will make a statement on *(a)* levels and *(b)* detection rates of (i) violent crime, (ii) sexual crime, (iii) car crime, (iv) robbery and (v) burglary in Gravesham constituency. [30301]

Hazel Blears: The available information relates to the number of offences recorded and the detection rates in the North Kent Basic Command Unit (BCD) and is given in the table.

Recorded crimes and detection rates in the North Kent Basic Command Unit—2004–05

Offence type	*Number of offences*	*Detection rate (%)*
Violence against the person	3,387	41
Sexual offences[1]	184	19
Robbery	355	15
Violent crime:	3,926	38
Domestic Burglary	1,125	15
Theft of a motor vehicle	1,471	10
Theft from a vehicle	2,893	3
Vehicle crime:	4,364	5

[1] The Sexual Offences Act 2003, introduced in May 2004, altered the definition and coverage of sexual offences.

Mrs. Spelman: To ask the Secretary of State for the Home Department how many recorded offences of *(a)* violence against the person, *(b)* sexual offences, *(c)* violent crime as a whole, *(d)* burglary, *(e)* robbery, *(f)* theft of a vehicle and *(g)* theft from a vehicle there were in each crime and disorder reduction partnership area in England and Wales in each year since the present recording system was established. [22406]

Hazel Blears: The present recording system was adopted following the introduction of the National Crime Recording Standard (NCRS) on one April 2002. The NCRS was introduced with the aim of promoting greater consistency between police forces in the recording of crime and to take a more victim-orientated approach to crime recording.

The introduction of the Sexual Offences Act 2003 in May 2004 resulted in substantial changes to the sexual offences group. In particular, the redefining of the offences of exposure into the sexual offences group resulted in substantial increases in this category nationally.

I will arrange for copies of the tables to be placed in the Library.

John Mann: To ask the Secretary of State for the Home Department how many burglaries have been recorded in *(a)* B division and *(b)* the Worksop sub-division of Nottinghamshire police in each month since June 2001. [26574]

Hazel Blears *[holding answer 8 November 2005]:* The requested information for Nottinghamshire 'Area B' Basic Command Unit (BCU) is given in the following tables. Monthly data can be subject to fluctuation and seasonality.

Figures for Worksop sub-division are included within the 'Area B' BCU and cannot be separately identified.

Table 1: Recorded offences of burglary in the Nottinghamshire 'Area B' Basic Command Unit (BCU)

Month/year	Burglary in a dwelling	Burglary in other building	Total burglary
June 2001	119	217	336
July 2001	127	237	364
August 2001	180	237	417
September 2001	147	187	334
October 2001	140	208	348
November 2001	154	242	396
December 2001	152	197	349
January 2002	180	217	397
February 2002	241	346	587
March 2002	166	291	457

Note:

The data in this table are prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later months.

Table 2: Recorded offences of burglary in the Nottinghamshire 'Area B' Basic Command Unit (BCU)

Month/year	Burglary in a dwelling	Burglary in other building	Total burglary
April 2002	147	297	444
May 2002	187	340	527
June 2002	164	319	4S3
July2002	122	282	404
August 2002	205	285	490
September 2002	149	236	385
October 2002	161	236	397
November 2002	141	248	389
December 2002	131	219	350
January 2003	168	221	389
February 2003	141	228	369
March 2003	163	261	424
April 2003	177	312	489
May 2003	178	339	517
June 2003	162	305	467
July 2003	151	340	491
August 2003	154	232	386
September 2003	135	252	387
October 2003	128	204	332
November 2003	122	206	328
December 2003	119	192	311
January 2004	163	212	375
February 2004	116	180	296
March 2004	114	213	327
April 2004	139	177	316
May 2004	99	205	304
June 2004	97	198	295
July 2004	84	225	309
August 2004	106	145	251
September 2004	81	172	253
October 2004	87	175	262
November 2004	79	167	246
December 2004	81	160	241
January 2005	71	201	272
February 2005	53	142	195
March 2005	74	150	224

Note:

The data in this table take account of the introduction of the National Crime Recording standard in April 2002. These figures are not directly comparable with those for earlier months.

Criminal Records Bureau

Mark Williams: To ask the Secretary of State for the Home Department what *(a)* average and *(b)* maximum time was taken to process (i) a Criminal Records Bureau check, (ii) a full protection of vulnerable adults check (POVA) and (iii) a POVA first check in the last year for which figures are available. [24173]

Hazel Blears: The Criminal Records Bureau's (CRB's) performance for standard disclosures has consistently exceeded the target of 93 per cent. issued within two weeks. This is because the processing of a standard disclosure is entirely within the direct control of the CRB.

However, the performance for enhanced disclosures is currently below its target of processing 90 per cent. within four weeks. This is because enhanced disclosures involve an additional level of check by police forces and the CRB relies on forces to complete their checks efficiently.

During the period October 2004 to September 2005, the average processing time for a CRB check was 26.09 days. The average processing time has been calculated to include time out with the customer. The maximum length of time taken to process a check during this period was 356 days.

There are no data available to determine the average or maximum time taken to process a full POVA check or a POVA first check, because these figures are not collated centrally. However, during the aforementioned period, 95.1 per cent. of POVA first checks were completed within 48 hours and 97.5 per cent. were completed within 72 hours against service standards of 98 per cent. and 100 per cent. respectively.

Deaths in Custody

Mr. Bellingham: To ask the Secretary of State for the Home Department how many deaths have occurred in police custody in each of the last five years; and if he will make a statement. [16375]

Hazel Blears: The total number of deaths of those coming into contact with the police over the last five years of published figures is in the following table.

We recognise that a significant proportion of deaths occur outside the custody suite. That is why we have been working with the Association of Chief Police Officers and the National Centre for Policing Excellence and other stakeholders to provide guidance on safer detention of detainees on the street, in transport to and from the police station and in the police station. The guidance is due for publication in spring 2006. In addition, the Independent Police Complaints Commission (IPCC) launched a major research study in July 2005 into fatal police driving accidents. The findings are expected to be published in early 2007.

The revised categories which came into effect on 1 April 2002 are set out in Home Office Circular 13/2002.

Deaths from 1999–2000 to 2003–04

	Category A	Category B	Category 1	Category 2	Category 3	Category 4	Number Total
1999–2000	27	43	—	—	—	—	70
2000–01	22	30	—	—	—	—	52

Deaths from 1999–2000 to 2003–04

	Category A	Category B	Category 1	Category 2	Category 3	Category 4	Number Total
2001–02	21	49	—	—	—	—	70
2002–03	—	—	40	3	40	21	104
2003–04	—	—	38	1	38	23	100

Departmental Legislation

Simon Hughes: To ask the Secretary of State for the Home Department if he will list the criminal offences created in legislation sponsored by his Department from May 1997 up to and including April 2005, broken down by Act. [27591]

Mr. Charles Clarke *[holding answer 11 November 2005]:* The latest information available shows that between 1 May 1997 and April 2005 the Home Office created 404 new offences.

Criminal offences may be created for different reasons and do not necessarily extend the scope of the criminal law. For example the Sexual Offences Act 2003 created and repealed a large number of offences without significantly changing the overall coverage of the law.

The Crime and Disorder Act 1998 created two new offences. It also created nine racially-aggravated offences (amended by the Anti-terrorism, Crime and Security Act 2001 to "racially or religiously aggravated offences"), but these are based on existing offences and do not render unlawful behaviour which would otherwise have been lawful. The Data Protection Act 1998 created four new offences.

The Immigration and Asylum Act 1999 created 12 new offences. The Youth Justice and Criminal Evidence Act 1999 created four new offences. The Football (Offences and Disorder) Act 1999 created one new offence.

The Terrorism Act 2000 created 38 new offences. The Regulation of Investigatory Powers Act 2000 created four new criminal offences. The Football (Disorder) Act 2000 created two new criminal offences. The Licensing (Young Persons) Act 2000 created one new criminal offence. The Freedom of Information Act 2000 created three new criminal offences. The Political Parties, Elections and Referendums Act 2000 created 69 new criminal offences. The Criminal Justice and Court Services Act 2000 created three new criminal offences. The Sexual Offences (Amendment) Act 2000 created two new criminal offences. The Criminal Justice and Police Act 2001 created 15 new criminal offences. The Vehicle (Crimes) Act 2001 created 12 new criminal offences. The Private Security Industry Act 2001 created 10 new offences. The Anti-terrorism, Crime and Security Act 2001 created 19 new offences. The International Criminal Court Act 2001 created two new criminal offences.

The Mobile Telephones (Re-programming) Act 2002 created five new criminal offences. The Nationality, Immigration and Asylum Act 2002 created 19 new criminal offences. The Police Reform Act 2002 created 23 new criminal offences. The Proceeds of Crime Act 2002 created 28 new criminal offences.

The Sexual Offences Act 2003 created, modified or re-enacted 61 criminal offences. The Crime (International Co-operation) Act 2003 created one new criminal offence and modified another. The Anti-social Behaviour Act 2003 created 15 new criminal offences. The Female Genital Mutilation Act 2003 created two new criminal offences.

The Domestic Violence, Crime and Victims Act 2004 created two new offences. The Asylum and Immigration (Treatment of Claimants, etc.) Act 2004 created eight new criminal offences and modified six criminal offences.

The Prevention of Terrorism Act 2005 created three new criminal offences. The Drugs Act 2005 created two new criminal offences. The Serious Organised Crime and Police Act 2005 created 26 new criminal offences.

Domestic Violence

Mrs. Moon: To ask the Secretary of State for the Home Department how many domestic violence incidents were recorded in each region in Wales in the last five years. [27928]

Hazel Blears: Details of the numbers of domestic violence incidents are collected by Her Majesty's Inspectorate of Constabulary (HMIC) at police force level only (see table).

The Government defines a domestic violence incident as:

"Any incident of threatening behaviour, violence or abuse between adults who are, or have, been intimate partners or family members".

This definition, commonly agreed in 2004–05, is wider than the previous Home Office definition and follows the definition already used by the Association of Chief Police Officers. Police forces are advised to count all incidents initially recorded as domestic violence regardless of the final outcome, e.g. if the incident is finally charged as an assault.

Between 1999–2000 and 2000–01 the definition covered current and former partners but did not include violence between family members over 18. The definition was:

"Any violence between current or former partners in an intimate relationship, wherever and whenever the violence occurs. The violence may include physical, sexual, emotional or financial".

Number of domestic violence incidents in Wales

Force name	2000–01	2001–02	2002–03	2003–04	2004–05[1]
Dyfed-Powys	2,841	3,261	3,356	3,775	3,960
Gwent	3,149	2,007	2,500	2,196	2,192

Number of domestic violence incidents in Wales

Force name	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*[1]
North Wales	3,436	4,553	6,606	4,930	n/a
South Wales	7,782	10,030	13,479	14,986	14,796
Wales	[2]17,208	19,851	25,941	25,887	n/a

[1] Change in definition.
[2] When considering the number of domestic violence incidents for Wales as a whole, there is a discrepancy between the 2000–01 figures for the number of domestic violence incidents provided by HMIC for this PQ and figures generated by HMIC for a PQ in 2002 (*Hansard* No. 56175 16/05/02). HMIC has advised that this may be due to the changes in the definition of a 'domestic violence incident' over this period which could have led to subsequent changes in the HMIC data.

Drink Driving

Tom Brake: To ask the Secretary of State for the Home Department how many convictions for drink-driving resulted in custodial sentences in 2004, broken down by police authority. [26749]

Hazel Blears: The information is shown in the table:

'Driving etc. after consuming alcohol or taking drugs' by police force, 2004

England and Wales Police force area	*Sentenced*	*Immediate custody*
Avon and Somerset	2,457	70
Bedfordshire	987	45
Cambridgeshire	993	18
Cheshire	1,934	55

Firearms

Mr. Djanogly: To ask the Secretary of State for the Home Department when the replacement to the Firearms Consultative Committee will be established. [26634]

Hazel Blears *[holding answer 10 November 2005]:* We will reconsider whether a two-tier firearms advisory committee should be established once we have determined how to deal with the review of firearms controls.

Fixed-penalty Notices

David Davis: To ask the Secretary of State for the Home Department how many fixed penalty notices have been issued by *(a)* community support officers and *(b)* police officers for truancy under Paragraph 1(2)(aa) of Schedule 4 to the Police Reform Act 2002 in each of the last three years, broken down by police authority. [29343]

Jacqui Smith: I have been asked to reply.

My Department began collecting data on penalty notices (in cases of non-attendance at school) from local authorities in England in September 2004. These penalty notices may be issued by authorised local authority staff, head teachers and school staff authorised by them, police and community support officers. Between September 2004 and 31 July 2005 (the latest date for which information is available) local authorities have reported that 3,483 penalty notices have been issued. We do not collect data on who issues penalty notices. The data are broken down by local authority not police authority and are available on the school attendance section of my Department's website, www.dfes.gov.uk/schoolattendance.

Ben Chapman: To ask the Secretary of State for the Home Department when in 2006 he expects figures to be available on the number of prosecutions and fixed penalties issued in 2004 for each of the police forces in England and Wales for the offence of using a mobile phone while driving. [29347]

Paul Goggins: Motoring offences statistics are part of National Statistics. The pre-announced date for availability of data is March 2006.

Forensic Services

John Hemming: To ask the Secretary of State for the Home Department what assessment he has made of whether the forensic services have sufficient capacity available to facilitate the investigation of terrorist offences; and if he will make a statement. [28843]

Mr. Charles Clarke: Forensic services called upon to assist terrorism investigations come from a number of organisations including specialist services provided by the Defence Science and Technology Laboratory and the Forensic Science Service. These services have the capacity available to facilitate investigations of terrorist offences through the provision of a range of forensic services and techniques. These include the recovery and analysis of DNA, which can assist in the identification of offenders and victims, the analysis of explosives and the recovery of data from electronic devices. Resources are allocated by the organisations as needed, with priority given to terrorism investigations and prosecutions.

Hunting Act

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department what discussions he has had with the Association of Chief Police Officers on the enforcement of the Hunting Act 2004; and if he will make a statement. [26834]

Hazel Blears: The Association of Chief Police Officers (ACPO) has made it clear that the police will enforce the Hunting Act 2004. ACPO has issued guidance for police forces on the practical aspects of enforcing the Hunting Act and a training package.

IT Systems

John Bercow: To ask the Secretary of State for the Home Department what action he is taking to achieve the full connectivity between the probation and prison IT systems, referred to on page 100 of the 2005 Departmental Report. [26700]

Fiona Mactaggart: The departmental report includes the target of connecting the probation and prison OASys IT systems in the financial year 2005–06. Following successful piloting the rollout of connectivity is under way. Four probation areas are now connected to the Prison Service and we expect to achieve the target set in the Report.

Licensing Act

Mark Hunter: To ask the Secretary of State for the Home Department what assessment he has made of the implications of the Licensing Act 2003 in determining the 2006–07 revenue support grant for police authorities in England. [30179]

Hazel Blears: Under the outgoing licensing law, the police are annually engaged in over 1.6 million administrative licensing processes which will be streamlined to around 170,000 under the Licensing Act 2003 resulting in a saving of up to £15 million annually. The Act will also give the police further powers to tackle alcohol related disorder, for instance through allowing temporary or permanent reductions in trading hours. The provisional grant settlement for 2006–07 will be announced in late November/early December.

Murder Investigations

Mrs. Dorries: To ask the Secretary of State for the Home Department what the Government's policy is on the role of the media in investigations of murder; and if he will make a statement. [24377]

Hazel Blears: It is for individual senior investigating officers to decide on media handling for individual murder investigations. The media can play an important role in the detection of serious offences and advice on media handling in these offences is provided by the Association of Chief Police Officers and the National Centre for Policing Excellence.

National Sanction Detection Rate

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on the change in the national sanction detection rate referred to on page 97 of the 2005 departmental report. [26776]

Hazel Blears: The departmental report 2004–05 refers to the aim to increase the national sanction detection rate to bring more offences to justice in order to deliver the SR04 PSA3 aim of bringing 1.25 million offences to justice by 2007–08 (with an interim target of 1.15 million for 2005–06). It is estimated that to bring 1.25 million offences to justice by 2007–08 will require a sanction detection rate of 25 per cent, a figure which was included in the National Policing Plan 2005–08.

The Government acknowledge the need to improve sanction detection rates across all police forces. For that reason, a major drive has been under way since last summer with the aim of achieving a significant increase in sanction detection rates. This includes a range of operational improvements intended to build the investigative capability of the police service, together with some targeted support for forces with performance concerns.

Data for 2004–05 show that this concerted effort is leading to performance improvements, with the sanction detection rate increasing from 19 per cent. in 2003–04 to 21 per cent. in 2004–05. Provisional data for 2005–06 (unchecked management information) indicates that there have been continued improvements in sanction detection rates nationally, and that performance is currently ahead of the estimated required trajectory to achieve both the interim 2005–06 target and the PSA3 target in 2007–08.

PACE and CPI Acts

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will list the codes of practice associated with the Police and Criminal Evidence Act 1984 and the Criminal Procedure and Investigations Act 1996; and what the reference numbers of the codes are in each case. [28437]

Hazel Blears: There are currently six Codes of Practice under the Police and Criminal Evidence Act 1984 (PACE):

PACE Code A—Exercise by: Police officers of statutory powers of stop and search; Police officers and police staff of requirements to record public encounters.

PACE Code B—Searches of premises by police officers and the seizure of property found by police officers on persons or premises

PACE Code C—Detention, treatment and questioning of persons by police officers

PACE Code D—Identification of persons by police officers

PACE Code E—Tape recording interviews with suspects

PACE Code F—Visual recording with sound of interviews with suspects

The current version of the Codes came into effect on one August 2004 and were introduced by SI 2004/1887 http://www.opsi.gov.uk/si/si2004/20041887.htm.

The current version of the Code of Practice under section 23(1) of the Criminal Procedure and Investigations Act 1996 came into effect on four April 2005 and was introduced by SI 2005/985 http://www.opsi.gov.uk/si/si2005/20050985.htm.

Copies of these Codes of practice are available from The Stationery Office (PACE Codes—ISBN 0113412940/ CPIA Codes—ISBN0113413033) or can be found on the Home Office website:
PACE Codes—http://police.homeoffice.gov.uk/operational-policing/powers-pace-codes/pace-codes.html CPIA Code—http://police.homeoffice.gov.uk/news-and-publications/publication/operational-policing/Disclosure_code_of_practice.pdf

Parliamentary Questions

Dr. Starkey: To ask the Secretary of State for the Home Department when he expects to reply to the questions tabled by the hon. Member for Milton Keynes South West relating to General Almog tabled for answer on *(a)* 11 October 2005, ref 17028 and *(b)* 19 October 2005, ref 19756. [25695]

Mr. McNulty: I wrote to my hon. Friend on 21 November 2005.

Jenny Willott: To ask the Secretary of State for the Home Department when he will reply to Question number 18971, tabled on 12 October and due for answer on 14 October. [30078]

Mr. McNulty: I replied to the hon. Member on 14 November 2005, *Official Report*, column 987W.

Police

Mike Penning: To ask the Secretary of State for the Home Department what steps the Government are taking to improve the quality of local policing in Hertfordshire; and if he will make a statement. [25801]

Hazel Blears: The Government are committed to a major programme of police reform, to help build safer and stronger communities. This will help to drive performance in every force and includes:

building a more responsive, citizen-focused police service with neighbourhood policing at its heart

reshaping the national policing landscape to ensure effective policing at district, force and national level

further modernising the police workforce.

This is building on the significant progress that has already been made:

overall crime is down by 35 per cent. since 1997 and the chance of being a victim of crime is at a 20-year low

police numbers are at an all time high. We now have over 141,000 police officers, 71,000 police staff and 6,300 community support officers

investment in policing has increased by over a quarter since 1997

We have also sought to instil a strong performance culture. This is taking hold delivering real and sustainable improvements.

In terms of Hertfordshire police's performance and how this is enhanced, as for any force this is principally a matter for the Chief Officer team and the Police Authority.

The Home Office has recently published assessments for every force in the country. Hertfordshire police received the following assessments from the Police Performance Assessments 2004–05.

Performance area	*Delivery*	*Direction*
Reducing Crime	Fair	Stable
Investigating Crime	Good	Improved
Promoting Safety	Fair	Stable
Providing Assistance	Good	Improved
Citizen Focus	Good	Stable
Resource Use	Good	Improved
Local Policing	Good	Stable

The force received a generally strong assessment, with five good gradings and three improved grades.

Mr. Walker: To ask the Secretary of State for the Home Department if he will take steps to increase the accountability of the police to elected representatives; and if he will make a statement. [26406]

Hazel Blears: The White Paper 'Building Communities, Beating Crime' published in November 2004, set out proposals for strengthening the accountability of police forces, including through changes to the membership and role of police authorities. We will review these proposals in the light of the establishment of strategic police forces, but elected representatives will continue to form the majority of police authority members. In addition, we are exploring ways to improve accountability at basic command unit level.

John Bercow: To ask the Secretary of State for the Home Department for what reason the National Framework of Guaranteed Police Service Standards is not to be published until November 2006. [26696]

Hazel Blears: The Home Office and the Association of Chief Police Officers (ACPO) have worked together to develop national standards that set out the quality of service members of the public can expect whenever they have contact with the police.

The national Quality of Service Commitment is to be launched to the public in November 2006. This timescale has been agreed to give forces sufficient time to identify and implement change, to ensure they are compliant with the standards.

Mike Penning: To ask the Secretary of State for the Home Department what residency qualifications are operated by the Hertfordshire Police when considering recruitment applications; what plans he has to review the qualifications; and if he will make a statement. [27826]

Hazel Blears: Hertfordshire Constabulary follow Home Office guidelines which are set out in Home Office Circular 54/2003, a copy of which has been placed in the Library.

Candidates who are not citizens of the United Kingdom or a member of the European Economic Community must have indefinite leave to remain in the United Kingdom.

Where recent time has been spent abroad, checks will need to be made through overseas police channels as part of the recruitment vetting process. Applicants who cannot be vetted cannot be appointed. This policy is reviewed regularly.

Justine Greening: To ask the Secretary of State for the Home Department (1) how many fully trained police officers were allocated to the London borough of Wandsworth on 31 March in each year since 1997, broken down by rank; [28802]

(2) how many community support officers were allocated to the London borough of Wandsworth in each year since 1997. [28803]

Hazel Blears *[holding answer 15 November 2005]:* Information on the number of police officers in basic command units has only been collected since March 2002 and is not collected by rank. The same information for community support officers is only available from June 2005. Police officer and community support officer numbers for the Wandsworth borough operational command unit are set out in the following table. The deployment of police service personnel to each London borough operational command unit and to other specialist units in the Metropolitan Police Service is a matter to be determined by the Commissioner of Police of the Metropolis (Sir Ian Blair).

Wandsworth borough operational command unit. Police officer and community support officer numbers since 2002.

As at 31 March	*Police officer numbers*	*Community support officer (CSO) numbers*
2002[1]	563	[illegible]
2003[2]	557	—
2004	612	—
2005	582	46

[1] 2002 data collected by HM Inspectorate of Constabulary.
[2] 2003 onwards collected by Home Office Research, Development and Statistics Directorate (except CSO data which has been especially collected for 2005 by Policing Policy Directorate.
[3] At 30 June.

Bob Spink: To ask the Secretary of State for the Home Department which police forces have a policy of attending every reported crime. [29195]

Hazel Blears: Attendance policy in respect of individual crime types is essentially an operational matter for chief officers and police authorities to determine. This information is not therefore collected centrally.

Mr. Greg Knight: To ask the Secretary of State for the Home Department how many police officers use helmet-mounted video cameras; in which police forces such equipment is used; and what the cost thereof was for each constabulary in each of the last five years. [29464]

Hazel Blears *[holding answer 21 November 2005]:* The Home Office Scientific Development Branch has received no formal approach from ACPO to be involved in such development, so it has no knowledge of the current numbers of systems being developed piece-meal within Forces or being used by officers on the street.

Peter Luff: To ask the Secretary of State for the Home Department what powers he has to merge police authorities. [30423]

Hazel Blears: Sections 32 to 34 of the Police Act 1996 make provision for the alteration of police force areas in England and Wales (other than the City of London police area) by secondary legislation. Under these provisions the Secretary of State may make an order either if he has received a request to make alterations from the police authorities for each of the areas affected by them (in which case the negative resolution procedure applies), or if it appears to him that it is expedient to make the alterations in the interests of efficiency and effectiveness (in which case the affirmative procedure applies). By virtue of section 34 of the 1996 Act, an order may include supplementary and transitional provisions, including provision as to the membership of a police authority for the police force for the new force area.

Peter Luff: To ask the Secretary of State for the Home Department what assessment he has made of the possible impact of merging police forces on the accountability of chief constables to local communities. [30419]

Hazel Blears: Chief constables of strategic police forces will continue, as now, to be accountable to the communities they serve both directly and through their police authorities. As a consequence of restructuring, we are examining ways of strengthening the accountability arrangements both at force and Basic Command Unit level.

David Davis: To ask the Secretary of State for the Home Department how many abandoned vehicles have been removed by *(a)* community support officers and *(b)* police officers under paragraph 10 of schedule 4 to the Police Reform Act 2002 in each of the last four years, broken down by police authority. [29355]

Hazel Blears: These data are not collected centrally.

However, the proportion of people who think that abandoned or burnt out cars in their area is big/fairly big problem has dropped from 14 per cent. in 2003–04 to 11 per cent. in 2004–05. (British Crime Survey figures).

David Davis: To ask the Secretary of State for the Home Department (1) on how many occasions in each of the last four years *(a)* drugs have been seized from people and *(b)* names and addresses of those suspected of being in possession of drugs have been taken by (i) community support officers and (ii) police officers under paragraphs 7B and 7C of schedule 4 to the Police Reform Act 2002, broken down by police authority; [29357]

(2) how many searches have been carried out on detained persons for dangerous items or items that could be used to assist escape by *(a)* community support officers and *(b)* police officers under paragraph 2A of schedule 4 to the Police Reform Act 2002 in each of the last four years, broken down by police authority. [29365]

Hazel Blears: This information is not collected centrally. These powers are not currently available to community support officers as they were introduced by the Serious Organised Crime and Police Act 2005 and have not yet been commenced.

David Davis: To ask the Secretary of State for the Home Department how many names and addresses of *(a)* drivers and *(b)* pedestrians have been taken by community support officers under paragraph 3A of Schedule 4 to the Police Reform Act 2002 in each of the last four years, broken down by police authority. [29364]

Hazel Blears: We do not hold this information centrally.

David Davis: To ask the Secretary of State for the Home Department how many cycles have been stopped by *(a)* community support officers and *(b)* police officers for the purpose of issuing a fixed penalty notice under paragraph 1(2)*(b)* of Schedule 4 to the Police Reform Act 2002 in each of the last four years, broken down by police authority. [29368]

Paul Goggins: We do not hold this information centrally.

Peter Luff: To ask the Secretary of State for the Home Department what factors led to the decision to request chief constables to produce implementation plans for police force re-organisation in December. [22106]

Hazel Blears: The 'Closing the Gap' report by Her Majesty's Inspectorate of Constabulary concluded that the existing 43 force structure was no longer fit for purpose. The report found that below a certain size there simply is not a sufficient critical mass to provide the necessary sustainable level of protective services that the 21st century increasingly demands. As a result, my right hon. Friend the Home Secretary has asked police authorities and chief constables to submit to him proposals for restructuring by 23 December 2005. There is a general recognition that, in order to minimise any disruption, restructuring should be implemented as quickly as possible once final decisions on its form have been made.

Bob Spink: To ask the Secretary of State for the Home Department when he expects to draw conclusions on the pilot scheme into hand held computers for police officers on the beat. [27110]

Hazel Blears: The police have defined their requirements for using wireless technology to combat crime. These requirements are being fed into a number of trials with different police forces. The trials are expected to be completed by mid 2006, at which time the results will be circulated to all forces.

Prisons

Bob Spink: To ask the Secretary of State for the Home Department if he will make a statement on his policy on the early release of prisoners. [19054]

Fiona Mactaggart: Determinate sentence prisoners sentenced on or after 1 October 1992 to a term of imprisonment of four years or more in respect of offences committed prior to 4 April 2005 are entitled to be considered for early release on parole at any point after the half way point of their sentence. They will be on licence from the point at which they are released until the two thirds point of their sentence, and are then subject to recall for the remainder of their sentence if they commit a further offence. Prisoners sentenced to one year but under four years are released automatically at the half way point; on licence to the two thirds point and subject to recall if they commit a further offence for the remainder of their sentence. Prisoners sentenced to under 12 months are released automatically at the half way point and subject to recall if they commit a further offence during the remainder of their sentence.

Under the provisions of the Criminal Justice Act 2003 sexual or violent offenders who present a significant risk will receive an extended sentence, under which the entire custodial period set by the court may be spent in prison; or, depending on the offence, an indeterminate sentence, under which the offender must spend a minimum period of time in prison, and can be kept in prison indefinitely. Other offenders, who receive a standard determinate sentence, are released automatically at the half way point and remain on licence until the end of sentence.

The Home Detention Curfew (HDC) scheme enables suitable prisoners, primarily those serving sentences of between three months and under four years, to return to the community up to 135 days earlier than their normal release date (half-way point of the sentence). They are subject to an electronically monitored curfew, normally for 12 hours a day. If they breach the licence conditions they are liable to be returned to prison to serve the remaining custodial portion of their sentence in custody.

Certain categories of prisoners are statutorily excluded from HDC.

The Early Removal Scheme broadly mirrors the HDC scheme and provides for determinate sentence prisoners (who are due to be released under either the Criminal Justice Act 1991 or the Criminal Justice Act 2003) and who are liable to be removed or deported from the United Kingdom, to be removed up to 135 days before their release date.

John Bercow: To ask the Secretary of State for the Home Department (1) what *(a)* assessment he has made of and *(b)* guidance he has issued on the need to adhere to the reception criteria of an institution when deciding to place a prisoner; [25848]

(2) what assessment he has made of the impact of overcrowding within the prison system on the placing of prisoners in suitable institutions; [25850]

(3) what assessment he has made of the criteria governing the suitability of prisoners for open conditions. [25859]

Fiona Mactaggart: Each prison has its own acceptance criteria, which are agreed between the governor and Prison Service operational manager (or director and operational manager for contracted prisons) and the National Offender Management Service (NOMS). These protocols are reviewed regularly by NOMS.

The use of crowded conditions within the prison estate is kept under review. Prisoners are moved to suitable establishments as part of their sentence plan, following re-categorisation or where there is an operational need to do so. They can only move to those prisons with vacancies. There is no question of prisons being required to take unsuitable prisoners.

Guidance on prisoner security categorisation has been issued and is kept under ongoing review. Existing guidance allows for the re-categorisation of prisoners unsuitable for open conditions and their return to a

closed establishment. Work is under way to review and revise initial categorisation procedures, including the criteria for categorisation and allocation to open conditions.

Rape Cases

Vera Baird: To ask the Secretary of State for the Home Department what monitoring is being undertaken of the impact of the provisions in the Sexual Offences Act 2003 on the conviction rate in rape cases. [29441]

Paul Goggins: We are currently undertaking a stock take of the Sexual Offences Act 2003 to ensure that it is working as intended and providing a framework that reflects the nature of sexual offending as it currently is committed and is capable of convicting and punishing the guilty. That stock take will be completed by the end of the year.

We have also sought to improve the investigation and prosecution of rape cases through the Rape Action Plan, which was published by the government in 2002. The plan followed a thorough inspection by Her Majesty's Inspectorate of Constabulary (HMIC) and Her Majesty's Crown Prosecution Service Inspectorate (HMCPSI). It sets out a series of measures to improve the investigation of rape cases by the police; the quality of advice, decision making, case preparation and presentation at court by prosecutors; and the treatment of victims and witnesses in cases involving allegations of rape and sexual assault.

We have undertaken a stock take of the Rape Action Plan to find out how well these measures have been implemented, and what remains to be done. The results of the stock take will feed into a follow-up inspection by the HMIC and HMCPSI to take place early next year.

Safety/Speed Cameras

Mrs. Dunwoody: To ask the Secretary of State for the Home Department how many covert speed cameras there were in England in 2004; and how many covert speed cameras he expects to be installed in England in the next five years. [29897]

Paul Goggins: This information is not collected centrally.

Police forces have the operational discretion to undertake speed enforcement by visible or covert means anywhere within their force area. Covert enforcement is not supported by the national safety camera programme and it is likely to be only in exceptional circumstances that the police judge that covert enforcement is the most appropriate means of dealing with a situation.

Mr. Holloway: To ask the Secretary of State for the Home Department what tests were carried out to investigate the accuracy of the LTI120/20 light-weight handheld speed camera before it was approved for use by police forces. [29288]

Paul Goggins: The detailed testing requirements are set out in The Speed Meter Handbook published by the Home Office Scientific Development Branch and available on the Home Office website at www.scienceandresearch.homeoffice.gov.uk/hosdb/publications.

Mr. Holloway: To ask the Secretary of State for the Home Department what assessment he has made of the reliability of evidence produced by the LTI120/20 light-weight hand held speed camera. [29289]

Paul Goggins: The LTI 20.20 is self-calibrating with an internal fault-reporting system, but as with all devices, it is in addition required to undergo regular calibration checks. I am satisfied that evidence obtained from the LTI 20.20 is reliable.

Sexual Assaults

Andrew Rosindell: To ask the Secretary of State for the Home Department what estimate he has made of the percentage of sexual assaults that are unreported; and what steps the Government are taking to encourage the reporting of sexual assaults. [26444]

Paul Goggins: According to the British Crime Survey Interpersonal Violence Module (2001), only 15 per cent. of rapes came to the attention of the police. Estimations of the proportion of sexual assaults that are unreported are unavailable.

The Government have undertaken a range of work to improve confidence in the police and criminal justice system, and to enhance the care of victims in the aftermath of a sexual assault, which we believe will encourage more victims to come forward.

The Sexual Offences Act 2003 introduced a modern framework for prosecuting sex offences, giving the criminal justice agencies the tools to bring more offenders to justice, and better manage sex offenders.

The Rape Action Plan, published in 2002, sets out a series of measures to improve the investigation and prosecution of rape cases and the treatment of victims and witnesses. These include the introduction of the Crown Prosecution Service (CPS) rape policy, specialist rape prosecutors, guidance for police, and better provision of information to the victim. The Home Office has been working closely with the Association of Chief Police Officers (ACPO) and the CPS to implement the plan.

In order to improve the standard of victim care, the Government have supported the expansion of the network of Sexual Assault Referral Centres (SARCs), where victims can receive medical care, counselling and a forensic examination. There are currently 13 SARCs in England and Wales with further SARCs under development supported by funding from the £4 million Victims Fund (2004–06), set aside to fund services for victims of sexual offending.

Sexually Transmitted Diseases

Mr. Lansley: To ask the Secretary of State for the Home Department how many prosecutions for *(a)* reckless and *(b)* deliberate transmission of sexually transmitted diseases have been (i) brought to court and (ii) succeeded in each year since 1997. [26016]

Paul Goggins: Information on the number of prosecutions and convictions for the reckless or deliberate transmission of sexually transmitted diseases is not available. Cases of this kind are likely to be dealt with as grievous bodily harm under Sections 18 or 20, Offences Against the Person Act 1861 and cannot be

separately identified from other cases of grievous bodily harm as the circumstances surrounding an offence are not centrally collected

Terrorism

Mr. Carmichael: To ask the Secretary of State for the Home Department (1) what plans he has to review the amount of Government compensation given to British victims of terrorism abroad; whether he intends to conduct a consultation on changes to the current system; and if he will make a statement; [21134]

(2) if he will make a statement on the compensation available to British victims of terrorist acts abroad. [21135]

Mr. Charles Clarke *[holding answer 24 October 2005]:* Victims of terrorist incidents, and of other violent crime, within Great Britain are eligible for compensation under the Criminal Injuries Compensation Scheme. The scheme does not cover incidents abroad, though British victims of terrorism within the European Union are entitled to 'fair and appropriate' compensation from the member state in which they were injured. Some other countries also pay compensation to foreign nationals injured within their territory.

I refer the hon. Member to the response given by my right hon. Friend the Prime Minister on 19 October 2005, *Official Report*, column 839WS that officials are considering the possibility of introducing a scheme to provide compensation for, for example, UK victims of terrorism, wherever that may happen. That consideration is ongoing.

Ms Butler: To ask the Secretary of State for the Home Department what mechanisms are in place to monitor the impact of the effects of the implementation of the Terrorism Acts *(a)* on the different ethnic groups and *(b)* on race relations. [21567]

Mr. Charles Clarke: Section 71 of the Race Relations Act 1976 (as amended) requires public authorities, including the police, to have due regard to the need to eliminate unlawful racial discrimination and to promote equality of opportunity and good relations between persons of different racial groups. These requirements apply to police operations to enforce the Terrorism Acts, as well as their other activities. Furthermore, the Secretary of State has made the police and many other public bodies subject to a further specific duty to produce a race equality scheme setting out how they intend to meet their general statutory duty. The Commission for Racial Equality is responsible for enforcing the Race Relations Act and has produced statutory guidance for public authorities on how to comply with the statutory duties.

The Race Relations Act 1976 (as amended) also requires all Government polices that are relevant to race equality to be fully impact assessed for any potential adverse impact on racial groups. Accordingly, a Race Equality Impact Assessment was carried out on the Prevention of Terrorism Bill in February 2005. This assessment laid out the procedures for monitoring the impact of the legislation. The Terrorism Act 2000 and Anti-Terrorism, Crime and Security Act 2001 were introduced before this became a legal requirement.

Both the Terrorism Act 2000 and the Prevention of Terrorism Act 2005 require the Secretary of State to lay reports before Parliament on the working of those Acts. The independent reviewer of both Acts, currently Lord Carlile of Berriew QC, is responsible for compiling these reports. His latest reports can be viewed on the Home Office website (www.homeoffice.gov.uk).

The Home Affairs Select Committee oversees and monitors various issues including the impact of counter terrorism legislation on communities. The Committee has taken evidence from Ministers, Government officials, police and independent stakeholders. The Committee published a report on Terrorism and Community Relations in June this year.

Mr. Khan: To ask the Secretary of State for the Home Department how many people have been *(a)* arrested, *(b)* charged and *(c)* convicted under the Anti-Terrorism Crime and Security Act 2001, broken down by (i) year, (ii) gender, (iii) ethnicity and (iv) religion. [16738]

Hazel Blears: There are no arrest powers under the Anti-Terrorism Crime and Security Act 2001. My hon. Friend could be referring to the Terrorism Act 2000. The latest arrest figures are published on the Home Office website,www.homeoffice.gov.uk/security/terrorism-and-the-law/terrorism-act/

The statistics requested in parts *(b)* and *(c)* are only held by individual police forces and not by the Home Office.

Under-age Product Sales

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department how many businesses were prosecuted for selling *(a)* tobacco products and *(b)* lottery tickets and scratch cards to under 16s in Coventry, South in the last five years. [27238]

Hazel Blears *[holding answer 14 November 2005]:* Information taken from the Home Office Court Proceedings database shows that between 1999 and 2003, there were two prosecutions in 2001 and one prosecution in 2002 of businesses having been proceeded against at magistrates' courts in the West Midlands police force area for the sale of tobacco etc. to persons under 16. There are no records of any prosecutions under s13a National Lottery etc. Act 1993. However, the lottery operator is required to ensure sufficient controls are in place to prevent sales to under 16s. Examples include test purchasing programmes and retailer training and education. It will also remove the lottery terminal if a retailer is found to have made repeat sales to people under 16.

It is not possible to identify those prosecutions in Coventry, South, as the data are not collected at this level of detail.

Court statistics for 2004 will be available in late November.

Visa Waiver Programme

Colin Challen: To ask the Secretary of State for the Home Department what time limits apply to information about minor convictions of UK citizens given to United States' authorities under their Visa Waiver programme. [29432]

Mr. McNulty: The UK does not provide the US authorities with criminal conviction information for visa application or similar purposes. Under the Data Protection Act 1984 an individual is entitled to obtain his criminal record details. It is a matter for the individual whether to disclose the information in support of a visa application or similar purpose.

Criminal conviction information is drawn from the Police National Computer (PNC). All offences that might attract a prison sentence on conviction are recorded centrally together with about 50 more minor, non-imprisonable offences. The time limits for retaining such information on the PNC are in accordance with the current ACPO "weeding" rules.

Wildlife Crime

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department if he will list the police forces in England which have designated wildlife crime units; and if he will make a statement. [30080]

Hazel Blears: The deployment of police officers and other staff in each force area is an operational matter for the Chief Officer concerned, based on operational priorities. Virtually every police force has a wildlife enforcement capability of some form, although this varies from force to force.

EDUCATION AND SKILLS

"A Parent's Guide to Direct Payments"

Paul Holmes: To ask the Secretary of State for Education and Skills for what reasons "A Parent's Guide to Direct Payments", distributed by her Department, is no longer available in languages other than English; and if she will make it available in other languages. [29562]

Beverley Hughes: 'A Parents Guide to Direct Payments' was originally the responsibility of the Department of Health. It transferred to the Department for Education and Skills in June 2003 as part of the machinery of Government changes. Officials at DfES are arranging for the guide to be reprinted to reflect policy developments since the original version, and with the appropriate departmental changes. The reprinted guide will be available in the full range of languages from DfES Prolog 'reference 31213' by the end of January 2006.

Ability Grouping

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to the answer of 8 November 2005, *Official Report*, column 444W, on ability grouping, if she will revise Ofsted inspection criteria to include monitoring of the proportion of classes that are banded by ability. [29556]

Jacqui Smith: This is a matter for Ofsted. HM chief inspector, David Bell, has written to the hon. Member and a copy of his letter has been placed in the Library.

Letter from David Bell to Mr. Nick Gibb, dated 21 November 2005:

Parliamentary Questions 29556/29557/29558: Setting and Banding by Ability

Your recent parliamentary questions have been referred to me, as Her Majesty's Chief Inspector of Schools, for reply.

In sum, you asked:

the Secretary of State for Education and Skills if she will revise Ofsted inspection criteria to include monitoring of the proportion of classes that are banded by ability (PQ 29556)

the Secretary of State of Education and Skills on what basis it was decided to remove the requirement for Ofsted inspectors to distinguish between setting and banding by ability in the information recorded about lessons (PQ 29557)

the Secretary of State for Education and Skills what percentage of lessons was recorded as banded by ability in *(a)* Year 7, *(b)* Year 8, *(c)* Year 9, *(d)* Year 10 and *(e)* Year 11 in secondary schools inspected by Ofsted in each year between 1995 and 2004 (PQ 29558).

In response to Parliamentary Question 29556, Ofsted introduced a new framework and guidance for inspections under section 5 of the Education Act 2005 from September 2005. Although these will be kept under review, there are no plans to change them in the immediate future. The observation of lessons is no longer conducted in the same way as under the previous inspection regime (under section 10 of the School Inspections Act) and in Ofsted's view it would not be appropriate to ask inspectors to collect information about the proportion of classes that are grouped by ability on every section 5 inspection.

In response to Parliamentary Question 29557, changes were made in 2003/04 so that Ofsted had information about the level of ability of groups as well as whether pupils were grouped by ability for their lessons. The information about ability levels was not previously available. To avoid over-complexity, the distinction between banding and setting was removed. In making judgements, Ofsted felt that it was not important for inspectors to know whether pupils were grouped by ability or not, rather than knowing the precise arrangements through which this was achieved. In some schools the distinction between banding and setting is blurred.

In response to Parliamentary Question 29558, the table (see Appendix 1) includes the information you required for the years 1996/97 to 2002/03. The data were not recorded in 1995/96 and from September 2003 inspectors were not required to distinguish between setting and banding in the information they recorded about lessons.

A copy of this reply has been sent to Jacqui Smith and will be placed in the library of both Houses.

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to the answer of 8 November 2005, *Official Report*, column 444W, on ability grouping, what percentage of lessons was recorded as banded by ability in *(a)* year 7, *(b)* year 8, *(c)* year 9, *(d)* year 10 and *(e)* year 11 in secondary schools inspected by Ofsted in each year between 1995 and 2004. [29558]

Jacqui Smith: This is a matter for Ofsted. HM chief inspector, David Bell, has written to the hon. Member and a copy of his letter has been placed in the Library.

Letter from David Bell to Mr. Nick Gibb, dated 21 November 2005:

Parliamentary Questions 29556/29557/29558: Setting and Banding by Ability

Your recent parliamentary questions have been referred to me, as Her Majesty's Chief Inspector of Schools, for reply.

In sum, you asked:

the Secretary of State for Education and Skills if she will revise Ofsted inspection criteria to include monitoring of the proportion of classes that are banded by ability (PQ 29556)

the Secretary of State of Education and Skills on what basis it was decided to remove the requirement for Ofsted inspectors to distinguish between setting and banding by ability in the information recorded about lessons (PQ 29557)

the Secretary of State for Education and Skills what percentage of lessons was recorded as banded by ability in *(a)* Year 7, *(b)* Year 8, *(c)* Year 9, *(d)* Year 10 and *(e)* Year 11 in secondary schools inspected by Ofsted in each year between 1995 and 2004 (PQ 29558).

In response to Parliamentary Question 29556, Ofsted introduced a new framework and guidance for inspections under section 5 of the Education Act 2005 from September 2005. Although these will be kept under review, there are no plans to change them in the immediate future. The observation of lessons is no longer conducted in the same way as under the previous inspection regime (under section 10 of the School Inspections Act) and in Ofsted's view it would not be appropriate to ask inspectors to collect information about the proportion of classes that are grouped by ability on every section 5 inspection.

The information about ability levels was not previously available. To avoid over-complexity, the distinction between banding and setting was removed. In making judgements, Ofsted felt that it was important for inspectors to know whether pupils were grouped by ability or not, rather than knowing the precise arrangements through which this was achieved. In some schools the distinction between banding and setting is blurred.

In response to Parliamentary Question 29558, the table (see Appendix 1) includes the information you required for the years 1996/97 to 2002/03. The data were not recorded in 1995/96 and from September 2003 inspectors were not required to distinguish between setting and banding in the information they recorded about lessons.

A copy of this reply has been sent to Jacqui Smith and will be placed in the library of both Houses.

Appendix 1: Percentage of banded lessons, 1996 to 2003

	1996/97		*1997/98*		*1998/99*		*1999/2000*	
Year group	*Total number of lessons observed*	*Percentage of banded lessons*	*Total number of lessons observed*	*Percentage of banded lessons*	*Total number of lessons observed*	*Percentage of banded lessons*	*Total number of lessons observed*	*Percentage of banded lessons*
Year 7	27,542	6.4	16,414	8.3	22,361	5.3	17,544	4.9
Year 8	27,431	8.1	16,341	9.6	21,792	6.3	16,769	6.1
Year 9	27,161	7.5	16,692	9.2	23,489	6.6	18,810	6.6
Year 10	24,651	3.9	17,047	5.2	24,481	4.0	18,536	3.3
Year 11	38,008	3.6	17,686	4.9	24,543	3.9	18,490	3.3
Total year 7–11	144,793	5.8	84,180	7.4	116,666	5.2	90,149	4.8

	2000/01		*2001/02*		*2002/03*	
Year group	*Total number of lessons observed*	*Percentage of banded lessons*	*Total number of lessons observed*	*Percentage of banded lessons*	*Total number of lessons observed*	*Percentage of banded lessons*
Year 7	14,011	4.9	12,532	4.6	11,257	4.5
Year 8	13,416	6.1	11,552	5.1	10,255	5.5
Year 9	16,117	6.5	14,388	5.5	13,152	5.9
Year 10	14,802	3.7	13,212	2.7	12,073	3.1
Year 11	15,108	3.2	13,812	2.5	12,982	2.8
Total year 7–11	73,454	4.9	65,496	4.1	59,719	4.3

Notes:
1. Framework changes occurred in January 2000 and September 2003. Changes in the way groupings in lessons were recorded may mean that data are not directly comparable from periods of one framework to another.
2. From January 2000 to July 2003, the inspection arrangements included full and short inspections. The majority of lessons observed will have been in full inspections. The most effective schools had short inspections.

Academies

John Bercow: To ask the Secretary of State for Education and Skills if she will list the independently managed academies that are operational, broken down by local education authority. [27190]

Jacqui Smith: There are currently 27 open academies in England. The following table lists them, together with the local authority area in which they are sited.

Academy	*Local authority area*
The Academy at Peckham	Southwark
The Academy of St. Francis of Assisi	Liverpool
The Business Academy, Bexley	Bexley
Capital City Academy	Brent
The City Academy, Bristol	Bristol
The City of London Academy	Southwark
Dixons City Academy	Bradford
Djanogly City Academy Nottingham	Nottingham
Greig City Academy	Haringey
Haberdashers' Aske's Hatcham College Academy	Lewisham
Haberdashers' Aske's Knights Academy	Lewisham
Harefield Academy	Hillingdon
The King's Academy	Middlesbrough
Lambeth Academy	Lambeth
London Academy	Barnet
Macmillan Academy	Middlesbrough
Manchester Academy	Manchester
The Marlowe Academy	Kent
Mossbourne Community Academy	Hackney
Northampton Academy	Northamptonshire
Salford City Academy	Salford
St. Paul's Academy	Greenwich
Stockley Academy	Hillingdon
Trinity Academy	Doncaster
Unity City Academy	Middlesbrough
The Walsall City Academy	Walsall
The West London Academy	Ealing

Bridgewater Primary School

Mr. Binley: To ask the Secretary of State for Education and Skills pursuant to the answer of 7 November 2005, *Official Report*, column 108W, on Bridgewater primary school, Northamptonshire, in what circumstances departmental school design and funding guidelines provide funding for kitchen facilities; in what circumstances departmental guidelines judge kitchen facilities to be required by the school or local authority; and if her Department will provide funding for kitchen facilities at the Bridgewater primary school. [29186]

Jacqui Smith: The Departments area guidelines are applicable to any school but are particularly aimed at new school buildings. The Department bases its allocations for specific central programmes such as Building Schools for the Future on these guidelines and so these allocations will be sufficient to enable kitchen and dining facilities to be included.

It is not a legal requirement for a school to have a kitchen. Schools and local authorities are expected to provide nutritious and freshly prepared meals. It is the Government's view that this would ideally be from an on-site kitchen, but it can be achieved off-site if the appropriate arrangements are in place.

Over the current three years, 2003–04 to 2005–06, the Department is providing direct capital grants to Northamptonshire schools of some £32 million, also formulaic funding allocations of £49 million. In addition, during this period, there was an allocation to the local authority of £100 million in respect of a Private Finance Initiative, and nearly £5 million in respect of the Targeted Capital Fund programme. It is for the local authority, acting in co-operation with Bridgewater primary school and other schools, to prioritise expenditure in accordance with asset management plans. This includes whether to invest in kitchens or other assets.

Children's Trusts

Geraldine Smith: To ask the Secretary of State for Education and Skills how many children's trusts there are in England. [24533]

Beverley Hughes: Most local authorities, primary care trusts and their partners are in the process of establishing a children's trust in their local area and are on target to meet the Government's expectation that most areas will have a children's trust by 2006, and all by 2008. 35 pathfinders and many other local areas have already established their children's trust arrangements, and some 125 local authorities say that their directors of children's services have been or are being appointed.

Class Sizes

Mr. Jenkins: To ask the Secretary of State for Education and Skills what the average class size was in *(a)* primary schools and *(b)* secondary schools in (i) England, (ii) Staffordshire and (iii) Tamworth. [26167]

Jacqui Smith: The information requested is shown in the following table.

Maintained primary schools: average class size taught by one teacher[1]. England, Staffordshire local authority and Tamworth parliamentary constituency.

	1997		*Position as at January each year 2005*	
	Maintained primary[2]	*Maintained secondary[2]*	*Maintained primary[2]*	*Maintained secondary[2]*
England	27.5	21.7	26.2	21.7
Staffordshire local authority[3]	27.5	22.3	—	—
Staffordshire local authority[4]	—	—	26.0	21.5
Tamworth parliamentary constituency	27.5	21.5	25.7	21.0

[1] Classes taught during a single selected period in each school on the day of the census in January.
[2] Includes middle schools as deemed.
[3] Before local government re-organisation.
[4] After local government Re-organisation.
Source:
Annual Schools' Census

Sarah Teather: To ask the Secretary of State for Education and Skills what the average class size is in *(a)* primary schools and *(b)* secondary schools in Brent. [27757]

Jacqui Smith: The information requested is shown in the following table.

Maintained primary and secondary schools: average class size. Taught by one teacher[1].

	January 2005	
	Maintained primary[2]	*Maintained secondary[2]*
Brent local authority	27.3	20.7

[1] Classes taught during a single selected period in each school on the day of the census in January.
[2] Includes middle schools as deemed.
Source:
Annual Schools' Census

Departmental Finance

Mr. Hancock: To ask the Secretary of State for Education and Skills what the real terms percentage increase in allocated resources for her Department *(a)* was for the period 1997–98 to 2004–05 and *(b)* is estimated to be between 2005–06 and 2007–08 (i) for each period and (ii) for each year. [31036]

Jacqui Smith: The real terms percentage increase for the period 1997–98 to 2004–05 was 89.4 per cent. For the period 2005–06 to 2007–08 the increase is planned to be 8.5 per cent.

The increases for the individual years over the previous year are shown in the following table.

Expenditure on education, training and children 1997–98 to 2007–08

	£ million in 2005–06 prices[1]	
	Number	*Percentage change*
Outturn		
1997–98	15,011	
1998–99	14,974	-0.2
1999–2000	16,035	7.1
2000–01	18,838	17.5
2001–02	21,268	12.9
2002–03	25,170	18.3
2003–04	27,391	8.8
2004–05[2]	28,431	3.8
Plans		
2005–06[3]	30,546	7.4
2006–07	31,822	4.2
2007–08	33,129	4.1

[1] The Department previously had responsibility for employment policies. These have been removed from the above figures for comparison purposes.
[2] Estimated outturn as supplied for the Public Expenditure Outturn White Paper.
[3] Excludes take up of end year flexibility.

Education (West Lancashire)

Rosie Cooper: To ask the Secretary of State for Education and Skills how many recorded incidents of physical assault by students on staff there were in each secondary school in West Lancashire in each of the past five years. [27711]

Jacqui Smith: The information requested is not available.

Education Act 1996

Mr. Amess: To ask the Secretary of State for Education and Skills if she will make a statement on the operation of sections *(a)* 510 and *(b)* 511 of the Education Act 1996 in (i) Essex and (ii) Southend. [29849]

Jacqui Smith: The information you have requested is not collected by the Department for Education and Skills.

Education Funding

Mr. McFadden: To ask the Secretary of State for Education and Skills what the expenditure was per pupil in Wolverhampton in 1996–97; and what the equivalent figure was in 2004–05. [30653]

Jacqui Smith: The information requested is contained within the following table:

Combined LEA and school-based expenditure1 per pupil2 in Wolverhampton LEA 1996–97 and 2004–053, 4

	£
1996–97	2,740
2004–05	4,210

[1] The combined LEA and school-based expenditure includes all expenditure on the education of children in LEA maintained establishments and pupils educated by the LEA other than in maintained establishments. This includes both school-based expenditure and all elements of central LA expenditure except youth and community and capital expenditure from revenue (CERA).
[2] Pupil figures include all pre-primary pupils, including those under-fives funded by the LEA and being educated in private settings, pupils educated in maintained mainstream schools and other LEA maintained pupils. The pupil data for pupils attending maintained nursery, primary, secondary and special schools are taken from the DfES Annual Schools census. Private voluntary and independent (PVI) under-5 pupil numbers are taken from the Early Years census but are only available since 1999–2000. Other LEA maintained pupils includes all pupils attending schools not maintained by the authority for whom the authority is paying full tuition fees, or educated otherwise than in schools and pupil referral units under arrangements made by the authority drawn from the form 8b submitted to the DfES. Also included as other LEA maintained pupils are all pupils attending pupil referral units who are not registered at a maintained mainstream school drawn from the DfES Annual Schools census. All pupil numbers are adjusted to be on a financial year basis.
[3] 1999–2000 saw a change in data source when the data collection moved from the RO1 form collected by the Office of the Deputy Prime Minister to the section 52 form from the DfES. 2002–03 saw a further break in the time series following the introduction of Consistent Financial Reporting to schools.
[4] 2004–05 data is regarded as provisional and is subject to change by the LEA.
Note:
Figures are as reported by Wolverhampton LEA and are rounded to the nearest 10.

Education Maintenance Allowance

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills what plans her Department has for increasing the education maintenance allowance. [29799]

Maria Eagle: There are currently no plans to increase the amount of education maintenance allowance payments.

Education Responsibilities (London)

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what the responsibilities in the field of Education and Skills are of *(a)* the Greater London Authority, *(b)* the Government Office for London and *(c)* the London Development Agency. [28557]

Jacqui Smith: The Greater London Authority (GLA) has no statutory role in the provision of education in London.

The Office of the Deputy Prime Minister is currently reviewing the Mayor's powers and, in preparation for this, the Mayor submitted detailed proposals on subjects including skills to the Government on 20 July. Further details about this are available on the GLA website at: www.london.gov.uk/mayor/powers/index.jsp

The Government Office for London (GOL) works with key stakeholders to support the effective delivery of the Government's education and skills objectives in particular through ensuring proper linkage with regeneration policies and programmes. These stakeholders include the Learning and Skills Councils, local authorities, the London Development Agency, the voluntary and community sector and employer representatives. GOL also contracts with and funds the Connexions Service for young people.

GOL is working with partners to improve educational achievement and attainment and also carrying forward work with the London Skills Commission to improve the skills and employability of Londoners through the implementation of the Framework for Regional

Employment and Skills Action. Currently, a key responsibility is to ensure that the Government's Every Child Matters agenda is implemented effectively so that outcomes for London children are improved.

Further information about GOL's role in Education and Skills can be found at http://www.gos.gov.uk/gol/Education_skills/

Along with the other Regional Development Agencies, the London Development Agency's (LDA) responsibility for education and skills in the region is laid out in the 1998 RDA act as:

(1) to promote employment in it's area

(2) to enhance the development of and application of skills relevant to employment in its area.

To fulfill this role, the LDA acts to co-ordinate the activities of other education and labour market institutions to be in line with the regions economic development strategy—ensuring that the final outcomes of their interventions yield an increase in the employment rate.

To do this the LDA supports and shapes investments being made by the Learning and Skills Councils, Higher Education, Jobcentre Plus, European Funding, the Government Office for London, the local authorities and that delivered through charitable foundations (e.g. lottery).

The LDA are funding approximately £75 million of skills related activity this year, around £16 million over the next three years directly on joining up activity (the 'London Regional Skills Programme') and a planned further £40 million on supporting locally based skills initiatives ('Creating Opportunities Fund'). Much of the funds available for businesses and communities have attracted European additional money nearly doubling initial investment. The London Skills Commission 2005/06 action plan is designed to wrap round and shape the £5 billion (approximately) that is invested in adult skills, education post-14 and business support in London each year, making it more fit for business needs.

Free School Meals

Mr. Hollobone: To ask the Secretary of State for Education and Skills pursuant to the answer of 10 November 2005, *Official Report*, columns 728–9W, on free school meals, what steps she is taking to close the gap between those pupils eligible for free school meals and those taking free school meals *(a)* in Northamptonshire and *(b)* in England. [29310]

Jacqui Smith: The Department is aware that there is a gap between eligibility and take up of free school meals, and has funded research, commissioned by the Child Poverty Action Group, into the reasons children fail to take up their free school meal entitlement. The findings were published in a report entitled 'Improving the Take-Up of Free School Meals' in May 2001. The report showed that pupils and parents considered that the quality and choice of food on offer discouraged take up.

In March 2005, the Secretary of State for Education and Skills announced a package of measures designed to improve significantly the quality of school meals, by, among other things introducing improved school meals standards and a 'toolkit' for parents to inform them how to work with their schools to improve school meal provision.

Improving the quality of school meals may also improve the take-up of free school meals.

Mrs. May: To ask the Secretary of State for Education and Skills what the criteria are for determining access to free school meals; when the definition of eligibility was last changed; and what the basis was for the change. [30467]

Jacqui Smith *[holding answer 21 November 2005]*: Children whose parents are in receipt of income support; income-based jobseekers allowance, support under part VI of the Immigration and Asylum Act 1999; child tax credit provided they are not entitled to working tax credit and have an annual income (as assessed by the Inland Revenue) that from 6 April 2005 does not exceed 13,910; or the guaranteed element of state pension credit are entitled to free school meals. Children who receive income support of income based jobseekers allowance in their own right are also entitled to free school meals.

The definition of eligibility was last changed from 30 April 2005 whereby the guarantee element of state pension credit was introduced as an additional qualifying benefit for free school lunch eligibility purposes. This change was introduced to remove impracticality for LEA's and schools when checking free school meals entitlement for those parents in receipt of the guaranteed pension credit.

G3 Academy, Chelmsley Wood

Mrs. Spelman: To ask the Secretary of State for Education and Skills why her Department has opposed the installation of fire sprinklers in the new G3 Academy in Chelmsley Wood. [28511]

Jacqui Smith: The Department did not oppose the installation of fire sprinklers in Grace Academy, Chelmsley Wood.

It is the Department's policy that each school plan, including that for Grace Academy, should be based on a fire risk assessment and where necessary incorporate the principles of fire engineering as an intrinsic part of its design. This is a statutory requirement of The Education (Independent School Standards) (England) Regulations, (2003) with which Academies, as independent schools, must comply.

All schools, maintained or independent are designed in accordance with the highest industry specifications to meet the functional requirements of the Building Regulations on Fire Safety. Sprinkler systems are primarily incorporated for property protection whereas the Department's main concern is that

"the safe escape of the occupants in case of fire is reasonably assured".

It is therefore felt that the use of automatic sprinkler systems is unnecessary. There is no requirement in The Building Regulations 2000 or the Education (Independent School Standards) (England) Regulations, (2003) for the installation of sprinklers to be included.

The decision on whether or not to install a sprinkler system in Grace Academy rested upon the advice of the appointed independent fire consultant. The consultant's

expert view was that a sprinkler system was not a requirement for life safety. Based on this advice Solihull metropolitan borough council's building control department accepted the project without a sprinkler system.

GCSE Results

Mr. Gibb: To ask the Secretary of State for Education and Skills (1) what proportion of 15-year-olds achieved five or more grades at A* to C at GCSE or equivalent which included GCSEs in English and mathematics in each year since 1995; [25419]

(2) what proportion of pupils achieved five or more GCSEs at grades A*to C or equivalent including English and mathematics, broken down by local education authority in *(a)* 1997 and *(b)* 2005; [25671]

(3) how many and what proportion of non-selective schools had more than 70 per cent. of pupils achieving (i) five GCSEs at grade A*to C or equivalent and (ii) five GCSEs at grade A*to C or equivalent including English and mathematics in each year since 1995. [25672]

Jacqui Smith: The information requested can be found in the following tables:

Table 1: Percentage of 15 year old pupils[1] achieving 5 or more A-C at GCSE or equivalent[2] including English and mathematics*

Academic year	Percentage
2004/05[4]	44.1
2003/04	42.7
2002/03[3]	41.9
2001/02	42.1
2000/01	40.7
1999/2000	40.0
1998/99	38.6
1997/98	37.0
1996/97	35.6

[1] Age at start of academic year i.e. 31 August.
[2] Figures from 1996/97 to 2002/03 include GCSE/GNVQs only, figures from 2003/04 include other equivalent qualifications approved pre-16.
[3] Figures decreased in 2002/03 because percentage of pupils achieving A*-C in Mathematics decreased.
[4] Figures for 2004/05 are provisional, all other figures are final.

1996/97	79	79	2.6	0.8	3,000
1995/96	73	73	2.4	0.7	3,001
1996/95	52	52	1.7	0.5	3,003

[1] Includes maintained, mainstream schools with no selection policy upon entry.
[2] Age at start of academic year i.e. 31 August.
[3] Figures from 1996/97 include GCSE/GNVQs, figures from 2003/04 include other equivalent qualifications approved pre-16.
[4] The number and proportion of schools are not provided for 2004/05 as this data are currently being checked by schools as part of the Achievement and Attainment tables checking exercise. Revised figures, which take account of any amendments made by the schools during this exercise will be published in January 2006.

ITT Students

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills how many initial teacher training (ITT) students graduated in each of the last five years; how many newly qualified teacher (NQT) placement opportunities were available in each year; and how many ITT students failed to obtain NQT placements beginning in the September after achieving a post-graduate certificate in education *(a)* in England and *(b)* in each region. [30821]

Jacqui Smith: The following numbers of trainees gained qualified teacher status in each of the last five years:

	Number
1999/2000	21,693
2000/01	22,642
2001/02	25,489
2002/03	29,094
2003/04	31,810

The figures in the table include trainees on both undergraduate and postgraduate courses. The figures for 1999/2000 and 2000/01 do not include employment based routes. Employment based routes data are available from 2001/02 to 2003/04 only.

There is no formal concept of 'NQT placements'. Data are not held on the number of NQTs who fail to find employment each September, but only on those who are actively seeking employment six months after gaining Qualified Teacher Status (QTS).

England

In March 2005, 848 postgraduate initial teacher training trainees were seeking a teaching post six months after gaining QTS.

The most recent figures on vacancies show that in January 2005 there were 1,923 classroom teacher vacancies nationally.

By region

By region, the following numbers of newly qualified teachers from postgraduate initial teacher training

courses responded to the survey that they were seeking employment as a teacher. The last figure in each row shows the number of vacancies for classroom teachers in nursery, primary and secondary schools (excluding special schools and pupil referral units) in each region as at January 2005.

Postgraduate trainees seeking employment six months after QTS award

QTS awarded in academic year	*1999/2000*	*2000/01*	*2001/02*	*2002/03*	*2003/04*	
Still seeking employment	*March 2001*	*March 2002*	*March 2003*	*March 2004*	*March 2005*	*Vacancies January 2005*
North East	22	41	20	89	63	71
North West	50	51	54	78	108	198
Yorkshire and the Humber	17	35	51	101	92	172

London	27	51	52	42	125	554
South East	16	26	30	181	63	296
South West	41	77	97	128	172	77
Non-regional	39	1	5	3	21	—
England	303	341	379	781	848	1,923
Total postgraduate trainees awarded QTS	14,846	16,153	19,074	22,691	25,755	

The figures in the table for 1999/2000 and 2000/01 do not include employment based routes. Employment based routes data are available from 2001/02 to 2003/04 only.

Head Teachers

Mr. Davey: To ask the Secretary of State for Education and Skills how many *(a)* primary schools and *(b)* secondary schools in England were without a permanent head teacher for a period in the past 12 months broken down by (i) region and (ii) local education authority. [30584]

Jacqui Smith: The information is not available in the form requested.

Learning and Skills Councils

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills whether the Learning and Skills Council (LSC) local partnership teams will *(a)* employ additional staff and *(b)* use existing LSC staff. [27959]

Bill Rammell: The LSC's local partnership teams will provide a national network of skilled and experienced education and training professionals who will work with key partners to tackle local learning and skills needs. The Teams will support the Government's 14–19 agenda, as well as taking forward work on personal and community development, and ensuring that national and regional priorities are delivered in a way that best meets local needs.

The LSC has stated that it will employ existing staff as far as possible in the local partnership teams.

Where the LSC feels it does not have sufficient numbers of staff in a particular area with the necessary skills and expertise for a local partnership team, then it may employ additional staff from further education, local authorities and the private sector, if appropriate.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what proportion of the £40 million her Department is making available for part-time students will be administered *(a)* through the Learning and Skills Council and *(b)* to students pursuing tertiary education through colleges of further education. [30816]

Bill Rammell: The Department for Education and Skills and the Higher Education Funding Council for England are both making an extra £20 million available in each of 2006–07 and 2007–08 which the Higher Education Funding Council for England will distribute between providers of higher education through a formula which takes account of part-time widening participation students. Colleges which provide higher as well as further education will receive their fair share of the total and stand to benefit from this formula. The detailed allocations to individual institutions will be announced in March 2006.

Andrew Selous: To ask the Secretary of State for Education and Skills how much each Learning and Skills Council in the Eastern Region spent on entertaining *(a)* in 2005 to date and *(b)* in 2004. [22428]

Bill Rammell: I have overall responsibility for the LSC, however the operations of the LSC are managed and overseen by Mark Haysom, the LSC's chief executive and as entertainment costs of local councils are a matter for the LSC. Mark Haysom has written to the hon. Gentleman with further information. A copy of his reply has been placed in the House Libraries.

Letter from Mark Haysom to Andrew Selous, dated 11 November 2005:

You recently asked the Secretary of State for Education and Skills, how much each LSC in the Eastern Region spent on entertaining a) in 2005 to date and; b) in 2004.

I can confirm the following information in response to your request.

Location	*2004–05*	*2005–06 to date*
Beds	227.74	—
Cambs	73.00	91.00
Essex	1,579.87	575.50
Herts	1,658.15	243.35
Norfolk	750.00	626.00
Suffolk	26.60	137.40
Total	4,315.36	1,673.25

Modern Languages

Dr. Kumar: To ask the Secretary of State for Education and Skills what steps are being taken to increase the number of modern foreign languages available to pupils in state secondary schools. [30367]

Jacqui Smith: We have expanded the list of qualifications that count towards performance table scores to include more language qualifications. In addition to the European Union working languages, there are approved qualifications available in Arabic, Bengali, Chinese, Gujarati, Irish, Japanese, Modern Hebrew, Punjabi, Persian, Russian, Turkish and Urdu.

We are also funding a range of projects and materials to promote languages and to develop innovative curricular models which will be show-cased to provide schools with delivery ideas and support.

Last September we launched the Languages Ladder—the national, voluntary recognition scheme for languages—which is an additional route for endorsing achievement in language skills at all levels of competence in a wide range of languages. It allows learners to progress in one or more of the four skills in one or more languages. In the first year, the scheme offers assessment opportunities in Chinese, French, German, Italian, Japanese, Punjabi, Spanish and Urdu. Additional languages will be available from autumn 2006 and are likely to include Arabic, Bengali, Irish, Gujarati, Hindi, Modern Greek, Polish, Portuguese, Russian, Somali, Swedish, Tamil, Turkish, Welsh and Yoruba. The external assessment which learners can choose to take at the end of each stage of the scheme leads to an accredited qualification—Asset Languages offered by Cambridge Assessment—and attracts assessment and attainment points which contribute to a school's performance table.

Primary Education

Jon Trickett: To ask the Secretary of State for Education and Skills if she will estimate the cost of reducing the teacher-pupil ratio in primary schools to *(a)* 1:28, *(b)* 1:25 and *(c)* 1:20. [27771]

Jacqui Smith: The teacher-pupil ratio is 1:22.5 in primary schools based on provisional 2005 data. We estimate that the increased cost in terms of teachers pay to reduce this ratio to 1:20 would be approximately £780 million per year. This excludes training, leadership and structural costs.

Prison Population

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills how many *(a)* teachers and lecturers and *(b)* learners amongst the prison population there were in each month in the academic year 2004/05. [27953]

Phil Hope: This information is not collated centrally by the Prison Service, and could be collected only at disproportionate cost.

New arrangements for the delivery of learning and skills, planned and funded by the Learning and Skills Council, were introduced in three development regions – from 1 August 2005. Information on the number of learners for the first three months of the current academic year will be available for these regions later this month and I shall arrange to write to the hon. Member with the data when they are to hand.

Publicly Funded Courses (Drop-out Rate)

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what percentage of learners who have enrolled on publicly funded courses since 1992 have failed to complete those courses, broken down by age bands of 10 years. [28583]

Phil Hope: Non-completion rates are not available on a consistent basis for all publicly-funded courses combined. Separate rates are available for; further education colleges and external institutions from 1998/99, work based learning providers from 2001/02 and HE institutions from 1996/97. The rates for each category of provision are NOT comparable with the rates for the other categories of provision because they are produced using different data collection systems and different methodologies. Within the three categories of provision the rates for each year are produced on a consistent basis.

Due to the compulsory nature of pre-16 school education retention data for the schools sector are not currently collected centrally by government. Work is under way to develop a means of obtaining retention data for schools with sixth-forms.

Non-completion rates for the three categories of provision are given on subsequent pages.

Non-completion rates for Further Education Colleges

Non-completion rates for the age groups 16 to 18 and 19+ are readily available from LSC benchmarking data and are shown in the following table. The resource required to break down non-completion rates into age bands of 10 years would exceed the disproportionate cost threshold for answering Parliamentary Questions.

		Percentage
	Age band	
Year course due to finish	16–18	19+
1998/99	25	19
1999/2000	25	20
2000/01	24	19
2001/02	19	17
2002/03	18	17
2003/04	17	15

Source:

DfES analysis of LSC Benchmarking data. Further details of the benchmarking data can be found on the LSC website at: http://www.lsc.gov.uk/National/Partners/Data/Statistics/LearnerStatistics/LearningAimOutcomes/FESuccessRates/Default.htm

Non-completion rates for Work Based Learning Providers

Up to and including 2003/04 you could only start a Work Based Learning program if aged below 25 years of age. It is therefore not appropriate to break down non-completion rates into age bands of 10 years. Non-completion rates for all WBL learners are given in the following table.

Year of leaving	Non-completion rate (all frameworks or NVQs) (%)
2001/02	64
2002/03	59
2003/04	54

Source:
LSC Individualised Learner Record. Further details can be found on the LSC website at: http://www.lsc.gov.uk/National/Partners/Data/Statistics/LearnerStatistics/LearningAimOutcomes/WBLSuccessRates/Default

Non-completion rates for HE institutions

Since 1996/97, information on non-completion rates for higher education students has been published annually by the Higher Education Statistics Agency (HESA) in "Performance Indicators in Higher Education". The table gives the percentage of UK domiciled full-time first degree students expected neither to obtain an award nor transfer. The published figures cover students of all ages and are not calculated separately by age group. The figures for 2003/04 will be available in July 2006.

Students starting courses in:	Non-completion rate (%)
1996/97	16.0
1997/98	16.0
1998/99	16.0
1999/2000	15.0
2000/01	15.0
2001/02	14.1

Schools

Mr. Gordon Prentice: To ask the Secretary of State for Education and Skills whether it is her policy to allow schools to select children for admission by interviewing their parents; and if she will make a statement. [29777]

Jacqui Smith: The statutory School Admissions Code of Practice makes it quite clear that we regard it as poor practice for schools to interview parents or children as any part of the admission process. The only exception to this is boarding schools, where we consider it reasonable to interview to assess a child's suitability to be a boarder.

Helen Jones: To ask the Secretary of State for Education and Skills pursuant to her answer of 2 November 2005, *Official Report*, columns 1198–99W, on schools, what steps a local authority will have to take before deciding if a request from parents to set up a new school has support; and whether an individual parent will have the right of appeal to the schools adjudicator if such a proposal is rejected. [30714]

Jacqui Smith: Local authorities will be subject to new duties to promote choice and diversity in their areas and to respond to parental demand for new schools. In carrying out these duties, local authorities will need to consider representations from parents on their merits, taking account of the number of parents expressing a demand for a new school, and the extent to which a new school might add to the quality and diversity of provision. We intend to issue guidance to local authorities on the duties once the legislation is in place. The Schools Commissioner will monitor the effectiveness of local authorities in carrying out their duties.

People wishing to establish new schools—either with the support of the local authority or otherwise—will, as now, have to consult on and publish formal statutory proposals. In future it will be for the local authority to decide such proposals, taking account of the views of stakeholders. If the local authority reject the proposals, the promoters—the people or organisation who originally published the proposals—will be able to appeal to the schools adjudicator.

Mr. Gibb: To ask the Secretary of State for Education and Skills what definition she uses for *(a)* a trust school, *(b)* a foundation school and *(c)* a voluntary aided school under the changes proposed in the White Paper "Higher Standards, Better Schools For All". [30938]

Jacqui Smith: The characteristics of trust schools are described in the White Paper. In the terms of the existing legislation governing categories of schools—the School Standards and Framework Act 1998—a trust school will be a foundation school with a foundation. At present the foundation of such a school may only appoint a minority of the governing body: we intend to provide for foundations (trusts) to appoint a majority of the governing bodies of trust schools. A foundation school, as described in the White Paper, is a foundation school without a foundation. We are planning no changes to the existing characteristics of foundation and voluntary aided schools.

Mike Penning: To ask the Secretary of State for Education and Skills how much funding was allocated by her Department to Hemel Hempstead constituency for *(a)* capital projects and *(b)* revenue funding in each of the last eight years. [25756]

Jacqui Smith: The Department does not hold information on funding at constituency level. However we do hold information centrally on funding allocated for education and children's services to Hertfordshire county council in which Hemel Hempstead constituency is situated. The information on capital and revenue funding is provided as follows. The figures exclude payments made by the Department's NDPBs which could be provided only at disproportionate cost.

Table 1: revenue and capital funding for Hertfordshire county council

	Revenue	Capital	£ million Total
1997–98	430	12	442
1998–99	463	15	478
1999–2000	494	15	510
2000–01	544	37	580
2001–02	591	27	618
2002–03	640	48	687
2003–04	713	43	756
2004–05	765	61	826

Notes:
1. All figures are in cash not real terms.
2. Includes money paid out for education and for children's social services. Responsibility for children's social services transferred from DH to DfES in 2003–04 as part of Machinery of Government changes.

3. Includes school funding and children's social services funding paid through ODPM as well as grants paid directly to Hertfordshire by the Department.
4. Total funding also includes all revenue grants in DfES Departmental Expenditure Limits relevant to pupils aged 3 to 19 but exclude Education Maintenance Allowances (EMAs) and grants not allocated at LEA level.
5. Where responsibility for funding has transferred from an LEA, related funding no longer appears in the series.

Andrew Rosindell: To ask the Secretary of State for Education and Skills how many grammar schools have closed in England since 1997. [20766]

Jacqui Smith: There have been no grammar school closures since 1997.

Anne Milton: To ask the Secretary of State for Education and Skills (1) what her Department's target is for the number of specialist schools in *(a)* Surrey and *(b)* England; [30184]

(2) how many schools in *(a)* Surrey and *(b)* England have (i) applied for and (ii) been granted specialist status for each of the 10 specialisms; [30185]

(3) how many specialist schools in Surrey participate in the Leading Edge Partnership scheme. [30186]

Jacqui Smith: Local authorities are not required to set targets for the number of specialist schools however 79 per cent. of schools in Surrey have already achieved specialist status (greater than the national average of 75 per cent.) with more planned. Our national target is that 95 per cent. of maintained secondary schools will be specialist or Academies by 2008.

To date over 2,600 schools in England have applied for specialist status including 42 in Surrey.

The following is the breakdown by specialism of schools which have been granted specialist school status:

(a) In Surrey there are 41 specialist schools:

Arts (4), Business and Enterprise (4), Language (3), Maths and Computing (5), Music (2), Science (4), Sports (4), and Technology (15).

(b) In England there are 2,380 specialist schools:

Arts (385), Business and Enterprise (201), Engineering (41), Humanities (60), Language (213), Maths and Computing (206), Music (15), Science (269), Sports (334), Technology (574), Combined (70) and SEN specialism (12).

There are two Leading Edge Partnerships in Surrey. Seven schools participate in the partnerships and six of these are specialist.

Science Teachers

Stephen Hammond: To ask the Secretary of State for Education and Skills how many teachers of science there are in secondary schools in England; and how many there were in 1995. [22393]

Jacqui Smith: The following table shows the number of full-time teachers teaching sciences[1] in maintained secondary schools in England as at November 1996 and 2002. The figures are estimates based upon sample surveys carried out most recently in 1996 and 2002 only. A number of teachers may be in regular service teaching more than one science. The table shows each teacher once against each subject that they are teaching.

[1] Teachers qualified in combined/general science are treated as qualified to teach biology, chemistry or physics. Teachers qualified in biology, chemistry or physics are treated as qualified to teach combined/general science.

	1996	*2002*
Combined/general science	27,300	28,300
Biology	5,100	5,600
Chemistry	4,600	5,200
Physics	4,400	4,700
Other sciences[1]	1,600	1,600

[1] Other sciences includes subjects such as geology, environmental science and agricultural science.

Note:
Totals may not appear equal to the sum of their parts because of rounding.

Source:
Secondary Schools Curriculum and Staffing Survey

Sex Education

Dr. Kumar: To ask the Secretary of State for Education and Skills whether she plans to extend the number of hours devoted to sex education in schools. [30237]

Jacqui Smith: It is for schools to decide how much teaching time is necessary to meet the requirements for sex education outlined in statutory National Curriculum Science and in the non-statutory framework for Personal Social and Health Education.

Skills for Life Qualifications

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what grading levels will be used for Skills for Life qualifications. [28764]

Bill Rammell: Skills for Life qualifications in Literacy, Numeracy and ESOL have been in place since 2001. They are available at Entry Levels 1, 2 and 3 and at Levels 1 and 2. Awards can be made at each level, for each subject. They are all awarded on a simple pass or fail basis.

Literacy and Numeracy Entry Levels 1 to 3 are assessed through coursework and at Levels 1 and 2 through external national tests which can be accessed on a 'when ready' basis and through e-assessment as well as on paper. Candidates can be given feedback on their performance to support their further learning.

Special Educational Needs

Mr. Pelling: To ask the Secretary of State for Education and Skills what proportion of the Special Educational Needs and Disability Rights Act 2001 funding stream from the Government Office for London was made available to the London borough of Croydon in 2004–05. [29892]

Jacqui Smith: London borough of Croydon received £36,244.00 in 2004–05 to help the local authority youth service meet their duties under the Special Educational Needs and Disability Act 2001. Croydon's proportion of the London regional allocation (£736,828.00) was 4.9 per cent.

Standards Fund

Mr. Lidington: To ask the Secretary of State for Education and Skills how much was paid by her Department to *(a)* Buckinghamshire local education authority and *(b)* Milton Keynes local education authority under the ethnic minority achievement element of the Standards Fund in each year since 2003–04; how much is planned to be paid in each case in each year until 2007–08; and what the percentage change in (i) cash and (ii) real terms is between the amount paid in 2003–04 and the amount planned to be paid for 2007–08. [30607]

Jacqui Smith: Changes to the distribution of the Ethnic Minority Achievement (EMAG) element of the Standards Fund were introduced in 2004–05 to bring a better targeted, fairer and more sensible distribution to this grant. These changes were widely endorsed by the DfES "Aiming High: Raising the Achievement of Minority Ethnic Pupils" consultation of 2003.

Total EMAG funding will increase by £10 million between 2005–06 and 2007–08.

The redistribution of funding will lead to a small number of local authorities receiving less funding than they did under the previous system. However, losses in any one year will be limited to 0.05 per cent. of each authority's overall school funding.

The allocations for Buckinghamshire and Milton Keynes for the years 2003–04 to 2007–08 and the cash, as well as real terms changes, are detailed as follows:

£

Programme year	*Buckinghamshire*	*Milton Keynes*
2003–04	797,446	233,834
2004–05	797,446	233,834
2005–06	673,398	234,098
2006–07[1]	549,350	241,545
2007–08[1]	425,302	260,251

[1] Provisional DfES contribution.

In 2003–04 to 2005–06 the DfES contribution was matched funded by local authorities at 50 per cent. grant rate.

	Buckinghamshire	*Milton Keynes*
2003–04 (£)	797,446	233,834
2007–08 (Provisional) (£)	425,302	260,251
Actual difference (£)	-412,231	+1,887
Percentage difference real terms	-51.7	+0.8

Under-achievement

John Bercow: To ask the Secretary of State for Education and Skills what percentage of children from low socio-economic backgrounds have achieved five A-C grade GCSEs in each of the last five years; and how this compares with national results. [26036]

Jacqui Smith: The Department does not collect details of the socio-economic group of pupils. However, one commonly used measure of low socio-economic status is eligibility for free school meals (FSM).

Figures are given in the following table.

Percentage of 15-year-old pupils[1] achieving five or more A-C grades at GCSE and equivalent[2] by eligibility for free school meals (FSM)[3] in 2002, 2003 and 2004*

	2002		*2003*		*2004*	
	Pupils	*Percentage*	*Pupils*	*Percentage*	*Pupils*	*Percentage*
Non FSM	477,798	53.7	493,336	55.2	508,060	56.1
FSM	80,626	23.0	81,278	24.4	82,738	26.1
Unclassified	2,967	—	1,470	—	976	—
All pupils	561,391	49.0	576,084	50.7	591,774	51.9

[1] Pupils aged 15 at the beginning of the academic year (i.e. 31 August).
[2] Figures for 2002 and 2003 include GCSEs and GNVQs only. Figures for 2004 include GCSEs and other approved qualifications.
[3] Attainment figures by pupil characteristics have been derived from the Annual School Census (ASC) since 2002.
Note:
These figures are for maintained schools only and are not directly comparable with the national attainment figures that underpin the Department's PSA targets.

Undergraduate Student Grants

Mr. Davey: To ask the Secretary of State for Education and Skills how much money was spent on grants for *(a)* full-time undergraduate students and *(b)* part-time undergraduate students in (i) 2005–06, (ii) 2006–07 and (iii) 2007–08. [25435]

Bill Rammell: Our expenditure plans for grants to undergraduate students in higher education over this period are:

£000

	FY 2005–06	*FY 2006–07*	*FY 2007–08*
Full-time mandatory grants	722,500	816,000	919,000
Part-time mandatory grants	63,500	63,000	63,000

£000

	FY 2005–06	*FY 2006–07*	*FY 2007–08*
Access to Learning Fund[1]			
Full-time	55,000	46,000	37,000
Part-time	30000	12,000	12,000
Total	844,000	937,000	1,031,000

[1] Can be paid as grants or loans at the discretion of the institution.
Note:
The figures are inclusive of the funds that will transfer to Wales from September 2006 when HE student support devolves to the Welsh Assembly Government; the Access to Learning Fund (which can be paid as grant or loan); and the tuition fee grant which is paid directly to the institution. The tuition fee grant will be replaced by the tuition fee loan over the period.

Funding to part-time students through the Access to Learning Fund is being increased significantly over the period.

Written Answers to Questions

Wednesday 23 November 2005

PRIME MINISTER

Child Support Agency

Mr. Andrew Turner: To ask the Prime Minister pursuant to the oral answer of 16 November 2005, *Official Report*, column 964, what the evidential basis is for his statement that *(a)* the administrative costs of the Child Support Agency (CSA) outweighed the money it took in 1997 and *(b)* in the majority of CSA cases the child concerned is not the product of either a married or stable relationship. [31234]

The Prime Minister: I refer the hon. Member to the Child Support Agency's (CSA) Annual report and accounts for the financial years 1995–96 and 1996–97. Copies of this are available in the Library of the House.

The majority of the workload dealt with by the CSA is generated by the more difficult cases, in particular where there is no previous stable relationship between the parents.

In addition, results from a national survey of CSA clients (Wikely N et al, 2001) (carried out in 1999 prior to the recent reforms) allow comparative analysis of the characteristics of compliant and non-compliant non-resident parents. Previously married and cohabiting non-resident parents were, respectively, five and three times more likely to comply with the CSA than those in less stable relationships.

Social Office

Mr. Tyrie: To ask the Prime Minister (1) if he will list each person employed by the Number 10 Social Office since May 1997; [30252]

(2) whether the Number 10 Social Office has a logo; [30253]

(3) whether the remit of the operation of the Number 10 Social Office is limited solely to arranging events which take place in Downing street; [30255]

(4) whether work is undertaken by members of the Social Office which is not directly related to the Prime Minister's official duties. [30256]

The Prime Minister: There is no such office within the Prime Minister's Office.

The Events and Visits Office manage all official events, domestic and international visits for the Prime Minister's Office.

Mr. Tyrie: To ask the Prime Minister whether members of the Number 10 Social Office have accompanied the spouse of the Prime Minister on *(a)* official and *(b)* unofficial engagements (i) in the UK and (ii) overseas. [30254]

The Prime Minister: When the spouse of the Prime Minister travels in an official capacity she is provided with administrative support from the Events and Visits Office as necessary.

CHURCH COMMISSIONERS

Synods (Armed Forces)

Robert Key: To ask the hon. Member for Middlesbrough, representing the Church Commissioners what relationship the General Synod of the Church of England has with *(a)* the Forces Synodical Council and *(b)* the Army Archdeaconry Synod; and if he will make a statement. [29656]

Sir Stuart Bell: The information is as follows:

(a) The Forces Synodical Council has an enhanced representation on General Synod from this year and can now appoint up to seven members of the General Synod (not more than one bishop, not more than four persons who are in holy orders elected or chosen from among service chaplains and not more than four elected or chosen lay people). In the present Synod the Council has appointed one bishop and elected three service chaplains and three lay people.

(b) The Army Archdeaconry Synod forms part of the Forces Synodical Council and, as such, has no formal relationship with the General Synod.

ELECTORAL COMMISSION

Electoral Commission

Mr. Kemp: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission how many people are employed by the Electoral Commission. [29835]

Peter Viggers: The Commission informs me that it currently employs 155 people.

Mr. Kemp: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what the total annual expenditure for the Electoral Commission was in each year for which figures are available. [29836]

Peter Viggers: The Commission informs me that its outturn expenditure in each of the years concerned is as set out in the following table.

	Outturn expenditure (£ million)
2001–02	6.066
2002–03	18.160
2003–04	18.635
2004–05	24.824
2005–06	[1]23.974

[1] (estimated)

NORTHERN IRELAND

Schools

6. **Rosie Cooper:** To ask the Secretary of State for Northern Ireland what action is being taken to improve performance in schools in Northern Ireland. [29669]

Angela E. Smith: We are committed to driving up performance in schools in Northern Ireland by taking forward a wide range of initiatives aimed at raising standards, tackling under achievement and targeting funding at those areas of greatest social need.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland when he expects that a decision will be taken on whether Brooklands Primary School will be in a position to replace the school patrol-crossing man; and if he will make a statement. [30282]

Angela E. Smith: The South-Eastern Education and Library Board has agreed to the employment of a temporary School Crossing patrol at Brooklands Primary School until such time as a further review of the patrol point can be undertaken, using the regionally agreed assessment criteria. The Board has also undertaken to initiate discussions urgently with the school, and other agencies, to seek ways of improving road safety generally in the vicinity of the school entrance.

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland when he last visited a grammar school in Northern Ireland; and if he will make a statement. [29549]

Angela E. Smith: My right hon. Friend, the Secretary of State for Northern Ireland, was the guest speaker at the Polities Society of Bangor Grammar School on 8 November. He has recently visited a number of schools in order to gain first hand experience of the Northern Ireland education system.

Dr. McCrea: To ask the Secretary of State for Northern Ireland what assessment has been made of the requirement for school building repairs in the North Eastern education and library board area. [30201]

Angela E. Smith: The chief executive of the north Eastern education and library board (NEELB) has advised me that at 31 March 2005 there was a backlog of £37 million maintenance for the schools in the NEELB area. The Board anticipates that £1.5 million will be spent on response maintenance for the controlled and maintained schools in the 2005–06 financial year.

Mr. Dodds: To ask the Secretary of State for Northern Ireland what funding is available to primary schools in Northern Ireland in 2005–06 in respect of *(a)* Head and Clerical, *(b)* Professional and other, *(c)* Primary School Allowances, *(d)* Delegated Schools Standards Grant, or equivalent, *(e)* All Revenue Standards Fund Allocation, or equivalent, *(f)* Devolved EIC Grant allocation, or equivalent and *(g)* Devolved Capital Standards Fund allocation, or equivalent. [27716]

Angela E. Smith: Funding for Northern Ireland primary schools is not allocated under the arrangements described and information is not therefore available on the basis requested.

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many children are eligible for free school meals in each board area within Northern Ireland. [30204]

Angela E. Smith: The requested information is as follows:

Children entitled to free school meals[1] by Education and Library Board area in Northern Ireland, 2004–05

	Pupils
Belfast	16,393
Western	16,079
North Eastern	10,618
South Eastern	9,438
Southern	14,494
Northern Ireland total	67,022

[1] For nursery pupils and children in voluntary and private pre-school centres, the number of children with 'a parent, or parents, in receipt of Income Support or Job Seeker's allowance' was used as a proxy for free school meal entitlement.

Note:
Figures relate to pupils at voluntary and private pre-school centres, nursery schools, primary schools and post-primary schools. Figures for pupils at special schools entitled to free school meals are not collected.

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* school and *(b)* library facilities are planned for closure in each of the education boards in Northern Ireland. [28867]

Angela E. Smith: The following school closures and amalgamations are currently planned in each of the Education and Library Board areas.

Education and Library Board area	*School/s*	
North-Eastern	*St. Louis PS/St. Joseph's PS/*	*Amalgamation (into 2 new schools)*
	All Saints PS/St. Mary's PS, Ballymena	
	Kilcoan PS/Mullaghdubh PS, Islandmagee	Amalgamation
Southern	Annaghmore PS/Tullyroan PS	Amalgamation
	Tullymacarette PS	Closure
	Ardmore PS	Closure
	Loughbrickland PS	Closure
Western	Burnfoot PS/Dungiven PS/Lar[illegible] PS	Amalgamation
	Coranny PS/Cornagague PS, Roslea	Amalgamation
	Limegrove/Glasvey Special Schools	Amalgamation
South-Eastern	Charley Memorial PS /Lambeg PS /Hillhall PS/Drumbo PS	Amalgamation
	Holywood PS/Redburn PS	Amalgamation

In addition, there are two current development proposals for amalgamations in the North Eastern Education and Library Board area involving two post-primary schools and three special schools on which decisions have not yet been taken.

Education and Library Board Area	*School/s*	*Proposed date of Amalgamation*
North-Eastern	St. Malachy's High School, Antrim and St. Olcan's High School, Randalstown	1 September 2006—in new school on St. Olcan's site.
North-Eastern	Beechgrove, Dunfane and Loughan Special Schools	Amalgamation in a new school on the former site of Ballymena Boy's and Girls' Schools, on a date that will be determined by the completion of a new building

At the present date, the North Eastern Education and Library Board is reviewing the future of three branch libraries. This issue will be discussed at the Board's library committee meeting in December. Currently no decisions have been made by any of the other Boards about further library closures.

Dr. McCrea: To ask the Secretary of State for Northern Ireland when he expects the new build programme for schools in Northern Ireland for the 2005–06 financial year to be announced. [30203]

Angela E. Smith: It is expected that an announcement on the 2005 schools' major capital allocations will be made in the next few weeks.

Northern Ireland (Offences) Bill

7. **Mr. Donaldson:** To ask the Secretary of State for Northern Ireland what discussions he has held with victims groups in Northern Ireland on the proposals in the Northern Ireland (Offences) Bill. [29670]

Mr. Hain: In the last two weeks my ministerial colleagues and I have met with representatives of the RUC George Cross Foundation, the RUC George Cross Widows Association and RUC George Cross Parents Association, and also with the Police Federation, the Superintendents Association and the Prison Governors Association and with representatives of the four main Christian denominations, who also have an interest in the concerns of victims.

My right hon. friend the Prime Minister will also meet representatives from the RUC George Cross Parents Association and the RUC George Cross Widows Association later this afternoon, at the request of the hon. Member for North Down.

10. **Gordon Banks:** To ask the Secretary of State for Northern Ireland if he will make a statement on the Northern Ireland (Offences) Bill. [29673]

Mr. Hain: The Northern Ireland (Offences) Bill was introduced on 9 November. The Second Reading debate is this afternoon.

This Bill will enact the proposals published in May 2003 to address the unresolved issue of on-the-run terrorist suspects.

Smoking Ban

8. **Jim Dobbin:** To ask the Secretary of State for Northern Ireland what recent discussions he has had regarding plans to ban smoking in public places in Northern Ireland. [29671]

Mr. Woodward: Prior to announcing controls to protect workers in Northern Ireland by April 2007, we received significant support for comprehensive controls from the public, consulted widely and fully with trade unions—all but one totally supported comprehensive controls—and discussed the impact on the employment and hospitality sectors in Dublin and New York.

Paramilitaries

9. **Michael Connarty:** To ask the Secretary of State for Northern Ireland what recent assessment he has made of the criminal activities of members and former members of Northern Ireland's paramilitary organisations. [29672]

Mr. Woodward: The IMC report published on 19 October provided a clear assessment of the current activities of paramilitary groups, up to the end of August.

This report recognises the PIRA statement as 'very significant' and that
"initial signs . . . are encouraging".

11. **Mr. Andrew Turner:** To ask the Secretary of State for Northern Ireland how many cases of paramilitary violence have been attributed to *(a)* loyalist and *(b)* republican organisations in the last 12 months for which figures are available. [29674]

Mr. Woodward: We condemn all violence and intimidation. The most recent published information can be found in the 7th IMC Report.

Security Situation

12. **Dr. McCrea:** To ask the Secretary of State for Northern Ireland what recent assessment he has made of the security situation in Northern Ireland; and if he will make a statement. [29675]

Mr. Woodward: We continue to see dramatic improvements in the security situation. Paramilitary attacks also continue on a downward trend. The Independent Monitoring Commission (IMC) report published in October stated that the initial signs following the Provisional IRA statement were encouraging.

EU Environmental Directives

13. **Andrew Mackinlay:** To ask the Secretary of State for Northern Ireland if he will make a statement on his Department's compliance with EU environmental directives. [29676]

Angela E. Smith: The Department of the Environment has cleared a significant backlog of both EU and domestic legislation, introducing over 50 pieces

of subordinate and primary legislation. Full compliance with the main water quality Directives will be achieved through completion of the on-going major investment programme in wastewater treatment works by the Department for Regional Development.

NICE Guidelines

14. **Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland with whom he has held discussions in relation to extending National Institute for Health and Clinical Excellence guidelines to Northern Ireland. [29677]

Mr. Woodward: Proposals for applying NICE guidance in Northern Ireland were originally set out in the 2001 consultation document "Best Practice—Best Care". Responses to that consultation indicated widespread support for a link with NICE which would ensure application of the Institute's guidance in Northern Ireland where appropriate. My Department has been discussing the detail of these arrangements with NICE, the Department of Health in London, and local health and social services interests.

Integrated Education

15. **Greg Mulholland:** To ask the Secretary of State for Northern Ireland if he will make a statement on the potential role of integrated education in the peace process. [29678]

Angela E. Smith: Integrated education is an important building block towards creating the conditions necessary for long-term peace and stability in Northern Ireland.

We recognise that the integrated sector, together with all sectors of education, has a vital role to play in shaping a shared future for Northern Ireland.

It is our policy to encourage and facilitate integrated education through the recognition of and response to parental demand.

Acute Hospitals

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many acute hospital beds in Northern Ireland are to be taken out of service within the next six months. [31049]

Mr. Woodward: The Eastern Health and Social Services Board has recently announced plans to shift resources from the hospital sector to provide better, more effective services in the community. This shift equates to 109 beds and is fully aligned with best practice. It represents a significant step in building and shaping services in a modern way, close to people's homes with less reliance on the hospital sector.

The Northern Health and Social Services Board also has plans to invest in a number of services aimed at reducing demand for hospital services but these plans are still under development.

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many acute hospitals are proposed for closure in Northern Ireland; and if he will make a statement. [31050]

Mr. Woodward: Under Developing Better Services, none of the current hospitals offering acute services will be closed—rather, they will be adapted to play their part in a new configuration of service provision.

Alcohol-related A and E Admissions

Lady Hermon: To ask the Secretary of State for Northern Ireland what percentage of admissions to each hospital accident and emergency department in Northern Ireland has been linked to alcohol in each of the last five years. [28203]

Mr. Woodward: Information is not available on the number of attendances at hospital accident and emergency departments that are linked to alcohol. However, the number of admissions to hospital via an accident and emergency department is available.

The table shows the percentage of total admissions to each hospital trust, via the accident and emergency department, that had an associated alcohol-related diagnosis for each of the last five years for which data are available.

Percentage of all admissions[1] via accident and emergency that had an alcohol-related diagnosis

HSS Trust	*2004–05*	*2003–04*	*2002–03*	*2001–02*	*2000/01*
Mater Informorum	3	2	3	2	0
Belfast City	1	1	1	1	1
Royal Group	3	3	3	3	3
Green Park	1	1	1	1	1
UC and HT	1	1	0	1	1
Down Lisburn	9	3	1	4	1
United	3	2	3	2	2
Causeway	1	1	0	1	1
Armagh and Dungannon	1	4	2	3	3

Hospital In-patients System.

Ambulance Staff (Assaults)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many attacks on ambulance staff responding to 999 calls in Northern Ireland, occurred in the first 10 months of *(a)* 2004 and *(b)* 2005. [29884]

Mr. Woodward: The relevant figures are provided in the following table:

	Number
1 January to 31 October 2004	103
1 January to 31 October 2005	60

Andrew Smith

Mark Durkan: To ask the Secretary of State for Northern Ireland how many days Mr. Andrew Smith worked for the Northern Ireland Social Security Agency as a non-executive director in each year he was employed. [29172]

Mr. Hanson: The information requested is shown as follows.

Financial years	*Number of days worked*
1999–2000	32.75
2000–01	76.25
2001–02	75
2002–03	61
2003–04	56.50
2004–05	10

Mark Durkan: To ask the Secretary of State for Northern Ireland who gave approval to the Northern Ireland Social Security Agency to employ Mr. Andrew Smith as a non-executive director beyond his contracted annual total of days. [29173]

Mr. Hanson: The chief executive of the Social Security Agency gave approval to employ Mr. Smith beyond his contracted annual total of days in accordance with his contract of employment.

Animal Welfare

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many animals taken into care by the responsible authorities in Northern Ireland were destroyed in the most recent 12 months for which figures are available. [30472]

Angela E. Smith: I am responding in respect of the number of dogs taken into care by the responsible authorities in Northern Ireland.

Under the Dogs (Northern Ireland) Order 1983 district councils are responsible for dealing with stray dogs in Northern Ireland. In the 12-month period January to December 2004 district councils impounded 9,145 dogs and placed them in approved dog pounds. Of these 3,371 were humanely destroyed. The remainder were either reclaimed by their owners or sold by the dog pounds.

Anti-poverty Strategy

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will provide funding for implementing an anti-poverty strategy in Northern Ireland. [29478]

Angela E. Smith: Public consultation on the proposed anti-poverty strategy for Northern Ireland was completed on the 26 August 2005. Copies of the consultation document are available in the Library.

Proposals on the way forward, including how the strategy will be resourced, are currently being prepared for consideration by Ministers.

The finalised anti-poverty strategy for Northern Ireland will be published later this year.

Antisocial Behaviour

Lady Hermon: To ask the Secretary of State for Northern Ireland how much money he has allocated towards tackling antisocial behaviour in North Down in each of the past three years. [28190]

Mr. Hanson: Four projects in the North Down area have been supported through the Community Safety Challenge Competition to tackle antisocial behaviour. The amount of funding allocated to these projects was £120,705 and £143,603 for 2003–04 and 2004–05 respectively. Other regional initiatives include the objective of reducing antisocial behaviour but it is not possible to disaggregate expenditure specific to the North Down area.

Ards Hospital

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will list the ministerial visits that have taken place to the Mental Health Inpatient Unit at Ards hospital in each of the past five years. [30310]

Mr. Woodward: There are no records of any ministerial visits that have taken place to the Mental Health Inpatient Unit at Ards hospital in any of the past five years.

Asbestos

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many compensation awards have been made to workers suffering from an asbestos-related health condition in Northern Ireland in each of the last five years. [30213]

Angela E. Smith: In each of the last five years compensation awards have been made under the Pneumoconiosis, etc., (Workers' Compensation) (NI) Order 1979 to workers suffering from an asbestos related condition in Northern Ireland as follows:

	Number of awards
2000–01	5
2001–02	7
2002–03	8
2003–04	10
2004–05	3

Avian Influenza

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland who would be responsible for co-ordinating responses across the Health Board areas in Northern Ireland in the event of an avian influenza pandemic. [30089]

Mr. Woodward: In the event of a pandemic influenza occurring in Northern Ireland the Department of Health Social Services and Public Safety would activate the Regional Health Command Centre which would then direct the use of all Health and Personal Social Services resources including the establishment of the Northern Ireland Influenza Pandemic Control Committee. Details of actions at each phase of a pandemic are described in the Northern Ireland Influenza Contingency Plan, a copy of which has been placed in the Library.

Belfast International Airport

Dr. McCrea: To ask the Secretary of State for Northern Ireland when the Government plans to upgrade the road route from Belfast International Airport to Belfast city centre. [30629]

Mr. Woodward: The chief executive of Roads Service (Dr. Malcolm McKibbin) has been asked to write to the hon. Gentleman in response to this question.

Letter from Dr. Malcolm McKibbin to Dr. William McCrea, dated 23 November 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding when the Government plans to upgrade the road route from Belfast International Airport (BIA) to Belfast city centre. I have been asked to reply as this issue falls within my responsibility as Chief Executive of Roads Service.

The primary route from BIA to Belfast is via the A57, the A6 through Templepatrick and the M2 motorway.

The most significant delays on this route are experienced by southbound traffic on the M2 motorway approaching the Sandyknowes junction in the morning peak hour. Roads Service plans to widen the southbound carriageway to create an additional lane between the Sandyknowes and Greencastle junctions. This will make it easier for traffic joining the motorway whilst providing greater capacity for Belfast-bound traffic on the motorway. Construction of these improvements is expected to start during 2008.

This £30 million M2 Widening Scheme is one of three schemes forming part of the £100 million Roads Service's Design, Build, Finance and Operate Package 1, along with the M1/Westlink Project and the Antrim Hospital slip roads.

At present we have no plans for capital improvement to the A57/A6.

I hope this information is helpful.

Dr. McCrea: To ask the Secretary of State for Northern Ireland what steps the Government are taking further to improve the services of Belfast International airport. [30674]

Mr. Woodward: The Government support the development of Belfast International airport, as set out in the Air Transport White Paper 2003.

Belfast International airport has, in common with the other two commercial airports in Northern Ireland, benefited in the past from the Government's Air Route Development Fund. However, the operation of this fund is currently in abeyance.

The development of further services from Belfast International airport is a matter for its private sector owner.

Belfast-Dublin Rail Services

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will take steps to upgrade the infrastructure on the Belfast to Dublin railway line to reduce the train travel time between Belfast and Dublin; and if he will make a statement. [29449]

Mr. Woodward: Translink has recently commissioned a consultant to undertake a study into the feasibility and likely cost of reducing journey times for rail services between Belfast and Dublin. As the study is expected to continue to the end of this year, a statement cannot be made at this stage.

Benefit Fraud

Dr. McCrea: To ask the Secretary of State for Northern Ireland what steps he is taking to reduce benefit fraud in Northern Ireland. [30140]

Mr. Hanson: The Social Security Agency has a wide ranging approach to reducing fraud which is detailed in Programme Protection Plans which are in place in all operational units.

These include:

interventions on fresh claims;

a programme of data matching benefit systems against other computer systems in organisations such as Inland Revenue, banks, credit agencies and utility companies to identify cases where incorrect information has been provided;

where fraud does get into the system the agency has a specialist counter fraud unit with staff trained to professional standards to investigate suspected fraud and produce evidence to support appropriate action which can range from prosecution to cautions;

an advertising campaign titled "It's a Rip-off" designed to make social security fraud socially unacceptable and deter people from committing fraud; and

a robust approach to the prosecution of offenders which, this year, has seen 170 successful prosecutions.

Blood Donation

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many blood donations have been rejected in Northern Ireland in each of the last five years. [30212]

Mr. Woodward: Blood donors may be deferred from giving blood or the donations themselves may subsequently be rejected. The single largest reason for deferment is a low haemoglobin level, which accounts for 6 per cent. of total donor attendances. Donations may be rejected after collection for technical reasons, e.g. inadequate volume, or in a very small number of cases because they fail the standard screening for blood-borne diseases.

Figures for total donations and rejections over the last five years are given in the following table, although the information for 2000–01 is incomplete.

	Whole blood attendance	Whole blood donations	Number of donors turned down before donation	Percentage of donors turned down before donation
2004-05	81,088	67,384	13,704	16.9
2003-04	81,709	68,799	12,910	15.8
2002-03	79,481	67,797	11,684	14.7
2001-02	79,363	66,982	12,381	15.6
2000-01	82,002	69,702	12,300	15.0
Total	403,643	340,664	62,979	15.6

	Number of donations rejected after donation	Donations banked
2004-05	3,892	63,492
2003-04	4,007	64,792
2002-03	4,149	63,648
2001-02	4,124	62,858
2000-01	—	—

Bullying

Dr. McCrea: To ask the Secretary of State for Northern Ireland what representations he has received from schools seeking support to deal with bullying. [30205]

Angela E. Smith: The Department has not been contacted by individual schools seeking support to deal with bullying. However, the Department has taken pro-active steps to support schools in tackling bullying through development and publication of guidance.

In 2004 the Department in partnership with voluntary organisations, including Save the Children, established an Anti-bullying Forum to enable a collaborative and co-ordinated approach to tackling bullying in schools. The forum enables members to share models of best practice, disseminate information, to develop and co-ordinate joint initiatives to ensure that schools and organisations working with children and young people are able to develop appropriate strategies to prevent and deal with bullying behaviours.

Dr. McCrea: To ask the Secretary of State for Northern Ireland (1) how many cases of bullying were reported in the *(a)* controlled, *(b)* maintained, *(c)* voluntary and *(d)* integrated sectors of education in each year since 2002; [30207]

(2) how many cases of bullying were reported in *(a)* the secondary school sector and *(b)* the grammar school sector in each year since 2002. [30208]

Angela E. Smith: The Department of Education does not collect the information requested.

Information about the scale and nature of bullying in Northern Ireland schools is contained in a research report published in October 2002. A research briefing summary is available on the Department's website at www.deni.gov .uk/rb8_2002.pdf.

The Department has recently commissioned updated research into bullying, in all its forms, and the results will also be published in due course.

Business Regulation

Dr. McCrea: To ask the Secretary of State for Northern Ireland if he will take steps to reduce the burden of regulation on business in Northern Ireland. [30121]

Angela E. Smith: A Better Regulation Strategy was introduced by the Northern Ireland Executive in December 2001 in order to reduce the regulatory burden on businesses of all sizes. As part of this, a more robust regulatory impact assessment procedure was introduced. Departments now carry out a micro business test to assess the impact of any proposed legislation on businesses with fewer than five employees. Departments are also required to give all businesses at least 12 weeks' advance notice of any legislation and to provide appropriate guidance on implementation.

The Department of Enterprise, Trade and Investment is keeping this strategy under review and is liaising with the Cabinet Office Better Regulation Unit to ensure that improvements in the regulatory regime for businesses are consistently implemented across the United Kingdom.

Emissions

Dr. McCrea: To ask the Secretary of State for Northern Ireland how the Government plans to cut carbon emissions from 1990 levels in Northern Ireland to meet Kyoto agreement targets. [30122]

Angela E. Smith: The United Kingdom has a Kyoto target to reduce all greenhouse gas emissions (GHG) by 12.5 per cent. (below 1990 levels) by 2008 to 2012 and national targets to specifically reduce Carbon Dioxide (CO_2) emissions by 20 per cent. by 2010 and by 60 per cent. by 2050. The UK is on course to meet the Kyoto target but is currently not on track to achieve the domestic 2010 CO_2 target. In Northern Ireland total GHG emissions in 2003 were 3.5 per cent. below the 1990 base year.

A range of policies and measures are being implemented across government departments in Northern Ireland to reduce CO_2 emissions. These include;

The implementation of the Department of Enterprise, Trade and Investment's Strategic Framework for Northern Ireland Energy Supply which includes switching to more efficient gas fired power generation, expanding the natural gas network beyond the Greater Belfast area and increasing the use of renewable energy for heat and power generation.

The introduction of a Northern Ireland Renewables Obligation in April 2005 with a target to supply 12 per cent. of energy produced from renewable resources by 2012.

Currently 28 installations in Northern Ireland are participating in the EU Emissions Trading Scheme that effectively places a limit on the amount of CO_2 they can freely emit. The scheme is expected to exert a significant downward pressure on emissions for the foreseeable future.

In the domestic housing sector, the Northern Ireland Housing Executive invests around £40 million per annum on heating, double glazing and insulation works to improve energy efficiency in Northern Ireland's housing stock.

The Department of Finance and Personnel (DFP) is bringing forward amendments to Northern Ireland's building regulations on minimum standards for the conservation of fuel and power and these should be in place from June 2006. DFP also invests in improving the energy performance of buildings in the public sector.

The Carbon Trust helps businesses and public sector organisations to reduce energy consumption through a range of programmes which include energy surveys, design advice, interest free loans, enhanced capital allowances and clean technology venture capital. The Trust is also promoting a Low Carbon Design Initiative for new build projects.

In October the Department of Agriculture and Rural Development issued a public consultation document on recommendations for developing the renewable energy potential of the agri-food and forestry sectors.

My right hon. Friend the Secretary of State for Northern Ireland announced plans in the draft budget to set up an Energy and Environment Fund for research and development into renewables and to incentivise the market through appropriate grant aid assistance.

Further details of these measures will be available in the forthcoming UK Climate Change Programme due to be published shortly.

Dr. McCrea: To ask the Secretary of State for Northern Ireland what the change in greenhouse gas emissions has been in each year since 1997 in Northern Ireland; and if he will make a statement. [30704]

Angela E. Smith: Information on total greenhouse gas (GHG) emissions for Northern Ireland is given in the following table. These figures have been taken from the Greenhouse Gas Inventories for England, Scotland, Wales and Northern Ireland 1990–2003 report. No figures are available for 1997 and the latest year is 2003.

	Total emission of GHGs (Mt CO_2 equivalent)	*CO_2 emissions (Mt)*
1990	22.5	16.6
1995	24.3	18.2
1998	23.9	17.3
1999	24.5	17.9
2000	23.6	17.4
2001	24.1	17.9
2002	22.2	16.4
2003	21.8	16.1

In 2003, total GHG emissions in Northern Ireland have fallen by 3.5 per cent. below 1990, the Kyoto baseline year. Further information on the emission trends can be found in the report, which can be accessed at: http://www.naei.org.uk/report_link.php?report_id=360

Cataract Operations

David Simpson: To ask the Secretary of State for Northern Ireland how many cataract operations were carried out by the NHS in Northern Ireland in each of the last five years; and what the current waiting time is for a cataract operation in Northern Ireland. [31270]

Mr. Woodward: Information on the number of cataract operations carried out in acute hospitals in Northern Ireland in each year from 2000–01 to 2004–05 (the latest year for which data are available) is shown in the table as follows.

	Number of cataract operations
2004–05	8,381
2003–04	8,501
2002–03	7,666
2001–02	7,187
2000–01	7,178

Source:
Hospital In-patient System

Information on patients waiting is collected by time-band. The number of people waiting for a cataract operation in Northern Ireland, at 30 June 2005, is shown in the table as follows:

Months waiting	*Position at 30 June 2005*
0–2	1,499
3–5	956
6–8	481
9–11	124
12–14	117
15–17	36
18–20	5
21–23	0
24+	5
Total waiting	3,222

Source:
PFA 211 Departmental Information Return

Child Support Agency

Dr. McCrea: To ask the Secretary of State for Northern Ireland what steps he is taking to reform the Child Support Agency in Northern Ireland. [31052]

Mr. Hanson: The Northern Ireland Child Support Agency is awaiting the final details of the Great Britain strategic review, which is being led by Stephen Geraghty, chief executive of the Child Support Agency in Great Britain. When this information is available an improvement plan for the Northern Ireland Agency will be developed.

Children's Fund

Mr. McGrady: To ask the Secretary of State for Northern Ireland whether the funding for the Children's Fund set out in the budget for Northern Ireland is new money; and when the executive programme funds will be reinstated. [29526]

Angela E. Smith: Yes. The allocations for the Children and Young People's priority funding package represent additional resources, as opposed to the reallocation of money previously allocated to other public services within Northern Ireland.

There are no plans to reinstate the Executive Programme Funds (EPFs). However, the three priority funding packages announced in the Draft Priorities and Budget 2006–08 will build on the positive aspects of the EPFs, in that they are focused on priority areas and will encourage a cross-cutting approach to the underlying issues.

Correspondence

Lady Hermon: To ask the Secretary of State for Northern Ireland pursuant to the letter of 17 October ref: (COR403/2005) to the hon. Lady for North Down, on Kingsland School, when he will write to the hon. Lady with the update indicated in his letter. [30295]

Angela E. Smith: Due to the complex nature of this case it has been necessary for the Department to seek legal advice. A response will be issued to the hon. Lady when the Department has considered the legal advice to be provided.

Lady Hermon: To ask the Secretary of State for Northern Ireland when he will reply to the letter of 26 September 2005 from the hon. Lady for North Down on mattress provision for *myalgic encephalomyelitis* in Northern Ireland. [30325]

Mr. Woodward: The response will be issued shortly.

Citizens Advice Bureaux

Dr. McCrea: To ask the Secretary of State for Northern Ireland what financial aid has been granted by each council in Northern Ireland to citizens' advice bureaux in each year since 2001. [30196]

Mr. Hanson: The primary source of funding for local voluntary advice services, including Citizens Advice Bureaux, is the Community Support Programme. This is a joint initiative involving the Department for Social Development (DSD) and District Councils. The following table outlines each Council's contribution to local advice services in 2004–05, this includes both Citizens Advice Bureaux and other independent advice providers. The DSD allocation is also included for information.

Details of Council allocations to advice services from 2001–02 to 2003–04 is not available and could be obtained only at disproportionate cost.

£

Community support programme—funding to advice services in 2004–05

	Total	*Council*	*DSD*
Antrim borough council	48,991	42,991	6,000
Ards borough council	69,000	43,000	26,000
Armagh city and district council	46,500	26,500	20,000
Ballymena borough council	43,000	30,791	12,209
Ballymoney borough council	16,000	11,927	4,073
Banbridge district council	69,500	39,500	30,000
Belfast city council	312,314	203,004	109,310
Carrickfergus borough council	42,720	42,720	0
Castlereagh borough council	31,500	22,050	9,450
Coleraine borough council	63,652	52,154	11,498
Cookstown district council	50,000	15,000	35,000
Craigavon borough council	97,850	86,520	11,330
Derry city council	175,000	175,000	0
Down district council	145,399	120,148	25,251
Dungannon district council	49,183	33,266	15,917
Fermanagh district council	66,000	44,000	22,000
Larne borough council	20,357	11,702	8,655
Limavady borough council	26,500	18,500	8,000
Lisburn City council	50,000	10,000	40,000
Magherafelt district council	49,000	25,000	24,000
Moyle district council	11,500	8,113	3,387
Newry and Mourne district council	95,000	65,000	30,000
Newtownabbey borough council	168,952	150,257	18,695
North Down borough council	106,582	80,477	26,105
Omagh district council	46,600	46,600	0
Strabane district council	48,200	22,450	25,750
Total	1,949,300	1,426,670	522,630

Dr. McCrea: To ask the Secretary of State for Northern Ireland what financial assistance has been given to citizens' advice bureaux in Northern Ireland by Government departments in each year since 2001. [30195]

Mr. Hanson: The primary source of funding for local voluntary advice services, including Citizens Advice Bureaux, is the Community Support Programme. This is a joint initiative involving the Department for Social Development (DSD) and District Councils. Other Government Departments provide specific funding to organisations to deliver advice services on issues which fall within their policy responsibility. The table outlines Government funding to Citizens Advice Bureaux in the financial years from 2001–02 to 2004–05.

DSD has been leading on the development of a strategy for supporting delivery of voluntary advice services and this will be launched for consultation in December 2005.

Name of Department	*2001–02*	*2002–03*	*2003–04*	*2004–05*	*Total*
Department for Social Development (DSD) [1]	984,199	993,551	1,195,329	1,190,206	4,363,285
Department for Enterprise, Trade and Investment (DETI)	—	—	—	69,000	69,000
Total	984,199	993,551	1,195,329	1,259,206	4,432,285

[1] This includes the Department's contribution to the Community Support Programme, delivered through District Councils. Funding is provided to both Citizens Advice Bureaux and other independent providers. The DSD allocation to advice services from 2001-02 to 2003-04 is an estimation based on the recommended percentage output for advice services in this period.[2]
[2] Review of the Districts' Community Services Programme (DSD February 2000).

Civil Service

Mr. McGrady: To ask the Secretary of State for Northern Ireland what assessment he has made of starting salaries of civil servants in *(a)* Northern Ireland and *(b)* Wales; and if he will make a statement. [29139]

Angela E. Smith: Starting salaries for new recruits in the Northern Ireland Civil Service are relative to what is necessary to recruit, retain and motivate staff. A new member of staff is usually recruited at the minimum of the pay scale unless there are business reasons to justify a higher starting salary (e.g. because of market forces or the applicant having relevant additional qualifications and/or experience).

Starting pay for new recruits in the National Assembly for Wales is normally at the pay scale minimum unless the skills, knowledge and experience essential for the post justify a higher starting salary.

Climate Change

Dr. McCrea: To ask the Secretary of State for Northern Ireland what steps the Government are taking in Northern Ireland to tackle climate change. [30192]

Angela E. Smith: I would refer the hon. Member to the reply I have given to his question on actions to reduce carbon dioxide emissions (PQ 05/2441 refers). In addition to these measures, work is under way to ensure that Northern Ireland prepares for the impacts of climate change.

The Department of the Environment (DOE) has recently commissioned the Scotland and Northern Ireland Forum for Environmental Research (SNIFFER) to provide an updated report on the implications of climate change for Northern Ireland, incorporating a risk assessment approach and recommended adaptation strategies for key impacts. This study is due to be completed by the end of 2006.

DOE's Environment and Heritage Service has issued guidance to public bodies on climate change impacts in Northern Ireland, with information on how it might impact across sectors and on the delivery of key public services.

The Department is also working in partnership with key stakeholders on the development of a Sustainable Development Strategy for Northern Ireland which is due to be published along with the first of a series of implementation plans in 2006. Climate Change and Energy has been identified as one of the six priority areas for action within the emerging strategy.

Community Restorative Justice

Mr. McGrady: To ask the Secretary of State for Northern Ireland whether *(a)* direct and *(b)* indirect public funding has been allocated to Community Restorative Justice schemes in Northern Ireland.[31235]

Mr. Hanson: No funding has been given to community-based restorative justice schemes by the Northern Ireland Office. We are undertaking a thorough search of all 11 Northern Ireland Departments and associated public bodies to ascertain if money has been given for non-criminal justice related work which will take some time. I will write to the hon. Gentleman when the information is available and place a copy in the Library.

Mr. McGrady: To ask the Secretary of State for Northern Ireland whether he treats the Northern Ireland Police Board as a stakeholder in respect of the development of Community Restorative Justice schemes in Northern Ireland. [31236]

Mr. Hanson: My right hon. Friend the Secretary of State for Northern Ireland does regard the Northern Ireland Policing Board to be a key stakeholder in respect of the development of community-based restorative justice schemes in Northern Ireland.

Mr. Lidington: To ask the Secretary of State for Northern Ireland what representations he has received from the Rape Crisis and Sexual Abuse Centre about the work of community restorative justice organisations in Northern Ireland; and if he will make a statement.[29544]

Mr. Hanson: No direct representations have been received from the Rape Crisis and Sexual Abuse Centre about the work of community-based restorative justice organisations in Northern Ireland.

Mr. Lidington: To ask the Secretary of State for Northern Ireland what assessment he has made of the effectiveness of community restorative justice projects in Northern Ireland in dealing with cases of *(a)* alleged rape and *(b)* alleged domestic violence. [29545]

Mr. Hanson: The Government have recognised that community-based restorative justice programmes can have a part to play in helping to secure a normal society and is willing, in principle, to support their involvement with low level criminal cases. We would not consider any sexual or domestic violence offences to be low level, and the guidelines currently being formulated do not therefore envisage that any such offence will be referred to community-based schemes.

Mr. Lidington: To ask the Secretary of State for Northern Ireland if he will list the applications for public funding that have been submitted by community restorative justice organisations in Northern Ireland giving in each case *(a)* the name of the organisation, *(b)* the date of application, *(c)* the sum of money applied for and *(d)* the expected time scale for a decision; and if he will make a statement. [29546]

Mr. Hanson: I will write to the hon. Gentleman and place a copy in the Library.

Councils

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many *(a)* Protestants and *(b)* Roman Catholics were employed in each council in Northern Ireland in each of the past four years. [30130]

Angela E. Smith: An analysis of the employees of each district council, reflecting community background, is set out in the following table. Statistics for 2001, 2002 and 2003 have been taken from the Equality Commission's 2003 Monitoring Report. The 2004 figures have not yet been published.

	2001				2002			
	P[1]	RC[2]	ND[3]	Total	P[1]	RC[2]	ND[3]	Total

Criminal Injuries Compensation

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many compensation claims have been made to his Department under the Northern Ireland Criminal Injuries Compensation Scheme 2002; how many payments have been made in each year of the operation of the scheme; and what the total value of claims was in each year. [25218]

Mr. Hanson: Between 1 May 2002 and 31 October 2005 the Compensation Agency had received a total of 26,308 claims, under the Northern Ireland Criminal Injuries Compensation Scheme 2002. To this date 1603 claims have been withdrawn, 18,153 claims have been assessed and payment has been made in 4,379 claims. The total value of payments is £20,216,884.00 and the following annual breakdown applies:

	Total number of claims receiving payment	*Total value (£)*
2002–03	3	75,000.00
2003–04	568	3,277,784.00
2004–05	1,881	8,281,291.00
2005–06 (to 31 October 2005)	1,927	8,582,809.00

Departmental Refurbishment

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland if he will list the companies to which his Department contracted out their construction and refurbishment work in each of the last three years; and what process his Department used to select each contractor. [18231]

Angela E. Smith: The award of contracts for all construction and refurbishment work by Northern Ireland Departments and their agencies is compliant with public procurement policy and EU Procurement Directives.

The names of the companies and the procedure used in each contract, with a de minimis value of £25,000, are set out as follows.

Contractor	*Procurement method*
April 2002 to March 2003	
Adair Bros	Competitive tender
Annvale Construction	Competitive tender
Bi Electrical Services	Competitive tender
Bradley Construction	Competitive tender
Greenline NI Ltd.	OGC framework

Vale Gardenhouses Ltd.	Competitive tender

Diet

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many people there are in Northern Ireland who have been identified as suffering from malnourishment. [31054]

Mr. Woodward: Information is not available on the number of people in Northern Ireland who have been identified as suffering from malnourishment. However, information is available on the number of admissions to hospital where malnourishment has been diagnosed.

The following table provides figures on the number of admissions to hospital with a primary or secondary diagnosis of malnourishment for each of the last five years for which figures are available. It should be noted that any individual could have been admitted to hospital more than once over the course of a year or over a number of years and would therefore be counted more than once in the table.

	Number of admissions[1] to hospital with malnourishment
2004–05	427
2003–04	411
2002–03	446
2001–02	473
2000–01	403

[1] Discharges and deaths are used as an approximation for admissions.

Disability Living Allowance

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many people have been claiming disability living allowance in Northern Ireland in each of the past five years. [30126]

Mr. Hanson: The following table shows the number of people in Northern Ireland who have been claiming disability living allowance in each of the past five years.

	Number of people
2001	140,479
2002	146,548
2003	151,870
2004	161,839
2005	167,156

Down Lisburn Health Trust

Mr. McGrady: To ask the Secretary of State for Northern Ireland what assessment he has made of the adequacy of the community care funding allocated to Down Lisburn Health Trust. [29525]

Mr. Woodward: The Department allocates resources to Health and Social Services Boards. It is then the responsibility of each board to determine how it will allocate these resources to local areas and to specific programmes. The Department has not assessed the situation for community care separately, but based on the latest information on planned expenditure for the population of the Down Lisburn locality as a proportion of Northern Ireland expenditure, the level of funding, having adjusted for differences in need, is around the NI average.

Economic Development Strategy

Mr. McGrady: To ask the Secretary of State for Northern Ireland what steps he has taken to introduce an economic development strategy for Northern Ireland; and what assessment he has made of regional disparities in *(a)* investment, *(b)* job creation and *(c)* wealth in Northern Ireland. [29497]

Angela E. Smith: Delivering the Economic Vision will require concerted action from both the public and private sectors on our stated economic priorities—the four productivity drivers of innovation, skills, enterprise and infrastructure. For its part Government will produce a Regional Economic Strategy that will set out the policy framework for delivering the Economic Vision. The strategy will also form our response to Government policy to progress against targets on regionally balanced economic growth across the UK.

The Northern Ireland strategy is currently being drafted by DFP in collaboration with the other Government departments. The first draft will shortly be circulated to Ministers for consideration and will then issue for wider discussion.

Regional economic disparities within the UK, and Northern Ireland, are being analysed and illustrated within the evolving strategy. Particular attention is being paid to those disparities that impact on the four productivity drivers and the employment rate. With this in mind the current activities of government are also being analysed to gauge the extent to which they effectively contribute to promoting the four productivity drivers.

Economic Inactivity

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many people in Northern Ireland have been economically inactive in each year since 2000. [30128]

Angela E. Smith: The following table shows the number of people in NI classified as economically inactive in each July-September period since 2000. The table gives the number of economically inactive for both the population aged 16 and over and the population of working age.

Economically inactive people in NI (2000–05)

Thousand

Period	*16 plus population*	*Working age population (16–59/64)*[1]
July-September 2000	522	294
July-September 2001	504	273
July-September 2002	510	283
July-September 2003	517	281
July-September 2004	542	300
July-September 2005	517	277

[1] Working age is taken as ages 16 to 59 for females and 16 to 64 for males.

Source:
NI Labour Force Survey.

Education and Library Boards

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many people were employed in each of the Education and Library Boards in each of the last three years. [29037]

Angela E. Smith: The information provided in the table below is in respect of staff employed in each of the five Education and Library Boards for the last three years. The figures are taken from the Education and Library Boards Annual Statistical Returns to the Department and relate to non-teaching school based and non-school based staff in each board. Figures are in respect of permanent and temporary staff in post at 30 September for each year.

	2002–03		*2003–04*		*2004–05*	
	Full-time	*Part-time*	*Full-time*	*Part-time*	*Full-time*	*Part-time*
BELB	1,413	2,322	1,534	3,664	[1]2,434 (FTE)	Included in FTE figure
NEELB	1,602	5,161	1,643	4,699	1,461	4,981
SEELB	1,503	4,237	1,558	4,603	1,539	5,185
SELB	1,266	6,339	1,245	6,377	1,378	6,948
WELB	1,796	5,273	1,753	4,938	1,949	5,167

[1] BELB moved to a new HR/payroll system on a phased basis from April 2004 and the board is unable to provide a corresponding staff in post figure for 2004–05. The figure the board has provided is an overall full-time-equivalent (FTE) figure, taken over the period April 2004 to March 2005.

Emergency Planning Budget

Mr. McGrady: To ask the Secretary of State for Northern Ireland what the budget is for 2006–07 for emergency planning in Northern Ireland; and if he will make a statement. [29477]

Angela E. Smith: As the estimated funding levels for emergency planning services by Government Departments and public bodies are contained within a wide range of budgets it is not possible to provide an aggregated figure for the overall position. The Northern Ireland civil contingencies framework, which is to be published shortly, requires, among other things, that

> "all organisations shall develop and maintain civil contingencies plans and other preparations in relation to their functions so that they can deliver those functions for the purpose of preventing an emergency, reducing, controlling or mitigating its effects or taking any other action necessary in relation to it".

The framework also requires that organisations

> "shall ensure that appropriate funding and other resources are made available",

but it is the responsibility of individual departments to determine what is appropriate funding in the light of risk assessments and having regard to other priorities.

Employment Tribunals

Lady Hermon: To ask the Secretary of State for Northern Ireland what assessment his Department has made of the merits of allowing the use of video-conferencing at employment tribunal hearings in Northern Ireland. [30246]

Angela E. Smith: The Department is currently assessing the merits of using video conferencing at tribunal hearings and discussions have commenced with stakeholders on this issue.

Environmental Protection Agency

Mr. McGrady: To ask the Secretary of State for Northern Ireland when he expects to establish an independent Environmental Protection Agency for Northern Ireland; and when the Environment and Contaminated Land (Northern Ireland) Order is planned to be implemented. [29480]

Angela E. Smith: The Minister of State for Northern Ireland, Lord Rooker, announced an independent Review of Environmental Governance in Northern Ireland in July 2005. The review will consider, among other things, the arrangements for the organisation and supervision of the environmental governance system. Lord Rooker hopes to be in a position to launch the review soon.

Most of the provisions of the Waste and Contaminated Land (Northern Ireland) Order 1997 relating to waste have been in force for some time. However Part III, which provides for a contaminated land regime in Northern Ireland, has not yet been implemented. The Department is currently reassessing the likely resource requirements and the options for implementing Part III.

Farmers

Dr. McCrea: To ask the Secretary of State for Northern Ireland what the average age of registered farmers in Northern Ireland was *(a)* in 2000 and *(b)* on the latest date for which figures are available. [30217]

Angela E. Smith: Information on the age profile of the farm work force is collected as part of the EU Farm Structures Survey. For the purposes of this survey, farmers are considered to be those individuals who are legally and financially responsible for the farm and who are also responsible for the day-to-day management of the farm business. The most recent years for which information is available are 2000 and 2003.

In 2000 the average (median) age of farmers in Northern Ireland was 54.

In 2003 the average (median) age of farmers in Northern Ireland was 55.

Fire Service

Dr. McCrea: To ask the Secretary of State for Northern Ireland what steps he is taking to ensure the safety of fire officers attending fires within the Northern Ireland community. [30151]

Mr. Woodward: I am introducing, in the new Fire and Rescue Services (Northern Ireland) Order, which will be laid at Westminster early in the new year, a new statutory offence covering assault or obstruction of firefighters and anyone helping them in the execution of their duties. This explicit statutory protection highlights the seriousness of this offence, which endangers both the lives of firefighters and those they are trying to help. It is intended that the new offence will have a deterrent effect, reducing the number of attacks on firefighters and their equipment.

The penalties are in line with the legislation relating to police officers, and include provision for conviction on indictment, whereby someone found guilty of the offence could face up to two years in prison and/or an unlimited fine. The penalty, on summary conviction, will be imprisonment for up to six months and/or a fine up to the statutory maximum of £5,000.

Meanwhile, the Northern Ireland Fire and Rescue Service continues to place an increased focus on community education and communication in order to reduce deaths and injuries from fire and attacks on personnel.

Fisheries Conservancy Board

Mr. Donaldson: To ask the Secretary of State for Northern Ireland what assessment he has made of the financial position of the Fisheries Conservancy Board in Northern Ireland; and if he will make a statement. [30759]

Mr. Hanson: Following the reduction in agency work income for the Fisheries Conservancy Board, the board are currently exploring how they can operate within the new budgetary constraints.

Free Public Transport

Mr. Donaldson: To ask the Secretary of State for Northern Ireland what plans he has to introduce free travel on public transport for those aged 60 years and over in Northern Ireland. [30761]

Mr. Woodward: I have no plans at present to introduce free travel on public transport for Northern Ireland residents aged 60 to 64. However the Northern Ireland Concessionary Fares Scheme will be reviewed shortly. This review will consider the feasibility of extending the scheme to additional groups, including those aged 60 years and over.

Fuel Poverty

Mr. McGrady: To ask the Secretary of State for Northern Ireland what steps he plans to take to tackle fuel poverty in Northern Ireland. [29457]

Mr. Hanson: I refer the hon. Gentleman to the reply I gave to the hon. Member for Belfast, North (Mr. Dodds) on 14 June 2005, *Official* Report, column 313.

Further Education

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many pupils aged 16 to 18 years are being educated in further education colleges in Northern Ireland. [30206]

Angela E. Smith: The following table details the number of pupils (aged 16–18) who are being educated in a further education college in NI for the academic year 2004–05.

Students[1] in further education in Northern Ireland aged between 16 and 18 years in 2004–05

Age[2]	*Academic Year 2004–05*
16	9,764
17	9,306
18	7,139
Total 16 to 18 year olds	26,209

[1] Data relate to a snapshot of students on 1 November of the relevant academic year.

[2] Age is at 1 July at the beginning of the relevant academic year.

Source:
FESR snapshot

Grant Thornton

Mark Durkan: To ask the Secretary of State for Northern Ireland why Deloitte MICS were replaced as financial advisers on the Civil Service electronic human resources contract by Grant Thornton. [26752]

Angela E. Smith: Financial advice was provided by Deloitte MCS Ltd. from March 2004 to May 2005 when their contract expired. Under the Public Services Contracts Regulations 1993 a new procurement competition for Financial Advisers was required. One compliant tender, from Grant Thornton UK LLP, was received in response to the procurement competition. This was considered to meet the Department's requirements and consequently they were appointed to provide financial advice to the Department of Finance and Personnel.

Guest Speakers

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what guidelines are used by the Department for Culture, Arts and Leisure in Northern Ireland, on the invitation of guests who are asked to make a speech at events organised by the Department to mark sporting achievements [31089]

Mr. Hanson: It is normal practice that the governing body for the sport involved is invited in advance to nominate speakers on its behalf.

Health Staff

Dr. McCrea: To ask the Secretary of State for Northern Ireland what steps he is taking to provide a safe working environment for *(a)* hospital nurses and doctors and *(b)* ambulance staff in Northern Ireland. [30152]

Mr. Woodward: The Department is currently developing a Controls Assurance Standard for Security Management for the HPSS, which seeks to ensure there is a secure environment that protects all service users, staff and visitors.

(a) This reinforces a range of existing measures already designed to reduce the potential risk of violence against all HPSS staff which as a result of a review, recommended:

To regularly review the assessment of risk associated with different facilities/locations.

Regularly train staff and ensure that training is being tailored for the different staff disciplines.

Restrict the number of entrances to A&E departments, particularly late at night.

Limit the number of persons, not themselves requiring treatment, entry to an A&E department.

HPSS employers welcomed the recommendations. Some Trusts have also installed emergency panic buttons in A&E units, toughened transparent screens at interview hatches, and CCTV.

(b) In addition The Northern Ireland Ambulance Service (NIAS) is committed to improving health and safety protection for its staff and has implemented a range of measures including:

reinforced windscreens and side windows in all ambulances;

security cameras in new vehicles;

a trial of stab-proof/anti-ballistic vests;

provision of mobile phones directly linked to Ambulance Control and short-range radios to improve communications at incident scenes;

provision of training on how to handle difficult situations;

establish a violence-to-staff working group; and

access to an officer-on-call system.

NIAS is currently reviewing its health and safety policy to improve its performance in such areas as accountability, consultation, hazard identification, and incident reporting and risk management.

All HPSS organisations are committed to providing a safe and secure environment for staff.

Higher Education

Sammy Wilson: To ask the Secretary of State for Northern Ireland what percentage change there has been in the pay of those involved in teaching in higher education in Northern Ireland in each of the last three years. [29265]

Angela E. Smith: Pay in the higher education institutions is determined by negotiating mechanisms between the employers and the unions. Government are not involved in this process and do not hold the information sought.

Home Accidents

Dr. McCrea: To ask the Secretary of State for Northern Ireland what programmes have been developed by Government Departments in Northern Ireland to reduce injuries and deaths by raising public awareness of home accident prevention, with particular reference to the elderly. [28369]

Mr. Woodward: The Department of Health, Social Services and Public Safety launched a five-year Home Accident Prevention Strategy and Action Plan for Northern Ireland in January 2005. The strategy aims to reduce the number of accidental deaths and injuries in the home and targets those most at risk including the socially disadvantaged, children and the elderly. A multi-agency implementation group is currently taking forward work on the 14 separate action points in the plan. One of the action points centres on the development of a public information campaign to raise awareness of home accident prevention with a target date of September 2006. The Department provided funding of £30,000 this financial year to the Health Promotion Agency to take forward preliminary work on development of a suitable information campaign. A home safety public awareness campaign is expected to be in place by the summer of next year.

In addition the Department has allocated funding of £180,000 this year to the four health and social services boards to take forward work on local initiatives and programmes to reduce injuries and deaths by raising awareness and implementing home accident prevention interventions with particular focus on those most at risk.

Dr. McCrea: To ask the Secretary of State for Northern Ireland what action Government Departments in Northern Ireland have taken to reduce the rate of *(a)* serious injuries and *(b)* death from accidents among (i) children and (ii) the elderly. [28370]

Mr. Woodward: The Department of Health, Social Services and Public Safety launched a five year Home Accident Prevention Strategy and Action Plan for Northern Ireland in January 2005 which aims to reduce the number of accidental deaths and injuries in the home and targets those most at risk including the socially disadvantaged, children and the elderly. The strategy gives particular emphasis to preventing falls (the most common type of accident to children and older people), fires and injuries to children especially on farms. A multi-agency implementation group is currently taking forward work on the 14 separate action points in the plan.

Dr. McCrea: To ask the Secretary of State for Northern Ireland how much money his Department made available to *(a)* local councils, *(b)* Health and Social Services trusts, *(c)* the Housing Executive Northern Ireland and *(d)* the Fire Service of Northern Ireland for home accident prevention in (i) 2003–04 and (ii) 2004–05. [28382]

Mr. Woodward: No specific funding has been allocated to local councils, HSS Trusts or the Fire Service of Northern Ireland for home accident prevention. The Department of Social Development allocated £767,960 in 2003–04 and £1,124,860 in 2004–05 to the Northern Ireland Housing Executive for home accident prevention initiatives. This funding was used for the provision of handrails, grabrails, and the installation of smoke alarms in homes. In addition, the Department of Health, Social Services and Public Safety provided funding of £83,996 in 2003–04 and £97,918 in 2004–05 to the Royal Society for the Prevention of Accidents towards home accident prevention work in Northern Ireland.

Hospital Staff (Attacks)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many people have been both charged and sentenced in each of the last three years for attacks on hospital staff in *(a)* accident and emergency departments and *(b)* other areas of hospital sites in cases where all proceedings are complete. [30283]

Mr. Woodward: There were 5,449 violent incidents against staff employed in the HPSS between 1 April 2004 and 31 March 2005. Seven people were prosecuted as a result of these incidents and four prosecution cases are pending. This is the earliest date that this information is available.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland (1) if he will list serious personal attacks in the last three years on members of hospital staff at accident and emergency hospitals which led to a prison term for the assailant; if he will indicate the nature of the attack in each case; and if he will make a statement; [30284]

(2) what the total costs have been in the last three years of repairs and replacement of equipment at each accident and emergency hospital in Northern Ireland due to attacks by members of the public; [30285]

(3) what the level of spending on security personnel has been at each accident and emergency department at hospitals in the Province in each of the last three years; and if he will make a statement. [30307]

Mr. Woodward: The information requested is not readily available and can be provided only at disproportionate cost.

Invest Northern Ireland

Mike Penning: To ask the Secretary of State for Northern Ireland if he will make a statement on the operation of the Invest Northern Ireland venture scheme for small and medium enterprises, with particular reference to the level of income sought from private sector investors. [16849]

Angela E. Smith: In November 2004, EU state aid approval was granted for the then named 'Northern Ireland venture scheme for small and medium sized enterprises'. This clearance was in response to an identified need in the market for venture capital funds in the £250,000 to £1.5 million deal size range.

Following an EU wide tender, Invest Northern Ireland has since participated in a £22.5 million deal size venture capital fund managed by Crescent Capital Ltd. Of this total, private investors have agreed to contribute £9 million and the European Investment Fund £6 million.

Inter-Trade Ireland Report

Mr. McGrady: To ask the Secretary of State for Northern Ireland when the report commissioned by Inter-Trade Ireland on the regional development strategy for Northern Ireland and the national spatial strategy for the Republic of Ireland will be published. [29515]

Angela E. Smith: Inter-Trade Ireland plans to publish the report on the development of a potential framework for collaborative action between the Regional Development Strategy for Northern Ireland and the National Spatial Strategy for the Republic of Ireland in March 2006.

Investment Strategy

Mr. McGrady: To ask the Secretary of State for Northern Ireland when he expects to publish the Investment Strategy for Northern Ireland. [29481]

Angela E. Smith: The Investment Strategy for Northern Ireland will be published before the end of the year. The precise date has yet to be decided.

Locum Doctors

Dr. McCrea: To ask the Secretary of State for Northern Ireland what his most recent estimate is of the number of locum doctors working in the NHS in Northern Ireland. [31056]

Mr. Woodward: There is no comprehensive list of locum hospital doctors employed within the NI HPSS held centrally within the Department. However the Central Services Agency maintains a voluntary register of locum general medical practitioners which is used o circulate professional information. As at November 2005, there were 151 active locum general medical practitioners recorded on this register.

Housing

Dr. McCrea: To ask the Secretary of State for Northern Ireland what change there has been in the number of unfit dwellings in the Province in each of the past five years. [30123]

Mr. Hanson: The information is not available in the format requested. The level of unfitness for all housing tenures was 4.9 per cent. (31,600) in 2001 and 3.8 per cent. (25,600) in 2004.

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many private dwellings in Northern Ireland have been allocated heating and insulation grants in each of the last five years. [30124]

Mr. Hanson: Heating and insulation grants are provided to private dwellings through the Warm Homes Scheme and the number of homes that have benefited from grants is as follows.

Year of scheme	*Number of homes in Northern Ireland*
July 2001 to 31 March 2002	3,146
Year ending 31 March 2003	7,484
Year ending 31 March 2004	7,144
Year ending 31 March 2005	8,557
Up to 14 November 2005	5,612

Private sector grants for heating and insulation are also available, but the figures requested could be obtained only at disproportionate cost.

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many dwellings have been built by housing associations in each constituency in Northern Ireland in each year since 2000. [30125]

Mr. Hanson: The number of houses completed for the five year period 2000–01 to 2004–05 is as follows.

House completions

Constituency	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
East Antrim	84	53	27	31	0
North Antrim	70	26	41	12	36
South Antrim	0	15	9	36	14
Upper Bann	68	44	0	18	7
East Belfast	53	203	190	67	14
North Belfast	174	192	130	260	370
South Belfast	142	14	49	27	147
West Belfast	187	237	104	69	135
North Down	4	63	46	10	33
South Down	94	29	61	0	57
Fermanagh and South Tyrone	42	62	70	30	2
Foyle	135	230	352	103	63
Lagan Valley	130	236	86	70	69
East Londonderry	69	136	26	27	44
Mid Ulster	0	7	10	6	6
Newry and Armagh	104	28	38	39	36
Strangford	8	85	4	11	11
West Tyrone	100	74	50	38	29
Total	1,464	1,734	1,293	854	1,073

The figures include new build and houses purchased from the open market either in good condition or from rehabilitation, prior to letting. All are additions to social housing stock.

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many families in Northern Ireland were waiting for housing executive dwellings in each of the last five years; and what the trend in numbers on the housing list has been over the last 10 years. [30211]

Mr. Hanson: The information is not available in the format requested. The tables detail the total waiting list for applicants for social housing in Northern Ireland over the last 10 years.

The following tables demonstrate that the demand for social sector accommodation continues to rise steadily.

Total number of households on the waiting list for social housing 1995–2000 (all figures refer to the end of the financial year).

	Total number of households	*Urgent housing need*[1]
1996	21,960	11,148
1997	22,276	11,895
1998	22,691	11,510
1999	23,193	11,734
2000	23,084	11,372

[1] Prior To November 2000 urgent need was defined as 'urgent housing need' i.e. priority 'A' group cases plus 'B' cases with 30 or more points.

Total number of households on the waiting list for social housing 2001–05 (all figures refer to the end of the financial year).

	Total number of households	*Housing stress*[1]
2001	21,635	10,187
2002	25,903	12,449
2003	26,248	13,042
2004	27,515	14,152
2005	29,608	15,527

[1] From November 2000 the definition changed from 'urgent housing need' to 'housing stress' i.e. households with 30 or more points.

Dr. McCrea: To ask the Secretary of State for Northern Ireland (1) how many senior citizens units have been built by housing associations in the Antrim borough council area in each of the last five years; [30810]

(2) how many senior citizens units have been built by housing associations in the Newtownabbey borough council area in each of the last five years. [30811]

Mr. Hanson: In the two areas mentioned the priority has been to try to stabilise the situation and balance supply and demand. Less popular accommodation in both areas has been demolished to remove blight. In Antrim the waiting list for small units of accommodation is being catered for through relets. In Newtownabbey there have recently been signs of growing stability to the extent that the development programme that is currently being prepared will make provision for an additional supply of small units over the next five years.

Against this background no units specifically for senior citizens have been built in Antrim over the past five years. In Newtownabbey 31 units were built in 2000–01 and 12 in 2002–03.

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many single person dwellings have been built by housing associations in Northern Ireland in each of the last five years. [30812]

Mr. Hanson: The number of houses completed, specifically for general needs and homeless singles occupation, are as follows:

	Number
2000–01	51
2001–02	31
2002–03	47
2003–04	43
2004–05	45

Locations

	Number of units
Falls Road, Belfast	22
19–21 Cliftonville Road, Belfast	20
College Square North, Belfast	14
Antrim Road, Belfast	12
Grace Avenue, Belfast	6
573 Donegall Road, Belfast	4
Belgravia Avenue, Belfast	3
47–49 Carrick Hill, Belfast	3
Beersbridge Road, Belfast	1
Crawford Square, Londonderry	43
Foyle Road, Londonderry	21
Flush Park, Lisburn	32
Church Street, Strabane	16
Main Street, Strabane	11
Avon House, Portadown	9

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many housing executive grants have been made in each constituency in Northern Ireland in the last 12 months. [30197]

Mr. Hanson: The information is not available in the format requested. However, payments made in each district council area between 1 November 2004 and 31 October 2005 are as follows:

District council	*Completed grants*
Antrim	43
Ards	105
Armagh	188
Ballymena	80
Ballymoney	43
Banbridge	104
Belfast	1,502
Carrickfergus	83
Castlereagh	116
Coleraine	90
Cookstown	185
Craigavon	285
Derry	225
Down	168
Dungannon	362
Fermanagh	506
Larne	98
Limavady	72
Lisburn	178
Magherafelt	125
Moyle	23
Newry and Mourne	483
Newtownabbey	154

District council	Completed grants
North Down	119
Omagh	264
Strabane	141
Total	5,742

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many houses are planned to be built to meet the needs of social housing over the next 12 months in each Northern Ireland constituency. [30689]

Mr. Hanson: Across Northern Ireland the target is to start 1,500 new social houses in 2005–06.

The Northern Ireland Housing Executive is responsible for assessing housing need and for prioritising the development programme. The following table shows a current gross programme of 1,836 houses. This will be netted down to 1,500 as the year progresses and the remainder will be deferred until the following financial year.

Constituency	Number of houses
East Antrim	30
North Antrim	11
South Antrim	60
Upper Banr	56
East Belfast	173
North Belfast	404
South Belfast	216
West Belfast	370
North Down	40
South Down	28
Fermanagh and South Tyrone	31
Foyle	113
Lagan Valley	130
East Londonderry	37
Mid Ulster	5
Newry and Armagh	31
Strangford	94
West Tyrone	7
Total	1,836

Influenza

Lady Hermon: To ask the Secretary of State for Northern Ireland what assistance his Department has given to general practitioners in Northern Ireland in drawing up contingency plans to deal with a potential influenza pandemic; and what further assistance he plans to give. [28207]

Mr. Woodward: In March 2005 the Department of Health, Social Services and Public Safety, posted on its website the Northern Ireland Pandemic Influenza Contingency Plan. On 19 October a revised, updated version of the plan replaced the original one.

Among other things, the plan calls on Health and Social Services Boards and Trusts to develop their own plans at local levels. The plan describes in detail the responsibilities of boards/trusts and the decisions which they will be required to make. By their nature these involve close collaboration with GPs in planning a co-ordinated response to an outbreak.

On 21 October the Department wrote to GPs and a wide range of other health professionals with advice on the distinction between avian flu and pandemic, enclosing with the letter a set of commonly asked questions and answers. On 7 November a further letter was issued enclosing a key facts summary on pandemic flu and a supply of leaflets to be passed on to patients seeking information about pandemic flu. Both letters also referred recipients to the Department's website to view the updated plan, which will of course continue to be revised in the light of developments.

The Department will continue to communicate directly with GPs and other health professionals about pandemic flu as and when it is deemed appropriate to do so.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what restrictions there are on how early in the year pharmacies in Northern Ireland can order influenza vaccinations. [28163]

Mr. Woodward: The Department does not place any restrictions on pharmacies in relation to the time in the year when they may order vaccine for seasonal influenza. Pharmacists are free to order flu vaccine as soon as it is marketed by the manufacturers for the anticipated seasonal virus profile as determined by the World Health Organisation.

Local Government Finance

Lady Hermon: To ask the Secretary of State for Northern Ireland (1) by what means his Department scrutinises expenditure by the Local Government Audit Office; [30247]

(2) what the running costs of the Local Government Audit Office in Northern Ireland have been in each of the last three years; and how many staff are employed in the office, broken down by grade. [30248]

Angela E. Smith: The Local Government Audit function is part of the Northern Ireland Audit Office. Questions relating to its resources are matters for the Comptroller and Auditor-General who will write to the hon. Lady

Dr. McCrea: To ask the Secretary of State for Northern Ireland what the revenue support grant was in each council within Northern Ireland in each of the last five years. [30209]

Angela E. Smith: The revenue support grant (or resources element of General Grant) allocated to district councils, in each of the last five years, is set out in the following table.

General grant—resources element (new statutory formula introduced 1 April 2003)

	2001-02	2002-03	2003-04	2004-05	2005-06
Antrim	0	0	0	0	0
Ards	1,166,169	1,503,641	1,026,207	1,051,866	1,255,948
Armagh	1,939,216	2,174,051	1,772,494	1,816,813	1,783,504
Ballymena	0	0	0	0	0

General grant—resources element (new statutory formula introduced 1 April 2003)

	2001-02	2002-03	2003-04	2004-05	2005-06
Ballymoney	1,041,025	1,134,277	1,027,602	1,053,295	1,052,084

Larne	0	0	141,133	144,662	24,202
Limavady	1,168,411	1,125,562	1,274,940	1,306,818	1,308,476
Lisburn	0	0	0	0	0
Magherafelt	1,152,006	1,244,922	1,422,268	1,457,831	1,466,528
Moyle	681,581	633,175	601,358	616,394	585,645
Newry and Mourne	3,109,549	3,080,160	1,910,908	1,958,688	2,043,239
Newtownabbey	0	0	0	0	0
North Down	0	0	0	0	0
Omagh	1,016,053	1,144,138	1,413,193	1,448,528	1,407,084
Strabane	1,846,723	1,938,926	2,084,832	2,135,961	2,050,252
Total	18,980,710	21,001,480	19,997,000	20,497,000	20,497,000

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland if he will make a statement on the effect of the forthcoming Reform of Public Administration on capital expenditure projects by local councils in Northern Ireland. [30473]

Angela E. Smith: My right hon. Friend the Secretary of State for Northern Ireland announced his decisions on the Review of Public Administration on the 22 November 2005. In matters concerning capital expenditure projects, councils would be expected to exercise prudence and not enter into commitments that would impose an unnecessary burden on ratepayers, now or in the future.

Looked-after Children

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many children have left care in Northern Ireland in each of the last three years; and how many of these had no formal qualifications. [30541]

Mr. Woodward: Information regarding the numbers of children who ceased to be looked after and the educational attainment of these children is only available relating to children aged 16 or over. The latest available information is detailed in the following table.

Children aged 16 or more who ceased to be looked after and the numbers that ceased to be looked after with no formal qualifications (year ending 31 March)

	Children who ceased to be looked after	Children who ceased to be looked after with no formal qualifications
2001-02	199	103
2002-03	206	95
2001-04	405	198

Medical Schools/Junior Doctors

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* medical school places and *(b)* junior doctor posts there have been in Northern Ireland in each year since 1990. [28846]

Mr. Woodward: The information requested is set out in the following tables:

(a) Number of medical school places

	Medical student intake
2005-06	250
2004-05	188
2003-04	169
2002-03	170
2001-02	169
2000-01	161
1999-2000	160
1998-99	154
1997-98	169
1996-97	152
1995-96	148
1994-95	143
1993-94	140
1992-93	141
1991-92	143
1990-91	134

Note:
Excludes overseas students (approximately 12 per annum).

(b) Number of junior doctor posts (information only available from 1999)

	Number
August 2005	
Specialist Registrars (SpRs)	546
Senior House Officers (SHOs)	806
Pre-Registration House Officers (PRHOs)	230
Total	1,583
August 2004	
Specialist Registrars (SpRs)	529
Senior House Officers (SHOs)	789
Pre-Registration House Officers (PRHOs)	224
Total	1,542
August 2003	
Specialist Registrars (SpRs)	471
Senior House Officers (SHOs)	772
Pre-Registration House Officers (PRHOs)	219
Total	1,462
August 2002	
Specialist Registrars (SpRs)	462
Senior House Officers (SHOs)	693
Pre-Registration House Officers (PRHOs)	217
Total	1,372

(b) Number of junior doctor posts (information only available from 1999)

	Number
August 2001	
Specialist Registrars (SpRs)	423
Senior House Officers (SHOs)	673
Pre-Registration House Officers (PRHOs)	196
Total	1,292
August 2000	
Specialist Registrars (SpRs)	404
Senior House Officers (SHOs)	658
Pre-Registration House Officers (PRHOs)	189
Total	1,251
August 1999	
Specialist Registrars (SpRs)	383
Senior House Officers (SHOs)	643
Pre-Registration House Officers (PRHOs)	183
Total	1,209

Milk

Dr. McCrea: To ask the Secretary of State for Northern Ireland what steps the Government are taking to tackle the differential between the retail and farm gate price of milk in Northern Ireland; and if he will make a statement. [30145]

Angela E. Smith: I have not taken any action on this matter, as it is not Government policy to interfere in the operation of normal market forces, providing competition rules are respected. I, however, appreciate the important contribution which the dairy sector makes to the agri-food industry in Northern Ireland, albeit it is heavily reliant on the manufacture of bulk commodities for export markets. I would therefore encourage the dairy industry to continue in its efforts to move from a production-led approach towards higher value-added and market-led strategies. This should help to improve the overall competitiveness of the industry and hopefully narrow the differential.

Ministerial Meetings

Lady Hermon: To ask the Secretary of State for Northern Ireland what *(a)* meetings and *(b)* other communications have taken place between the Ministers with responsibility for each of the Northern Ireland Departments and their counterparts in (i) the Scottish Executive and (ii) the National Assembly of Wales in order to identify areas of co-operation and mutual benefit in each of the past 12 months. [28202]

Angela E. Smith: Formal and informal contact takes place with the Scottish Executive and the Welsh Assembly Government on an ongoing basis. The British Irish Council on which the Scottish Executive, the Welsh Assembly Government and the Northern Ireland administration are represented continues to provide one effective co-ordinating mechanism to support co-operative working and a number of ministerial meetings have taken place in the last year. The sixth summit, hosted by Guernsey on 19 November 2004, focused on Tourism and the seventh, hosted by the Isle of Man on 20 May 2005, focused on Telemedicine. In addition a sectoral meeting on Environment was held in Dublin on 7 April 2005.

NICE Drug Assessments

Dr. McCrea: To ask the Secretary of State for Northern Ireland when the Government expects to refer bortezomib to the National Institute for Health and Clinical Excellence. [30150]

Mr. Woodward: I understand that the Department of Health referred bortezomib to the National Institute for Health and Clinical Excellence (NICE) on 20 July 2005. The Institute has not yet published a timescale for the completion of its appraisal.

Personal Injury Claims

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how much compensation has been paid in personal injury claims by members of the public against the Department for Regional Development in Northern Ireland in each of the past three years. [30091]

Mr. Woodward: The following table sets out the total compensation paid by the Department for Regional Development in respect of public liability personal injury claims by members of the public in each of the last three years.

	£
	Amount
2004–05	1,760,490
2003–04	2,142,323
2002–03	2,504,607

Pigs

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many pigs were reared on Northern Ireland farms in each of the last five years. [30147]

Angela E. Smith: The number of clean finished pigs reared on Northern Ireland farms in each of the last five years is as follows:

	Number of pigs reared
2000	884,400
2001	922,800
2002	931,700
2003	973,200
2004	[1]879,100

[1] Provisional.

Planning Applications

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many planning applications have been approved in each district council area in Northern Ireland during the last 12 months. [30198]

Angela E. Smith: Details of the number of planning approvals issued between 1 November 2004 and 31 October 2005 are set out in the following table.

District council area	*Number of approvals*
Antrim	980
Ards	1,020
Armagh	1,001
Ballymena	1,114

District council area	Number of approvals
Ballymoney	702
Banbridge	732
Belfast	2,135
Carrickfergus	323
Castlereagh	496
Coleraine	1,193
Cookstown	1,027
Craigavon	882
Derry	863
Down	1,027
Dungannon	1,677
Fermanagh	1,922
Larne	337
Limavady	763
Lisburn	1,163
Magherafelt	1,109
Moyle	445
Newry and Mourne	1,858
Newtownabbey	654
North Down	593
Omagh	1,400
Strabane	812
Total	26,228

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many divisional planning decisions were overturned by the management board after being referred to them by district or borough councils in each of the last five years. [30224]

Angela E. Smith: The management board referral (MBR) process is an administrative rather than a statutory process. It affords councils the opportunity to refer planning applications to the Planning Service's management board for further consideration where the council strongly disagrees with the local Divisional Planning Office's recommendation.

Details of the number applications where the Planning Service's management board overturned the Divisional Planning Office's recommendation is set out in the following table.

	Number of MBR cases	Number overturned
2000	106	10
2001	104	9
2002	123	5
2003	146	6
2004	192	5
2005	234	3

Lady Hermon: To ask the Secretary of State for Northern Ireland how many planning applications were lodged within each planning service district in Northern Ireland in each of the past six years; and what the relevant administration costs were in each of the districts in each year. [30250]

Angela E. Smith: Details of the number of planning applications received and the corresponding administration costs, set out by Planning Service division, in each of the last five years are contained in the following table. It is only possible to provide accurate data for the last five years as all the information for previous years is not held electronically and could be extracted only at a disproportionate cost.

Division	2000-01		2001-02		2002-03		2003-04		2004-05	
	Apps	Costs (£)	Apps	Costs (£)	Apps	Costs (£)	Apps	Costs (£)	Apps	Costs (£)
Ballymena	3,160	762,236	3,352	778,876	4,000	832,935	5,328	813,180	4,971	1,077,426
Belfast	3,442	990,777	3,821	953,936	3,592	980,833	3,840	1,162,726	3,862	1,326,888
Craigavon	4,986	1,085,314	5,309	1,141,915	6,060	1,391,245	7,493	1,416,160	6,845	1,676,537
Downpatrick	4,120	1,050,383	4,457	1,198,381	5,001	1,241,134	5,036	1,267,004	6,090	1,437,886
Londonderry	3,093	629,116	3,410	616,158	3,556	727,997	4,348	818,318	4,969	1,079,062
Omagh	4,828	1,039,546	4,834	994,979	5,500	1,098,323	6,799	1,319,690	9,205	1,720,971
Headquarters	92	645,877	135	700,430	198	751,233	196	810,263	342	935,144

Police Service of Northern Ireland

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many *(a)* civilian staff and *(b)* police officers are employed in each Police Service of Northern Ireland station within the South Antrim constituency. [30134]

Mr. Woodward: It is not appropriate, for operational security reasons, to disclose how many personnel are attached to each PSNI station. Equivalent figures for officers and staff for Antrim DCU which covers the most of the South Antrim constituency are set out as follows.

	Number
Regulars	139.75
FTR	36
PTR	17
Civilian staff	30
Agency staff	3

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what the present strength is of the Police Service for Northern Ireland; and what percentage of its members are *(a)* Roman Catholic, *(b)* Protestant and *(c)* of other affiliation. [29632]

Mr. Woodward: I am advised that, as at 8 November 2005, PSNI strength was 7,485 (Regular Officers).

Of these officers:

(a) 18.88 per cent. were Catholic

(b) 78.46 per cent. were Protestant

(c) 2.66 per cent. were Not Determined.

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what the deviation from community balance was in the composition of the Royal Ulster Constabulary and Police Service of Northern Ireland in each of the last 10 years. [29633]

Mr. Woodward: In light of the deviation from community balance that was present in the composition of the RUC, the Report of the Independent Commission

on Policing for Northern Ireland recommended Police Regular Officers be recruited at an equal ratio of Catholics to non-Catholics.

They advised that this recruitment profile

> "over a 10 year period . . . reflects the demographic breakdown of people now in their twenties, or who will reach the age of recruitment over that period".

The first intake under these temporary 50:50 provisions was in November 2001. As a result, there has been a marked decrease in the deviation from community balance in the Police Service of Northern Ireland, due an increasing proportion of Catholic officers.

I am advised that the community background of RUC and PSNI Regular Officers, in each of the last 10 years has been as follows:

Percentage

	Protestant	*Catholic*	*Not determined*
1 January:			
1996	88.98	7.96	3.06
1997	88.67	8.16	3.17
1998	88.52	8.24	3.24
1999	88.32	8.33	3.35
2000	88.27	8.37	3.36
2001	88.16	8.48	3.36
2002	87.67	8.86	3.47
2003	85.04	11.68	3.28
2004	83.01	13.91	3.08
2005	80.38	16.87	2.75
8 November:			
2005	78.46	18.88	2.66

Post Offices

Dr. McCrea: To ask the Secretary of State for Northern Ireland what financial assistance is available to assist the start up of new sub-post offices in rural areas in Northern Ireland; and to where applications for grant assistance can be submitted. [28484]

Angela E. Smith: In accordance with its commitment to meet the Government requirement to prevent avoidable post office closures in rural areas, Post Office Ltd. administers a fund to assist with the re-introduction of a branch in a rural area where one has been forced to close within the past 18 months. Prospective applicants should contact the Post Office on 08457 223355. An adviser will then be allocated to help with the specific case.

Assistance is available to support the start up of small businesses in Northern Ireland under the Start A Business Programme (SABp). Provided certain criteria are met the establishment of a new sub-post office might be eligible. Details of the scheme can be obtained from InvestNI at Bedford square, Bedford street, Belfast BT2 7EH.

Prisons

Dr. McCrea: To ask the Secretary of State for Northern Ireland what estimate he has made of the percentage of inmates in prisons in Northern Ireland who will be granted leave for Christmas. [30215]

Mr. Woodward: The figures provided in the table show the percentage of inmates that are eligible to apply for home leave this Christmas. It is not possible at this stage to estimate the percentage of prisoners that will be granted leave for this purpose, as each application is subject to a satisfactory risk assessment which takes some time to complete. The decision to grant the Christmas leave rests with the Governor of each establishment. As HMP Magilligan holds prisoners with shorter sentences or those in the latter stages of their sentences, it has proportionately more prisoners eligible to apply for home leave at Christmas.

Establishment	*Number of prisoners eligible to apply for home leave at Christmas*	*Total number of prisoners at Establishment*[1]	*Percentage of prisoners eligible to apply for home leave at Christmas*
Maghaberry	56	719	7.78
Magilligan	118	406	29.06
Hydebank Wood (including females)	24	223	10.76
Total	198	1,348	14.69

[1] The figures in this column (at 17 November) include 'all' prisoners, viz, remands, determinate sentence and life sentence.

Public Administration Reform

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the period of consultation will be on his plans for the reform of public administration in Northern Ireland. [29883]

Angela E. Smith: The six month consultation that closed on 30 September 2005 was the final opportunity to influence the outcome of the Review of Public Administration. Final decisions were announced on 22 November 2005 and we are now moving into the implementation phase.

Public Appointments

Lady Hermon: To ask the Secretary of State for Northern Ireland what assessments are made of the political party memberships of individuals appointed to quangos and commissions in Northern Ireland. [11230]

Angela E. Smith: Those appointed to public bodies in Northern Ireland are not required to declare their political background. However, they are asked to declare any significant political activity they may have undertaken in the five years prior to the date of their application.

Appointments are made solely on merit, political activity is recorded for monitoring purposes only and plays no part in the selection process.

Public Sector Properties

Dr. McCrea: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of public sector properties in each constituency in Northern Ireland. [30221]

Angela E. Smith: The information requested by the hon. Gentleman is not readily available and could be obtained only at disproportionate cost.

Public Services' Funding

Mr. McGrady: To ask the Secretary of State for Northern Ireland what assessment he has made of the adequacy of funding allocated to *(a)* education, *(b)* roads maintenance and *(c)* health in Northern Ireland. [29524]

Angela E. Smith: All proposed allocations in the recently announced Draft Priorities and Budget 2006–08 must be viewed in the context of the overall resources available for public services in Northern Ireland, and in particular the fact that there was no National Spending Review this year, and hence no material additional resources for Northern Ireland.

Proposed allocations for Education and Health continue to grow in real terms over the two years to 2007–08, and will be further supplemented by the three priority funding packages. While there has been some reduction in the amounts available for Roads Maintenance, the proposed amounts available should still enable Roads Service to respond to emergencies, treat surface defects and carry out the highest priority remedial works.

Regional Museums Review

Mr. McGrady: To ask the Secretary of State for Northern Ireland when the full report on the Review of Regional Museums will be published; and if he will make a statement. [29448]

Mr. Hanson: The report of the Steering Group to the Local Museum and Heritage Review was issued on 26 March 2001. The joint response of the Department of Culture, Arts and Leisure and the Department of the Environment to the above report was issued in October 2003.

Both documents are available from the Department of Culture, Arts and Leisure and through the Department's website.

Regional Tourism Partnerships

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will increase the funding of the regional tourism partnerships; and if he will make a statement. [29496]

Angela E. Smith: Regional Tourism Organisations are the predecessors of the proposed new Regional Tourism Partnerships, and are currently funded by the Northern Ireland Tourist Board under the European Union's Peace II Programme. As this funding will not be available after 1 April 2006, the future funding of the proposed Regional Tourism Partnerships will be considered in the context of the Government's draft Budget 2005, which is currently the subject of public consultation.

Renewable Energy

Lady Hermon: To ask the Secretary of State for Northern Ireland what progress is being made towards meeting the targets for the provision of renewable energy in Northern Ireland. [30251]

Angela E. Smith: The target set is that by 2012 at least 12 per cent. of all electricity consumed in Northern Ireland is obtained from indigenous renewable energy sources with 15 per cent. of this being generated by non-wind technologies. Since April 2005 the supply of electricity from renewable sources has increased by 120 per cent. and at 30 September 2005 had reached 5.8 per cent. with 3.5 per cent. coming from indigenous sources.

Road Maintenance

Mr. McGrady: To ask the Secretary of State for Northern Ireland what action he will take to revise and increase the financial allocation towards structural roads maintenance in the next three years following the recommendations of the regional transportation strategy; and if he will make a statement. [29113]

Mr. Woodward: The Draft Budget provides that, by 2008, total Government spending in Northern Ireland will exceed £16 billion, a jump of more than 50 per cent. since 1997. Public expenditure in Northern Ireland is by far the highest figure for any region of the UK and is 29 per cent. higher than the UK average.

Notwithstanding this, there are many pressures on the Northern Ireland Budget and the roads' programme must compete for funding along with other spending programmes. The Draft Priorities and Budget 2006–08 is presently out for consultation. It allocated additional resources for health and for education and this inevitably had some implications for other programmes including roads maintenance. It is expected that the revised budget will be announced in December 2005 and allocations will be kept under review in the context of budgetary management processes.

The Regional Transportation Strategy (2002–2012) identified strategic transportation investment priorities and considered potential funding sources and affordability of planned initiatives over the 10-year period. It was explained in the RTS that the level of public expenditure funding for the Strategy would be determined through the normal budgetary process, which will take account of the needs of other departments and decisions on priorities.

Roads service will continue to make best use of the resources available to it to develop and maintain the road network.

Road Safety

Mr. McGrady: To ask the Secretary of State for Northern Ireland what discussions he has held with his ministerial counterpart in the Republic of Ireland regarding the adoption of a north-south approach to road safety to reduce deaths and serious injuries on roads throughout the island of Ireland. [29456]

Angela E. Smith: Officials from the Department of the Environment and the Department for Regional Development have been liaising closely with counterparts

in the Republic of Ireland's Department of Transport (DoT), National Roads Authority (NRA) and National Safety Council (NSC) and, through Cross Border Steering Group meetings, with officials from the Department of the Environment and Local Government, to ensure positive road safety benefits on both sides of the border.

Among the most notable areas of co-operation is the joint production of road safety campaigns that have been a significant feature of the publicity programmes in Northern Ireland and the Republic of Ireland in recent years. Joint campaigns increase value for money, production costs can be shared and the partnership approach draws sponsorship at a level that would not otherwise be available. To date there have been eight joint road safety campaigns with a ninth, addressing drink-driving, in preparation.

Work is in hand to develop an agreement between UK and Ireland to allow driving disqualifications to be recognised in both countries regardless of where the offences took place. This will allow the worst offenders, who would otherwise be escaping the rule of law, to be removed from the road. Work is also in hand to allow each administration to recognise the penalties for driving offences at levels below that of disqualification.

There has been a large degree of co-operation on the EuroRAP project. EuroRAP aims to help reduce death and serious injury on Europe's roads by generating consumer information to the public and providing road engineers with benchmarking information.

Roads Service and the NRA are also joint partners in the European (DG TREN) funded project INSTANT, a multimodal project which considers the need for traffic control measures and traffic and travel information on the Belfast to Dublin corridor.

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* fatal and *(b)* non-fatal road traffic accidents have occurred in each of the last five years on the (i) Knock Dual Carriage Way, (ii) Comber road and (iii) Upper Newtownards road. [28879]

Mr. Woodward: The information requested is not readily accessible in the format specified and could be obtained only at disproportionate cost.

The available figures are contained in the following table and show the number of fatal and non-fatal accidents in East Belfast District Command Unit in each of the last five years.

Number of injury road traffic collisions in East Belfast DCU: 2000-04

	Fatal collision	*Non fatal collision*[1]	*Total collisions*
2000	3	354	357
2001	3	351	354
2002	4	305	309
2003	1	238	239
2004	—	255	255
Total	11	1,503	1,514

[1] Non-injury collisions are not included.

Roads (South Antrim)

Dr. McCrea: To ask the Secretary of State for Northern Ireland if he will make a statement on major road schemes in South Antrim constituency; and what the estimated cost of the schemes are for each year between 2005 and 2008. [30673]

Mr. Woodward: The chief executive of Roads Service (Dr. Malcolm McKibbin) has been asked to write to the hon. Gentleman in response to this question.

Letter from Dr. Malcolm McKibbin to Dr. William McCrea, dated 23 November 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding if he will make a statement on major road schemes in the South Antrim constituency and their estimated cost for each year between 2005 and 2008. I have been asked to reply as these issues fall within my responsibility as Chief Executive of Roads Service.

The recently published Belfast Metropolitan Transport Plan and the Regional Strategic Transport Network Transport Plan set out the Department's transport proposals up to 2015. Included within these transport plans are the following major road schemes which lie wholly or partly within the South Antrim Parliamentary Constituency area.

All schemes are subject to the satisfactory completion of the various statutory procedures and the availability of funding through the normal budget process.

A6 Dualling Randalstown to Castledawson

This £69.5 million contract will complete a continuous dual carriageway between the western end of the M22 Motorway at Randalstown and the Castledawson roundabout. Planning of the scheme is well advanced and it is anticipated that the statutory orders, i.e. Environmental Statement, Notice of Intention to Make a Direction Order, and Notice of Intention to Make a Vesting Order will be published in late spring 2006. Construction of the £33.4 million Randalstown to Toome section of the dualling, which lies within the South Antrim Parliamentary Constituency area, could start in late 2007/early 2008, with an estimated expenditure that year of approximately £12 million.

M2 Crosskeiinan Slips

This £1.8 million scheme will complete the M2 junction 7, providing full motorway access to the Antrim Area Hospital and on to Antrim town. It is anticipated that the current contract to construct the on-slips to the motorway will commence in Spring 2006. The contract will be carried out as part of the £100 million Public Private Partnership contract, which includes widening of the M1 and Belfast Westlink Corridor. It is expected that £1.6 million will be spent on this scheme during the 2006/2007 financial year and £0.2 million spent during the 2007/2008 financial year.

M2 widening from Junction 4, Sandyknowes to Junction 7, Greencastle

The £30 million scheme to widen the M2 carriageway to create an additional southbound lane between the Sandyknowes and Greencastle junctions is currently being progressed as part of Roads Service's Design, Build, Finance and Operate Package 1. Construction of these improvements is expected to start in 2008.

I can also advise that Roads Service are currently progressing two further significant, minor works schemes within South Antrim. Work on a new roundabout on the A57 Templepatrick Road/ Station Road/ Longshot, to replace the existing staggered junction, started on 15 August 2005 and is due for completion by the end of December 2005, at a cost £878,000. In addition, a scheme to replace the existing staggered junction with a new roundabout at Doagh Road/Carntall Road/Carnmoney Road North, and to include the provision of a footway on Carntall Road from Doagh Road to 100 Carntall Road, is currently at design stage. Subject to clearing the necessary statutory procedures and the availability of funds at the time, the scheme is programmed to start on site during the 2007/08 financial year at an estimated cost of £500,000.

I hope this information is helpful.

Rural Development Programme

Mr. McGrady: To ask the Secretary of State for Northern Ireland when *(a)* his assessment of the report prepared by PricewaterhouseCoopers into the last Rural Development Programme and *(b)* the strategy for the new Rural Development Programme will be published. [29185]

Angela E. Smith: With regards to part *(a)*, the report prepared by PricewaterhouseCoopers into the last Rural Development Programme 1994–99, was the Ex-post Evaluation of the Northern Ireland Rural Development Programme 1994–99, published in 2003. The key recommendations within the report were agreed and are being implemented in the current Rural Development Programme 2001–06.

With regard to part *(b)* the Department of Agriculture and Rural Development plan to publish draft strategy for consultation before the end of 2005.

Soccer Funding

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how much his Department has given to soccer in each of the last three years in Northern Ireland. [22999]

Mr. Hanson: The following exchequer funding has been given to soccer in each of the last three years by the Sports Council for Northern Ireland (SCNI).

SCNI exchequer funding

	£
	Soccer
2002–03	1,931,575
2003–04	69,624
2004–05	1,053,092

Note:
Includes funding via the Safe Sports Ground Programme.

In addition the Department of Finance and Personnel (DFP), Department of Enterprise Trade and Investment (DETI), Office of the First Minister and Deputy First Minister (OFMDFM), Department of Social Development (DSD) and Department of Education (DE).

DFP funding

		£
	Soccer	*Numerous Sports*[1]
2002–03	10,800	—
2003–04	565,041	15,000
2004–05	57,618	61,227

[1] Includes peace II funding to projects involving soccer and other type of sports.

DETI funding

	£

South Down (Secondary Roads)

Mr. McGrady: To ask the Secretary of State for Northern Ireland what action he is taking to improve secondary roads in South Down to improve access to the Belfast to Dublin corridor; and if he will make a statement. [29499]

Mr. Woodward: The chief executive of Roads Service (Dr. Malcolm McKibbin) has been asked to write to the hon. Gentleman in response to this question.

Letter from Dr. Malcolm McKibbin to Mr. Eddie McGrady, dated 21 November 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding what action is being taken to improve secondary roads in South Down to improve access to the Belfast/Dublin corridor.

I have been asked to reply as this issue falls within my responsibility as Chief Executive of Roads Service.

As you will be aware, the most direct routes from Downpatrick to the Belfast/Dublin corridor (A1) are the A25 through Rathfriland and latterly the A25/B8 through Hilltown.

On the A25 we have recently completed a carriageway improvement scheme at Kilcoo at a cost of £220,000, with major resurfacing work at Knocksticken, Ballykilbeg, Loughislandreavey, Ballybannon to Priest's Road, and Priest's Road to Aughlisnafin at a cost of £547,000.

We also have plans to carry out a number of improvement schemes on these routes including:

junction improvements on the A25 Dublin Road at Burrenreagh Road near Castlewellan at an estimated cost of £40,000 (05/06);

carriageway realignment on the B8 Hilltown Road, Newry, at an estimated cost of £400,000 (06/07);

carriageway realignment and visibility improvement on the A25 Burrenbridge Road at an estimated cost of £100,000 (06/07) ;and

carriageway resurfacing at Windsor Hill, Newry, at an estimated cost of £65,000 (06/07).

In relation to other "A" and "B" Class roads in the South Down area, we have recently completed, or plan to complete the following improvements during the current year at a cost of some £1,200,000:

carriageway realignment on the B2 at Caughey's Road, Dromore;

junction improvements and footway provision on the B10 at Mays Corner;

carriageway realignment and footway provision on the A2 Newry Road, Kilkeel at Mourne Grange;

carriageway realignment and footway provision on the A2 at Ballindoalty Corner between Rostrevor and Kilkeel;

carriageway realignment on the B2 Annacloy Road, Downpatrick;

carriageway realignment and junction improvement on the B2 at Ballygowan Road;

junction improvement on the B3 at Ballinafoy Road Rathfriland;

carriageway realignment on the B7 Dromara Road at Ballyroney;

carriageway realignment and junction improvement on the B10 Derrylough Road, Banbridge;

junction improvement on the B2 Lurgan Road at Ballynaris Hill, Dromore;

junction improvement and footway provision at Greenpark Road, Rostrevor; and

junction improvement on the B27 Sandbank Road, Hilltown.

Finally, the following improvement schemes are currently programmed for future financial years at a cost of some £785,000:

junction improvement on the B2 at Magheraloan Road, Annacloy;

junction improvement on the B10 at Lisnaree Road, Banbridge; and

carriageway realignment on the A50 Castlewellan Road at Corbet Lough;

I hope this information is helpful.

Speed Detection Devices

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland on how many occasions the *(a)* Operational Command Unit and *(b)* District Command Unit have used (i) speed detection devices and (ii) tax detection devices on the Comber road. [28877]

Mr. Woodward: The Police Service of Northern Ireland do not record the information requested in relation to speed detection devices.

Driver Vehicle Licensing Northern Ireland carries out tax detection by Automatic Number Plate Reader. I am advised that they do not use any sites on the Comber road for detection purposes.

Student Finance

Dr. McCrea: To ask the Secretary of State for Northern Ireland what plans he has to require adults to pay higher tuition fees for college courses in Northern Ireland. [30214]

Angela E. Smith: From the 2006–07 academic year, Northern Ireland institutions providing designated courses of full-time higher education will be able to charge annual tuition fees of up to £3,000 to students entering higher education from that year. From 2006–07 all Northern Ireland domiciled students studying at institutions in the UK, will be able to defer payment by taking out a non-means tested loan which will not have to be paid until after the student leaves higher education and is earning more than £15,000 per year.

Sports Funding

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how much funding his Department has provided for *(a)* hockey, *(b)* cricket and *(c)* rugby in each of the last three years in Northern Ireland. [22760]

Mr. Hanson: The following exchequer funding has been given to hockey, cricket and rugby in each of the last three years provided by the Sports Council for Northern Ireland (SCNI).

SCNI Exchequer funding

	2002–03	2003–04	£ 2004–05
Hockey	51,150	112,393	120,605
Cricket	26,330	61,814	65,246
Rugby[1]	122,035	101,825	96,728

[1] Includes funding via the Safe Sports Ground Programme.

In addition, the Department of Finance and Personnel (DFP), Department of Education (DE), Department of Social Development (DSD) and Department of Agriculture and Rural Development (DARD), have provided the following:

DFP funding

	2002–03	2003–04	£ 2004–05
Hockey	—	—	7,245
Cricket	—	—	—
Rugby	—	88,478	7,200
Numerous sports[1]	—	48,434	—

[1] Includes Peace II funding to projects involving more than one of the listed sports.

DE funding

	2002–03	2003–04	£ 2004–05
Hockey	—	—	1,441
Cricket	—	—	1,132
Rugby	—	—	—

DSD funding

	2002–03	2003–04	£ 2004–05
Hockey	—	—	211
Cricket	—	—	—
Rugby	9,000	—	—

DARD funding

	2002–03	2003/04	£ 2004/05
Hockey	—	—	—
Cricket	—	—	—
Rugby	—	—	58

Statementing

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many children in each Education and Library Board area are awaiting assessment for a statement; and if he will make a statement. [25016]

Angela E. Smith: The following table shows by, Education and Library Board, the total number of children for whom a statutory assessment has currently been requested (column a), out of that total, the number of cases where the assessment process has not yet started (column b) and the number of statutory assessments currently underway by boards (column c).

Education and Library Board	*(a) Number of children requiring a statutory assessment*	*(b) Of (a) the number of cases, where the assessment process has not yet started*	*(c) Number of statutory assessments currently under way (a)-(b)*
Belfast Education and Library Board	220	0	220
North Eastern Education and Library Board	164	6	158
South Eastern Education and Library Board	570	60	510
Southern Education and Library Board	281	25	256
Western Education and Library Board	247	14	233

The Code of Practice on the Identification and Assessment of Special Educational Needs sets out a five-stage approach to the process. At Stage 4 the Education and Library Board considers the need for a statutory assessment, following a request from parents of the child, the school or other agencies. If the board considers that such an assessment is necessary, the parents will be notified and a multi-disciplinary assessment will be made. The board may then make a statement of special educational needs at Stage 5. From the date of the initial request for statutory assessment, the board has 18 weeks, subject to certain exceptions, to issue a proposed statement, where this has been found to be necessary.

Stevens Inquiry

Mr. Donaldson: To ask the Secretary of State for Northern Ireland what has been the total cost of the Stevens Inquiry into allegations of police collusion in Northern Ireland; and what assessment he has made of the progress made by the inquiry to date. [30760]

Mr. Hain: Sir John Stevens' report is to the Chief Constable of the PSNI. The Stevens investigation has thus far been funded by the PSNI and is therefore a matter for the Chief Constable.

Specific criminal investigations continue and the criminal justice process must be allowed to take its course.

Sub-regional Transportation Plan

Mr. McGrady: To ask the Secretary of State for Northern Ireland when work will be completed on the sub-regional transportation plan for Northern Ireland; when the plan will be published; and what consultation measures will be put in place for the plan. [29446]

Mr. Woodward: The chief executive of Roads Service (Dr. Malcolm McKibbin) has been asked to write to the hon. Gentleman in response to this question.

Letter from Dr. Malcolm McKibbin to Mr. Eddie McGrady, dated 21 November 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding when work will be completed on the Sub-Regional Transportation Plan (SRTP) for Northern Ireland; when the plan will be published; and what consultation measures will be put in place for the plan.

I have been asked to reply, as these issues fall within my responsibility as Chief Executive of Roads Service.

The draft SRTP is programmed to be published for formal consultation in March 2006, and at this stage, the nature of the consultation process has not been finalised. The final SRTP is programmed for completion by December 2006, however, this will be dependent on the exact nature of responses received during the consultation process.

I should add, that as with all transport plans, the schemes contained within the SRTP would be subject to normal statutory procedures and to the availability of funds at the time.

I hope this information is helpful.

Supporting People Programme

Dr. McCrea: To ask the Secretary of State for Northern Ireland if he will list payments made in Northern Ireland from the Supporting People programme in each of the last three years. [30809]

Mr. Hanson: The Supporting People programme funds 114 providers providing housing support services to over 900 schemes. The total amount paid out in the last three years is as follows:

	Amount paid (£)
2003–04	42,805,119.53
2004–05	48,870,916.70
2005 to date	31,784,917.93

Telecare Projects

Mark Durkan: To ask the Secretary of State for Northern Ireland how much funding was allocated for Telecare projects in Northern Ireland in the last three years, broken down by constituency. [29168]

Mr. Woodward: The Department has not made a specific allocation of funds for the provision of Telecare services in the last three years.

Telecommunications Masts

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many planning permission applications have been granted for mobile phone masts in South Antrim in each of the last three years. [30141]

Angela E. Smith: Details of the number of mobile phone masts granted approval in the South Antrim constituency over the last three years are set out in the following table.

	Council area	
	Antrim	*Newtownabbey*
2002–03	12	11
2003–04	11	4
2004–05	8	7

It should be noted that figures for 2002 also include applications made under the prior approval process. In June 2002 Permitted Development rights were removed by statute except in the case of an emergency and applications for telecommunications equipment were subject to the full planning process.

Ulster Community and Hospitals Trust

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what recent additional security measures have been put in place at the Ulster Community and hospitals trust to protect staff since an attack on four nursing staff at the Accident and Emergency department by a member of the public on the weekend of 12–13 November; and if he will make a statement. [29795]

Mr. Woodward: Following the recent incident at the Ulster Community and hospitals trust, the management have conducted a formal incident review and personnel have met with the PSNI to explore ways of improving security. An action plan, detailing improved structural security measures at the Ulster hospital's A and E department has been drawn up and this will be implemented as soon as possible.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the extent was of the injuries sustained by the nursing staff at the Ulster Community and Hospitals Trust Accident and Emergency department as a result of the attack by a member of the public on the weekend of 12 and 13 November. [29796]

Mr. Woodward: Following the recent incident at the Ulster Community and Hospitals Trust, nurses were traumatised; no physical injuries were sustained.

Unemployment (South Antrim)

Dr. McCrea: To ask the Secretary of State for Northern Ireland what changes in the level of unemployment there have been in South Antrim constituency in each year since 2001. [30200]

Angela E. Smith: Unemployment levels from the claimant count in the South Antrim parliamentary constituency in each of the years 2001, 2002, 2003, 2004 and 2005 (to October), together with their yearly change are provided in the following table.

South Antrim

	Unemployment (annual averages except for 2005)	*Change from previous year*
2001	1,427	-110
2002	1,505	78
2003	1,398	-107
2004	1,111	-287
2005[1]	1,086	—

[1] January-October

Voluntary Organisations

Dr. McCrea: To ask the Secretary of State for Northern Ireland whether he has recently held a meeting with the Organisation of the Unemployed Northern Ireland to discuss the funding of voluntary and community organisations; and if he will make a statement. [30142]

Mr. Hanson: No Ministerial meetings have been held with the Organisation of the Unemployed NI (OUNI). Officials from the Department for Social Development (DSD) and the Department for Employment and Learning (DEL) have met with OUNI to discuss potential funding opportunities. Although no immediate funding sources were identified, the organisation was advised of future funding streams and the requirements for voluntary and community sector organisations involved in delivery of public services.

Wages

Dr. McCrea: To ask the Secretary of State for Northern Ireland what the average yearly wage in Northern Ireland was in 2004. [30202]

Angela E. Smith: Median gross annual earnings for full-time employees on adult rates, who have been in the same job for at least 12 months, including those whose pay was affected by absence was £19,634 at April 2004.

Waiting Times

Lady Hermon: To ask the Secretary of State for Northern Ireland pursuant to his letter of 31 October, what definition he uses of an unreasonable length of time in respect of waiting times for *(a)* an out-patient appointment and *(b)* in-patient or day-case treatment in Northern Ireland. [28464]

Mr. Woodward: I have stated on numerous occasions that I view current hospital waiting times in Northern Ireland as completely unacceptable.

The aim of the elective care reform programme I announced in July is to develop fully scheduled services within which patients can access the care they require within the time scale that their clinical condition dictates.

The first steps of the reform programme to address in-patient and day-case waiting times are now under way, and I will announce detailed proposals to tackle out-patient waiting times next month.

Water Consumption

Dr. McCrea: To ask the Secretary of State for Northern Ireland what changes there have been in levels of water consumption in Northern Ireland over the last three years. [30624]

Mr. Woodward: The Chief Executive of Water Service (Mrs. Katharine Bryan) has been asked to write to the hon. Gentleman in response to this question.

Letter from Mrs. Katharine Bryan to Dr. William McCrea, dated 23 November 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question about what changes there have been in levels of water consumption in Northern Ireland over the last three years (30624). I have been asked to reply as this issue falls within my responsibility as Chief Executive of Water Service.

The figures for water consumption by both domestic and non-domestic customers are as follows:

As at March:	*Million litres per day*
2003	503
2004	498
2005	490

There is a high degree of estimation used in arriving at these consumption figures, mainly due to the low level of metering in Northern Ireland. There are also a number of factors which affect the level of water consumption, including seasonal variations in weather. Water Service manages water demand through a range of measures included in its Water Efficiency Plan, including raising awareness about water conservation and the promotion of water saving devices.

Dr. McCrea: To ask the Secretary of State for Northern Ireland what opportunities he has identified in Northern Ireland for significant water savings by consumers. [30692]

Mr. Woodward: The Chief Executive of Water Service (Mrs. Katharine Bryan) has been asked to write to the hon. Gentleman in response to this question.

Letter from Mrs. Katharine Bryan to Dr. William McCrea, dated 23 November 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question about what opportunities he has identified by consumers in Northern Ireland for significant water savings (30692). I have been asked to reply as this issue falls within my responsibility as Chief Executive of Water Service.

Water Service's second Water Efficiency Plan, which was published on 12 January 2004, set out a wide range of measures aimed at reducing demand for water through the effective use of water by both Water Service and its customers. One of the key aspects of the plan is a reduction in the level of leakage. A significant programme of investment has resulted in leakage being reduced by over 100 megalitres per day (Ml/d) from 291 Ml/d in March 2002 to the current level of 190 Ml/d at September 2005. In achieving this level of reduction Water Service has been actively encouraging customers to play their part in eliminating leakage within private property. It is estimated that some 20 per cent. of total leakage occurs within the customers' pipework, therefore customers have an important contribution to make to this aim. In 2004, the Water Service introduced the "Leakline" free telephone number (08000 282011) to encourage customers to report any visible leaks.

Water Service continues to raise awareness of the need for water efficiency by providing practical advice on the actions that the customers can take. These include carrying out water efficiency audits and the installation of Hippo bags in larger toilet cisterns to reduce the amount of water used. Water efficiency is also promoted through the distribution of leaflets to customers, through public displays, exhibitions and presentations identifying how water can be used wisely in the home, school, business and agricultural premises Over the past few years, water efficiency leaflets have been issued to every property in Northern Ireland. Water Service has a double decker bus, known as the Waterbus, which contains an exhibition on water and sewerage services. The Waterbus visits schools to make children aware of the water cycle, water sources, water treatment, the efficient use of water and wastewater treatment, through a number of displays, models, experiments, video shows and computers.

Water Service's annual customer survey contains a number of the questions relating to water efficiency and in recent years the responses have indicated an increasing awareness of water efficiency among customers.

Wind Farms

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many applications for planning permission have been granted for wind turbines in South Antrim constituency in each of the last three years. [30225]

Angela E. Smith: Details of the number of wind turbines granted approval in the South Antrim constituency in each of the last three years are set out in the following table.

	Number of wind turbines approved
2002–03	5
2003–04	2
2004–05	4

Youth Funding

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what funding will be provided to implement the Province's Children and Young People strategy. [24892]

Angela E. Smith: The Strategy for Children and Young People is currently being re-drafted and will be launched in February 2006. Implementation of the strategy will involve the development of fully costed plans updated and reviewed on a regular basis.

In addition, as part of our proposals for the draft budget for Northern Ireland for 2006–08 an additional £25 million has been provided in each of the next two years to ensure that every child has the best start in life. This will include driving forward our policies in areas such as pre-school and extended/out-of-hours school-based activities, child care and Sure Start, as well as measures to foster their health and well-being.

INTERNATIONAL DEVELOPMENT

Development Instrument

Keith Vaz: To ask the Secretary of State for International Development whether the Development Instrument will provide funding for education. [30264]

Mr. Thomas: The Development Co-operation and Economic Co-operation Instrument (DCECI) will provide development funding for all countries currently covered by the Asia, Latin America and parts of the TACIS (Technical Assistance to the Commonwealth of Independent States) Regulations. The Commission has also suggested it covers funding for the ACP countries (Africa, Caribbean and the Pacific). Likewise, it will provide funding for thematic programmes in specific sectors of global or multi-country nature, which cannot be covered by normal country or regional programmes.

Country and regional programmes establish the focus of Community assistance in specific countries and regions. This will be based on partner Governments' specific needs and development plans. It will also reflect the added value of Community aid in particular countries and sectors. Funding of activities in the field of education will depend on these factors. From experience, we know that Community country programmes do fund activities in the field of education.

Globally applicable or cross-cutting education initiatives may also fall under the thematic funding banner. This is likely to remain the case for the new batch of thematic programmes to be launched under the next Financial Perspectives (2007–13).

Disaster Relief

Huw Irranca-Davies: To ask the Secretary of State for International Development what percentage of Government funding in respect of *(a)* the tsunami, *(b)* the Pakistan earthquake, *(c)* the situation in Niger and *(d)* the situation in Southern Africa has been directed to (i) the International Movement of the Red Cross, (ii) Red Crescent, (iii) International Red Cross/Crescent Federation, (iv) all non-government organisations and (v) United Nation agencies. [29690]

Mr. Thomas: The percentage of Government funding provided in response to the Asian tsunami, Pakistan earthquake, Niger and Southern Africa humanitarian crises which has been directed to the International Movement of the Red Cross, Red Crescent, International Red Cross/Crescent Federation, non-government organisations and United Nations agencies is set out in the following table. Where relevant, funding for humanitarian relief and reconstruction has been separately recorded. The 'Total UK Government funding' figures shown refer to funding commitments given by DFID in response to current (and ongoing) crises.

		Percentage of which was channelled to:				
Event/Type of assistance	*Total UK Government funding (£ million)*	*International Movement of the Red Cross*	*Red Crescent*	*International Red Cross/Crescent Federation*	*All non-government organisations*	*United Nations agencies*
Asian tsunami[1]						
Humanitarian relief	75.00	2	—	3	16	50
Reconstruction	65.00	—	—	—	—	8
Pakistan earthquake						
Humanitarian relief	33.00	6	—	4	27	29
Reconstruction	70.00	[2]—	[2]—	[2]—	[2]—	[2]—
Niger						
Humanitarian relief	3.25	—	—	—	42	58

Event/Type of assistance	Total UK Government funding (£ million)	International Movement of the Red Cross	Percentage of which was channelled to: Red Crescent	International Red Cross/Crescent Federation	All non-government organisations	United Nations agencies
Southern Africa[1]						
Humanitarian relief	37.23	1	—	—	22	35

[1] Tsunami figures cover contributions to Sri Lanka, Indonesia, India, and Maldives.
Of the £65.00 million for reconstruction £41.40 million has been committed; £25.60 million to the multi Donor Trust Fund with further amounts pledged to the Decentralisation Support Facility, Transparency International and World Bank. The remaining funds are yet to be programmed.
[2] Announced 19 November, not yet programmed by agency.
[3] Southern Africa covers contributions to Lesotho, Malawi, Mozambique, Swaziland, Zambia, and Zimbabwe

Background figures to table

£000

Event	Total UK Government funding	of which: International Movement of the Red Cross	Red Crescent	International Red Cross/Crescent Federation	All non- government organisations	United Nations agencies
Asian tsunami						
Humanitarian	75,000,000	1,500,000	—	2,000,000	11,845,959	37,808,001
Reconstruction	65,000,000	—	—	—	—	5,000,000
Pakistan earthquake						
Humanitarian	33,000,000	2,078,250	—	1,500,000	9,083,784	9,438,250
Reconstruction	70,000,000	[1]—	—	—	—	—
Niger	3,250,000	—	—	—	1,367,000	1,863,000
Southern Africa	37,230,000	610,389 (Zimbabwe)	—	—	1,041,925 (Zambia) 7,365,844 (Zimbabwe)	130,000 (Malawi) 837,000 (Mozambique) 350,000 (Lesotho) 300,000 (Swaziland) 425,575 (Zambia) 11,102,350 (Zimbabwe)

[1] Still to be programmed

Other funds provided by UK Government are disbursed through the DFID programme or given directly to the partner Government.

Indian Ocean Tsunami

Andrew George: To ask the Secretary of State for International Development pursuant to the answer of 8 November 2005, *Official Report*, column 309W, on the Indian Ocean tsunami, if he will place in the Library a copy of the report of the independent review of his Department's humanitarian response in Indonesia, Sri Lanka and India following the tsunami. [31019]

Mr. Thomas: The review consists of a number of documents relating to different aspects of the response, and to date is not fully completed. DFID intends to publish the review on its website once the process is complete. A copy will also then be placed in the Library.

IT Projects

Dr. Cable: To ask the Secretary of State for International Development how many IT projects which cost over £1 million and were introduced since 1997 are in use in his Department. [26607]

Mr. Thomas: DFID has had 11 IT projects which cost over £1 million and were introduced since 1997. Of these, seven are in use, three are current projects which are not yet complete, and one has been superseded by a later project.

Dr. Cable: To ask the Secretary of State for International Development how many of the IT projects costing over £1 million in use in his Department and introduced since 1997 have been scrutinised by the Public Accounts Committee; and if he will list them. [26621]

Mr. Thomas: None.

Sugar

Mr. Hollobone: To ask the Secretary of State for International Development what progress is being made in developing economic action plans to help Commonwealth countries in the Caribbean affected by changes to the EU's sugar regime. [30503]

Mr. Thomas: It is very important that Commonwealth Caribbean countries produce appropriately costed sugar transition action plans as soon as possible in order to be eligible for European Union (EU) transitional assistance in 2006, and so that the European Commission (EC) can make realistic and appropriate plans for further financing from 2007 onwards.

DFID has been closely engaged with ensuring that the impact of sugar reform is fully considered for a number of years. In 2003 and 2004, DFID-funded reports were produced on the impact of reform on the African Caribbean and Pacific (ACP) Sugar Protocol countries, the impact on the Least Developed Countries and options for transitional assistance. These reports were made public, and have enabled an informed debate on the developmental aspects of sugar reform to take place.

In March 2005, DFID funded a workshop in Trinidad which initiated the process of developing sugar transition action plans in the Caribbean. Since July, as President of the EU, the UK has been working with the EC, other EU member states and the European Parliament to secure agreement on the draft regulation produced by the EC in June 2005 for the timely delivery of adequate transitional assistance to the Sugar Protocol countries.

DFID is working alongside the EC Delegations in the Caribbean to support development of sugar transition action plans by the six Commonwealth Caribbean sugar producing countries: Barbados, Belize, Guyana, Jamaica, St. Kitts and Nevis, and Trinidad and Tobago.

The Government of Barbados have asked for DFID's support for the preparation of their action plan on the basis of their forthcoming National Strategic Plan that will inform the future direction of the sugar industry. Consultancy work on this should begin shortly and a draft report should be prepared by mid-January 2006.

Belize has already developed a strategy for the reform of its sugar industry and initiated discussion of a detailed action plan. The Government of Belize recently asked DFID's support for its preparation and are finalising the scope of the required advice. We are encouraging the Government to take the opportunity of the changes necessitated by the sugar reform to look more widely at the macro-economic challenges facing the country.

The Government of Guyana's working group is preparing the draft action plan, with DFID-funded consultants identified to help put this into the required EC format. To date, given the Government's unwillingness to commit themselves publicly to producing an action plan, there remains a risk that Guyana will not be prepared to submit its plan by the end of the year.

In Jamaica, Prime Minister Patterson said in a statement to Parliament in October that the cane industry will be centred on three products raw sugar for export and domestic markets, molasses for use in rum production, and ethanol. He stated that the Government was at an advanced stage of development of the Jamaica action plan and intended to submit this to the EC ahead of schedule. He specifically recognised the assistance that DFID has offered to provide to help design measures to mitigate the social impact of the sugar reforms.

Due to the high debt to national income burden and its impact on the labour force, the adjustment process in St. Kitts and Nevis will be particularly challenging. To assist, DFID is leading the co-ordination of donor support to St. Kitts and supporting three key pieces of work to inform the Government's preparation of their action plan: consultants to advise on the corporate restructuring of the Sugar Manufacturing Company, a land resource analysis to identify feasible options for the use of the sugar lands and a study to help identify support for those affected adversely by the sugar transition. The Commission's team of consultants working on the preparation of St. Kitts adaptation strategy aims to complete its assignment in December, drawing on these DFID supported reports.

In Trinidad and Tobago, DFID, in close liaison with the EC Delegation, is financing a consultancy to help put the Government prepare their action plan. The consultants facilitated the first consultation on 26 October that brought together representatives from farmers' associations, the sugar industry, the Government, and development partners. The consultants are due to deliver their report by the second week of December.

Uganda

Mark Simmonds: To ask the Secretary of State for International Development if he will make a statement on recent attacks on non-governmental organisation workers in Uganda. [29813]

Mr. Thomas: The European Union, under the UK presidency, condemned the recent attacks on non-governmental organisation (NGO) staff in northern Uganda in a statement issued on 31 October. NGOs play a crucial role in providing humanitarian relief to hundreds of thousands of people displaced by the conflict in the north. As a result of the recent attacks many agencies have severely curtailed their movement outside major towns. The World Food Programme continues to deliver essential emergency food aid as normal under heavy military escort.

The attacks only serve to increase the suffering of civilians. The Ugandan Government, working with other countries in the region, must do all it can to protect civilians and to ensure the safety of aid workers.

Water and Sanitation (Funding)

Ms Dari Taylor: To ask the Secretary of State for International Development if he will break down the UK's funding for water and sanitation in 2004–05 by *(a)* recipient country and *(b)* funding route. [26023]

Mr. Thomas: The most precise available measure of water and sanitation expenditure comes from a detailed analysis commissioned by DFID. The report 'Financial Support to the Water Sector 2002–04', produced for us by consultants, estimates that DFID spent £221 million on water and sanitation in 2003–04. This report also provides a breakdown of expenditure by country and estimates of how expenditure is split through different funding routes for the years 2002–03 and 2003–04. A copy of this report has been placed in the Libraries of both Houses. The analysis is currently being updated for 2004–05 and figures are expected to be available around March 2006.

Ms Dari Taylor: To ask the Secretary of State for International Development if he will break down the UK's planned aid for water and sanitation in 2007–08 by *(a)* country and *(b)* funding route. [26102]

Mr. Thomas: In response to the current situation where most of sub-Saharan Africa is off-track to meet the water and sanitation Millennium Development Goal (MDG) targets, DFID has committed to double spending on water supply and sanitation sectors in Africa from £47.5 million in 2004–05 to £95 million in 2007–08. This will bring our global spending on water and sanitation up to at least £225 million a year by 2008.

We anticipate that meeting the commitment will require an increase in expenditure through all funding mechanisms, including our own bilateral programmes, but also through encouraging others such as the World Bank and the EU to do more in water and sanitation. We do not have specific country targets.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Damages

Mr. Hayes: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the 10 largest amounts of damages paid out by her Department in the last year for which figures are available, indicating in each case the nature of the claim. [27732]

Jim Knight: The 10 largest amounts of damages paid out in the last year are as follows:

£52,000 for personal injury compensation to an employee

£52,000 for personal injury compensation as a result of the foot and mouth disease outbreak

£33,839 for personal injury compensation as a result of the foot and mouth disease outbreak

£30,000 for personal injury compensation as a result of the foot and mouth disease outbreak

£14,000 for unfair dismissal and discrimination compensation

£13,967 for road traffic accident compensation

£12,073 for personal injury compensation as a result of the foot and mouth disease outbreak

£9,500 for personal injury compensation as a result of the foot and mouth disease outbreak

£8,189 for road traffic accident compensation

£8,000 for personal injury compensation as a result of the foot and mouth disease outbreak

Date-based Export Scheme

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions her Department has had with the European Commission regarding the lifting of the date-based export scheme; and when the scheme will be lifted. [31082]

Mr. Bradshaw *[holding answer 22 November 2005]:* Defra officials and Ministers have maintained regular contacts with the European Commission to seek the end of the beef export ban at the earliest possible time.

EU Food and Veterinary Office (FVO) inspectors visited the UK in June 2005 to assess the state of our BSE controls. Their report was published on 28 September 2005 and was discussed at a meeting of the Commission's TSE Working Group on the same day. The Commission issued a press release stating that the pre-conditions for discussions to begin with member states on lifting the embargo have been met.

The next step is for the Commission to submit to member states a proposal to lift the ban on the export from the UK of cattle, beef and other bovine products and we expect discussions with member states to commence this month. Due to the need to observe EU legal procedures and to gain member states' agreement, it is unlikely that legislation to lift the ban will come into force until early 2006. The Government are continuing to work in Brussels to ensure that the export ban is lifted as soon as possible.

If EU legislation to lift the export ban is adopted, we will need to amend our existing domestic legislation, the Bovines and Bovine Products (Trade) Regulations 1999, to bring UK law into line with EU law. We have already launched a public consultation on the lifting of the ban and related issues, with the aim of ensuring that changes to EU and UK law can, as far as possible, enter into force at the same time so as to enable exports to resume at the earliest possible opportunity.

When the export ban is lifted, the date-based export scheme will no longer be required and will automatically be discontinued.

Departmental Assets

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the 10 most valuable *(a)* movable and *(b)* immovable assets owned by her Department. [27377]

Jim Knight: The 10 most valuable moveable and immovable assets owned by the Department, including its sponsored bodies, are shown in the tables. In the main, the monetary values reflect the value of the assets as at the end of the 2004/05 financial year. The lists do not include IT systems still in the process of development.

The Forestry Commission and British Waterways are both part of the Defra group, and each has considerable property holdings. For clarity, and to avoid these property holdings masking other major assets held by the rest of the Department, the 10 most valuable immoveable assets for the Forestry Commission and British Waterways are shown separately.

Moveable assets:

£

Item	*Owned by:*	*Value*
Research vessel (Endeavour)	Centre for Environment, Fisheries and Aquaculture Science (CEFAS)	25,963,000
IT Software—RPA Change Programme	Rural Payments Agency	10,093,135

Gloucester Quays Re-Development site, Gloucester	7,200,000
Castle Wharf, Nottingham [city centre waterside property]	7,000,000

Farm Subsidies

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many farmers have applied for entry to the Higher Level Stewardship Scheme. [29876]

Jim Knight: *[holding answer 21 November 2005]:* As at 14 November, the Rural Development Service had received 423 applications for Higher Level Stewardship agreements.

Milk

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs if she will discuss with the Secretary of State for Trade and Industry referring the difference between the retail and farm-gate price of milk to the Office of Fair Trading; and if she will make a statement. [29010]

Jim Knight: As I noted in my oral answer to the hon. Member for Torridge and West Devon (Mr. Cox) on 20 October 2005, *Official Report*, column 977, I have been discussing issues relating to competition in the dairy sector and the concerns of dairy farmers with the Department of Trade and Industry. My noble Friend Lord Bach, the Minister for Sustainable Farming and Food, and I will be continuing those discussions when we meet with my hon. Friend the Parliamentary Under-Secretary of State with responsibility for Employment Relations and Consumer Affairs later in the year. However, except in limited exceptional circumstances, responsibility for deciding whether to carry out market studies or investigations, or to investigate alleged breaches of competition law, rests with the Office of Fair Trading, which is an independent statutory body.

Modulation

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the rate of modulation will be in each year after 2006. [29878]

Jim Knight *[holding answer 21 November 2005]:* Under current EU legislation, the rate for compulsory modulation to be applied across the EU-15 agreed as part

of the 2003 CAP reforms is 4 per cent. in 2006, rising to 5 per cent. in each of the years from 2007 to 2012. The European Commission has recently suggested, in the context of the EU future financing negotiations, an increase in that rate of compulsory modulation.

In addition to this, the UK countries apply additional national modulation, which for England is 6 per cent. in 2006. It is likely that the rate in England will rise in future years, in order to provide part of the funding for Environmental Stewardship. However, the rate of any additional national modulation will depend on the outcome of the EU future financing negotiations for the period 2007–13. The UK is pressing to ensure the principle of additional national modulation is available to member states in the next budget period.

Racehorses

Mr. Letwin: To ask the Secretary of State for Environment, Food and Rural Affairs whether racehorses have been deemed to be commercial animals for the purposes of regulations governing burial of animals. [27318]

Margaret Beckett: The disposal of animal carcases and other animal by-products is governed by Regulation (EC) 1774/2002. The regulation bans burial as a disposal route for animal by-products. A derogation exists within the regulation that permits the burial of pet animals only to continue. However in our view a racehorse is clearly a working commercial animal and not a pet.

Tenant Farmers

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs what she expects to implement the recommendations of the Tenancy Reform Industry Group Report; and if she will make a statement. [29790]

Jim Knight *[holding answer 21 November 2005]:* The legislative recommendations of the Tenancy Reform Industry Group (TRIG) have been incorporated into a draft regulatory reform order (RRO) which is being finalised. We are aiming to lay the RRO before Parliament early in the new year with the intention that, (if the proposals are accepted), the new legislation would come into force in June 2006.

TRIG also recommended a code of good practice on diversification within agricultural tenancies, and this was published in September 2004. An adjudication scheme to back up the code is expected to be in place before Christmas.

The Government have also implemented other recommendations of TRIG, including an advice pack for farmers and research on tenant farmer retirement.

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the *(a)* extent and *(b)* effect of new agricultural tenancy agreements designed to take entitlement to single farm payments away from tenant farmers at the end of those agreements for less than the fair compensation specified within the Tenancy Reform Industry Group's code of practice. [29791]

Jim Knight *[holding answer 21 November 2005]:* DEFRA maintains close relationship with the industry organisations represented on the Tenancy Reform Industry Group (TRIG), in particular the Tenant Farmers Association, National Farmers Union and the Country Land and Business Association. Feedback from members of the Group, and other sources, suggests that TRIG guidance "notes to aid tenants and landlords on CAP reform" has proved effective, in the majority of cases, in helping both parties reach amicable arrangements in respect of the new Single Payment Scheme, but there have also been reports of arrangements which have left one party or the other feeling aggrieved.

Coventry university is currently undertaking research on behalf of DEFRA, on the impacts of CAP reform on the diversification activities of tenant farmers in England. While the research is intended primarily to focus on the effect of CAP reform in opening up opportunities for farm diversification by tenant farmers, the specification for the project also covers investigation of the wider impact of CAP reform on the landlord/tenant relationship.

Wild Birds (Imports)

Mr. Letwin: To ask the Secretary of State for Environment, Food and Rural Affairs how live wild bird commercial imports, which are to be banned, will be distinguished by inspectors from live wild bird pet imports that are being restricted. [27314]

Margaret Beckett: Wild bird pet imports can be distinguished from wild bird commercial imports by inspectors because of the following requirements for wild bird pet imports brought into effect by Commission Decision 2005/759/EC:

pet birds must be accompanied by a declaration by the owner, or representative of the owner, which says that the animals are not intended for commercial purposes;

pet birds must be accompanied by the owner or a representative; and

a consignment of pet birds may only consist of less than five birds.

TRANSPORT

Buses

Mr. Duncan: To ask the Secretary of State for Transport how many *(a)* disabled people and *(b)* young people used buses in England in 2004–05; and if he will make a statement. [28309]

Ms Buck: Data on bus use by disabled people are not available. Data from the National Travel Survey on trips per person per year by local bus in 2004 for people up to the age of 20 are given in the table as follows.

Average number of bus trips per person per year, 2004

Age	*Trips per person per year*
0–10 years	30
11–16 years	116
17–20 years	138

Driver and Vehicle Licensing Agency

Tom Brake: To ask the Secretary of State for Transport how much was spent by the Driver and Vehicle Licensing Agency on advertising at the Argentina versus England football match held in Geneva on 12 November. [30599]

Dr. Ladyman: This advertisement was part of a continuing campaign to improve the accuracy of DVLA's records by encouraging the public to notify changes in details. The advertisement cost £45,000 for five minutes exposure. The estimated television audience was in excess of 10 million.

Greenhouse Gas Emissions

John Hemming: To ask the Secretary of State for Transport what recent estimate he has made of the greenhouse gas emissions per distance travelled of passenger trains operating in the United Kingdom. [29307]

Derek Twigg: Greenhouse gas emissions from trains vary significantly according to their size, power requirements and whether they are diesel or electric. The following table provides estimates of CO_2 emissions for average diesel, electric and UK trains in terms of emissions per passenger kilometre assuming average passenger loads:

	CO_2 emissions per passenger km (g/km)
Fleet average—diesel	41
Fleet average– electric	56
Average UK—electric and diesel combined	49

Local Transport Plans

Tom Brake: To ask the Secretary of State for Transport if he will list the major schemes *(a)* proposed and *(b)* approved under the second round of local transport plans; what the expected cost was of each scheme, including expected central government funding; and what estimate has been made of future levels of (i) traffic and (ii) carbon dioxide emissions under each scheme. [26751]

Ms Buck: The major schemes that are proposed in the second round of local transport plans fall into two categories. There are those for which we received Major Scheme Business Cases in July 2005 which contain detailed proposals, including costs. The remainder are those that authorities have indicated that they will be developing over the next few years for which there are fewer details.

The schemes for which we have business cases are set out in the table. Both the estimated total cost and the Department's contribution have been rounded to the nearest million.

Local authority	*Scheme name*	*Estimated total cost (£ million)*	*Estimated DfT contribution (£ million)*
Milton Keynes	Bletchley Link	10	9
Brighton and Hove	Rapid Transit System	22	20
Warwickshire	SPARK	15	13
Wolverhampton	Wolverhampton Railway Station	20	7
Sandwell / Dudley	Burnt Tree junction A4123/A461	10	10
Walsall	Brownhills Transport Package	21	19
Nexus (Tyne and Wear PTE)	Washington to Gateshead Bus Corridor	7	5
Sunderland	Sunderland Strategic Transport Corridor	69	69
Nottinghamshire	Mansfield Bus Station	8	8
Doncaster	Finningley and Rossington Route Scheme	158	93
Rotherham	Waverley Link Road	8	8
West Yorkshire PTE	Wakefield Westgate Station	7	7
Kirklees	Highways Strengthening and Bridge Maintenance	15	15
Bristol	Greater Bristol Bus Network	69	42
Gloucestershire	Gloucester Parkway Elmbridge Court	27	19
Somerset	Taunton Third Way and Northern Inner Distributor Road	27	14
Suffolk	Ipswich Town Centre Improvements	15	13
Norfolk	A140 Long Stratton Bypass	27	27
Herefordshire	Rotherwas Access Road	10	6
Sandwell	A41 Expressway/A4031 All Saints Way	20	20
Northamptonshire	A509 Isham to Wellingborough Improvement	14	14
East Riding	Beverley Integrated Transport Plan	28	24
Nottinghamshire	Pleasley Bypass Extension	17	17
Bridlington	Bridlington Integrated Transport Scheme	4	4
Essex	Thames Gateway A13/A130	71	71
Lancashire	Heysham to M6 Link Road	88	86
Blackpool	Blackpool and Fleetwood Tramway upgrade	96	72
Durham	East Durham Link Road	10	10
York	Haxby Station	4	3
Middlesbrough	A66 Middlesbrough	0	2
Leicestershire	A47 Earl Shilton Bypass	15	14
Greater Manchester	Greater Manchester Urban Traffic Control	14	14
South East Dorset	Canford Bridge	3	3

Decisions on these schemes will be taken in the spring of 2006, following the receipt of the advice from the regions on transport priorities.

These major schemes are being considered by the Department and are subject to economic appraisal using the NATA methodology which looks at both traffic and

emissions. However, neither carbon dioxide nor traffic levels are always explicitly identified as part of the appraisal, so it would not be possible to identify these elements for all schemes.

In terms of the other schemes in the second round of local transport plans, these range from specific proposals to descriptions of the problem that needs to be addressed. A list of the named proposals has been placed in the Libraries of the House. This list is not exhaustive and other proposals may be presented to the Department in the period.

We are unable to provide the estimated total cost or the Department's contribution at this stage as these proposals have not yet been formally submitted to the Department. No decisions have been taken on these schemes.

Pedicabs

Mrs. Dunwoody: To ask the Secretary of State for Transport (1) what steps he intends to take to address issues raised by the operation of pedicabs; [30841]

(2) if he will bring forward amendments to the Road Safety Bill *[Lords]* to regulate the operation of pedicabs; and if he will make a statement; [30842]

(3) if he will discuss with *(a)* Transport for London, *(b)* the Association of London Government, *(c)* the Licensed Taxi Drivers Association and *(d)* other interested parties the operation of pedicabs. [30843]

Ms Buck: Transport for London has made clear its intention to bring forward proposals for a licensing regime for pedicabs in London which they hope to have in place by next autumn. I look forward to these proposals.

The Department is very willing to hold further meetings with interested parties but Transport for London are in the lead on the introduction of a licensing regime.

Picnic/Rest Areas

Mr. Duncan: To ask the Secretary of State for Transport how many picnic and rest areas have been available for public use per mile of motorway in each year since 1997. [31180]

Dr. Ladyman *[holding answer 22 November 2005]:* In 1996, there were 52 motorway service areas in England; the equivalent of one for each 53.26km of motorway. Since then 16 further sites, listed in the table, have been added to the network increasing the frequency to one for each 43.38 km of motorway.

	Motorway	*Service area*
1997	M20	Maidstone
1998	M40	Oxford
	M56	Chester
1999	M1	Tibshelf
	M1	Donnington Park
	M5	Cullompton (north bound)
	M6	Stafford (south bound)
	M42	Hopwood Park
	M5	Bridgewater
2000	A1(M)	Doncaster North
2001	A1(M)	Peterborough
	A14/M11	Cambridge
	A1(M)	Baldock
	M3	Winchester
2003	M54	Castle Farm (Telford)
2004	M6(Toll)	Norton Canes

Railways

Gregory Barker: To ask the Secretary of State for Transport how much Government funding the rail infrastructure in East Sussex has received in each year since 1997; and what the projected funding is for the next 10 years. [29816]

Derek Twigg: The Department does not hold information on Government spending and investment on rail at a regional level. This is primarily because franchise areas often encompass two or more regions and Network Rail is structured on a route by route basis which also serves more than one region.

The Secretary of State made a statement to Parliament on 10 February 2005, *Official Report*, columns 93–96WS, setting out Government spending plans for rail as a whole to 2008–09.

Mrs. James: To ask the Secretary of State for Transport how much public subsidy First Great Western Trains Ltd. has received in each year since 1997; how much has been awarded against the company in penalties in each year; and if he will make a statement. [30727]

Derek Twigg: Great Western Trains Company Limited has received the cash subsidy and penalties set out in the following table for the years ending 31 March.

£ million

	Subsidy	*Penalty*
1997	61.9	—
1998	58.9	—
1999	53.3	(2.5)
2000	48.6	(2.2)
2001	42.8	(2.0)
2002	27.6	(5.4)
2003	8.7	(2.6)
2004	16.1	(2.0)
2005	(17.6)	(1.1)

Mrs. Dunwoody: To ask the Secretary of State for Transport how much compensation was paid to passengers for poor services by train operating companies in *(a)* 1997, *(b)* 1998, *(c)* 1999, *(d)* 2000, *(e)* 2001, *(f)* 2002, *(g)* 2003 and *(h)* 2004; and if he will make a statement. [26957]

Derek Twigg: The Department for Transport does not hold this information, which is a matter for the train operating companies.

John McDonnell: To ask the Secretary of State for Transport if he will list the statutory powers that enable the Government to provide compensation for train operating companies involved in industrial disputes. [29209]

Derek Twigg: The Secretary of State's power to enter into Franchise Agreements is contained in Section 23 of the 1993 Railways Act. The power to reimburse net losses of the Franchise Operator due to industrial action

is contained within individual Franchise Agreements. This power is entirely discretionary and in order to exercise it, the Secretary of State must be satisfied that the Franchise Operator has taken all reasonable steps to prevent industrial action as well as mitigating its effects.

Mrs. Dunwoody: To ask the Secretary of State for Transport how many rail carriages were *(a)* in operation and *(b)* replaced in the United Kingdom in each year between 1994 and 2004. [29034]

Derek Twigg: It is not possible to provide this information on a year-by-year basis between 1994 and 2004. The number of vehicles, on lease at the sale of the Rolling Stock Leasing Companies recorded in the invitation to tender in March 1995, was 10,401 vehicles. The number of vehicles on lease now is approximately 11,000 vehicles. This includes additional vehicles required for growth which were included as replacement for Mark 1 stock on the Southern TOCs and additional rolling stock which has been required to reflect increases in passenger numbers. The number of new vehicles which have been ordered and entered service are set out as follows:

	New vehicles entering service
1996	0
1997	0
1998	20
1999	153
2000	229
2001	602
2002	619
2003	658
2004	1,282
2005	6,471

[1] This is the position at Quarter 3 2005

Mr. Davey: To ask the Secretary of State for Transport what representations he has received regarding the use of the Waterloo International Terminal platforms for other international services once Eurostar has moved to St. Pancras in 2007. [29279]

Derek Twigg: Those representations that have been received by the Department have been in support of using the Waterloo International platforms for domestic passenger services. The Secretary of State confirmed in the House on 11 October 2005, *Official Report*, column 150, that the Waterloo International platforms would be retained for domestic passenger use once Eurostar services have moved to St. Pancras.

John Hemming: To ask the Secretary of State for Transport what *(a)* regulations and *(b)* advice (i) his Department and (ii) regulatory bodies within his Department's responsibility have issued to passenger train operators regarding the efficiency of passenger trains in terms of greenhouse gas emissions. [29305]

Derek Twigg: Neither the Department nor the regulatory bodies for which it is responsible have issued any regulations or advice regarding train efficiency to passenger train operators. The Department funds a research programme run by the Rail Safety and Standards Board, in which the Association of Train Operating Companies is actively engaged, which is considering possible ways of reducing the environmental impact of trains. The Department is also co-ordinating the procurement of the replacement of the Intercity 125 High Speed Train and is placing significant emphasis on ensuring fuel efficiency by the replacement.

TREASURY

Pensions

Mr. Laws: To ask the Chancellor of the Exchequer (1) what estimate he has made of the cost of harmonising tax regimes for defined benefit and defined contribution pension schemes on A-day next year for *(a)* each of the next five years, *(b)* 2020 and *(c)* 2030; [31205]

(2) what estimate he has made of the impact on costs of applying the tax regime for defined benefit pension schemes to defined contribution schemes. [31206]

Mr. Des Browne: Pension Tax Simplification, which takes effect from 6 April 2006, replaces the numerous existing complex tax regimes with a single universal regime for tax-privileged pension savings that covers both defined benefit and defined contribution schemes. This new regime will provide greater flexibility to some 15 million pension savers and redresses the current anomalies between defined benefit and defined contribution schemes in the level of contributions that can be made and what benefits can be taken. It is not correct to assume that we have harmonised both towards the tax treatment of either defined contribution or defined benefit; and we can not provide an estimate for the exchequer cost of such a policy.

The broad estimates for the exchequer costs of pension simplification over the first three years were given in paragraph 48 of the Regulatory Impact Assessment published in December 2003, which is available in the House of Common Library and the HMRC website at this address: http://www.hmrc.gov.uk/ria/simplifying-pensions.pdf

Mr. Laws: To ask the Chancellor of the Exchequer what estimate he has made of the amount of tax relief paid on contributions to public sector pension schemes for *(a)* 2003–04, *(b)* 2004–05, *(c)* 2005–06, *(d)* 2006–07, *(e)* 2010, *(f)* 2020 and *(g)* 2030. [31207]

Mr. Des Browne: Latest estimates of cost of tax relief on contributions to occupational pension schemes are included in Table 7.9 of the HMRC website:

http://www.hmrc.gov.uk/stats/pensions/7_9_sep05.pdf

The cost of tax relief on contributions to public sector schemes is not estimated separately from other occupational schemes.

Mr. Willetts: To ask the Chancellor of the Exchequer pursuant to the answer of 8 November 2005, *Official Report*, column 330W, on pensions, what the estimated proportion was of the benefit payments from unfunded public sector pension schemes in *(a)* 2013 and *(b)* at subsequent five yearly intervals relating to members who will join the scheme after April 2006. [30236]

Mr. Des Browne: The information requested could be obtained only at disproportionate cost.

Public Service Agreements

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how he intends to treat targets which have been partly met for the purposes of measuring performance against 2004 public service agreement target number nine. [29859]

Mr. Des Browne: Information on use of partly met and other measurement and definitions used for this target are set out in the published technical note, available at:

http://www.hm-treasury.gov.uk/documents/public_spending_and_services/publicservice_performance/pss_perf_technote.cfm

Mr. Philip Hammond: To ask the Chancellor of the Exchequer (1) whether the data required to measure 2004 public service agreement target number 8 are published; [29860]

(2) what specific targets have been set for the purposes of measuring performance against 2004 public service agreement target number 8. [29861]

Mr. Des Browne: I refer the hon. Member to the technical notes for the PSA targets, which set out details about measurement issues.

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what effect the change in the Treasury's assessment of the start and finish of the current economic cycle has had on measuring achievement against 2004 PSA target *(a)* 1 and *(b)* 4. [30059]

Mr. Des Browne: The Treasury will report against these targets in the forthcoming autumn performance report.

Tax Credits

Mr. Laws: To ask the Chancellor of the Exchequer if he will take steps to ensure that action to recover a tax credit debt when a couple split up and there is no ongoing award does not fall only on the member of the couple with continuing care of the child. [30008]

Mr. Des Browne: This is already the case. code of practice 26 "What happens if we have paid you too much tax credit?" sets out what happens where an award has ceased following the break-up of a couple and there remains an overpayment to be repaid.

Vera Baird: To ask the Chancellor of the Exchequer what criteria are used to determine the level of weekly instalments for the repayment of overpaid tax credits. [30428]

Mr. Des Browne: Code of Practice 26 "What happens if we have paid you too much tax credit?", sets out the maximum amounts by which the tax credits office will reduce payments to recover overpaid tax credits from a previous year.

For ceased tax credits awards, recovery can be made over a 12 month period. Alternatively, a repayment plan may be agreed with HMRC's debt management and banking and the factors that will be taken into account are published in the COP26.

TRADE AND INDUSTRY

Consumer Credit Directive

Mrs. Villiers: To ask the Secretary of State for Trade and Industry whether the Department has conducted cost impact assessments in relation to the proposed EU consumer credit directive. [30229]

Mr. Sutcliffe: Department of Trade and Industry produced a partial regulatory impact assessment on the European Commission's October 2004 proposal for a consumer credit directive as part of its consultation on the proposed directive published on 25 February this year (http://www.dti.gov.uk/ccp/consultpdf/creditdircondoc.pdf). Copies of the consultation document and a summary of responses (http://www.dti.gov.uk/ccp/consultpdf/creditdirresponse.pdf) have been deposited in the Libraries of the House. The Department will update its impact assessment in the light of the Commission's modified proposal, adopted on 7 October, and input from stakeholders.

Departmental Staff

Mr. Maples: To ask the Secretary of State for Trade and Industry who the Director of Estates and Facility is in his Department; what relevant specialist qualifications he or she holds; and what the details are of his or her career to date. [26316]

Alan Johnson: The Director of Estates and Accommodation for the DTI HQ estate is Mike Rainsford. Mr. Rainsford is a chartered engineer, a member of the Institution of Civil Engineers and the Chartered Institution of Water and Environmental Management. Mr. Rainsford worked for an international firm of consulting engineers before joining the civil service in 1987. Since then he has worked in a number of Departments, most recently the Department of Health where he held similar responsibilities from 1996 to 2003.

EU Directives

Mrs. Villiers: To ask the Secretary of State for Trade and Industry what assessment the Government have made of the impact on costs of the *(a)* removal of the UK opt-out from various aspects of the EU Working Time Directive, *(b)* Registration, Evaluation and Authorisation of Chemicals Regulation and *(c)* proposed EU Directive on agency and temporary workers; and if he will place of copy of the assessments in the Library. [29764]

Mr. Sutcliffe: Regarding the removal of the UK opt-out from various aspects of the EU Working Time Directive, the Government have conducted a number of regulatory impact assessments on the Working Time Regulations and their subsequent amendments. The initial introduction of the Working Time Regulations was estimated to cost £10 million a year in annually recurring implementation costs and around a £2 billion annual cost to employers. Subsequent regulatory impact assessments have estimated the costs of the various amendments to the original regulations, all being significantly less than the original introduction costs.

Regarding the European Commission's proposed Regulation on the Registration, Evaluation and Authorisation of Chemicals (REACH), the Government commissioned an impact assessment which estimated the direct costs of REACH on UK industry to be £515 million over 11 years. This impact assessment was published on 30 March 2004 as part of a Defra public consultation paper on REACH.

The Government subsequently commissioned a further assessment to look at the indirect costs of REACH through supply chains. This assessment was published on Defra's website in October 2005. The assessment concluded that industry is likely to be able to absorb the majority of the costs of REACH without significant impact on the competitiveness, location or market structure in the UK. However, in the case of a substance being withdrawn due to the failure of manufacturers or importers to support it through REACH, significant industry barriers may result in unexpected impacts (even where substitutes already exist).

The Government have drawn on the results of these impact assessments to identify improvements to REACH to ensure that it meets its objectives of delivering better protection for human health and the environment while not undermining competitiveness or hindering innovation.

Regarding the proposed EU Directive on agency and temporary workers, the Department of Trade and Industry published the final regulatory impact assessment on its website in April 2002. The regulatory impact assessment estimated direct costs to agencies and user enterprises to be in the region of £330 million to £596 million per year.

All regulatory impact assessments are placed in the Libraries of the House when the relevant Bill is laid in Parliament.

Hairdressers Registration Act

Mr. Amess: To ask the Secretary of State for Trade and Industry if he will make a statement on the operation of the Hairdressers Registration Act 1964. [28273]

Alun Michael: The 1964 Hairdressers Registration Act created the Hairdressing Council (HC) to establish and maintain a register of qualified hairdressers, its work is a matter for the council itself.

Manufacturing

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what recent assessment he has made of the manufacturing industry in Northamptonshire. [28090]

Alun Michael: The manufacturing industry in Northamptonshire was comprehensively assessed most recently as part of the Northamptonshire Integrated Local Employment Strategy (NILES). This was work undertaken on behalf of local partners by the Economic Development Arm of Northamptonshire county council and financed by the Council of Europe's European Social Fund. This found that Northamptonshire is characterised by a relative over-representation in employment in manufacturing with over 20 per cent. of employment being within that sector. It also found that the county was dependent on declining traditional manufacturing but that it was now attracting new higher level manufacturing with proposals for science and technology realms at the forefront of this drive.

In addition the Northamptonshire Chamber and Business Link continue to undertake regular Quarterly Economic Surveys. Their findings for the quarter ending September 2005 for the sector show the following results in relation to sales and business confidence:

For businesses involved in the UK market, excluding seasonal variations, over the past three months:

(a) In general sales/custom/bookings have either increased or remained constant.

(b) In general orders/advance custom/bookings have either increased or remained constant.

For businesses involved in overseas markets, excluding seasonal variations, over the past three months:

(a) The majority reported that overseas sales/custom/bookings have remained constant.

(b) The majority reported that overseas orders/advance custom/bookings have remained constant.

Business confidence:

(a) 65 per cent. believe 'Turnover' will improve over the next 12 months.

(b) 50 per cent. believe 'Profitability' will improve over the next 12 months.

A further survey carried out for the Chamber by the organisation 'Matters of Fact' and based on the latest figures from the Annual Business Inquiry 2003 show a continuing decline in the county's manufacturing base. Manufacturing businesses accounted for 10.3 per cent. of all businesses in 2001, and 10 per cent. in 2002 but this has fallen to 9.5 per cent. in 2003.

In terms of employment, its role remains significant with manufacturing businesses accounting for the biggest share—19.1 per cent.—of county employment. Within the sector the research also shows that the food and drink sector has become by far the most significant area of manufacturing in Northamptonshire in employment terms.

Obesity

Tim Loughton: To ask the Secretary of State for Trade and Industry (1) if he will assess the likely impact of obesity on productivity in *(a)* the next 12 months and *(b)* the next 10 years; [28242]

(2) what assessment he has made of the impact of obesity on productivity in the UK in each of the last five years for which figures are available. [28257]

Caroline Flint: I have been asked to reply.

In its report of 10 May 2004, The House of Commons Health Committee estimated that lost production through obesity related time off work was running at an annual rate of £1.3 billion to £1.45 billion. This estimate is an update of a National Audit Office Report, "Tackling Obesity in England" published in 2001, which puts this figure at £1.3 billion in 1998. In addition, there will be production losses through inability to work associated with illness brought on by obesity.

Obesity is on a rising trend. The National Audit Office predicts that by 2010 prevalence will have risen to 26 per cent. to 28 per cent. of the adult population. It is likely

that the impact on productivity will increase in step but no quantified forecast has been made of the prevalence of obesity or of its productivity effects.

Pirate Radio Stations

Mr. Pickles: To ask the Secretary of State for Trade and Industry when he last met Ofcom to discuss the change in the number of pirate radio stations. [30053]

Alun Michael: I have had no such discussions and the subject has not been raised with me by anybody since I took on my current responsibilities. Enforcement of legislation to control illegal radio broadcasting is the responsibility of the Office of Communications (Ofcom). Ofcom is the independent regulator for the communications sector, deriving its main powers and duties directly from statute rather than by delegation from the Secretary of State, and accountable to Parliament in its own right. Accordingly, I have had no discussions with Ofcom on this matter.

Post Office

Tim Farron: To ask the Secretary of State for Trade and Industry which objectives from the Counter Revolution Report published in 2000 the Government has achieved. [29968]

Barry Gardiner *[holding answer 21 November 2005]:* The Government accepted and implemented all of the PIU report recommendations. We continue to work with Post Office Ltd and stakeholders to deliver the PIU vision of a modern network meeting changing consumer needs.

Mr. Willetts: To ask the Secretary of State for Trade and Industry how many post offices have run out of cash to pay benefits in the last 12 months; and if he will make a statement. [30627]

Barry Gardiner *[holding answer 21 November 2005]:* This is an operational matter for Post Office Ltd. (POL) and the chief executive has been asked to reply direct to the hon. Member.

Mr. Bellingham: To ask the Secretary of State for Trade and Industry (1) how many post offices have closed in East Anglia since 2001; and if he will make a statement; [31250]

(2) how many post offices have closed in each of the last five years, broken down by region; and if he will make a statement. [31293]

Barry Gardiner: This is an operational matter for Post Office Ltd (POL). I have therefore asked the chief executive of POL to provide a direct reply to the hon. Member.

Regional Development Agencies

John McDonnell: To ask the Secretary of State for Trade and Industry how many staff each Regional Development Agency employs; what the total salary bill was of each agency in the last year for which figures are available; what the average salary per employee was in each region; and what the average staff salary per thousand head of population was in each region. [29003]

Alun Michael *[holding answer 21 November 2005]:* The following information is set out according to the RDA's annual reports for year ending 31 March 2004.

	Number of staff	*Total salary bill (£000)*	*Average salary*	*Mid year population estimate for 2004*[1]	*Proportion of staff salary per 1,000 head of population (£)*
AWM	308	14,901	48,380	5,334,000	2,794
EEDA	159	7,403	46,560	5,491,300	1,348
EMDA	210	7,352	35,010	4,279,700	1,718
LDA	303	12,196	40,251	7,429,200	1,642
NWDA	377	16,125	42,772	6,827,200	2,362
ONE	376	13,147	34,965	2,545,100	5,166
SEEDA	335	13,391	39,973	8,110,200	1,651
SWRDA	259	9,720	37,529	5,038,200	1,929
YF	351	12,989	37,006	5,038,800	2,578

[1] Source: Mid-year Population Estimates: Office for National Statistics (ONS)

Royal Family

Norman Lamb: To ask the Secretary of State for Trade and Industry which members of the Royal Family have taken part in trade visits to other countries in each of the last five years. [28630]

Ian Pearson: The following members of the Royal Family have taken part in trade visits:

2000

The Duke of Kent—Japan and China

The Duke of Gloucester and Nigeria

2001

The Duke of York—Korea, Indonesia, Singapore, Malaysia, Philippines, USA, Germany, Luxembourg, Ireland, Bulgaria, UAE, Oman and Kuwait

The Duke of Gloucester—Argentina

2002

The Duke of York—Germany, Switzerland, South Africa, USA, France, Japan

The Duke of Gloucester—Singapore

2003

The Duke of York—Greece, France, Poland and Czechoslovakia, USA and the Middle East

The Duke of Gloucester—Panama

2004

The Duke of York—Italy, Spain, Morocco, Middle East, China, Turkey, Sweden, Russia, USA, South East Asia, Italy and Switzerland

2005

The Duke of York—Middle East, Japan, Azerbaijan, Germany, France, Hungary, Slovakia and Korea.

Norman Lamb: To ask the Secretary of State for Trade and Industry if he will list each visit promoting UK business and onward investment undertaken by members of the Royal Family in each of the last five years; and what the total cost of each visit was broken down by *(a)* travel costs, *(b)* accommodation costs and *(c)* other costs. [28631]

Ian Pearson: We are unable to answer this question on the grounds of disproportionate costs.

Silent Telephone Calls

John Hemming: To ask the Secretary of State for Trade and Industry in what circumstances those making silent telephone calls will not be subject to action from Ofcom following Ofcom's publication of a new policy on silent calls. [28146]

Alun Michael: The matter raised is the responsibility of the Office of Communications (Ofcom). Ofcom is the independent regulator for the communications sector, deriving its main powers and duties directly from statute rather than by delegation from the Secretary of State, and accountable to Parliament in its own right. Accordingly, my officials have asked the chief executive of Ofcom to respond directly to the hon. Member and to send me a copy of his response. Copies of the chief executive's letter will also be placed in the Libraries of the House.

Telephone Preference Service

Norman Lamb: To ask the Secretary of State for Trade and Industry (1) how many companies have been subject to successful enforcement orders as a result of investigations into potential breaches of the Telephone Preference Service arrangements imposed by the Information Commissioner in each year since 1999; [28562]

(2) what the level of fines imposed on each of the companies which have been subject to enforcement orders for breaches of the telephone preference service arrangements was in each year since 1999. [28563]

Alun Michael: The Information Commissioner initially warns companies informally that it will initiate formal action unless they cease to make calls to registered numbers with the Telephone Preference Service. The Commissioner tells me that this approach has been effective to date without the need for formal action, but that he will have no hesitation in using the powers of his office if there is any evidence of a failure to comply with a warning.

Norman Lamb: To ask the Secretary of State for Trade and Industry what procedures Ofcom undertook to ensure that no conflict of interest arose from awarding the contract for Telephone Preference Services to Telephone Preference Services Ltd.; and if he will make a statement. [28564]

Alun Michael: The matter raised is the responsibility of the Office of Communications (Ofcom). Ofcom is the independent regulator for the communications sector, deriving its main powers and duties directly from statute rather than by delegation from the Secretary of State, and accountable to Parliament in its own right. Accordingly, my officials have asked the chief executive of Ofcom to respond directly to the hon. Member and to send me a copy of his response. Copies of the chief executive's letter will also be placed in the Libraries of House.

Unofficial Strikes

Andrew Rosindell: To ask the Secretary of State for Trade and Industry what the Government's policy is on unofficial strikes. [25209]

Mr. Sutcliffe: Whereas employees should be free to withdraw their labour, the Government consider that, in order to avoid disorderly industrial relations, the legal framework should encourage official over unofficial industrial action. As a result, the protection against dismissal for employees taking official, lawfully organised industrial action is significantly greater than for those taking unofficial action.

DEFENCE

Aldermaston Weapons Establishment

Norman Baker: To ask the Secretary of State for Defence (1) what proportion of spending on the Aldermaston Weapons Establishment has been on *(a)* UK subsidiary companies of US corporations and *(b)* US corporations in each year since 1997; [25010]

(2) what percentage of capital equipment purchased for the Aldermaston Weapons Establishment has been purchased in the US in each year since 1997; [25011]

Mr. Hancock: To ask the Secretary of State for Defence how much has been spent at Aldermaston in each of the last three years; how much was paid to *(a)* in-house services, *(b)* UK-owned companies, *(c)* US-owned and subsidiary companies and *(d)* other companies; and if he will make a statement. [25279]

John Reid: For details of expenditure at the Atomic Weapons Establishment (AWE) in the last three years, I refer to the answer I gave to the hon. Member for Banff and Buchan (Mr. Salmond) and my hon. Friend the Member for Islington North (Mr. Corbyn) on 10 October 2005, *Official Report*, column 15W.

AWE is a Government Owned Contractor Operated ('GOCO') establishment. The contract for the management and operation of AWE sites is with AWE Management Limited, and it is to this company that the Ministry of Defence makes payment against agreed milestones and requirements. Subject to the MOD proscribed national security and value for money considerations. It is for the contractor to price, place, manage and make payments against subcontracts in connection with the delivery of these requirements. Accordingly, the MOD does not maintain records of payments in the form requested.

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 3 November 2005, *Official Report*, column 1259W, on AWE Aldermaston, what further plans he has for additional funding for AWE Aldermaston. [28513]

John Reid: No decisions are required at present on the level of investment at AWE Aldermaston beyond financial year 2007–08. The Defence budget for the period 2008–09 to 2010–11 will be set in Comprehensive Spending Review 2007.

Armed Services (Recruitment)

Mrs. Humble: To ask the Secretary of State for Defence what the result was of his review of the documentation *(a)* setting out the rights and responsibilities of recruits to

the armed services and *(b)* explaining the nature of commitment they are undertaking; and if he will place a copy of that documentation in the Library. [26279]

Mr. Touhig: There are a number of publications that highlight to prospective applicants their rights while joining or serving in the armed forces:

Each naval service recruit signs a RN form which details the branch in which the recruit is entered, and the terms of the 'engagement'. Notice periods for voluntary discharge and grounds for compulsory discharge are listed.

The Army are currently in the process of producing a publication aimed at parents/guardians which aims to answer concerns in relation to young recruits joining the Army. The publication is due to be available by the end of March 2006. Also, job profiles given to new recruits explain the nature of their employment group in operations.

Twice during the inquiry/application process, RAF applicants receive a RAF form which sets out the terms and conditions of enlistment, their right to terminate their service and a statement that they may be required to serve worldwide.

The Tri-Service AFCO Form 5, "Application Form Information and Guidance Booklet", outlines the armed forces attitude towards bullying and harassment and the areas in which the service way of life differs from that of civilian society. These messages are reinforced during armed forces recruiting presentations which are open to applicants and their parents/ guardians.

These publications are kept under constant review.

Automated Signing Machines

Mr. Austin Mitchell: To ask the Secretary of State for Defence whether *(a)* he or *(b)* any other Minister in his Department uses (i) an automated signing machine and (ii) a stamp for ministerial correspondence purposes. [19874]

Mr. Touhig: No.

Guidance on handling ministerial correspondence is set out in 'Handling Correspondence from Members of Parliament, Members of the House of Lords, MEPs and Members of Devolved Assemblies: Guidance for Departments', copies of which are available in the Library of the House.

BAE Shipyard (Barrow)

Mr. Hoyle: To ask the Secretary of State for Defence what role the BAE shipyard at Barrow will play in *(a)* submarine and *(b)* surface shipbuilding for the Department. [28007]

Mr. Ingram: The BAE Systems shipyard at Barrow will continue to play a vital role in support of Ministry of Defence's submarine build programme.

It is open to companies which have the necessary capability and capacity to bid for surface shipbuilding work.

MOD is working closely with industry to develop a Maritime Industrial Strategy (MIS), which will encompass the submarine, ship support and shipbuilding elements of the UK's maritime industry and will seek to identify ways of achieving greater efficiency and long-term sustainment. The MIS is part of the wider Defence Industrial Strategy, which will develop a clear joint understanding, across Government and with industry, of the key industrial capabilities that will be required by Defence in the future.

Chinook HC2

Mr. Arbuthnot: To ask the Secretary of State for Defence whether the Chinook HC2 was issued with full Military Aircraft Release. [26614]

Mr. Ingram: Chinook HC2 aircraft clearances were first issued under what was then known as a Controller Aircraft Release in November 1993. The Controller Aircraft Release was re-named Military Aircraft Release in February 1999.

Decommissioning

Dr. Julian Lewis: To ask the Secretary of State for Defence pursuant to the answer of 15 November 2005, *Official Report*, columns 1087–88W, on fixed-wing capability, what the decommissioning dates are for HMS Illustrious and HMS Ark Royal; and what the maximum period is for which they can be postponed. [30171]

Mr. Ingram *[holding answer 22 November 2005]*: On present plans, HMS Illustrious is due to be withdrawn from service in 2012 and HMS Ark Royal in 2013. There is no pre-determined upper limit to the service life of a warship. How long a particular ship can remain in service will depend on a range of factors, including its material condition; certification for fire safety, stability and hull strength; its continued compliance with legislative requirements; and cost.

Departmental Estate

Sarah Teather: To ask the Secretary of State for Defence how many empty homes his Department owns; what the locations of these properties are; how many of these properties have been empty for more than six months; and how many of these properties his Department is prepared to offer to registered social landlords for short-term leases. [28824]

Mr. Touhig: The information requested is currently being obtained from a number of separate sources and will take time to collate. I will therefore write to the hon. Member and place a copy of my letter in the Library of the House.

Falklands

Mr. Gordon Prentice: To ask the Secretary of State for Defence what the cost was of maintaining the garrison in the Falklands in 2004. [29404]

Mr. Ingram: The costs of maintaining the garrison in the Falklands in financial year 2004–05 were £113 million.

Mr. Ancram: To ask the Secretary of State for Defence what discussions he has had with the South Atlantic Medal Association regarding commemorations for the 25th anniversary of the Falklands War; and if he will make a statement. [30914]

Mr. Touhig: My predecessor met the Chairman of the South Atlantic Medal Association (SAMA 82) in February of this year and agreed in principle that the main official commemoration in the United Kingdom would be in London on Sunday 17 June 2007. Officials are engaged in further discussions with representatives

of SAMA 82 and other interested organisations to develop plans. I intend to announce the detailed arrangements for the commemorations early next year.

Iraq

Dr. McCrea: To ask the Secretary of State for Defence how many soldiers based in Northern Ireland were serving in Iraq on the latest date for which figures are available. [30199]

Mr. Ingram: On 31 October 2005 there were some 50 soldiers committed to Northern Ireland but temporarily deployed in Iraq.

Daniel Kawczynski: To ask the Secretary of State for Defence how many service personnel from Shropshire are serving in Iraq. [30827]

Mr. Touhig: Data on the residential location of armed forces personnel are not held centrally in databases of individual records and it is therefore not possible to give figures by place of residence.

Joint Combat Aircraft

Dr. Julian Lewis: To ask the Secretary of State for Defence (1) what the target date is for bringing the first United Kingdom tranche of Joint Combat Aircraft into service; [30172]

(2) whether an agreement has been reached with the United States on dates by which *(a)* the first UK tranche and *(b)* subsequent UK tranches of the Joint Combat Aircraft must be purchased. [30173]

Mr. Ingram *[holding answer 22 November 2005]:* The in service dates (ISO) for the Joint Combat Aircraft will be set at the main manufacturing investment decision point. Our current planning assumption for bringing the aircraft into service in 2014. We are negotiating the terms of the memorandum of understanding for the co-operative production, support and follow on development phase with the US and seven other nations.

Married Quarters

Mr. Ancram: To ask the Secretary of State for Defence what his Department's disposal targets are for married quarters estate stock in each of the next three years. [23321]

Mr. Touhig: The table illustrates current planned disposals of the Ministry of Defence married quarters estate for each of the next three years. Further properties are likely to be identified for disposal as part of the continual review of service families accommodation requirements and rationalisation of the estate but it is too early to say how many.

Under a land agreement, 21 married quarters will be handed to the Gibraltar Government in 2006–07 and 44 in 2007–08. An additional 54 will be demolished during the period 2006 to 2009.

Country	Number by sale (financial year) 2006–07	2007–08	2008–09
England, Scotland, Wales	[1]568	[2]149	[2]221
Northern Ireland	0	339	0
Ascension/Falkland Islands	0	0	0
Cyprus	0	0	0

[1] Of which 488 will be handed back to Annington Homes Ltd (AHL).
[2] AHL hand backs.

National Minimum Wage

Ms Katy Clark: To ask the Secretary of State for Defence how many employees in his Department were affected by the rise in the national minimum wage on 1 October. [28969]

Mr. Touhig: None.

RAF Bases

Miss McIntosh: To ask the Secretary of State for Defence when he expects to publish his report on airfields; and if he will make a statement. [30652]

Mr. Ingram: As I explained to the hon. Member on 17 November 2005, *Official Report*, column 1126, the defence airfields review is taking the form of a series of business cases. Two of those have addressed the basing requirements for the Joint Combat Aircraft and the Nimrod MRA4. We intend to publish the Joint Combat Aircraft and Nimrod MRA4 basing studies on the Freedom of Information Publication Scheme shortly.

Special Advisers

John Hemming: To ask the Secretary of State for Defence if he will list the special advisers in post in his Department, broken down by pay band; and what the total budgeted cost to his Department of special advisers is for 2005–06. [29413]

Mr. Touhig: I refer the hon. Member to the answer given on 16 November 2005, *Official Report*, column 1256W, by my hon. Friend the Under-Secretary of State for the Cabinet Office to the hon. Member for Hemel Hempstead (Mike Penning).

Information relating to costs of special advisers for 2005–06 will be published after the end of the current financial year.

Warships

Mr. Gerald Howarth: To ask the Secretary of State for Defence pursuant to the answer of 2 November 2005, *Official Report*, column 1073W, on warships, when his Department first received notice from *(a)* Swan Hunter and *(b)* BAE Systems that further cost increases to the landing ships dock (Auxiliary) project were likely. [28335]

Mr. Ingram *[holding answer 21 November 2005]:* Swan Hunter initially indicated to the Ministry of Defence a potential cost increase to their programme in June 2005. BAE Systems notified a likely increase in August 2005.

SCOTLAND

Departmental Skills Development Plan

Mr. Gibb: To ask the Secretary of State for Scotland which individual is responsible for developing and implementing his Department's Skills Development Plan. [23838]

David Cairns: All the staff in the Scotland Office are on loan from the Scottish Executive or the Department for Constitutional Affairs (DCA).

Each department's human resources director is responsible for ensuring that their department develops and implements a skills development plan.

Mr. Gibb: To ask the Secretary of State for Scotland if he will place in the Library a copy of his Department's Skills Development Plan. [23863]

David Cairns: All the staff in the Scotland Office are on loan from the Scottish Executive or the Department for Constitutional Affairs (DCA).

Copies of the DCA Departmental Skills Development Plan 2004–09 and the 2005 update to the plan have been placed in the Libraries of both Houses.

The Lifelong Learning Strategy for Scotland was published in February 2003. It can be accessed using the following link; http://www.scotland.gov.uk/library5/lifelong/llsm-00.asp.

As referred to in this document, the Scottish Executive learning strategy sets out how the Executive plan to support their people through learning. This document is available internally through the Executive's intranet.

Departmental Staff

Mike Penning: To ask the Secretary of State for Scotland if he will list the 10 highest-paid employees in his Department; what the *(a)* job title and *(b)* salary including bonuses is of each; and whether the individual concerned is (i) a civil servant and (ii) a contractor in each case. [27435]

David Cairns: The salary ranges of the highest paid employees in the Scotland Office are listed in the Scotland Office Annual Report 2005. The costs of special advisers are published annually, details of which are given in the statement made by my right hon. Friend the Prime Minister on 21 July 2005, *Official Report*, columns 158–62WS.

The salary details of the other members of staff, all of whom are civil servants, are not released, as to provide this information for such a small number of staff (all of whom are below the Senior Civil Service grade) would be unfair on the grounds of their entitlement to privacy.

National Minimum Wage

Ms Katy Clark: To ask the Secretary of State for Scotland how many employees in his Department were affected by the rise in the national minimum wage on 1 October. [28975]

David Cairns: All the staff in the Scotland Office are on loan from the Scottish Executive or the Department for Constitutional Affairs (DCA). No staff on loan to the Office were affected by the rise in the national minimum wage on 1 October 2005.

Staff Discipline

David T.C. Davies: To ask the Secretary of State for Scotland how many employees have been dismissed by his Department in each of the last five years for which figures are available. [29133]

David Cairns: The Scotland Office was established on 1 July 1999. All the staff in the Office are on loan from the Scottish Executive or the Department for Constitutional Affairs (DCA), who remain the principal employers. Two staff were dismissed from the Office while on loan from the Scottish Executive; one in 2001 and one in 2002.

CULTURE, MEDIA AND SPORT

Amateur Dramatics

Mr. Hollobone: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the number of people who are members of amateur dramatic organisations which receive public funding. [30465]

Mr. Lammy: The information requested could be provided only at disproportionate cost.

Departmental Staff

Mike Penning: To ask the Secretary of State for Culture, Media and Sport how many staff in her Department were *(a)* civil servants, *(b)* contractors and *(c)* other staff in each year since 1997. [27445]

Mr. Lammy: The information is as follows:

(a) The numbers of civil servants are published in table C on Civil Service Statistics which covers permanent staff numbers (FTE basis) in each Department and Agency. Civil Service Statistics 2004 is available in the Library and on the Cabinet Office website.

(b) This information is not held centrally and could be supplied only at disproportionate cost.

(c) The figures are in the table:

	Number
1999	20
2000	10
2001	10
2002	Less than 5
2003	10
2004	10
2005	20

Gambling Act

John Penrose: To ask the Secretary of State for Culture, Media and Sport if she will take steps to enable part 3 of the Gambling Act 2005 to be brought into force as soon as possible. [30936]

Mr. Caborn: We propose to bring into force part 3 of the Gambling Act 2005, including provision for the prohibition of chain-gift schemes (section 43), as soon as the Gambling Commission becomes fully operational in September 2007.

Ministerial Travel

Norman Baker: To ask the Secretary of State for Culture, Media and Sport how much has been spent in each year from 1 May 1997 on ministerial travel, broken down by *(a)* provision and running costs of vehicular transport, *(b)* first-class travel by rail, *(c)* standard class travel by rail, *(d)* first-class travel by air, *(e)* club or equivalent class travel by air and *(f)* economy class travel by air. [27673]

Mr. Lammy: All ministerial travel is undertaken in accordance with the rules set out in the "Ministerial Code" and "Travel by Ministers", copies of which are available in the Libraries of the House.

(a) My hon. Friend the Parliamentary Under-Secretary of State for the Cabinet Office has asked Roy Burke, chief executive of the Government Car and Despatch Agency (GCDA) to write to the hon. Member with details of the costs of ministerial vehicles provided to Departments in 2004–05. Copies of his letter will be placed in the Library.

For information for the financial years 2000–01 to 2003–04 I refer the hon. Members to the letters from the chief executive of the GCDA to the hon. Member for Buckingham (John Bercow) dated 10 January 2005 and to the then hon. Member for Arundel and South Downs (Howard Flight) dated 13 September 2003. Copies of these letters are available in the Library.

(b) and *(c)* The detailed information requested could be provided only at disproportionate cost.

(d) In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. These report information for the financial years 1995–06 to 2004–05. Information for 2005–06 will be published as soon as it is ready after the end of the current financial year.

Mike Penning: To ask the Secretary of State for Culture, Media and Sport if she will list, for each year since 1995, the number of flights, including helicopter flights, taken by Ministers within her Department for UK and overseas visits; on how many occasions *(a)* charter flights were used and *(b)* first and club class tickets were obtained; and if she will indicate who accompanied the Ministers on each trip. [27810]

Mr. Lammy: All ministerial travel is undertaken in accordance with the rules set out in the Ministerial Code and Travel by Ministers, copies of which are available in the Libraries of the House.

In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The list indicates when non-scheduled flights were used, and shows how many officials accompanied Ministers in those circumstances. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. These report information reaching back to 1995–96. Information for 2005–06 will be published after the end of the financial year.

Between 2003–05 DCMS Ministers took 22 domestic flights. Information on officials accompanying Ministers and covering the period pre 2003 could be obtained only at disproportionate costs.

Smithfield Market

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport what discussions she has had with the Corporation of London on the heritage implications of plans to demolish the old Smithfield Market site. [28095]

Tessa Jowell: I have had no discussions with the Corporation of London on the heritage implications of the plans to demolish these buildings. DCMS officials liaised with the Corporation to obtain background information on the planning proposals for the site. However, such proposals cannot be taken into account in determining whether or not a building should be listed. Listing decisions are based solely on the architectural and historic merit of the buildings.

Olympic Lottery

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the likely impact on income for original lottery games as a result of the new Olympic lottery game. [27351]

Tessa Jowell *[holding answer 11 November 2005]:* We estimate the non-Olympic good causes may receive up to 5 per cent. less in income over the period from 2005 to 2013, as a result of sales diversion to Olympic lottery games. Sales of the initial Olympic lottery game have been good—we will monitor progress against the operator's forecast throughout the period.

Royal Regalia

Andrew Mackinlay: To ask the Secretary of State for Culture, Media and Sport which of the *(a)* Crown Jewels and *(b)* other items of royal regalia on display at the Tower of London are in public ownership. [29818]

Mr. Lammy: The Crown Jewels and other items of 'royal regalia' at the Tower of London are owned by Her Majesty in right of the Crown, as Sovereign, for Her successors and for the nation.

Ministerial Visits

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what ministerial visits she has undertaken since May; what the purpose was of each; and if she will make a statement. [24120]

Tessa Jowell: The answer is in the table.

Date of visit	Where to	Purpose
5 June 2005	Manchester	2005 EUAFA European Women's Championship—England v Finland
10–11 June 2005	Zambia	Next Step conference
14–15 June 2005	Rome	Bilateral with Italian Minister
18 June 2005	London	Expat and ethnic minority London 2012 tour
20 June 2005	Qatar	To discuss Women and Sport
21–24 June 2005	Japan	To discuss the creative economy in Japan
27 June 2005	Dublin	Meeting with Minister Dempsey
28 June 2005	Portugal	Meeting with Ministers for Culture and Youth and Sport
3–7 July 2005	Singapore	Decision on the 2012 Olympics
11 July 2005	London	Family Assistance Centre, set up after the 7/7 bombings
12 July 2005	London	Family Assistance Centre, set up after the 7/7 bombings
13 July 2005	London	Family Assistance Centre, set up after the 7/7 bombings
14 July 2005	London	Family Assistance Centre, set up after the 7/7 bombings and service in Trafalgar Square
15 July 2005	London	Family Assistance Centre, set up after the 7/7 bombings
27 July 2005	Stratford/East Ham	Visiting sites for 2012 Olympics
7 August2005	Cardiff	FA Community Shield Match
27–29 August 2005	Edinburgh	Edinburgh Festival
6 September 2005	London	Event to mark 7 years to go to the 2012 Paralympics
9 September 2005	Salford	School Sports Partnership—local school
11 September 2005	London	nPower Test Match
20 September 2005	Liverpool	Anthony Cormley exhibition
12 October 2005	Stratford, London	Tour of the Olympic Park
19 October 2005	Luton	Visiting local families who lost relatives in the Pakistan earthquake
20 October 2005	Hertford	Sport facilities at Richard Hale school
21 October 2005	Aberdeen	Opening of the old Town House

Music Television Channels (Premium Rate Calls)

Mrs. James: To ask the Secretary of State for Culture, Media and Sport what representations she has received about music television channels which invite viewers to make a premium rate telephone call to choose a music video. [30772]

James Purnell: None.

Mrs. James: To ask the Secretary of State for Culture, Media and Sport under what regulations music television channels in the United Kingdom operate, with particular reference to music television channels that use a premium rate telephone number displayed on screen. [30774]

James Purnell: The Communications Act 2003 has put in place a framework for the regulation of independent television broadcasting by the communications regulator, Ofcom. Ofcom regulates broadcasters' output through its broadcasting code, which sets out the rules and guidance with which broadcasters must comply. Section 10 of the code deals with commercial references within programmes, including the use of premium rate numbers in programmes. Under the code, any use of premium rate numbers must comply with the code of practice issued by the Independent Committee for the Supervision of Standards of Telephone Information Services (ICSTIS).

Special Advisers

John Hemming: To ask the Secretary of State for Culture, Media and Sport if she will list the special advisers in post in her Department, broken down by pay band; and what the total budgeted cost to her Department of special advisers is for 2005–06. [29414]

Mr. Lammy: Since 2003, the Government have published on an annual basis the names and overall cost of special advisers and the number in each payband. For the most recent information I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 July 2005, *Official Report*, columns 158–62WS.

Information on the numbers of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House. Information relating to costs for 2005–06 will be published after the end of the current financial year.

DEPUTY PRIME MINISTER

Age Discrimination (Housing)

Mr. Philip Hammond: To ask the Deputy Prime Minister what plans he has to prevent minimum age restriction covenants in relation to housing. [28618]

Yvette Cooper: Some local authorities set minimum age restrictions, for example on sheltered accommodation. We have no plans to prohibit such restrictions. However, local authorities do need to ensure that any restrictions do not restrict:

access to social housing for certain categories of applicants, or

the authority's ability to ensure that reasonable preference for social housing goes to those in the statutory reasonable preference categories.

Business Growth Incentives Scheme

Sarah Teather: To ask the Deputy Prime Minister which London boroughs benefited from the Local Authorities Business Growth Incentives scheme in 2004–05; what steps he will take to ensure that all London boroughs have the opportunity to take part in the scheme in future years; and if he will make a statement. [30143]

Mr. Woolas: All London boroughs have the potential to gain from the Local Authority Business Growth Incentives scheme which is due to make its first payments to eligible authorities in February 2006. The data needed to calculate which authorities will receive a payment under this scheme will not be available until January 2006.

Every local authority in England and Wales is included in the scheme, which is initially scheduled to run for three years. As announced to the House in July, there will be a review of the scheme in England following its first year of operation. This review will allow us to assess the scheme's appropriateness and success for all authorities, including for the London boroughs.

Consultants

Martin Horwood: To ask the Deputy Prime Minister if he will list projects conducted for his Office by consultants in each year since 2000; what the cost was in each case; and what the total cost of employing consultants was in each year. [29088]

Jim Fitzpatrick: The Office of the Deputy Prime Minister was formed in May 2002. This information is not held centrally and could be provided only at disproportionate cost.

Martin Horwood: To ask the Deputy Prime Minister what steps the Department takes to ensure that consultancies do not claim excessive expenses while working for his Department and its agencies. [29089]

Jim Fitzpatrick: The level of expenses paid to Consultants carrying out work on behalf of the Office of the Deputy Prime Minister (ODPM) and its Agencies is tied to the level of the Office's subsistence rates paid to civil servants of equivalent grade.

The ODPM's contracting process ensures that usage of the Office's subsistence rates is adhered to, by seeking all inclusive priced proposals from Suppliers. Contractor invoices are also subject to scrutiny by ODPM Officials.

Council Tax

Mrs. Spelman: To ask the Deputy Prime Minister whether the Government plan to introduce primary legislation to amend the council tax system in Wales after the Lyons inquiry has reported. [26916]

Mr. Woolas: The Government have no plans to introduce primary legislation to amend the council tax system in Wales.

Mark Hunter: To ask the Deputy Prime Minister at what level he expects to cap local authorities' council tax rises in the 2006–07 financial year. [30178]

Mr. Woolas: No decisions have been taken about capping in 2006–07 and beyond, but the Government will not hesitate to use its capping powers to protect council taxpayers from excessive council tax increases in future years.

There is no excuse for excessive council tax or spending increases.

Mrs. Spelman: To ask the Deputy Prime Minister what advice and guidance the Department has given to local authority IT *(a)* Departments and *(b)* suppliers in relation to the council tax revaluation in (i) England and (ii) Wales. [29708]

Mr. Woolas: The Office of the Deputy Prime Minister has provided no advice and guidance to local authority IT departments and suppliers in the relation to the council tax revaluation in England and Wales. Guidance on recommended IT measures relating to council tax revaluation and reform in England could not usefully have been provided until the shape of any reform was clear following ministerial decisions in the light of the recommendations of the Lyons Inquiry and responses to a public consultation following from that.

Council tax revaluation in Wales is a matter for the Welsh Assembly Government.

Mrs. Spelman: To ask the Deputy Prime Minister for how many residential properties in England the Valuation Office Agency has *(a)* dwelling house codes and *(b)* value significance codes data. [29716]

Mr. Woolas: As at 3 November 2005 the Valuation Office Agency had dwelling house code data on 21,265,910 out of 22,006,884 dwellings in England. On this date there were 1,794,709 dwellings with value significant codes.

Mrs. Spelman: To ask the Deputy Prime Minister whether *(a)* the Government and *(b)* the Valuation Office Agency conducted analysis of the likely effects of council tax revaluation in England prior to the announcement of its postponement. [29725]

Mr. Woolas: I refer the hon. Member to the answer given on 14 November 2005, *Official Report*, column 1030W.

Empty Properties

Mrs. Spelman: To ask the Deputy Prime Minister what estimate he has made of the likely number of empty dwelling management orders to be levied per year once the system is in operation. [26922]

Yvette Cooper: We do not know how far the possible use of an empty dwelling management order (EDMO) will give property owners an incentive to resolve the situation in advance. Therefore we do not know how many EDMOs will be used in practice. However, the regulatory impact assessment on empty dwelling management orders published by the Office of the Deputy Prime Minister in September 2004 estimates that local housing authorities would make approximately 1,000 EDMOs annually.

Fire Control Rooms

Mr. Andrew Turner: To ask the Deputy Prime Minister which of the fire authorities which have responded to his Department's proposals for the provision of regional fire control rooms have signified *(a)* agreement and *(b)* disagreement. [30875]

Jim Fitzpatrick *[holding answer 22 November 2005]:* All fire and rescue Regional Management Boards, which represent the Fire and Rescue Authorities, have written to the Office of the Deputy Prime Minister indicating that they accept the proposals for regional fire control centres.

Mr. Andrew Turner: To ask the Deputy Prime Minister under what legal authority his Department proposes to *(a)* establish regional fire control rooms and *(b)* contract with the private sector for the provision of fire control rooms. [30876]

Jim Fitzpatrick *[holding answer 22 November 2005]*: There are powers in section 29 of the Fire and Rescue Services Act 2004 that provide the necessary authority. Development agreements for the construction of the new control centres were concluded using these powers. The single technology/infrastructure services procurement is being conducted under the same powers. The responsibility for operating the control centres will however remain in public sector. Each control centre will be run as a local authority company, owned by the relevant fire and rescue authorities.

Firelink Project

Mr. Drew: To ask the Deputy Prime Minister whether he has commissioned a risk assessment of the Firelink project. [31101]

Jim Fitzpatrick: As required by the Office of Government Commerce good practice and Prince 2 methodology the management of the Firelink project includes detailed risk assessments and mitigation procedures. The evaluation of the competing bids also took into account risk. External assurance is provided through the Office of Government Commerce Gateway reviews. The most recent review was Gateway 3 (investment decision) conducted in October 2005.

Mr. Drew: To ask the Deputy Prime Minister if he will place in the Library the technical requirements for the Firelink project produced by the Firelink Board. [31103]

Jim Fitzpatrick: A copy of the technical requirements for the Firelink project will be placed in the Library of the House following contract signature, which is anticipated to take place by the end of 2005.

Housing

Shona McIsaac: To ask the Deputy Prime Minister pursuant to the answer of 14 November 2005, *Official Report*, columns 1037–38W, on housing, if he will break down the figures provided by housing type. [29990]

Mr. Woolas: The answer of 14 November 2005, *Official Report*, columns 1037–38W, gave the total number of vacant dwellings in North East Lincolnshire and North Lincolnshire. These figures, broken down by tenure type, are tabled as follows:

	2001	*2002*	*2003*	*2004*	*2005*
North East Lincolnshire					
Total	2,890	3,001	2,628	2,689	2,727
Of which:					
Local authority (LA)	479	424	292	318	0
Registered social landlord (RSL)	52	46	61	77	311
'Other' public sector	0	0	0	0	0
Private sector (non RSL)	2,359	2,531	2,275	2,294	2,416
North Lincolnshire					
Total	3,361	3,020	2,522	2,143	2,035
Of which:					
Local authority (LA)	432	500	367	260	200
Registered social landlord (RSL)	53	27	29	40	18
'Other' public sector	0	74	37	62	41
Private sector (non RSL)	2,876	2,419	2,089	1,781	1,776

Source:
The figures for numbers of vacant dwellings given above are based on three sources: Total from ODPM's Council Tax Base 1 return; LA and 'Other' public sector from ODPM's Housing Strategy Statistical return; RSL from Housing Corporation's Regulatory Statistical Return; and the private sector is obtained by subtracting all these three separate tenure figures from the total.

National Minimum Wage

Ms Katy Clark: To ask the Deputy Prime Minister how many employees in his Department were affected by the rise in the national minimum wage on 1 October. [28970]

Jim Fitzpatrick: None—the pay rates of all staff employed in the Office of the Deputy Prime Minister are above the national minimum wage.

Non-departmental Public Bodies

Mr. Amess: To ask the Deputy Prime Minister if he will list his Department's advisory non-departmental public bodies *(a)* which the Government are required to consult prior to legislative proposals and *(b)* whose advice the Government are required to publish. [29748]

Jim Fitzpatrick: The Office of the Deputy Prime Minister currently sponsors four advisory non-departmental public bodies:

the Advisory Panel on the Beacon Scheme;

the Advisory Panel on Standards in the Planning Inspectorate;

the Building Regulations Advisory Committee; and

the National Community Forum.

For *(a)*, the only one of these bodies that the Government are required to consult prior to the introduction of new legislation is the Building Regulations Advisory Committee for proposals on building regulations under Section 14(3) of the Building Act 1984. For *(b)* the Government are not required to publish advice provided by any of the bodies.

Overcrowded Housing

Sarah Teather: To ask the Deputy Prime Minister when his Department plans to monitor its performance in reducing the number of families with children living in overcrowded housing as part of public service agreement 5. [28895]

Yvette Cooper: The Office of the Deputy Prime Minister (ODPM) currently uses five key indicators for monitoring performance on PSA5 including the number of families with children in temporary accommodation. On this, the trend has been stabilised since September 2004, with significant reductions since 2002 in the number of families with children living in cramped bed and breakfast hotels.

The ODPM is currently considering the way forward on addressing overcrowding including the statutory overcrowding standards.

Property Valuation

Sarah Teather: To ask the Deputy Prime Minister what the maximum penalties are for *(a)* refusing access to a valuation officer, *(b)* failing to give information about a house to a valuation officer and *(c)* giving wrong or misleading information about a house to a valuation officer. [30705]

Mr. Woolas *[holding answer 21 November 2005]:* For council tax purposes under the Local Government Finance Act 1992:

(a) The maximum fine for refusing access to a valuation officer who has given notice as required of the exercise of the power of entry is level 2 on the standard scale.

(b) The maximum fine for failing to give information about a house to a valuation who has served notice as required is level 2 on the standard scale.

(c) The maximum penalty for giving wrong or misleading information to a valuation officer who has served notice as required, is imprisonment for a term not exceeding three months, a fine not exceeding level 3 on the standard scale, or both.

No such fines or penalties have been invoked to date and any such fine or penalty would be imposed by the courts and not by the Valuation Office Agency.

Public Service Agreements

Mr. Philip Hammond: To ask the Deputy Prime Minister when he will publish the full specifications of 2004 Public Service Agreement target number 4. [29953]

Jim Fitzpatrick: The target is being finalised and will be published together with a revised draft technical note shortly.

Special Advisers

John Hemming: To ask the Deputy Prime Minister if he will list the special advisers in post in his Office, broken down by pay band; and what the total budgeted cost to his Department of special advisers is for 2005–06. [29412]

Jim Fitzpatrick: I refer the hon. Member to the answer given by my hon. Friend the Parliamentary Under-Secretary of State for the Cabinet Office to the hon. Member for Hemel Hempstead (Mike Penning) on 16 November 2005, *Official Report*, column 1257W.

Information relating to costs for 2005–06 will be published after the end of the current financial year.

WALES

Consultants/Special Advisers

Martin Horwood: To ask the Secretary of State for Wales what mechanisms are in place to assess the effectiveness of consultant-led projects in his Department; what sanctions are available to penalise consultants who run unsuccessful projects, how many projects conducted by consultants were assessed as unsuccessful in each year since 2000; and what sanctions were imposed. [29050]

Mr. Hain: In June 2003 the Wales Office became a separate entity within the Department for Constitutional Affairs (DCA). We follow DCA's guidance for the procurement and management of consultancy services. We have not assesses any projects as unsuccessful since 2000.

Martin Horwood: To ask the Secretary of State for Wales what steps his Department takes to ensure that consultancies engaged by his Department do not claim excessive expenses. [29051]

Mr. Hain: In June 2003 the Wales Office became a separate entity within the Department for Constitutional Affairs (DCA).

The Wales Office uses the DCA's standard contract documentation, which sets contract terms including the payment of expenses. Where payment of expenses is considered necessary, these must be based on actuals and in line with civil service travel and subsistence rates.

It is the responsibility of the individual contract manager to ensure that any payments of expenses are in line contract terms.

Martin Horwood: To ask the Secretary of State for Wales if he will list departmental projects conducted by consultants in each year since 2000; what the cost was in each case; and what the total cost of employing consultants was in each year. [29052]

Mr. Hain: The Wales Office was established on 1 July 1999, and since then the follow projects were conducted by consultants:

2000–01—£16,294 was spent to design the Wales Office logo and website.

2001–02—£31,084 was spent on reviews of staff and management systems and lawyer's fees.

2002–03—£10,758 was spent on lawyer's fees.

Mike Penning: To ask the Secretary of State for Wales how many *(a)* consultants and *(b)* special advisers were employed by his Department in each year since 1997; what the cost of each was in each year; and if he will make a statement. [27418]

Mr. Hain: The information is as follows:

(a) The Wales Office was created in July 1999. The number and spend on consultants since then has been:

	Number	£
1999–2000	0	0
2000–01	2	16,294
2001–02	3	31,084

	Number	£
2002-03	1	10,758
2003-04	0	0
2004-05	0	0

(b) The number and salary range of special advisers were:

	Number
Salary range: £24,349 to £48,698	
1999-2000	1
2000-01	1
2001-02	1
2002-03	1
2003-04	2
2004-05	2

Council Tax Revaluation

Mrs. Spelman: To ask the Secretary of State for Wales what estimate the Valuation Office Agency has made of the number of domestic dwellings that received *(a)* an external inspection and *(b)* an internal inspection as part of the council tax revaluation in Wales. [30281]

Nick Ainger: The Valuation Office Agency has made no such estimate.

Departmental Estate

Dr. Cable: To ask the Secretary of State for Wales which buildings and sites used by his Department and related agencies *(a)* have ceased to be used in the last year and *(b)* will be closed under current plans for relocation. [31734]

Mr. Hain: None.

Departmental Staff

Mike Penning: To ask the Secretary of State for Wales how many staff in his Office were *(a)* civil servants, *(b)* contractors and *(c)* other staff in each year since 1997. [27447]

Mr. Hain: The Wales Office was established on 1 July 1999.

Information relating to staffing numbers can be found in the Wales Office Annual Departmental Report 2005 section 5.7.

This publication is available via the Wales Office website: www.walesoffice.gov.uk and from the Libraries of the House.

Mike Penning: To ask the Secretary of State for Wales if he will list the 10 highest-paid employees in his Department, broken down by *(a)* job title and *(b)* salary including bonuses; and whether the individual concerned is (i) a civil servant and (ii) a contractor in each case. [27575]

Mr. Hain: The Wales Office was established on 1 July 1999.

Information relating to staffing numbers can be found in the Wales Office Annual Departmental Report 2005, section 5.7. Details of individual salaries are not published save the number of senior civil service staff and salary range in the annual report at annex 5.

These publications are available on the Wales Office website: www.walesoffice.gov.uk and from the Libraries of the House.

Dr. Cable: To ask the Secretary of State for Wales what plans he has to relocate staff in his Department and related agencies into London and the South East. [31736]

Mr. Hain: None.

Identity Cards

Lynne Jones: To ask the Secretary of State for Wales what estimate he has made of the *(a)* total and *(b)* net cost of (i) integrating the proposed identity card scheme into his Department's IT systems and (ii) the ongoing operation of the scheme within his Department. [31116]

Mr. Hain: None.

Ministerial Travel

Norman Baker: To ask the Secretary of State for Wales how much has been spent in each year from 1 May 1997 on ministerial travel, broken down by *(a)* provision and running costs of vehicular transport, *(b)* first-class travel by rail, *(c)* standard class travel by rail, *(d)* first-class travel by air, *(e)* club or equivalent class travel by air and *(f)* economy class travel by air. [27669]

Mr. Hain: The Wales Office was established on 1 July 1999.

All ministerial travel is undertaken in accordance with the rules set out in the "Ministerial Code" and "Travel by Ministers", copies of which are available in the Libraries of the House.

For information on *(a)* my hon. Friend the Parliamentary Under-Secretary of State for the Cabinet Office, (Mr. Murphy) has asked Roy Burke, chief executive of the Government Car and Despatch Agency (GCDA) to write to the hon. Member with details of the costs of ministerial vehicles provided to Departments in 2004-05. Copies of his letter will be placed in the Library.

For information for the financial years 2000-01 to 2003-04, I refer the hon. Member to the letters from the chief executive of the GCDA to the hon. Member for Buckingham (John Bercow) dated 10 January 2005. Also, to the then hon. Member for Arundel and South Downs (Howard Flight) dated 13 September 2003. Copies of these letters are available in the Library.

(b) and (c): Total ministerial rail travel costs each year since 1999-2000

	£
1999-2000	35,239
2000-01	62,121
2001-02	84,423

(b) and (c): Total ministerial rail travel costs each year since 1999–2000

	£
2002–03	124,035
2003–04	67,895
2004–05	10,568

Note:
These figures can be split between first-class and standard class, only at a disproportionate cost.

(d), (e) and (f): Air travel

	£
1999–2000	105
2000–01	6,851
2001–02	5,283
2002–03	695
2003–04	95
2004–05	4,366

Note:
These figures can be split between different classes only at a disproportionate cost.

Staff Discipline

David T.C. Davies: To ask the Secretary of State for Wales how many employees have been dismissed by his Department in each of the last five years for which figures are available. [29137]

Mr. Hain: The Wales Office has not dismissed any staff in any of the last five years.

EDUCATION AND SKILLS

Ability Grouping

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to the answer of 8 November 2005, *Official Report*, column 444W, on ability grouping, on what basis it was decided to remove the requirement for Ofsted inspectors to distinguish between setting and banding by ability in the information recorded about lessons. [29557]

Jacqui Smith: This is a matter for Ofsted. HM Chief Inspector, David Bell, has written to the hon. Member and a copy of his letter has been placed in the Library.

Letter from David Bell to Mr. Nick Gibb, dated 21 November 2005:

Parliamentary Questions 29556/29557/29558: Setting and Banding by Ability

Your recent parliamentary questions have been referred to me, as Her Majesty's Chief Inspector of Schools, for reply.

In sum, you asked:

the Secretary of State for Education and Skills if she will revise Ofsted inspection criteria to include monitoring of the proportion of classes that are banded by ability (PQ 29556)

the Secretary of State for Education and Skills on what basis it was decided to remove the requirement for Ofsted inspectors to distinguish between setting and banding by ability in the information recorded about lessons (PQ 29557)

the Secretary of State for Education and Skills what percentage of lessons was recorded as banded by ability in *(a)* Year 7, *(b)* Year 8, *(c)* Year 9, *(d)* Year 10 and *(e)* Year 11 in secondary schools inspected by Ofsted in each year between 1995 and 2004 (PQ 29558).

In response to Parliamentary Question 29556, Ofsted introduced a new framework and guidance for inspections under section 5 of the Education Act 2005 from September 2005. Although these will be kept under review, there are no plans to change them in the immediate future. The observation of lessons is no longer conducted in the same way as under the previous inspection regime (under section 10 of the School Inspections Act) and in Ofsted's view it would not be appropriate to ask inspectors to collect information about the proportion of classes that are grouped by ability on every section 5 inspection.

In response to Parliamentary Question 29557, changes were made in 2003/04 so that Ofsted had information about the level of ability of groups as well as whether pupils were grouped by ability for their lessons. The information about ability levels was not previously available. To avoid over-complexity, the distinction between banding and setting was removed. In making judgements, Ofsted felt that it was not important for inspectors to know whether pupils were grouped by ability or not, rather than knowing the precise arrangements through which this was achieved. In some schools the distinction between banding and setting is blurred.

In response to Parliamentary Question 29558, the table (see Appendix 1) includes the information you required for the years 1996/97 to 2002/03. The data were not recorded in 1995/96 and from September 2003 inspectors were not required to distinguish between setting and banding in the information they recorded about lessons.

A copy of this reply has been sent to Jacqui Smith and will be placed in the library of both Houses.

Appendix 1: Percentage of banded lessons, 1996 to 2003

	1996/97		1997/98		1998/99		1999/2000	
Year group	Total number of lessons observed	Percentage of banded lessons	Total number of lessons observed	Percentage of banded lessons	Total number of lessons observed	Percentage of banded lessons	Total number of lessons observed	Percentage of banded lessons
Year 7	27,542	6.4	16,414	8.3	22,361	5.3	17,544	4.9
Year 8	27,431	8.1	16,341	9.6	21,792	6.3	16,769	6.1
Year 9	27,161	7.5	16,692	9.2	23,489	6.6	18,810	6.6
Year 10	24,651	3.9	17,047	5.2	24,481	4.0	18,536	3.3
Year 11	38,008	3.6	17,686	4.9	24,543	3.9	18,490	3.3
Total year 7–11	144,793	5.8	84,180	7.4	116,666	5.2	90,149	4.8

	2000/01		2001/02		2002/03	
Year group	Total number of lessons observed	Percentage of banded lessons	Total number of lessons observed	Percentage of banded lessons	Total number of lessons observed	Percentage of banded lessons
Year 7	14,011	4.9	12,532	4.6	11,257	4.5
Year 8	13,416	6.1	11,552	5.1	10,255	5.5
Year 9	16,117	6.5	14,388	5.5	13,152	5.9

Year group	2000/01 Total number of lessons observed	2000/01 Percentage of banded lessons	2001/02 Total number of lessons observed	2001/02 Percentage of banded lessons	2002/03 Total number of lessons observed	2002/03 Percentage of banded lessons
Year 10	14,802	3.7	13,212	2.7	12,073	3.1
Year 11	15,108	3.2	13,812	2.5	12,982	2.8
Total year 7–11	73,454	4.9	65,496	4.1	59,719	4.3

Notes:
1. Framework changes occurred in January 2000 and September 2003. Changes in the way groupings in lessons were recorded may mean that data are not directly comparable from periods of one framework to another.
2. From January 2000 to July 2003, the inspection arrangements included full and short inspections. The majority of lessons observed will have been in full inspections. The most effective schools had short inspections.

Access to Learning

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what response her Department has made to the report of the National Audit Office on extending access to learning through technology; and if she will make a statement. [31263]

Phil Hope: My Department welcomes the National Audit Office's report on the Ufi and the learndirect service. Overall, the report is very positive. It points out that learndirect has been innovative and, within a few years, has become the largest educational provider of its type in the world. Ufi has an ambitious plan for working more with employers. The report also highlights that more than 1.7 million people have already used learndirect's services, many of whom would not otherwise have undertaken learning.

Adult Education

Bob Spink: To ask the Secretary of State for Education and Skills what assessment she has made of the impact of adult education courses on the quality of life of students; and if she will make a statement. [31226]

Phil Hope: The Government believe that the most important thing we can do to improve the quality of life for disadvantaged and excluded individuals and their families is to raise their prospects of a productive, sustainable employment. This is why the priorities for public funding of adult learning are helping individuals to attain the platform of employability represented by improved basic skills and a first full level 2 qualification. In addition, work for my Department by the centre for the wider benefits of learning shows that participation in adult learning has beneficial effects on a wide spectrum of measures which relate to the quality of life both for the individual and for society as a whole. These include smoking, exercise taken, life satisfaction, and attitudes such as race tolerance, authoritarianism, political cynicism, political interest, and voting behaviour.

Autism

Lynne Featherstone: To ask the Secretary of State for Education and Skills which *(a)* local authorities and *(b)* primary care trusts are making use of the autism exemplar in the disabled children's module of the National Service Framework for Children 2004. [29259]

Maria Eagle: The Government do not keep records of which local authorities and primary care trusts are using the autism exemplar which was distributed widely as part of the National Service Framework for Children, Young People and Maternity Services. The exemplars included in the National Service Framework (NSF) are designed to illustrate the key themes of the NSF. It is the decision of local authorities and primary care trusts as to whether they use the exemplars. One example of the use of the exemplar is from the West Midlands Special Educational Needs Regional Partnership which is using it as part of a set of guidelines for local authorities when identifying or diagnosing Autistic Spectrum Disorder.

Lynne Featherstone: To ask the Secretary of State for Education and Skills how many copies of her Department's Early Support publication Information for Parents: Autistic spectrum disorders and related conditions have been delivered to parents since 2004. [29260]

Maria Eagle: Since this publication was published alongside other Early Support materials in June 2004, some 35,000 copies have been sent out by the Department's Publications Centre. Copies have been sent to professionals and to autism support groups, such as the National Autistic Society and the Parents' Autism Campaign for Education who helped in the writing of the booklet, to distribute to parents. Other parents have requested the booklet directly. It is not possible to say how many copies of the total distribution have gone to parents.

Belford College, Werneth

Mr. Cameron: To ask the Secretary of State for Education and Skills on what criteria the decision to close Belford College in Werneth, Oldham, was based; how much notice was given to parents of learners; and what alternative provision will be made. [28688]

Bill Rammell: The Learning and Skills Council (LSC) informed Belford College on 17 October 2005 that it would terminate its contract for the provision of education and training. Pending a final decision about the College's future, the LSC has appointed a dedicated team of educational advisers, experienced in the field of complex learning difficulties and/or disabilities, to ensure appropriate alternative provision is focused for the young people affected. This team has been working with parents, Connexions and other local partners to explore appropriate options for the young people. They are now finalising the details of alternative arrangements that are intended to take effect from January 2006 for all 11 learners at the College. A further meeting with parents and the LSC is planned to take place shortly.

The parents of the learners at the College were informed in a letter from their local LSC in week commencing 17 October that the LSC had made a decision to terminate the contract for the provision of education and training with Belford College from 31 December 2005. The LSC's original intention was to

give the College notice that the contract would terminate in February 2006. Following discussion with the College, the LSC agreed to the College's request to terminate the contract on 31 December 2005. The College have since requested that his date be varied and the LSC are considering this request.

The funding decision follows an Ofsted and Adult Learning Inspectorate inspection of Belford College in February 2004 when overall provision was judged to be inadequate. Since then Ofsted has undertaken a series of monitoring visits and an annual assessment visit to the college. The LSC is concerned about the rate of progress made by Belford College in addressing the weaknesses identified in the Inspection. In view of this, the LSC has made the difficult decision to terminate the College's contract.

Business Studies

Mr. Andrew Turner: To ask the Secretary of State for Education and Skills what assessment she has made of the provision of education about business and enterprise in schools in *(a)* 1997 and *(b)* the most recent year for which information is available; which schools offered such education in each year since 1997; what average number of hours of such education was offered to pupils of (i) primary, (ii) secondary and (iii) sixth form age groups in each year since 1997; what proportion of teachers received training in the delivery of such education in each year since 1997; and what the Government's target level of provision for such teaching is for (A) hours per week and (B) proportion of schools. [31237]

Jacqui Smith: The Department does not collect data of the type sought, nor set targets as described.

Enterprise education is a key factor in improving future competitiveness. Following the Davies Review of 2002, in 2003 we launched Pathfinders involving 700 schools over two years, to develop the first national guidance on Enterprise Education. This was disseminated at 47 regional conferences between May and July 2005, attracting 67 per cent. of all secondary schools. Business and Enterprise Colleges came into the specialist schools programme for the first time in 2002, and in March 2005 there were 201 such specialist schools. We have allocated £60 million a year for the three academic years from September 2005 to support a new focus on enterprise education in all secondary schools.

Child Protection

John Hemming: To ask the Secretary of State for Education and Skills how many children have been placed on the child protection registers by child protection committees as a result of an allegation of Munchhausen Syndrome by Proxy in each year since 2002; and how many of those children were taken into care. [30111]

Maria Eagle: The Department for Education and Skills does not collect this information, as 'Munchausen Syndrome by Proxy' is not a recommended category for registration on child protection registers, nor is it a ground for the making of care orders under section 31 of the Children Act 1989.

Children's Diets

Andrew Rosindell: To ask the Secretary of State for Education and Skills what assessment she has made of the relationship between pupils' diet and *(a)* behaviour and *(b)* academic attainment. [25185]

Jacqui Smith: The Department has made no assessment of the relationship between pupils' diet, behaviour and academic attainment. However, a healthy, balanced diet is a key factor in protecting health and promoting children's proper growth and development.

The Food Standards Agency has recently commissioned a review on diet and behaviour in school children that will scope the evidence base to assess the effect of nutrition, diet and dietary change on school children's learning and performance (i.e. on academic tests, behaviour, attendance and motivation). The final report is expected in April 2006.

Correspondence

Mr. Winnick: To ask the Secretary of State for Education and Skills when she will reply to the letter of 10 October from the hon. Member for Walsall, North regarding a school in Walsall, North constituency. [30582]

Jacqui Smith: I responded to my hon. Friend's letter on 22 November.

Departmental Assets

Mike Penning: To ask the Secretary of State for Education and Skills if she will list the 10 most valuable *(a)* movable and *(b)* immovable assets owned by her Department. [27389]

Maria Eagle: The most valuable assets owned by the departmental group are as follows:

Movable assets (net book value as at 31 March 2005)

Owning organisation	*£000*
Work Based Learning software (LSC)	3,127
Sure Start IT system (DfES)	1,707
ESF software (LSC)	1,391
Bulk furniture 2003–04 (DfES)	1,355
Bulk computers 2004–05 (DfES)	1,210
Bulk furniture 2001–02 (DfES)	1,160
Dual datacentre computer system, Moorfoot (DfES)	1,014
Bulk furniture 2000–01 (DfES)	958
Online systems software (LSC)	932
Dual datacentre computer system, London (DfES)	871

Immovable assets (net book value as at 31 March 2005)

Owning organisation	*£000*
National College for School Leadership building (DfES)	25,660
Moorfoot, Sheffield building (DfES)	13,262
Castle View House, Runcorn building (DfES)	6,662
National office major structural fit out works (LSC)	5,340
Mowden Hall, Darlington building (DfES)	3,353
Culham Estate, Oxford building (DfES)	2,104
Caxton House, London capital expenditure on lease office 1998–99 (DfES)	1,396
Bircham training centre (CITB)	1,188
Greater Manchester major structural fit out works (LSC)	1,179
Moorfoot, Sheffield land (DfES)	1,171

CITB—Construction Industry Training Board.
DfES—Department for Education and Skills.
LSC—Learning and Skills Council.

Departmental Procurement

Mr. Gibb: To ask the Secretary of State for Education and Skills if she will make a statement on her Department's procurement policy. [28179]

Bill Rammell: My Department's procurement policy is to secure value for money, primarily through competition, in accordance with the Government and wider legal framework.

It is also departmental procurement policy to promote non-discriminatory competition and selection of contractors on criteria related to the economic benefits of the contract taking sustainability and diversity into account where appropriate.

Contracts are awarded on either:

(a) a lowest price basis which is used for very straightforward or closely specified goods and services where all other aspects for example delivery or quality, are standard across the market; or

(b) an economically most advantageous basis using a combination of whole life cost and quality to meet our requirements. The emphasis on whole life costs means that our purchasers take account of all aspects of cost, including running and disposal costs, as well as the initial purchase price.

Education Funding

Kelvin Hopkins: To ask the Secretary of State for Education and Skills pursuant to the Minister of State for Lifelong Learning, Further and Higher Education's letter to hon. Members of 21 October, on what criteria she based her decision to withdraw funding for courses on the basis of course length rather than subject matter; and if she will make a statement. [23610]

Bill Rammell: I wrote to hon. Members on 21 October setting out the Government's strategy for funding the further education sector in 2006/07 and 2007/08—enclosing the Learning and Skill Council's document 'Priorities for Success' which explains its priorities and detailed approach. The strategy will ensure that substantial additional levels of public funding for FE and training are focused on the key priorities: embedding 14–19 reforms and raising attainment of Level 2 at 19, supporting low skilled adults in acquiring basic skills and progressing from basic skills to Level 2 and above, increasing employer engagement and increasingly meeting the needs of employers, and continuing to raise standards in all areas of education and training.

Limited public funding needs to be focused on key priority areas. For example, in supporting additional provision for 16 to 19-year-olds and continuing to provide free tuition for everyone studying literacy and numeracy skills or a first full Level 2 qualification, as well as providing free tuition for those on jobseeker's allowance or income-related benefits and their dependants. One of the measures that the LSC will be taking, to ensure those key priorities are met, is to cease funding for very short courses—below nine hours. Very short Skills for Life programmes should be part of larger programmes aiming towards a qualification achievement, while other very short courses appear to have limited benefits in terms of progression for learners.

Detailed funding decisions are a matter for the Learning and Skills Council.

Education White Paper

Dr. Kumar: To ask the Secretary of State for Education and Skills pursuant to the White Paper Higher Standards, Better Schools for All, what additional curriculum flexibilities will be granted to trust schools. [31591]

Jacqui Smith: Trust schools will not be granted any additional freedoms and flexibilities over and above those enjoyed by all other maintained schools.

Like all maintained schools, trust schools will be able to apply for a Power to Innovate Order, under Section 2 of the Education Act 2002, which allows the Secretary of State to lift regulatory requirements that are preventing schools from developing work focused on raising pupils' standards of achievement. The forthcoming Education Bill will include provisions to enable trusts to apply for freedoms on behalf of all of their schools.

The national curriculum already contains flexibilities which ensure that teachers are able to take account of pupils' diverse learning needs.

Dr. Kumar: To ask the Secretary of State for Education and Skills what financial allocation the Department plans to make to the improvement of school transport under the provisions of the White Paper, "Higher Standards, Better Schools for All". [31592]

Jacqui Smith: The White Paper proposes legislation to improve home to school travel and transport arrangements in three main respects:

By placing a general duty on local authorities to support choice and flexibility of educational provision, to assess the travel and transport needs of all pupils, and promote safe and sustainable travel to school;

By extending entitlement to free home to school transport for low income families (for secondary aged pupils to any one of the three nearest suitable schools, where the distance travelled is between two and six miles; and for primary aged pupils aged over eight, to their nearest school where this is more than two miles from their home); and

By enabling a small number of local authorities to propose Pathfinder schemes to test innovative approaches to home to school transport to support school choice, reduce the distances pupils are expected to walk to school, and increase the proportion of pupils travelling by sustainable means.

The estimated cost of the new general duty is £4 million per annum; the extension of entitlement for low income families is estimated to be £40 million per annum; and the Department will support Pathfinder schemes with £4 million pump priming and annual revenue support building up over several years to £12 million. Full costings and related assumptions will be included in the Regulatory Impact Assessment that will accompany the Bill.

Epilepsy

Mr. Drew: To ask the Secretary of State for Education and Skills what boarding capacity is available in state schools for children suffering from serious epilepsy; and what plans she has to increase such capacity. [29533]

Maria Eagle: There are currently 34 maintained boarding schools in England, educating approx 32,500 pupils of which 4,500 are boarders. Maintained boarding

schools do not offer specific provision for children with epilepsy. The circumstances of each applicant with epilepsy are considered on an individual basis.

It is for local authorities to decide the pattern of school provision in their area in meeting their duty to secure sufficient schools to meet the needs of children in their area.

Epilepsy is a medical condition and for some children may have implications for the way they function in school. In March 2004 the Department, with the Department of Health, published "Managing Medicines in Schools and Early Years Settings" to provide guidance on supporting children with medical needs, sets out a clear framework within which local authorities, NHS Primary Care Trusts, schools, early years settings and families are able to work together to develop policies to ensure that children requiring medicines receive the support they need. It contains specific guidance on epilepsy.

Extracurricular Activities

Mr. Davey: To ask the Secretary of State for Education and Skills what information she collects on *(a)* extra-curricular activities offered and *(b)* the percentage of students involved in extra-curricular activities in (i) primary schools, (ii) secondary schools and (iii) sixth form colleges in (A) England, (B) London and (C) Kingston and Surbiton. [31376]

Jacqui Smith: The information requested is not available on a regional or local authority basis. However, my Department recently commissioned MORI to undertake a survey of study support (out-of-school-hours learning) activities in England. This showed that over 90 per cent. of primary schools and over 98 per cent. of secondary schools currently offer some study support. The most popular activities are PE/sport, followed by music and ICT. In addition, 97 per cent. of secondary schools offer activities specifically designed to promote study skills or to help with homework and revision.

Family Fund

Danny Alexander: To ask the Secretary of State for Education and Skills how much grant aid has been provided to the Family Fund by *(a)* the Department and *(b)* other public funding sources in each of the last five years; and if she will make a statement. [28770]

Maria Eagle: The Family Fund was set up by the Government in 1973 to give practical help to families with severely disabled and seriously ill children under the age of 16. Since 1998 the charity has received separate funds from the Governments of England, Northern Ireland, Scotland and Wales. Amounts allocated in each of the last five years are as follows:

Funding provided to the Family Fund by each Government

£ million

	England	Northern Ireland	Scotland	Wales
2001/02	20.8	1.4	2.2	2.2
2002/03	21.8	1.4	2.2	2.4
2003/04	22.8	1.5	2.7	2.4
2004/05	22.8	1.5	2.7	2.5
2005/06	22.8	1.6	2.8	2.5

The Family Fund provides grants direct to approximately 45,000 families per year with severely disabled children, where the family income is less than £23,000 a year. Over 90 per cent. of the Family Fund's income is paid out in grants, reflecting efficient processes and low administrative costs.

How the grant is used will depend on the needs of the family. Examples include: family holidays for those who would otherwise not have a break, washing machines and other white goods, transport costs to help ease the burden of frequent hospital visiting and other practical support.

The Fund also holds a database which contains records on over 150,000 families. The database represents well over half of the population of all families with a severely disabled child and is used by Government Departments and others to inform policy developments.

Danny Alexander: To ask the Secretary of State for Education and Skills what assessment she has made of the impact of Family Fund grants on demand for NHS services. [28771]

Maria Eagle: No specific assessment has been made on the impact of Family Fund grants on demand for NHS services. The Family Fund was set up by the Government in 1973 to give practical help to families with severely disabled and seriously ill children under the age of 16. The Fund was established in recognition of the significant additional costs involved in caring for a severely disabled child. Grants are used to increase families' quality of life and can be used to purchase family holidays for those who would otherwise not have a break, washing machines and other white goods, transport costs to help ease the burden of frequent hospital visiting and other practical support. Family Fund grants are not intended to have any impact on demand for statutory services for families with disabled children.

Further Education

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills if she will list courses under nine hours which further education colleges offered in their initial prospectuses for 2005–06; and which of these she expects will be affected by the changes in funding proposed in Priorities for Success. [28755]

Bill Rammell: On 21 October 2005, I made an announcement, setting out the Government's strategic direction for the learning and skills sector for the coming period. My main purpose for doing so was to ensure the 2006/07 funding allocations process began with a clear and concise message on the principles that will underpin funding over the next two years.

In addition, the Learning and Skills Council (LSC) published 'Priorities for Success'-a document that sets out the funding strategy for the next two years in more detail. This document is available on the LSC's website.

Although more funding will be going into the sector, we will focus funding even more strongly on key priorities of raising participation and achievement 14–19 and driving down the skills deficit in the adult workforce. This will mean that less provision outside these priority areas can be supported at previous levels, and that there has to be a new balance of responsibilities between government, employers and learners to achieve this.

The LSC are currently seeking views of its proposed funding changes for 2006/07 including the funding of very short courses. These very short learning aims (below nine guided learning hours [glh]) currently funded by the LSC fall into four groups; very short Skills for Life programmes, University for Industry (Ufi) Learn Direct programs, very short programs within the National Qualifications Framework (NQF) and other very short programmes.

From 2005/06 Skills for Life courses will be incorporated into larger programmes aiming towards the achievement of qualifications and will still be funded but in a different form. University for Industry Learn Direct courses and very short learning aims accredited within the NQF will also still be funded but other very short programmes will not.

The resource required to list all relevant courses in all 2005/06 college prospectuses would exceed the disproportionate cost threshold for answering Parliamentary questions. However, the generic names for very short programmes are listed in the four groups outlined.

Very short Skills for Life programmes of between three and six guided learning hours- LSC propose to incorporate into larger programmes aiming towards the achievement of qualifications

Diagnostic Test in Numeracy, 3 glh
Short Course in Literacy, 3 glh

Very short programs within the National Qualifications Framework (NQF)-LSC propose to continue funding

Certificate in Risk Assessment Principles and Practice
Award in Providing a Healthier School Meals Service
Certificate in Food Hygiene
Introductory Certificate in Conflict Handling
Introductory Certificate in Hospitality Conflict Handling
Introductory Certificate in Selling
Introductory Certificate in Customer Service (Service Sector)
Foundation Certificate in Meat and Poultry Hygiene
Certificate of Competence in the Safe Use of Abrasive Wheel Machines
Certificate in Food Hygiene
Diploma in Bookkeeping
National Certificate for Licensees (Drugs Awareness)
Certificate of Competence in Manual Handling Operations Risk Assessment
Certificate in Health and Safety in the Workplace
Foundation Certificate in Food Hygiene
Introductory Certificate in Hospitality Customer Service
Introductory Certificate in Hospitality Selling
Foundation Certificate in Wines

Other very short programs below 9 guided learning hour-LSC propose to stop funding. In many cases colleges will continue to provide the courses, but fully funded by employers and individuals

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills pursuant to the answer of 9 November 2005, *Official Report*, column 595W, on further education, where the input of regional development agencies complements that of other bodies in tailoring further education courses to local needs. [31259]

Bill Rammell: The Department allocates funds for education and training in the post-16 learning and skills sector to the Learning and Skills Council (LSC). The LSC works closely with Regional Skills Partnerships, whose role is to bring together key partners including the Regional Development Agencies, the Skills for Business Network, Jobcentre Plus, local authorities, and the LSC, to ensure that emerging skills needs are identified and addressed, and that further education courses are tailored to local needs.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills whether data are held centrally on the attendance of students on post-16 courses. [28585]

Bill Rammell: There are no centrally held records on whether or how often students attend the courses they are registered on.

Gifted/Talented Pupils

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to the answer of 2 November 2005, *Official Report*, column 1178W, on gifted and talented young people, how many and what proportion of schools to date have not nominated pupils to the National Academy of Gifted and Talented Youth, broken down by local education authority. [31016]

Jacqui Smith: Information supplied by the National Academy for Gifted and Talented Youth (NAGTY) is set out in the following table, based on latest statistics for maintained secondary schools by local education authority. This shows that 1,379 (40.74 per cent.) of maintained secondary schools have no members of NAGTY. In its first three years of operation, NAGTY has recruited members in almost 60 per cent. of maintained secondary schools. NAGTY aims to offer membership to all pupils in the top 5 per cent. by the end of 2006.

NAGTY members in maintained secondary schools by local authority and Government Office Region in England

		Number	With NAGTY members	Without NAGTY members	Percentage without NAGTY members

Worthing High School	16
Total	320

This information is correct as at 18 November 2005

Higher Education

John Bercow: To ask the Secretary of State for Education and Skills (1) what percentage of people aged 18 to 30 years entered higher education in *(a)* 2001, *(b)* 2002, *(c)* 2003, *(d)* 2004 and *(e)* 2005; [26786]

(2) if she will make a statement on the non-completion rate in higher education in *(a)* 2001, *(b)* 2002, *(c)* 2003, *(d)* 2004 and *(e)* 2005. [26787]

Bill Rammell: The latest available figures are shown in the tables. The percentage of people aged 17 to 30 years entering higher education in 2004 will be published in April 2006; projected non-completion rates for students starting courses in 2003 will be published in July 2006. The figures in the tables show that, since 1999/2000, participation rates have risen and non-completion rates have fallen. Figures published in 2005 by the Organisation for Economic Co-operation and Development (OECD) showed that in 2003 the UK had one of the lowest non-completion rates among OECD countries.

Higher Education Initial Participation Rate (HEIPR) for English domiciled first degree entrants (full-time and part-time) to higher education courses from 1999/2000 to 2003/04

Students starting courses in:	Percentage of 17 to 30-year-olds entering HE
1999/2000	41
2000/01	42
2001/02	42
2002/03	43
2003/04	43

Source:

DfES National Statistics Statistical First Release 14/2005, "Participation Rates in Higher Education: Academic Years 1999/2000—2003/2004 (Provisional)". Calculations are based on data provided by HESA and the Learning and Skills Council (LSC).

Percentage of UK domiciled full-time first degree starters expected neither to obtain an award nor transfer, UK higher education institutions 1999/2000 to 2002/03

Students starting courses in:	Projected non-completion rate
1999/2000	15.9
2000/01	15.0
2001/02	14.1
2002/03	14.4
2003/04	n/a

n/a—not available

Source:

"Performance Indicators in Higher Education", published by HESA. For 2002/03, the projected outcomes summarise the pattern of movements of students at institutions between 2002/03 and 2003/04 and give the outcomes that would have been expected from starters in 2002/03 if progression patterns for the years after 2003/04 were to remain unchanged. The HESA data show the proportion of entrants who are projected to: obtain a qualification (either a first degree or another undergraduate award); transfer to another HEI; neither obtain a qualification nor transfer (i.e. fail to complete the course).

Sammy Wilson: To ask the Secretary of State for Education and Skills how many staff are employed in universities in England. [29281]

Bill Rammell: The latest available information is given in the following table:

All staff in higher education institutions in England 2003/04

	Full-time	*Part-time*
Academic staff	86,015	38,125
Non academic staff	96,935	56,450
Total	182,950	94,575

Note:
Figures are rounded to the nearest 5.
Source:
Higher Education Statistics Agency (HESA).

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what percentage of those studying science in higher education took *(a)* dual award science GCSE and *(b)* separate sciences at GCSE in the last period for which figures are available. [28582]

Bill Rammell: The information is not held centrally. The Higher Education Statistics Agency collects data on the entry qualifications held by entrants to Higher Education Institutions, which records the highest level of qualification held (e.g. A level, GCSE) but does not specify the specific subjects obtained by the student at these levels.

IT Projects

Dr. Cable: To ask the Secretary of State for Education and Skills how many of the IT projects costing over £1 million in use in her Department and introduced since 1997 have been scrutinised by the Public Accounts Committee; and if she will list them. [26593]

Maria Eagle: One only—the Individual Learning Account (ILA) Programme[1].

[1] House of Commons Committee of Public Accounts (2003), "Individual Learning Accounts", Tenth Report of Session 2002–03 (Ref: HC 544), ISO, London.

Key Stage 3

Mr. Hoban: To ask the Secretary of State for Education and Skills what research her Department has undertaken into the merits of *(a)* reducing the period of teaching at Key Stage 3 from three years to two years and *(b)* reducing the number of teachers pupils see at (i) Key Stage 3 on (ii) attainment at Key Stage 3 and (iii) Key Stage 4. [31188]

Jacqui Smith: The Department is currently running a pilot exploring the condensed Key Stage 3 curriculum, which began in 2003. The Department has commissioned an independent evaluation of the pilot which is due to report at the end of 2006. The pilot is also being evaluated by Ofsted; due to report in December 2005.

The Department is also running a pilot aimed at raising the achievement of low attaining pupils and a small part of this pilot explores teaching approaches at Key Stage 3. A report on the first year is currently available for the schools and local authorities involved.

Labour Force Survey

Mrs. Humble: To ask the Secretary of State for Education and Skills (1) for what reasons she has decided to use Labour Force Survey data for the purpose of assessing need for youth services; [29992]

(2) if she will reverse her decision to use Labour Force Survey data in place of Connexions Service data for the purpose of assessing need for youth services. [29993]

Maria Eagle: The Labour Force Survey is not used to assess need for youth services. Through our Every Child Matters reforms we are giving local authorities and their partners through children's trusts increasing freedom to make local assessments of the need for particular services and allocate resources accordingly. Data collected by Connexions Services is a powerful tool for partners to use in planning and commissioning services for young people, and this local data is used in assessing local performance.

The national public service agreement target for reducing the proportion of 16–18-year-olds not in education, employment and training is measured using the DfES annual participation estimates, which use the Labour Force Survey as one component. These statistics are a measurement of the overall impact of policies—not of the need for youth services.

Learning and Skills Council

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what mechanism is used for providing funds to the Learning and Skills Council additional to those set out in the grant letter, with particular reference to funds for administrative costs. [30815]

Bill Rammell: Each autumn the Department sets out its priorities and funding for the LSC in an annual grant letter. Where the need for additional resources for the LSC is identified the Department and the LSC agree the level of funding, including any additional administration costs. Funding to cover administrative costs is based on the clear demonstration of need. When agreement is reached the additional resources are formally notified, in writing, to the LSC as additions to the grant letter. The LSC's core administration costs have fallen steadily from 3.4 per cent. of total funding in 2001–02 to 2.5 per cent. of its planned total budget in 2005–06. Using the figures in LSC annual accounts for 2001–02, which include the set up costs occurred in the last seven months of 2000–01, gives the administration budget as 4.6 per cent. of total funding.

Miss McIntosh: To ask the Secretary of State for Education and Skills what assessment she has made of the impact of the restructuring of the Learning and Skills Council on 16 to 19 education. [31616]

Bill Rammell: The LSC's proposed restructuring is designed to achieve better focus and more consistent delivery at a local level through the creation of 148 local partnership teams. These partnership teams will lead and support the 14–19 agenda which is the LSC's number one priority. The LSC has a duty to provide quality provision for 16 to 19-year-olds and the grant letter, issued earlier this month, reiterated the aim of boosting participation rates, raising the quality of vocational provision and extending choice to learners.

Learning Methods

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to the answer of 2 November 2005, *Official*

Report, column 1181W, on learning methods, whether learning multiplication facts up to 10x10 is identical to learning multiplication tables up to 10x10. [30939]

Jacqui Smith: By learning the multiplication tables up to 10x10, a child would learn all the individual multiplication facts up to 10x10.

Milwaukee Charter Schools Programme

Dr. Whitehead: To ask the Secretary of State for Education and Skills what discussions representatives of her Department had with US *(a)* educators and officials concerned with the Milwaukee charter schools programme and *(b)* policy institutes during their recent visit to the US; and what assessment they have made of the programme. [30628]

Jacqui Smith: The discussions held with educators and officials concerned with the Milwaukee charter schools' programme included the teaching and learning strategies and curriculum used to engage and motivate young people; the implications of teacher led schools and the accountability systems in place to quality assure provision.

The official made the following observations based on his visit to Milwaukee:

1. The inclusive nature of new charter school creation has encouraged the involvement of people from a wide variety of backgrounds. Their expertise and enthusiasm helps practitioners see things from a different angle.

2. There is little intervention or co-ordinated response to prevent fragile charter schools from failing; although there is expertise in the system to share good practice to build capacity and ensure consistency of approach.

Ministerial Correspondence

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what percentage of ministerial correspondence from her Department was signed in a Minister's absence in the last period for which figures are available. [23644]

Bill Rammell: Information on ministerial letters is not collected in this form.

Music Teaching

Dr. Cable: To ask the Secretary of State for Education and Skills when she plans to announce the details of annual funding arrangements for the promotion of music tuition in schools. [30696]

Jacqui Smith: Annual funding arrangements for the promotion of music tuition in schools will be announced in the near future, as part of the schools funding settlement.

National Minimum Wage

Ms Katy Clark: To ask the Secretary of State for Education and Skills how many staff in her Department were affected by the increase in the national minimum wage on 1 October. [28930]

Maria Eagle: None of the staff in my Department were affected by the increase in the national minimum wage on 1 October 2005.

Nuffield Review

Mr. Gibb: To ask the Secretary of State for Education and Skills what *(a)* direct and *(b)* indirect funding her Department has made to the Annual Nuffield Review of 14–19 Education and Training. [28180]

Bill Rammell: The Department has not made any direct or indirect funding to the Nuffield Review. This piece of work was funded entirely by the Nuffield Foundation itself.

Parental Rights

Charles Hendry: To ask the Secretary of State for Education and Skills what steps she is taking to ensure the rights of fathers are considered in legal disputes concerning parental rights; and what assessment she has made of the extent to which the current system considers the rights of fathers. [26998]

Maria Eagle *[holding answer 10 November 2005]:* The Government's position is that the needs of children, and not the rights of parents, should be at the heart of the law. The courts are required to have the welfare of the child as their paramount consideration in determining any question in relation to their upbringing. This paramountcy principle is focused on the child, and there is no legal bias toward or against either parent.

The Government take very seriously the need to support both parents in seeking to know and love their children, and we believe firmly that it is normally in the child's best interest to have a meaningful relationship with both parents.

Following on from the parental separation Green Paper, "Making Contact Work", we are introducing a raft of measures to support parents and children, both in legal disputes and in avoiding those disputes in the first place, through rolling out in-court conciliation, revising and updating parenting plans, launching a telephone helpline later this year, making new arrangements to incentivise solicitors to promote successful out-of-court contact settlements and increasing the availability of child contact centres.

On the more technical matter of parental responsibility (PR), fathers who have PR for their children have exactly the same level of rights and responsibilities as any other party with PR. We introduced new provisions to allow fathers to register as a child's parent through the Adoption and Children Act 2002.

Anyone with parental responsibility has all the rights, duties, powers, responsibilities and authority which by law a parent of a child has in relation to the child and his property, including being consulted over important changes in the child's life, such as a change of name or taking the child abroad for longer than one month, and being entitled to information about the child such as school reports.

Plumbers

Mr. Evans: To ask the Secretary of State for Education and Skills how many people undertook courses leading to a qualification in plumbing in each of the last 10 years. [31300]

Phil Hope: According to the National Information System for Vocational Qualifications (NISVQ), the number of awards of accredited qualifications in plumbing in the United Kingdom over the last 10 years is given in the following table:

	Number of awards (to the nearest 100)
1994/95	1,400
1995/96	2,500
1996/97	2,800
1997/98	2,700
1998/99	2,600
1999/2000	3,400
2000/01	3,900
2001/02	5,500
2002/03	8,600
2003/04	10,700

Note:
The National Information System for Vocational Qualifications (NISVQ) has been collecting information from awarding bodies on the achievement of vocational qualifications in the United Kingdom since 1992/93. The number of awarding bodies contributing data has risen from five in 1992/93 to 13 in 1997/98, 24 in 2002/03 and 36 in 2003/04 (the latest year for which information is available).

Source:
NISVQ.

Polish Resettlement Act

Mr. Amess: To ask the Secretary of State for Education and Skills if she will make a statement on the operation of section 6 of the Polish Resettlement Act 1947. [29846]

Phil Hope: Section 6 of the Polish Resettlement Act 1947 was repealed by the Statute Law (Repeals) Act 2004. The provision was proposed for repeal by the Law Commission because it was no longer needed. The repeal took effect on 22 July 2004.

Positive Learning Environment

John Bercow: To ask the Secretary of State for Education and Skills what steps are being taken by her Department to foster a positive learning environment for pupils *(a)* within schools, *(b)* at home and *(c)* within the community. [26173]

Jacqui Smith: The Department is taking a range of steps to ensure a positive learning environment for pupils.

We are supporting schools in making sure that each classroom is a positive and orderly place where pupils are free to learn. Our National Primary and Secondary Strategies are improving the quality of teaching and learning in schools. We are also implementing a complementary and comprehensive programme of measures to strengthen schools' capacity to improve pupils' behaviour and attendance, which includes access to high-quality training for all school staff and extra support for schools facing the greatest challenges. In addition, we are currently considering the recommendations made in the recently published report by the Practitioners' Group to determine what else can be done to promote good behaviour in schools.

The Department's Extended Schools' programme aims to promote, encourage and develop links between schools and their communities, effectively making the school the heart of the community.

We want to help parents and schools to work well together and raise children's achievement. It is crucial we ensure that the importance of parental involvement is embedded throughout the education chain to establish a culture of parental involvement and encourage a positive, two-way partnership.

To enable this, we are actively encouraging parents to become more closely involved in their children's education and learning at home and at school by providing information for parents such as the Learning Journey guides and the Parents Centre website; and materials for schools such as the Involving Parents, Raising Achievement toolkit.

The family learning programmes funded by the Learning and Skills Council enable parents and their children to improve their literacy, language and numeracy skills together.

All these measures support the creation of a positive learning environment in schools, at home and in the community, as they all include an emphasis on work with parents and raising awareness of children and young people's position and responsibilities in the communities in which they live.

Schools

Tim Loughton: To ask the Secretary of State for Education and Skills how many children have started primary schools in West Sussex in each of the last 10 years; and what her projections are for the next five years. [28233]

Jacqui Smith: The requested time series is not available due to changes in the way that information is collected on new admissions to primary schools. The table shows the number of four and five-year-olds in maintained primary schools in West Sussex from 1996 to 2005.

The Department does not produce projections of numbers of pupils starting schools in individual local authorities. The Department has recently released pupil number projections at local authority level for 2006 and 2007 which it plans to use in setting authorities' Dedicated Schools Grant guaranteed units of funding. These projections are for all children aged three to 15 funded by authorities. They can be seen at the following address: http://www.teachernet.gov.uk/docbank/index.cfm?id=9224

Maintained primary schools: number of pupils aged four and five[1] Position in January each year. West Sussex local authority

	Pupils aged:	
	Four	*Five*
1996	5,990	8,470
1997	6,120	8,510
1998	7,850	8,580
1999	8,060	8,250
2000	7,930	8,430
2001	7,900	8,190
2002	7,970	8,100
2003	7,970	8,160

Maintained primary schools: number of pupils aged four and five[1] Position in January each year. West Sussex local authority

	Pupils aged: Four	Five
2004	7,870	8,100
2005	7,760	8,020

[1] Age as at 31 August the previous year.
Note:
Figures have been rounded to the nearest 10.
Source:
Annual Schools' Census

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills (1) how many *(a)* unitary and *(b)* metropolitan local authorities have received claims for compensation for (i) sexual and (ii) physical abuse in residential schools in the last five years; [28788]

(2) which local authorities have received claims for compensation for *(a)* sexual and *(b)* physical abuse in residential schools; and what the total value of such claims was in respect of each authority in 2004–05; [28789]

(3) how much has been paid in compensation to complainants by local authorities for *(a)* sexual and *(b)* physical abuse in residential schools since 1992. [28790]

Maria Eagle: My Department does not hold this information.

Mike Penning: To ask the Secretary of State for Education and Skills how many *(a)* classroom assistants and *(b)* full-time equivalent classroom assistant posts there were in schools in Hemel Hempstead constituency in each year since 1997. [25808]

Jacqui Smith: The following table provides the full-time equivalent number of teaching assistants in maintained sector schools, including pupil referral units, in Hemel Hempstead constituency in January of each year.

The number of full-time equivalent teaching assistant posts in Hemel Hempstead is not collected centrally.

Full-time equivalent number of teaching assistants[1] in maintained sector schools[2], including pupil referral units, in Hemel Hempstead constituency

	Teaching assistants FTE
1997	100
1998	130
1999	140
2000	180
2001[3]	220
2002	180
2003	290
2004	300
2005	340

[1] Includes teaching assistants, special needs support staff and ethnic minority support staff.
[2] Includes maintained and non-maintained special schools.
[3] Data for 2001 may be affected by misclassification of support staff roles following major changes to information systems.
Note:
Figures are rounded to the nearest 10.
Source:
Annual School Census

Mr. Gibb: To ask the Secretary of State for Education and Skills what remuneration was received by her adviser on specialist schools in each year since 1996. [23422]

Jacqui Smith: The adviser to the Secretary of State on specialist schools and academies, Sir Cyril Taylor, has not received remuneration for this position since his original appointment in 1987. His appointment is on a part-time and voluntary basis.

Special Educational Needs

Daniel Kawczynski: To ask the Secretary of State for Education and Skills what steps she is taking to ensure that children with autism receive the educational support they need. [29698]

Maria Eagle: Schools and local authorities have duties under the Education Act 1996 to identify, assess and make suitable provision for all children with special educational needs (SEN), including those with autistic spectrum disorders (ASDs). In making provision for children with SEN schools and local authorities have to have regard to statutory guidance set out in the SEN Code of Practice. With the Department of Health, we have also published non-statutory Good Practice Guidance on ASDs (2002) some 30,000 copies of which have been distributed on demand. The Guidance is designed to raise awareness and to give providers a tool with which to audit and develop their provision. The Department is aware that the Guidance is being used in this way by schools, local authorities and the Departmentally-funded SEN Regional Partnerships, nine of the 11 of which have established autism working groups.

Helen Jones: To ask the Secretary of State for Education and Skills if she will make it her policy to include compulsory modules on *(a)* identifying children with special educational needs and *(b)* developing appropriate teaching methods for them within initial teacher training courses. [29701]

Maria Eagle: I would refer my hon. Friend to the reply given on 1 November 2005, *Official Report*, columns 1002–03W, in response to her earlier question on training to equip the education workforce with the skills needed to improve attainment among pupils with special educational needs. That answer explained the SEN requirements already in place for teachers undergoing initial training and induction.

As part of a review of professional standards, including those for Qualified Teacher Status, the Training and Development Agency for Schools will be looking at whether there is a need to strengthen the Standards relating to special educational needs and inclusion. The Agency will also consider whether there is a case for expanding associated guidance. The Department will of course contribute to this process.

Helen Jones: To ask the Secretary of State for Education and Skills what steps she is taking to ensure that special educational needs co-ordinators have appropriate training for the role they undertake. [29702]

Maria Eagle: Special educational needs co-ordinators (SENCOs) are appointed by headteachers. It is for individual schools and their maintaining local authorities to arrange appropriate induction and

training. This would need to have regard to the existing experience and knowledge of the individual acting as SENCO, and the range and complexity of special educational needs represented within the school. Schools may use their School Development Grant to arrange appropriate training.

I would also refer my hon. Friend to the reply on SENCO qualifications and experience given on 11 November 2005, *Official Report*, column 810W.

Anne Milton: To ask the Secretary of State for Education and Skills how many pupils are in special needs schools in Surrey; how many pupils with special educational needs are in mainstream schools in Surrey; and how many special needs schools have *(a)* opened and *(b)* closed in Surrey since 1997. [30187]

Maria Eagle: The information requested is shown in the tables.

All special schools: number of pupils [1]—Surrey local authority area

January 2005	*Total pupils*
Maintained special	1,928
Non-maintained special	538

[1] Excludes dually registered pupils

Staff Discipline

David T.C. Davies: To ask the Secretary of State for Education and Skills how many employees have been dismissed by her Department in each of the last five years for which figures are available. [29126]

Maria Eagle: The number of Department for Education and Skills employees dismissed in each of the last five calendar years is as follows:

	Number
2000	8
2001	3
2002	5
2003	1
2004	3

University Staff

Dr. Tony Wright: To ask the Secretary of State for Education and Skills what the average weekly number of hours was spent by full-time academic staff teaching undergraduates in universities in 2004–05. [29028]

Bill Rammell: The information is not held centrally. The Higher Education Statistics Agency collects data annually on staff in all higher education institutions in the UK, but does not collect any data on class contact time.

HEALTH

Abortion Act

Mr. Amess: To ask the Secretary of State for Health (1) what advice her Department issues to members of the public wishing to report alleged abuses of the terms of the Abortion Act 1967; and if she will make a statement; [28200]

(2) how many allegations of abuse of the terms of the Abortion Act 1967 were made to her Department by *(a)* members of the public and *(b)* doctors in each of the last 20 years for which figures are available; and how many were dismissed for lack of evidence. [28201]

Caroline Flint: The Department has not issued any specific advice to members of the public about reporting alleged abuses of the Abortion Act. However, any member of the public has the right to raise any concern about abortion or any other medical procedure.

All allegations received about abortion are investigated and appropriate action taken. Information about the allegations received over the last 20 years can be provided only at disproportionate cost.

Accident and Emergency Provision

Mr. Walker: To ask the Secretary of State for Health what steps she will take to ensure the future provision of accident and emergency services to the residents of South East Hertfordshire; and if she will make a statement. [26192]

Ms Rosie Winterton: Decisions about the priorities and types of services that are available to South East Hertfordshire are made by the primary care trust based on the needs of the population it serves. This includes the siting of services.

Alcohol Services

Mr. Burstow: To ask the Secretary of State for Health if she will place in the Library a copy of the results of the national audit of available alcohol services. [30743]

Caroline Flint: A copy of the Alcohol Needs Assessment Research Project is available in the Library.

Alcohol-related Illnesses

Mr. Wallace: To ask the Secretary of State for Health how many people under the age of 30 years in the area corresponding most closely to Lancaster and Wyre constituency were treated for alcohol-related illnesses *(a)* in the last 12 months and *(b)* in each year since 1997. [20514]

Mr. Byrne: Information is not held centrally on a constituency basis. The most current information available is shown in the following table.

Count of finished consultant episodes for selected alcohol related diseases in Lancaster and Wyre national health service hospitals, 1997–98 to 2003–04

Count of finished consultant episodes for selected alcohol related diseases in Lancaster and Wyre national health service hospitals, 1997–98 to 2003–04

	Finished consultant episodes
1997–98	41
1998–99	39
1999–2000	39
2000–01	42
2001–02	57
2002–03	76
2003–04	39

Notes:

1. Finished consultant episode (FCE):
A FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.
2. Diagnosis (primary diagnosis):
The primary diagnosis is the first of up to 14, seven prior to 2002–03, diagnosis fields in the hospital episode statistics (HES) data set and provides the main reason why the patient was in hospital.
Alcohol related diseases defined as following ICD-10 codes recorded in primary diagnosis:
F10: Mental and behavioural disorders due to use of alcohol
K70: Alcoholic liver disease
T51: Toxic effect of alcohol
3. Ungrossed Data:
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Source:
"Hospital Episode Statistics (HES), Health and Social Care Information Centre"

Rosie Cooper: To ask the Secretary of State for Health how many people under the age of 30 years in the area corresponding most closely to West Lancashire constituency were treated for alcohol-related illnesses *(a)* in the last 12 months and *(b)* in each year since 1997. [27862]

Mr. Byrne: The information requested is shown in the table.

Counts of finished consultant episodes and patients where there was a primary diagnosis for alcohol related diseases in West Lancashire NHS Hospitals 1997–98 to 2003–04

	Finished consultant episodes	*Patient counts*
1997–98	34	32
1998–99	23	22
1999–2000	28	26
2000–01	32	23

Counts of finished consultant episodes and patients where there was a primary diagnosis for alcohol related diseases in West Lancashire NHS Hospitals 1997–98 to 2003–04

	Finished consultant episodes	*Patient counts*
2001–02	26	23
2002–03	16	15
2003–04	37	34

Notes:

1. Finished Consultant Episode (FCE)
An FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.
2. Patient counts
Patient counts are based on the unique patient identifier HESID. This identifier is derived based on patient's date of birth, postcode, sex, local patient identifier and NHS number, using an agreed algorithm. Where data are incomplete, HESID might erroneously link episodes or fail to recognise episodes for the same patient. Care is therefore needed, especially where duplicate records persist in the data. The patient count cannot be summed across a table where patients may have episodes in more than one cell.
3. Diagnosis (Primary Diagnosis)
The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.
4. Ungrossed data
Figures have not been adjusted for shortfalls in data (ie the data are ungrossed).

Hospital Episode Statistics (HES), Health and Social Care Information Centre

Ambulance Service (Hertfordshire)

Mike Penning: To ask the Secretary of State for Health how many patients were conveyed by ambulance to the Accident and Emergency departments of *(a)* Hemel Hempstead general hospital and *(b)* Watford general hospital in (i) 2002–03, (ii) 2003–04 and (iii) 2004–05; and if she will make a statement. [26848]

Ms Rosie Winterton: The information requested is not held centrally.

Mike Penning: To ask the Secretary of State for Health how many patients in Manchester triage system categories one and two were conveyed by ambulance to the accident and emergency departments of *(a)* Hemel Hempstead general hospital and *(b)* Watford general hospital in (i) 2002–03, (ii) 2003–04 and (iii) 2004–05; and if she will make a statement. [26849]

Ms Rosie Winterton: The information requested is not held centrally.

Avian Influenza

Mr. Lansley: To ask the Secretary of State for Health what plans she has to put in place contracts to secure year-round supplies of eggs as described in the UK Influenza Pandemic Contingency Plan. [23210]

Caroline Flint: It is the responsibility of vaccine manufacturers to make sure that they have contracts in place to ensure that they have a sufficient supply of eggs to fulfil their contracts to supply vaccine. The Department has met with manufacturers to discuss their preparedness for a possible pandemic.

Mr. Paterson: To ask the Secretary of State for Health what assessment she has made of the mechanisms by which mutagenesis towards human host adaptation could arise in relation to H5N1 avian influenza virus, with particular reference to the combination of clades within the host *(a)* from the same strain and *(b)* from different strains of the virus. [23987]

Caroline Flint: The mechanism by which one or any H5 avian virus adapts to humans is likely to be the same regardless of the clade, or strain. No data exist on this but we have no reason to believe that the mechanism of mutagenesis would be different for one versus any other strain.

Mr. Paterson: To ask the Secretary of State for Health what advice has been given *(a)* directly and *(b)* via health professionals to those people assessed as being most at risk from simultaneous co-infection of the H5N1 and a human host adapted influenza virus. [24017]

Caroline Flint: H5N1 is currently an avian influenza virus which mainly affects birds. We are working to ensure that both health professionals and the public have access to information about both avian and pandemic flu. The Chief Medical Officer has produced an explanatory guide which explains the difference between avian flu, seasonal flu and pandemic flu. A public information leaflet, Frequently Asked Questions and Key Facts sheets have also been developed. These are available on the Department's website and have been distributed to primary care professionals, to enable them to answer questions from members of the public.

The Department of Environment Food and Rural Affairs' (DEFRA) generic exotic animal disease contingency plan includes provisions on health and safety for poultry workers and other stakeholders in the event of an outbreak of avian influenza. This was supplemented by additional advice published on 31 October. Both documents are available on DEFRA's website at: www.defra.gov.uk.

Mr. Paterson: To ask the Secretary of State for Health what assessment she has made of the potential for virulence in avian influenza H5N1 to be replicated in a human host adapted strain following mutagenesis. [24023]

Caroline Flint: The virus causing human clinical H5N1 infection is highly virulent in birds but it remains an avian virus. There are little data available to indicate whether it will retain that virulence if it mutates into a human virus.

Bob Spink: To ask the Secretary of State for Health if she will make a statement on the safety of chicken and turkey products in the context of avian influenza. [27106]

Caroline Flint: On the basis of current scientific evidence, the Food Standards Agency (FSA) advises that avian influenza does not pose a food safety risk for United Kingdom consumers. This is because for people, the risk of catching the disease is from being in close contact with live poultry that have the disease and not through eating cooked poultry.

The FSA advises that poultry should always be cooked thoroughly before being eaten to avoid food poisoning due to salmonella and campylobacter.

Blood Tests (Kent)

Mr. Holloway: To ask the Secretary of State for Health how many people have experienced delays in 2005–06 in receiving the results of blood tests because of staff shortages at Gravesend and North Kent hospitals. [28598]

Caroline Flint: The information requested is not collected centrally.

Breast Cancer

Steve Webb: To ask the Secretary of State for Health whether primary care trusts (PCTs) are required to make herceptin available to women diagnosed with early stage breast cancer; and what guidance her Department has given to PCTs on this matter. [28324]

Jane Kennedy *[holding answer 14 November 2005]:* As with other unlicensed drugs, it is down to individual clinicians to decide whether to prescribe herceptin. The clinician makes these decisions after discussions with the woman about the potential risks and taking into account her medical history.

The clinician's decision does, however, need to be supported by the primary care trust (PCT) as the PCT has to decide whether to support the clinician's decision and pay for herceptin.

On 25 October, I announced that PCTs should not refuse to fund herceptin solely on the grounds of cost, or rule out treatments on principle. They should consider individual circumstances.

The position on herceptin has been communicated to the national health service via the chief executive's bulletin of 10 November 2005. This bulletin is available on the Department's website at www.dh.gov.uk.

Mr. Crausby: To ask the Secretary of State for Health what guidance she has *(a)* issued and *(b)* plans to issue to primary care trusts regarding the prescribing of Herceptin, with particular reference to Bolton primary care trust. [28494]

Jane Kennedy *[holding answer 15 November 2005]:*

The position on the prescribing of herceptin has been communicated to the national health service via the chief executive's bulletin of 10 November 2005. This bulletin is available on the Department's website at www.dh.gov.uk. The guidance is aimed at all primary care trusts, including Bolton.

Carers

Mr. Sanders: To ask the Secretary of State for Health what her assessment is of the effects of the Carers (Equal Opportunities) Act 2004 on carers. [27006]

Mr. Byrne: The Carers (Equal Opportunities) Act 2004 has been warmly welcomed by carers and the organisations that represent them. However, it is currently too early to have hard data on the effect of the new Act on carers.

Monitoring is being undertaken through the Commission for Social Care Inspection's performance assessment framework and data is collected via the referrals, assessments and packages of care return.

Childhood Vaccinations

Mr. Lansley: To ask the Secretary of State for Health what the take-up rate of each vaccine offered as part of the routine childhood vaccination programme has been *(a)* in total and *(b)* in each (i) primary care trust and (ii) strategic health authority in each quarter since the quarter ending June 1997. [28667]

Caroline Flint: Annual England data for years 1997 to 2005 are available from national health service immunisation statistics on the department's website at: www.dh.gov.uk/publicationsandstatistics/statistics/statisticalworkarea.

Quarterly cover of vaccination evaluated rapidly reports for the same period are available on the Health Protection Agency's (HPA) website at: www.hpa.org.uk/infections/topics_az/vaccination/vac_cover.htm.

Primary care trust (PCT) and strategic health authority (SHA) data is only available from April 2002. Annual data for PCTs and SHAs can be accessed in NHS Immunisation Statistics, England 2002–03, 2003–04, 2004–05 bulletins (tables seven and eight) from the Department's web link. Quarterly SHA tables are available from the above HPA link. PCT quarterly data is not published.

Children's Food

Mr. McFadden: To ask the Secretary of State for Health what recent discussions she has had with leading supermarket chains concerning reducing the *(a)* sugar, *(b)* salt and *(c)* fat content in children's food. [27115]

Caroline Flint: The chair of the Food Standards Agency and I have recently started a series of joint meetings with a number of the leading supermarket chains to discuss their plans to reduce salt, fat and sugar in all foods. The first of these meetings took place at the start of November, and others are scheduled through to the middle of December.

Dacorum Primary Care Trust

Mike Penning: To ask the Secretary of State for Health what assessment she has made of the effect on expenditure by Dacorum primary care trust of the introduction of new contracts for *(a)* pharmacists, *(b)* dentists and *(c)* other frontline staff; and if she will make a statement. [26876]

Ms Rosie Winterton: No assessment has been made on Dacorum primary care trust's expenditure in relation to the new contracts for pharmacists, dentists and other frontline staff.

Dementia

Mr. Beith: To ask the Secretary of State for Health what research her Department is funding into the treatment and cure of cerebral autosomal dominant arteriopathy with subcortical infarcts and leucoencephalopathy; what NHS treatments are available for this condition; and if she will make a statement. [29508]

Jane Kennedy *[holding answer 17 November 2005]:* The main agency through which the Government supports medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body funded by the Department of Trade and Industry via the Office of Science and Technology.

The MRC is currently funding one research grant of relevance to cerebral autosomal dominant arteriopathy with subcortical infarcts and leucoencephalopathy (CADASIL). The MRC is additionally supporting a considerable programme of underpinning research in both neurology and genetics that may lead to a greater understanding of the condition.

Over 75 per cent. of the Department's total expenditure on health research is devolved to and managed by national health service organisations. Details of current and completed individual projects, including a number concerned with CADASIL, can be found on the national research register on the Department's website at www.dh.gov.uk/research.

There is currently no specific treatment available for CADASIL, although the associated migraine, anxiety and depression can be controlled using standard treatments. The recently published national service framework for long-term conditions focuses on the health and social care needs for people living with neurological conditions, including those with CADASIL.

Dentistry

Mr. Drew: To ask the Secretary of State for Health how many dentists have de-registered children from NHS work in each primary care trust in Gloucestershire in the last year for which figures are available. [25368]

Ms Rosie Winterton: The Department does not collect this information in the format requested.

Mr. Jenkins: To ask the Secretary of State for Health (1) how many dentists serve the Burntwood, Lichfield and Tamworth Primary Care Trust; [26157]

(2) how many dentists in Tamworth constituency *(a)* operate fully within the NHS and *(b)* only offer NHS treatment for children. [26160]

Ms Rosie Winterton: As at 30 September 2005, there were 71 national health service dentists with a general dental services (GDS) or personal dental services (PDS) contract within Burntwood, Lichfield and Tamworth primary care trust (PCT).

As at 30 September 2005, there were 38 NHS dentists with a GDS or PDS contract within Tamworth parliamentary constituency.

The data source is the Dental Practice Board. A dentist with a GDS or PDS contract may provide as little or as much NHS treatment as he or she chooses or has agreed with the PCT. The Dental Practice Board has no information concerning the amount of time dedicated to private or NHS work by individual dentists.

Information about who dentists offer to treat is not collected centrally. However, an analysis of NHS patient registrations data as at 1 June 2005 show that within Burntwood, Lichfield and Tamworth PCT there was one dentist having only children registered. This analysis is not available at parliamentary constituency area.

Julia Goldsworthy: To ask the Secretary of State for Health what role the Dental Practice Board will play in the Business Services Authority from 1 April 2006. [26804]

Ms Rosie Winterton: The existing functions of the Dental Practice Board will be absorbed into the Business Services Authority from April 2006. The Dental Practice Board will be abolished on 31 March 2006.

Julia Goldsworthy: To ask the Secretary of State for Health whether flexible funding will be given to primary care trusts in 2006–07 in relation to the implementation of the new general dental services contract. [26807]

Ms Rosie Winterton: Primary care trusts' (PCTs) budgets for local dental services in 2006–07 will reflect the historic spend in general dental services, personal dental services, emergency dental services and salaried dentists. We are currently finalising decisions on the level of any growth in this budget. PCTs will also have the flexibility to invest additional resources from within their main budgets allocations if they wish.

Julia Goldsworthy: To ask the Secretary of State for Health what plans she has to initiate a review of the conclusions of the 2004 dental work force study. [26813]

Ms Rosie Winterton: We have no current plans to initiate a review on the conclusions of the 2004 dental work force study. We shall, however, wish to look again at future work force requirements once the impact of the new local commissioning arrangements for dentistry from April 2006 can be taken into account.

Mr. Gordon Prentice: To ask the Secretary of State for Health how many Polish dentists worked for the NHS in the last year for which figures are available. [26839]

Ms Rosie Winterton: At the start of November 2005, there were 312 national health service dentists with a general dental services or personal dental services contract in England, who were qualified in Poland.

Rosie Cooper: To ask the Secretary of State for Health how much her Department spent per capita on NHS dentistry in West Lancashire in each of the last five years. [27659]

Ms Rosie Winterton: The information requested is shown in the table.

Estimated spend per capita on the general dental service (GDS) in West Lancashire Primary Care Trust for the financial years ending 31 March 2001 to 2005

West Lancashire	*£ per capita*
2001	23.74
2002	25.30
2003	26.55
2004	29.86
2005	27.17

Note:
During 2004–05, the proportion of dentists working in personal dentist service (PDS) increased from 7 per cent. to 23 per cent. This will lead to a significant break in the GDS spend per capita series. Comparable data on PDS expenditure are not held centrally.

Expenditure has been defined as gross fees plus commitment payments less patient charges. This excludes some payments to dentists.

Tim Farron: To ask the Secretary of State for Health if her Department will take steps to prevent private dentistry practices from actively persuading dentists to leave the NHS. [28277]

Ms Rosie Winterton: It is not the role of the Department to intervene in individual discussions between one dental practitioner and another. However, we are actively promoting the benefits of the new national health service dental contracts to dentists, for instance through communication to all NHS dentists from the Chief Dental Officer and meetings with local groups of dentists across the country.

Steve Webb: To ask the Secretary of State for Health how many calls to NHS Direct were about NHS dentistry in the latest month for which figures are available; and what percentage of those callers were advised of NHS dentists they could *(a)* register with and *(b)* be treated by within locally agreed standards. [18890]

Ms Rosie Winterton: The data requested is not centrally collected. However, it may be available locally from NHS Direct and the hon. Member may wish to contact the Chairman of NHS Direct for details.

Mr. Crabb: To ask the Secretary of State for Health if she will compensate pensioners for private dental charges incurred where NHS dental treatment is not available. [24279]

Ms Rosie Winterton: In England, we have no plans to compensate pensioners for private dental charges. Our programme of investment in national health service dentistry has been focused on increasing the number of dentists providing NHS services and improving access for patients. Since 2003–04, we have invested approximately £250 million in primary dental care services in England.

Departmental Estate

Sarah Teather: To ask the Secretary of State for Health pursuant the answer of 17 October 2005, *Official Report*, column 760W, on Departmental Land Property, if she will list all properties in London that her Department is renting that are empty; when they were last in use; and what was the amount spent in rent of these properties in the last year for which figures are available. [28736]

Jane Kennedy: The following former Community Health Council premises vacated in December 2003 are currently vacant and for these the Department is currently paying rent. Having established that there was no national health service interest they have been actively marketed.

22–24 High Road, Willesden-annual rent £29,375. A notice to break the lease from June 2006 has been served.

128 The Grove, Stratford-annual rent £24,000. An assignment of the lease to a third party is imminent.

42 Fulham Palace Road, Fulham-annual rent £28,000. The lease expires in December 2005.

45–47 Praed Street, Paddington-annual rent £130,000. Part sub-let at £72,000 per annum.

Departmental IT Projects

Mr. Austin Mitchell: To ask the Secretary of State for Health if she will list for each IT project her Department

has undertaken since May 1997 which has incurred a total expenditure of £5 million or more, *(a)* the name of the project, *(b)* its intended purpose, *(c)* the principal contractors involved and the payments made to each, *(d)* the original estimate of the cost of the project, *(e)* the actual outturn of expenditure on the project, *(f)* the intended date on which the project was to be fully implemented, *(g)* the actual date on which it was fully implemented or cancelled, *(h)* modifications which have been made to the project since it was first commissioned, *(i)* contractors on the project whose contracts have been cancelled, *(j)* replacement or additional contractors on the project, *(k)* the most reliable estimate of public expenditure saved as a result of implementing the project and *(l)* the most reliable estimates of improved performance of departmental functions as a result of implementing the project. [20624]

Mr. Byrne: The information requested has been placed in the Library.

Departmental Secondment

Mr. Austin Mitchell: To ask the Secretary of State for Health how many officers seconded from accountancy houses are working in her Department; and how many of her officials have worked on secondment to outside accountancy houses. [20737]

Jane Kennedy: The Department's human resource (HR) system does not currently show where a person has been seconded to or from. The total number of staff on secondment or loan out of the Department on 31 October 2005 was 184 full- time equivalents (FTE). The number of staff on secondment or loan into the Department and recorded on the HR system on 31 October 2005 was 50 FTE. However we are in the process of improving the data coverage of our HR system and are working to include fuller information on all non-permanent departmental staff. The figure of 50 may therefore rise once the data has been improved.

Diabetes

Mr. Hollobone: To ask the Secretary of State for Health whether a choice of insulins is made available to *(a)* patients and *(b)* to next-of-kin in cases where the patient is unable to express a preference. [28674]

Ms Rosie Winterton: The choice of insulin is made as a result of a joint decision making process between the patient, their clinician or, when appropriate, their next-of-kin or carer.

Mr. Hollobone: To ask the Secretary of State for Health whether animal insulins are generally available to treat hospital patients according to their preference. [28675]

Jane Kennedy: Animal insulins are generally available in the United Kingdom to treat patients in hospitals, as well as those in the community. It is up to the clinician, in consultation with the patient, to decide which treatment is most suitable.

Mr. Hollobone: To ask the Secretary of State for Health whether the Department plans to arrange for pre-clinical trials of insulin analogues. [28678]

Ms Rosie Winterton: We have no plans to undertake pre-clinical trials of insulin analogues at this time.

Mr. Hollobone: To ask the Secretary of State for Health what measures she is taking to ensure that people with insulin-requiring diabetes can make informed choices about alternative treatments following the discontinuation of some synthetic human insulin products. [28680]

Ms Rosie Winterton: When a product is discontinued the choice of an alternative insulin is made as a result of a joint decision making process between the patient and their clinician. The choice of an alternative insulin should be based on a sound clinical decision based on the needs of each individual patient.

Mr. Hollobone: To ask the Secretary of State for Health if she will reconsider the referral of insulin treatments and their cost-effectiveness to the National Institute for Health and Clinical Excellence with a view to developing standard guidance. [28681]

Ms Rosie Winterton: The choice of insulin is made as a result of a joint decision making process between the patient and their clinician. Any decision should be made on a sound clinical decision based on the needs of each patient. I see no reason to refer insulin treatments to the National Institute for Health and Clinical Excellence at this time.

Mr. Hollobone: To ask the Secretary of State for Health if she will incorporate the conclusions reached in the recent World Diabetes Federation position statement into her Department's guidance on insulins. [28684]

Ms Rosie Winterton: The choice of insulin is made as a result of a joint decision making process between the patient and their clinician. The World Diabetes Federation position statement is one of a number of balanced reflections on the use of insulin, which I am sure clinicians and patients will consider along with other views as part of their decision making process.

Mr. Hollobone: To ask the Secretary of State for Health if she will issue guidance to the appropriate agencies that diabetes patients should have access to all animal, GM synthetic human and analogue insulin. [28724]

Ms Rosie Winterton: There are a number of different insulin regimes available and the choice of insulin is made as a result of a joint decision making process between the patient and their clinician.

East Midlands Ambulance Service

John Mann: To ask the Secretary of State for Health what discussions she has had with East Midlands Ambulance Service on *(a)* its investigation into the delayed response to a 999 call by a constituent, Mr. Derek Latham, and *(b)* when it plans to respond to the letters from the hon. Member for Bassetlaw of April and August on this matter. [27876]

Ms Rosie Winterton: The Department has no record of outstanding correspondence relating to this issue.

The East Midlands Ambulance Service National Health Service Trust is in the process of responding to the hon. Member for Bassetlaw on the issues relating to its delayed response to Mr. Derek Latham.

Eye Health Services

Mr. Baron: To ask the Secretary of State for Health how many eye hospitals designated as preferred providers have fully implemented a fast track referral pathway for patients with early wet age-related macular degeneration; and what her estimate is of the average waiting time for treatment following initial contact with an eye care professional. [28215]

Ms Rosie Winterton: *[holding answer 14 November 2005]:* National health service specialised services commissioners are responsible for commissioning photodynamic therapy for age related macular degeneration. Guidance to commissioners has stressed the importance of ensuring the development of fast track systems to ensure that the time between the initial referral and the treatment is as short as possible.

Data on average waiting times for treatment following initial contact with an eye care professional are not centrally collected. Information is, however, available on waiting times for hospital admissions for those with a primary diagnosis of degeneration of the macular and posterior pole. In 2003–04, the average time between a decision to admit and the date of admission was 41 days.

Fertility Treatment

Mr. Hancock: To ask the Secretary of State for Health (1) how many primary care trusts in England are not providing at least one cycle of IVF to eligible couples with infertility; and if she will make a statement; [28504]

(2) what assessment she has made of the practice of primary care trusts of limiting the provision of NHS-funded infertility treatment to couples with no existing children; and if she will make a statement; [28505]

(3) what assessment she has made of whether primary care trusts are applying more restrictive female age criteria than the 23 to 39 years range set by the National Institute for Health and Clinical Excellence to couples seeking NHS-funded infertility treatment; and if she will make a statement; [28506]

(4) what action is being taken to ensure that the social eligibility criteria applied by primary care trusts to couples seeking infertility treatment is the same throughout the country. [28507]

Caroline Flint: The National Institute for Health and Clinical Excellence (NICE) has carried out surveys following up the implementation of the clinical guideline on the assessment and treatment of people with fertility problems published in 2004. The surveys measuring the impact of the guideline, available on the NICE website at www.nice.org.uk, have found that 95 per cent. of the primary care trusts (PCTs) who responded are offering at least one cycle of in vitro fertilisation (IVF) to those defined as eligible according to local criteria. We advised PCTs to offer a minimum of one cycle of IVF by April 2005 to those who meet the clinical criteria in the guideline, giving priority to couples with no children living with them. We also advised that we expected the national health service to make progress to full implementation of the guideline in the longer term.

The primary responsibility for the implementation of the NICE guidelines rests with the NHS at local level, in discussion with patients' groups and local health bodies. Local policies will reflect local needs and priorities.

Health Statistics (West Lancashire)

Rosie Cooper: To ask the Secretary of State for Health how many individuals in West Lancashire suffer from *(a)* coronary heart disease, *(b)* stroke and *(c)* diabetes; and what steps are being taken to reduce the numbers of people suffering from such diseases. [27684]

Mr. Byrne: There are 4,685 patients with diagnosed coronary heart disease and 3,691 patients with diabetes in the West Lancashire Primary Care Trust. Information from the West Lancashire PCT indicates that there are 1,795 patients with strokes in the West Lancashire PCT. It should be noted that the total number of diagnoses may not equate to the total number of patients as some may have more than one condition.

West Lancashire PCT is implementing the standards contained in the National Service Frameworks (NSFs), and have implementation groups covering all disease areas. Stroke is addressed specifically in the older persons NSF and coronary heart disease and diabetes have separate working groups.

Department of Health statistics and PCT monitoring returns.

Healthcare Commission

Norman Lamb: To ask the Secretary of State for Health how many complaints there have been to the Healthcare Commission in each year since it was established; what the backlog is of complaints waiting to be considered by the Healthcare Commission; how many complaints have been considered and determined in each year since the Healthcare Commission was established; and what the estimated cost of considering a complaint is. [28682]

Jane Kennedy: The Healthcare Commission was established on 1 April 2004 and its function for handling complaints was introduced on 31 July 2004.

I understand from the Chairman of the Healthcare Commission that from 31 July 2004 to 31 March 2005, 5,753 complaints were received. 830 of those were considered and determined. From April 2005 to date, 4,694 complaints have been received with 4,981 considered and determined within this period.

The Healthcare Commission's target is for 95 per cent. of cases to be resolved within six months. There are currently 1,543 cases over six months old awaiting determination.

The cost per case depends on the complexity of the case but typically ranges from less complex cases being in the region of £500 to those cases needing further investigation being in the region of £1,125.

Hertfordshire and Bedfordshire Strategic Health Authority

Mike Penning: To ask the Secretary of State for Health what the budget of the Hertfordshire and

Bedfordshire strategic health authority is for 2005–06; and what plans she has to increase this budget for the next financial year. [25583]

Ms Rosie Winterton: Bedfordshire and Hertfordshire strategic health authority (SHA) has a resource budget of £4.8 million for its running costs in 2005–06.

The Department has not determined SHA budgets for 2006–07.

It is for primary care trusts to commission services for the population that they service and we have set their revenue budgets for 2006–07 and 2007–08 to give them continued certainty of funding for three years.

Hospital Cleanliness

Andrew Rosindell: To ask the Secretary of State for Health what plans she has to increase the standards of cleanliness in hospitals. [25188]

Jane Kennedy: The Department has a comprehensive and multi-faceted programme of work around cleaner hospitals covering a wide range of issues, including:

setting standards that are monitored by the Healthcare Commission,

increased investment,

involving ward sisters and charge nurses,

inspecting hospitals,

awareness campaigns,

issuing guidance and

research into alternative cleaning and monitoring technologies.

Hospital cleanliness is measured annually as part of the patient environment action team (PEAT) assessment. The process has been reviewed this year, and the proportion of the assessment form that relates to cleanliness, as opposed to other environmental factors has increased from around 11 per cent. to almost 25 per cent.

The inspection standards for hospital cleanliness have been made tougher year on year.

Hospital Travel Costs Scheme

Steve Webb: To ask the Secretary of State for Health whether she plans to alter the income eligibility threshold above which help is not available under the hospital travel costs scheme. [27337]

Jane Kennedy: The hospital travel cost scheme is part of the national health service low income scheme and there are currently no plans to alter the low income scheme eligibility criteria.

Independent Nurse Pharmacist Prescribing

Mr. Lansley: To ask the Secretary of State for Health pursuant to her written statement of 10 November 2005, *Official Report*, column 24WS, on Independent Nurse Pharmacist Prescribing, whether independent nurse prescribers allowed to prescribe controlled drugs will continue to be allowed to do so when the relevant regulations are amended; and if she will list the controlled drugs nurses are currently able to prescribe independently. [29856]

Jane Kennedy: The nurse prescribers' extended formulary currently includes the following controlled drugs:

diazepam, lorazepam and midazolam for use in palliative care only;

codeine phosphate, dihydrocodeine tartrate and co-phenotrope.

These controlled drugs will continue to be prescribable by extended formulary nurse prescribers.

A further six controlled drugs will shortly be added, subject to amendment of all relevant regulations, the Misuse of Drugs Regulations 2005 and the Prescription Only Medicines Order 1997.

Influenza Pandemic

Mr. Lansley: To ask the Secretary of State for Health what support she is providing to pharmaceutical companies to provide mock-up vaccines against possible strains of pandemic influenza. [23011]

Caroline Flint: A specific pandemic flu vaccine cannot be manufactured until the exact flu strain is known. The Department has met with vaccine manufacturers to discuss their preparedness for a flu pandemic and their progress towards producing a mock up vaccine.

We are working closely with other countries, the World Health Organization, and the European Commission and are in regular dialogue with manufacturers to ensure that a vaccine can be developed as quickly as possible once a pandemic influenza strain emerges. This will allow us to put arrangements in place to ensure production of vaccine for the United Kingdom population.

Mr. Jenkins: To ask the Secretary of State for Health how many people in *(a)* Staffordshire and *(b)* England have received a free influenza vaccine. [26159]

Caroline Flint: The percentage uptake of those aged 65 and over immunised in Staffordshire at the end of October was 53 per cent. The percentage of at risk groups vaccinated was 31 per cent.

The number of people in England immunised at the end of October was 49 per cent. in those aged 65 and over and 25 per cent. in at risk groups.

Learning Disability

Paul Holmes: To ask the Secretary of State for Health whether an individual with an IQ of 70 or above meets the definition of learning disability used in Valuing People if they also have a significantly reduced ability to understand new or complex information and to learn new skills, and a reduced ability to cope independently, which started before adulthood and has a lasting effect on their development. [28037]

Mr. Byrne: Considering intelligence quotient (IQ) alone is not sufficient to determine whether someone meets the definition of learning disability. An IQ slightly above 70, if associated with impaired social functioning may mean that services view someone as having a learning disability.

However, an IQ substantially above 70, even if associated with impaired social functioning, would mean that someone would not be considered to have a

learning disability. Valuing People covers adults with autism who also have learning disabilities. It is for local service providers to assess the individual's need, look at the balance between the determining factors and decide on the appropriate services to meet those needs.

Medical Staff (Hertfordshire)

Mike Penning: To ask the Secretary of State for Health how many accident and emergency *(a)* consultants, *(b)* middle grade doctors, *(c)* junior doctors and *(d)* nursing staff were employed by the West Hertfordshire NHS trust at 31 March (i) 2002, (ii) 2003, (iii) 2004 and (iv) 2005; and if she will make a statement. [26829]

Ms Rosie Winterton: The following table shows the number of hospital, public health medicine and community health services, medical staff employed by West Hertfordshire hospital national health service trust within the accident and emergency (A and E) medicine specialty by grade and year. It is not possible to identify A and E nurses separately.

Hospital, public health medicine and community health services (HCHS) medical staff employed by West Hertfordshire hospitals NHS trust within the A and E medicine specialty by grade and year[1]

	Number (headcount)			
	2002	2003	2004	2005[2]
All staff	26	29	33	[3]
Of which:				
Consultant	6	5	4	6
Non-consultant career grade staff	4	4	2	[3]
Doctors in training and equivalents[4]	15	18	26	[3]
Other staff	1	2	1	[3]

[1] All data as at 30 September each year, except for 2005 where data as at 30 June.
[2] Data for June 2005 is taken from the Medical and Dental Workforce Mini Census which collected consultants only.
[3] Denotes not available.
[4] Doctors in training and equivalents (previously known as junior doctors) includes the registrar group, senior house officer, house officer and other staff working at equivalent grades that are not in an educationally approved post.
Source:
NHS Health and Social Care Information Centre medical and dental workforce census.

Mental Health

Lynne Featherstone: To ask the Secretary of State for Health how much was budgeted for *(a)* talking therapies and *(b)* drugs for the treatment of mental health patients in the last year for which figures are available. [25354]

Ms Rosie Winterton: None of the latest round of allocations made to primary care trusts (PCTs) for 2003–04 to 2005–06 has been identified for specific purposes. It is for PCTs, in partnership with strategic health authorities and other local stakeholders, to determine how to use the funds allocated to them to meet the health care needs of their populations.

"The 2004–05 National Survey of Investment in Mental Health Services" reported that in 2004–05 planned investment by adult mental health service providers on psychological therapy services was £141,378,000. The survey did not capture planned investment on prescription costs. It is available on the Department's website at: www.dh.gov.uk/assetRoot/04/11/52/96/04115296.pdf

Tim Loughton: To ask the Secretary of State for Health (1) how many black and ethnic minority mental health services she expects to participate in the race equality impact assessment for the draft Mental Health Bill; [28049]

(2) what community involvement there has been in arranging the community consultation as part of the race equality impact assessment for the draft Mental Health Bill; [28050]

(3) on what date the race equality impact assessment for the draft Mental Health Bill began; [28051]

(4) whether the Department has followed the Commission for Racial Equality guidelines in the race equality impact assessment for the draft Mental Health Bill. [28052]

Ms Rosie Winterton: A formal race equality impact assessment (REIA) on the Mental Health Bill began at the end of 2004. Prior to this, the Bill and the preceding Green Paper received a wide consultation over a period of four years with various parties including black and minority ethnic (BME) stakeholders.

Officials conducted a series of roadshows after the pre-legislative scrutiny of the Bill in September 2004, at which BME communities and stakeholder groups participated. The pre-legislative scrutiny committee also received substantial written and oral evidence from BME stakeholders.

We have also published our action plan to tackle racial discrimination in mental health services "Delivering Race Equality", January 2005, which also covered our response to the David Bennett inquiry. These factors have influenced our decision to re-examine the concerns expressed by BME stakeholders about the Bill, and to our carrying out a formal REIA on the Bill before its introduction, in accordance with current race relations legislation. We have had close regard to the Commission for Racial Equality's (CRE's) guidance in undertaking the REIA, and Officials met with the CRE to discuss our approach.

As an initial part of the process we planned a series of regional meetings with service users and carers from the BME stakeholder community this spring. These events were cancelled when the general election was called. However, we have since established an advisory group chaired by Rabinder Singh, QC, whose report we expect to receive shortly, and which will inform the REIA which is to be published with the Bill.

The advisory group's summer workshop assessed the potential impact of the Bill. We have more recently held regional consultations attended by more than 200 people, mostly BME service users, carers and community groups. These events were organised with the help of race equality leads from the care services improvement partnership, a relatively new and powerful resource. These leads have strong and extensive links

with the communities they serve, enabling events such as these to be organised quickly. Again, the outcome of these events will feed into the REIA when this is published.

We remain confident that these processes will identify the key concerns that will enable us to respond to the REIA. We are also considering with the BME mental health network what further consultation(s) might be possible before the Bill is introduced. We will continue to engage with BME stakeholders as the Bill progresses through Parliament. We consider that it is particularly important to secure the strong engagement of BME stakeholders in developing the code of practice for the Bill, and the Bill's implementation.

Midwifery

Sandra Gidley: To ask the Secretary of State for Health how many midwifery assistants have been employed by Southampton University Hospitals Trust in each of the last five years. [29188]

Caroline Flint: This information is not collected centrally by the Department.

MRSA

Tim Farron: To ask the Secretary of State for Health how many cases of MRSA have been identified in hospitals within Cumbria in each year since March 2003, broken down by national health service trust. [29967]

Jane Kennedy *[holding answer 21 November 2005]:* The information requested is shown in the table.

	North Cumbria National Health Service Trust	*Morecambe Bay Hospitals NHS Trust*
April 2003 to March 2004		
Number of methicillin resistant Staphylococus aureus (MRSA) bacteraemia reports	22	30
MRSA rate per 1,000 bed days	0.09	0.10
April 2004 to March 2005		
Number of MRSA bacteraemia reports	24	30
MRSA rate per 1000 bed days[1]	0.10	0.10

[1] Per 1,000 bed days data is provisional, as final 2004–05 activity data is not available.

Note:
Data is only collected for acute trusts.

Myalgic Encephalomyelitis

Mr. Letwin: To ask the Secretary of State for Health if she will make a statement about the funding of genetic research into myalgic encephalomyelitis. [27324]

Mr. Byrne: The main agency through which the Government support medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body funded by the Department of Trade and Industry via the Office of Science and Technology.

The MRC does not normally allocate funds to particular topics: research proposals in all areas compete for the funding available. When appropriate, high quality research in particular areas of strategic importance may be given priority in competition for funds, but research excellence and importance to health continues to be the primary considerations in funding decisions. The MRC always welcomes high quality applications for support into any aspect of human health and these are judged in open competition with other demands on funding.

NHS Estates

Mr. Maples: To ask the Secretary of State for Health who the chief executive of NHS Estates is; what relevant specialist qualifications he or she holds; and what the details are of his or her career to date. [26321]

Jane Kennedy: The post of chief executive of NHS Estates no longer exists. In July 2004, the Department published the report "Reconfiguration of the Department of Health's Arm's Length Bodies", which outlined its programme of reducing arm's length bodies by approximately 50 per cent. One of the outcomes of the report was to abolish NHS Estates as an executive agency. The agency ceased all trading with effect from 31 July 2005 and closed on 30 September 2005.

NHS Staff (Assaults)

Steve Webb: To ask the Secretary of State for Health how many reported physical assaults against NHS staff there were in *(a)* England, *(b)* each strategic health authority and *(c)* each NHS trust in each year since 1997. [26547]

Jane Kennedy: The information requested was not collected in the required format prior to April 2004. The NHS Security Management Service (NHS SMS) has collected data on the number of physical assaults for England for the period 2004–05. On 19 October 2005, NHS SMS released figures about the numbers of these assaults on staff who work in mental health or services for people with learning disabilities; which totalled 43,309. Information relating to the number of physical assaults for the acute, primary care and ambulance services is currently being validated and will be released in the near future.

Non-EU Nationals (Hospital Treatment)

Mr. Hayes: To ask the Secretary of State for Health what is the estimated number of non-EU nationals who received hospital treatment in England in 2004–05; what the estimated cost is; how many were long-term cases; how many were asylum seekers; and if she will make a statement. [27972]

Jane Kennedy: Successive governments have not required the national health service to provide statistics on the number or nationality of overseas visitors treated under the provisions of the NHS (Charges to Overseas

Visitors) Regulations 1989, as amended, or on the costs of treatment. It is therefore not possible to provide the information requested.

Palliative Care

Chris Ruane: To ask the Secretary of State for Health how many palliative care places for *(a)* cancer patients and *(b)* heart patients there are in each local health authority area in England. [25603]

Ms Rosie Winterton: Palliative care services should be available to all patients, irrespective of diagnosis. The Department does not routinely collect data on palliative care places in each local health authority. Data supplied by Hospice Information, an independent organisation, states that there are approximately 2,110 specialist palliative care beds in the voluntary sector and 448 beds in the NHS in England. We also know that there are 213 day care places in England. The data in the 2005 directory is shown in the table.

Palliative care places

	Adult units	*NHS units*	*Voluntary units*	*Beds*	*NHS beds*	*Voluntary beds*
London	17	6	11	394	86	308
Midland and East of England	42	12	30	592	154	438
North	62	12	50	840	94	746
South	53	12	41	772	154	618
England	174	42	132	2,598	488	2,110

Patient Safety

Mr. Lansley: To ask the Secretary of State for Health (1) what was the cost of the taxonomy produced by the National Patient Safety Agency to establish agreed definitions of patient safety incidents; [27536]

(2) for what reasons the roll-out of the National Patient Safety Agency's National Reporting and Learning System was delayed, as described in paragraph 17, page 5 of the National Audit Office report, "A Safer Place for Patients"; [27543]

(3) what steps she is taking to ensure NHS trusts report all *(a)* patient safety incidents and *(b)* near-misses; [27547]

(4) if she will permit the National Clinical Assessment Service to provide support to poorly performing clinicians other than doctors; [27548]

(5) what steps she is taking to ensure that patients are informed when a patient safety incident involving them is reported to the NHS trust in which they were treated. [27549]

Jane Kennedy: The Department welcomed the publication of the matters identified in the National Audit Office report, "A safer place for patients: Learning to improve patient safety". It will be discussed in detail at a committee of public accounts hearing early in 2006. The Government will respond to the committee's subsequent report in the form of a Treasury Minute.

Mike Penning: To ask the Secretary of State for Health how many recorded deaths there were as a result of patient safety incidents in 2004 at *(a)* Hemel Hempstead general hospital and *(b)* Watford general hospital; and if she will make a statement. [27985]

Ms Rosie Winterton: The information requested is not held centrally.

Anonymised information on patient safety incidents and near misses is collected by the National Patient Safety Agency through its national reporting and learning system for adverse events. However, this is a confidential reporting system because experience from across the world in both health and other industries that providing a means for reporting incidents confidentially promotes reporting and facilitates the necessary learning.

Mike Penning: To ask the Secretary of State for Health how many *(a)* recorded patient safety incidents and *(b)* near misses there were in 2004 at (i) Hemel Hempstead general hospital and (ii) Watford general hospital; and if she will make a statement. [27986]

Ms Rosie Winterton: The information requested is not held centrally.

Anonymised information on patient safety incidents and near misses is collected by the National Patient Safety Agency through its national reporting and learning system for adverse events. However, this is a confidential reporting system because experience from across the world in both health and other industries that providing a means for reporting incidents confidentially promotes reporting and facilitates the necessary learning.

Primary Care Trusts

Mr. Yeo: To ask the Secretary of State for Health if her Department will conduct a review into effects on NHS care of changes proposed in the West Suffolk primary care trust's public consultation. [17699]

Ms Rosie Winterton: West Suffolk primary care trust is currently consulting on proposed changes. It would be inappropriate for the Department to review proposals in these circumstances. These are matters currently for local consideration.

Mr. Dismore: To ask the Secretary of State for Health if she will make a statement on progress with the proposed reform of primary care trusts in London. [23487]

Jane Kennedy: Strategic health authorities (SHAs) have recently submitted their proposals for the reconfiguration of primary care trusts (PCTs), which set out how they intend to strengthen their commissioning function. The proposals for London are available from the SHA. These proposals have been assessed by an independent external panel drawn from and representing a wide range of stakeholder interests, to determine whether the SHA proposals meet the criteria stipulated in "Commissioning a Patient-Led NHS" (July 2005).

Where the criteria are judged to have been met, the proposals will go forward to a three-month public consultation. No decisions on the reorganisation of PCTs will be taken until this process has been completed.

Prisons

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 2 November 2005, *Official Report*, column 1126W, on prisons, where sexual activity in prisons is permitted; and whether she has issued guidance, regulations or directions to HM Prison Service regarding sexual activity in prisons. [27475]

Fiona Mactaggart: I have been asked to reply.

The facts and purposes of custody, including the need to protect the vulnerable and to maintain good order and discipline, mean that it would be inappropriate for prisons to condone or encourage sexual activity between prisoners. However, the Prison Service recognises that sex in prisons is a reality and prison doctors were advised in 1995 that they should make condoms available to individual prisoners, on application, if in their clinical judgment, there is a risk of transmission of HIV infection during sexual activity. The Prison Service is planning to issue, in 2006, revised guidance and instructions which aim to clarify the policy on condoms so that it can be applied more evenly across the prison estate. The intention is to preserve individuals' health rather than to encourage sexual relationships.

Prostate Cancer

Mr. Lansley: To ask the Secretary of State for Health what steps she is taking to support the development of screening technology for prostate cancer; and how much funding has been provided from *(a)* her Department and *(b)* the Medical Research Council for this purpose in each year since 1997–98. [26014]

Ms Rosie Winterton: The Department supports the development of screening technology for prostate cancer by having a comprehensive research strategy into all aspects of prostate cancer. By providing both funding and structure we are improving the knowledge base of prostate cancer, opening up new possibilities for screening, treatment, care, etc.

We are jointly with other National Cancer Research Institute (NCRI) members, such as the Medical Research Council, funding two NCRI prostate cancer collaboratives, one based at the University of Cambridge and the other at the Institute of Cancer Research. The Department is funding half of the total £7.4 million cost.

The research undertaken by the collaboratives covers all aspects of prostate cancer and has already generated the groundbreaking discovery of the overactive E2F3 gene in prostate cancer tumours. This discovery provides the potential not only to identify those at risk of developing the disease, but for the first time allows the prediction of how aggressive the cancer will be.

It is important to note that in order for a screening technology to contribute to saving lives it is essential for there to be effective treatments for the disease detected. That is why the Department is funding a £20 million trial of treatments for prostate specific antigen (PSA) screen-detected early prostate cancer (the ProtecT trial).

The Department directly commissioned funding for prostate cancer research, including screening, as shown in the table.

Commissioned funding for prostate cancer research, including screening, 1999–2000 to 2004–05

	Funding amount (£)
1999–2000	200,000
2000–01	1,200,000
2001–02	2,200,000
2002–03	3,200,000
2003–04	4,200,000
2004–05	4,200,000

The level of funding of £4.2 million will be maintained for future years, subject to the quality of research proposals.

Room for Review

Mr. Burstow: To ask the Secretary of State for Health (1) for what reasons timescale for the publication of part one of the Taskforce on Medicine Partnership's evaluation of Room for Review was changed; [20665]

(2) pursuant to her answer of 14 July 2005, *Official Report*, column 1198W, when publication of part two of the Taskforce on Medicine Partnership's evaluation of Room for Review will take place. [20671]

Jane Kennedy: The plan was to publish both parts, part one on the survey of primary care trusts (PCTs) and part two on the views of patients, at the same time. As part two of the evaluation involved patients, ethics approval was required, which took longer than expected. To avoid further delay in sharing the results from the PCT survey, part one of the evaluation was published in March 2005. It is expected that the report of part two of the evaluation will be available by the end of 2006.

St George's Hospital, Hornchurch

James Brokenshire: To ask the Secretary of State for Health if she will make a statement on the future of St. George's Hospital, Hornchurch. [21540]

Ms Rosie Winterton: Any plans relating to the reconfiguration of service of St. Georges hospital in Hornchurch. Are a matter for Havering primary care trust (PCT) as PCTs are responsible for commissioning services for the population that they serve.

Tamiflu

Sandra Gidley: To ask the Secretary of State for Health what distribution arrangements will be made for Tamiflu to ensure it is taken shortly after onset of symptoms. [21786]

Caroline Flint: Antivirals will provide the first form of defence against pandemic influenza. We have purchased 14.6 million courses of oseltamivir, Tamiflu, to treat the 25 per cent. of the population that may fall ill. Deliveries will be complete by September 2006 and we have published a framework for the national health service for stockpiling, distributing and using antivrals which is available on the Department's website at www.dh.gov.uk/pandemicflu.

Primary care trusts will be responsible for developing plans to enable patients to access antivirals. The overall aim is to ensure that antiviral medicines are available to treat patients suffering from influenza as soon as possible and within 48 hours of the onset of symptoms. As more information about the virus and its symptoms emerges, we will develop clinical definitions of the disease and Tamiflu will be distributed on this basis.

West Hertfordshire Hospital Trust

Mike Penning: To ask the Secretary of State for Health what her latest estimate is of the outturn against planned expenditure in 2005–06 of West Hertfordshire Hospital Trust; and if she will make a statement. [25572]

Ms Rosie Winterton: The latest financial year for which the audited financial information of all national health service organisations, strategic health authorities, primary care trusts and NHS trusts, is available is 2004–05. A copy of this information is available in the Library. It can also be accessed via the Department's website at: www.dh.gov.uk/PublicationsAndStatistics/FreedomOfInformation/ClassesOfInformation/fs/en. The final position for West Hertfordshire Hospital NHS Trust for 2004–05 is an overspend against their revenue resource limit of £10 million.

WORK AND PENSIONS

Carers

Mr. Sanders: To ask the Secretary of State for Work and Pensions (1) what steps his Department is taking to raise awareness of benefits available to carers; [27008]

(2) what his estimate is of the number of carers *(a)* in England and *(b)* in the county of Devon, broken down by local authority area, who are not taking up their entitlement to benefits. [27051]

Mrs. McGuire: Carers may be entitled to the full range of social security benefits depending on their individual circumstances. Information and advice about entitlement to carer's allowance and other benefits are available from a range of outlets including social security offices, Jobcentre Plus offices, DWP and other helplines, DWP and other internet sites, local authorities, Citizens Advice and welfare benefit offices, public libraries, health clinics, doctors' surgeries and health visitors. Officials from the Department's disability and carers service also discuss carer's allowance at outreach events up and down the country.

In addition, the extensive pension credit take-up campaign, recently mounted by the Pension Service, has helped many older carers to benefit from the Government's abolition of the upper age limit on claims to carer's allowance and provided advice on other benefits.

The carer's allowance claim pack is kept under review and improvements are introduced on an ongoing basis. Claims can be made in writing, by phone and on-line, and can be accepted by organisations such as Age Concern and Citizens Advice as well as DWP offices.

Entitlement to benefits for carers depends on whether the qualifying conditions are satisfied, and this can be reliably established only after a claim has been made. There are no data available which would provide an estimate of the number of carers who would meet the conditions for these benefits if they claimed.

Mrs. Moon: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of how many recipients of carers' allowance ceased to receive it on reaching pensionable age in each of the last five years; [22542]

(2) what estimate he has made of the savings to his Department arising from ceasing to pay carers' allowance to carers on reaching pensionable age, broken down by region. [26984]

Mrs. McGuire: The available information is in the following table.

The rules which preclude the payment in full of more than one non-income-related benefit for income maintenance purposes are common to a wide range of benefits. Payment of carer's allowance is withdrawn from carers who receive state pension, either in full where the weekly rate of state pension exceeds the weekly rate of carer's allowance, or in part where the weekly rate of state pension is less than the weekly rate of carer's allowance. This means that carers of state pension age[1] receive at least as much by way of state benefits as they did before state pension age. They may retain entitlement to carer's allowance for so long as they continue to meet the entitlement conditions and, if they have a low income, may also be entitled to pension credit which includes an additional amount for carers, currently £25.80 per week.

Estimates of (i) the number of people in Great Britain who ceased to be paid carer's allowance when state pension became payable to them and (ii) what the cost would have been of continuing to pay the allowance to them.

[1] State pension age is 60 for women and 65 for men.

	12-month period ending on 31 May	
	2004	*2005*
Estimated number of people in the period to whom carer's allowance ceased to be paid when state pension became payable[1]	4,100	6,800
Estimated cost if carer's allowance had been paid to the end of the period (£ million)[2]	4.8	8.1

[1] Figures are rounded to the nearest 100.

[2] Estimates exclude increases for adult dependants and assume that *(a)* the dates on which people started to receive state pension were evenly distributed throughout the period; and *(b)* those people would have continued to meet the entitlement conditions for carer's allowance after state pension became payable.

Note:

From August 2003, figures are drawn from a new 100 per cent. data source, the Work and Pensions Longitudinal Study (WPLS). Owing to the limitations of earlier data it is not possible to provide estimates for earlier 12 month periods.

DWP Information Directorate—Work and Pensions Longitudinal Study (WPLS) and 100 per cent. samples.

Child Support Agency

Mr. Laws: To ask the Secretary of State for Work and Pensions pursuant to the oral answer of 16 November 2005 from the Prime Minister to the right hon. Member for Ross, Skye and Lochaber, *Official Report*, column 964, what plans he has to *(a)* reform and *(b)* abolish the Child Support Agency; and if he will make a statement. [30864]

Mr. Plaskitt: The Child Support Agency's chief executive, Stephen Geraghty, is currently undertaking a root and branch review of the agency. He will report to Ministers and we will make announcements shortly.

Media Relations

Mr. Salmond: To ask the Secretary of State for Work and Pensions how much the Department has spent on external media relations in each month of the last year. [14682]

Mrs. McGuire: This information is not available and can be obtained only at disproportionate cost.

Overseas Pensioners

Mr. Crabb: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of the number of British pensioners living in Commonwealth countries who have paid pension contributions and who do not receive pension increments; [29814]

(2) what representations he has received from British pensioners living in Commonwealth countries on payment of pension increments; [29824]

(3) whether he plans to change the current law affecting pensions entitlement for British pensioners living in Commonwealth countries. [30615]

Mr. Timms: We uprate the state pension in countries with which the UK has a reciprocal agreement or a legal obligation to do so. There are some 490,000 recipients of a UK state pension living in Commonwealth countries with which we do not have reciprocal agreements. We do, from time to time, receive correspondence from recipients who do not benefit from uprating of their state pension. However, we have no plans to change the current arrangements.

Source: DWP Information Directorate—Work and Pensions Longitudinal Study 100 per cent. data.

Pension Credit

Mr. Anthony Wright: To ask the Secretary of State for Work and Pensions how many pensioners in Great Yarmouth constituency are in receipt of pension credit; how much they receive on average; what estimate he has made of the number who are eligible; and what steps he is *(a)* taking and *(b)* plans to take to encourage those who are not claiming pension credit to do so. [28020]

Mr. Timms: The average weekly pension credit payment to household recipients in Great Yarmouth as at June 2005 is £40.03. Information on numbers of households and individuals in receipt of pension credit at 30 June 2005 is contained in the most recent quarterly Pension Credit progress report published on 20 October. A copy of the report is in the Library.

It is becoming clear that the number of people who are eligible for pension credit is somewhat less than the initial estimate. National statistics showing the number of pensioners entitled to pension credit at a national level in the first six months after its introduction and the subsequent take-up rate are expected to be available in December. Information at constituency level will not be available. The date of release of these statistics and the publication plans for the following set, covering 2004/05, will be pre-announced in "National Statistics Updates"; the diary of statistical releases.

Steps are being taken to ensure that everyone who is likely to be entitled to pension credit knows what they need to do to take up their entitlement. A letter has been sent out to every pensioner household to inform them about pension credit. New marketing campaigns have been developed to target regions and demographic groups that have a low take-up of pension credit. Data-matching techniques are being used to increase the accuracy with which invitations are targeted and further contact is also being made with those households we believe to be eligible for pension credit, but who have not so far responded.

The Pension Service's Local Service continues to work closely with local partners such as Help the Aged, Age Concern to help ensure pensioners take up their entitlements.

Pensions

Mr. Holloway: To ask the Secretary of State for Work and Pensions how many people in Gravesham *(a)* received the state pension and *(b)* (i) applied for and (ii) received the pension credit in each of the last five years; and what the average pension credit payment was in each year. [29898]

Mr. Timms: The available information is in the tables. Information on the number of people who have applied for pension credit is not available in respect of individual constituencies, pension credit was introduced from October 2003. Information on numbers of households and individuals in receipt of pension credit at 30 June 2005 is contained in the most recent quarterly Pension Credit progress report published on 20 October. The report is available in the Library.

Number of people in Gravesham parliamentary constituency receiving pension credit and the average weekly amount

	Household recipients	*Individual beneficiaries*	*Average weekly amount (£)*
May 2005	3,900	4,800	40.46
May 2004	3,600	4,300	39.65
November 2003	2,900	3,400	41.68

Number of people in Gravesham parliamentary constituency receiving state pension in each of the last five years

May	*Claimants*
2005	17,100
2004	16,900
2003	16,800
2002	16,600
2001	16,300

Notes:

1. May 2001 state pension data are taken from 5 per cent. extract of PSCS as at 31 March 2005, thus figures are subject to a degree of sampling variation. They are also adjusted to be consistent with the overall GB/overseas caseload from the WPLS.
2. Figures are rounded to the nearest hundred and expressed in thousands.
3. Parliamentary constituencies are assigned by matching postcodes against the relevant ONS postcode directory.
4. Pension credit replaced minimum income guarantee (MIG) in October 2003.

Information Directorate 5 per cent. sample
DWP Information Directorate: Work and Pensions Longitudinal Study (100 per cent. data).

Sir Malcolm Rifkind: To ask the Secretary of State for Work and Pensions what his latest estimate is of the number of single women pensioners who live below the poverty threshold. [27975]

Mr. Timms: The seventh annual "Opportunity for All" report (Cm 6673) sets out the Government's strategy for tackling poverty and social exclusion and reports progress against a range of indicators.

The table shows the number and percentage of single women pensioners living in households in relative and absolute low income. They show that in 2003–04 there were 700,000 single women pensioners living in households in relative low income, measured after housing costs—the number in relative low income has fallen by almost a half since 1996–07.

Relative low income[1]

	Number (million)	*Percentage*
After housing costs		
1996–97	1.2	37
2003–04	0.7	21
Before housing costs		
1996–97	0.9	26
2003–04	0.8	24

[1] i.e. based on contemporary income thresholds.

Absolute low income[1]

	Number (million)	*Percentage*
After housing costs		
1996–97	1.2	37
2003–04	0.3	11
Before housing costs		
1996–97	0.9	26
2003–04	0.4	13

[1] i.e. based on 1996–97 income thresholds held constant in real terms.

Notes:

1. Figures are for Great Britain.
2. Data are from the Family Resources Survey based on HBAI methodology.

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of progress towards the establishment of a comprehensive legal system in Afghanistan; and what assistance the UK is providing for this process. [29596]

Dr. Howells: The creation and consolidation of a national Afghan government and institutions, including a comprehensive legal system, will be the key to establishing long-term stability and security within Afghanistan. After nearly three decades of war, these institutions needed to be created from scratch.

Italy is the G8 lead nation for Afghan justice reform, of which legal reform is a part. The UK is the G8 lead nation on Counter Narcotics (CN) and is working in support of the Afghan government's eight pillar 2005 implementation plan, of which criminal justice is a key pillar.

We are spending over £270 million over the three financial years 2005–06, 2006–07 and 2007–08 on CN activity. Over 50 per cent. of the UK's budget for Afghan CN will go towards law enforcement and criminal justice; we are doubling our previously planned expenditure on criminal justice. The Government of Afghanistan, with our support, is on track to put in place the key foundations of a CN criminal justice system. This includes a new counter narcotics law, which is currently being drafted and is due to be finalised by the end of this year. The UK has also worked with the international community to recruit and train a CN Criminal Justice Task Force of Afghan investigators, prosecutors and judges, currently 80-strong, to work with the CN Police, to be able to push through successful investigations and prosecutions. The Criminal Justice Task Force has made 150 convictions since it became operational in May and are currently investigating 247 cases.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress the UK has made in delivering capability in its lead responsibility for counter-narcotics in Afghanistan. [29597]

Dr. Howells: The UK, as lead nation on counter narcotics (CN), remains committed to supporting the Afghan Government in the implementation of their comprehensive 2005 CN Implementation Plan. A UK advisor is also currently working with the Ministry of Counter Narcotics Strategy Unit to update the National Drugs Control Strategy for the new five-year period. We continue to work with the Afghan Government and others to increase activity in all areas of their strategy. As well as co-ordinating the activity of international partners, we are providing substantial financial and practical support, spending over £270 million over the three financial years 2005–06, 2006–07 and 2007–08 on CN activity.

Significant steps have already been taken to build Afghan capacity to tackle the drugs problem. At the end of last year, the Government of Afghanistan established the Ministry of Counter Narcotics charged with co-ordinating the fight against drugs. This year, the Ministry has organised on behalf of the Government of Afghanistan a series of high profile provincial CN "jirgas"—meetings of local leaders, to persuade local communities to not plant poppy this year, these meetings have taken place with the support of our ambassador in Kabul. The UK is funding a £12.5 million Institution Development project to further strengthen the Ministry of Counter Narcotics and other institutions in Afghanistan. On 29 October, a CN Trust Fund was officially launched at the Afghan Ministry of Finance. The Fund will give the Government of Afghanistan more money for CN activities and greater say over how this money is spent.

The UK has helped to establish and provide training for the Counter Narcotics Police of Afghanistan (CNPA)—the lead drugs law enforcement agency, headquartered in Kabul with seven provincial offices. The CNPA is currently around 500 strong, but will be expanded further to give it the capacity to operate nation-wide. The UK is also providing training for the Afghan Special Narcotics Force (ASNF), an elite and highly trained force equipped to tackle high value targets across the country. Since January 2004, the CNPA and ASNF have seized approximately 150 tonnes of opiates, destroyed over 264 drugs labs and made a significant number of arrests.

We are also working with the international community to recruit and train a counter narcotics Criminal Justice Task Force of Afghan investigators, prosecutors and judges to work with the Counter Narcotics Police, to be able to push through successful drugs investigations and prosecutions. The Criminal Justice Task Force is currently around 80 strong and made its first convictions in May this year for drug trafficking in Kabul. President Karzai also signed off a decree on 25 July, to establish Counter Narcotics divisions in Kabul's primary and appeals courts with jurisdiction over the whole of Afghanistan.

Ambassadors

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) if he will list the frais allowance for each UK ambassador for each of the past five years; [26866]

(2) what methods of accounting and audit UK ambassadors frais allowances are subject to; and if he will make a statement. [26868]

Mr. Straw: Heads of Mission receive frais de representation (Frais) and some other senior officers receive frais-type allowances to enable them to offer official entertainment in support of Government objectives. These allowances are individually assessed on the basis of previous budgetary evidence, agreed adjustments to reflect local costs and practice and the needs of the job.

Officers in receipt of Frais are required to provide a certificate of expenditure against Frais at the end of each financial year and at the end of their posting. They are required to keep an account of expenditure to provide evidence that it was necessarily incurred in the public service, that costs were not covered elsewhere, e.g. through personal allowances, and that the amount spent was reasonable. The accounts are subject to audit by Foreign and Commonwealth Office (FCO) auditors and form the basis for reviewing subsequent Frais allocations.

I am arranging for a copy of a schedule showing the information on individual Frais allocations to be placed in the Library of the House.

Arrangements for Frais will shortly change. Budget allocations will be devolved from the centre from 1 April 2006 and new accounting arrangements will be brought in thereafter, as the FCO's new financial management IT system is rolled out to posts.

China

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Chinese Government regarding alleged abuse of those who protest against the one child policy in China; and if he will make a statement. [29907]

Ian Pearson: We regularly raise concerns about abuses of human rights activists in China, including those who peacefully protest against the one child policy. Under the UK presidency, the EU raised the case of Chen Guang-Cheng, who is one such activist, with the Chinese Government in October and November 2005.

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of China about the cases of *(a)* Mao Hengfeng and *(b)* Chen Guangcheng; and if he will make a statement. [29908]

Ian Pearson: We regularly raise individual human rights cases with the Chinese Government. The EU has raised the cases of Mao Heng-Feng and Chen Guang-Cheng with the Chinese Government several times. Mao Heng-Feng's case was included on the list of individual cases handed to the Chinese at the October 2005 round of the EU/China Human Rights Dialogue. The EU, under the UK's presidency, raised the case of Chen Guang-Cheng with the Chinese Government in October and November 2005.

Common Foreign and Security Policy

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effect of the EU stability instrument upon the Common Foreign and Security Policy. [30266]

Mr. Douglas Alexander: It is clearly important that there should be no overlap or lack of coherence between the proposed new stability instrument and work undertaken under Common Foreign and Security Policy (CFSP). Discussions on the scope, objectives and programming of the Stability Instrument continue in Brussels. We have been working with others to ensure that the new Regulation defines what activities may be funded under the Instrument in a very clear way and that member states have sufficient control over programmes to ensure close co-ordination with CFSP actions, while still enabling the Commission to act flexibly, quickly and effectively in response to crises.

Cote d'Ivoire

Mark Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on future elections in Cote d'Ivoire. [30297]

Ian Pearson: Presidential elections scheduled for 30 October were postponed. This was due to a delay in the preparations required to make free and fair elections possible. The African Union and the UN Security Council have since called for elections to be held within the next 12 months. The onus now is on the Ivorian government and opposition parties, with the support of the international community, to ensure that elections occur in the given timeframe and are free, fair, credible and transparent. We are urging all those involved to take the necessary steps towards this objective.

Date-based Export Scheme

Tim Farron: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with the European Commission regarding the lifting of the date-based export scheme; and when the scheme will be lifted. [31083]

Mr. Douglas Alexander *[holding answer 22 November 2005]:* The Government are in regular contact with the European Commission at all levels about lifting the beef export ban which will end the need for the date-based export scheme.

I also refer the hon. Member to the answer given to him by my right hon. Friend the Parliamentary Under-Secretary of State for the Department of Environment, Food and Rural Affairs (Mr. Bradshaw) today (UIN 2052).

Democratic Republic of Congo

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs what support the Government are giving to the *(a)* demobilisation, disarmament and integration into civilian society and

(b) integration into the national army of the members of militias in the Democratic Republic of Congo. [31295]

Ian Pearson: We continue to press the Government of the Democratic Republic of the Congo (DRC) to accelerate its efforts to disarm militias and integrate all combatants into the national army or civilian life.

The UK has committed £25 million over five years to the Multi-Donor Regional programme for disarmament, demobilisation, repatriation, rehabilitation and reintegration (MDRP).

The UK has also contributed two of the eight officers in the EU's Security Sector Reform Mission (EUSEC). This has recommended action to the DRC Government to speed up disarmament and army integration and to improve the transparency of paying its soldiers. We have offered the DRC Government US$5million to support newly-integrated brigades, if they implement the EU's recommendations.

Departmental Staff

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in encouraging ethnic minority recruitment within his Department. [30508]

Mr. Straw: The Foreign and Commonwealth Office (FCO) is fully committed to improving the diversity of its workforce. Part of the FCO's work towards achieving this goal is positive action, involving the encouragement of candidates from under-represented groups to enter and progress in the organisation. Along with the rest of the civil service, we are committed to improving the representation of these groups, while ensuring that all recruitment and promotion is fair and achieved on merit.

The FCO participates in the Summer Development programme, which is a Cabinet Office run programme offering minority ethnic graduates the chance of working within Government Departments each summer. In 2005 we took on 10 participants, all of whom spent part of the summer working in an overseas mission.

We place advertisements for our generalist recruitment campaigns in the following minority ethnic newspapers and magazines: Works for Me, The Voice and the Ethnic Media News covering Eastern Eye, India Weekly, Asian Times, Caribbean Times, African Times and New Nation. We also advertise throughout the year in a number of minority ethnic publications and websites aimed at school leavers and graduates.

The following statistics show that, although the percentage of minority ethnic staff in the FCO has remained constant since 2002, recent recruitment figures show that there has been an increase in the number of minority ethnic recruits across the grades in 2005.

	Total staff	*Minority ethnic*
April 2002	5,678	326 (5.7%)
April 2003	5,915	338 (5.7%)
October 2005	6,014	345 (5.7%)

FCO Minority ethnic recruitment statistics

	Total recruited	*Minority ethnic (percentage)*
C4 Policy Entrants		
2004	21	9
2005	24	21
B3 Operational entrants		
2004	25	8
2005	30	23
A2 Executive assistants		
2004	14	0
2005	17	41
A1 Admin assistants		
2004	29	52
2005	65	51

As this data illustrates more progress on this issue is necessary.

Ethiopia

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs what measures are being taken to help people residing in the United Kingdom reclaim properties in Ethiopia that were confiscated between 1977 and 1991 under the Derg regime of Colonel Mengistu Haile Mariam; and if he will make a statement. [28318]

Ian Pearson: Compensation for claims registered against the Derg regime was managed by the Ethiopian Ministry of Finance, which dealt directly with the individual claimants through the Multilateral Investment Guarantee Agency. The Foreign and Commonwealth Office did not espouse these claims, but we did assist claimants with finding local lawyers to prepare and submit their claims. As far as we are aware the deadline for submitting claims expired in June 2001.

EU Secondary Legislation

Michael Gove: To ask the Secretary of State for Foreign and Commonwealth Affairs what proportion of EU secondary legislation has been passed under first round reading agreements between the European Parliament and Council in each year since such fast track procedures came into operation. [29450]

Mr. Douglas Alexander: Since the entry into force of the treaty of Amsterdam on 1 May 1999, when the more streamlined co-decision procedure came into operation, the following proportion of legislation was concluded at first reading. From 1 May 1999 to 31 December 2000, of 82 co-decision matters, 19.5 per cent.—16 cases, were concluded at first reading. In 2001, of 78 co-decision matters, 29.5 per cent.—23 cases, were concluded at first reading. In 2002, of 79 co-decision matters, 25.3 per cent.—20 cases, were concluded at first reading. In 2003, of 104 co-decision matters, 36.5 per cent.—38 cases, were concluded at first reading. In 2004, of 85 co-decision matters, 60.0 per cent.—51 cases, were concluded at first reading. From 1 January 2005 to 30 June 2005, of 39 co-decision matters, 56.4 per cent.—22 cases were concluded at first reading.

EU-ASEAN Meetings

Vera Baird: To ask the Secretary of State for Foreign and Commonwealth Affairs when the EU expects to make a decision on the approach it will take to participating in the EU-ASEAN meetings in July 2006, chaired by Burma. [30402]

Ian Pearson: Burma announced on 26 July that it would not be taking over the Chair of the Association of South East Asian Nations (ASEAN) in 2006. Burma will not therefore be chairing any EU/ASEAN meetings in July 2006.

Malaysia is the current chair of ASEAN and will host the ASEAN Post Ministerial Conference and the ASEAN Regional Forum in Malaysia from 24–28 July 2006.

Guantanamo Bay

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the progress of the US in bringing the suspected terrorists detained at Guantanamo Bay to trial. [29511]

Dr. Howells: The trial of those detained at Guantanamo Bay is currently subject to debate in the US Congress.

Nigeria

Mr. Sheerman: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will discuss with his counterpart in Nigeria measures to deal with email scams emanating from there. [29579]

Ian Pearson: We are helping the Nigerian Economic and Financial Crimes Commission (EFCC) to develop the capacity to tackle e-mail fraud as well as other forms of financial crime. The Nigerian Advance Fee Fraud and Other Related Offences Act was passed in 1995. The Nigerian Government have proposed draft legislation to strengthen the law and make it easier to catch and prosecute fraudsters, including through increased monitoring of email traffic in cybercafes and telecommunications companies.

We regularly raise the issue of financial crime with the Nigerian authorities and will continue to do so. It was discussed at the UK/Nigeria ministerial bilateral forum on judicial co-operation, attended by the then Nigerian Attorney-General, in May 2005.

Poland

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has extended his congratulations to the newly elected *(a)* Prime Minister and *(b)* President of Poland. [26069]

Mr. Douglas Alexander *[pursuant to the reply, 10 November 2005, Official Report, c. 747W]:* It was my right hon. Friend, the Foreign Secretary, and not I, who congratulated the new Polish Foreign Minister.

Sharm el-Sheikh (Bombing)

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* support and *(b)* financial assistance has been given to families of British victims of the Sharm el-Sheikh terrorist bombing; and if he will make a statement. [30380]

Dr. Howells: The British Embassy set up an emergency response team in Cairo and an office in Sharm el-Sheikh. The Foreign and Commonwealth Office (FCO) also sent a Rapid Deployment Team comprising Consular Officers, Red Cross Support Personnel and a medical team from International SOS to provide support to victims and families in Egypt. Special Branch and anti-terrorist police officers were also deployed with the team. Police Family Liaison Officers were attached to each bereaved family in the UK.

The 7 July Assistance Centre has agreed to help anyone affected by the Egypt bombings who approaches them. The Assistance Centre provides a co-ordinated response for those requiring advice as well as a sophisticated sign-posting and advice service, providing details of relevant counselling services/organisations. They will either deal with inquiries by telephone, or make an appointment to meet people to talk through their needs and concerns.

The Law Society has agreed to extend their pro-bono legal service to those affected by the Egypt bombings. In addition, free financial advice is available from a group of companies led by Origen Financial Services.

The FCO Aftercare Plan for victims of acts of terrorism overseas (Aftercare Plan) was activated immediately. The Aftercare Plan has paid for two members of each family who wished to travel to Sharm el-Sheikh to do so and for their accommodation while in Egypt. It paid for the medical repatriation of two victims and for the personal belongings of the injured and deceased to be returned. It also paid for the repatriation of the bodies of the three people who had not taken out an insurance policy. Death certificates will also be paid for.

The Department for Culture, Media arid Sport are in contact with families to arrange a suitable memorial service.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs how many families of British victims of the bombing in Sharm el-Sheikh were assisted by his Department to visit Egypt. [30381]

Dr. Howells: The Foreign and Commonwealth Office has paid for members of five of the eight families to travel to Sharm el-Sheikh. We will assist the other families should they wish to travel and when they are ready to do so.

St. Helena

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the Government's policy on the disapplication of the Freedom of Information Act 2000 in St. Helena. [29423]

Mr. Douglas Alexander: The English Law (Application) Ordinance provides for the law of England to be applied in St. Helena provided it is not inconsistent with a local law and is appropriate to local

circumstances. There is provision in the Ordinance for specific English laws to be declared to be inappropriate to local circumstances.

That provision was used to declare that the Freedom of Information Act 2000 was inappropriate to local circumstances because the Governor in Council considered the provisions in that Act to be incapable of effective application in the context of the financial and human resources available in the Territory.

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will require information held by the government of St. Helena in respect of the proposed airport on the island to be eligible for release under the Freedom of Information Act 2000. [29426]

Mr. Douglas Alexander: The Freedom of Information Act 2000 does not apply in St. Helena. The Government are therefore unable to require information, in respect of the proposed airport on the island, which is held by the Government of St. Helena to be eligible for release under the Act.

Considerable material related to the proposed airport is, however, already in the public domain in the UK and on St. Helena.

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs for what reasons publicly funded legal representation has not been made available to islanders on St. Helena who are opposed to the building of an airport on the island. [29428]

Mr. Douglas Alexander: There are no lawyers in private practice in St. Helena, however, the Public Solicitor is required to provide independent legal advice to members of the public. Such advice is provided either free of charge, or subject to contribution under the St. Helena Legal Aid and Advice Ordinance. The Public Solicitor is funded by the Department for International Development.

In addition, local legislation provides for a system of Lay Advocates, whose activities are also publicly funded, and who have access, in appropriate cases, to overseas lawyers.

Trade Justice

Mr. McGrady: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will press for trade justice at the meeting of the World Trade Organisation in Hong Kong in December. [29476]

Mr. Douglas Alexander: I refer the hon. Member to the answer I gave to the hon. Member for Gravesham (Mr. Holloway) on 2 November 2005, *Official Report*, column 1092W. As my right hon. Friend the Prime Minister made clear in his speech at the Lord Mayor's Banquet on 14 November, the current round of World Trade Organisation (WTO) negotiations is an opportunity to tackle some of the most fundamental injustices at the heart of world trade and to help millions of people to escape poverty. We are making the same argument to our EU partners, the European Commission and to other WTO members and stakeholders.

A successful, pro-development outcome to the WTO ministerial conference in Hong Kong in December remains a priority for the UK as presidency of the EU. The EU has agreed to negotiate an end to agricultural export subsidies, which are damaging to developing country producers, provided that other developed countries follow suit. The UK believes this date should be 2010. The EU is also pushing developed countries to extend tariff and quota free access to least developed countries, as the EU has already offered under the Everything But Arms initiative.

This is also why my right hon. Friend the Prime Minister announced that the UK will treble aid to £100 million a year by 2010 in order to help the poorest countries develop their capacity to trade. At the G8 Gleneagles summit, the European Commission already pledged to increase its aid for trade to €1 billion per year. We have called for EU member states to match that amount. We have also challenged other G8 countries to increase their aid for trade ahead of the Hong Kong ministerial conference.

CONSTITUTIONAL AFFAIRS

Consultants/Special Advisers

Martin Horwood: To ask the Minister of State, Department for Constitutional Affairs what steps the Department takes to ensure that consultancies do not claim excessive expenses whilst working for her Department and its agencies. [29096]

Ms Harman: Expenses payable to consultants are governed by our terms of contract. It is general practice to only allow expenses where these have been actually and necessarily incurred in undertaking the work involved up to an agreed maximum for the assignment. It is standard practice to pay in line with civil service travel and subsistence rates.

Martin Horwood: To ask the Minister of State, Department for Constitutional Affairs if she will list departmental projects conducted by consultants in each year since 2000; what the cost was in each case; and what the total cost of employing consultants was in each year. [29097]

Ms Harman: My Department does not use consultants to conduct projects. However, appropriate consultancies may be engaged to assist with specialist work, advice or other support.

An exhaustive list of past and present Departmental projects is not held centrally and could be obtained only at disproportionate cost. The total cost of consultants in each of the financial years since 2000–01 is as follows:

	£ million
2000–01	2.6
2001–02	6.5
2002–03	5.7
2003–04	9.0

This information is not held centrally by my Department, but is collected retrospectively. The data collection exercise relating to expenditure on consultancy in 2004–05 is under way, and on completion, details will be sent to the hon. Member.

Martin Horwood: To ask the Minister of State, Department for Constitutional Affairs what mechanisms are in place to assess the effectiveness of consultant-led projects in her Department; what sanctions are available to penalise consultants who run unsuccessful projects; how many projects conducted by consultants were assessed as unsuccessful in each year since 2000; and what sanctions were imposed in each case. [29117]

Ms Harman: My Department does not use consultants to conduct projects. However, appropriate consultancies may be engaged to assist with specialist work, advice or other support.

Consultants engaged by my Department are required to deliver against the commitments they are contracted to deliver.

It is the responsibility of individual project managers to monitor consultants' performance and to ensure that they meet contractual obligations.

Appropriate sanctions for breach of contract are contained within our contract terms.

No records are held centrally of sanctions applied within contracts and the information could be obtained only at disproportionate cost.

Mike Penning: To ask the Minister of State, Department for Constitutional Affairs how many *(a)* consultants and *(b)* special advisers were employed by her Department in each year since 1997; what the cost of each was in each year; and if she will make a statement. [27416]

Ms Harman: My Department uses consultants for expert professional advice and support on specific, time-limited tasks, usually in support of projects, but sometimes in the ongoing operation of the Department. However, information on the number of individual consultants involved in these exercises is not held centrally and could be provided only at disproportionate cost.

My Department does collect details of expenditure with consultants on a financial year basis. From April 1997 until March 2004, my Department's expenditure with consultants was as follows:

	£ million
1997–98	0.7
1998–99	1.2
1999–2000	1.9
2000–01	2.6
2001–02	6.5
2002–03	5.7
2003–04	9.0

This information is not held centrally by my Department, but is collected retrospectively. The data collection exercise relating to expenditure on consultancy in 2004–05 is under way, and on completion, details will be sent to the hon. Member.

The level of expenditure reflects the wide-ranging and fast-paced programme to modernise the Department's work, to increase efficiency, provide better customer service, and value for money for the taxpayer.

The numbers of special advisers employed by my Department appears as follows:

1997–2002: 1 special adviser per year

2003–05: 2 special advisers per year

The hon. Member is referred to the Cabinet Office response given by the Parliamentary Secretary (Jim Murphy) on 16 November 2005, which reads:

Since 2003, the Government have published on an annual basis the names and overall cost of special advisers and the number in each payband. For the most recent information I refer the hon. Member to the statement made by my right hon. Friend, the Prime Minister on 21 July 2005, *Official Report*, columns 158–62WS.

Information on the numbers of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House.

Court Security

Dr. Kumar: To ask the Minister of State, Department for Constitutional Affairs how many courts in *(a)* England and *(b)* the Tees Valley do not have security personnel to protect the premises. [26491]

Ms Harman: The information requested is as follows:

(a) The number of courts whose premises are known to have no security guarding is currently 53, the majority of which are county courts.

(b) All courts in the Tees Valley area do have security guards.

Dr. Kumar: To ask the Minister of State, Department for Constitutional Affairs how much was spent on security in *(a)* county courts, *(b)* magistrates courts and *(c)* Crown courts in each of the last five years. [26492]

Ms Harman: The information is found in the following table.

£

	Crown and county	*Magistrates*
2004–05	10,089,096	9,932,848
2003–04	10,818,965	9,694,162
2002–03	9,181,097	7,769,358
2001–02	8,077,677	6,640,247
2000–01	7,545,521	3,839,638

Please note the figures in the table are for pre-HMCS period and represent best available information on magistrate courts. This is because the magistrate courts, pre-HMCS, were self-autonomous organisations and were grant funded by the Department. The split between Crown and county security costs is not available.

Departmental Contracts (Direct Mail)

Norman Baker: To ask the Minister of State, Department for Constitutional Affairs how many contracts were signed by her Department in *(a)* 2005–06 to date and *(b)* 2004–05 for direct mail; and what the value was in each case. [27789]

Ms Harman: My Department commissioned the following direct mailings detailed as follows. Information about newsletters is not held centrally; to collate that information would be disproportionate to cost.

Date	Purpose of direct mail	Value of contract (£)
FY 2005–06 to date		
June 2005	Letter to MPs and Peers to provide background information about the reforms proposed for Legal Aid	1,674.50
October 2005	As above	1,580.00
October 2005	Brochure and DVD sent to employers in the UK to raise awareness of the magistracy and to promote the business benefits of having lay magistrates as staff	8,559.78
October 2005	Leaflets and letters sent to targeted offenders to recoup unpaid court fines from defaulters, as part of Operation Payback 3 campaign	430
October and November 2005	Letter from DCA/ Law Society sent to 8,000 lawyers to raise their awareness of judicial appointments (part of drive to increase diversity within the Judiciary)	1,285
FY 2004–05		
November 2004	Leaflets and letters sent to targeted offenders to recoup unpaid court fines from defaulters (Operation Payback 2)	839.95
January 2005	Leaflets and posters sent to FOI Officers in public authorities, solicitors, Advice Centres, Jobcentres, GP surgeries etc. to raise awareness among staff of new responsibilities as a result of introduction of Freedom of Information Act	86,628.51

Departmental Finance

Mr. Hancock: To ask the Minister of State, Department for Constitutional Affairs what the real terms percentage increase in allocated resources for her Department *(a)* was for the period 1997–98 to 2004–05 and *(b)* is estimated to be between 2005–06 and 2007–08 (i) for each period and (ii) for each year. [31043]

Ms Harman: The information requested is as follows:

(a) (i) The average annual real terms growth rate in allocated budget between 1997–98 and 2004–05 was 3.7 per cent. for Resource DEL and 16.2 per cent. for Capital DEL.

(a) (ii) The year on year real terms change was as follows:

Resource DEL

	Percentage
1998–99	[1]-3.4
1999–2000	[1]3.2
2000–01	[1]6.5
2001–02	9.4
2002–03	9.8
2003–04	-2.8
2004–05	4.3

[1] Cash basis.

Capital DEL

	Percentage
1998–99	-10.7
1999–2000	-39.4
2000–01	68.2
2001–02	22.4
2002–03	23.4
2003–04	65.3
2004–05	25.8

(b) (i) The average annual real growth rate in allocated budget between 2005–06 and 2007–08 is -1.7 per cent. for Resource DEL and -10.7 per cent. for Capital DEL.

(b) (ii) The year on year real terms change is as follows:

Resource DEL

	Percentage
2006–07	-2.0
2007–08	-1.4

Capital DEL

	Percentage
2006–07	-23.0
2007–08	3.5

Electoral Commissioners

Mr. Kemp: To ask the Minister of State, Department for Constitutional Affairs if she will seek to amend the relevant legislation to allow *(a)* local councillors, *(b)* other publicly elected office holders, *(c)* people who have made donations to a registered political party within the last 10 years and *(d)* (i) officers, (ii) employees, (iii) members, and (iv) people who have been members within the last 10 years of a registered political party, to serve as electoral commissioners. [29834]

Ms Harman: There are currently no plans to amend the eligibility criteria for appointment as an Electoral Commissioner as set out in the Political Parties, Elections and Referendum Act 2000.

Electoral Fraud

Derek Wyatt: To ask the Minister of State, Department for Constitutional Affairs how many arrests there have been in each year since 1997 for non-voter registration. [20773]

Ms Harman: It is not an offence in electoral law to fail to register to vote although it is an offence to fail to complete and return an annual registration canvass form to an electoral registration officer (ERO). EROs are responsible for compiling a register of eligible electors for their registration area and would hold locally any records regarding prosecutions for failure to supply information requested as may the police in respect of any related arrests. Such information is not collected centrally for the UK.

Gravesend County Court

Mr. Holloway: To ask the Minister of State, Department for Constitutional Affairs what the average waiting time for small claims from allocation to hearing was at the Gravesend county court in *(a)* 2003–04 and *(b)* 2004–05. [30300]

Ms Harman: The average waiting time for small claims for 2003–04 was 72.7 per cent. and for 2004–05 were 63.8 per cent. of claims heard within 15 weeks of allocation.

The latest data (September 2005) indicates that performance now shows 100 per cent. of small claims heard within 15 weeks.

The key factors related to previous performance are judicial allocations and courthouse capacity.

Mr. Holloway: To ask the Minister of State, Department for Constitutional Affairs how many drugs possession cases were heard at the Gravesend and Dartford county court in *(a)* 2003–04 and *(b)* 2004–05. [30306]

Ms Harman: When referring to Drugs cases I can only assume that the hon. Member means drug testing and treatment orders (DTTOs) which is a criminal matter and are therefore not heard in any county court; county courts deal with civil matters only.

No drugs cases were heard in Gravesend or Dartford county courts for the specified period.

Her Majesty's Courts Service

Mr. Llwyd: To ask the Minister of State, Department for Constitutional Affairs what funding has been made available for the start-up costs of Her Majesty's Courts Service. [27476]

Ms Harman: The resource budget for HMCS' first year of inception in 2005–06 is £962.52 million. The funding allocation is net of income and efficiency savings. The difference in the running costs of pre and post HMCS included in the funding is £217 million.

National Minimum Wage

Ms Katy Clark: To ask the Minister of State, Department for Constitutional Affairs how many employees in her Department were affected by the rise in the national minimum wage on 1 October. [28968]

Bridget Prentice: None of our employees were affected by the rise in the national minimum wage on 1 October.

Postal Voting

Rosie Cooper: To ask the Minister of State, Department for Constitutional Affairs if she will make it a requirement for the returning officer to make available a marked register indicating postal voters in West Lancashire. [27696]

Ms Harman: There is currently no provision in electoral law for a Returning Officer to prepare a register of postal voters marked to show which of them returned their postal votes. However, the Electoral Administration Bill currently before Parliament does make such provision, and our intention is that marked registers of returned postal votes will therefore be available after future elections.

Sarah Teather: To ask the Minister of State, Department for Constitutional Affairs what estimate she has made of the extent of postal vote fraud in *(a)* the last round of local elections and *(b)* the last general election. [30937]

Ms Harman: We are aware of allegations of electoral fraud in five areas at the last general and local elections on 5 May 2005. some of which are currently the subject of police investigation. However, no systematic central record is kept of such allegations and there may be others of which we are not aware. Where incidences of electoral fraud are discovered, or allegations made, they should be reported to, and investigated by, the relevant police authority.

The Government are nonetheless aware that these and previous cases have highlighted areas for improvement in the process of postal voting. Our policy paper 'Electoral Administration-a policy paper for discussion', published on 25 May 2005 put forward a number of proposals aimed at increasing the security of postal voting. We intend to introduce secondary legislation to implement these proposals in time for the local elections in May 2006.

Special Advisers

John Hemming: To ask the Minister of State, Department for Constitutional Affairs if she will list the special advisers in post in her Department, broken down by pay band; and what the total budgeted cost to her Department of special advisers is for 2005–06. [29415]

Bridget Prentice: Since 2003, the Government have published on an annual basis the names and overall cost of special advisers and the number in each payband. For the most recent information I refer the hon. Member to the statement made by my right hon. Friend, the Prime Minister on 21 July 2005, *Official Report*, columns 158–62WS.

Information on the numbers of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House.

Information relating to costs for 2005–06 will be published after the end of the current financial year.

Teesside Coroner

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs whether the Lord Chancellor has continued to require the Teesside coroner to provide monthly reports since the end of June. [30401]

Ms Harman: The coroner for Teesside has continued to provide monthly reports to the Lord Chancellor since the end of June. The last report was for September 2005 and the position with regard to outstanding inquests at that time was that a total of 193 inquest cases were outstanding with 44 of those over six months old.

Young Offenders

Ben Chapman: To ask the Minister of State, Department for Constitutional Affairs what the average

time was between arrest and sentence for convicted young offenders in Merseyside in 2004–05; and if she will make a statement. [29688]

Ms Harman: The Department does not collect this information centrally for all convicted young offenders but it does collect information for all offenders who are classified as Persistent Young Offenders.

The most recent figures available are for Persistent Young Offenders sentenced during August 2005. They indicate that the average time between arrest and sentence in Merseyside is 56 days compared to a target of 71 days. For the whole of 2005 to the end of August the figure is 58 days.

Youth Justice and Criminal Evidence Act

Vera Baird: To ask the Minister of State, Department for Constitutional Affairs what monitoring is being carried out on the take-up and impact of special measures under the Youth Justice and Criminal Evidence Act 1999. [30427]

Fiona Mactaggart: I have been asked to reply.

Two major research studies on special measures were commissioned by the Home Office. The first assessed the satisfaction of vulnerable and intimidated witnesses. The report 'Are special measures working? Evidence from surveys of vulnerable and intimidated witnesses' (Home Office Research Study 283, available at www.homeoffice.gov.uk/rds/pdfs04/hors283.pdf) was published in June 2004. Key findings from the research were also published in Home Office Findings 240 and are available at www.homeoffice.gov.uk/rds/pdfs04/r240.pdf.

Key points are that a third of witnesses using special measures would not have been willing and able to give evidence without the availability of these measures and that those who used the measures were significantly more likely to express satisfaction with the criminal justice system. The report of the second study evaluating the effectiveness of the criminal justice system in implementing the special measures is likely to be published in early 2006.

HOME DEPARTMENT

Alcohol and Drug Misuse

Mrs. Moon: To ask the Secretary of State for the Home Department what percentage of prisoners in Welsh prisons have been tested for drug use in the last four years, broken down by prison. [27926]

Fiona Mactaggart: There are three main types of drug testing in prisons: clinical, mandatory and voluntary. Full data on clinical and voluntary testing is not held centrally.

Under the mandatory programme, prisons are required, depending on population size to random test either five or 10 per cent. of their population each month. Targeted mandatory tests are also undertaken. Voluntary tests at a minimum of 18/yr are undertaken as part of a voluntary agreement or compact between a prison and prisoner. The number of compacts, details of which are held centrally, is an indirect measure of number of tests. The table sets out the percentage of tests in Welsh prisons in each of the last four years, along with the percentage of voluntary compacts.

Percentage

	2001–02			2002–03		
	Random	*Target*	*Compacts*	*Random*	*Target*	*Compacts*
Cardiff	4.9	2.7	38.3	5.0	2.0	56.7
Parc	4.9	0.5	3.6	4.6	0.2	18.9
Swansea	9.4	2.5	12.3	13.6	2.3	24.9
Usk/Prescoed	10.1	1.0	99.0	10.0	0.6	119.2

Percentage

	2003–04			2004–05		
	Random	*Target*	*Compacts*	*Random*	*Target*	*Compacts*
Cardiff	5.2	2.4	41.7	5.3	2.7	62.6
Parc	5.0	0.6	19.7	5.0	0.3	32.7
Swansea	9.4	0.8	31.8	9.8	1.0	31.1
Usk/Prescoed	10.0	0.7	29.0	10.0	1.1	26.8

Notes:

1. The voluntary compact per cent. figures are those quoted by the establishments as at the end of March of the financial year.
2. Some prisoners will be tested more than once in any one year, particularly for targeted testing.
3. Percentage figures are based on the average population.

Animal Testing (Attacks)

Andrew Rosindell: To ask the Secretary of State for the Home Department what steps the Government is taking to improve the security of animal testing centres from attack by extremists. [25266]

Paul Goggins: We condemn outright the harassment and intimidation by animal rights extremists of those going about their lawful business. Our aim is to eradicate this despicable threat and ensure that life saving research and testing can continue freely in the UK. We have in place a tough interdepartmental strategy to do this. We will maintain pressure on animal rights extremists and, in co-operation with law enforcement agencies and industry, will continue to develop protective measures against the extremist threat.

Steps we have recently taken include: new legislation to protect animal research organisations which has led to the arrests of several individuals; additional resources for the police; and the appointment of a National Co-ordinator for Domestic Extremism with a central team to drive forward police action nationally. Several leading extremists have been convicted this year and others face charges.

Car Seizures

Greg Mulholland: To ask the Secretary of State for the Home Department how many cars were impounded in Leeds North West in each year since 1997; and what the cost was in each year. [29433]

Paul Goggins: We do not collect centrally data on the numbers of vehicles removed or seized by the police or on the associated costs.

Children Act (Smacking)

Mrs. May: To ask the Secretary of State for the Home Department how many suspects have been *(a)* arrested for and *(b)* charged with smacking children under the Children Act 2004 since it came into force. [30235]

Fiona Mactaggart: None. The Children Act 2004 simply removes the defence of 'reasonable punishment' in relation to certain criminal offences, such as assault causing grievous bodily harm. Charges against a person alleged to have assaulted a child would be brought under the relevant criminal legislation, depending on the circumstances of the case.

Information on arrests collected centrally is based on persons arrested for 'notifiable' offences by main offence group. It does not distinguish between specific offences. Information on the number of persons charged by offence is not collected centrally.

Correspondence

Clare Short: To ask the Secretary of State for the Home Department when he expects to reply to the letter from the right hon. Member for Birmingham, Ladywood of 19 September to the Secretary of State for Culture, Media and Sport regarding the domestic violence register on behalf of Debra Michele Powell which was forwarded by the Department for Culture, Media and Sport to his Department, DCMS reference CMS/23392. [29286]

Fiona Mactaggart: A response to the letter from my right hon. Friend of 19 September to my right hon. Friend the Secretary of State for Culture, Media and Sport regarding the domestic violence register on behalf of Debra Michele Powell, which was forwarded by the Department for Culture, Media and Sport to the Home Office, DCMS reference CMS/23392, was sent by Baroness Scotland, on 18 November 2005.

Criminal Cases Review Commission

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the reasons were for the reduction in funding for the Criminal Cases Review Commission between 2003 and 2005; and if he will make a statement. [26633]

Fiona Mactaggart: The Criminal Cases Review Commission (CCRC) received a total budget in 2004–05 of £8,462,000 compared with £8,080,000 in 2003–04. The CCRC received less grant in aid in 2004–05 because of the requirement to use cash reserves which they had accrued from previous years, in accordance with the rules of 'Government Accounting'. This is the Treasury guidance which specifies that grant in aid should not be issued in advance of need and that cash balances should be kept at a minimum.

Criminal Injuries Compensation

Mr. Amess: To ask the Secretary of State for the Home Department if he will list the members of the Criminal Injuries Compensation Board; what the qualifications are of each member; and how long each has served as a member of the Board. [29744]

Fiona Mactaggart: The Criminal Injuries Compensation Board administered the non-statutory criminal injuries compensation scheme in force until 31 March 1996. The Board was wound up on 31 March 2000. The old scheme was superseded, from 1 April 1996 by a new, statutory, tariff based scheme. The tariff scheme is administered by the Criminal Injuries Compensation Authority (CICA). CICA does not have a board of members. Claims are determined by 'claims officers', who are civil servants seconded to the Authority from the Home Office and the Scottish Executive. Appeals against decisions of CICA are considered by adjudicators in the independent Criminal Injuries Compensation Appeals Panel (CICAP). Curriculum vitae of CICAP adjudicators are given in the Panel's annual reports and accounts, copies of which are placed in the Library.

Dr. Cable: To ask the Secretary of State for the Home Department pursuant to the answer of 31 October 2005, *Official Report*, column 772W, what measures are being taken to decrease the length of time spent processing an application for compensation under the Criminal Injuries Compensation Scheme 2001. [28426]

Fiona Mactaggart: The Criminal Injuries Compensation Authority (CICA) are recruiting more staff to deal with claims. The statutory 'Code of Practice for Victims of Crime', published in October 2005, requires both CICA and the police to meet obligations set out in the code about dealing with applications for criminal injuries compensation. And CICA and the police have concluded a new protocol to ensure a more rapid turn-round by the police of CICA requests for information.

Dr. Cable: To ask the Secretary of State for the Home Department how many awards were made for criminal injury compensation in each year from 2001 to 2005; what the *(a)* average and *(b)* maximum period of time taken to make the award was in each year; and if he will make a statement. [16933]

Fiona Mactaggart: The following information has been provided by the Criminal Injuries Compensation Authority.

Financial year	*Money awards made*	*Median time to make awards (months)*
2000–01	36,924	6–8
2001–02	39,813	6–8
2002–03	42,283	6–8
2003–04	41,354	6–8
2004–05	35,446	8–10

Some claims can take many years before final settlement is possible. For example, cases involving serious injuries to children, where the final prognosis and settlement may have to be deferred until the claimant reaches adulthood. Pending final settlement of cases like these, interim awards can be made.

Dental Treatment (Compensation)

Daniel Kawczynski: To ask the Secretary of State for the Home Department if he will take steps to ensure compensation awarded as a result of an assault covers costs incurred for dental treatment. [24829]

Fiona Mactaggart: The Criminal Injuries Compensation Scheme pays compensation on the basis of a tariff (scale) of awards that groups together injuries of comparable severity and allocates a financial value to them. Awards for dental injuries range from a level 2 award of £1,250 to a level 8 award of £3,800.

Drug Abuse

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on progress in implementing the cross-departmental plan to tackle drug abuse among young people, with particular reference to the 30 high-focus areas referred to on page 103 of the 2005 Departmental Report. [26698]

Paul Goggins: Good progress is being made in implementing the cross departmental plan to tackle drug misuse among young people. The 2004–05 British Crime Survey shows that in the past year Class A drug use by 16 to 24-year-olds has been stable while the number using any drug has fallen. Closer links between drugs services and children's services are being developed; underpinned by joint Department for Education and Skills (DfES) and Home Office (HO) guidance issued as a part of the Every Child Matters Change for Children Programme. 30 High Focus Areas are leading the way in implementing this guidance through the delivery of effective prevention and early intervention services for young people most at risk from drugs.

Drug Smugglers

Andrew Rosindell: To ask the Secretary of State for the Home Department how many drug smugglers have been convicted in each year since 1998. [22956]

Paul Goggins: The available information relates to the unlawful importation or exportation of a drug controlled under the Misuse of Drugs Act 1971.

The number of persons found guilty by the courts, cautioned by police or dealt with by Her Majesty's Customs and Excise compounding in England and Wales for these offences totalled 1,340 in 1998, 1,310 in 1999, 1,290 in 2000, 1,800 in 2001, 1,740 in 2002 and 1,170 in 2003. Data for 2004 are scheduled to be published in November 2005.

Drug Treatment

Mr. Khan: To ask the Secretary of State for the Home Department what research his Department has commissioned on the effectiveness of drug treatment programmes in *(a)* HMP Wandsworth and *(b)* other prisons in England and Wales. [17658]

Fiona Mactaggart: Research into the Rehabilitation for Addicted Prisoners Trust (RAPt) programme, currently running at Her Majesty's prison Wandsworth, has shown positive results—with 40 per cent. of graduates, rather than an expected 51 per cent. reoffending within two years.

Wider research also demonstrates the effectiveness of drug treatment programmes, which can achieve a reduction of up to 15 per cent. in the extent of reoffending.

The research emphasises that such results can only be achieved where effective through-care arrangements are made and timely after-care services are available in the community.

Drug-related Crime

Mr. Hepburn: To ask the Secretary of State for the Home Department what the level of drug-related crime was in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England and Wales in each year since 1997. [24287]

Paul Goggins: Recorded crime figures are used to measure the extent of crime in local areas. Although these include statistics on drugs offences, such as possession and supply, and acquisitive crimes which may be drug-related, such as burglary and shoplifting, they do not contain information on the offender's drug habits. It is therefore not possible to provide reliable estimates from these statistics of the numbers of crimes that are drug-related in different areas.

Forgery Act

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females have been (i) charged and (ii) convicted in England and Wales of offences under sections (A) 34 and (B) 36 of the Forgery Act 1861 in each year since 1984. [27144]

Fiona Mactaggart: Statistics on the number of persons charged with a crime are not centrally collected.

Data collected on the Home Office Court Proceedings database for offences under the Forgery Act 1861 are in paper format prior to 2003. As these records need to be manually analysed, sample years have be selected and are shown in the table. The number of convictions under S34 of the Forgery Act 1861 'Acknowledge bail in false name' is contained in the table for years 1992, 1997, 2002–04. There were no convictions under S36 of the Act 'Destroying, injuring, forging or falsifying registers of births, baptisms, marriages, deaths or burials or certified copies'.

Paper records prior to 1992 are no longer available.

Number of males and females convicted at all courts under S.34 Forgery Act 1861 in England and Wales, 1992, 1997, 2002–04[1]

Offence: Acknowledge bail in false name
Statute: Forgery Act 1861 S.34

	Found guilty	
	Male	*Female*
1992	20	–
1997	13	–
2002	9	3
2003	16	2
2004	7	1

[1] These data are on the principal offence basis

Court statistics for 2005 will be available in autumn 2006.

Homophobic Crime

Stephen Williams: To ask the Secretary of State for the Home Department how many incidences of crime

involving an element of homophobia were reported in each year between 1999 and 2004, broken down by police authority. [28332]

Paul Goggins: The information requested is not collected centrally as offences involving homophobia are not separately identified in the recorded crime series.

Illegal Drugs Trade

Mr. Amess: To ask the Secretary of State for the Home Department what estimate he has made of the value of the illegal drugs trade in *(a)* Southend, *(b)* Essex and *(c)* the Metropolitan police area of London in the past 15 years. [16593]

Paul Goggins: The Home Office does not estimate the value of the illegal drugs trade at a local level. We do, however, estimate the overall size of the market for illicit drugs on a national basis. In 2001, the Home Office published an estimate of the size of the market for illicit drugs in the UK which amounted to around £6.6 billion in 1998. Full details of this study (Occasional Paper 74) are available to download at http://www.homeoffice.gov.uk/rds/drugs1.html.

Jury Trials

Mike Penning: To ask the Secretary of State for the Home Department what plans he has to bring into force part 7 of the Criminal Justice Act 2003 relating to conducting complex trials without a jury; and if he will make a statement. [21995]

Fiona Mactaggart: Further to the statement made in both Houses on 21 June 2005, *Official Report*, column 35WS, a draft order to bring section 43 of the Criminal Justice Act 2003 (which makes provision for serious or complex fraud cases to be tried without a jury) into force on 1 January 2006 was laid before Parliament on 27 October. The Criminal Justice Act 2003 (Commencement No. 12 and Transitory Provisions) Order 2005 requires an affirmative resolution of both Houses.

Learco Chindamo

Mr. Winnick: To ask the Secretary of State for the Home Department if he will make inquiries of the Parole Board whether it is intended to release Learco Chindamo from prison in the near future; and if he will make a statement. [30493]

Fiona Mactaggart *[holding answer 21 November 2005]:* The independent Parole Board cannot consider the question of Mr. Chindamo's suitability for release on life licence until he has served the minimum period of imprisonment necessary to meet the requirements of retribution and deterrence (the tariff). Mr. Chindamo's tariff was set at 12 years and will not expire until 2008.

My right hon. Friend the Secretary of State will provide the Parole Board with his view of Mr. Chindamo's potential risk and he will also be represented at the parole hearing. However, the decision on whether or not to release Mr. Chindamo on tariff expiry will be a matter for the Parole Board panel. That decision will be based on the level of harm to the public that the panel considers he presents at that time.

Murder

Dr. Cable: To ask the Secretary of State for the Home Department how many people were successfully prosecuted for murder, where they were judged to have been provoked *(a)* between 1996 and 2001 and *(b)* since 2001. [21053]

Fiona Mactaggart: The available information from the Home Office Court Proceedings database on the number of successful prosecutions for murder and manslaughter, 1996 to 2003, is contained in the table. It is not possible to identify those convictions where the defendant was judged to have been provoked, as the circumstances surrounding an offence are not centrally collected.

Number of offenders found guilty at all courts for certain offences under the Offences Against the Person Act 1861[1], England and Wales 1996 to 2003

	Found guilty	
	Murder	*Manslaughter[2,3]*
1996	257	529
1997	275	541
1998	256	549
1999	252	484
2000	261	505
2001	285	565
2002	324	619
2003	277	561

[1] These data are on the principal offence basis.

[2] Covers: manslaughter, infanticide, child destruction, causing death by dangerous driving, diminished responsibility and causing death by careless driving when under the influence of drink or drugs.

[3] Found guilty figures may include those prosecutions for murder that were reduced to manslaughter.

Statistics on court proceedings for 2004 will be published in late November.

National Offender Management Service

Mr. Llwyd: To ask the Secretary of State for the Home Department what plans there are for the replacement of the chief executive of the National Offender Management Service; and what the recruitment arrangements will be. [22675]

Fiona Mactaggart: The chief executive post will be subject to an external recruitment campaign. The Department is being assisted in this process by a specialist, external recruitment agency.

The Civil Service Commissioners are fully involved in this process, and a Commissioner will chair the selection panel.

The post is permanent and pensionable.

Parole

David Davis: To ask the Secretary of State for the Home Department if he will list *(a)* the crimes committed by prisoners released on parole and *(b)* the number of individuals who committed each crime while on parole in the last year for which figures are available. [29351]

Fiona Mactaggart: The requested information is not recorded in this format centrally and is thus not available.

Passports

Mr. Amess: To ask the Secretary of State for the Home Department how many passport applications have been refused *(a)* to prevent individuals from leaving the UK to avoid prosecution or legal action, *(b)* to individuals considered to be notoriously undesirable or dangerous and *(c)* to prevent the international abduction of children in the last 10 years; and whether there are any other circumstances in which passports have been refused. [18435]

Andy Burnham: Passports are issued at the discretion of the Secretary of State in exercise of the Royal Prerogative. Apart from those applications that are unsuccessful because the applicant does not hold British nationality or because identity is not satisfactorily established, there are additionally four separate circumstances where an individuals passport application is refused. These are

1. a minor whose journey is known to be contrary to a court, order, to the wishes of a parent or other person or authority who has been granted a residence or care order and in other similar circumstances;

2. a person for whose arrest a warrant has been issued in the United Kingdom or who is wanted by the police on suspicion of a serious crime;

3. in very rare cases, a person whose past or proposed activities were so demonstrably undesirable that passport facilities would be contrary to the public interest; and

4. a person repatriated from abroad at public expense until the debt has been repaid.

The Criminal Justice and Police Act 2001 makes provision for the Crown Courts to impose travel restriction orders on certain drug trafficking offenders and to confiscate the passports of those who are British nationals for the period of the travel ban. The courts provide details to the UKPS of those subject to a travel restriction order.

The UKPS records of other unsuccessful applications are not held in a form which distinguishes between those where the claim to a passport is not established and those refused on one of the grounds above.

Police Reform Act (Schedule 4)

David Davis: To ask the Secretary of State for the Home Department how many vehicles being used in a manner which contravened sections 3 or 34 of the Road Traffic Act 1988 have been seized by *(a)* community support officers and *(b)* police officers under paragraph 9 of schedule 4 to the Police Reform Act 2002 in each of the last four years, broken down by police authority. [29354]

Paul Goggins: The figures requested are not collected centrally.

Politically Exposed Persons

Malcolm Bruce: To ask the Secretary of State for the Home Department what procedures his Department has in place for *(a)* identifying and *(b)* tracking politically exposed persons who bring wealth derived from the illicit acquisition of foreign states' public assets into the United Kingdom. [29693]

Paul Goggins: The National Criminal Intelligence Service (NCIS) has procedures in place to identify persons, including politically exposed persons, suspected of being in possession of criminal property and to refer the intelligence to law enforcement agencies. Much intelligence of this nature comes by way of suspicious activity reports made to NCIS by UK banks and others within the 'regulated sector' under the Proceeds of Crime Act 2002. The Home Office works closely with NCIS, other Government Departments, law enforcement and industry to ensure the effectiveness of these procedures.

Prisons

David Davis: To ask the Secretary of State for the Home Department what plans he has to provide more prison places over the next five years. [29353]

Fiona Mactaggart: There is a funded building programme to increase operational capacity to 79,100 by June 2006 and 80,400 by 2007.

We continue to investigate options for providing further increases in capacity.

Mr. Pelling: To ask the Secretary of State for the Home Department what the prison population has been *(a)* in total, *(b)* in the Prison Service and *(c)* within private prisons in each of the last five years. [25452]

Fiona Mactaggart: The requested information for England and Wales is in the following table, as recorded on the Prison Service IT system.

Population of prison population by category and year. England and Wales 30 June

	Contracted out	*Prison service establishments*	*Total*
2001	7,722	58,681	66,403
2002	8,975	62,243	71,218
2003	9,270	64,387	73,657
2004	9,265	65,223	74,488
2005	9,990	66,200	76,190

Dr. Kumar: To ask the Secretary of State for the Home Department what measures are being taken to reduce the availability of illegal drugs in prisons. [29918]

Fiona Mactaggart: A comprehensive framework exists to reduce the availability and spread of illegal drugs in prisons. It includes:

passive and active drug dogs;

closed circuit television systems and fixed and low-level furniture;

closed visits and visit bans on visitors suspected of smuggling drugs;

sharing of intelligence with police about drug routes into prisons;

the use of the Supply Reduction Good Practice Guide; and mandatory drug testing.

Dr. Kumar: To ask the Secretary of State for the Home Department if he will increase the amount spent on drug rehabilitation schemes in prisons. [29919]

Fiona Mactaggart: Given drug treatment's key role in rehabilitating offenders and reducing re-offending, the Government have invested heavily in a wide range of drug treatment in prisons. In the past year alone, an additional £3.4 million made available for intensive drug rehabilitation programmes. Substantial funding is also being invested over the next three years to boost the amount and quality of treatment available to drug-misusers in prison—crucially during the first 28 days in custody.

Dr. Kumar: To ask the Secretary of State for the Home Department what specific training is given to staff working with girls under 18 years in prisons. [30366]

Fiona Mactaggart: In March 2004 the Prison Service and Youth Justice Board introduced the Juvenile Awareness Staff Programme to set a minimum standard of training for those working with children and young people, both boys and girls, in custody. The programme was reviewed in 2005 and new modules were added to the existing programme. The programme now includes modules on, among other things, safeguarding, child protection, mental health, substance misuse, vulnerability assessment, resettlement planning and managing difficult behaviour. This training has been delivered to all existing and new staff who work on the dedicated units for young women. Overall 1,000 staff have completed the programme to date.

Bob Spink: To ask the Secretary of State for the Home Department by what criteria life prisoners are assessed by the Parole Board for release. [30386]

Fiona Mactaggart: In considering the possible release of any tariff expired life sentence prisoner, the Parole Board is required by statute to satisfy itself that

"it is no longer necessary for the protection of the public that the prisoner should be confined".

The Parole Board makes risk assessments of life sentence prisoners against criteria contained in directions given by the Secretary of State under Section 32 (6) of the Criminal Justice Act 1991. In addition, Rules made under Section 32(5) of that Act outline the procedural arrangements for the appointment of board panels to consider lifer cases and the provision of evidence. The directions and rules were amended on 1 August 2004 following changes to the release arrangements for mandatory life sentence prisoners as introduced by the Criminal Justice Act 2003. My predecessor (Paul Goggins) announced those changes in a written ministerial statement on 22 July 2004. A copy of his statement is available in the Library.

Bob Spink: To ask the Secretary of State for the Home Department what plans he has to review the requirements for parole for life prisoners; and if he will make a statement. [30389]

Fiona Mactaggart: There are no plans to review the parole system for life sentence prisoners. The release of all life sentence prisoners who have served the minimum period of imprisonment for the purposes of retribution and deterrence (the tariff), is entirely a matter for the independent Parole Board.

Bob Spink: To ask the Secretary of State for the Home Department (1) how many prisoners are waiting to attend *(a)* lifer victim awareness courses and *(b)* alcohol management courses; [30394]

(2) how many prisons are running *(a)* alcohol management and *(b)* lifer victim awareness courses. [30385]

Fiona Mactaggart: Information on *(a)* alcohol management and *(b)* lifer victim awareness courses is not collated centrally.

A number of prisons run alcohol management courses. There are no nationally accredited lifer victim awareness courses run by the Prison Service. Her Majesty's prison The Mount delivers a lifer victim awareness course.

Information on the number of prisoners waiting to attend such courses is not collated centrally.

Bob Spink: To ask the Secretary of State for the Home Department how many lifer victim awareness courses are accredited for prisons in the UK. [30395]

Fiona Mactaggart: There are no nationally accredited lifer victim awareness courses run by the Prison Service. However, accredited general offending behaviour courses do include a victim perspective, and programmes such as the Sex Offender Treatment Programme also engage offenders in victim empathy work.

Bob Spink: To ask the Secretary of State for the Home Department how courses are chosen for life prisoners in order that they can demonstrate they have progressed before they are considered for parole. [30396]

Fiona Mactaggart: Prison staff are required to complete a life sentence plan (LSP) for all life sentence prisoners. The LSP framework provides the prisoner with a series of objectives designed to help him or her reduce their risk, and the means by which such a reduction might be achieved.

Specific risk reduction work, in the form of offending behaviour programmes, courses and other treatment options will be identified and managed throughout sentence by prison staff and treatment managers. The prisoner is involved in the LSP process and will be aware of the various targets and objectives. Selection for particular interventions will depend on a number of factors. These include, for example, an assessment of suitability, the prisoner's motivation to address the various treatment needs, the availability and location of the intervention, the proximity of the tariff expiry date, the sequencing of the individual's treatment needs alongside areas like work, education or vocational training. Treatment managers in prisons are largely responsible for prioritising cases and managing waiting lists for programmes and courses. In this respect, the treatment needs of life sentence prisoners would also have to be prioritised as appropriate, alongside those of determinate sentence prisoners.

Reoffending Statistics

Lynne Featherstone: To ask the Secretary of State for the Home Department what the rate of reoffending

within *(a)* three years, *(b)* four years, *(c)* five years and *(d)* 10 years has been for prisoners released in each of the last 10 years. [29210]

Fiona Mactaggart: Actual re-offending rates are not available. Reconviction rates are a commonly used proxy and two year reconviction rates are published annually.

The most recent data are shown in the table. Owing to the administrative costs of matching criminal histories, the results shown relate to the reconviction results for samples of offenders.

There are no recent data on longer term reconviction rates.

Year of discharge[1]	*Percentages of prisoners reconvicted of standard list offences within two years of discharge from prison*
1992	51
1993	53
1994	56
1995	58
1996	57
1997	58
1998	59
1999	59
2000	N/A
2001	61

[1] The reconviction rates are based on all those prisoners discharged in the first three months of the years shown.

Road Safety

Mr. Iain Wright: To ask the Secretary of State for the Home Department how many people received a positive breathalyser test in the Cleveland police area in each of the last five years, broken down by basic command unit. [25677]

Paul Goggins: Information from 1999 to 2003 (latest available) for Cleveland police area is given in the table. The information is collected centrally at police force area level only. Data for 2004 will be published early in 2006.

Number of positive/refused screening breath tests, Cleveland 1999–2003[1]

Cleveland	*Numbers*
1999	800
2000	800
2001	800
2002	800
2003[1]	1,100

[1] Following comparisons between the number of positive breath tests requested by each police force in 2003 and the number of court proceedings drink/driving related offences, it became clear that there was under-reporting in a number of forces. As a result Cleveland court proceedings figures have been substituted for the positive breath test figure.

Note:
Numbers in the table have been rounded to the nearest 100.

Sex Abuse Investigations

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will establish a Royal Commission to examine the processes used in sex abuse investigations. [26687]

Paul Goggins: The Government and the police continue to work together in order to ensure that investigations of allegations of sexual abuse are effective as well as sensitive to the needs and concerns of complainants and alleged offenders. In the light of such initiatives, we do not consider that the case for setting up a Royal Commission has been made.

Sexually Transmitted Diseases

Mr. Lansley: To ask the Secretary of State for the Home Department what assessment he has made of the merits of seeking to introduce a new offence of intentionally transmitting a serious disease. [26017]

Hazel Blears: The Home Office consulted on the issue of offences of violence in 1998, and this included the issue of causing harm by transmitting a serious disease.

Anyone who intentionally transmits a serious disease and thereby causes harm may be guilty of an offence of intentionally causing Grievous Bodily Harm under section 18 of the Offences Against the Person Act 1861. Recent cases have confirmed that anyone who recklessly sexually transmits a serious disease may be guilty of an offence of maliciously causing grievous bodily harm under section 20 of the 1861 Act. Home Office officials are working with the Crown Prosecution Service (CPS) to develop guidelines for prosecutors and information for the public which will help clarify what the CPS take into account when deciding whether to prosecute.

Steven John Toplass

Mr. Flello: To ask the Secretary of State for the Home Department if he will provide financial compensation for Stephen John Toplass, in connection with his incarceration in Spain. [29520]

Mr. Douglas Alexander: I have been asked to reply.

The Government do not pay compensation to UK citizens who are detained overseas. Compensation is a matter for the host Government. If Mr. Toplass wishes to pursue this question further, he should seek the advice of his lawyer.

Terrorism Bill

Mr. Paice: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before 26 October and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of Cambridgeshire Constabulary contacted hon. Members representing constituencies in Cambridgeshire about the Terrorism Bill; and what form that contact took. [30238]

Mr. Charles Clarke: This is a matter for the chief constable of Cambridgeshire Constabulary.

Mr. McLoughlin: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October, on which the chief constable or other senior police officers of Derbyshire constabulary contacted hon. Members representing constituencies in Derbyshire about the Terrorism Bill; and what form of contact that took. [30478]

Mr. Charles Clarke: This is a matter for the chief constable of Derbyshire constabulary.

Mr. Brady: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of Greater Manchester police contacted hon. Members representing constituencies in Greater Manchester about the Terrorism Bill; and what form that contact took. [30610]

Mr. Charles Clarke: This is a matter for the chief constable of Greater Manchester police.

Mr. Stephen O'Brien: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of Cheshire constabulary contacted hon. Members representing constituencies in Cheshire about the Terrorism Bill; and what form that contact took. [30693]

Mr. Charles Clarke: This is a matter for the chief constable of Cheshire constabulary.

Mr. Stephen O'Brien: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of Merseyside police contacted hon. Members representing constituencies in Merseyside about the Terrorism Bill; and what form that contact took. [30694]

Mr. Charles Clarke: This is a matter for the chief constable of Merseyside police.

Grant Shapps: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before 26 October and *(b)* after 26 October, on which the (i) chief constable and (ii) other senior police officers of Hertfordshire constabulary contacted hon. Members representing constituencies in Hertfordshire about the Terrorism Bill; and what form that contact took. [30871]

Mr. Charles Clarke: This is a matter for the chief constable of Hertfordshire police.

Patrick Mercer: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before 26 October and *(b)* after 26 October, on which the (i) chief constable and (ii) other senior police officers of Nottingham Police contacted hon. Members representing constituencies in Nottinghamshire about the Terrorism Bill; and what form that contact took. [30872]

Mr. Charles Clarke: This is a matter for the chief constable of Nottinghamshire Police.

Mr. Bellingham: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October on which the (i) acting chief constable and (ii) other senior police officers of Norfolk constabulary contacted hon. Members representing constituencies in Norfolk about the Terrorism Bill; and what form that contact took. [30934]

Mr. Charles Clarke: This is a matter for the chief constable of Norfolk constabulary.

Mr. Ellwood: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before 26 October and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of Dorset police contacted hon. Members representing constituencies in Dorset about the Terrorism Bill; and what form that contact took. [29772]

Mr. Charles Clarke: This is a matter for the chief constable of Dorset.

David Maclean: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before 26 October and *(b)* after 26 October, on which (i) the chief constable and (ii) other senior police officers of Cumbria constabulary contacted hon. Members representing constituencies in Cumbria about the Terrorism Bill; and what form that contact took. [29776]

Mr. Charles Clarke: This is a matter for the chief constable of Cumbria constabulary.

Mr. Randall: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October on which the (i) chief constable and (ii) other senior police officers of the Metropolitan Police contacted hon. Members representing constituencies in London about the Terrorism Bill; and what form the contact took. [29879]

Mr. Charles Clarke: This is a matter for the chief constable of the Metropolitan Police.

Michael Fabricant: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of Staffordshire Police contacted hon. Members representing constituencies in Staffordshire about the Terrorism Bill; and what form the contact took. [29880]

Mr. Charles Clarke: This is a matter for the chief constable of the Staffordshire Police.

Mr. Burns: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of Essex police contacted hon. Members representing constituencies in Essex about the Terrorism Bill; and what form that took. [29910]

Mr. Charles Clarke: This is a matter for the chief constable of Essex police.

Mr. David Jones: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before 26 October and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of North Wales Police/Heddlu Gogledd Cymru contacted hon. Members representing constituencies in North Wales about the Terrorism Bill; and what form that contact took. [29972]

Mr. Charles Clarke: This is a matter for the chief constables of North Wales and Heddlu Gogledd Cymru constabularies.

Peter Luff: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before 26 October and *(b)* after 26 October on which (i) the

chief constable and (ii) other senior police officers of West Midlands police contacted hon. Members representing constituencies in the West Midlands about the Terrorism Bill; and what form that contact took. [29973]

Mr. Charles Clarke: This is a matter for the chief constable of West Midlands police.

Mr. Jack: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before 26 October and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of Lancashire constabulary contacted hon. Members representing constituencies in Lancashire about the Terrorism Bill; and what form that contact took. [29974]

Mr. Charles Clarke: This is a matter for the chief constable of Lancashire.

Mr. Mark Field: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before 26 October and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of City of London police contacted hon. Members representing constituencies in the City of London about the Terrorism Bill; and what form that contact took. [29975]

Mr. Charles Clarke: This is a matter for the chief constables City of London police.

Mr. Mackay: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before 26 October and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of Thames Valley police contacted hon. Members representing constituencies in Thames Valley about the Terrorism Bill; and what form that contact took. [29976]

Mr. Charles Clarke: This is a matter for the chief constable of Thames Valley police.

Mr. Brazier: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before 26 October and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of Kent police contacted hon. Members representing constituencies in Kent about the Terrorism Bill; and what form that contact took. [29977]

Mr. Charles Clarke: This is a matter for the chief constable of Kent constabulary.

Mr. Binley: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before 26 October and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of Northamptonshire police contacted hon. Members representing constituencies in Northamptonshire about the Terrorism Bill; and what form that contact took. [29980]

Mr. Charles Clarke: This is a matter for the chief constable of Northamptonshire constabulary

Mr. Atkinson: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before October and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of (A) Cleveland police, (B) Northumbria police and (C) Durham police contacted hon. Members representing constituencies in the relevant police force area about the Terrorism Bill; and what form that contact took. [30054]

Mr. Charles Clarke: This is a matter for the chief constables of Cleveland, Northumbria Durham constabularies.

Anne Milton: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of Surrey police contacted hon. Members representing constituencies in Surrey about the Terrorism Bill; and what form that contact took. [30183]

Mr. Charles Clarke: This is a matter for the chief constable of Surrey constabulary.

Mr. Gray: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of Wiltshire Constabulary contacted hon. Members representing constituencies in Wiltshire about the Terrorism Bill; and what form that contact took. [30257]

Mr. Charles Clarke: This is a matter for the chief constable of Wiltshire Constabulary.

Andrew Selous: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of Bedfordshire Police contacted hon. Members representing constituencies in Bedfordshire about the Terrorism Bill; and what form that contact took. [30258]

Mr. Charles Clarke: This is a matter for the chief constable of Bedfordshire Police.

Mr. Robathan: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of Leicestershire Constabulary contacted honourable Members representing constituencies in Leicestershire about the Terrorism Bill; and what form that contact took. [30277]

Mr. Charles Clarke: This is a matter for the chief constable of Leicestershire Constabulary.

Dr. Murrison: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of Avon and Somerset Constabulary contacted hon. Members representing constituencies in Avon and Somerset about the Terrorism Bill; and what form that contact took. [30296]

Mr. Charles Clarke: This is a matter for the chief constable of Avon and Somerset Constabulary.

Mr. Crabb: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of Dyfed Powys

Police contacted hon. Members representing constituencies in Dyfed Powys about the Terrorism Bill; and what form that contact took. [30302]

Mr. Charles Clarke: This is a matter for the chief constable of Dyfed Powys Police.

Mr. Swayne: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before 26 October and *(b)* after 26 October, on which the (i) chief constable and (ii) other senior police officers of Hampshire Constabulary contacted hon. Members representing constituencies in Hampshire about the Terrorism Bill; and what form that contact took. [30305]

Mr. Charles Clarke: This is a matter for the chief constable of Hampshire Constabulary.

Philip Davies: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October, on which (i) the chief constable and (ii) other senior police officers of North Yorkshire Police contacted hon. Members representing constituencies in North Yorkshire about the Terrorism Bill; and what form that contact took. [30314]

Mr. Charles Clarke: This is a matter for the chief constable of North Yorkshire Police.

Mr. Clifton-Brown: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October, on which (i) the chief constable and (ii) other senior police officers of Gloucestershire Constabulary contacted hon. Members representing constituencies in Gloucestershire about the Terrorism Bill; and what form that contact took. [30315]

Mr. Charles Clarke: This is a matter for the chief constable of Gloucestershire Constabulary.

Philip Davies: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before 26 October and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of West Yorkshire police contacted hon. Members representing constituencies in West Yorkshire about the Terrorism Bill; and what form that contact took. [30321]

Mr. Charles Clarke: This is a matter for the chief constable of West Yorkshire Police.

Mr. Dunne: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before 26 October and *(b)* after 26 October on which the (i) chief constable and (ii) other senior police officers of South Wales Police/Heddlu De Cymru contacted hon. Members representing constituencies in South Wales about the Terrorism Bill; and what form that contact took. [30322]

Mr. Charles Clarke: This is a matter for the chief constable of the South Wales Police.

Mr. Dunne: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October, on which the (i) chief constable and (ii) other senior police officers of Gwent police/Heddlu Gwent contacted hon. Members representing constituencies in Gwent about the Terrorism Bill; and what form that contact took. [30329]

Mr. Charles Clarke: This is a matter for the chief constable of Gwent police.

Miss McIntosh: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of South Yorkshire constabulary contacted hon. Members representing constituencies in South Yorkshire about the Terrorism Bill; and what form that contact took. [30334]

Mr. Charles Clarke: This is a matter for the chief constable of the South Yorkshire constabulary.

Mr. Blunt: To ask the Secretary of State for the Home Department if he will list the occasions *(a)* before and *(b)* after 26 October on which (i) the chief constable and (ii) other senior police officers of the Police Service of Northern Ireland contacted hon. Members representing constituencies in Northern Ireland about the Terrorism Bill; and what form that contact took. [30347]

Mr. Charles Clarke: This is a matter for the Chief Constable of the Northern Ireland Police Service.

Young Offenders

Dr. Vis: To ask the Secretary of State for the Home Department how many young offenders aged 18 to 20 years were received into prison under sentence or remand in each of the last five years, broken down by *(a)* ethnic group and *(b)* sex. [21789]

Fiona Mactaggart: The requested information is in the table, as recorded on the central Prison Service IT system.

Total number of young adult (18 to 20 years old) receptions into prison establishments by sex England and Wales

	Number
2004	
Males	17,713
Females	1,401

Written Answers to Questions

Thursday 24 November 2005

SOLICITOR-GENERAL

Crime Victims

24. **Dr. Cable:** To ask the Solicitor-General if he will make a statement on his role in enhancing the position of victims of crime in the criminal justice system. [31304]

The Solicitor-General: The Government are committed to placing victims at the heart of the criminal justice system.

The prosecutors' Pledge, issued last month, sets out for the first time the level of service victims can expect to receive from prosecutors. Separately, the "No Witness, No Justice" programme is being implemented and there are now some 131 witness care units providing support to victims and witnesses. The CPS has recently concluded a pilot of the use of independent advisers to help victims of domestic violence through the prosecution process, and I am looking at ways of building on its success by piloting a similar project in rape cases.

Crown Prosecution Service

25. **Mr. Andrew Turner:** To ask the Solicitor-General if he will make a statement on the co-location of Crown Prosecution Service offices with police stations. [31305]

The Solicitor-General: CPS staff are located in a number of police stations under the charging scheme. This enables the CPS and police to work together effectively as part of the prosecution team, to bring more offences to justice and improve public confidence.

Incitement to Religious Hatred

26. **Hugh Bayley:** To ask the Solicitor-General what assessment he has made of whether it will be necessary for the Law Officers to recruit additional staff to prosecute cases of incitement to religious hatred if Parliament legislates to make this an offence. [31306]

The Solicitor-General: As with the existing offences of incitement to racial hatred, we do not consider that there will be a large number of prosecutions. Prosecutions for racial hatred offences, have averaged around four a year since 1987.

Fraud Bill

27. **Janet Anderson:** To ask the Solicitor-General what recent discussions the Attorney-General has had with the senior judiciary on the common law offence of conspiracy to defraud and whether to include provisions to repeal it in the Fraud Bill. [31307]

The Solicitor-General: Yes. Following the committee stage of the Fraud Bill on 19 July, the right hon. Lord Justice Rose wrote to the Attorney-General expressing the unanimous view of the Rose Committee that conspiracy to defraud should be retained as it can be the most effective charge in a case where multiple defendants are engaged in a fraudulent course of conduct.

Community Justice

28. **Mr. Allen:** To ask the Solicitor-General what steps the Crown Prosecution Service has taken to support the concept of community courts and community justice panels in Nottingham and other parts of England; and if he will make a statement. [31308]

The Solicitor-General: The CPS is committed to improving the way it engages with the communities it serves and published a Community Engagement Strategy in May 2005. The CPS has played an important role in developing the first community court projects in North Liverpool and Salford. It will, however, be necessary to carefully evaluate these projects before considering wider roll out. In Nottingham, the Chief Crown Prosecutor intends to explore options for developing community justice approaches through the local Criminal Justice Board.

Special Advisers

John Hemming: To ask the Solicitor-General if he will list the special advisers in post in the Law Officers Departments, broken down by pay band; and what the total budgeted cost to these Departments of special advisers is for 2005–06. [29419]

The Solicitor-General: None; the Law Officers Departments employ no special advisers.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Departmental Targets

Mr. Philip Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to meet her Department's 2004 public service agreement (PSA) number 4; what assessment she has made of the extent to which the indicators associated with PSA 4 relate to matters that fall within her ministerial responsibilities; and what discussions she has had with Cabinet colleagues on meeting PSA 4. [30675]

Jim Knight: In relation to rural economic productivity the regional development agencies (RDAs) have been tasked as key strategic partners for the delivery of PSA 4. This is reflected in the Government's tasking framework and RDA corporate plans. To support the RDAs in their work DEFRA has increased its contribution to the RDA single pot to £72 million per annum from April 2005.

This challenging target, including the section dealing with rural access to services, also requires a wider effort ensuring that the effectiveness of the all Departments and delivery agents in delivering to all communities, including rural ones, is maximised. My responsibility is to ensure that rural proofing, now a requirement of all Departments in the development of policy and delivery

of services, is taking place. Defra continues to work closely with partners at all levels to ensure that spending is effectively aligned and contributes to the target.

In the previous Parliament the Minister of State for Rural Affairs regularly met with cabinet colleagues to discuss their part in the developing rural agenda, and plans are in hand to hold further meetings over the coming months. PSA targets are regularly discussed in PSX cabinet committee.

Endangered Species (Northamptonshire)

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs what her latest assessment is of the most endangered species of *(a)* flora and *(b)* fauna in Northamptonshire; and what steps are being taken to reverse their decline. [30855]

Jim Knight: As with so many other lowland areas in England, wildlife habitats in Northamptonshire have been deteriorating in quality and becoming more fragmented. This has been due to a number of factors, such as:

past intensification of agriculture;

water management;

invasive non-native species;

inappropriate management of woodlands;

development pressures;

and more recently, climate change.

As a result there has been a decline in the area and quality of wildlife habitat and their associated species, in particular traditional hay meadows and birds such as snipe and lapwing.

A number of measures are in place to address these issues:

The new agri-environment schemes (Higher Level and Entry Level Stewardship Schemes) are being taken forward across the county;

The Local Biodiversity Action Plan (LBAP) has identified a number of priority actions and targets, such as re-creation of limestone grassland on arable land, led in Northamptonshire by the Wildlife Trust for Bedfordshire, Cambridgeshire, Northamptonshire and Peterborough;

The Milton Keynes South Midlands Growth Area has focused efforts on the contribution to sustainable communities of "green infrastructure". A great deal of work, led by the River Nene Regional Park, has been carried out to determine how and where natural assets (including BAP habitats) should be restored, and recreated to protect and enhance Northamptonshire's natural environment, alongside the growth agenda;

The Upper Nene Valley Gravel Pits SSSI will be notified on 24 November 2005, safeguarding 1,390ha of gravel pits and wet woodland, as well as internationally important number of wintering birds. Approval is currently being sought from Defra for consultation on the Upper Nene Valley Gravel Pits pSPA

Government objectives for planning as stated in PPS9 are to conserve, enhance and restore the diversity of England's wildlife and geology;

For the future, the Natural Environment and Rural Communities Bill provides an extension of the CROW biodiversity duty to public bodies and statutory undertakers to ensure due regard to the conservation of biodiversity.

Snares

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what her response is to the recommendations of the independent working group on snares; if she will review her Department's Code of Practice on snares; and if she will bring forward proposals to make the code legally binding. [30491]

Jim Knight: DEFRA has produced a Snares Action Plan in response to the recommendations of the Independent Snares Working Group. DEFRA's Code of Good Practice on the use of Snares in Fox and Rabbit Control was published on 19 October 2005. DEFRA will review the Code of Practice during the next three years and will also consider making the Code of Practice legally binding.

Warm Front Scheme

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs how many households were helped by the Warm Front programme in the latest year for which figures are available. [30830]

Mr. Morley: During 2004–05 some 187,940 households received assistance from the Warm Front scheme.

Water Supply (Coventry)

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the quality of the water supply in Coventry. [31095]

Mr. Morley: Drinking water is supplied to the constituency of Coventry South by Severn Trent Water. The water supply is made up of two water supply zones for monitoring purposes—the Coventry City Centre and Whitely Zone and the Tile Hill, Balsall Common and Knowle Zone.

The independent Drinking Water Inspectorate has scrutinised the results of the 3,812 tests of samples of drinking water collected in these two zones between 1 January and 31 August 2005. I am advised by the Chief Inspector of Drinking Water that all these tests (most taken at consumers kitchen taps) met the very strict European and national drinking water quality standards.

Severn Trent Water is required by the health authority to artificially fluoridate drinking water in the constituency of Coventry South. The Drinking Water Inspectorate have advised that tests in 2005 show that the drinking water health standard for fluoride (1.5 mg/l) has not been exceeded and the dental health fluoride dosing target value (1.0 mg/l) has been achieved.

WALES

Departmental Assets

Mike Penning: To ask the Secretary of State for Wales if he will list the 10 most valuable *(a)* movable and *(b)* immovable assets owned by his Department. [27384]

Mr. Hain: The Wales Office movable assets are its furniture pool, with a net book value (NBV) of £61,904 as of 31 March 2005. The only immovable asset is Gwydyr House and surrounding grounds based on Whitehall. The net book value as of 31 March 2005, is shown as £2,950,000.

Ministerial Travel

Mike Penning: To ask the Secretary of State for Wales if he will list, for each year since 1995, the number of flights, including helicopter flights, taken by Ministers within his Department for UK and overseas visits; on how many occasions *(a)* charter flights were used and *(b)* first and club class tickets were obtained; and if he will indicate who accompanied the Ministers on each trip. [27808]

Mr. Hain: All ministerial travel is undertaken in accordance with the rules set out in the Ministerial Code and Travel by Ministers, copies of which are available in the Libraries of the House.

In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The list indicates when non-scheduled flights were used, (and shows how many officials accompanied Ministers in those circumstances). The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. These report information reaching back to 1995–96. Information for 2005–06 will be published after the end of the financial year.

Since the Wales Office was established in July 1999 we have never used helicopters.

Detailed information requested in respect to the number of flight taken by Ministers can be provided only at a disproportionate cost, for the years 1999 to 2003–04.

(a) No charter flights were taken during financial year 2004–05.

(b) A total of four first class tickets were purchased during period 2004–05, to Hong Kong where two officials and one special adviser accompanied the Minister.

NHS Complaints

Bill Wiggin: To ask the Secretary of State for Wales what discussions he has had in Cabinet concerning complaints made by patients about the NHS in Wales. [31488]

Mr. Hain: The management of patient complaints in Wales is the responsibility of the Welsh Assembly Government. In my role as Secretary of State for Wales, I discuss issues relating to health service delivery regularly with the First Minister.

I also regularly discuss matters relating to health services in Wales with my right hon. Friend the Secretary of State for Health. For example, in the current Session, my right hon. Friend has introduced two Bills, the Health Bill and the NHS Redress Bill, which contain provisions relating to Wales.

I will continue to raise such matters with Cabinet colleagues when it is appropriate to do so.

NHS Finance

Bill Wiggin: To ask the Secretary of State for Wales what discussions he has had in Cabinet regarding budget deficits of Welsh *(a)* NHS trusts and *(b)* health boards. [31487]

Mr. Hain: The financial management of NHS trusts is the responsibility of the Welsh Assembly Government. In my role as Secretary of State for Wales, I discuss issues relating to health service delivery regularly with the First Minister, including NHS trust finances.

I also regularly discuss matters relating to health services in Wales with my right hon. Friend the Secretary of State for Health and my hon. Friend the Under-Secretary of State for Wales, recently met the Assembly Minister for Health and Social Services to discuss this particular issue.

EDUCATION AND SKILLS

Adult Learning

12. **Jeff Ennis:** To ask the Secretary of State for Education and Skills what steps she is taking to target the engagement of adult learners in former coalfield areas. [31320]

Phil Hope: Our priorities for adult learners in former coalfield areas are to help them gain skills for life through improving their literacy, language and numeracy skills; and a platform of skills for employability through a first full level 2 qualification. We are targeting the engagement of low skilled individuals wherever they live, through a range of measures in the Skills Strategy such as the Skills for Life provision and the Level 2 Entitlement.

Bullying

13. **Philip Davies:** To ask the Secretary of State for Education and Skills if she will make a statement on the level of bullying in schools. [31321]

Beverley Hughes: Statistics on bullying across the country are not available and we think it would be unwise to make an estimate. While cases now appear to be reported more often, we have no hard evidence that bullying is increasing or that it is affecting more children. As children and young people become increasingly confident that bullying will not be tolerated, we would expect an increase in the number of incidents recorded.

Secondary Schools (Wellingborough)

14. **Mr. Bone:** To ask the Secretary of State for Education and Skills whether the Government plan to fund the building of a new secondary school in the Wellingborough constituency. [31322]

Phil Hope: Planning for school buildings is undertaken locally by authorities. We are allocating Northamptonshire schools over £78 million of capital over the next three years, and expect this to be used for its priority needs. In the longer term, Building Schools for the Future (BSF) will support investment in all secondary schools in Northamptonshire, including new

schools, where there is need. The Wellingborough area of Northamptonshire is prioritised in BSF towards the end of the programme.

Specialist Teachers

15. **David Taylor:** To ask the Secretary of State for Education and Skills what steps she is taking to address shortages in specialist teachers. [31323]

Jacqui Smith: Since 2000, we have provided £6,000 bursaries to PGCE trainee teachers in a range of priority subjects. We have also provided them with a £4,000 "Golden Hello". From September 2005 the bursary for mathematics and science trainees rose to £7,000, and from September 2006 it will increase to £9,000 for all priority subject trainees. Mathematics and science teachers will also be provided with an increased "Golden Hello" of £5,000 (£2,500 for other priority subjects).

University Access

16. **Mr. Dodds:** To ask the Secretary of State for Education and Skills what progress is being made on increasing the number of children from socially deprived backgrounds going to university. [31324]

Bill Rammell: In the past few years, we have seen a steady widening of participation in higher education. Performance indicators published by the Higher Education Statistics Agency show that the proportion of students from non-traditional backgrounds has increased across a range of measures. The proportion from low participation neighbourhoods, for example, rose from 12.1 per cent. to 13.9 per cent. between 1997/98 and 2003/04, the latest year for which figures are available.

19. **Mr. Iain Wright:** To ask the Secretary of State for Education and Skills what plans she has to require university places to be allocated after A-level grades have been awarded. [31327]

Bill Rammell: The Department is currently consulting on a number of proposals for changes to the higher education applications process, including the option of introducing a system of "post-qualification applications" (PQA). The consultation offers two possible PQA models and welcomes the idea that new approaches may appear as a result of the discussion the consultation will stimulate. The consultation ends on 5 December after which there will be a period to analyse the responses.

Further Education

17. **David Wright:** To ask the Secretary of State for Education and Skills if she will make a statement on the Foster review of further education. [31325]

Ruth Kelly: I refer my hon. Friend to the answer I gave earlier today to the hon. Member for Mid-Bedfordshire.

Local Education Authorities

18. **Stephen Hammond:** To ask the Secretary of State for Education and Skills what assessment she has made of the likely effect on the roles of local education authorities of the proposals in the recent schools White Paper. [31326]

Ruth Kelly: The White Paper sets out an enhanced role for local authorities as the champions of parents and pupils, rather than the direct provider of school places. Local authorities will have new powers to commission school places and to intervene where provision is poor.

Mr. Ellwood: To ask the Secretary of State for Education and Skills how much funding each local education authority in England received in *(a)* 2005–06 and *(b)* 1996–97. [31333]

Jacqui Smith: Comparable figures are not available for 1996–97. The following table sets out the figures for 1997–98 and 2005–06. *Total funding includes funding* via education formula spending/standard spending assessment and revenue grants allocated at an LEA level. It excludes the pensions transfer to EPS and the Learning and Skills Council, and is in real terms.

1997–98 and 2005–06 total funding by LEA, real terms

£ million

Notes:

1. Price base: real terms at 2004–05 prices, based on GDP deflators as at 28 September 2005.
2. Figures reflect relevant sub-blocks of education SSA/EPS settlements and exclude the pensions transfer to EPS and LSC.
3. Total funding also includes all revenue grants in DfES departmental expenditure limits relevant to pupils aged 3–19 and exclude education maintenance allowances (EMAs) and grants not allocated at LEA level.
4. Where responsibility for funding a school has transferred from an LEA, related funding no longer appears in the series.
5. Rounding: figures are rounded to the nearest £0.1 million.
6. Status: 2005–06 figures are provisional as some grants have not yet been finalised/audited.
7. 1997–98 figures for LEAs subject to local government re-organisation in that year have been estimated, pro-rata to their post LGR figures.

Education Maintenance Allowance

20. **Laura Moffatt:** To ask the Secretary of State for Education and Skills how many young people in *(a)* Crawley constituency and *(b)* England have been granted an education maintenance allowance. [31328]

Maria Eagle: By the end of October 2005 3,710 young people in the West Sussex local education authority area, and 327,500 in England had received one or more EMA payment.

Adult Education

Dr. Cable: To ask the Secretary of State for Education and Skills what Government funding for adult education courses has been in each of the last five years for which records are available, broken down by local authority. [17795]

Phil Hope: The Department allocates funds for education and training in the post-16 learning and skills sector, including adult education, to the Learning and Skills Council (LSC). The LSC was established in 2001 bringing the planning and funding of post-16 education together under one body.

In 2001-02 the Learning and Skills Council spent £2,236 million on adult programmes including FE, Work Based Learning, Adult and Community Learning and other programmes. This increased to £2,427 million in 2002-03 and to £2,866 million in 2003-04. These figures are available in the LSC's published accounts. Figures for adult education for the years prior to 2001 are not comparable as the budget was split between a range of different organisations. The Departmental Annual Report sets out total expenditure on Further Education, Adult Training and Skills and Lifelong Learning for this period.

My Department does not hold funding figures for adult education at the local level. As the allocation of funding in local areas relates to the LSC's operational responsibilities, the LSC's Chief Executive, Mark Haysom, has written to the hon. Member with the information requested. A copy of his reply has been placed in the Library.

Letter from Mark Haysom to Dr. Vincent Cable, dated 4 November 2005:

I write in response to your recent Parliamentary Question to the Secretary of State for Education and Skills, referred to the Learning and Skills Council (LSC) by Phil Hope, regarding funding for adult education courses in the last five years.

Unfortunately the LSC does not hold this information broken down by local authority. However, we are able to provide the information you requested broken down by local LSC area for each of the years since the inception of the LSC, in 2001.

I attached 2 spreadsheets, the first listing the funding allocations as above, the second explaining the programme funding contained within the "Other" column for each year.

Children's Trusts (Hemel Hempstead)

Mike Penning: To ask the Secretary of State for Education and Skills how many children's trusts there are in *(a)* Hemel Hempstead constituency and *(b)* Hertfordshire. [25809]

Beverley Hughes: Hertfordshire is integrating services for children and young people through children's trust arrangements that will cover the entire county. Therefore there is one children's trust that covers Hertfordshire. The local authority was chosen as a pathfinder children's trust authority and is testing provider arrangements in the Stevenage area in order to identify good practice that will influence wider implementation.

Chronically Sick and Disabled Persons Act

Mr. Amess: To ask the Secretary of State for Education and Skills if she will make a statement on the operation of section 8 of the Chronically Sick and Disabled Persons Act 1970. [29847]

Maria Eagle: Section 8 of the Chronically Sick and Disabled Persons Act 1970 refers to the design of, and access to, the buildings of educational institutions. Although this Act is still in force, Section 8 has since been superseded by other legislation including the Disability Discrimination Act 1995, the Special Educational Needs and Disability Act 2001 (SENDA), The Education (School Premises) Regulations 1999 and the Building Regulations 2000. The provisions in these later Acts and Regulations are more comprehensive than those in Section 8 of the 1970 Act.

Schools now have a planning duty under Part 4 of the Disability Discrimination Act 1995 to prepare accessibility plans for increasing over time the accessibility of schools for disabled pupils and prospective pupils. This planning duty covers: improving access to the curriculum, the physical environment of schools and provision of written materials in alternative formats, and will lead to access improvements that will have a positive impact on all aspects of school life.

The Learning and Skills Council monitor the extent to which further education college premises are accessible to disabled learners and, since SENDA was introduced in 2001, it has approved funding to enable colleges to undertake adaptations that will help them comply with the Act. So far over £160 million has been made available. All colleges have made, or are making, adaptations or have plans in hand. Higher education institutions are also subject to the legislation and regulations mentioned above (apart from the School Premises Regulations), but as autonomous organisations are responsible for ensuring that they comply.

Education (Tamworth)

Mr. Jenkins: To ask the Secretary of State for Education and Skills how many children in Tamworth constituency attended nursery in each of the past 10 years; and how many have taken up free nursery places since the policy was introduced. [27490]

Beverley Hughes: All four-year-olds have been entitled to a free early education place since 1998 and from April 2004 this entitlement was extended to all three-year-olds. The free entitlement consists of a minimum of five two and a half hour sessions per week for 33 weeks of the year for six terms before statutory school age, which is the term following their fifth birthday.

Some local authorities may additionally offer subsidised child care places but this information is not collected centrally.

Figures for January 2005 show that all four-year-old children receive some form of free entitlement. The figure for three-years-olds is 96 per cent. This covers all maintained, private, voluntary and independent providers and represents 535,100 three- year-olds and 568,300 four-year olds.

The available information on the number of free nursery education places taken up by three and four-year-olds in Tamworth parliamentary constituency area and Staffordshire local authority is shown in the tables.

For 2005, information for private and voluntary providers is available for Staffordshire but not currently available for Tamworth constituency.

The latest figures on early education places for three and four-year-olds in England were published in Statistical First Release 43/2005 "Provision for children under five years of age in England—January 2005 (final)" in September, which is available on my Department's website www.dfes.gov.uk/rsgateway/.

[9] Part-time equivalent number of children aged four at 31 December in the previous calendar year from the Early Years Census and the Annual Schools' Census.

Changes in pupil figures may arise from changes to the underlying population in the local authority area and other factors. However, my Department doesn't publish population figures for individual age cohorts at sub-national level because of the unreliability of the underlying population estimates. The Office for National Statistics publish sub-national population estimates in five-year age bands.

Education Act 1996

Mr. Amess: To ask the Secretary of State for Education and Skills if she will make a statement on the operation of sections *(a)* 403, *(b)* 404, *(c)* 405, *(d)* 406 and *(e)* 407 of the Education Act 1996. [29850]

Jacqui Smith: The Department issued "Sex and Relationship Guidance" to head teachers and school governors in 2000. This outlines the requirement to have an up-to-date policy on sex and relationship education available to parents for inspection. The guidance reminds schools to teach children about the nature of marriage and its importance for family life. The guidance also outlines the right of parents to withdraw children from the non-statutory elements of sex education. We have explained the rights of parents in the SRE and Parents leaflet and on the DfES Parents Centre website. Ofsted in its survey "Sex and Relationship Education in Schools" (2002) reported that over nine out of 10 schools have a sex and relationship education policy. Ofsted has also indicated that 0.04 per cent. of parents exercise the right to withdraw their children from sex education lessons.

DfES offers guidance to school governors on political activities in schools through the "Governors Guide to the Law".

Education White Paper

Dr. Kumar: To ask the Secretary of State for Education and Skills what measures will be taken to address the underperformance of pupils from *(a)* black and *(b)* gypsy and traveller communities under the provisions of the White Paper Higher Standards, Better Schools for All. [31593]

Jacqui Smith: As outlined in the Schools White Paper, this Government is committed to ensuring that all pupils, regardless of their background, achieve their potential.

We will focus on raising the attainment of black, and gypsy, roma and traveller pupils by putting in place targeted national programmes designed to provide advice, training, resources and challenge to schools with large numbers of underachieving pupils from these groups. These programmes will build on the test bed work that we have piloted through the Aiming High: Raising the Achievement of Ethnic Minority Pupils strategy.

Dr. Kumar: To ask the Secretary of State for Education and Skills whether restrictions will be introduced to the freedom self-governing schools have to set their own admissions criteria under the provisions of the White Paper Higher Standards, 'Better Schools for All'. [31597]

Jacqui Smith: The existing regime which is designed to ensure a fair admission system, that is flexible enough to take account of local circumstances, will apply to trust schools in the same way as it does to other maintained schools. No trust school will be able to introduce any form of selection by ability and all will have to comply with the restrictions on selection by aptitude that apply to all maintained schools. Admission authorities for

maintained schools must comply with admissions and equal opportunities legislation, and have regard to the School Admissions Code of Practice when setting their admission criteria. Other schools and local authorities can object to the Schools Adjudicator about any criteria that they consider are unfair or are not in line with the Code. Where the Adjudicator upholds an objection, his decision is binding.

Dr. Kumar: To ask the Secretary of State for Education and Skills pursuant to the White Paper Higher Standards, Better Schools for All, what she expects the buildings of schools closed due to failure will be used for. [31598]

Jacqui Smith: It will be a local decision what use is made of the buildings of schools which close due to failure. Our expectation is that they will continue to be used for educational purposes where they are suitable. This could include replacement schools, additional schools for new providers, or resited schools. Local authorities may also consider other educational or community use where this will give value-for-money. Where a closed school is sold, we expect that the proceeds will be reinvested in other schools to improve educational provision and attainment in the area.

Dr. Kumar: To ask the Secretary of State for Education and Skills what measures will be taken under the White Paper Higher Standards, Better Schools for All, to encourage poorer parents to become more involved in their children's education. [31599]

Jacqui Smith: The Schools White Paper proposes a series of measures to support increased parental engagement in their child's learning and increased influence in the schools system as a whole, enabling parents to support their own child's achievement and promote system-wide improvement. We will ensure that new measures will reach all parents, particularly those who might not normally engage. Parents find it difficult to engage for many reasons, not just poverty or socio-economic factors.

To enable parents to become more engaged in their child's learning, we will require schools to share progress on children's learning three times a year, rather than annually. We also recognise that some parents, including from poorer families, do not feel they have real choices available to them. We will improve the information available to parents, enabling them to make informed decisions when choosing a secondary school. Through the White Paper, we will provide choice advice, focused on those who need it most, to support parents to make the best choice for their child.

Dr. Kumar: To ask the Secretary of State for Education and Skills what safeguards will be put in place under the provisions of the White Paper "Higher Standards, Better Schools for All", to prevent a significant number of large failing schools being closed in the same area. [31600]

Jacqui Smith: The proposals in the White Paper "Higher Standards, Better Schools For All" strengthen the intervention powers available to local authorities to tackle failing schools.

Authorities are expected to consider the appropriate solution for a failing school in the light of the circumstances of the school. Under the White Paper's proposals they are expected to consider closure where a failing school is making inadequate progress after 12 months.

However, authorities will retain the responsibility to secure the provision of school places and to promote high standards. Where there is a need for a new school either to replace an existing closing school or to meet population growth, the LA will be able to hold a competition and invite promoters to bring forward proposals for a new school.

Further Education Spending

Tim Farron: To ask the Secretary of State for Education and Skills what the level of funding per pupil in further education has been in each year since 1997 in Westmorland and Lonsdale constituency. [19184]

Bill Rammell: The Department allocates funds for education and training in the post-16 learning and skills sector, to the Learning and Skills Council (LSC). The LSC was established in 2001 bringing the planning and funding of post-16 education together under one body.

Since 1997 government funding for further education has increased by around £2.5 Billion—equivalent to around 48 per cent. in real terms. Between 1997 and 2005 funding on participation per full-time equivalent student has increased by 49 per cent. in cash terms and 23 per cent. in real terms

My Department does not hold figures on what the level of funding per pupil in further education has been in each year since 1997 in Westmorland and Lonsdale constituency. As the allocation of funding in local areas relates to the LSC's operational responsibilities, the LSC's Chief Executive, Mark Haysom, has written to the hon. Member with the information requested. A copy of his reply has been placed in the Library.

Letter from Mark Haysom to Tim Farron, dated 26 October 2005:

As you will be aware Bill Rammell, in the written reply he gave you on 17 October to your Parliamentary Question, indicated that he would ask me to write to you.

The LSC came into being on 1 April 2001 and the information you have asked for is, therefore, only available for 2002/03, 2003/04, 2004/05 and 2005/06. The figures for 16–18 year olds (average rate per full-time equivalent) are shown below for Kendal College, the only further education college in your constituency, and distinguishes between the Council's allocation and the College's final claim (except for 2005/06 which, of course, is not yet known).

	Number
2002/03	
Allocation	2,936
Final claim	3,096
2003/04	
Allocation	3,510
Final claim	3,678
2004/05	
Allocation	3,800
Final claim	3,728
2005/06	
Allocation	4,103

You may be aware that a recent independent report by the Learning and Skills Development Agency identified a number of technical "anomalies" where the application of the LSC's methodology differs between the school and further education sectors. The report highlighted these anomalies as contributing to the difference in the funding for 16–18 year old students in school sixth forms and those in sixth form and FE colleges.

The statement on schools' funding made in July 2005 by Jacqui Smith, the Schools Minister, included a programme of work to address the anomalies between school sixth form and college funding. This will be taken forward as part of the LSC's *agenda for change* programme.

I hope you find the above helpful. Do not hesitate to contact our local Executive Director, Mick Parley, who I know you have met, if you would like any more detailed information.

Information and Communication Technology

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what information and communication technology courses are available for teachers; and what funding is available for such courses. [28577]

Jacqui Smith: A wide variety of approved courses, both in a formal training environment and distance learning, are available to teachers covering all aspects of the use of ICT in schools. The training is provided by a national network of over 800 ICT training providers, managed by the British Educational Communications and Technology Agency (Becta), and listed within the ICT Support Network Directory (http://www.becta.org.uk/ictsn/).

£120 million funding has been provided to schools through the Standards Fund Grant 31a across 2004–05 and 2005–06 for the Hands on Support (HOS) programme. This funding may be used to buy-in expertise from private training or to provide teachers with an opportunity to share and spread good practice in using ICT with fellow practitioners. Schools have the discretion to decide exactly how much of their HOS allocation is spent on ICT training. Funding will continue in 2006–07 as part of Grant 101-Schools Development Grant.

Looked-after Children

Mr. Neil Turner: To ask the Secretary of State for Education and Skills how many children per 10,000 children are looked after by local authorities in the *(a)* Inner London local authorities, *(b)* Outer London local authorities, *(c)* English metropolitan authorities outside London, *(d)* Wigan metropolitan borough council area, *(e)* Salford city council area, *(f)* Knowsley metropolitan borough council area, *(g)* South Tyneside council area, *(h)* Leeds city council area and (i) Wolverhampton city council area. [29475]

Beverley Hughes: The information requested may be found in Table 1 of "Children looked after by local authorities, Year Ending 31 March 2004, Volume 2: Local Authority Tables". This is available from the Department's website at:

http://www.dfes.gov.uk/rsgateway/DB/VOL/v000569/vweb01-2005_2.pdf

Schools

Mr. Gibb: To ask the Secretary of State for Education and Skills when she expects to publish the results of the consultation on the draft School Admissions Code of Practice. [28235]

Jacqui Smith: We expect to be able to publish the results of the exercise on the Department's consultation website within three months of the end of consultation as recommended by the Cabinet Office.

Dr. Kumar: To ask the Secretary of State for Education and Skills how many *(a)* primary and *(b)* secondary schools have been closed due to falling rolls in (i) England and (ii) the Tees Valley in each year since 1997. [31608]

Jacqui Smith: The Department does not hold information on the number of primary and secondary schools in England that have closed because of falling rolls. Nor do we hold information for the Tees Valley as data is gathered by local authority area.

A total of 2,200 schools have closed in the last eight years due to amalgamation, change in religious character, authority ceasing to maintain, fresh start, the opening of an academy and to allow for a new establishment. The numbers of school closures in England, broken down by *(a)* local education authority and *(b)* type of school during the calendar years 1997 to 2005 are shown in the table which was placed in the House Library as part of the written answer to question 19695 on 19 October 2005. The figures shown in the table include mainstream schools maintained by local authorities but exclude special schools and independent schools.

Mr. Davey: To ask the Secretary of State for Education and Skills how many *(a)* primary and *(b)* secondary schools have applied to expand since the guidance to the decision-makers that there should be a presumption in favour of expansion was promulgated. [29495]

Jacqui Smith: Since the guidance to decision makers was issued in June 2003, the governing bodies of 22 primary and 26 secondary schools have published statutory proposals to expand their schools. In addition to this, local authorities published proposals to expand 50 primary and 26 secondary schools.

These figures include all proposed school expansions including those to meet population growth, as part of a local reorganisation to meet pupils by the closing of a neighbouring school and to meet parental demand. The presumption to approve expansion proposals, included in guidance issued to decision makers, applies to proposals in respect of successful and popular schools.

Lynne Jones: To ask the Secretary of State for Education and Skills whether the money previously delivered to secondary schools via the Leadership Incentive Grant will be made available to secondary

schools via other budgetary mechanisms; and whether it is included in the Government's guarantee of a 4 per cent. annual funding increase. [31061]

Jacqui Smith: The Leadership Incentive Grant, introduced in April 2003, is a three-year programme aimed at giving extra help to those secondary schools in the most challenging circumstances to ensure that they have the leadership and the quality of teaching and earning they need to raise the achievement of all their pupils, particularly through developing collaboration with other schools and sharing good practice. All schools and authorities were informed at the outset that the grant would end in March 2006. However, schools with the highest level of relative deprivation and/or lowest attainment will continue to receive additional support in the future. This support will be in addition to the minimum funding guarantee for schools. The details of the additional support that will be provided in the next financial year, and the level of the minimum funding guarantee, will be announced in due course.

Anne Snelgrove: To ask the Secretary of State for Education and Skills how much additional funding has been given to *(a)* primary schools and *(b)* secondary schools in South Swindon constituency in addition to their standard spending assessment, in each year since 1997. [31660]

Jacqui Smith: The following table sets out funding for Swindon local education authority for each year from 1997–98 to 2005–06. Total funding includes funding via education formula spending/standard spending assessment and revenue and capital grants allocated at an LEA level. It includes the pensions transfer to EFS and the Learning and Skills Council from 2003–04, and is in cash terms.

It is not possible to break down the funding for primary schools and secondary schools in South Swindon constituency.

SSA/EFS, grants and total funding (£ million) in Swindon (cash terms)

	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*	*2005–06*
SSA/EFS	62.8	67.8	73.3	77.3	80	82.1	92.8	97.3	103.2
Revenue Grants	2.8	2.0	3.1	6.9	9.8	12.5	12.3	13.5	15.6
Capital Grants	1.5	3.0	5.2	6.1	4.3	15.2	80.2	11.5	9.2
Total funding	67.1	72.8	81.6	90.3	94.1	109.8	185.3	122.3	128

Notes:
1. Price Base: Cash
Figures reflect relevant sub-blocks of education SSA/EFS settlements. Figures from 2003–04 include the pensions transfer to EFS and LSC, the figures prior to 2003–04 have not been adjusted.
Total funding also includes all revenue grants in DfES departmental expenditure limits relevant to pupils aged 3–19 and exclude education maintenance allowances (EMAs) and grants not allocated at LEA level.
Where responsibility for funding a school has transferred from an LEA, related funding no longer appears in the series.
2. Capital Grants: 2002–03 includes £7.5 million for basic need additional provision; 2003–04 includes £9.8 million for basic need additional provision and a PFI allocation of £62.8 million; 2004–05 includes £1.6 million targeted capital fund; 2005–06 includes £2.4 million targeted capital fund.
3. Rounding: Figures are rounded to the nearest £0.1 million.
4. Status: 2003–04 to 2005–06 figures are provisional as some grants have not yet been finalised/audited.

Anne Snelgrove: To ask the Secretary of State for Education and Skills how much has been allocated for *(a)* capital repairs and *(b)* new buildings in (i) primary and (ii) secondary schools in the South Swindon area in each year since 1997. [31643]

Jacqui Smith: Capital allocations are recorded on a local authority basis, and the following table lists the allocations to Swindon borough council and schools in its area. Local authorities determine which proportion of their formulaic capital allocations shall be spent on capital repairs or new buildings, also on primary or secondary schools. Accordingly, no record is held centrally of these four categories.

	£000
1997–98	1,450
1998–99	3,049
1999–2000	5,208
2000–01	6,056
2001–02	4,289
2002–03	15,164
2003–04	80,240
2004–05	11,594
2005–06	9,182

Notes:
1. The large increase is due to a rise in Basic Need funding.
2. The large amount of funding this year is due to a £62.3 million Private Finance Initiative, and a high Basic Need allocation.

Further information on funding can be found on the website: www.teachernet.gov.uk under the heading, "Introduction to Capital Funding for School Buildings".

Mr. Davey: To ask the Secretary of State for Education and Skills how many surplus places there were in *(a)* primary, *(b)* middle and *(c)* secondary schools in each local authority area in (i) 2000 and (ii) 2005; how many there are forecast to be in each year from 2006 to 2010; and on what (A) basis and (B) assumptions these forecasts were made. [30839]

Jacqui Smith: The information requested has been placed in the House Libraries.

Geraldine Smith: To ask the Secretary of State for Education and Skills how the Government will encourage primary and secondary schools to become self-governing and to acquire trust status as set out in the White Paper. [24532]

Jacqui Smith: The White Paper makes clear that it will be for the governing bodies of individual schools to decide whether to become self-governing foundation schools and to acquire trusts, taking account of the views of parents and other stakeholders. The Government have already introduced a fast-track route for community and voluntary controlled secondary schools to acquire self-governing foundation status and have consulted on extending this to primary schools. Schools wishing to acquire trusts will follow similar procedures, with added safeguards where parents have concerns about the acquisition of a particular trust. In particular, the local authority will be able to refer a school's proposals to acquire a trust to the Schools adjudicator for determination, if it is clear that the school has failed to take proper account of the views of a majority of parents or if there are serious concerns about the impact of the proposals on school standards. The White Paper envisages the appointment of a Schools commissioner who will support the development of trust schools and work with potential trusts.

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills how her Department plans to hold trust school governing bodies to financial account under her Education White Paper proposals. [31096]

Jacqui Smith: Trust schools will be funded on exactly the same basis as other maintained schools.

They will be subject to the same financial controls, including audit arrangements, as apply currently to maintained schools through each local authority's statutory Scheme for Financing Schools.

Helen Jones: To ask the Secretary of State for Education and Skills what steps she intends to take to prevent a trust school which has been set up as a charity from changing its charitable objects once it is established. [31479]

Jacqui Smith: The Government intend to prescribe by regulations certain charitable objects for all trusts. Trusts will be unable to change these objects. Furthermore, trusts may have additional charitable objects to those prescribed. Trusts will only be able to change such additional objects with the consent of the Charity Commission.

Sure Start Plus

Ed Balls: To ask the Secretary of State for Education and Skills how many teenage pregnancies occurred in each of the Sure Start Plus scheme pilot areas in *(a)* 1997 and *(b)* 2005. [30438]

Beverley Hughes: Details of under-18 conception numbers and rates for 1997 and 2003 (the latest year for which data are available), for each local authority involved in the Sure Start Plus pilots, are provided in the following table.

Local authorities within Sure Start Plus areas	*Number*		*Rate*		*Percentage change in rate*
	1997	*2003*	*1997*	*2003*	
Bradford MCD	469	527	51.8	45.2	−12.6
Hackney LB and City of London	276	279	79.6	70.0	−12.1
Kingston upon Hull UA	363	323	72.2	69.2	−4.1
Leeds MCD	566	709	56.9	41.1	−27.8
Leicester UA	335	304	54.3	56.4	3.8
Liverpool MCD	390	468	55.3	42.9	−22.5
Manchester MCD	565	510	57.7	65.9	14.3
Nottingham UA	375	347	70.7	73.5	4.0
Plymouth UA	204	232	51.4	43.1	−16.2
Rochdale MCD	235	231	54.2	52.4	−3.2
Sandwell MCD	376	383	70.5	65.6	−7.0
Sheffield MCD	472	451	52.9	53.2	0.6
Lambeth LB	429	352	85.7	101.5	18.4
Barnsley MCD	243	243	64.6	58.0	−10.3
Stoke-on-Trent UA	284	285	65.3	61.5	−5.8
Middlesbrough UA	190	217	72.7	57.9	−20.4
Newcastle upon Tyne MCD	268	313	64.3	55.3	−14.0
Wakefield MCD	306	333	58.5	48.1	−17.8
Walsall MCD	311	327	67.0	59.6	−11.1
Wolverhampton MCD	271	274	58.7	56.4	−3.9
North Tyneside MCD	189	210	58.1	52.0	−10.4
South Tyneside MCD	175	193	65.9	55.0	−16.5
Gateshead MCD	175	202	56.4	48.6	−13.9
Sunderland MCD	362	369	65.1	62.8	−3.6
Southwark LB	351	284	78.6	88.0	11.9
Lewisham LB	333	302	79.0	74.0	−6.3
Rotherham MCD	255	266	54.4	51.5	−5.3
Doncaster MCD	411	375	68.3	68.4	0.1
Salford MCD	238	258	64.1	58.2	−9.2
Tower Hamlets LB	174	185	49.3	43.2	−12.4
Newham LB	305	295	62.2	53.4	−14.2
Redcar and Cleveland DA	143	162	55.7	48.1	−13.8
Stockton-on-Tees UA	197	191	51.1	51.3	0.4
Hartlepool UA	133	134	74.8	68.7	−8.1
St. Helens MCD	189	181	53.9	53.0	−1.6

Note:
Rates are per 1,000 female population aged 15–17.
Source:
Office for National Statistics and Teenage Pregnancy Unit

Ed Balls: To ask the Secretary of State for Education and Skills how many teenagers under the age of 18 years have been involved with the Sure Start Plus scheme since 2001; and how many of these live in *(a)* Wakefield district and *(b)* Normanton constituency. [30441]

Beverley Hughes: The data requested are not available at a national level. However, based on a survey carried out during a six month period in 2001, a team at the Institute of Education estimated that around 53 per cent. of young women conceiving during that period were supported by the pilot programmes (based on monitoring returns from 27 out of 35 programmes). Take-up of the programme is likely to have increased since 2001, which was the first year of the pilot.

Management information from Wakefield Sure Start Plus programme shows that just under half of young women whose conceptions resulted in a birth were supported by the programme in 2003. No information is available for the numbers of young women resident in Normanton constituency who were supported through the programme.

Teachers

Lynne Featherstone: To ask the Secretary of State for Education and Skills what research underlies the required ratio of *(a)* 1:8 teachers to children in local

community play groups and *(b)* 1:13 teachers to children in local school nursery classes; and if she will make a statement. [31462]

Beverley Hughes: The ratio of one adult to eight children for three to five-year-olds in playgroups was included in guidance issued by the Department of Health in 1991, and subsequently set in the national standards for under eights day care and childminding in 2001 following consultation. The ratio of one qualified teacher to 13 children was first published in a Department for Education and Science circular in 1973 but superseded in 1991 by the 1991 Department of Health guidance which allowed for one1 qualified teacher and one qualified nursery assistant to 26 children for nursery classes.

The Effective Provision of Pre-School Education (EPPE) research has found that a key factor contributing to better intellectual and social behavioural outcomes is having a good proportion of trained qualified teacher status teachers working directly with children alongside other staff. The research shows quality was higher overall in integrated early education and child care settings, nursery schools and nursery classes.

Teenage Pregnancy

Ed Balls: To ask the Secretary of State for Education and Skills how much funding the Government have spent on schemes to lower the rate of teenage pregnancy in *(a)* Wakefield district and *(b)* Normanton constituency in each year since 1997; and what expenditure is planned for future financial years. [30436]

Beverley Hughes: Details of the grant paid to Wakefield are provided in the table below. Teenage pregnancy funding was available from 1999/2000 onwards. No payments were made prior to this. Funding for the Sure Start Plus pilot is separately identified. We cannot separately identify the proportion of the grant spent in Normanton constituency.

£000

	Local implementation	*Sure Start Plus*
1999/2000[1]	50	—
2000/01[1]	30	—
2001/02[1]	180	125
2002/03[2]	180	125
2003/04[2]	239	125
2004/05[2]	273	125
2005/06[2]	273	125
Total	1,225	625

1 Paid to Wakefield Health Authority
2 Paid to Wakefield local authority

Decisions on allocations to individual local authorities for 2006/07 to 2007/08 have not yet been made. However, the overall total grant allocation for the Teenage Pregnancy Strategy will be the same in 2006/07 to 2007/08 as it was in 2004/05 and 2005/06 (with the exception of Sure Start Plus funding, which will cease on 1 April 2006).

Ed Balls: To ask the Secretary of State for Education and Skills how much will be invested by the Government in response to the Third Report of the Independent Advisory Group on Teenage Pregnancy in *(a)* England and *(b)* the Wakefield district. [30437]

Beverley Hughes: The level of funding for the Teenage Pregnancy Strategy is agreed in the context of the Government's Spending Review, which allocates funding for a three-year period. However, recommendations by IAG are taken into account when spending review bids are being developed.

Ed Balls: To ask the Secretary of State for Education and Skills how many under-18 pregnancies occurred in *(a)* Wakefield district and *(b)* Normanton constituency (i) in each of the two years before the launch of the Sure Start Plus scheme and (ii) each subsequent year. [30440]

Beverley Hughes: Funding for the Sure Start Plus pilot began in financial year 2001/02. The first table provides under-18 conception numbers and rates for Wakefield for each year from 1997 to 2003 (the latest year for which data are available). The rate reduction in Wakefield during this period is 17.8 per cent.. This is higher than the national rate reduction of 9.8 per cent. and the regional rate reduction of 11.9 per cent.

Under 18 conception statistics for Wakefield, 1997–2003

	Number	*Rate*
1997	333	58.5
1998	319	56.5
1999	326	56.9
2000	288	48.7
2001	290	47.1
2002	283	45.0
2003	306	48.1

The second table shows ward data aggregated over three years, for the period 2000 to 2002. Ward data is not available for each of the individual years referred to in the question.

Under 18 conception numbers and rates for wards in Normanton constituency, 2000–02

Ward	*Number*	*Rate*
Normanton and Sharlston	57	60.5
Ossett	31	37.4
Stanley and Altofts	27	30.5
Horbury	23	24.7
Stanley and Wrenthorpe	22	21.8

Note:
Rates are per 1,000 females aged 15–17

Under-achievement

John Bercow: To ask the Secretary of State for Education and Skills what progress has been made towards reducing the disproportionate rate of exclusion of boys from *(a)* white working class backgrounds, *(b)* Afro-Caribbean backgrounds and *(c)* minority ethnic groups. [26050]

Jacqui Smith: Departmental data (2003/04) show that Black boys are permanently excluded at over twice the rate of White boys. These data also show disproportionately high rates of both fixed period and permanent exclusion of pupils from some minority ethnic groups including Travellers of Irish Heritage and Black Caribbean; although encouragingly, it shows that the rate of permanent exclusion of Black pupils has

decreased from 58 pupils in 10,000 in 1997/98 to 29 in 10,000 in 2003/04. We do not collect data on the socio-economic groups of excluded pupils.

We are committed to reducing the disproportionate rate of exclusion experienced by some minority ethnic groups. In September we wrote to local authorities to highlight this, and to urge them to analyse their data more rigorously and take appropriate action. We expect all secondary schools to be working in partnerships by September 2007 to provide early intervention and support for pupils at risk of exclusion and those that are excluded; in particular for pupils from Black and other minority ethnic groups.

NORTHERN IRELAND

A-level Examiners

Dr. McCrea: To ask the Secretary of State for Northern Ireland what percentage of A-level examiners in Northern Ireland are drawn from the university sector. [30220]

Angela E. Smith: For the summer 2005 GCE AS/A-level examinations, the Council for the Curriculum, Examinations and Assessment (CCEA) engaged 979 examiners of which 16 (1.63 per cent.) indicated they were employed in the university sector.

Births

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many babies have been born in each constituency in Northern Ireland in each of the last three years. [30135]

Angela E. Smith: The number of births registered to mothers resident in each parliamentary constituency in Northern Ireland for the years 2002 to 2004 is given in the following table:

Parliamentary constituency	*2002*	*2003*	*2004*[1]
Belfast East	771	872	870
Belfast North	1,030	1,077	1,087
Belfast South	978	1,029	1,009
Belfast West	1,184	1,189	1,288
East Antrim	1,023	1,008	1,007
East Londonderry	1,093	1,094	1,097
Fermanagh and South Tyrone	1,219	1,128	1,215
Foyle	1,568	1,498	1,482
Lagan Valley	1,328	1,316	1,377
Mid Ulster	1,275	1,203	1,349
Newry and Armagh	1,461	1,506	1,507
North Antrim	1,278	1,283	1,378
North Down	829	960	935
South Antrim	1,303	1,308	1,400
South Down	1,433	1,476	1,509
Strangford	1,136	1,153	1,194
Upper Bann	1,333	1,388	1,469
West Tyrone	1,136	1,151	1,131
Parliamentary constituency unknown	7	9	14
Northern Ireland	21,385	21,648	22,318

[1] Provisional data

School Meals

Dr. McCrea: To ask the Secretary of State for Northern Ireland what action the Government have taken to promote healthy eating in primary schools in South Antrim. [31053]

Angela E. Smith: The Department of Education, in conjunction with the Education and Library Boards and other school authorities, is introducing new nutritional standards for school meals. The Department has provided additional funding to support the initiative and this will mostly be used to raise the food and nutritional content value of school meals to 50p in primary schools, and 60p in post-primary schools, in line with developments in England. There are 50 schools in the North-Eastern Education and Library Board area presently involved in the roll-out of the new standards and a further 78 will follow in January 2006. 17 of the 44 primary schools in South Antrim will be meeting the standards by that date. All schools will eventually be included in the scheme.

Domestic Rates

Mrs. Spelman: To ask the Secretary of State for Northern Ireland what use is being made of computer-assisted mass appraisal in the Northern Ireland domestic rates revaluation. [29717]

Angela E. Smith: The Valuation and Lands Agency (VLA), which is carrying out the domestic revaluation in Northern Ireland is at the forefront of CAMA application in the UK. It is currently being used by VLA to produce first pass capital values for the vast majority of the 715,000 domestic properties being revalued as at 1 January 2005 for publication in April 2006.

Although some property types, notably apartments and the domestic element of mixed residential/commercial properties are being valued by the traditional "manual" method, approximately 90 per cent. of the entire housing stock in Northern Ireland will be assessed on a capital value basis using Computer Assisted Mass Appraisal techniques. These "first pass" values generated will be subject to a review and verification process.

Mrs. Spelman: To ask the Secretary of State for Northern Ireland when he plans to introduce legislation to allow for the domestic rates revaluation in Northern Ireland; and whether this will require primary legislation. [29718]

Angela E. Smith: I refer the hon. Member to the answer I gave on 8 November 2005, *Official Report*, column 427W. Subject to parliamentary approval, it is intended that the draft Rates (Capital Values, etc.) (Northern Ireland) Order 2005 will be made by April 2006 and the proposed second order in council by April 2007.

Mrs. Spelman: To ask the Secretary of State for Northern Ireland what his estimate is of the gross revenue to be raised in local domestic rates *(a)* in Northern Ireland and *(b)* in each council in Northern Ireland in (i) 2005–06 and (ii) 2006–07; and what revenue was raised in 2004–05 in each case. [26934]

Angela E. Smith: Domestic rates consists of two elements, the regional rate, set by the Secretary of State on a uniform basis across Northern Ireland, and the district rate, set separately by each district council relevant to the location of the property.

The total revenue raised in 2004–05 and estimated revenue to be raised in 2005–06 through domestic rates in Northern Ireland are contained in the Table 1:

Table 1

£ million

District rate	*2004–05*	*2005–06*[1]
Antrim	4.6	4.9
Ards	7.9	8.4
Armagh	5.5	5.8
Ballymena	5.4	5.7
Ballymoney	2.5	2.5
Banbridge	4.6	4.8
Belfast	26.6	28.2
Carrickfergus	4.2	4.4
Castlereagh	5.7	6.0
Coleraine	6.2	6.5
Cookstown	2.5	2.7
Craigavon	8.3	8.7
Derry	10.2	7.0
Down	6.6	3.7
Dungannon	3.5	4.1
Fermanagh	3.8	3.5
Larne	3.3	3.0
Limavady	2.8	10.6
Lisburn	10.3	10.8
Magherafelt	2.7	2.9
Moyle	2.1	2.2
Newry	8.3	8.7
Newtownabbey	8.4	8.8
North Down	9.1	9.6
Omagh	4.4	4.6
Strabane	2.9	3.0
Total district rate	162.3	171.4
Total regional rate	184.5	194.9
Total domestic rate	346.8	366.3

[1] Estimate

It is estimated that the proposed domestic regional rate for 2006–07 will raise £251.6 million in revenue. This estimate may change as a consequence of future updates to collection and valuation information.

There is no estimate of revenue for the domestic district rate for 2006–07 as the level of district rates is determined by each of the 26 district councils, based on the relevant underlying cost forecasts for each council. This rate will be set in February 2006.

Employment

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the change in the numbers of those in full-time employment in each parliamentary constituency in Northern Ireland has been between 2001 and 2005. [31484]

Angela E. Smith: Estimates of the number of employee jobs below Northern Ireland level are only available from the Census of Employment on a biennial basis and the most up to date figures relate to September 2003. Estimates of the number of full-time employee jobs in September 2001 and September 2003 and the change over this period for each parliamentary constituency area within Northern Ireland can be found in the following table.

Number of full-time employee jobs at September 2001 and September 2003 and change over the two-year period for each parliamentary constituency area

Parliamentary constituency area	*September 2001*	*September 2003*	*Change 2001–03*
Belfast East	30,024	29,325	−699
Belfast North	31,326	31,074	−252
Belfast South	64,662	67,994	3,332
Belfast West	20,229	20,494	265
East Antrim	14,884	13,267	−1,617
East Londonderry	19,693	20,243	550
Fermanagh and South Tyrone	21,009	22,085	1,076
Foyle	26,751	26,901	150
Lagan Valley	24,932	25,187	255
Mid-Ulster	16,822	17,865	1,043
Newry and Armagh	22,278	23,170	892
North Antrim	23,681	25,065	1,384
North Down	12,874	13,388	514
South Antrim	27,002	26,527	−475
South Down	15,805	15,833	28
Strangford	17,907	17,912	5
Upper Bann	27,445	27,536	91
West Tyrone	16,627	16,931	304
Northern Ireland	433,951	440,797	6,846

Source:
Census of Employment, DETI

Dr. McCrea: To ask the Secretary of State for Northern Ireland what percentage of persons released from Northern Ireland prisons have entered employment after being released in each year since 2001. [30132]

Angela E. Smith: The information requested by the hon. Gentleman is not available.

Empty Industrial Properties

Dr. McCrea: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of empty industrial properties in each constituency in Northern Ireland. [30222]

Angela E. Smith: The Rate Collection Agency's records currently show a total of 399 "empty" properties as having been used for industrial purposes immediately prior to becoming vacant.

Unfortunately the Agency is unable to provide numbers on a constituency basis, but has provided them within district council area in the following table:

District name	*Total*
Antrim	12
Ards	36
Armagh	11
Ballymena	4
Ballymoney	4
Banbridge	6
Belfast	76
Carrickfergus	11
Castlereagh	4
Coleraine	5
Cookstown	18
Craigavon	41
Down	9
Dungannon and S. Tyrone	17
Fermanagh	15
Larne	11

District name	Total
Limavady	2
Lisburn	20
Deny	11
Magherafelt	15
Moyle	0
Newry and Mourne	24
Newtownabbey	10
North Down	7
Omagh	21
Strabane	9
Total	399

Homosexual Civil Partnerships

David Simpson: To ask the Secretary of State for Northern Ireland what *(a)* employment protection and *(b)* other provisions there are for (i) council staff and (ii) Registrar's Office staff with conscientious objections to homosexual civil partnerships. [31287]

Angela E. Smith: All council staff are protected by employment law. Registrars and other council staff appointed to register civil partnerships and carry out other related functions are provided with specific training which includes input from the Coalition of Sexual Orientation. It is the responsibility of the local registration authority to address any concerns individual staff might have, relating to same sex civil partnerships. The authority, however, must ensure that it fulfils its statutory responsibility of providing this service to the public.

House Prices

Dr. McCrea: To ask the Secretary of State for Northern Ireland what the average house price in *(a)* Antrim Town, *(b)* Dunadry, *(c)* Templepatrick, *(d)* Mallusk and *(e)* Ballyclare was on *(a)* the latest date for which figures are available and *(b)* 1 October 2000. [30210]

Angela E. Smith: The average price of houses in each of the localities specified is shown in the following table:

Study areas	Average selling price[1] 2000	Count of sales	Average selling price[1] 2005	Count of sales
Antrim Town	62,864	128	76,046	78
Dunadry	110,333	6	182,333	3
Templepatrick	113,574	27	230,750	4
Mallusk	102,274	61	118,952	25
Ballyclare	71,822	81	104,937	78

[1] The average selling price provided for 2000 is based on all of the sales in that year—not just the October sales. The 2005 figure is based on the sales recorded from 1 January 2005 to the present.

Invest Northern Ireland

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what progress is being made by Invest Northern Ireland in increasing the percentage of the work force in Northern Ireland that is in the private sector. [31485]

Angela E. Smith: During the past three years to June 2005 there has been an increase of over 22,000 jobs within the private sector. However, when expressed as a percentage of the total, there was a slight decline, from 73.4 per cent. in June 2002 to 72.8 per cent. in June 2005. This was due to an increase of almost 15,000 jobs within the public sector, which falls outside the remit of Invest NI.

During the same time period, Invest NI provided over 17,000 offers of assistance towards the formation and development of private sector businesses across Northern Ireland. This assistance, totalling £400 million, contributed towards a total planned investment of over £1.5 billion.

These investments are focused on that element of the private sector, which has the greatest potential for creating wealth i.e. those businesses which can demonstrate the potential for growth through the development of markets outside Northern Ireland.

During the last three financial years Invest NI made 106 offers in support of inward investment projects within Northern Ireland. These projects are anticipated to create over 6,500 new jobs, mostly within knowledge-based industries.

Within the total number of offers made, almost 8,500 offers of assistance were made to new businesses through the Start a Business Programme, which is jointly administered by Invest Northern Ireland and Enterprise Northern Ireland. These businesses are expected to create over 15,000 jobs.

The full benefits that arise from this Invest NI assistance will continue to accrue for a number of years to come.

Meat Exports

Dr. McCrea: To ask the Secretary of State for Northern Ireland what steps he has taken since becoming Secretary of State for Northern Ireland to promote the export of Ulster *(a)* pork, *(b)* lamb and *(c)* beef. [31073]

Angela E. Smith: EU state aid rules limit the extent to which public funds may be used to support export campaigns that promote domestically produced meat. Nevertheless, where possible, DARD is working actively to assist exporters, for example by the development of international marketing strategies under the Food Strategy "Fit for Market" initiative, facilitating state aid approvals for promotional activity carried out by the Livestock and Meat Commission. This includes a promotional campaign currently under way in the Netherlands to promote Northern Ireland lamb and a Beef Market Restoration Campaign which will commence in 2006, intended to address key issues relating to the restoration of beef obtained from cattle over-30-months (OTM) old at slaughter into the food chain, minimise the impact of OTM beef on the market and achieve early integration of this beef into the supply chain and export markets as soon as they reopen. Every effort is also being made to have the beef export ban lifted as soon as possible as this will provide a great stimulus for the industry. In addition the future sustainability of these sectors will depend on increased

focus on customer requirements and the development of differentiated products that will enhance their ability to compete in global markets.

Property Valuations

Mrs. Spelman: To ask the Secretary of State for Northern Ireland pursuant to the answer of 8 November 2005, *Official Report*, column 428W, on property valuations, if he will place in the Library *(a)* the final Integrated Impact Assessment for the Draft Rates (Capital Values, etc) (Northern Ireland) Order 2005 and *(b)* the responses to the consultation which has taken place. [30664]

Angela E. Smith: Copies of the Equality Impact Assessment (EQIA), New TSN analysis and Rural Proofing analysis have been placed in the Library.

Responses to the consultation have been placed on www.nics.gov.uk/ratingpolicy

Railways

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many passenger train journeys in Northern Ireland arrived on time in *(a)* 1999 and *(b)* 2004. [31482]

Mr. Woodward: Northern Ireland Railways does not record the number of train journeys arriving exactly on time except for the Bangor, Portadown and Larne lines where performance in 2004 was 19 per cent. The information was not collected in 1999.

However, there are additional Passenger Charter Standards against which Northern Ireland Railways measures train punctuality. For the Bangor, Portadown and Lame lines the standard is arrival within five minutes of planned destination arrival time. In 2004 88 per cent. of train journeys met this standard. In 1999 the figure was 86 per cent.

For the Dublin, Londonderry and Portrush lines the standard is arrival within 10 minutes of the planned destination arrival time. In 2004 94 per cent. of train journeys met this standard and in 1999 this figure was 95 per cent.

South Eastern Education and Library Board

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much money has been spent to date by the South Eastern Education and Library Board on the public private partnership project for Comber high school and Bangor Academy. [29269]

Angela E. Smith: I understand from the chief executive of the South Eastern Education and Library Board that to date £513,902 has been spent by the board on the public private partnership project for Comber high school and Bangor Academy and Sixth Form College, whose capital value is currently estimated to be some £34 million. This includes £67,100 in respect of a traffic impact assessment and ground investigation surveys.

Sustainable Development

Dr. McCrea: To ask the Secretary of State for Northern Ireland what steps he is taking to deliver sustainable development in *(a)* South Antrim and *(b)* Northern Ireland; and if he will make a statement. [30806]

Angela E. Smith: The recent announcement on the Draft Priorities and Budget indicated significant increased funding for Northern Ireland in the health and education sectors along with three new ring-fenced investment priority funding packages: children and young people, investment in training and skills and in protecting the environment by the research and development of new sources of renewable and clean energy. This will help to ensure that Northern Ireland is better equipped for a more sustainable future.

The Department of the Environment (DOE) is taking the lead in producing the Sustainable Development Strategy for Northern Ireland (NISDS) which is due to be published along with an implementation plan in summer 2006.

The emerging strategy has identified six priority areas for action and flagged up that some of the key sustainable development issues for NI relate to energy, waste and transport and their associated impacts on society.

In tackling the key issue of waste, the Department of the Environment is working with all local authorities on the implementation of the Waste Management Strategy and provides funding which supports recycling of waste. Together with the recent inclusion of Antrim borough council in the kerbside collection scheme operated by Bryson House Recycling, this has contributed to the area having one of the highest recycling rates in NI (38.4 per cent.).

Energy and CO_2 emissions from fossil fuels are another key issue for NI. The erection of a 600 kWh wind turbine on the Antrim Hospital site generates the hospital's base electrical loading using renewable energy and giving an estimated reduction of 1,376 tonnes in CO_2 annually.

In terms of transport, a series of improvements to the A8 Belfast to Larne road over recent years will help to increase safety and improve travel times on what is a key route within the Antrim council area. Furthermore, DRD have announced that almost £700,000 will be invested in local transport and safety schemes in the Antrim council area this year.

Last month, the Department for Social Development awarded Antrim town centre £75,000 as part of a town marketing programme which includes support for a programme of events and a shop local initiative. This will help support the local economy and assist in branding Antrim as an interesting place to visit.

Tourism

Mr. Hollobone: To ask the Secretary of State for Northern Ireland what progress is being made in promoting Northern Ireland as a tourist destination. [30484]

Angela E. Smith: There has been excellent progress in promoting Northern Ireland as a tourist destination. In the last 10 years tourism numbers in Northern Ireland have grown by 60 per cent. At the same time tourism spend has grown by 80 per cent.

In 2004 Northern Ireland passed a milestone by welcoming over 2.1 million visitors and the opportunity to capitalise on this success is ever stronger with tourism currently contributing £439 million to the economy.

Ulster Scots

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland whether he plans to include questions on knowledge of Ulster Scots cultural issues in the next census in Northern Ireland. [27016]

Angela E. Smith: No decisions on question topics and content for the next Census in Northern Ireland are being taken at this stage. Following consultation with users, testing of options and the balancing of different requirements, it is planned that proposals will be brought forward in a White Paper, currently planned for 2008. The final content of the Census will ultimately be determined through the legislative process in the form of a Census Order and Census Regulations, probably around 2010.

DEFENCE

Armed Forces (Smoking)

Mr. Burstow: To ask the Secretary of State for Defence what services are offered to service personnel to assist them in giving up smoking. [29302]

Mr. Touhig: The Ministry of Defence offers a range of advice and assistance to service personnel wishing to give up smoking. These are outlined in a Surgeon General's Policy Letter and incorporate the National Institute for Health and Clinical Excellence (NICE) recommendations and guidelines. The levels of support for smoking cessation are:

Brief Intervention

This is tailored to individual needs and is designed to motivate smoking cessation. This can be provided by all health care professionals (i.e. medical and dental) and is carried out opportunistically.

Intermediate Support

This is provided within a local health care setting and is delivered by specially trained personnel.

Specialist Smoking Cessation Clinics

This level of support is for resistant but motivated smokers who have failed using other methods. This level of support is currently available through the NHS.

A number of smoking cessation aids are currently available to personnel. These are:

Nicotine Replacement Therapy (NRT), available on prescription.

Buproprion, available on prescription.

Recommended aids are supported, such as health promotion leaflets,

websites, help lines and national initiatives such as National No Smoking Day.

Army Prosecuting Authority

Adam Price: To ask the Secretary of State for Defence whether instances of requests by the Army Prosecuting Authority for military police to conduct further investigations into cases of alleged abuse in Iraq not being carried out have been drawn to his attention. [21100]

Mr. Ingram: The Secretary of State is aware that a difficult operational environment can sometimes preclude the full and/or timely completion of further investigations.

In March 2005, the Attorney-General drew the Secretary of State's attention to a case in which there had been a delay in carrying out further investigations. Those investigations have, however, now been completed.

Mr. Gordon Prentice: To ask the Secretary of State for Defence how many British soldiers in Iraq are under investigation following allegations of misconduct, where no charges have yet been brought; and if he will make a statement. [29402]

Mr. Ingram: As at 21 November cases involving 10 soldiers were under consideration by prosecuting authorities in relation to incidents where Iraqi nationals have allegedly been killed or injured. To date these soldiers have not been charged with any offence.

Courts Martial

Mr. Mullin: To ask the Secretary of State for Defence on how many occasions armed forces commanding officers have *(a)* overruled courts martial verdicts and *(b)* reduced sentences imposed by courts martial in each of the last five years. [29564]

Mr. Ingram: Commanding officers have no authority to overrule court martial findings or to reduce sentences imposed by courts martial.

Defence Industry Inflation

Mr. Hancock: To ask the Secretary of State for Defence what the difference was between defence industry inflation and inflation in each year since 1997. [30912]

Mr. Ingram: The UK rate of inflation is published by HM Treasury on their website in the form of the GDP deflator. The deflator is usually expressed in terms of an index, i.e. a time series of index numbers. The following table provides data on the GDP deflator at market prices from 1996–97 to 2004–05:

Financial year	*GDP deflator at market prices 2004–05 = 100*	*Percentage change on previous year*
1996–97	82.687	3.53
1997–98	85.132	2.96
1998–99	87.341	2.59
1999–2000	89.059	1.97
2000–01	90.225	1.31
2001–02	92.454	2.47
2002–03	95.391	3.18
2003–04	97.920	2.65
2004–05	100.000	2.12

Source:
HM Treasury

Specific data relating to inflation in the UK defence industry is not compiled. However, output price indices relating to industrial products are published by the Office for National Statistics in "Producer Price Indices

MM22", tables 2 and 4. Input price indices for aircraft and spacecraft, weapons and ammunition, instruments and appliances and electronic valve products are published by the Office for National Statistics in "Aerospace and Electronics MM19". Both publications cover products within the defence and civil sectors.

Defence Training

Mr. McFadden: To ask the Secretary of State for Defence what discussions he has had with the consortia bidding for the future defence training contracts. [30648]

Mr. Touhig: No Defence Ministers have had discussions with the consortia bidding for the future defence training contracts.

The DTR programme leader and his team have, however, held a very open and consultative dialogue with bidders while they have prepared responses to the Department's invitations to negotiate. 2nd PUS, VCDS and Training Agency chief executives have also all met and held discussions with the bidders' senior CEOs and senior board members. In addition, the wider Ministry of Defence customer community have discussed the MOD's requirement with bidders and trade unions have also met with them.

Mr. McFadden: To ask the Secretary of State for Defence when he expects to make a decision regarding the future consolidation of defence training services. [30649]

Mr. Touhig: I anticipate making an announcement on the preferred solution for the Defence Training Rationalisation programme in late 2006.

Freedom of Information

Mr. Roger Williams: To ask the Secretary of State for Defence how many freedom of information applications his Department has received; how many have taken more than 20 days to process; and how many of these gave rise to complaints about the time taken. [31209]

Mr. Touhig: The Freedom of Information Act came into force on 1 January 2005. By the end of the second quarter of 2005, that is by 30 June, the Ministry of Defence had received a total of 2,882 requests to disclose information under the Act. During the second quarter, 80 per cent. of requests for information were answered within the 20-day deadline and 83 per cent. within the 20-day deadline or with a permitted extension. 10 complaints concerning the lateness of the original response from the Ministry of Defence had been received by 30 June.

The Department for Constitutional Affairs is committed to publishing quarterly updates in relation to departmental performance under FOI, including information on both the volume and outcomes of requests. The bulletin for the second quarter was published on 30 September 2005 and can be found on the DCA website at http://www.foi.gov.uk/statsapr-jun05.htm and in the Library of the House. The next bulletin will be published before Christmas while an annual report will be published in early 2006.

Future Army Structure

Mr. Robathan: To ask the Secretary of State for Defence what the timetable is for the implementation of the future Army structure. [31422]

John Reid: Following my predecessor's announcement on 16 December, *Official Report*, columns 1795–1800, the Army has been working to implement the changes under the future Army structure. This includes the re-rolling of 19 Mechanised Brigade into a Light Brigade. The majority of changes to the Army, including changes to the infantry, will be completed by 2008.

Iraq

Sir Menzies Campbell: To ask the Secretary of State for Defence how many insurgents have been *(a)* injured and *(b)* killed by UK forces in each month since March 2003. [28805]

Mr. Ingram *[holding answer 15 November 2005]:* The best record of insurgents killed and injured by the United Kingdom forces are the Significant Actions Reports filed by UK forces following incidents involving hostile forces. The table details the information drawn from this reporting for the period between June 2003 and September 2005. Due to the tempo of operations information on insurgent casualties was not collected centrally before June 2005.

The figures drawn from these reports are not an accurate estimate of Iraqi casualties caused by UK forces, and should not be taken as such. It is not always possible to make an accurate count of Iraqi casualties following hostile contacts. The figures reported are the subjective impression of troops involved in the incidents. There is no way of checking these impressions since UK forces do not risk their own lives to ascertain how many casualties they have caused hostile forces and Iraqi casualties are frequently withdrawn from the area. It is also not always possible to determine who caused the casualties. Sometimes insurgents are killed or injured by the fire of other insurgents, although this number is likely to be small.

[1] Incomplete data available.

Angus Robertson: To ask the Secretary of State for Defence what discussions *(a)* he and *(b)* his predecessor has had with his US counterpart on operations in Iraq since January 2004; whether ammunition used has been discussed; and if he will make a statement. [30718]

John Reid *[holding answer 21 November 2005]:* Since January 2004, my predecessor and I have had a number of discussions with our United States counterpart about operations in Iraq. There have been no specific discussions about ammunition used.

Sir Menzies Campbell: To ask the Secretary of State for Defence (1) whether personnel employed by private *(a)* military and *(b)* security companies contracted to his Department in Iraq are required to record incidents involving the injury or death of Iraqis; [28817]

(2) what legal immunities apply to individuals employed by private *(a)* military and *(b)* security companies contracted to his Department in Iraq; [28816]

(3) how many personnel are working for private *(a)* military and *(b)* security companies contracted to his Department in (i) Iraq and (ii) Multi-National Division South East in Iraq; and if he will make a statement. [28815]

Mr. Ingram *[holding answer 17 November 2005]:* The Ministry of Defence does not contract any private military companies or private security companies in Iraq, and we hold neither employment records nor company policy documents for those which do operate there. Contractors working for Coalition nations are immune from Iraqi legal process only with respect to acts performed by them pursuant to the terms and conditions of a contract or sub-contract. Otherwise, they must respect all relevant Iraqi laws, including Coalition Provisional Authority order regulations, orders, memoranda and public notices.

Members' Visits

Norman Baker: To ask the Secretary of State for Defence pursuant to the answer of 7 November 2005, to the hon. Member for Chorley (Mr. Hoyle), *Official Report*, column 101W, on Members' visits, if he will list the sites where requests to visit were refused. [29868]

Mr. Touhig: Members of Parliament were refused visits to the following sites:

RAF Culdrose, Cornwall

RAF Menwith Hill, North Yorkshire (four refusals)

1 Kings Own Scottish Borderers, Lisenelly Barracks, Northern Ireland

Military Prosecuting Authorities

Mr. Mullin: To ask the Secretary of State for Defence what proposals he has for independent oversight of Army, Royal Navy and Royal Air Force prosecuting authorities once they merge; and if he will make a statement. [29567]

Mr. Touhig: The Army, Navy and Air Force prosecuting authorities are subject to the general superintendence of the Attorney-General. The Armed Forces Bill, to be introduced to Parliament shortly, will provide for the establishment of a single prosecuting authority for all three services, but the superintendence arrangements for the new authority will not change.

CONSTITUTIONAL AFFAIRS

Predictive Diallers

John Hemming: To ask the Minister of State, Department for Constitutional Affairs how many calls were made from call centres in her Department in 2004–05 using predictive diallers; how many such calls resulted in contact being made with the recipient without a Government agent available to talk to them; and what assessment she has made of the likely impact of Ofcom's policy on silent calls on the use of predictive diallers in departmental call centres. [28178]

Ms Harman: Two call centres are currently operated by the Department for Constitutional Affairs or its agencies:

The Asylum and Immigration Tribunal Call Centre, Leicester.

The Magistrates Court Fines Collection Call Centre, Gwent.

Neither of these call centres currently makes use of predictive diallers and there are no future plans for their use.

TRADE AND INDUSTRY

Broadband

Mr. Crabb: To ask the Secretary of State for Trade and Industry what the total amount of financial subsidies and grants received by BT has been since 1997 for the purpose of extending broadband availability in the UK. [29872]

Alun Michael: Since 1997 BT has received the following financial sums to enable exchanges to extend broadband availability in the UK:

East of England Development Agency paid BT approximately £500,000, to enable most of their remaining exchanges in BED A areas. This was awarded through the Broadband Aggregation programme.

Following a competitive tender South West Regional Development Agency awarded BT approximately £3900,000 to enable some exchanges in the Cornwall area.

Following a competitive tender, BT in Wales was awarded £3.6 million of European Structural Funding to upgrade over 40 BT telephone exchanges from UXD5, making ISDB2 services available to 99 per cent. of BT lines. The investment was also used to enable Digital Subscriber Lines, ahead of the commercial roll-out programme for the UK, in BT exchanges in market towns across Wales. It is estimated that the total project value was around £6 million.

Following a full EU Procurement Process to extend broadband availability in the North East region, BT was paid £1,830,345. This sum is subject to a downward adjustment, in accordance with a reverse contribution scheme, which operates to repay money to the Agency if broadband take up in the region exceeds a prescribed level.

£364k was awarded to Vale Royal Local Authority acting on behalf of the Cheshire Digital Development Agency who, following a competitive tender through the North West Regional Aggregation Body, awarded BT a contract to enable of a series of remote rural exchanges in Cheshire.

In Cumbria, Your Communications was awarded a large infrastructure project (Project Access) contract for approximately £17 million following a negotiated, state aid approved OJEU competitive tender. Your Communications sub contracted part of the contract with a value of around £1 million to BT for the early enablement of all the exchanges in Cumbria and specifically for the enablement of 14 exchanges in the remotest areas of the sub region.

In Scotland £16.5 million was awarded to BT following competitive tender. The roll-out has not yet been completed so not all the money has been paid as yet. The European Commission was notified under State Aid rules.

East Midlands Development Agency has worked with BT on a number of sub- regional strategic partnerships, to extend broadband availability. As part of the contractual arrangements confidentiality agreements were signed by the sub- regional partnerships to protect information as commercial in confidence. Accordingly, this information is not be available for disclosure.

Rail Freight (Scottish Coal)

Gordon Banks: To ask the Secretary of State for Trade and Industry how the £9.7 million allocated to Scottish Coal (Opencast) to develop rail freight facilities for the transport of coal by rail has been spent. [30895]

Malcolm Wicks: This is a devolved matter for the Scottish Executive and my hon. Friend may wish to write to them about the issue.

Coal Imports

Mr. Meale: To ask the Secretary of State for Trade and Industry how much coal was imported into the UK in each of the past five years. [30904]

Malcolm Wicks: The total amount of coal imported into the UK in each of the five years from 2000 to 2004 is shown in the following table:

	Thousand tonnes
2000	23,446
2001	35,542
2002	28,687
2003	31,891
2004	36,153

Source:
Table 2.7, Digest of UK Energy Statistics, 2005

Coal Miners' Compensation

Mr. Donohoe: To ask the Secretary of State for Trade and Industry what his initial findings were in the June review of the work of *(a)* the Union of Democratic Miners, *(b)* claims handling firms and *(c)* other solicitors in relation to fraudulent handling of health compensation claims for ex-coal miners; and if he will make a statement. [31537]

Malcolm Wicks: I hope to make a statement shortly.

Mr. Donohoe: To ask the Secretary of State for Trade and Industry what conclusions he has reached following the review of his Department's administration of the health compensation scheme for claims by ex-coal miners; and if he will make a statement. [30654]

Malcolm Wicks *[holding answer 21 November 2005]*: I hope to make a statement shortly.

Mr. Donohoe: To ask the Secretary of State for Trade and Industry what estimate his Department has made of the costs incurred as a result of the fraudulent handling of claims under the health compensation scheme for ex-miners; and what steps his Department is taking to ensure adequate safeguards are in place in the future administration of the scheme. [30655]

Malcolm Wicks *[holding answer 21 November 2005]*: I asked Stephen Boys Smith to look at this aspect as part of his review of the coal health compensation schemes and I hope to make a statement shortly.

Coal Production

Mr. Meale: To ask the Secretary of State for Trade and Industry what the levels of coal produced were in the UK in each of the past five years. [30903]

Malcolm Wicks: The total amount of coal produced in the UK in each of the five years from 2000 to 2004 is shown in the following table:

Thousand tonnes

	Deep-mined	*Opencast*	*Total*
2000	17,187	13,412	30,600
2001	17,347	14,166	31,513
2002	16,391	13,148	29,539
2003	15,633	12,126	27,759
2004	12,543	11,993	24,536

Source:
Table 2.7, *Digest of UK Energy Statistics, 2005*

Departmental Sickness Absence

Norman Lamb: To ask the Secretary of State for Trade and Industry how many staff in his Department have been absent on sick leave during the last two years for more than *(a)* three months, *(b)* six months, *(c)* 12 months and *(d)* two years. [28726]

Alan Johnson: The DTI HQ's statistics show that, in the last two-year period, 128 staff have been continuously sick for over 3 months, 8 have been continuously sick for over 6 months, 1 for over a year and none for over 2 years.

Departmental Staff

Norman Lamb: To ask the Secretary of State for Trade and Industry what arrangements are in place to monitor attendance by staff in his Department at seminars and conferences; and how much was spent in each of the last five years on attendance at conference and seminars by members of staff in his Department, broken down into *(a)* travel and accommodation expenses and *(b)* fees for attendance. [28733]

Alan Johnson: Attendance at seminars and conferences requires the approval of a senior officer with the necessary delegated authority to commit to expenditure from an appropriate budget and is arranged

at Management Unit level. No central monitoring takes place. Details of the amount spent on travel and accommodation by officials and fees paid to attend seminars and conferences over the last five years could only be obtained at disproportionate cost.

Electricity Generation

Mr. Chaytor: To ask the Secretary of State for Trade and Industry what recent research has been *(a)* commissioned and *(b)* evaluated by his Department on ways to store bulk generated electricity. [23085]

Malcolm Wicks *[holding answer 10 November 2005]*: Since 1999, the Department has commissioned a number of studies to examine the future role of bulk electricity storage in the UK, its economics and the potential of various storage technologies. These studies are summarised below.

Project Title	*Contractor*	*Summary*
Utility Scale Energy Storage (Regenesys)	Innogy (RWE)	Development of Regenesys and an analysis of using storage to mitigate the impacts of variability
Utility Scale Energy Storage Assessment	Campbell Carr	Assessment of the economic value of utility scale electricity storage particularly in the context of the new electricity trading arrangements
Status of electricity storage developments	Swanbarton	Assessment of the status of electrical energy storage technologies and systems with particular reference to opportunities for research, development and commercial implementation
Intermittency and Electrical Storage	UNIST	Review of the economic case for additional bulk electricity storage against a background of increasing wind and gas fired generation
Review of Storage Technologies	EATL	Review of storage technology options and their potential for application in the UK
Redox Energy Storage Technology	E-Fuel Technology Ltd	Support for a redox flow battery technology for use in transport and domestic/industrial energy management applications
Development of Redox Flow Batteries for Utility Energy Storage	ESD Ltd	To develop, build and test a 250 kW redox flow battery for utility energy storage.

Mr. Jenkin: To ask the Secretary of State for Trade and Industry what estimate he has made of the total capacity of electricity generating plant that will need to be constructed by 2015; what projections his Department has made of the type of plant that will be constructed; and what estimate he has made of the average time required to construct a *(a)* coal-fired and *(b)* gas-fired power station. [30600]

Malcolm Wicks *[holding answer 21 November 2005]*: According to the DTI's most recently published projections, dating from November 2004, around 14 Gigawatts of new capacity is expected to be constructed by the end of 2015. Nearly all of the new capacity built is expected to be either CCGT or renewable.

The generic assumption in energy projections work is that construction of new CCGT plant can be achieved in around 3 years and for new coal plant, around 4 to 5 years. These assumptions do not include the time taken in the approval process.

Energy Review

Mr. Jenkin: To ask the Secretary of State for Trade and Industry if he will ensure that Parliament is the first to be informed, in an oral statement, of the terms of reference of the forthcoming Energy Review. [31578]

Malcolm Wicks: The Energy Review terms of reference will be placed in the House as soon as they are available.

England-Scotland Interconnector

David Mundell: To ask the Secretary of State for Trade and Industry what assessment he has made of the extent to which Ofgem consulted *(a)* the Scottish Executive, *(b)* Scottish local authorities and *(c)* Scottish consumer bodies about transmission investment for renewable generation, with particular reference to the proposals for the England-Scotland interconnector. [29290]

Malcolm Wicks: Ofgem issued public consultation documents regarding its proposals for Transmission Investment in Renewable Generation which provided the opportunity for all stakeholders to comment.

EU Directives

Mr. Brady: To ask the Secretary of State for Trade and Industry what assessment he has made of the *(a)* administrative introductory cost, *(b)* annual recurring cost and *(c)* total cost to date to UK business of *(i)* Directive 97/75/EC amending and extending Directive 96/34/EC on parental leave, *(ii)* Directive 97/74/EC amending and extending Directive 94/45/EC on works councils, *(iii)* Directive 98/23/EC on the extension of Directive 97/81/EC on part-time work, *(iv)* Directive 98/52/EC on the extension of Directive 97/80/EC, on the burden of proof in sex discrimination cases, *(v)* Directive 1999/70/EC on fixed-term work and *(vi)* Directive 2002/14/EC on the information and consultation of workers; and if he will make a statement. [31569]

Mr. Sutcliffe: The Regulatory Impact Assessment on the Maternity and Parental Leave Regulations 2001 extending the 1999 Regulations implementing Directive 97/75/EC estimates no significant one-off implementation costs. Additional recurring annual costs to employers are estimated to be between £6 million and £39 million.

The Regulatory Impact Assessment on the extension of the Council Directive on European Work Councils to include the UK estimates one off non-recurring costs of £8.4 million, affecting 111 UK based undertakings. Estimated annual recurring costs are estimated to be £14.5 million, assuming all affected undertakings set up a European Works Council.

The Regulatory Impact Assessment on the Part Time Workers (Prevention of Less Favourable Treatment) Regulations implementing Directive 98/23/EC estimates costs of £27.4 million. These are annual and recurring costs to businesses.

The sole purpose of Directive 98/52/EC on the extension of Directive 97/98/EC on the burden of proof in sex discrimination cases was to amend the implementation date of Directive 97/80/EC in the UK from the 1 January 2001 to 22 July 2001. Consequently no Impact Assessment was prepared.

The Regulatory Impact Assessment on the implementation of Directive 1999/70/EC on fixed term work estimates a one off administrative implementation cost to businesses of £2 million. Annual recurring costs are also estimated and include increased access to training for fixed term employees (£39 million to £73 million) and additional costs from paying all fixed term employees Statutory Sick Pay after day one of their employment (up to £7 million).

The Regulatory Impact Assessment on the implementation of the Information and Consultation Regulations 2004 estimates one off costs of between £24 million and £53 million spread between 2005 and 2012. Additional recurring costs are estimated to be between £20 million and £46 million each year to 2012.

Each Regulatory Impact Assessment described above also identified significant monetary and non-monetary benefits associated with the relevant legislation. Regulatory Impact Assessments are an integrated policy tool designed to ensure that new regulations are proportionate and impose the minimum regulatory burden in a way such that the benefits justify the costs.

EU Satellite System

Mr. Brady: To ask the Secretary of State for Trade and Industry which British companies are expected to participate in the construction of the EU Global Monitoring for Environment and Security satellite system; what representations the Government is making on their behalf at an EU level; what funds the Government expects to contribute for the system's construction; and if he will make a statement. [30612]

Barry Gardiner: A number of UK companies are already working on this project. The UK Government has regular interaction with the Commission on GMES although the majority of industrial contracts over the foreseeable future are likely to be let by the European Space Agency (ESA).

My noble Friend the Minister for Science and Innovation and I are in discussion with Ministerial colleagues about the UK's position on funding the GMES Space Component Programme at the ESA Ministerial on 5–6 December.

Freedom of Information

Peter Law: To ask the Secretary of State for Trade and Industry if he will list Freedom of Information (FOI) requests to his Department passed to the FOI clearing house for evaluation, broken down by *(a)* subject and *(b)* date of request. [28945]

Alan Johnson: Information about the handling of Freedom of Information requests is published in "Freedom of Information Statistics on Implementation in Central Government". The most recently published report was 30 September 2005, copies were placed in the Libraries of the House. Additional information about the role of the Clearing House can be found on the DCA website at http://www.foi.gov.uk/guidance/index.htm#2. Departments do not release information about the internal handling of requests, such as details of which requests were referred to the Clearing House for guidance.

Gas Supplies

Mr. Jenkin: To ask the Secretary of State for Trade and Industry if he will list the gas-fired power stations in the UK with interruptible contracts for gas supplies this winter. [30710]

Malcolm Wicks *[holding answer 21 November 2005]*: This is a contractual matter between the power stations and their gas suppliers.

Langage Power Station, Plymouth

Mr. Streeter: To ask the Secretary of State for Trade and Industry what consultations he undertook with *(a)* local councils, *(b)* community groups and *(c)* honourable Members before deciding to extend the time period to permit construction of the Langage Power Station in Plymouth beyond five years. [30500]

Malcolm Wicks *[holding answer 21 November 2005]*: A formal request to extend the time period in the section 36 consent has been received. The Department has been in touch with South Hams District Council over the handling of reserved matters in the planning permission and has agreed an interim extension to give the Council time to consider the reserved matters. A decision on the request for a fuller extension of the time period in the section 36 consent will be made in due course.

Mr. Malcolm Hanney

Mr. Willetts: To ask the Secretary of State for Trade and Industry who is responsible for the costs incurred in his Department's sex discrimination case involving Mr Malcolm Hanney. [27049]

Alan Johnson: The Department met the costs.

Nuclear Fusion

Colin Challen: To ask the Secretary of State for Trade and Industry how much the Government have spent on nuclear fusion research and development over the last 10 years; and how much it plans to spend over the next 10 years. [30851]

Barry Gardiner: UK Government expenditure on fusion research and development over the last 10 years is given below. The UK's indirect contribution to the European fusion programme via EU funding for the EURATOM Framework Programme is excluded from these statistics.

In 2004, the Engineering and Physical Sciences Research Council (EPSRC) awarded £48 million over the four years to 2007–08 to the UK Atomic Energy

Authority (UKAEA) for fusion research. Funding for subsequent years will depend on the outcome of Spending Reviews and the quality of the science case proposals.

	£ million
1995–96	15.7
1996–97	12.1
1997–98	16.6
1998–99	12.6
1999–00	14.3
2000–01	17.0
2001–02	14.4
2002–03	14.6
2003–04	15.6
2004–05	19.5

Nuclear Industry

Mr. Drew: To ask the Secretary of State for Trade and Industry if he will list sites that have passed into the control of the Nuclear Decommissioning Authority. [28028]

Malcolm Wicks *[holding answer 11 November 2005]*: The Nuclear Decommissioning Authority (NDA) was set up on 1 April 2005, under the Energy Act 2004, to oversee strategic arrangements for managing the UK's civil public sector nuclear liabilities and clean up. The NDA are owners of the plant and facilities of BNFL (the Magnox stations, Sellafield, THORP/SMP, and Springfields); and took responsibility for managing clean up at the UKAEA sites (including Dounreay). The NDA has set out its plans for the decommissioning and clean up of its sites (including the proposed closure dates of its fleet of Magnox power stations) in its draft Strategy available at www.nda.gov.uk.

The NDA's sites are:

Berkeley power station
Bradwell power station
Calder Hall power station
Capenhurst
Chapelcross power station
Culham
Dounreay
Drigg (Low Level Waste Repository)
Dungeness A power station
Harwell
Hinkley Point A power station
Hunterston A power station
Oldbury power station
Sellafield
Springfields
Sizewell A power station
Trawsfynydd power station
Windscale
Winfrith
Wylfa power station.

Power Stations (Carbon Emissions)

John Robertson: To ask the Secretary of State for Trade and Industry what assessment his Department has made of the level of carbon dioxide emissions in *(a)* a nuclear power station and *(b)* a similar capacity gas fired power station. [30773]

Malcolm Wicks: A new 1 Gigawatt combined cycle gas turbine power station, operating at a load factor of 80 per cent., would produce the equivalent of approximately 0.7 million tonnes of carbon per annum. Nuclear power stations produce negligible CO2 emissions.

Smoking

Michael Fabricant: To ask the Secretary of State for Trade and Industry if he will make a statement on his Department's policy concerning the health and safety of employees exposed to secondhand smoke. [28068]

Alan Johnson: The Department takes the health and safety of staff and visitors to its buildings very seriously. As from 1 January 2006, all DTI buildings will become completely smoke free.

Statutory Holiday Entitlements

Andrew Mackinlay: To ask the Secretary of State for Trade and Industry what steps he has taken to implement the exclusion of bank holidays from minimum statutory holiday entitlements for employees. [31486]

Mr. Sutcliffe: My rt hon. Friend the Secretary of State for Trade and Industry has taken a power in the recently introduced Work and Families Bill to enable us to put the Government's manifesto commitment to introduce "for the first time, an entitlement for every employee to four weeks' paid holiday, and we propose to extend this by making it additional to bank holiday entitlement" into effect. A full and extensive consultation with stakeholders, in line with better regulation principles, will be undertaken before any detailed changes are proposed in order to take full account of all the issues involved including the wide variety of flexible and non-standard working patterns that exist.

Wind Farms

Mr. Lancaster: To ask the Secretary of State for Trade and Industry what assessment his Department has made of the minimum average wind speed necessary for a site to be considered suitable for a wind farm. [29212]

Malcolm Wicks *[holding answer 16 November 2005]*: The Department has made no assessment of the minimum average wind speed necessary for a wind farm. The decision as to whether a potential wind farm would be viable in a specific location is a matter for the developer and in making that decision wind speeds would no doubt come into the equation.

Working Time Directive

Danny Alexander: To ask the Secretary of State for Trade and Industry what instructions he has given to the Health and Safety Executive regarding the advice it provides to employers on the Working Time Directive; and if he will make a statement. [31365]

Mr. Sutcliffe: The Health and Safety Executive (HSE) was given powers by the Secretary of State for Trade and Industry under the Working Time Regulations 1998 to enforce working time limits and health assessment requirements (for night workers). The HSE enforces the Working Time Regulations in accordance with the principles set out in the Health and Safety Commission's Enforcement Policy Statement which, in turn, reflects the Cabinet Office's Enforcement Concordat. HSE's Infoline contact centre gives advice to employers and employees on a wide variety of health and safety issues including working time.

PRIME MINISTER

Departmental Salaries

Mike Penning: To ask the Prime Minister if he will list the 10 highest-paid employees in his Office, broken down by *(a)* job title and *(b)* salary including bonuses; and whether the individual concerned is *(i)* a civil servant and *(ii)* a contractor in each case. [27427]

The Prime Minister: For these purposes my office forms part of the Cabinet Office. I refer the hon. Member to the answer given to him by my hon. Friend the Parliamentary Secretary for the Cabinet Office (Jim Murphy) on 14 November 2005, *Official Report*, columns 963–64W.

TREASURY

Betting Duty

Mr. Laurence Robertson: To ask Mr Chancellor of the Exchequer how much his Department received from gross betting duty from off-course bookmakers in Northern Ireland in the most recent year for which figures are available. [31489]

John Healey: For the year ending 31 March 2005 off-course bookmakers based in Northern Ireland paid £10.5 million in general betting duty.

Identity Cards

Lynne Jones: To ask Mr Chancellor of the Exchequer what estimate he has made of the *(a)* total and *(b)* net cost of *(i)* integrating the proposed identity card scheme into his Department's IT systems and *(ii)* the ongoing operation of the scheme within his Department. [31117]

John Healey: It is estimated that no additional costs will be incurred in integrating the proposed identity card scheme into HM Treasury's IT systems or to the on-going operation of the scheme within HM Treasury.

Self-invested Personal Pensions

Tim Farron: To ask Mr Chancellor of the Exchequer what assessment he has made on the likely impact on demand for second homes of the new self-invested personal pension scheme. [31579]

Mr. Des Browne: I refer the hon. Member to the reply I gave to the hon. Member for Inverness, Nairn, Badenoch and Strathspey (Danny Alexander) on 10 November 2005, *Official Report*, column 456.

Tax Credits

Mr. Frank Field: To ask Mr Chancellor of the Exchequer in how many cases where a tax credit has been processed there was a delay in the computer system generating an award of child or working tax credit in *(a)* 2003–04 and *(b)* 2004–05; and how many such cases there have been in 2005–06. [31543]

Mr. Des Browne: The information requested is not available.

TRANSPORT

Airport Security

Tom Brake: To ask the Secretary of State for Transport how many *(a)* prosecutions and *(b)* dismissals of staff there have been in the last two years as a result of incidents related to security breaches airside at *(i)* Heathrow, *(ii)* Gatwick and *(iii)* other airports serving London. [26759]

Ms Buck: The Department is not involved in action against individual members of staff which is a matter for their employers or the police. Any reported breaches of security are thoroughly investigated and appropriate action taken with the Directed party concerned.

Buses

Mrs. Dunwoody: To ask the Secretary of State for Transport what assessment he has made of the extent of compliance with public service requirements of buses planned to serve Olympic and Paralympic venues outside London in 2012. [30986]

Ms Buck: There has been no specific estimate of the extent of compliance with the Public Service Vehicles Accessibility (PSVA) Regulations for buses serving the Olympic and Paralympic venues in 2012.

However, all full-size single-deck and double-deck buses must be compliant with the PSVA Regulations by 2016–17. This allows operators to achieve the full economic life from the fleet which existed before the regulations come into effect. To ensure the industry is well placed to meet these end dates, we have negotiated a voluntary agreement with the industry that 50 per cent. of the full-size bus fleet should be low-floor and accessible by 2010.

EU Co-financing

David Howarth: To ask the Secretary of State for Transport which transport schemes in England have been promoted to EU co-financing since 2000. [31583]

Ms Buck: Under the current round of Objective 1 and Objective 2 structural funds programmes within England and which run from 2000–2006, the European Regional Development Fund (ERDF) has to date contributed approximately 118m towards transport related initiatives in England.

The following transport schemes in England have been co-financed by the Trans-European Network fund since 2000:

Channel Tunnel Rail Link (sections 1 & 2)

West Coast Mainline

Felixstowe to Nuneaton rail upgrade study and works

Kings Cross/St. Pancreas rail Interchange (study)

Trans-Pennine rail freight upgrade study

Study into improved rail links to Stansted Airport

Cross London Routes—rail study

Southampton to West Coast Mainline rail project

Reading Station—study into design of an additional crossing of the Great Western mainline railway at Reading and development of design work for the main Reading Station concourse

Manchester Airport Ground Transport Interchange

A120 Stansted to Braintree road upgrade.

Gatwick Express

Laura Moffatt: To ask the Secretary of State for Transport when he will announce conclusions on the future of the Gatwick Express. [30697]

Derek Twigg: Proposals for future services on the Brighton Main Line, including Gatwick Express, were published in the draft Route Utilisation Strategy produced by the SRA. The options for this line are being considered and an announcement will be made in due course once a decision has been reached.

Merseytram

Mr. George Howarth: To ask the Secretary of State for Transport when and where Ministers of his Department held meetings on Merseytram Line 1 with *(a)* hon. Members and *(b)* local authorities; and what was discussed at such meetings. [25646]

Derek Twigg: Ministers in this Department have had a number of meetings with hon. members and local authorities where aspects of Merseytram Line 1 were discussed. Most recently I met a delegation of hon. Members, local authority representatives and members of the Merseyside PTA on 14 November 2005, at the Department for Transport.

At that meeting I underlined that the Government position on Merseytram has not changed: The Department's contribution to Merseytram was capped at £170 million. All costs above this level would have to be met from local sources, and that appropriate assurances would be needed from the authorities contributing to the costs of the scheme.

Mr. George Howarth: To ask the Secretary of State for Transport what advice Ministers have received on whether it would be ultra vires or imprudent for Knowsley council and Liverpool city council to underwrite contingencies on the Mersey Tram Line; and what the sources of the *(a)* formal and *(b)* informal advice were. [26206]

Derek Twigg: It would not be in the public interest to divulge the Department's legal advice. It is important that the Department can receive confidential legal advice as and when necessary to inform its decisions.

Mrs. Ellman: To ask the Secretary of State for Transport when he last discussed the future of Merseytram Line 1 with *(a)* Liverpool city council and *(b)* Merseytravel; and what issues were discussed. [26246]

Derek Twigg *[holding answer 8 November 2005]*: I met a delegation of hon. Members, local authority representatives and members of the Merseyside PTA on Monday 14 November 2005. I refer my hon. Friend to the answer I have given today to the hon. Member for Knowsley, North and Sefton, East (Mr. Howarth).

Motorways

Mr. Paul Goodman: To ask the Secretary of State for Transport which environmental specialists he has consulted in relation to proposed limit values for environmental noise produced by motorways. [30640]

Dr. Ladyman: No environmental specialists have been consulted on the environmental noise limit values specifically related to motorway noise as work has not yet commenced.

Mr. Paul Goodman: To ask the Secretary of State for Transport what limit values for environmental noise produced by motorways have *(a)* been proposed and *(b)* are under consideration. [30641]

Dr. Ladyman: No environmental noise limit values specifically related to motorway noise have been considered or are currently proposed. Consultations on legislation to implement the Environmental Noise Directive (2002/49/EC) are being undertaken by DEFRA. National guidance on intervention levels to be applied within the UK, for the purposes of prioritising actions under future noise action plans, as required by the Directive, is expected in July 2007.

Mr. Paul Goodman: To ask the Secretary of State for Transport what assessment he has made of the effectiveness of noise reduction on sections of motorways when *(a)* all lanes are resurfaced and *(b)* some lanes are resurfaced; and if he will make a statement. [30647]

Dr. Ladyman: Studies carried out on various parts of the strategic road network, including one motorway site, identified noise reductions in the range of 2–4dB(A) at properties in close proximity to the adjacent highway following the resurfacing of all carriageway lanes with quieter surfacing materials. No studies or assessments have been carried out at locations where only part of the carriageway has been resurfaced with such materials.

Network Rail

Tim Farron: To ask the Secretary of State for Transport how much Network Rail spent in *(a)* 2004 and *(b)* 2005; and how much it will spend in 2006 on testing new and existing trains in a test track setting. [30094]

Derek Twigg *[holding answer 21 November 2005]*: In 2004 and 2005 Network Rail has not been involved in testing trains on a test track in any of the years in question. Trains are tested by the manufacturer (in the case of new trains) or by the train owner or operating company (in the case of modifications to existing trains).

Network Rail is now actively investigating test track sites that will fulfil the needs of the railway in the coming years.

Project Funding

David Howarth: To ask the Secretary of State for Transport how much funding his Department has provided for transport projects in each constituency in England in each year since 2000. [31584]

Ms Buck: A breakdown of Department for Transport funding support for projects is not available at constituency level. The Department provides support for transport outside London to local authorities largely through block grants, and it is for the authorities to determine their priorities for spend. The Department's funding support for rail services through Network Rail and franchise agreements is also not available at constituency level.

Rail Franchises

John McDonnell: To ask the Secretary of State for Transport what costs have been incurred in respect of the tendering process of the *(a)* Integrated Kent Franchise and *(b)* Greater Western Franchise; and what the estimated final costs are. [24577]

Derek Twigg: Costs for the two year tendering process are shown in the table below. The replacement of these will deliver significant benefits including a fleet of high speed trains operating on CTRL for the Integrated Kent Franchise.

£000

	To date	*Estimated final cost*
Greater Western	2,000	2,668
Integrated Kent	3,990	4,290

Gwyn Prosser: To ask the Secretary of State for Transport what the cost to his Department has been of *(a)* the tendering process of the Integrated Kent Franchises and *(b)* franchise tendering since May 1997; and what the expected final costs are. [30613]

Derek Twigg: The cost to the Department for Transport (DfT) to date (and the Strategic Rail Authority (SRA) prior to DfT taking over direct responsibility) for the Integrated Kent Franchises franchise replacement is £3,990,000. The final costs are estimated to be £4,290,000.

The letting of franchises since 1997 has been successively undertaken by the Office of Rail Franchising, the Shadow Strategic Rail Authority, SRA and since July 2005, DfT.

Franchise tendering costs were part of the general business costs of these organisations and could only be provided at disproportionate cost.

Mr. Burstow: To ask the Secretary of State for Transport what assessment has been made by Network Rail of the impact on passenger safety of the proposal to reduce staff hours on stations covered by the Integrated Kent Franchise. [29443]

Derek Twigg: Under the Ticketing and Settlement Agreement, there is no obligation for Network Rail to assess the impact of such proposals on passenger safety.

Mrs. Riordan: To ask the Secretary of State for Transport what costs have been incurred by the review of Northern Rail services; and what the expected final costs are. [25017]

Derek Twigg: Costs incurred for the review of the Northern rail franchise up to 21 October 2005 amount to £301,538. The expected final cost is £500,000.

Mr. George Howarth: To ask the Secretary of State for Transport whether his Department has discussed increasing the number of passengers with the rail franchisees. [28054]

Derek Twigg: Ministers and officials at the Department have regular meetings with rail franchisees. Ways of improving performances and encouraging greater use of the network are among the subjects discussed.

Mr. George Howarth: To ask the Secretary of State for Transport how many invitations to events have been received by his Department from each rail franchisee during the past *(a)* 12 months, *(b)* two years and *(c)* five years; how many were accepted; and where the events were held. [28059]

Derek Twigg: Ministers and departmental officials receive a great many invitations to events organised by or involving rail franchise holders. No central record is maintained of the number of invitations nor of how many are accepted.

John McDonnell: To ask the Secretary of State for Transport what costs have been incurred in respect of the tendering process of the Greater Western Franchise; and what the expected final costs are. [28423]

Derek Twigg *[holding answer 21 November 2005]*: I refer my hon. Friend to the answer I have given him today (UIN 24577).

Railways

Mrs. Dunwoody: To ask the Secretary of State for Transport how much in subsidy was paid to London and Continental Railways Limited by the Government in each year between 1994 and 2004. [31176]

Derek Twigg: London and Continental Railways Limited (LCR) has not received any subsidies. LCR has a concession contract to design and build a new railway and to operate Eurostar services. Government has agreed to contribute to the construction cost of the Channel Tunnel Rail Link by way of grants in accordance with the 1996 Development Agreement. Between 1994 and 2004, these grants totalled £895 million—(£109 million in 2001, £444 million in 2002 and £342 million in 2003).

Mr. George Howarth: To ask the Secretary of State for Transport how much the Department has spent on Crossrail in the past 12 months; and what percentage has been spent on *(a)* staff recruitment, *(b)* technical consultants and *(c)* other external services. [26540]

Derek Twigg: Between 1 November 2004 and 31 October 2005, Cross London Rail Links Limited (CLRLL) was provided with funding of £38,387,000. 50 per cent. of this was provided by the Department and 50 per cent. by Transport for London. I understand from CLRLL that, of this, £281,402 was spent on staff recruitment; £21,811,558 on technical consultants; and £10,986,190 on a range of other external services. The remaining costs of £5,307,580 include staff salaries and day-to-day running costs.

In addition, between 1 November 2004 and 31 October 2005, the internal Department for Transport unit that deals with Crossrail sponsorship, which includes the Crossrail hybrid Bill team, had costs of £3,499,672. Of this, £2,504,679 was spent on consultants; and £25,657 on other external services, primarily publishing responses to the Environmental Statement. Spending on staff recruitment is not recorded separately. All relevant staff were already employees of the Department for Transport. The remaining costs, £969,336, include staff salaries and day-to-day running costs.

Mr. George Howarth: To ask the Secretary of State for Transport how many incidents of theft have been reported to the British Transport Police on the rail network in the past *(a)* 12 months, *(b)* two years and *(c)* three years, broken down by rail franchisee. [28060]

Derek Twigg: The following table shows the number of thefts of passenger property offences recorded by the British Transport Police on the rail network (excluding London Underground), recorded by rail franchisees and Network Rail over the last three years.

Number of thefts of passenger property offences

Train operating company/ Network Rail	*1 November 2002 to 31 October 2003*	*1 November 2003 to 31 October 2004*	*1 November 2004 to 31 October 2005*
Arriva Train Wales	388	444	439
c2c	180	214	160
Central Trains	563	586	505
Chiltern Railways	141	183	151
Croydon Tramlink	70	44	34
Eurostar	307	330	301
First Great Western	1,143	1,103	1,024
First Great Western Link	390	352	312
Gatwick Express Ltd.	164	202	160
Great North Eastern Railways	1,162	1,155	1,092
Heathrow Express	48	61	52
Hull Trains Company Ltd	8	9	8
Island Line Ltd.	1	1	3

Wessex Trains	182	189	145
West Anglia/Great Northern	851	864	804
Total	21,003	20,452	17,823

Mr. George Howarth: To ask the Secretary of State for Transport what targets the Department has set for implementing litter management strategies on the railways. [27938]

Derek Twigg: Responsibility for dealing with litter on the railways is shared between Network Rail and Train Operating Companies (TOCs).

In general, Network Rail is responsible for litter management on the network, for example tracks and embankments. NR has its own operational arrangements and policies relating to litter clearance, consistent with current legislation. TOCs are responsible for litter management on the trains they run and at the stations that they manage.

Franchise agreements require that TOCs keep their stations in a clean condition. Recently-let franchises include benchmarks relating to cleanliness and repair of trains and stations. TOCs are independently monitored and those that fail to meet benchmarks can be required to take remedial action and may be deemed to be in breach of their franchise agreement.

Mr. George Howarth: To ask the Secretary of State for Transport if he will break down planned investment into the railways during the period of the current spending review period by *(a)* region and *(b)* franchisee. [27939]

Derek Twigg: The Department does not hold information on Government spending and investment at a regional level. This is primarily because franchise areas often encompass two or more regions and Network Rail is structured on a route by route basis which also serves more than one region.

My right hon. Friend the Secretary of State made a statement to Parliament on 10 February 2005 setting out Government spending plans for rail as a whole to 2008–09. The latest figures on Government payments to individual Train Operators (TOCs) are set out in appendix 5 of the SRA's annual report and accounts. Payments to individual TOCs in future years will depend on a number of factors including the outcome of negotiations in the franchise replacement process and the operational performance of Network Rail and the TOC in question.

Road Improvements/Maintenance

Mr. Jim Cunningham: To ask the Secretary of State for Transport if he will make a statement on the current road improvement work in Coventry, South with particular reference to new road construction. [29512]

Dr. Ladyman: The Highways Agency has recently completed an improvement to the A45/A445 Leamington Road junction by providing a new roundabout at Ryton on Dunsmore, near Coventry.

The agency is now preparing a scheme to create a two level junction at the A45/A46 Tollbar End roundabout and to widen the existing road between Tollbar End and the A45/A46 junction at Stivichall.

John Penrose: To ask the Secretary of State for Transport how much funding was allocated to maintenance of *(a)* motorways, *(b)* trunk roads and *(c)* other roads in receipt of central funding in the most recent three years for which figures are available. [29273]

Dr. Ladyman: Funds provided for maintaining the strategic road network do not differentiate between motorways and trunk roads. The Highways Agency accounts for the strategic road network on a renewals accounting basis, whereby all work to maintain the existing level of service is classified as resource while maintenance that improves the level of service is considered as capital investment. The figures for the three years to 2005–06 are:

£ million

	2003–04	*2004–05*	*2005–06*
Capital	4	24	39
Resource	744	706	826
Total	748	730	865

Note:
The resource figure for 2003–04 included £29 million for technology maintenance which in subsequent years is scored as capital.

For other roads maintained by local highway authorities the Government provides funding in three ways. Funding for routine maintenance (grass cutting, gully clearing, sign cleaning, minor repairs, winter maintenance, street lighting, etc.) forms part of the Revenue Support Grant settlement. Capital funding is provided through the Local Transport Plan settlement for structural renewal work (resurfacing, overlay, bridge strengthening, etc.) PFI credits are provided for individual street lighting and highway maintenance schemes. With the exception of PFI credits and major capital maintenance schemes greater than £5 million, a local authority may spend maintenance funding, capital and revenue, as it wishes, on any service it provides. The figures for the three years to 2005–06 are:

£ million

	2003–04	*2004–05*	*2005–06*
Capital	610	659	661
Major scheme	12	10	—
PFI credits	790	—	—
Revenue	2,005	2,055	2,055
Total	3,417	2,724	2,716

The information does not include capital funding for the maintenance of roads in London, which is a matter for the Mayor of London and the Greater London Assembly.

Road Tolls

Andrew Rosindell: To ask the Secretary of State for Transport what plans the Government have to introduce a road toll system. [26458]

Dr. Ladyman: My right hon. Friend the Secretary of State announced on 5 July 2005, *Official Report*, columns 171–74, that we would be taking forward a programme of work which would enable us to take decisions on road pricing in the future, as part of a broader solution to the problem of congestion.

Road Traffic Legislation

Mr. Amess: To ask the Secretary of State for Transport if he will make a statement on the operation of section 40A of the Road Traffic Act 1988. [29852]

Dr. Ladyman: Section 40 A of the Road Traffic Act 1988 is a road safety measure that makes it an offence to use a motor vehicle on a road when the vehicle is in such a condition as to be a danger to any person. The enforcement of this measure is primarily a matter for the police and the Vehicle & Operator Services Agency [VOSA] who carry out regular roadside enforcement checks to ascertain whether a vehicle is being used on a public road in a dangerous condition.

School Crossing Patrols

Nick Herbert: To ask the Secretary of State for Transport what assessment he has made of the relationship between the current threshold of earnings before income support is affected and school crossing patrols recruitment. [29542]

Mr. Plaskitt: I have been asked to reply.

All aspects of benefit payment, including earnings disregards, are kept under constant review in order to ensure the fair and equitable distribution of benefit and the best use of public funds.

Any decision to give special disregards to a particular group of claimants is a complex matter with wider implications. We currently have no plans to provide school crossing patrols with any special disregard of earnings within the various income related benefit schemes.

Recruitment of school crossing patrol is a matter for local authorities. We are not aware of any direct relationship between benefit disregards and recruitment of school crossing patrols.

Surveillance Technology

Tom Brake: To ask the Secretary of State for Transport (1) what discussions he has had with the Home Office on the application of intelligent surveillance technology; [26760]

(2) what discussions he has had with Ispotek regarding the application of intelligent pedestrian video surveillance systems; [26762]

(3) what plans he has for expanded application of intelligent surveillance technology related to the transport network; and if he will make a statement. [26764]

Ms Buck: We keep the transport security measures we require under constant review. We are supporting the Home Office's initiative to evaluate "intelligent surveillance systems' for a range of applications including use on the transport network.

Screening technologies are currently judged to offer greater potential. I refer the Hon Member to the statement of 3rd November on planned trials of screening equipment on the London Underground and National Rail network.

Tom Brake: To ask the Secretary of State for Transport (1) how much his Department has spent in each of the last five financial years on intelligent surveillance technology; and what the *(a)* value and *(b)* nature is of contracts awarded by his Department; [26761]

(2) if he will list trials which have taken place to date on the use of intelligent surveillance technology related to the transport network. [26763]

Ms Buck: DfT has not funded or carried out trials of intelligent surveillance systems on the transport network. To achieve best use of resources, the Department for Transport works in close partnership with other government bodies on counter terrorism science and technology. The Home Office in conjunction with the Security Service coordinate work on the development and evaluation of intelligent surveillance technologies for a wide range of applications. For example the Home Office's "Imagery Library of Intelligent Detection Systems' (i-LIDS) project is supporting developers by providing realistic training imagery and evaluating systems to assess their suitability for specific scenarios including transport security applications.

Speeding (Prosecutions)

Rosie Cooper: To ask the Secretary of State for Transport how many prosecutions for speeding were made in West Lancashire in the last year for which figures are available. [27838]

Paul Goggins: I have been asked to reply.

Within the police force area of Lancashire in 2003 (latest available) there were 7,400 prosecutions for speed limit offences. It is not possible from the data collected centrally to identify the total for West Lancashire. 2004 data will be available early in 2006.

Train Journeys (Environmental Impact)

John Hemming: To ask the Secretary of State for Transport what assessment he has made of the environmental impact of a journey between London and Birmingham by *(a)* an electric train, *(b)* a diesel train and *(c)* a car. [29306]

Derek Twigg: The following table compares total emissions of CO_2, the main greenhouse gas, and NO_x and PM_{10} the two pollutants of most concern to local air quality, for representative electric and diesel trains and a car travelling between London and Birmingham. Two sets of figures are provided, one detailing the total emissions for the journey, the other detailing emissions per passenger journey assuming average vehicle loadings.

	CO_2 (kg)	NO_x (g)	PM_{10} (g)
Total journey emissions			
Electric train	2,020	4,320	129
Diesel train	1,270	10,800	202
Car	34.2	61.5	2.6
Emissions per passenger			
Electric train	5.9	12.5	0.4
Diesel train	9.7	82.9	1.5
Car	21.7	38.9	1.6

Train Operating Companies (Compensation)

John McDonnell: To ask the Secretary of State for Transport how much was paid to each train operating company through the Strategic Rail Authority in compensation for loss of revenue during industrial disputes in *(a)* 2003 and *(b)* 2004; what the cause was of each dispute; and how each was resolved. [R] [29208]

Derek Twigg: The Strategic Rail Authority made payments of £15.65 million in 2003 and £7,630,567 in 2004 under its discretionary power to reimburse Train Operating Companies for loss of revenue due to industrial disputes. Details of the payments made to individual operators are commercially confidential.

Trains (Security Measures)

Gregory Barker: To ask the Secretary of State for Transport whether the additional security measures announced on 2 November will affect passengers on trains travelling from *(a)* Bexhill, *(b)* Battle, *(c)* Etchingham and *(d)* Robertsbridge stations. [29309]

Derek Twigg: Passenger screening equipment trials are scheduled for the Heathrow Express platforms at Paddington station. These equipment trials will not affect passengers on other routes. Further work is being undertaken regarding additional security equipment trials on the national rail and London Underground networks.

Transport Improvement (London)

Mrs. Dunwoody: To ask the Secretary of State for Transport what plans his Department has to improve transport in South East London. [30990]

Ms Buck: Following the creation of the Greater London Authority, Transport for London (TfL), under the London Mayor, is now responsible for the provision of transport services (except national rail) and related issues in London. In July 2004, the Secretary of State for Transport announced a long-term settlement for TfL, which provides a block grant of an average of £2,453 million per year up to 2009–10. This includes support for TfL's plans for prudential borrowing of up to £2.9 billion over this period.

CULTURE, MEDIA AND SPORT

2012 Olympics

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport who will be permitted to use the Olympic Route Network at the London 2012 Olympics. [31416]

Mr. Caborn: The London Olympic Bill allows for the establishment of an Olympic Route Network. This network would be on roads between Olympic venues and accommodation and would allow the Olympic Delivery Authority to implement special traffic management measures. There will be no general restrictions on use of the Olympic Route Network.

However, based on the experience of previous games and their successful use in Sydney and Athens, it is proposed that on part of the Olympic Route Network, where road space permits, there will be Olympic lanes operating in a similar way to bus lanes. At certain times of the day use of these lanes will be restricted, largely to accredited members of the Olympic family. The Olympic family includes athletes, Olympic officials, accredited media and technical personnel.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport (1) how many and what percentage of tickets at the London 2012 Olympics will be reserved for *(a)* UK residents, *(b)* corporate sponsors and *(c)* corporate entertainment; [31417]

(2) how many and what percentage of tickets for the London 2012 Olympics will be *(a)* available for public sale and *(b)* reserved; and for whom tickets will be reserved. [31418]

Mr. Caborn: The London Organising Committee for the Olympic Games (LOCOG) estimates that a total of 9.6 million tickets will be available for the Olympic Games and Paralympic Games. Out of this total, a certain number of tickets have to be made available for sale to Olympic Family members such as the International Olympic Committee (IOC), International Federations, National Olympic Committees as well as IOC and local sponsors. The precise number of tickets to be made available to these groups will be decided after discussions with the IOC and other relevant parties. It is LOCOG's intention that tickets will be both affordable and distributed on an equitable basis.

BBC Trust

David Mundell: To ask the Secretary of State for Culture, Media and Sport whether Scotland will be represented on the proposed BBC trust. [30589]

James Purnell: As set out in the BBC Charter Review Green Paper, the trust will need to be able to reflect the interests of a wide range of different UK communities, and include members with the knowledge and expertise to understand and articulate the interests of individual devolved nations. More details will be given in the forthcoming White Paper.

Festivals

David T.C. Davies: To ask the Secretary of State for Culture, Media and Sport what steps her Department took to celebrate and promote the events of *(a)* Ramadan, *(b)* Diwali and *(c)* Chinese new year in 2005. [31167]

Mr. Lammy: DCMS is a diverse organisation that values its staff as individuals. Although the Department doesn't specifically celebrate religious events such as Ramadan, Diwali and the Chinese new year it does promote them by including in its diversity training the need for staff to be sensitive to colleagues observing different periods of religious observance. We also provide a religious and cultural observance guide and an interfaith calendar which is available to all staff on our intranet site. The Department also has a policy of flexible working. As part of the refurbishment of the Cockspur Street Site there are plans for a dedicated multi-faith prayer room.

Freedom of Information

Mr. Roger Williams: To ask the Secretary of State for Culture, Media and Sport how many Freedom of Information applications her Department has received; how many have taken more than 20 days to process; and how many of these gave rise to complaints about the time taken. [31210]

Mr. Lammy: The Freedom of Information (FOI) Act 2000 came fully into effect from 1 January 2005, not 2000. In the period 1 January to 30 June 2005 the Department for Culture, Media and Sport received 268 requests for information handled under FOI. Of these *(a)* in 177 cases a full response was provided within 20 days; *(b)* in 54 cases a permitted extension to the 20-day deadline was applied to allow for consideration of the balance of public interest; and *(c)* in 37 cases the 20-day deadline was missed. In the same period, the Department received three complaints requesting an internal review on the timeliness of the Department's handling of a FOI request.

The Department for Constitutional Affairs (DCA) is committed to publishing quarterly updates in relation to departmental performance under FOI, including information on both the volume and outcome of requests. The bulletin for the second quarter was published on 30 September 2005 and can be found on the DCA website at http://www.foi.gov.uk/statsapr-jun05.htm and in the Libraries of both Houses. The next bulletin will be published before Christmas, while an annual report will be published in early 2006.

Licensing Act

Lynne Jones: To ask the Secretary of State for Culture, Media and Sport what her policy is on requirements for *(a)* elected representatives and *(b)* members of the public most affected by applications for an extension of licensing hours under the Licensing Act 2003 to be notified of such applications. [30776]

James Purnell: Under the Licensing Act 2003 (Premises licences and club premises certificates) Regulations 2005 (No. 42), applicants are required to display a notice prominently at or on the premises and to advertise their application in a local newspaper or newsletter. The 2003 Act also requires that licensing authorities must place details of applications on its licensing register which must be available to the public.

Nothing in the 2003 Act prevents licensing authorities from taking supplementary action to bring applications to the attention of elected representatives and members of the public who may be affected by applications for an extension of licensing hours but that is a matter for them to decide.

My Department is committed to monitoring closely how the new regime operates and where the evidence suggests that the system could be more effective, it will consider revising the guidance.

Bob Spink: To ask the Secretary of State for Culture, Media and Sport if she will make it her policy to place all community amateur sports clubs in band A for the purposes of setting licensing application fees. [31241]

James Purnell: The Independent Licensing Fees Review Panel, chaired by Sir Les Elton, is considering whether the licensing fees have been set at a fair level for fee payers, including community amateur sports clubs, while ensuring that licensing authorities can recover their legitimate administration, inspection and enforcement costs.

The panel will deliver an interim report to Ministers shortly, followed by a Final Report in autumn 2006. My right hon. Friend the Secretary of State will, in the light of this ongoing work, keep under review the need for any changes to the fees regime.

Bob Spink: To ask the Secretary of State for Culture, Media and Sport if she will make it her policy to reduce the band A alcohol licence application fee from £100 to £50. [31243]

James Purnell: The level of fees under the Licensing Act 2003 are currently being considered by the Independent Licensing Fees Review Panel, chaired by Sir Les Elton. The panel will want to ensure that fee levels are fair to business, non commercial organisations and to other individuals seeking licences, while allowing licensing authorities to recover their legitimate administration, inspection and enforcement costs.

The panel has received evidence from around 70 stakeholder organisations affected by the new fees regime and will deliver an Interim Report to Ministers shortly. This will be followed by a final report in autumn 2006. My right hon. Friend the Secretary of State will, in the light of this ongoing work, keep under review the need for any changes to the fees regime.

Sir Christopher Meyer

Mr. Andrew Turner: To ask the Secretary of State for Culture, Media and Sport whether the statements of the Deputy Prime Minister and the Foreign Secretary on Sir Christopher Meyer's diaries and his Chairmanship of the Press Complaints Commission represent her policy. [31538]

Tessa Jowell: As set out in the Cabinet Secretary's letter to Sir Christopher Meyer's publishers on 4 November, the Government's view is that it is disappointing that a former diplomat should disclose confidences gained as a result of his employment.

The Press Complaints Commission is an entirely independent body and the appointment of its chairman is not a matter for the Government.

Television Licences

David Simpson: To ask the Secretary of State for Culture, Media and Sport how many people have been prosecuted for non-payment of the television licence fee in each constituency of Northern Ireland in each of the last five years. [31277]

James Purnell: The information requested is not held centrally.

SCOTLAND

Consultants

Martin Horwood: To ask the Secretary of State for Scotland what steps his Department takes to ensure that consultancies do not claim excessive expenses. [29070]

David Cairns: When engaging consultancies, the Office would include, as part of its contract, terms and conditions which would provide for reasonable expenses to be reimbursed against receipts. That, in conjunction with appropriately robust contract management arrangements, ensures that consultancies do not claim excessive expenses.

Damages

Mr. Hayes: To ask the Secretary of State for Scotland if he will list the 10 largest amounts of damages paid out by his Department in the last year for which figures are available, indicating in each case the nature of the claim. [27736]

David Cairns: The Scotland Office has made no payments of damages in the last year.

Departmental Contracts (Direct Mail)

Norman Baker: To ask the Secretary of State for Scotland how many contracts for direct mail were signed by his Department in *(a)* 2005–06 to date and *(b)* 2004–05; and what the value was in each case. [27676]

David Cairns: The Scotland Office has not signed any contracts for direct mail in 2004–05, or in 2005–06 to date.

Freedom of Information

Mr. Roger Williams: To ask the Secretary of State for Scotland how many Freedom of Information applications his Department has received; how many have taken more than 20 days to process; and how many of these gave rise to complaints about the time taken. [31223]

David Cairns: Departmental performance on Freedom of Information applications, including statistics on both the volume and outcomes of requests, is published quarterly on the Department for Constitutional Affairs website at www.foi.gov.uk. The bulletins for January to March and April to June are available in the Libraries of both Houses and at http://www.foi.gov.uk/statsapr-jun05.htm and http://www.foi.gov.uk/statsjan-mar05.htm. The next bulletin will appear before Christmas, and an annual report will be published in early 2006. We are not aware of any complaints about the time taken to respond to requests.

Maladministration

Mr. Laws: To ask the Secretary of State for Scotland how many payments for maladministration have been made in each of the last five years by his Department; and if he will make a statement. [32157]

David Cairns: The Scotland Office has made no payments for maladministration in the last five years.

DEPUTY PRIME MINISTER

Best Value

Mrs. Spelman: To ask the Deputy Prime Minister why the Government has not collated information on Best Value performance indicators *(a)* 127a, *(b)* 127b and *(c)* 127c in 2005–06. [30439]

Mr. Woolas: Following a review and consultation, the Home Office decided to delete the sub-measures related to this Best Value Performance Indicator (BVPI) for the police with effect from 1 April 2004 because the data was judged to be unreliable. This is because it required both the person reporting the offence and the police officer recording it to make a series of subjective judgments. The Office of the Deputy Prime Minister carried out a fundamental review of all the BVPIs last year and it was decided to delete the sub-measures for local authorities with effect from 1 April 2005 for the same reason. The headline indicator (number of violent crimes per 1,000 population) continues to be collected.

Mrs. Spelman: To ask the Deputy Prime Minister what the *(a)* outturn and *(b)* targets set for each local authority were for Best Value Performance Indicators *(i)* 126, *(ii)* 127a-d, *(iii)* 128, *(iv)* 174, *(v)* 175 and *(vi)* 176 in 2004–05. [30442]

Mr. Woolas: The data for these Best Value Performance Indicators is currently being audited. The Office of the Deputy Prime Minister intends to publish it on 15 December on a dedicated website: www.bvpi.gov.uk. Local authorities set their own targets for each of these indicators in 2004–05. Information on local targets is not collated centrally.

Contracts

Bob Spink: To ask the Deputy Prime Minister if he will list the title and value of consultancy contracts commissioned *(a)* by and *(b)* in respect of Castle Point Borough Council in each of the last five years, broken down by consultancy. [31240]

Jim Fitzpatrick: The Office of the Deputy Prime Minister (ODPM) does not hold information on contracts that Castle Point may have let directly. ODPM has let the following contracts:

Title	*Consultancy Firm*	*Value £*	*Financial Year*
Castle Point Recovery Plan—local government engagement	Price Waterhouse Coopers	101,000	2004–05

Mr. Burstow: To ask the Deputy Prime Minister what guidance he has issued to public authorities on using contract terms to ensure that contractors comply with human rights legislation. [31233]

Jim Fitzpatrick: The Office of the Deputy Prime Minister (ODPM) published on 4 November a Guidance Note titled "Guidance on Contracting for Services in the light of the Human Rights Act 1998. This is accessible from the ODPM's website at http://odpm.gov.uk/index.asp?id=1161370.

Recent conflicting legal decisions have left public authorities and contractors unsure whether or not the users of services contracted-out to non-public sector organisations are covered by the Human Rights Act 1998. The Guidance suggests that protection equivalent to that which would be offered by the Human Rights Act can be obtained by the procuring public authority specifying in the service contract the levels of performance required.

The intended audience is local authorities, housing associations, organisations for older people and those with disabilities, and other government departments, but the guidance will be of relevance to all public contracting authorities. However, when acting on the Note, public authorities should take their own professional legal and procurement advice to ensure compliance with the Human Rights Act and public procurement law.

Council Spending

Colin Challen: To ask the Deputy Prime Minister if he will introduce guidelines for town parish councils on spending; and if he will assess the merits of capping the expenditure of such councils if they exceed the limits he imposes on major authorities. [30850]

Mr. Woolas: The Office of the Deputy Prime Minister expects town and parish councils to budget prudently and consult their residents about spending plans before setting their precept. Under current legislation there is no provision for capping parishes or issuing statutory guidance to them on their budgets. There are no plans to amend the legislation, but we will keep the situation under review.

e-Enablement

Sarah Teather: To ask the Deputy Prime Minister which services local government has e-enabled; and what level of take-up has been achieved for each service, broken down by local authority. [31559]

Mr. Woolas: The Office of the Deputy Prime Minister's (ODPM) target is for 100 per cent. of local government services to be e-enabled by 31 December 2005. Local authorities are currently on course to deliver this target. The average local authority deals with over 750 individual services which may be accessed over a number of channels by citizens, including face-to-face, telephone and web. No data is kept on levels of take-up for individual services. As part of the ODPM's strategy

to support councils increase citizens' use of e-government, on 11 November, the Minister for Local e-Government announced details of a National Take-Up Campaign for local e-services which is due to be launched in January 2006.

Fire Services

Greg Mulholland: To ask the Deputy Prime Minister how many *(a)* genuine and *(b)* malicious false alarm fire emergency calls have been received in Leeds North West in each year since 1997. [29434]

Jim Fitzpatrick: No data are available on false fire alarms for the Leeds North West constituency. The information tabled below relates to the area covered by Leeds City Council and has been provided by the West Yorkshire Fire & Rescue service.

The information on genuine false alarms includes those due to apparatus failure as well as calls made in good faith by members of the public.

Leeds City Council

	Genuine false fire alarms		*Malicious fire false alarms*
	Apparatus	*Good intent*	
1997	3,758	1,828	2,370
1998	3,680	1,708	1,387
1999	3,726	1,825	851
2000	3,907	1,685	851
2001	4,100	1,825	877
2002	4,307	1,780	816
2003	4,503	1,983	655
2004	4,551	1,615	723

Source:
West Yorkshire Fire & Rescue Service.

Angela Watkinson: To ask the Deputy Prime Minister when defibrillators will be available *(a)* an all fire appliances and *(b)* in all fire stations; and when all personnel will be trained to use them. [31621]

Jim Fitzpatrick: These are matters for each Fire & Rescue Authority to consider working in partnership with their local Ambulance Service NHS Trust where appropriate.

The latest draft Fire and Rescue National Framework 2006–2008 makes clear the Government's wish to see Fire and Rescue Authorities working with other providers to improve life safety through the use of defibrillation equipment and by implementing co-responder schemes. Furthermore, as part of the Coronary Heart Disease National Service Framework, the Department of Health continues to roll out a National Defibrillator Programme. There are already over 700 automated external defibrillators (AEDs) in public places. An additional 221 AEDs have been allocated to fire & rescue services.

Angela Watkinson: To ask the Deputy Prime Minister what estimate he has made of the daily cost of *(a)* the West Midlands firefighters strike and *(b)* using Army personnel to provide services. [31622]

Jim Fitzpatrick: Funding the strike by firefighters in the West Midlands is the responsibility of West Midlands Fire and Rescue Authority. It is for that body to make appropriate estimates of costs and arrangements for payment. The Office of the Deputy Prime Minister will reimburse the Ministry of Defence's additional costs and will seek their own reimbursement from the West Midlands Fire and Rescue Authority. Given the unforeseen and open-ended nature of the task, the Ministry of Defence has been unable to provide estimates of the likely costs of Armed Forces personnel at this stage. The information will be given to West Midlands Fire and Rescue Authority as soon as it is available. In the meantime, the Office of the Deputy Prime Minister is working closely with the Ministry of Defence and West Midlands Fire and Rescue Authority to keep costs as low as possible.

Angela Watkinson: To ask the Deputy Prime Minister when funding will be made available to the London Fire and Emergency Planning Authority to cover the additional costs of resilience following the bombings in London on 7th July. [31623]

Jim Fitzpatrick: In addition to its core funding, which it receives from the Greater London Authority, the London Fire and Emergency Planning Authority (LFEPA) has received £606,000 for the 2005–06 financial year as a direct grant, for the co-ordination of emergency planning on behalf of all London local authorities. This represents an increase of 299 per cent. on the funding level of the previous year. In light of this, no specific extra funding has been available to LFEPA to cover the cost of responding to the 7 July attacks. Government has of course made a significant contribution to these costs in other areas.

Mr. Dismore: To ask the Deputy Prime Minister what the estimated cost is of the installation of Firelink in the regional fire control centres. [30631]

Jim Fitzpatrick: Cost information relating to the Firelink and the FiReControl infrastructure procurements is commercially sensitive until contracts have been signed.

Freedom of Information

Mr. Roger Williams: To ask the Deputy Prime Minister how many Freedom of Information applications his Department has received; how many have taken more than 20 days to process; and how many of these gave rise to complaints about the time taken. [31227]

Jim Fitzpatrick: In the period from 1 January 2005 to 30 June 2005, the Office of the Deputy Prime Minister received 575 Freedom of Information applications of which 173 took longer than 20 days to process. Of the latter number 27 were legitimately extended to allow for consideration of the public interest test, as allowed for in the Act. These figures can be calculated from table 2 of the Department for Constitutional Affairs' publications, "Freedom of Information Act 2000, Statistics on Implementation in Central Government, Q1 January—March 2005 and Q2 April—June 2005".

The Department for Constitutional Affairs is committed to publishing quarterly updates in relation to departmental performance under FOI, including information on both the volume and outcomes of requests. The bulletin for the second quarter was published on 30 September 2005 and can be found on

the DCA website at http://www.foi.gov.uk/statsapr-jun05.htm and in the Libraries of both Houses. The next bulletin will be published before Christmas, whilst an annual report will be published in early 2006.

Only three of the requests for information the Office of the Deputy Prime Minister has received have given rise to complaints about delays in processing.

Government Office for London

Mr. Pelling: To ask the Deputy Prime Minister what proportion of the *(a)* neighbourhood management pathfinders, *(b)* neighbourhood wardens and *(c)* Community Learning Chest funding stream from the Government Office for London was made available to the London Borough of Croydon in 2004–05. [30536]

Mr. Woolas: There are five neighbourhood management pathfinders in London in the Boroughs of Camden, Westminster, Southwark, Greenwich and Waltham Forest. There is no neighbourhood management pathfinder in Croydon.

The neighbourhood wardens scheme ended in 2003–04. However, total funding in London for street crime warden schemes in 2004/05 was £4,403,993 of which Croydon received £238,918.

In 2004–05 the Community Empowerment Network (CEN) in Croydon received funding of £243,139 under the Single Community Programme. Of that the CEN allocated £19,850 to Learning Activities (formerly the Community Learning Chest), and spent £6,465. Total Single Community Programme funding available in Londonin 2004/05 was £9,343,811.

Home Information Packs

Mrs. Spelman: To ask the Deputy Prime Minister (1) what representations his Department has received from *(a)* the Department for Environment, Food and Rural Affairs and *(b)* the Environment Agency on whether home information packs should include contaminated land reports; [24672]

(2) whether home information packs will be required to include contaminated land reports. [24673]

Yvette Cooper: The Office of the Deputy Prime Minister is currently consulting on draft regulations that will specify the contents of the home information pack. The draft regulations authorise, but do not require, the inclusion of a contaminated land search in the home information pack. The consultation ends on 30 December 2005.

Housing

David Howarth: To ask the Deputy Prime Minister how much housing revenue account subsidy was provided to each local authority in England in 2004–05. [31582]

Yvette Cooper: A table with the Housing Revenue Account Subsidy entitlement for each local authority in 2004–05 has been made available in the library of the House. These figures are subject to audit.

Margaret Moran: To ask the Deputy Prime Minister how many *(a)* local authority stock and *(b)* private sector empty homes there were in Luton in each of the last five years. [30635]

Yvette Cooper: The total number of vacant dwellings by tenure in Luton for each of the last five years is tabled below:

Number of empty homes in Luton

	2001	*2002*	*2003*	*2004*	*2005*
Local authority (LA)	108	84	106	95	165
Registered Social Landlord (RSL)	46	44	44	58	54
Other public	0	0	0	0	10
Private sector (non-RSL)	2,302	2,063	1,942	1,994	1,800
Total	2,456	2,191	2,092	2,147	2,019

Source:

For years 2001 and 2002 all tenure figures above come from the Office of the Deputy Prime Minister's Housing Strategy Statistical Appendix except for the RSL tenure type which comes from the Housing Corporation's Regulatory Statistical Return.

For the years 2003 to 2005 the figures above are based on three sources: Total from ODPM's Council Tax Base 1 return; LA and "Other" public sector tenures from ODPM's Housing Strategy Statistical return; RSL tenure from Housing Corporation's Regulatory Statistical Return; and the private sector (non-RSL) is obtained by subtracting all these three separate tenure figures from the total.

Mr. Hollobone: To ask the Deputy Prime Minister what steps he is taking to provide affordable housing in Kettering constituency. [27295]

Yvette Cooper: The Office of the Deputy Prime Minister, through our sponsorship, works closely with the Housing Corporation to provide affordable housing.

The Housing Corporation announced their biggest ever investment programme of £3.3 billion for 2004–06 to boost the number of key worker homes. As part of the programme £400 million was made for key worker homes in the growth areas funding 9,700 homes. Of this £86,274,652 will be allocated to the Milton Keynes and South Midlands growth area creating 2575 homes.

In Kettering a programme to provide 334 new affordable homes, including 177 rented units and 157 shared ownership/low-cost home ownership units, from 2004–06 has been agreed and £7,140,000 is being invested in this.

In addition, the Housing Corporation is negotiating a bidding round with housing authorities for further provision of affordable housing in 2006–07.

In addition future growth will have affordable homes incorporated into the developments and we are working with developers to increase rates of affordable housing provision through other vehicles such as funding through section 106 programmes.

Mr. Michael Foster: To ask the Deputy Prime Minister how many council homes were sold under the right-to-buy scheme in Worcester in each year since 1980. [30591]

Yvette Cooper: The numbers of council properties sold under the right-to-buy scheme by Worcester Borough Council in each financial year since 1979–80 as reported by Worcester are tabled below.

Financial year	*RTB Sales*	*Financial year*	*RTB Sales*
1979–80	0	1992–93	44
1980–81	0	1993–94	46
1981–82	118	1994–95	70
1982–83	136	1995–96	40
1983–84	197	1996–97	47
1984–85	112	1997–98	71
1985–86	137	1998–99	82
1986–87	108	1999–00	99
1987–88	161	2000–01	95
1988–89	140	2001–02	122
1989–90	170	2002–03	116
1990–91	62	2003–04	109
1991–92	44	2004–05	0

Source:
Quarterly returns (P1B) to ODPM from local authorities.

Mr. Burstow: To ask the Deputy Prime Minister when the results of the next English House Condition Survey will be available. [30741]

Yvette Cooper: The headline results for 2003 from the survey were published in March 2005 (English House Condition Survey: Key Findings for 2003) and are available from the Office of the Deputy Prime Minister's website (www.odpm.gov.uk/ehcs). The Office of the Deputy Prime Minister intends to publish the 2004 results to a similar timetable during 2006.

Local Authority Funding

Mark Hunter: To ask the Deputy Prime Minister (1) what proportion of social services departments in local authorities in England he expects will overspend their budgets in the financial year 2005–06; and whether the revenue support grant for 2006–07 will take such overspends into account; [30176]

(2) whether projected deficits in local authority social services departments in 2005–06 will be taken into account in the forthcoming revenue support grant for local authorities with responsibility for social services departments. [30177]

Mr. Woolas: Information on deficits or surpluses in local authority service budgets for the current financial year are not held centrally, and could only be provided at disproportionate cost. Projected overspends or deficits are not taken into account in distributing formula grant.

London Governance

Mrs. Spelman: To ask the Deputy Prime Minister when the Government expects to publish a consultation paper on reform of London governance; and whether the Government expects to make an announcement on possible reforms before the 2006 London borough elections. [29720]

Jim Fitzpatrick: The Government will publish a consultation paper on proposals for additional powers and responsibilities for the Mayor of London and the London Assembly in the next few weeks, and will announce a final package of proposals as soon as possible following the end of the consultation period.

Neighbourhood Renewal

Mr. Pelling: To ask the Deputy Prime Minister what proportion of the Neighbourhood Renewal Capacity Building Fund funding stream from the Government Office for London was made available to the London Borough of Croydon in 2004–05. [29955]

Mr. Woolas: There is no such fund as the Neighbourhood Renewal Capacity Building Fund.

Social Services Funding

Mr. Neil Turner: To ask the Deputy Prime Minister what the social services formula share is in 2005–06 per *(a)* younger adult, *(b)* child, *(c)* elderly person and *(d)* person in (i) Inner London local authorities, (ii) Outer London local authorities, (iii) English metropolitan authorities outside London, (iv) Wigan Metropolitan Borough Council area, (v) Salford City Council area, (vi) Knowsley Metropolitan Borough Council area, (vii) South Tyneside Council area, (viii) Leeds City Council area and (ix) Wolverhampton City Council area. [29472]

Mr. Woolas: The table below shows the data requested.

	Personal Social Services for younger adults FSS per person aged 18 to 64 (£ per person aged 18 to 64)	*Personal Social Services for Children FSS per person aged 0 to 17 (£ per person aged 0 to 17)*	*Personal Social Services for Older People FSS per person aged 65 and over (£ per person aged 65 and over)*	*Total Personal Social Services FSS per person (£ per person)*
Inner London Boroughs including the City of London	212.04	1,141.53	1,385.83	519.66
Outer London Boroughs	134.21	498.33	858.63	312.52
Metropolitan Districts	126.04	406.49	860.18	305.85
Wigan	109.30	295.17	880.77	263.99
Salford	142.48	471.94	1,021.78	355.86
Knowsley	145.43	595.74	1,062.50	397.77
South Tyneside	134.12	467.19	902.12	347.39
Leeds	121.32	358.01	762.24	271.72
Wolverhampton	134.11	453.09	934.74	342.46

Spatial Address Infrastructure

Sarah Teather: To ask the Deputy Prime Minister if he will make a statement on the suspension of negotiations between the Improvement and Development Agency and Ordnance Survey on the production of a National Spatial Address Infrastructure. [30113]

Jim Fitzpatrick: The Office of the Deputy Prime Minister published proposals for a National Spatial Address Infrastructure (NSAI) involving a partnership between Improvement and Development Agency and Ordnance Survey on 26 May 2005.

As announced on 11 August, the Improvement and Development Agency and Ordnance Survey were not able to reach agreement over the terms of the establishment of the NSAI.

Officials from the Office of the Deputy Prime Minister are continuing to work with interested parties to investigate possible ways forward.

Sarah Teather: To ask the Deputy Prime Minister what the *(a)* total expenditure to date has been and *(b)* projected future expenditure is on the production of a National Spatial Address Infrastructure. [30114]

Jim Fitzpatrick: *(a)* Total cost of external consultants working on a National Spatial Address Infrastructure (NSAI) in 2004–05 was £23,750. A total of £22,500 has been or is expected to be spent in 2005–06.

(b) In terms of forecast expenditure, the Office of the Deputy Prime Minister has only specifically allocated budget to the NSAI in the financial year 2005–06; this was £2.3m as notified in the public prospectus launched in May 2005. Because Ordnance Survey and the Improvement and Development Agency could not reach agreement over the way forward, it is not certain that this funding will be required.

Standards Board

Mrs. Spelman: To ask the Deputy Prime Minister what Standards Board cases have been considered by the High Court in the last five years in which all proceedings are complete; and what the judgement was in each case. [26914]

Mr. Woolas: The Standards Board was established in March 2001.

Details of High Court cases, and the judgement in each case are as follows:

R (on the application of Hathaway) v Ethical Standards Officer

Appeal date 13 May 2004

The appeal was dismissed.

Murphy v ESO of the Standards Board for England

Appeal date 19, 28 October 2004

The appeal against the decision was dismissed; the appeal against the sanction was allowed, and reduced to a 4 month suspension.

Sloam v Standards Board for England

Appeal date 25 Jan 2005

The appeal was dismissed.

Scrivens v Ethical Standards Officer

Appeal date 14 March 2005

The appeal was dismissed.

Sanders v Kingston

Appeal date 19 and 20 May 2005

The High Court adjudged the Adjudication Panel's decision was correct, but judged the sanction of 2 years disqualification to be excessive, and quashed it, due to the period of disqualification already served by the councillor prior to the appeal being heard.

Adami v Ethical Standards Officer

Appeal date 28 June 2005

The High Court found that the reasons given for Adjudication Panel's decision were deficient, overturned the decision and quashed the sanction (it did not deal with the substance of the decision). The Standards Board is currently appealing the High Court decision to the Court of Appeal.

Gill v Ethical Standards Officer

Appeal date 26 July 2005

The High Court quashed the sanction of the Adjudication Panel, and reduced Cllr Gill's 1 year disqualification to 3 months suspension, on the grounds that the Panel had not correctly applied its sanctions guidance.

Sanders v Ethical Standards Officer

Appeal date 1 Sep 2005

The High Court adjudged the Adjudication Panel's decision was correct, but judged the sanction of 18 months disqualification to be excessive, and quashed it, due to the period of disqualification already served by the councillor prior to the appeal being heard.

Valuation Office Agency

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 11 November 2005, *Official Report*, column 777W, on the Valuation Office Agency, what powers the Agency and its agents have to fine residents who refuse entry. [30665]

Mr. Woolas: None.

FOREIGN AND COMMONWEALTH AFFAIRS

Angola

Mrs. James: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Angola. [30725]

Ian Pearson: After three decades of civil war leading to a severe humanitarian crisis, Angola is currently in the process of formulating a new constitution and creating the structures and environment for the holding of democratic elections in 2006. The Government supports Angola in its transition to democracy. The Government is providing a £8.5 million development assistance programme to Angola which includes funding for a project to strengthen the capacity of electoral stakeholders, such as civil society and the media, and another to look at conflict management.

BBC (Foreign Language Broadcasts)

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the BBC with regard to the ending of Central and Eastern European language radio broadcasts. [30670]

Mr. Straw: The Foreign and Commonwealth Office (FCO) was consulted about the BBC World Service (BBCWS) proposals, including at the Annual Ministerial meeting which my noble Friend the

Parliamentary Under Secretary of State for Foreign and Commonwealth Affairs (Lord Triesman of Tottenham) chaired. I consented to the closures.

Closing some radio services is one part of a major reprioritisation. The resources released will be reinvested in line with BBCWS' overall future strategy, which includes new online services and Arabic TV. BBCWS believes these changes will lead to an increase in its global audience and impact.

China

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received on allegations of mistreatment of Christians in Xinjiang Province, China; and if he will make a statement. [30602]

Ian Pearson: We are aware of recent allegations of mistreatment of Christians in Xinjiang. Freedom of religious belief was a theme of the EU-China Human Rights Dialogue on 24 October. The EU raised concerns about restrictions on freedom of religion and made clear its view that China's regulations are not compatible with the International Covenant on Civil and Political Rights, which China has signed and is working towards ratifying.

Cyprus

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of Turkish Cypriot proposals to protect the environment and provide sustainability by directives controlling building in North Cyprus, with particular reference to protecting Greek Cypriot-owned land from development; and if he will make a statement. [31080]

Mr. Douglas Alexander: Neither my right. hon. Friend the Foreign Secretary nor I have seen detailed proposals by the Turkish Cypriots to control building in north Cyprus, but we welcome any measures that will help to tackle the problem of environmental degradation. Effective protection of the environment in north Cyprus is in the interests of both communities and we strongly support action in this area.

However, the complex issues surrounding the question of property ownership in Cyprus remain an integral part of a comprehensive settlement and can only be fully addressed in this context. This government remains committed to pursuing such a settlement with both communities.

Departmental Finance

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what the real terms percentage increase in allocated resources for his Department *(a)* was for the period 1997–98 to 2004–05 and *(b)* is estimated to be between 2005–06 and 2007–08 (i) for each period and (ii) for each year. [31042]

Mr. Straw: The real terms percentage increase in allocated resources for the Foreign and Commonwealth Office (FCO) is shown below:

Real terms percentage increase[1]
(a) 1997–98 to 2004–05

	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Allocated Resource (£ million)[2]	1,144.4	1,131.0	1,209.2	1,274.6	1,439.6	1,657.7	1,708.4	1,797..3
(i) Year on Year increase	—	—	4.8	4.1	10.2	11.6	0.4	3.0
(ii) Increase for period 1997–98 to 2004–05	—	—	—	—	—	—	—	33.7

(b) 2005–06 to 2007–08

	2005–06	*2006–07*	*2007–08*
Allocated Resource (£ million)[3]	1,794.8	1,702.4	1,739.4
(i) Year on year increase	0	0	0
(ii) Increase for period 2005–06 to 2007–08	—	—	0

[1] The figures have been deflated using the GDP deflators produced by HM Treasury on 28 September 2005, to calculate the real terms increases.

[2] The "Allocated Resource" shown here is the final budget for the year approved by Parliament through the supply process, available in the House of Commons Library. Figures from 1997–98 to 2004–05 are not directly comparable because the basis of government accounting was changed in 2001–02 with the switch from cash accounting to resource accounting and budgeting. This overstates total resources in 2004–05 compared with 1997–98.

[3] The "Allocated Resource" shown for 2005–06 is the Winter Supplementary Estimate which is currently being considered by Parliament. Figures for 2006–07 and 2007–08 are estimates based on the 2004 Spending Review outcome. 2006–07 and 2007–08 figures underestimate total FCO resources because they do not include the conflict prevention expenditure that is transferred between conflict prevention pool partners (FCO, the Ministry of Defence and the Department for International Development) annually. £247.9m of conflict prevention expenditure is included in 2005–06 compared to only £74m in 2006–07 and in 2007–08.

Ethiopia

Sarah Teather: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking to persuade the Ethiopian Government to implement the demarcation agreement on the border with Eritrea. [30657]

Ian Pearson: We have consistently urged the Ethiopian Government to accept the Boundary Commission's ruling and appoint Field Liaison Officers to work with the Commission on the demarcation of the border. Prime Minister Meles' initiative in November 2004 to accept the Boundary Commission's ruling in principle was a helpful step forward. We will continue to support international efforts aimed at securing full implementation of the ruling.

Mark Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the number of British UN peacekeepers on duty on the Ethiopia/Eritrea border. [30298]

Ian Pearson: There are currently no British troops in the UN Mission in Ethiopia and Eritrea. We continue to work closely with the UN Department of Peacekeeping Operations and with other Security Council members to support and improve peacekeeping capacity, including

through training and capacity building initiatives within the UN organisation itself and with member states and regional organisations.

EU Energy Policy

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the common EU energy policy proposed by the Prime Minister at the Hampton Court informal summit. [31571]

Mr. Douglas Alexander: As my right hon. Friend the Prime Minister set out at the European Parliament on 26 October 2005, a common EU energy policy should focus not on new regulatory barriers but on obtaining a genuinely open energy market, on dialogue at a European level with key suppliers and on clean technologies, energy efficiency, and source diversification to meet the challenges of global warming. Work in several of these areas is already under way and will be discussed at the Energy council on 1 December 2005. The Commission will provide an interim report on follow-up to Hampton Court at the December European council with further discussion on the basis of full reports in 2006.

EU Finance

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs what the objectives are of *(a)* the EU Growth Adjustment Fund and *(b)* the EU Global Adjustment Fund; from which part of the EU budget each fund is financed; how much of the financing of each fund will be made by the UK; what proportion of each fund will be spent in the UK; and if he will make a statement. [31570]

Mr. Douglas Alexander: The objectives of the Growth Adjustment Fund, which the Commission proposed in February last year, are set out in the Government's explanatory memorandum on COM(2004)101, available in the Library of the House. It is no longer under active discussion.

The objectives of the Globalisation Adjustment Fund, which the Commission proposed in October this year, are set out in the Commission's MEMO/05/386, which has also been made available in the Library of the House. The details of how any such fund would operate or be financed are being discussed with all EU partners, and my right hon. Friend the Foreign Secretary will update Parliament on progress in due course.

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the proposal for a growth adjustment fund proposed in COM(2004) 101; on what occasions the proposal came before *(a)* the Committee of Permanent Representatives, *(b)* the Council of the European Union and *(c)* the European Council; whether the Government (i) supported and (ii) opposed the proposal at each occasion it came before these institutions; and if he will make a statement. [31572]

Mr. Douglas Alexander: The Government's position on the Commission's proposals of February last year, including the Growth Adjustment Fund, remains that set out in its explanatory memorandum on COM(2004)101 and COM(2004)487, available in the Library of the House, The Government have taken this position in all fora in which the EU budget for 2007–2013 has been discussed. My right hon. Friend, the Foreign Secretary, will update Parliament in due course on progress in the negotiations.

Foreign Decorations

Dr. Julian Lewis: To ask the Secretary of State for Foreign and Commonwealth Affairs what the criteria are for allowing *(a)* current and *(b)* former service personnel to (i) accept and (ii) wear medals offered by foreign governments in respect of past campaigns. [30618]

Mr. Straw *[holding answer 21 November 2005]:* The criteria for considering whether foreign awards and decorations may be accepted and worn are contained in the Rules Governing the Accepting and Wearing of Foreign Orders, Decorations and Medals by Citizens of the United Kingdom and Her Overseas Territories. I set out as follows the Rules and will place copies in the Library of the House. In addition, the Committee on the Grant of Honours, Decorations and Medals is currently considering a paper from the Foreign and Commonwealth Office relating to a review of the rules.

Rules governing the acceptance and wearing of Foreign Orders, Decorations and Medals by citizens of the United Kingdom and her overseas territories

These rules set out the circumstances under which a citizen of the United Kingdom or her overseas territories ("UK citizen") may be granted The Sovereign's permission to accept and wear an Order, Decoration or Medal ("foreign award") conferred by a Head of State or Government of a foreign country. Head of Government of a Commonwealth country of which The Sovereign is not Head of State and certain international organisations (collectively referred to as "foreign state").

Principles

1. No UK citizen[1] may accept and wear a foreign award without the Sovereign's permission. Such permission must be sought as soon as there is an indication that an award may be offered.

2. The granting of permission for a UK citizen to accept an award offered by a foreign state will only be considered if the award recognises specified services rendered to the interests of that foreign state.

3. Permission will not be given for UK citizens to accept a foreign award if they have received, or are expected to receive, a UK award for the same services.

4. Acceptance of a foreign award does not mean that the UK will make a reciprocal offer directly or indirectly associated with the UK recipient

Permission

5. Permission to wear a foreign award, if granted, will be either:

unrestricted—allowing the award to be worn on any occasion, or

restricted—allowing the award to be worn only on particular occasions associated with the foreign state that conferred it.

6. The grant of permission, whether unrestricted or restricted, will be conveyed by letter to the UK citizen concerned from the Sovereign's Private Secretary.

Application

7. A foreign state wishing to confer an award on a UK citizen is expected to ascertain—through its Diplomatic Representative at The Court of St. James's—whether

permission to accept an award would be likely to be given. Such requests for clearance will only be entertained in respect of awards given by Heads of State or Governments recognised as such by the Sovereign.

8. Requests made by certain international organisations (e.g. the United Nations and NATO) in respect of service in operations under their auspices should be made to the Defence Services Secretary in the Ministry of Defence.

9. Requests made in respect of services rendered more than five years previously, or in connection with events in the distant past (e.g. commemorative awards), will not be entertained.

10. Requests for clearance meeting the requirement of these regulations will be submitted to The Sovereign for consideration by the Secretary of State for Foreign and Commonwealth Affairs—who will be under no obligation to make such a submission if the application has not been made as indicated in paragraphs 7 and 8 above.

11. Requests for clearance in the case of foreign awards conferred by private societies or institutions will not be granted.

Guidelines

12. Each request will be treated on a case by case basis. The fact that a similar application has been approved in the past should not be taken as implying that permission will be granted.

13. The grant of unrestricted permission will be considered in the case of foreign awards conferred for services:

related to the saving or attempting to save life[2];

by any member of the UK Armed Forces or other UK official on exchange, attachment or loan to a foreign state who is involved in a military operation or an emergency[3] on behalf of that country, state or organisation;

by any member of the UK Armed Forces serving in a UK Unit within a bi-lateral force under the command of the other country who renders especial service to the country's forces in a military operation or emergency; or

in military operations under the auspices of an international organisation (e.g. the United Nations).

14. The grant of restricted permission will be considered in the case of foreign awards conferred:

on the occasion of and in connection with a State or official visit by a Head of State or Government of a foreign or Commonwealth country;

in connection with a State visit by the Sovereign; or

to members of Special Missions when The Sovereign is represented at a coronation, wedding or funeral or other similar occasion: or on any Diplomatic Representative when specially accredited to represent The Sovereign on such occasions.

15. Other than in circumstances described in paragraphs 13 and 14 above, permission, unrestricted or restricted, will not be granted to[5]:

Crown servants generally,

in particular, to Heads or other members of HM Diplomatic or Consular establishments abroad when leaving their posts—whether on transfer or on final retirement; and

senior officials, military and civilian, visiting foreign states.

16. No permission is needed for the acceptance of any foreign award if it is designed not to be worn.

[1] This includes British subjects and British-protected persons (BPPs). BPPs may accept awards conferred by their Rulers.

[2] Including medals issued by life saving societies and institutions (but these must be worn on the right breast).

[3] It will be for the UK to decide if the operations or emergency is of the standard to fall within this criterion.

[4] This does not apply to his or her staff.

[5] This guidance normally applies equally to the spouses or partners of Crown servants.

Dr. Julian Lewis: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on ex-service personnel *(a)* receiving and *(b)* wearing the campaign medal being offered by the Government of Malaysia. [30619]

Mr. Straw *[holding answer 21 November 2005]:* The offer by the Government of Malaysia to present the Pingat Jasa Malaysia medal, a commemorative rather than a campaign medal, is being considered by the Committee on the Grant of Honours, Decorations and Medals under the Government's rules governing the accepting and wearing of Foreign Awards, Decorations and Medals by British citizens. The Committee is also reviewing these rules.

Gibraltar

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to visit Gibraltar. [31070]

Mr. Douglas Alexander: My right hon. Friend the Foreign Secretary currently has no plans to visit Gibraltar, but hopes to meet Peter Caruana, Gibraltar's Chief Minister, in London shortly.

Royal Visit (USA)

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 17 November 2005, *Official Report*, column 1488W, what contact Hank Dittmar and Katherine Horley of the Prince's Foundation for the Built Environment had with his Department's staff during their Royal Highnesses' recent official visit to the United States; which events organised by the Government they attended; whether they accompanied their Royal Highnesses on the journey between Washington DC and New York; and if he will make a statement. [31661]

Dr. Howells: The senior visits officer at our embassy in Washington was in e-mail contact with Mr. Dittmar, and met Mr. Dittmar briefly at the National Building Museum event in Washington on 3 November. Mr. Dittmar was one of the guests at the Reception held that evening at our ambassador's residence. There is no record of equivalent contact with Ms Horley.

Neither Mr. Dittmar nor Ms Horley accompanied their Royal Highnesses on the journey from New York to Washington DC or on any other journeys.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 17 November 2005 to question 26865, what presents whose costs were taken from public funds, other than those given to President and Mrs. Bush, were presented by their Royal Highnesses during their recent visit to the United States; to whom they were given; and who purchased them. [31663]

Dr. Howells: A number of gifts were presented by the Prince of Wales and the Duchess of Cornwall during the recent visit to the USA whose cost will be met from public funds. These include gifts to dignitaries and people from the host country who played a major part in the organisation of the visit, or were personally attached to their Royal Highnesses during the visit. Small gifts were also presented to Foreign and

Commonwealth Office (FCO) staff who were closely connected with the visit. It is current practice for FCO staff to be presented with such a memento, normally a signed photograph or other small object, in recognition of their efforts and hard work during such Royal visits overseas The gifts are purchased on behalf of the household of the Prince of Wales, with the cost reimbursed by the FCO. No gifts were presented to representatives of the Prince of Wales' charities.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 21 November 2005, *Official Report*, column 1488W, what the present purchased for President Bush from His Royal Highness the Prince of Wales was; who purchased it; where the present was purchased; and whether the cost was charged to *(a)* the Royal Household and *(b)* the Foreign and Commonwealth Office. [31664]

Dr. Howells: The present was a first edition of a book written by Sir Winston Churchill and was purchased on behalf of the Household of the Prince of Wales from a London book dealer. In line with normal practice the cost will be reimbursed by the Foreign and Commonwealth Office as sponsoring department.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 17 November 2005 to question 26865, who purchased the present for Mrs. Bush given by the Prince of Wales and the Duchess of Cornwall; where the present was purchased; from whom it was purchased; and whether its cost was charged to *(a)* the Royal Household and *(b)* his Department. [31665]

Dr. Howells: The present was a Highgrove planter pot, purchased on behalf of the household of the Prince of Wales from the Highgrove shop. It was paid for by the Prince of Wales personally.

Tibet

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Chinese government on human rights in Tibet. [30826]

Ian Pearson: We regularly raise human rights issues, including Tibet, with the Chinese Government. My right hon. Friend the Foreign Secretary and the Chinese Foreign Minister discussed Tibet-related issues at their meetings in New York in September 2005 and in London on 8 November 2005. Tibet was discussed at the EU-China Human Rights Dialogue in October.

Uzbekistan

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the exemption of Islam Karimov and his family from the list of Uzbek officials banned from travelling to the European Union. [30702]

Mr. Douglas Alexander: We have not ruled out adding further names to the list of those subject to the EU's visa ban. When adopting the measures on 3 October, the EU recognised the need to maintain contacts with Uzbekistan. Inclusion of the President on the list would reduce prospects of continued dialogue. The measures introduced by the EU will be reviewed in the light of developments in Uzbekistan.

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the effectiveness of the EU travel ban on Uzbek officials; and what assessment he has made of the implications for the ban of Uzbek Interior Minister Almatov's presence in Germany. [30869]

Mr. Douglas Alexander: The measures announced by the General Affairs and External Relations Council on 3 October in relation to Uzbekistan came into force on 14 November. They clearly demonstrate the profound concern of the European Union (EU) about the situation in Uzbekistan and the EU's strong condemnation of the refusal of the Uzbek authorities to allow an independent international inquiry into the events in Andizhan in May.

The EU travel ban stands. Almatov's visa was issued before the travel ban came into effect. The travel ban allows for exemptions in cases of urgent humanitarian need. The German authorities checked that the medical case for the visa was urgent before deciding to issue.

Western Sahara

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the numbers of disappeared Sahawis following continuing Moroccan illegal occupation of the Western Sahara. [30605]

Dr. Howells: The Government have not carried out their own assessment of the number of individuals who have disappeared as a result of the Western Sahara conflict. The Government's position is to encourage the parties to co-operate fully with the International Committee of the Red Cross to account for the missing. We continue to encourage the parties to take concrete measures, within their areas of responsibility, to resolve the outstanding humanitarian issues.

The Government believe it is necessary to distinguish between the humanitarian and political aspects of this dispute and that resolution of humanitarian questions should not await the conclusion of a political settlement. The Government consider that progress on humanitarian issues would help improve the atmosphere for the political process.

Zimbabwe

Lynne Feather[illegible]: To ask the Secretary of State for Foreign and [illegible]onwealth Affairs which diplomats from Zimb[illegible] been declared persona non grata in each of [illegible] years. [30547]

Mr. Stra[illegible]

Lynne Featherstone: To ask the Secretary of State for Foreign and Commonwealth Affairs on what occasions in the last five years he has raised with the Zimbabwe Government the activities of the Zimbabwe Central Intelligence Organisation in the United Kingdom; and what the result was in each case. [30548]

Mr. Straw: It is not the Government's policy to comment on intelligence matters.

Lynne Featherstone: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* diplomats and *(b)* other staff have been located at the Zimbabwe High Commission in London in each of the last five years. [30550]

Mr. Straw: From 1 January until 17 November 2005 the embassy of Zimbabwe numbered 14 diplomats. There were 14 diplomats in 2004, 13 in 2003 and 15 in both 2002 and 2001. The Foreign and Commonwealth Office (FCO) does not require diplomatic missions to inform them about numbers of locally employed staff. However, the embassy of Zimbabwe has informed the FCO that locally employed staff generally number 14 in any year.

Mrs. James: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had on the political situation in Zimbabwe. [30726]

Ian Pearson: We take every opportunity to discuss the crisis in Zimbabwe with our international partners. My right hon. Friend the Foreign Secretary most recently discussed the political situation in Zimbabwe with the United Nations Secretary General, Kofi Annan, on 30 October, and also with the South African Minister of Foreign Affairs, Dr. Zuma, at the EU South Africa Co-operation Council on 7 November.

WORK AND PENSIONS

Child Support Agency

Mr. Hood: To ask the Secretary of State for Work and Pensions how many families received child maintenance payments in the Lanark and Hamilton, East constituency in *(a)* 2002–03, *(b)* 2003–04 and *(c)* 2004–05; and if he will make a statement. [10067]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member.

Letter from Stephen Geraghty to Mr. Jimmy Hood, dated 24 November 2005:

In July you asked a Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. I am extremely sorry for the delay in providing this reply.

You asked the Secretary of State for Work and Pensions, how many families benefited from child maintenance payments in the Lanark and Hamilton East constituency in 2002–03, 2003–04 and 2004–05.

I regret that the information requested cannot be reliably broken down to the level of your constituency.

My apologies again for the delay in writing to you.

Mr. Laws: To ask the Secretary of State for Work and Pensions what the policy is of the Child Support Agency in relation to the conditions which must be satisfied before a deduction of earnings order is initiated; and if he will make a statement. [28384]

Mr. Plaskitt: When an employed non-resident parent fails to comply and make regular payments, the Child Support Agency may send a deduction from earnings order (DEO) to their employer.

Mr. Laws: To ask the Secretary of State for Work and Pensions what assessment he has made of the use of deduction of earnings orders by the Child Support Agency on employers. [30003]

Margaret Hodge: Deduction from earnings orders (DEOs) are an effective method of obtaining maintenance. In September 2005, 19 per cent. of cases had a DEO in place.

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) how many telephone calls to the Child Support Agency from people in Scotland *(a)* were received, *(b)* received an engaged tone and *(c)* were disconnected during the interactive voice response process for the period April 2002 to September 2005 for (i) all calls and (ii) calls relating to cases being progressed on the new computer system; [31093]

(2) how many calls to the Child Support Agency from people in Scotland were abandoned by *(a)* agency staff and *(b)* clients in each month since 2003. [31694]

Mr. Plaskitt: The information requested is not available.

Mr. Godsiff: To ask the Secretary of State for Work and Pensions what consideration he has given to outsourcing the functions of the Child Support Agency. [31413]

Mr. Plaskitt: The Child Support Agency's chief executive, Stephen Geraghty, is currently undertaking a root and branch review of the agency. He will report to Ministers and we will make announcements shortly.

Mr. Laws: To ask the Secretary of State for Work and Pensions if he will make a statement on progress by the Child Support Agency in dealing with its case load backlog. [19954]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty to Mr. David Laws, dated 24 November 2005:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, if he will make a statement on progress by the Child Support Agency in dealing with its caseload backlog.

Between January and September 2005, the volume of uncleared applications not cleared across both schemes fell from 362,000 to 333,000, a reduction of 8%.

Uncleared potential new scheme applications rose from 259,000 in January 2005 to 266,000 in April 2005 before falling to 261,000 in September 2005. Of all potential new scheme applications received, 35% were still awaiting clearance in September 2005, down from 46% in January.

Work will continue within the Agency to explore ways to reduce the amount of outstanding work in progress.

I hope you find this response useful.

Mr. Laws: To ask the Secretary of State for Work and Pensions what the Child Support Agency's caseload has been for each quarter of each year from 1997 to the third quarter of 2005; and if he will make a statement. [21583]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty to Mr. David Lawrs, dated 24 November 2005:

You asked the Secretary of State for Work and Pensions what the Child Support Agency's caseload has been for each quarter of each year from 1997 to the third quarter of 2005.

The Child Support Agency caseload figures are detailed in the table below (Quarterly April 1997 to date):

	Old scheme	*New scheme*	*Total*
June 1997	799,000	—	799,000
September 1997	821,000	—	821,000
December 1997	834,000	—	834,000
March 1998	893,000	—	893,000
June 1998	878,000	—	878,000
September 1998	923,000	—	923,000
December 1998	917,000	—	917,000
March 1999	947,000	—	947,000
June 1999	1,290,000	—	1,290,000
September 1999	1,319,000	—	1,319,000
December 1999	1,320,000	—	1,320,000
March 2000	1,323,000	—	1,323,000
June 2000	1,339,000	—	1,339,000
September 2000	1,338,000	—	1,338,000
December 2000	1,339,000	—	1,339,000
March 2001	1,345,000	—	1,345,000
June 2001	1,350,000	—	1,350,000
September 2001	1,367,000	—	1,367,000
December 2001	1,361,000	—	1,361,000
March 2002	1,353,000	—	1,353,000
June 2002	1,354,000	—	1,354,000
September 2002	1,349,000	—	1,349,000
December 2002	1,349,000	—	1,349,000
March 2003	1,230,000	—	1,230,000
June 2003	—	—	—
September 2003	—	—	—
December 2003	—	—	—
March 2004	—	—	—
June 2004	—	—	—
September 2004	—	—	—
December 2004	—	—	—
March 2005	965,000	452,000	1,417,000
June 2005	951,000	481,000	1,432,000
September 2005	938,000	511,000	1,449,000

Notes:

1. Caseload is defined as the number of cases that are "open" and at any stage in the process.
2. There is currently no robust management information relating to new scheme cases and old scheme cases operating on the new computer system for the years 2003 and 2004.
3. There are currently 15,000 cases being administered clerically (September 2005). It is not possible to say if these cases are included in the above figures.
4. Numbers are rounded to the nearest 1,000.

I hope you find this helpful.

Disability Living Allowance

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) how many recipients there are of *(a)* the higher rate of the mobility component, *(b)* the medium rate of the care component and *(c)* the higher rate of the care component of disability living allowance, broken down by region; [31091]

(2) what estimate he has made of the number of people who qualify for but do not receive *(a)* the higher rate of the mobility component, *(b)* the medium rate of the care component and *(c)* the higher rate of the care component of disability living allowance, broken down by region. [31092]

Mrs. McGuire: The requested information about the numbers of people receiving the higher rate of the mobility component the middle rate of the care component and the highest rate of the care component of disability living allowance is in the following table. Currently it is not possible to estimate take-up rates for the allowance. Following a recommendation in "Meeting DWP's long-term information needs on disability: a feasibility report", (DWP Research report number 267, a copy of which is available in the Library) the Department is commissioning research to test two possible approaches to establish whether it is possible to estimate take-up rates. The results of this research will be available in 2007.

Disability living allowance: numbers of recipients of (a) the higher rate mobility component; (b) the highest rate care component; and (c) the middle rate care component in Great Britain at 31 May 2005 by Government office region

Government office region	*Higher rate mobility component*	*Highest rate care component*	*Middle rate care component*
North East	102.2	34.1	44.8
North West	273.0	95.4	135.6
Yorkshire and the Humber	168.0	57.9	77.6
East Midlands	118.1	44.2	60.9
West Midlands	158.2	59.8	80.9
East of England	106.6	46.6	69.9
London	391.1	67.9	98.1
South East	132.3	59.8	91.7
South West	108.5	41.1	70.2
Wales	150.3	53.2	58.5
Scotland	183.9	72.1	100.2
Unknown	1.6	0.5	0.8
Total	1,641.9	632.7	889.2

Notes:

1. Figures are in thousands, rounded to the nearest hundred, and exclude cases where payment of the allowance is suspended; for example, because the recipient has been a NHS hospital in-patient for more than four weeks. Totals may not sum due to rounding.
2. Postcodes are used to allocate recipients to the relevant Government office region. The figures shown against "Unknown" are those for cases where the postcode is incomplete.

Discretionary Housing Payments

Mr. Marsden: To ask the Secretary of State for Work and Pensions what assessment he has made of the effectiveness of the discretionary housing payment scheme since it was introduced. [28433]

Mr. Plaskitt: Assessments of the effectiveness of the discretionary housing payment arrangements have been made in Waves 5 and 6 of the Local Authority Omnibus Surveys. These were published in 2002 as part of DWP's in-house series of reports, numbered 97 and 105 respectively.

We also commissioned research from the University of Birmingham ("Review of Discretionary Housing Payments") to review how these arrangements were working in practice and the formula for distributing the

Government's contribution to local authorities. This was published in 2003, as in-house report no. 127. All reports are available in the Library.

Mr. Marsden: To ask the Secretary of State for Work and Pensions how many discretionary housing payment awards were made in each Government office region in each year since 2001–02; and what the average award was in each region in each year. [28434]

Mr. Plaskitt: The available information, broken down by local authority, has been placed in the Library.

Mr. Marsden: To ask the Secretary of State for Work and Pensions how much funding each local authority made available in support of discretionary housing payments in 2004–05. [28435]

Mr. Plaskitt: The information is not available in the format requested. Details of the funding made available to local authorities by way of Government contribution has been placed in the Library.

Mr. Marsden: To ask the Secretary of State for Work and Pensions how much funding was made available by his Department for discretionary housing payments in each Government office region in each year since 2001–02; how much was made available by his Department in each local authority in 2004–05; and how much was returned unused in each case. [28436]

Mr. Plaskitt: The information is not available in the format requested. The local authority data for 2001–02 to 2003–04 has been placed in the Library.

Firework Displays

Mr. Hollobone: To ask the Secretary of State for Work and Pensions what assessment he has made of the Health and Safety Executive guidelines on public firework displays in relation to incidents during bonfire night celebrations in 2005. [28089]

Mrs. McGuire: The Health and Safety Executive (HSE) has published guidance on putting on firework displays safely. The guidance is kept under review and has been amended when incident investigations or research findings indicate that it is necessary to do so.

HSE is currently actively assisting Kettering borough council's investigation into the incident at Wicksteed Park. Once the results of the investigation are known HSE will consider what further action is needed—including whether the guidance requires further amendment.

HSE will be undertaking an analysis of accident reports for the firework season when these become available, and will consider whether these reveal a need to amend the guidance.

Mr. Hollobone: To ask the Secretary of State for Work and Pensions what estimate the Health and Safety Executive has made of the number of public firework displays held in England in October and November in each of the last 10 years. [30495]

Mrs. McGuire *[holding answer 21 November 2005]:* The Health and Safety Executive does not collect information about the number of firework displays held. However, the British Pyrotechnists Association estimate that there are around 5,000 professionally organised displays each year in Great Britain.

Housing Allowances/Benefits

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions what impact the introduction of local housing allowances has had on fraud in the pathfinder areas. [31587]

Mr. Plaskitt: The information is not available as estimates for fraud are not available at local authority level.

Local housing allowance evaluation reports published so far suggest that so far there has been very little impact either positive or negative on fraud in the pathfinder areas. These reports are available in the Library.

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions what percentage of claimants in the local housing allowance pathfinder areas are in arrears; and what the average percentage of arrears is in non-pathfinder areas. [31588]

Mr. Plaskitt: The first survey of local housing allowance claimants in the pathfinder areas after six months of live running found that 13 per cent. of claimants have been at least two weeks behind in paying their rent in the past 12 months. The same survey also found that in the control areas still operating the current housing benefit regime, which is used for the evaluation of the local housing allowance, 15 per cent. of housing benefit claimants in the deregulated private rented sector who receive their benefit directly have been at least two weeks behind in paying their rent in the past 12 months. This difference is not statistically significant.

Data are not collected centrally for other parts of Great Britain, and could be obtained only at disproportionate cost.

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions if he will make a statement on the lessons learned from those areas piloting the local housing allowance for the private rented sector. [30050]

Mr. Plaskitt: The effects of the local housing allowance in the original nine pathfinders remain subject to a rigorous and independent evaluation. The emerging findings from the first six to 15 months operation are encouraging and these have been published and copies are available in the Library. We will continue to assess lessons learned throughout the full evaluation period, which is due to run until the autumn of next year.

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) if he will publish a consultation paper on his Department's proposals for piloting the local housing allowance in the social rented sector; and if he will make a statement; [28792]

(2) with which *(a)* local authorities and *(b)* registered social landlords his Department has had discussions on piloting the local housing allowance in the social rented sector; [28793]

(3) what funding has been allocated by his Department to piloting the local housing allowance in the social rented sector. [28794]

Mr. Plaskitt: While we have been considering the benefits of testing a modified form of the local housing allowance in the social sector, there are at present no firm plans for doing so.

Discussions take place on a regular basis between departmental officials and representatives of local authorities and registered social landlords on policy development in this area.

Danny Alexander: To ask the Secretary of State for Work and Pensions what the local reference rent restrictions on housing benefit were for each property in each locality in flat rate local housing allowance pathfinder areas in 2002–03. [28795]

Mr. Plaskitt: The available information has been placed in the Library.

Danny Alexander: To ask the Secretary of State for Work and Pensions how many young housing benefit recipients have been subject to the single room rent restriction in each year since its introduction. [28797]

Mr. Plaskitt: The information is in the following table.

Housing benefit recipients subject to single room rent (SRR) restriction in Great Britain

May	*Number*
1997	31,600
1998	33,200
1999	24,800
2000	17,900
2001	14,400
2002	11,000
2003	10,700
2004	11,000
2005	12,000

Notes:

1. Figures have been rounded to the nearest 100.
2. Figures for any non-responding authorities have been estimated.
3. Housing benefit figures exclude any extended payment cases.
4. The SRR was introduced in October 1996.

Source:

Housing Benefit and Council Tax Benefit Management Information System Quarterly 100 per cent. caseload stock-count taken in May 1997 to May 2005.

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions if he will make a statement on the effectiveness of the standard rate of housing benefit earnings disregard in promoting work incentives. [29991]

Mr. Plaskitt: The earnings disregards and income tapers which apply in the calculation of housing benefit act as an incentive for people to take up or stay in work. The disregards are designed to achieve a balance between providing an encouragement to part-time work without creating disincentives to full-time work and independence.

The income tapers ensure that any increase in earnings is not totally lost by an equal reduction in benefits. Generally speaking, although any increase in net earnings reduces the amount of benefit payable, the claimant should see some improvement in their overall financial position.

Mr. Sheerman: To ask the Secretary of State for Work and Pensions what information is taken into account when making decisions about the levels of housing benefit. [30832]

Mr. Plaskitt: Local authorities are required to consider a variety of information when determining the amount of housing benefit a claimant is entitled to. This includes details of the claimant's household, rent, income and capital, together with any information provided by the rent officer. Authorities also need information on any non-dependents living with the claimant, as this can affect the final level of benefit due.

Jobseeker's Allowance

Mr. David Jones: To ask the Secretary of State for Work and Pensions when he proposes to review the rates of jobseeker's allowance. [29857]

Mr. Plaskitt: The rate of jobseeker's allowance is increased, along with all other social security benefits, in April each year. The amount of the increase is calculated on the basis of the Rossi index of inflation for the preceding September, with figures rounded to the nearest 5p.

Parliamentary Questions

Mr. Laws: To ask the Secretary of State for Work and Pensions when he expects to answer questions references *(a)* 18634, *(b)* 18784, *(c)* 18786 to 18789, *(d)* 19631, *(e)* 19954, *(f)* 20162, *(g)* 21432 to 21434, *(h)* 21436 to 21450, *(i)* 21452, *(j)* 21454, *(k)* 21581 to 21586, *(l)* 21590, *(m)* 21853 to 21857, *(n)* 21957 and *(o)* 21960 to 21962 tabled by the hon. Member for Yeovil. [31022]

Mr. Plaskitt: My ministerial colleagues and I have replied to 56 (of the 140) questions tabled by the hon. Member since the House returned in October. We will continue to respond to questions as quickly as is practically possible.

Pathways to Work

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what the exit figures were from *(a)* incapacity benefit and *(b)* severe disability allowance for each quarter in each Pathways to Work pilot area since their commencement. [27221]

Mrs. McGuire *[holding answer 10 November 2005]:* The available information is in the table.

IB/SDA terminations by Pathways to work area

	November 2003	*February 2004*	*May 2004*	*August 2004*	*November 2004*	*February 2005*	*May 2005*
Bridgend	2.0	2.0	2.7	2.2	2.3	2.3	1.3
Derbyshire	3.2	3.2	3.2	3.3	3.1	2.9	2.5

IB/SDA terminations by Pathways to work area

	November 2003	February 2004	May 2004	August 2004	November 2004	February 2005	May 2005
East Lancashire	2.1	2.6	2.5	2.5	2.2	2.1	1.6
Essex	3.3	3.6	3.9	4.4	3.7	4.1	2.5
Gateshead and South Tyneside	2.0	1.8	2.0	1.8	2.1	2.2	1.7
Renfrewshire	2.3	2.1	2.4	2.6	2.2	2.3	2.0
Somerset	1.0	1.0	1.3	1.0	0.7	0.9	0.8

Notes:
1. Numbers are rounded to the nearest hundred and are expressed in thousands.
2. Totals may not sum due to rounding.
3. Numbers are based on a 5 per cent. sample, and are therefore subject to a degree of sampling variation.
4. Local authorities and Pathways areas are assigned by matching postcodes against the relevant postcode directory.
5. Pathways to Work pilot areas were introduced from October 2003 (Bridgend, Renfrewshire and Derbyshire) and extended in April 2004 (Gateshead and South Tyneside, Somerset, Essex and East Lancashire). The termination figures cover quarters ending each February, May, August and November, even where Pathways areas were introduced part way through these quarters.
6. Figures for the latest quarter do not include any late notifications and are subject to major changes in future quarters.
7. Earlier quarters have been updated to include late notified terminations, including terminations for state pension.

Information Directorate 5 per cent. sample.

Pensioners

Sir Malcolm Rifkind: To ask the Secretary of State for Work and Pensions what his latest estimate is of the number of pensioners who are entitled to pension credit but who are not claiming it. [27977]

Mr. Timms: I refer the right hon. and learned Member to the written answer I gave him on 9 November 2005, *Official Report*, columns 548–49W.

Sir Malcolm Rifkind: To ask the Secretary of State for Work and Pensions what his most recent estimate is of the number of single women pensioners living in poverty. [25038]

Mr. Timms: The seventh annual "Opportunity for all" report (Cm 6673) sets out the Government's strategy for tackling poverty and social exclusion and reports progress against a range of indicators.

The following table shows the number and percentage of single women over state pension age living in households in relative and absolute low income. They show that in 2003–04 there were 700,000 single women pensioners living in households in relative low income, measured after housing costs—the number in relative low income has fallen by almost a half since 1996–97.

Relative low income, i.e. based on contemporary income thresholds

	1996–97	2003–04
After housing costs		
Number (million)	1.2	0.7
Percentage	37	21
Before housing costs		
Number (million)	0.9	0.8
Percentage	26	24

Absolute low income, i.e. based on 1996–97 income thresholds held constant in real terms

	1996–97	2003–04
After housing costs		
Number (million)	1.2	0.3
Percentage	37	11
Before housing costs		
Number (million)	0.9	0.4
Percentage	26	13

Notes:
1. Figures are for Great Britain.
2. Data are from the Family Resources Survey based on HBAI methodology.

Pensions

Ms Gisela Stuart: To ask the Secretary of State for Work and Pensions what discussions he has had with the Parliamentary Ombudsmen on the timing of her report on pensions. [31471]

Mr. Timms: None.

The Parliamentary Ombudsman's office has informed officials of the timetable for her report into the security of final salary occupational pension schemes and alleged delays in scheme wind ups. However, we have neither sought, nor had, any influence over the timing of that report. That is a matter entirely for the Ombudsman.

I understand that the Ombudsman wrote to all hon. Members on 18 November saying that she intends to publish her report before the parliamentary recess on 30 March 2006, and her reasons for that publication date.

School Crossing Patrols

Nick Herbert: To ask the Secretary of State for Work and Pensions if he will extend the higher disregards of earnings for the calculation of income support and minimum income guarantee to include school crossing patrols. [29541]

Mr. Plaskitt: All aspects of benefit payment, including earnings disregards, are kept under constant review in order to ensure the fair and equitable distribution of benefit and the best use of public funds.

Any decision to give special disregards to a particular group of claimants is a complex matter with wider implications. We currently have no plans to provide school crossing patrols with any special disregard of earnings within the various income related benefit schemes.

Recruitment of school crossing patrol is a matter for local authorities. We are not aware of any direct relationship between benefit disregards and recruitment of school crossing patrols.

Winter Fuel Payments

Danny Alexander: To ask the Secretary of State for Work and Pensions if he will make it his policy to extend winter fuel payments to people under 60 years who qualify for *(a)* middle and *(b)* higher rate of disability living allowance care component and *(c)* the higher rate of the mobility component; and if he will make a statement. [31090]

Mr. Timms: There are no plans to extend the winter fuel payment scheme to disabled people under age 60.

Help is already available through disability benefits and the disability premium in income-related benefits in recognition of the extra costs, including heating, which disabled people may face.

HEALTH

Advisory Non-departmental Bodies

Mr. Amess: To ask the Secretary of State for Health (1) if she will list those of her Department's advisory non-departmental public bodies which the Government are required *(a)* to consult prior to legislative proposals and *(b)* to publish their response to advice from; [20188]

(2) which of the advisory non-departmental public bodies sponsored by her Department have a statutory base; which *(a)* publish their advice to Government, *(b)* publish an annual report and *(c)* lay an annual report before Parliament; and whether it is under a statutory requirement in each instance; [20189]

(3) which of the advisory non-departmental public bodies sponsored by her Department *(a)* hold public meetings, *(b)* conduct public consultation exercises, *(c)* conduct consultation exercises with outside commercial interests, *(d)* publish a register of members' interests, *(e)* publish agendas for meetings and *(f)* publish the minutes of meetings; and whether it is under a statutory requirement in each case. [20190]

Jane Kennedy: The information requested on the Department's advisory non-departmental public bodies, which the Government are required to consult prior to legislative and to publish their response to advice from is shown in the table.

The Government are required to:

Name of ANDPB	*(a) consult these advisory non-departmental public bodies (ANDPBs) prior to legislative proposals*	*(b) publish their response to advice from these ANDPBs*
Herbal Medicines Advisory Committee (HMAC)	Not specifically[1]	No
Nursing and Other Health Professions Review Body	No	Yes
Patient Information Advisory Group	Yes[2]	No
Review Body on Doctors' and Dentists' Remuneration	No	Yes

[1] There are certain legislative requirements to consult the appropriate committee, and in some circumstances this is likely to be the HMAC. However, there is no explicit requirement to consult HMAC.
[2] This is the case only in respect of section 60 of the Health and Social Care Act 2001.

The information requested on which advisory non-departmental public bodies sponsored by the Department that have a statutory base; which publish their advice to Government, publish an annual report and lay an annual report before Parliament is shown in the table.

The advisory non-departmental public bodies (ANDPBs) all have a statutory base and publish their advice to Government, publish an annual report and lay an annual report before Parliament as shown in the following table:

Name of ANDPB	*(a) Publish their advice to Government*	*If so whether under a statutory requirement*	*(b) Publish an annual report*	*If so whether under a statutory requirement*	*(c) Lay an annual report before Parliament*	*If so whether under a statutory requirement*
Administration of Radioactive Substances Advisory Committee	No	No	No	No	No	No
British Pharmacopoeia Commission (BPC)	No	No[1]	Yes	Yes	Yes	Yes
Gene Therapy Advisory Committee	No	No	Yes	Yes	No	No
Herbal Medicines Advisory Committee	No[2]	No	Yes[3]	Yes	Yes[3]	Yes
Independent Review Panel for Borderline Substances	No	No	Yes	No	Yes	No
Joint Committee on Vaccination and Immunisation	No	No[1]	Yes	No	No	No
Medicines Commission (will be abolished on 30 October 2005)	Yes	No	Yes	No	Yes	Yes
National Joint Registry Steering Committee	No	No	Yes	No	No	No
Patient Information Advisory Group	Yes	No	Yes	No	No	No
The Advisory Board on the Registration of Homeopathic Products	No	No	Yes	Yes	Yes	Yes
UK Xenotransplantation Interim Regulatory Authority	No	No	No	No	No	No
Unrelated Live Transplant Regulatory Authority	No	No	No	No	No	No

[1] The statutory role of the BPC is to cause to be published the British Pharmacopoeia. This is not published for Government but for sale to the public and industry.
[2] This has not specifically been decided yet, and the answer provided is based on precedent with other advisory committees.
[3] The Herbal Medicines Advisory Committee Order establishing HMAC came into force on 30 October 2005. The answer provided refers to planned future activity.

Note:
ANDPBs may have a statutory base either by provision being made for their existence in law, or by the law putting an obligation on the Secretary of State which is then partly undertaken by an ANDPB set up by the Secretary of State for the purpose.

The information requested on advisory non-departmental public bodies that hold public meetings, conduct public consultation exercise, conduct consultation exercises with outside commercial interests, publish a register of members' interests, publish agendas for meetings and publish the minutes of meetings is shown in the table.

The following advisory non-departmental public bodies (ANDPBs):

Name of ANDPB	(a) Hold public meetings	Whether under a statutory requirement	(b) Conduct public consultation exercises	Whether under a statutory requirement	(c) Publish a register of members' interests	Whether under a statutory requirement

n/a = Not available.
[1] These bodies are under review and not active. They have no memberships.
[2] This has not yet been decided.
[3] The Herbal Medicines Advisory Committee Order establishing the HMAC came into force on 30 October 2005. The answer provided refers to planned future activity.
[4] This has not specifically been decided yet, and the answer provided is based on precedent with other advisory committees.
[5] The NJRSC will hold such meetings in future.
[6] The NJRSC will publish such a register in future.
[7] The IRP intends to introduce these measures next year.

Agenda for Change

Mr. Gerald Howarth: To ask the Secretary of State for Health (1) how many NHS staff due back pay under the Agenda for Change programme had been paid their full entitlement to such pay at 31 October; and how many claims are outstanding; [27690]

(2) how many hospital trusts have paid their staff all the back pay due to them under the Agenda for Change; and if she will instruct hospital trusts to pay interest on monies due in October 2004 which have not been paid. [27691]

Mr. Byrne: Information on payment of back pay due to the implementation of Agenda for Change is not held centrally.

Ambulance Service

John Cummings: To ask the Secretary of State for Health how many assaults there have been on ambulance service staff in the course of their duties in the County of Durham in the last five years. [25698]

Mr. Byrne: The information requested is not held by specific location. The NHS Security Management Service is currently in the process of compiling and validating the first ever accurate figures for the levels of physical assault on national health service staff across England.

Estimated violent or abusive incidents in NHS ambulance trusts for 2000–01, 2001–02 and 2002–03 is shown in the table. Information relating to the number of physical assaults for NHS ambulance trusts in England for 2004–05 will be published shortly.

Ambulance trust name	Violent incidents 2002–03	2001–02	2000–01
Avon Ambulance Service NHS Trust	163	31	17
Bedfordshire and Herts Ambulance and Paramedic Service NHS Trust	75	48	45

Source:
Department of Health

Mr. Jenkins: To ask the Secretary of State for Health how many assaults were recorded on ambulance staff in *(a)* Tamworth and *(b)* Staffordshire while on duty in each of the last five years; and how many prosecutions resulted in each case. [27484]

Ms Rosie Winterton: The information requested is not held by specific location. The NHS Security Management Service is currently in the process of compiling and auditing the first ever accurate figures for the levels of physical assault on national health service staff across England. Last month figures for physical assaults in mental health and learning disability settings

were released. These amounted to 43,309 for 2004–05. Figures for the acute, primary care and ambulance services nationally will be released shortly.

Information about the number of prosecutions resulting from reports of assaults on ambulance staff was not collected centrally for the period 2001–03. The number of prosecutions identified involving assaults on ambulance staff in England for 2004–05 totalled 100.

Andrew Rosindell: To ask the Secretary of State for Health how many ambulances there were in the NHS in each year since 1995. [26469]

Mr. Byrne: This information is not collected centrally.

Each ambulance service should plan to provide appropriate resources to meet local demand. This may include resources in addition to traditional ambulance provision, for example in using rapid response vehicles and motorbikes, as well as utilising staff such as community paramedics or emergency care practitioners. Patients who need a traditional ambulance response will continue to receive one. The fleet mix will vary across the country depending on operational and geographical requirements.

Mr. Marsden: To ask the Secretary of State for Health how many assaults were recorded on ambulance service staff *(a)* in Blackpool and *(b)* in each ambulance service area while on duty in each of the last five years; and how many prosecutions resulted in each case. [25239]

Mr. Byrne: The information requested is not held by specific location. The NHS Security Management Service is currently in the process of compiling and validating the first ever accurate figures for the levels of physical assault on NHS staff across England. Figures for the acute, primary care and ambulance services nationally will be released in the near future.

Estimated violent or abusive incidents in NHS ambulance trusts for 2000–01, 2001–02 and 2002–03 is shown in the table. Information relating to the number of physical assaults for NHS ambulance trusts in England for 2004–05 will be published shortly.

Information about the number of prosecutions resulting from reports of assaults on ambulance staff was not collected centrally for the period 2001–03. The number of prosecutions identified involving assaults on ambulance staff in England for 2004–05 totalled 100.

Ambulance trust name	*Violent incidents* 2002–03	2001–02	2000–01
Avon Ambulance Service NHS Trust	163	31	17
Bedfordshire and Herts Ambulance and Paramedic Service NHS Trust	75	48	45

Source:
Department of Health

Ashford and St. Peter's NHS Trust

Mr. Philip Hammond: To ask the Secretary of State for Health what assessment she has made of the financial performance of Ashford St Peters' NHS trust over the last five years for which figures are available, with particular reference to the requirement for NHS trusts to break even over a five year period. [28616]

Caroline Flint: The information requested is shown in the following table.

Final audited position for Ashford St. Peters' national health service trust for the period 2000–01 to 2004–05.

£000

	Surplus/(deficit)
2000–01	-4,846
2001–02	-1,409
2002–03	-1,328
2003–04	5
2004–05	61

Authority Boundaries

John Mann: To ask the Secretary of State for Health how many cross-county hospital trusts there are; and how many she expects there to be in 20 years time. [17775]

Mr. Byrne: The information requested is not centrally available.

Avian Influenza

Mr. Hollobone: To ask the Secretary of State for Health if she will arrange to meet the Secretary of State for Environment, Food and Rural Affairs weekly to co-ordinate the Government's efforts to assess and tackle the threat of avian influenza coming to the UK and its potential mutation into a human influenza virus. [23708]

Ms Rosie Winterton [*holding answer 1 November 2005*]: There are already well established networks of cross government working on dealing with the threat from avian influenza and its possible mutation into a human influenza virus which may be capable of causing a pandemic. Officials in all of the relevant government Departments, including the Department for

Environment, Food and Rural Affairs, are co-operating closely and meeting on a regular basis. Cross government action is co-ordinated through the Civil Contingencies Secretariat in the Cabinet Office, and a Cabinet committee. These arrangements are kept under constant review.

Mr. Roger Williams: To ask the Secretary of State for Health what assessment she has made of the risks of avian influenza spreading to humans through the *(a)* burial and *(b)* burning in the open air of poultry carcases. [24643]

Ms Rosie Winterton: It is not proposed to dispose of poultry carcases either by burial or burning in the open air. Under the Department of Environment Food and Rural Affairs exotic animal disease generic contingency plan, the hierarchy for disposal is incineration, rendering and licensed commercial landfill.

As the virus is destroyed by the high temperatures of incineration and rendering and would not survive for long in the environment of a commercial landfill site, these methods of dispersal are appropriate for the protection of human health. The Department has not therefore made any specific assessment of the health risks to people of these dispersal methods.

Mr. Drew: To ask the Secretary of State for Health what plans she has to make antiviral therapies available to those who handle poultry. [24695]

Ms Rosie Winterton: When an outbreak of highly pathogenic avian influenza (HPAI) is confirmed, poultry workers on the infected farm, together with vets, contractors and others who might be at risk due to direct close contact with diseased birds will be offered the antiviral therapy, oseltamivir, as soon as possible after disease confirmation.

The stockpile of antivirals is currently being held centrally, while it is being built up. Arrangements have been put in place to make them available to those who need it within 48 hours. Antiviral drugs will be made available and administered through the Health Protection Agency's (HPA) local health protection units in collaboration with the National health service in England. Similar arrangements will apply in Wales and Scotland.

From March 2006, the antivirals will be stored regionally. These arrangements for their storage and distribution in England will be the subject of a tendering exercise conducted by the NHS Purchasing and Supply Agency. It will be open to pharmaceutical wholesalers to respond to that tender. Any non-pharmaceutical items stockpiled are covered by standard NHS storage and distribution arrangements. Devolved administrations are responsible for their own storage and distribution arrangements.

Further information is available on the Department of Environment, Food and Rural Affairs and HPA websites.

Rosie Cooper: To ask the Secretary of State for Health how much *(a)* influenza vaccine and *(b)* H5N1 vaccine has been allocated to the Cheshire and Merseyside Strategic Health Authority area; and if she will make a statement. [27845]

Mr. Byrne: Information on influenza vaccine allocations is not held centrally or by the Cheshire and Merseyside Strategic Health Authority or the individual primary care trust. Each general practice orders the amount of influenza vaccine they require based on their practice list and the number of people they have in vulnerable risk groups.

A tender has been issued for H5N1 vaccine, which could be offered to health care workers in the event of a pandemic. This vaccine is not currently available but the plan is to hold stocks centrally when it is delivered.

Breast Cancer

Mr. Lansley: To ask the Secretary of State for Health pursuant to her statement at the Breakthrough Breast Cancer event of 25 October, how she plans to communicate to primary care trusts her desire to see Herceptin offered to women suffering early stage breast cancer before it is granted a product licence by the Medicines and Healthcare Products Regulatory Agency; and whether prescribers will be liable for any adverse incidents if they prescribe Herceptin unlicensed. [23973]

Jane Kennedy: The position on the prescribing of Herceptin has been communicated to the national health service via the chief executive's bulletin of 10 November 2005. This bulletin is available on the Department's website at www.dh.gov.uk and is aimed at all primary care trusts.

In all cases, we would expect a clinician, before deciding whether to prescribe Herceptin in any particular case, to discuss the potential benefits and harmful effects of Herceptin with each individual patient and to have documented that discussion as they should do when prescribing non-licensed indications. It is not possible to make a blanket statement about the determination of liability in the case of individual adverse events, but we have no reason to believe that a clinician acting in this way would incur any specific additional liability.

Cataract Operations

Tim Loughton: To ask the Secretary of State for Health how many cataract operations have taken place in each of the last five years. [19017]

Ms Rosie Winterton: The information requested is shown in the table.

Number of cataract operations, 1999–2000 to 2003–04

	Finished consultant episodes
1999–2000	216,741
2000–01	245,239
2001–02	252,979
2002–03	276,350
2003–04	301,664

Note:
A finished consultant episode is defined as a period of admitted patient care under one consultant within one health care provider. The figures do not represent the number of patients, as a person may have more than one episode of care within the year.

CCT Costs

Mr. Lansley: To ask the Secretary of State for Health what the *(a)* total cost to a GP registrar was of obtaining a Certificate of Completion of Training (CCT) and *(b)* maximum length of time from application to award of a CCT was as at (i) 1 September and (ii) 1 October; what assessment she has made of the impact of this change on the recruitment of general practitioners; and if she will make a statement. [27529]

Mr. Byrne *[holding answer 11 November 2005]:* The Postgraduate Medical Education and Training Board (PMETB) total charge to a general practitioner registrar for a certificate of completion of training (CCT) is £250. This is a single, once-and-for-all payment.

Since PMETB assumed the responsibility for award of CCTs on 30 September 2005, the board had obviously not issued any CCTs by Saturday 1 October.

Looking at the number of CCTs in general practice issued by PMETB since that date, the maximum length of time taken to award a CCT, once all the required documentary evidence had been submitted, was 12 working days. The average for this activity is 11 working days.

If PMETB's award is based on a previous joint committee for postgraduate training for general practice (JCPTGP) assessment there is no additional cost. However, I understand that the Royal College of General Practitioners (RCGP) has decided to charge an enrolment fee of £350 for doctors now entering GP training so that it can advise and monitor doctors' progress through training and carry out the necessary work to make recommendations to PMETB on the issue of a certificate. This is consistent with the practices of other medical Royal Colleges for this activity.

The CCT was not awarded before 30 September 2005 when PMETB took up its legal functions. The CCT replaced the certificate of prescribed experience previously awarded by the JCPTGP. Although we do not know the maximum length of time the JCPTGP took to award its certificate, we understand that the average length of time was 10 working days from receipt of all the documentary evidence.

The change from the JCPTGP to the PMETB has had absolutely no impact on the recruitment of general practitioners. There were some initial problems when functions were transferred to PMETB at the beginning of October but these are being resolved and at the present time there are no complete applications over 11 days old awaiting the award of a CCT.

Chase Farm NHS Hospital Trust

Mr. Walker: To ask the Secretary of State for Health on what date were *(a)* her Department and *(b)* Chase Farm NHS Hospital Trust first notified that Chase Farm NHS Trust would be required to make annual savings of approximately £16 million; and if she will make a statement. [26127]

Jane Kennedy: Barnet and Chase Farm Hospital National Health Service Trust has a requirement to achieve a balanced financial position and it is for the trust to assess the level of savings it needs to make to achieve that end in the context of its overall financial plan.

It is the role of the strategic health authority to deliver both overall financial balance for their local health communities and to ensure each and every body achieves financial balance.

Cheshire and Merseyside SHA

Rosie Cooper: To ask the Secretary of State for Health (1) how much has been spent by the Cheshire and Merseyside strategic health authority on management consultants in each of the last five years; [28430]

(2) what projects in the Cheshire and Merseyside strategic health authority *(a)* have required and *(b)* will require the assistance of external management consultants in 2005–06. [28431]

Mr. Byrne: The information requested is not held centrally.

Child Vaccinations

Rosie Cooper: To ask the Secretary of State for Health what the take-up rate is of child vaccinations in West Lancashire. [27706]

Mr. Byrne: The information requested can be found in NHS Immunisation Statistics, England: 2004–05, a copy of which is available on the Department's website at: www.dh.gov.uk/assestRoot/04/11/96/50/04119650.pdf.

Mr. Lansley: To ask the Secretary of State for Health whether she plans to review the provisions in the General Medical Services contract relating to the incentives to provide childhood vaccinations. [28666]

Caroline Flint: The new general medical services contract review is being undertaken on behalf of the Government by NHS Employers, which negotiates changes with the general practitioners' committee (GPC) representing GPs. A sub-group has been formed specifically to discuss vaccinations and immunisations. The sub-group includes departmental officials, NHS Employers and members of the GPC. Any changes to the provisions that are agreed through the sub-group will be implemented in 2007.

Chiropractic Treatment

Mr. Lidington: To ask the Secretary of State for Health if she will make a statement on the Government's policy on funding chiropractic treatment under the NHS. [28363]

Mr. Byrne: Decisions on the provision and funding of chiropractic treatment under the national health service are a matter for local NHS organisations, as they are best placed to decide on the health needs of their local populations.

Communication Staff

Mike Penning: To ask the Secretary of State for Health how many staff were employed in communication roles in *(a)* strategic health authorities,

(b) primary care trusts and *(c)* other NHS trusts in England at (i) 31 March and (ii) 30 September; and if she will make a statement. [24662]

Mr. Byrne: The information requested is not collected centrally.

Community Hospitals

Steve Webb: To ask the Secretary of State for Health pursuant to the oral statement by the Minister of State for Health Services on 2nd November, on earmarked funding for community hospitals, which community hospitals have so far benefited from the funding; how the funding is being allocated; and how much of the funding has been allocated so far. [25803]

Mr. Byrne: The Government's commitment to community hospitals will be progressed through developing a clear vision of the community hospital of the 21st century, and £100 million of public capital funding will be invested to support implementation.

Officials are currently undertaking detailed scoping work to consider the range of services that a modern community hospital could offer and the outcomes of the "Your Health, Your Care, Your Say" consultation will feed into this. The future direction of policy on community hospitals is likely to be indicated in the forthcoming White Paper on health and social care.

Dr. Murrison: To ask the Secretary of State for Health when the last review of community hospital provision took place *(a)* nationally and *(b)* in each county; and if she will make a statement. [26387]

Mr. Byrne: Local health care provision, including services provided by community hospitals, is a matter for primary care trusts and strategic health authorities in consultation with the local population. No national review has taken place.

Dr. Murrison: To ask the Secretary of State for Health (1) what assessment she has made of the contribution of community hospitals in the delivery of health care in each strategic health authority area; and if she will make a statement; [26388]

(2) whether the £100 million investment in community hospitals, announced earlier in the year, will be provided exclusively as capital funding; and if she will make a statement; [26389]

(3) how many community hospitals will be built with the £100 million investment announced earlier in the year; and if she will make a statement. [26390]

Mr. Byrne: The Government have identified an initial public capital investment of £100 million to build, rebuild, or refurbish 50 community hospitals. Officials are currently undertaking detailed scoping work to set out the vision of the modern community hospital and the outcomes of the "Your Health, Your Care, Your Say" consultation will feed into this. Until this work is completed, it is not possible to estimate how many community hospitals will be built. The future direction of policy on community hospitals is likely to be indicated in the forthcoming White Paper on health and social care.

Continuing Care

Mr. Holloway: To ask the Secretary of State for Health whether individuals who are deemed eligible for high band nursing care are automatically eligible for NHS continuing care. [28642]

Mr. Byrne: No. An assessment of needs will establish eligibility for nursing care, and at what level. If that assessment establishes that the individual meets the criteria for continuing care, then that will be put in place instead.

Dacorum Primary Care Trust

Mike Penning: To ask the Secretary of State for Health whether representations from members of the public to her Department concerning proposals to alter healthcare provision by *(a)* West Hertfordshire Hospital Trust and *(b)* Dacorum Primary Care Trust will be considered as part of the Your Health, Your Care, Your Say consultation exercise. [25751]

Ms Rosie Winterton: Representations from members of the public concerning proposals to alter healthcare provision were not considered as part of the Your Health, Your Care, Your Say consultation as the reconfiguration of services at the West Hertfordshire Hospital Trust and Dacorum Primary Care Trust were included in a local consultation known as "Investing in Your Health" which ran from March to June 2003.

Dartford, Gravesham and Swanley Primary Care Trust

Mr. Holloway: To ask the Secretary of State for Health what treatments recommended by the National Institute for Health and Clinical Excellence Dartford, Gravesham and Swanley Primary Care Trust does not *(a)* fund and *(b)* offer to patients. [28629]

Caroline Flint: The information requested is not collected centrally.

Departmental Assets

Mike Penning: To ask the Secretary of State for Health if she will list the 10 most valuable *(a)* movable and *(b)* immovable assets owned by her Department. [27381]

Mr. Byrne: The following is the list of the top 10 moveable and top 10 immoveable fixed assets in the books of the Department. The amounts are stated at net current value as at 31 October 2005.

Most valuable moveable and immovable assets owned by Department of Health

Description of asset	£
Immoveable fixed assets	
Land Warneford Hospital	30,900,000
Whittingham Hospital	27,900,000
Leybourne Grange Hospital	25,000,000
Richmond House Building	19,467,914
Cane Hill Hospital	15,000,000
High Royds Hospital	15,000,000
Killingbeck Hospital	15,000,000
Richmond House Land	13,438,082
Male Homes Site (St. Margarets)	11,000,000
Yardley Green Hospital	10,912,913
Moveable fixed assets	
Software Licences from Microsoft	75,583,418

Most valuable moveable and immovable assets owned by Department of Health

Description of asset	£
Local Service Provider North West	57,310,442
Spine Project-the core NHS Care Records Service to ensure highly available and highly resilient live Systems delivered in several phases	44,835,458
Spine Project-the core NHS Care Records Service to ensure highly available and highly resilient live Systems delivered in several phases	21,250,000
Software licences—Oracle—National Programme For Information Technology	21,197,152
Spine Project—the core NHS Care Records Service to ensure highly available and highly resilient live Systems delivered in several phases	20,887,632
Electronic staff records 2004–05	18,200,000
National software licences from Microsoft	17,290,037
Skipton House fit out enhancement carpets, blinds, signage, catering/servery equipment	3,650,258
1,300 personal computers (PCs), monitors installation-periodical refresh of PCs in Quarry House	2,522,930

Notes:
1. Immoveable assets are land and buildings and any plant and machinery that form an integral part of the land and buildings (such as central heating and air conditioning systems, for example).
2. Moveable assets are any asset that is not an immoveable asset.

Source:
Department of Health Fixed Asset Register

Departmental Land (Tamworth)

Mr. Jenkins: To ask the Secretary of State for Health what *(a)* land and *(b)* property her Department owns in Tamworth constituency. [26169]

Jane Kennedy: The Department does not own any operational property in Tamworth. The Secretary of State for Health owns a strip of land at the former St. Editha's hospital site.

Departmental Spending

Steve Webb: To ask the Secretary of State for Health when she expects her Department's spending as a share of national income to equal or exceed the European average; and if she will place in the Library the calculations that form the basis of her answer. [27344]

Mr. Byrne *[holding answer 11 November 2005]:* The latest available data for average European Union health spending as a percentage of gross domestic product (GDP) is 8.8 per cent. in 2003–04. The total United Kingdom health spending as a percentage of GDP is forecast to exceed this figure in 2006–07.

Diabetes

Mr. Hollobone: To ask the Secretary of State for Health whether the National Institute for Health and Clinical Excellence will consider the findings of the Canadian Expert Drug Advisory Committee prior to issuing guidance in relation to the long-acting insulin analogue Lantus. [28723]

Jane Kennedy: The National Institute for Health and Clinical Excellence (NICE) published a technology appraisal, "Guidance on the use of long-acting insulin analogues for the treatment of diabetes—insulin glargine" in December 2002. NICE are due to begin reviewing the guidance shortly, and will take account of all available evidence, including international evidence.

Drug Addicts (West Lancashire)

Rosie Cooper: To ask the Secretary of State for Health how many addicts were prescribed diamorphine in West Lancashire in each of the last five years. [27834]

Mr. Byrne: The information requested is not held centrally. However, information on the number of prescriptions issued for diamorphine since 2001 is shown in the table.

Number of prescriptions issued for diamorphine, 2001–04

	Number of prescriptions
2001	338
2002	318
2003	195
2004	263

Notes:
1. It is not known how many of theses prescriptions were for addicts nor how many patients these items correspond to.
2. Records for prescriptions for addicts issued under the Misuse of Drugs Act on Form FP10 (MDA) indicate that only one has been issued in West Lancashire Primary Care Trust, in 2004.

Emergency Services

Mr. Ruffley: To ask the Secretary of State for Health what the average ambulance response time in attending 999 calls in *(a)* East Anglia and *(b)* England has been in each year since 1997. [25072]

Mr. Byrne: The information requested is not centrally collected in the required format.

The data that the Department collects on ambulance response times for the East Anglian Ambulance Service and for all ambulance services in England is shown in the table. It is only possible to provide this data from the point at which each ambulance trust introduced call prioritisation.

Further relevant information can be found in tables 5a, 5b, 6 and 7 of the statistical bulletin, "Ambulance services, England: 2004–05", which is available in the Library and on Department's website at:

www.dh.gov.uk/assetRoot/04/11/36/79/04113679.pdf

Ambulance response times in East Anglia and England 2000–01 to 2004–05

Percentage of category A calls responded within:	*East Anglian*	*England*
8 minutes		
2000–01	53.0	n/a
2001–02	63.8	70.8
2002–03	75.2	74.6
2003–04	76.1	75.7
2004–05	76.5	76.2
14/19 minutes		
2000–01	95.7	n/a
2001–02	95.7	94.1
2002–03	96.9	94.6
2003–04	96.6	93.9
2004–05	96.2	96.0

n/a = Data not available, as call prioritisation technology not introduced.

Eye Health Services

Mr. Baron: To ask the Secretary of State for Health how many patients have been treated with the use of

photodynamic therapy for wet age-related macular degeneration in the last 12 months; and whether photodynamic therapy is uniformly available throughout England. [28213]

Ms Rosie Winterton: *[holding answer 14 November 2005]*: In 2003–04, there were 3,262 finished admission episodes in the National Health Service in England where the primary diagnosis was degeneration of macular and posterior pole and an eye operation was carried out. We do not hold information on the use of photodynamic therapy in these treatments. All primary care trusts have put arrangements in place to fund treatment for patients who have either the wholly classic form of age-related macular degeneration or the predominantly classic form.

Notes:

Finished admission episodes

A finished admission episode is the first period of in-patient care under one consultant within one health care provider. The figures do not represent the number of in-patients, as a person may have more than one episode of care within the year.

Diagnosis (primary diagnosis)

The primary diagnosis is the first of up to 14 (7 prior to 2002–3) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.

Diagnosis codes used for wet age-related macular degeneration (Degeneration of macula and posterior pole, ICD-10 code H353) and eye operations (OPCS-4 = C01-C86).

Foreign Travel Vaccinations

Mr. Lansley: To ask the Secretary of State for Health how many vaccinations for diseases associated with foreign travel have been provided free of charge on the NHS in each year since 1997–98; and at what cost in each year. [28698]

Caroline Flint: The information requested is not held centrally.

Rosie Cooper: To ask the Secretary of State for Health how many general practitioners per head of population there have been in West Lancashire in each of the last five years. [27660]

Mr. Byrne: The information requested is shown in the table.

General Medical Practitioners (excluding retainers and registrars)[1] per 100,000 head of population for Cumbria and Lancashire SHA and West Lancashire PCT, 1999–2004

Number (headcount)

	1999	*2000*	*2001*	*2002*	*2003*	*2004*
Q13 Cumbria and Lancashire						
All Practitioners (excluding retainers and registrars)[1]	1,106	1,105	1,118	1,145	1,169	1,168
Population	1,899,003	1,901,743	1,905,060	1,910,378	1,919,041	1,929,653
All Practitioners (excluding retainers and registrars)[1] per 100,000 head of population	58.2	58.1	58.7	59.9	60.9	60.5
Of which						
5f3 West Lancashire PCT						
All Practitioners (excluding retainers and registrars)[1]	n/a	n/a	58	61	61	60
Population[2]	n/a	n/a	108,480	108,718	108,994	n/a
All Practitioners (excluding retainers and registrars)[1] per 100,000 head of population	n/a	n/a	53.5	56.1	56.0	n/a

n/a = Data not applicable

[1] General Medical Practitioners (excluding retainers and registrars) includes Contracted GPs , GMS Others and PMS Others. Prior to September 2004 this group included GMS Unrestricted Principals, PMS Contracted GPs, PMS Salaried GPs, Restricted Principals, Assistants, Salaried Doctors (Para 52 SFA), PMS Other, Flexible Career Scheme GPs and GP Returners.

[2] Population data for 2004 PCTs will not be available until November 2005.

Note:

Data as at 1 October 1999 and 30 September 2000–04

NHS Health and Social Care Information Centre General and Personal Medical Services Statistics

2001 ONS Population Census

General Practitioners

Andrew Rosindell: To ask the Secretary of State for Health what the average waiting time to see a general practitioner was in each year since 1986. [26463]

Mr. Byrne: The requested data are not collected or held centrally. Since 2001, data have been collected each month from primary care trusts and general practitioners on the availability of access to a general practitioner. These data show whether access is or is not available in line with the NHS Plan target that patients should be able to be seen by a primary care doctor within 48 hours but do not provide information on actual waiting times. The data show that since December 2004, over 99 per cent. of patients are seeking a primary care doctor within this time scale.

Andrew Rosindell: To ask the Secretary of State for Health what steps the Government are taking to increase the number of general practitioners in the NHS. [26464]

Mr. Byrne: There are more general practitioners (GPs), 32,418, in the national health service than ever before. Since 1997 the number of GPs increased by 4,372 (15.6 per cent.) and the number of GP registrars has increased by 1,138 (84.7 per cent.).

As part of the new foundation programme, the first stage of postgraduate medical training, more trainees will have a placement in a primary care setting—55 per cent. in 2006–07, rising to 90 per cent. in later years.

Gershon Review

Dr. Cable: To ask the Secretary of State for Health how many full-time equivalent employee reductions the

Department has made as a result of the Gershon review; what cost savings relating to IT projects were achieved; what value of efficiency savings *(a)* were achieved in 2004–05 and *(b)* are expected to be achieved in 2005–06; and if she will make a statement. [24329]

Mr. Byrne [*holding answer 3 November 2005*]: The Department's change programme commenced in March 2003, prior to the publication of the Gershon review. Our Gershon commitment however is based on delivery of this programme. We confirmed in our 2005 Departmental report that gross full time equivalent headcount for the core Department had reduced from 3,390 in March 2003 to 2,050 in March 2005. We will update progress against our Gershon commitment in our autumn performance report.

We have not as yet declared any achieved cost savings relating to information technology projects as Connecting for Health applications have only recently commenced rollout phase. Our calculation of efficiency gains recognises that benefits accrue from the integrated delivery of technology, process and people change. Future gains therefore will not wholly differentiate technology-only efficiency benefits Our measurement methodology will be set out in an updated efficiency technical note, due to be published on the Department's website at the end of November.

We have not yet declared efficiency gains for 2004–05. These gains and expected further progress in 2005–06 will be set out in our autumn performance report due to be presented to Parliament in December.

Health Service Reconfiguration

Steve Webb: To ask the Secretary of State for Health if she will list each of the requests that she has received for contested health service reconfigurations to be referred to the Independent Reconfiguration Panel since the IRP was created; and whether the request *(a)* was accepted, *(b)* was registered and *(c)* is awaiting decision in each case. [27399]

Mr. Byrne *[holding answer 11 November 2005]:* As at 10 November 2005, there have been eight referrals to the Secretary of State which is shown in the table. The overview and scrutiny committee right of referral is to the Secretary of State who may choose to seek advice from the independent reconfiguration panel (IRP). Since its establishment, the IRP has provided formal advice to the Secretary of State on one case—in East Kent. Of the seven referrals subsequently received, three were determined by Secretary of State without recourse to the IRP, three are pending a decision, and in one case the proposals were withdrawn by the primary care trust.

Referrals to the Secretary of State seeking advice from the IRP

	Location	*Referred by*	*Date of referral*	*Outcome*
1	East Kent (Margate/Canterbury/Ashford)	South East Kent CHC Canterbury and Thanet CHC	April 2002	Secretary of State's decision to refer to IRP
2	Wiltshire (Kennet and North Wiltshire)	Wiltshire county council HOSC	October 2004	Proposals withdrawn by PCT in favour of wide-ranging review of community services
3	Fareham and Gosport (Hants)	Hampshire county council HOSC	January 2005	Secretary of State's decision to uphold NHS decision without referral to IRP
4	South West London (Sutton/Epsom/ St. Helier)	London borough of Merton HOSC	March 2005	Secretary of State's decision pending
5	Bristol (Southmead/Frenchay)	South Gloucestershire HOSC	July 2005	Secretary of State's decision to uphold NHS decision without referral to IRP
6	Wirral (Wirral and Wallasey)	Wirral Metropolitan borough council HOSC	July 2005	Secretary of State's decision to uphold NHS decision without referral to IRP
7	Lincolnshire (cross county)	HOSC for Lincolnshire	July 2005	Secretary of State's decision pending
8	Surrey (Guildford and Waverley)	Surrey county council HOSC	October 2005	Secretary of State's decision pending

Health Trust Guidance

Mr. Waterson: To ask the Secretary of State for Health what guidance she has issued to health trusts on the priority they should give to *(a)* reducing financial deficits and *(b)* meeting clinical targets. [17404]

Mr. Byrne: National health service organisations are required to deliver both their statutory financial duties and those national targets that apply to that organisation.

NHS trusts have a statutory duty to break even. This requires them to match income and expenditure over a three-year period, exceptionally this can be extended to a five-year period.

Primary care trusts have a statutory duty to live within the resources allocated to them. They are required to achieve financial balance each and every year.

"National Standards, Local Action", published in July 2004 and available in the Library and on the Department's website at www.dh.gov.uk, sets out what is expected of national health service and social care organisations for the three financial years 2005–06 to 2007–08 in terms of national priorities and health care standards.

Hearing Aids

Anne Moffat: To ask the Secretary of State for Health how many people in England have received digital hearing aids through the NHS in each year since 1997. [28840]

Mr. Byrne: This information requested is not held centrally. The modernising hearing aid services programme estimates that approximately 500,000 people have now been fitted with digital hearing aids.

Hepatitis C

Mr. Lansley: To ask the Secretary of State for Health what plans she has to introduce opportunistic screening for hepatitis C at genito-urinary medicine clinics. [26002]

Caroline Flint: The Department published guidance for the national health service on hepatitis C testing in July 2004. Genito-urinary medicine clinics are one of the health care settings in which opportunistic testing for those at increased risk of hepatitis C takes place. The British Association of Sexual Health and HIV published guidance on the management of hepatitis A, B and C in September 2005. This includes advice on hepatitis C testing in genito-urinary medicine clinics, and is available on the Association's website at: www.bashh.org/guidelines/2005/hepatitis_abc__final_0905.pdf

High Blood Pressure

Mr. Holloway: To ask the Secretary of State for Health what steps her Department is taking to educate the public about the dangers of high blood pressure. [28646]

Caroline Flint: It is essential that individuals across the population be made aware of the risks associated with high blood pressure and the importance of knowing their blood pressure numbers. For the last four years the Department has funded the Blood Pressure Association's (BPA) Know Your Numbers campaign. The national blood pressure testing week, which took place between 12 and 18 September this year, is the high point of the BPA's campaign and provides an opportunity for the public to attend a blood pressure testing station located in their local community. Individuals are also offered free information on prevention, management and treatment of the condition to prevent the onset of heart disease and stroke.

The most important factor in putting up blood pressure, alongside diet, physical inactivity and being overweight, is salt intake. In September 2004, the Food Standards Agency launched a high profile consumer awareness campaign on salt. The second phase of the campaign, focusing on highlighting the 6 grams daily intake target and encouraging people to read labels to become aware of where their salt intake is coming from, started in October this year.

HIV/AIDS

Mr. Lansley: To ask the Secretary of State for Health what the size of the AIDS support grant has been in each year since it was established; and what her policy is on the AIDS support grant. [26010]

Caroline Flint: The size of the AIDS support grant in each year since its introduction is shown in the following table. The AIDS support grant continues to be an effective tool in assisting local authority HIV social care provision to those living with the virus, their partners and families.

Aids support grant 1989–90 to 2005–06

£ million

	AIDS support grant amount
1989–90	7.0
1990–91	9.8
1991–92	10.2
1992–93	15.3
1993–94	12.4
1994–95	12.9
1995–96	13.4
1996–97	13.7
1997–98	13.7
1998–99	13.7
1999–2000	15.5
2000–01	16.0
2001–02	16.5
2002–03	16.5
2003–04	16.5
2004–05	16.5
2005–06	16.5

Hospital Doctors' Pay

Mr. Wills: To ask the Secretary of State for Health what the cost of hospital doctors' pay was in *(a)* 1997, *(b)* 1998, *(c)* 1999, *(d)* 2000, *(e)* 2001, *(f)* 2002, *(g)* 2003 and *(h)* 2004; and what estimate she has made for 2005. [24485]

Mr. Byrne: The information from 1997–98 to 2004–05 is shown in the table.

Doctors' salaries 1997–98 to 2004–05, England

	Total (£)
1997–98	2,894,787,597
1998–99	3,170,563,499
1999–2000	3,520,060,863
2000–01	3,975,751,343
2001–02	4,543,044,274
2002–03	5,045,570,671
2003–04	6,044,061,370
2004–05	6,372,000,000

Note:
These are the total England figures for medical staff working for all national health service trusts. The figures include locums.

Mr. Wills: To ask the Secretary of State for Health what estimate she has made of the projected cost of hospital doctors' pay in *(a)* 2006, *(b)* 2007, *(c)* 2008, *(d)* 2009 and *(e)* 2010. [24486]

Mr. Byrne: The projected cost of hospital doctors' pay in 2005–06 is £6.923 billion. The cost for 2006–07 and beyond will depend on future pay settlements and the recommendations of the doctors' and dentists' pay review body.

Hospitals

Mr. Lansley: To ask the Secretary of State for Health how much funding has been granted from *(a)* her Department and *(b)* NHS budgets to procure artworks for hospitals in 2005–06. [23989]

Jane Kennedy: The Department has made grants to two organisations:

to the Kings Fund for its programme, "Enhancing the Healing Environment" where two grants have been made, totalling £940,000:

NHS Estates Agency—£250,000

National Director for Mental Health—£690,000.

There has been Section 64 funding in 2005–06 to the Charity Paintings in Hospital. This funding was made to support the charity's general running costs. A further grant of £2,500 was made to the same charity by the then NHS Estates Agency to fund work on the charity's website. A key part of the charity's work is their loan scheme by which they loan works of art to hospitals, hospices and general practitioner surgeries.

The purpose of these charitable organisations is to improve the environment in which patients are treated. None of these grants were made for the specific purpose of procuring artwork.

National health service trusts provide information annually to the Department on the amount they spend on artwork. This information is provided on a voluntary basis and the figures for that spend in 2005–06 are not yet available.

Mr. Letwin: To ask the Secretary of State for Health how charges for telecommunications from NHS hospitals by patients are regulated. [27330]

Jane Kennedy: All charges for telecommunications from National health service hospitals by patients are regulated by the Office of Communications, the independent regulator and competition authority for the United Kingdom communications industries, with responsibilities across television, radio, telecommunications and wireless communications services. Charges for bedside television and telephone services are subject to the terms of national licences granted to the providers of these services and their agreements with NHS trusts.

Household Products (Health Effects)

Norman Baker: To ask the Secretary of State for Health what recent research she has conducted into the impact upon human health of the use of *(a)* bleach, *(b)* chemicals in sanitary towels and related items, *(c)* home cleaning products, *(d)* detergents and *(e)* spray furniture polish; what advice has been given to the public relating to their use; and if she will make a statement. [27814]

Caroline Flint: The Department has not conducted any research on the impact on human health of bleach, chemicals in sanitary towels and related items, home cleaning products, detergents, and spray furniture polish.

It is the duty of manufacturers and suppliers to adequately test ingredients and products to identify any potential hazards to humans. There is a statutory duty to relay to consumers information on hazards to human health on product labels. Products where a biocidal claim has been made, for example, in respect of certain uses of bleach would be regulated under the Biocides Products Directive (EC/98/8) which require substantial amounts of testing for potential hazards to health to be undertaken and assessed through an European Union wide regulatory system.

Human Fertilisation and Embryology Act

Mr. Amess: To ask the Secretary of State for Health if she will make a statement on the operation of *(a)* section 11 and *(b)* schedule 3 of the Human Fertilisation and Embryology Act 1990. [28199]

Caroline Flint: The Human Fertilisation and Embryology Authority (HFEA) has operated the licensing system, specified in section 11 of the Human Fertilisation and Embryology Act 1990, effectively. I am also satisfied that the consent requirements contained in schedule three of the Act have been effective in protecting patients, ensuring they receive the fertility treatments and services to which they have agreed.

As part of our review of the Human Fertilisation and Embryology Act 1990, our public consultation document, issued in August 2005, seeks views on a number of issues including the model of regulation and consent. Any comments received on these issues will be taken into account in deciding if any changes are required to current legislation.

Influenza

Sandra Gidley: To ask the Secretary of State for Health pursuant to her oral answer of 17 October 2005, *Official Report*, column 632W, on avian influenza, what definition of healthcare worker she plans to use for these purposes; and which categories of worker will be eligible for priority supplies of antivirals. [21145]

Ms Rosie Winterton: The contingency plans referred to in the question relate to a possible flu pandemic among humans, not avian flu, which is a disease which primarily affects birds.

Sandra Gidley: To ask the Secretary of State for Health what discussions she has had with pharmaceutical wholesalers with regard to stockpiling and distribution of *(a)* antiviral drugs and *(b)* protective masks and clothing. [21220]

Ms Rosie Winterton: The stockpile of antiviral drugs is currently being held centrally, while it is being built up. Arrangements have been put in place to make them available to those who need it within 48 hours. Antiviral drugs will be made available and administered through the Health Protection Agency's (HPA) local health protection units in collaboration with the national health service in England (similar arrangements will apply in Wales and Scotland).

From March 2006, the antivirals will be stored regionally. These arrangements for their storage and distribution in England will be the subject of a tendering exercise conducted by the NHS Purchasing and Supply Agency. It will be open to pharmaceutical wholesalers to respond to that tender. Any non-pharmaceutical items stockpiled are covered by standard NHS storage and distribution arrangements. Devolved Administrations are responsible for their own storage and distribution arrangements.

Lynne Featherstone: To ask the Secretary of State for Health if she will place in the Library a copy of the guidance given to general practitioners regarding avian influenza; and if she will make a statement. [25284]

Ms Rosie Winterton: Avian influenza is a disease which mainly affects birds. There have been infrequent cases in some people who are closely exposed to infected poultry. To date (1 November 2005) there have been 122 cases of the H5N1 strain of avian influenza in people in South East Asia, 62 of whom have died. There is concern that the virus could evolve into a strain which

readily infects people and is easily transmissible between people, resulting in a pandemic virus. This is why we are planning for a possible human flu pandemic.

A copy of the information pack sent to general practitioner's on pandemic flu, which also contains information on avian influenza, is available in the Library.

More information on avian influenza can be found at: www.defra.gov.uk/animalh/diseases/notifiable/disease/avianinfluenza.htm and at www.hpa.org.uk/infections/topics_az/influenza/flu.htm

Steve Webb: To ask the Secretary of State for Health what steps will be taken to ensure that those infected in an influenza pandemic *(a)* are identified at the earliest possible opportunity and *(b)* receive anti-viral treatment as quickly as possible. [26578]

Ms Rosie Winterton [*holding answer 8 November 2005*]: Clinical guidelines for health professionals regarding the diagnosis and treatment of those infected during an influenza pandemic were published on 19 October.

The United Kingdom operational framework for antiviral medicines, which provides information to enable local National Health Service organisations to develop plans for the storage and distribution of antiviral medicines was published on 21 September. These local plans will need to set out local arrangements to ensure that the antivirals are prescribed to the patients who need them as soon as possible while minimising the risk of spreading the virus through contact with other patients.

Both of these documents can be found on the Department's website at www.dh.gov.uk.

Rosie Cooper: To ask the Secretary of State for Health what percentage of the at risk population of West Lancashire are expected to be inoculated against existing strains of influenza by the end of 2005; and if she will make a statement. [27704]

Mr. Byrne: Under the new inspection system national targets are no longer set. Targets are now a local decision. In the Chief Medical Officer's letter to health professionals dated 25 July, he said that continued improvement of uptake rates across all groups should be encouraged.

Rosie Cooper: To ask the Secretary of State for Health what contingency planning has been undertaken in West Lancashire for an influenza pandemic; and if she will make a statement. [27844]

Mr. Byrne: As part of their statutory duties, primary care trusts (PCTs) should ensure that arrangements are in place for the provision of primary care services in the event of an influenza pandemic. Local capacity planning should include arrangements with all primary care contractors including general medical services, personal medical services, PCT-led medical services as well as alternative providers of medical services. In order to meet the likely volume of work during a pandemic, PCTs should discuss with their general practitioners the non-essential work which can safely be put on hold. Specific arrangements will also be needed with the out-of-hours providers for individual PCTs.

Steve Webb: To ask the Secretary of State for Health whether her Department plans for information and advice to be distributed to the public in the event of an influenza pandemic via *(a)* leaflets to be posted to households and *(b)* direct advertisements to the public. [22119]

Ms Rosie Winterton: Full details of the communication strategy in the event of an influenza pandemic is included in annex I of "The UK Influenza Pandemic Contingency Plan".

Mr. Lansley: To ask the Secretary of State for Health what steps she is taking to support the development of a rapid diagnostic test for use in the event of a pandemic influenza outbreak. [23010]

Ms Rosie Winterton: Rapid diagnostic tests are available for influenza, but these do not distinguish between different strains of influenza. The possible use of rapid diagnostic tests in an influenza pandemic has been considered by the influenza pandemic scientific advisory group. They have advised that the currently available tests would be of little use in a pandemic and more work is needed to develop an appropriate test. The group has undertaken to keep this under review.

We are also working with the Health Protection Agency to ensure that diagnostic services are in place across the country to enable accurate identification of influenza strains.

Information Technology

Gregory Barker: To ask the Secretary of State for Health what plans she has to fine private companies for cost over-runs on government procured information technology systems. [27241]

Mr. Byrne [*holding answer 10 November 2005*]: Contracts to the value of £6.2 billion over 10 years were let to deliver the national programme for information technology. All the systems being deployed as part of the national programme are proceeding on budget. No additional costs have been incurred.

Junior Doctors

Dr. Fox: To ask the Secretary of State for Health how many junior doctors her Department expects to be displaced from training posts by the transition to modernising medical careers. [28237]

Mr. Byrne: The number of training posts for junior doctors is determined by the needs of patients and the national health service. There is no intention to reduce the number of posts as a result of the proposed modernising medical careers changes to the structure of training programmes.

Literacy and Numeracy

Mr. Gibb: To ask the Secretary of State for Health what steps she is taking to promote uptake of the national tests in adult literacy and numeracy among employees of her Department. [23410]

Jane Kennedy: The Department has not taken specific steps to promote the uptake of national tests. While the Department has not promoted the uptake of these qualifications, policies are in place to support people should they identify a need to do so.

Mr. Gibb: To ask the Secretary of State for Health what proportion of new recruits to her Department do not have a level 2 qualification in English and mathematics. [23775]

Jane Kennedy: The Department does not collect this type of data. The Department operates a competency based recruitment system. Candidates are required to demonstrate specific skills and competencies for a particular role.

Members' Surgeries (NHS Premises)

Kitty Ussher: To ask the Secretary of State for Health if she will instruct Burnley, Pendle and Rossendale primary care trust, when deciding whether its premises can be used for an hon. Member's surgery, to take account of the use of the Chai Centre for a ministerial visit in August. [27596]

Mr. Byrne: This is a matter for the Burnley, Pendle and Rossendale primary care trust.

Mental Health

Mr. Streeter: To ask the Secretary of State for Health what assessment she has made of the quality of mental health services in Plymouth; and if she will make a statement. [27400]

Ms Rosie Winterton *[holding answer 11 November 2005]:* The Department has made no direct assessment of the quality of mental health services in Plymouth. In England, the Healthcare Commission is responsible for assessing and reporting on the performance of national health service organisations. The commission published a clinical governance review of Plymouth Teaching Primary Care Trust in October 2004 and the trust is currently implementing an action plan to address the issues identified by the commission in close collaboration with the South West Peninsula Strategic Health Authority.

In the 2005 performance ratings, Plymouth Teaching PCT was awarded two stars as a provider of mental health services.

Additionally, in order to help local services benchmark their progress in implementing the national service framework for mental health with the other mental health service providers across the country, the National Institute for Mental Health in England conducts an annual assessment every autumn and shares the findings with trusts and strategic health authorities.

Tim Loughton: To ask the Secretary of State for Health how many whole-time equivalent mental health nurses have been recruited in each of the last five years. [28230]

Mr. Byrne: Information on the numbers of qualified full-time equivalent qualified nurses working in psychiatry in each of the last five years is shown in the table. Information on the number of staff recruited each year is not available centrally.

NHS hospital and community health services: qualified nursing midwifery and health visiting staff working in the psychiatry area of work as at 30 September each specified year—England

Psychiatry	*Full-time equivalents*
2000	35,804
2001	36,973
2002	38,176
2003	39,383
2004	41,585

Note:
Full-time equivalent figures are rounded to the nearest whole number.
Source:
Health and Social Care Information Centre Non-Medical Workforce Census

Tim Loughton: To ask the Secretary of State for Health who the members are of the code of practice working group set up to implement a workable model of mental health tribunals proposed in the draft Mental Health Bill; when it has met; and whether she plans to publish its report. [28047]

Ms Rosie Winterton: The Department has not set up a code of practice working group. We assume the hon. Member is referring to the tribunal project group (TPG) which is an advisory group that is answerable to the mental health legislation implementation group. The TPG's current membership is:

David Lye—Department of Health (Chair)

Professor Jeremy Cooper—Mental Health Review Tribunal, Southern Regional Chairman

Lucy Scott-Moncrieff—The Law Society

Professor Genevra Richardson—Council on Tribunals

Penny Letts—Council on Tribunals

Patrick Reeve—Legal Services Commission

Laura MacMillen—Legal Services Commission

Dr. Pearl Hettiaratchy—Mental Health Review Tribunal Member General Medical Council Royal College of Psychiatrists

Gareth Bartley—National Assembly for Wales

Yens Marsen-Luther—National Institute for Mental Health in England (NIMHE)

Jim Symington—NIMHE, London Development Centre

Keith Nieland—NIMHE, South East Development Centre

Officials from the Department and the Department of Constitutional Affairs also attend meetings of the group. The TPG will meet for the fifth time on 17 November, and it is scheduled to meet monthly. It is not within the remit of the TPG to produce a report. It will advise Ministers, through project managers, on the overall direction and management of the tribunal project.

Midwifery

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 22 March 2005, Official Report, column 762W, to the hon. Member for

Billericay on midwifery what progress is being made in investigating the feasibility of using the Community Midwifery Model in the NHS. [18126]

Mr. Byrne: I refer the hon. Member to the reply I gave on Monday 21 November 2005, *Official Report*, column 1720W.

Sandra Gidley: To ask the Secretary of State for Health what the age breakdown of midwives practising in the NHS in England is. [26479]

Mr. Byrne: Information on the numbers of midwives employed in the national health service in England by age-band is shown in the table. The number of midwives training places is increasing and in 2004–05, 2,374 students entered training to become a midwife, 44 per cent. more than in 1996–97.

NHS Hospital and Community Health Services: Registered midwives employed in the NHS as at 30 September 2004 in England by age-band

	Headcount
All staff	24,844
25 and under	671
25 to 29	1,707

Multiple Chemical Sensitivity

Jon Trickett: To ask the Secretary of State for Health (1) what recent representations she has received from sufferers of multiple chemical sensitivity; and if she will make a statement; [27604]

(2) what guidance she has issued to general practitioners in the diagnosis of multiple chemical sensitivity; [27605]

(3) what recent discussions she has had with healthcare professionals on the treatment of multiple chemical sensitivity; [27608]

(4) how many people in the West Yorkshire area have been diagnosed with multiple chemical sensitivity since 1990. [27631]

Mr. Byrne: I am not aware of having received any representations from people alleging that they suffer from multiple chemical sensitivity.

The Department has not issued guidance to, or had discussions with, healthcare professionals on this. The national health service provides a range of services for people suffering from allergies based on an individual assessment of need. This includes, for those with complex cases requiring special facilities for the investigation and management of their condition, six specialist centres run by allergists.

The Department does not collect data on people diagnosed with multiple chemical sensitivity.

NHS Commissioning

Mr. Gerrard: To ask the Secretary of State for Health if she will list the primary care trusts proposed for merger or reconfiguration in plans submitted by strategic health authorities under Commissioning a Patient-led NHS; and how she expects each primary care trust will be affected. [21093]

Mr. Byrne: The information requested is available on the NHS Office of the Strategic Health Authorities' website at:

www.osha.nhs.uk/publicpage.aspx?id_Content=618

The process for considering and deciding on these proposals was set out in the written ministerial statement on 18 October 2005, *Official Report*, columns 49–50WS.

NHS Finance

Mr. Lansley: To ask the Secretary of State for Health what the total wage bill has been in the NHS in each year since 1997 *(a)* in total and *(b)* broken down by staff group in (i) nominal and (ii) real terms; and what proportion of the overall NHS budget this represented in each year. [18336]

Mr. Byrne: The information requested is shown in the tables.

Table 1: Absolute and proportion of National Health Service expenditure on staff and pay (nominal)

[1] Effect of HMT technical change (discount rate from 6 per cent. to 3.5 per cent. on provisions) increased the total Department spend by about £2 billion in 2001–02. This did not affect the purchasing power of the Department. However, leads to a 2 per cent. reduction in the percentage of total expenditure on staff and pay.
[2] Estimated.

[1] Estimated.

Rosie Cooper: To ask the Secretary of State for Health what the spending of the *(a)* Cheshire and Merseyside and *(b)* Cumbria and Lancashire strategic health authorities has been in each of the last three years. [27705]

Mr. Byrne: The information requested is shown in the table.

Expenditure by the relevant strategic health authorities (SHAs) for 2002–03, 2003–04 and 2004–05

(£000)

SHA	*2002–03*	*2003–04*	*2004–05*
Cheshire and Merseyside	208,150	158,778	182,356
Cumbria and Lancashire	436,695	424,989	65,022

Notes

1. Expenditure is taken from audited health authority summarisation forms which are prepared on a resource basis and therefore differ from cash allocations in the year. The figures have not been adjusted for inflation.
2. Figures have been adjusted to eliminate expenditure which would be double counted where an authority acts as a lead in commissioning health care or other services.
3. The majority of expenditure of the SHAs is for education, training and research.
4. Reductions in expenditure between 2002–03 and 2003–04 are caused by the further transfer of commissioning from strategic health authorities to primary care trusts.
5. Cumbria and Lancashire SHA. In 2004–05, the student grants unit expenditure (£369 million in 003–04) was transferred to the NHS Pensions Agency.

Source

Audited summarisation forms of the SHAs.

Mr. Swire: To ask the Secretary of State for Health if she will make a statement on the annual expenditure by her Department per capita in England relative to the figure in *(a)* Wales, *(b)* Scotland and *(c)* Northern Ireland. [27767]

Mr. Byrne: Expenditure by per head of population in the National Health Service (strategic health authorities and primary care trusts) in England is £1,309.54. Comparable figures for Wales and Scotland are a matter for the devolved administrations. While the institutions in Northern Ireland are dissolved, responsibility for comparable figures rests with ministers in the Northern Ireland Office.

NHS Finance (Surrey and Sussex)

Laura Moffatt: To ask the Secretary of State for Health how many independent financial investigations have been conducted at Surrey and Sussex NHS Trust in the last five years. [28904]

Caroline Flint: Surrey and Sussex Strategic Health Authority (SHA) has advised that there have been two independent financial investigations at Surrey and Sussex Healthcare National Health Service Trust in the last year.

Surrey and Sussex SHA commissioned a review from Alan Meekings, Management Consultant for Landmark Consulting, which was submitted to the SHA in December 2004 and discussed at the SHA Board meeting in February 2005.

In addition, the Audit Commission published a public interest report into the finances at Surrey and Sussex Healthcare NHS Trust in March 2005.

NHS Land Sales

Mr. Maude: To ask the Secretary of State for Health what the *(a)* charges and *(b)* receipts from NHS land sales have been each year since 1990. [25255]

Mr. Byrne: Details of national health service land sales are not held centrally.

However the table shows, drawn from the annual accounts of the various bodies concerned, receipts from the sale of all fixed assets by family health service authorities, health authorities, strategic health authorities, primary care trusts and national health service trusts in England from 1994–95 (the earliest date what information is available in this format). Details of charges relating to land sales are not held centrally.

(£000)

	Receipts from all fixed assets
1994–95	202,258
1995–96	254,493
1996–97	129,756
1997–98	252,795
1998–99	191,380
1999 2000	290,961
2000–01	390,869
2001–02	766,411
2002–03	1,078,294
2003–04	397,975
2004–05	455,625

NHS Pensions Agency

Mr. Lansley: To ask the Secretary of State for Health what action she is taking to ensure the NHS Pensions Agency collects comprehensive evidence on student bursary payments for the purposes of the auditing of its accounts. [27537]

Mr. Byrne: The NHS Pensions Agency is currently undertaking an internal audit to check that all personal files for students in receipt of an national health service bursary contain all the necessary documentation to support payment of the bursary.

NHS Professionals

Anne Milton: To ask the Secretary of State for Health how many NHS trusts have joined the NHS Professionals scheme to date for the provision of *(a)* nurses and *(b)* doctors. [25824]

Mr. Byrne: NHS Professionals is providing services to 136 national health service trusts. Of these 64 trusts have the nurses' service only; 60 doctors service only; and 12 have both.

Anne Milton: To ask the Secretary of State for Health how many *(a)* shifts and *(b)* hours for (i) nurses and (ii) doctors needed cover over the past 12 months; and how many in each category were filled by NHS Professionals. [25826]

Mr. Byrne: Data on number of shifts and hours for doctors and nurses needing cover is not collected centrally.

NHS Reconfiguration

Mr. Gordon Prentice: To ask the Secretary of State for Health if she will extend the consultation period on the proposed reconfiguration of strategic health authorities and primary care trusts. [19155]

Mr. Byrne: Strategic health authority proposals for reconfiguration will be assessed to see whether they meet the criteria originally stated in the "Commissioning a Patient-Led NHS" document, and this process should be complete in time for the three-month public consultation to begin in December. There are no plans to change these arrangements.

Sandra Gidley: To ask the Secretary of State for Health how many strategic health authorities have gone out to tender for private management of the proposed new primary care trusts; and if she will make a statement. [19208]

Mr. Byrne: As part of the proposals for primary care trust (PCT) reconfiguration, one strategic health authority (SHA) has proposed to procure an external management team to run one of their newly proposed PCTs. However, this proposal will not be considered during the forthcoming public consultation as it is for the new PCTs, not the current SHAs, who should decide how best to manage their responsibilities after reconfiguration.

NHS Staff

Mr. Lansley: To ask the Secretary of State for Health how many compulsory redundancies of NHS staff there have been in each year since 1997–98, broken down by staff group. [23107]

Mr. Byrne: The information requested is not collected centrally.

Peter Law: To ask the Secretary of State for Health what steps she is taking to mitigate stress suffered by NHS employees. [28883]

Mr. Byrne: NHS Employers are responsible for supporting the National Health Service to mitigate stress suffered by NHS employees in England. They are working closely with the Health and Safety Executive to provide guidance and support. This includes the development of a new campaign, "Stress. How are you doing?", which was launched on 2 November 2005.

Rosie Cooper: To ask the Secretary of State for Health how many employees aged over 70 years are working in the national health service in West Lancashire. [27702]

Mr. Byrne: As at 30 September 2004, there were no employees aged over 70 years working in the national health service in the West Lancashire constituency area.

NHS Suppliers

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 31 October 2005, *Official Report*, column 846W, on NHS suppliers, what procedures are in place to ensure her Department is informed of representations to NHS organisations from suppliers to the NHS on the issue of the payment; and if her Department will remind *(a)* NHS trusts, *(b)* primary care trusts and *(c)* NHS professionals of their requirement to pay 95 per cent. of undisputed invoices within contract terms or 30 days where no terms have been agreed. [26090]

Mr. Byrne: Current guidance is included in the manual for accounts and is available on the Department's finance manual website at www.info.doh.gov.uk/doh/finman.nsf

One of the functions of strategic health authorities is to monitor the performance of individual national health service bodies, report this to the Department and work with poor performing organisations to achieve and maintain a level of payment performance consistent with Government accounting regulations and the better payment practice code.

NHS Trusts

Mr. Philip Hammond: To ask the Secretary of State for Health what guidance has been given to NHS trusts on priority to be attached to *(a)* balancing the budget and *(b)* achieving their waiting list targets. [18592]

Mr. Byrne: "National Standards, Local Action" was published in July 2004 and is available in the Library and on the Department's website at www.dh.gov.uk/assetRoot/04/08/60/58/04086058.pdf It sets out what is expected of national health service and social care organisations for the three financial years 2005–06 to 2007–08 in terms of national priorities and health care standards. The guidance covers expectations in relation to waiting times and finance.

Overseas Doctors

Dr. Fox: To ask the Secretary of State for Health what information she has issued to overseas doctors being recruited to the NHS about the effect on the number of training posts of planned changes under modernising medical careers. [28238]

Mr. Byrne: Information on working in the national health service is available at www.nhscareers.nhs.uk. Specifically, information on modernising medical careers is available at www.mmc.nhs.uk. This information is updated regularly and currently contains information on foundation programmes available across the United Kingdom in 2006.

There is no intention to reduce the number of posts as a result of the proposed modernising medical careers changes to the structure of training programmes.

Parliamentary Questions

Tim Farron: To ask the Secretary of State for Health when she will reply to Question 24618, tabled on 31 October; what the reason is for the delay in replying; and if she will make a statement. [27856]

Mr. Byrne [*holding answer 11 November 2005*]: I refer the hon. Member to the reply I gave on Monday 21 November, *Official Report*, column 1723W.

Primary Care Trusts

Mike Penning: To ask the Secretary of State for Health what criteria are used by each strategic health authority for allocating funds to primary care trusts. [24827]

Mr. Byrne: Revenue allocations are made directly to primary care trusts (PCTs), not by strategic health authorities. These allocations are made on the basis of the relative needs of their populations. A weighted capitation formula is used to determine each PCTs target share of available resources.

The components of the formula are used to weight each PCTs crude population according to their relative need (age, and additional need) for health care and the unavoidable geographical differences in the cost of providing health care (market forces factor).

Dr. Murrison: To ask the Secretary of State for Health what assessment she has made of the impact the reform of primary care trusts will have on community hospitals. [26386]

Mr. Byrne: It is too early to make an assessment of the impact that changes to primary care trusts will have on community hospitals. Policy work is in progress on the range of services that a modern community hospital could offer and the outcomes of the "Your Health, Your Care, Your Say" consultation will influence this.

Mr. Andrew Smith: To ask the Secretary of State for Health if she will list strategic health authorities which are proposing the outsourcing of the management and delivery of the commissioning function of primary care trusts. [19489]

Mr. Byrne [*holding answer 19 October 2005*]: As part of the proposals for primary care trust (PCT) reconfiguration, one strategic health authority (SHA) has proposed to procure an external management team to run one of their newly proposed PCTs. However, this proposal will not be considered during the forthcoming public consultation as we believe it is the new PCTs, not the current SHAs, who should decide how best to manage their responsibilities after reconfiguration.

Radiographers

Steve Webb: To ask the Secretary of State for Health, for what reason Agenda for Change arrangements place both junior radiographers and senior II radiographers in the same salary band; and what assessment she has made of the implications of this policy on recruitment and retention in the profession. [25535]

Mr. Byrne: Under Agenda for Change, the basic pay that staff receives reflects the knowledge, responsibility, skills and effort required for their job as measured by the new national health service job evaluation scheme, rather than their previous job title. Agenda for Change also has generally fewer pay bands than the Whitley system it replaces. For these reasons, there is no guarantee that staff in different Whitley grades in the past will be in different pay bands under Agenda for Change.

In the case of radiography, there have been concerns about the wording in some national job profiles which assist trusts in assimilating radiographers to the new pay system. The job evaluation group, a sub-group of the NHS Staff Council, is currently working with the Society of Radiographers to revise the band five and band six national profiles.

This work cannot guarantee that senior II radiographers will be in a higher pay band than basic grade radiographers. It will however help ensure that assimilation decisions are appropriate. In addition, where trusts consider that pay levels are insufficient to recruit or retain staff, they are allowed to pay recruitment and retention premia of up to 30 per cent. of basic pay. For these reasons, it is not anticipated that the move to the new system will result in recruitment problems in the profession.

Ambulance Service

Mr. Hepburn: To ask the Secretary of State for Health how many people involved in road accidents have died before the arrival of an ambulance in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [26570]

Mr. Byrne: The information requested is not centrally collected.

Sexual Health

Mr. Evans: To ask the Secretary of State for Health how many people under 16 years attended a sexual health clinic in *(a)* Ribble Valley and *(b)* Lancashire in the last year for which figures are available. [29042]

Mr. Byrne *[holding answer 16 November 2005]*: Sexual health services are provided at genito-urinary medicine (GUM) clinics and community contraception clinics. For community contraception clinics data is not collected by primary care trusts but is available for first contacts at clinics. The data shows that there were 5,000 first contacts by young people aged under 16 within the Cumbria and Lancashire Strategic Health Authority (SHA) in 2004-05.

For GUM clinics the number of attendances are not available by age group, but age group data are collected for a selection of diagnoses and a total of 85 diagnoses[1] were made in young people aged under 16 in 2004. The data is for diagnoses made at GUM clinics within the Cumbria and Lancashire SHA and not by the patients' area of residence. For confidentiality reasons, this data is only routinely published at SHA level.

Note:

[1]Diagnosed conditions: gonorrhoea, herpes, genital warts and chlamydia.

Smoking

Mr. Lansley: To ask the Secretary of State for Health when the National Institute for Health and Clinical Excellence plans to publish its public health programme guidance on smoking cessation. [23961]

Jane Kennedy: This is a matter for the National Institute for Health and Clinical Excellence (NICE). Information about the current work programme of NICE is available on its website at www.nice.org.uk. I understand that NICE's public health intervention guidance on smoking cessation is scheduled to be issued for publication in March 2006 and that its broader public health programme guidance on smoking cessation is scheduled for publication in July 2007.

Tim Loughton: To ask the Secretary of State for Health what assessment she has made of the financial impact of a smoking ban in public places on bingo clubs. [28287]

Caroline Flint: A regulatory impact assessment (RIA) has been published alongside the Health Bill. The RIA contains estimates of cost and benefits of legislation to end smoking in enclosed public places and work places. Economic analyses of every sub-sector of the economy that might be affected were not undertaken.

A copy is available in the Library.

Tim Loughton: To ask the Secretary of State for Health on what basis the regulatory impact assessment accompanying the Health Bill has calculated that a ban on smoking in public places will have no disproportionate impact on *(a)* smokers with mental illness, *(b)* black and ethnic minority smokers and *(c)* single mothers in deprived areas. [28288]

Caroline Flint: Calculations of impact in the regulatory impact assessment (RIA) are made on the basis of the best evidence available.

A partial RIA on smoke free proposals in the Choosing Health White paper was published in November 2004. This was updated and published as part of the consultation run by the Department in June 2005. A final version was published alongside the Health Bill in October 2005.

Tim Loughton: To ask the Secretary of State for Health what the smoking prevalence for *(a)* adults and *(b)* minors in England has been in each of the last 10 years, broken down by sex. [28446]

Caroline Flint: The prevalence of cigarette smoking amongst adults and minors are shown in the tables. Until 2000, questions on smoking were asked biannually in the general household survey.

For minors, we have provided data for persons aged 11 to 15, referred to as pupils in the relevant publication.

Prevalence of cigarette smoking among adults (persons aged 16 and over) by sex in England: 1992 to 2003

Percentage

	Men	Women	All persons

NHS Health and Social Care Information Centre: Smoking, drinking and drug use among young people in England in 2004.

Social Care Services

Mr. Lansley: To ask the Secretary of State for Health what steps she is taking to improve access to community health and social care services for those who experience difficulty in understanding English. [23104]

Ms Rosie Winterton: The national health service is founded on the principles of equal access and equal treatment for all. Providing communications support to service users is not an optional extra; this is driven by the requirement to comply with legislation and supporting guidance. The Disability Discrimination Act 1995, the Race Relations (Amendment) Act 2000 and the Human Rights Act 1998 make it imperative for public organisations, including primary care trusts, other NHS bodies and local councils, to provide language and other communications support to individuals seeking help. Various pieces of guidance and advice issued to the NHS and social care in recent years have emphasised this point. In addition, since October 2004, NHS Direct has ensured that all callers who have difficulty in speaking English, and prefer to speak in other languages, can have a telephone interpreter on the line during a consultation. The service is available 24 hours a day seven days a week.

Tobacco Advertising

Mr. Amess: To ask the Secretary of State for Health if (1) she will make a statement on the operation of the Tobacco Advertising and Promotion Act 2002; [28195]

(2) how many *(a)* males and *(b)* females have been (i) charged and (ii) convicted in England and Wales of offences under Sections (A) 2 and (B) 3 of the Tobacco Advertising and Promotion Act 2002 in each year since 2003; [28196]

(3) how many *(a)* males and *(b)* females relied on a defence under Section 5 of the Tobacco Advertising and Promotion Act 2002 in the last year for which figures are available. [28197]

Caroline Flint: The Tobacco Advertising and Promotion Act 2002 has been operating very effectively in the almost three years that it has been in force. It has had a significant impact in reducing smoking. The Act is enforced by Trading Standards Officers who do regular monitoring of local businesses. According to Trading Standards Officers, compliance with the Act appears to

be very good. The Advertising Standards Authority also monitors advertisements. There have been no prosecutions and there has been only one formal caution, and no prosecutions under the Act.

Vanguard Proposals

Mr. Streeter: To ask the Secretary of State for Health when she expects her Department to reach a decision on the Vanguard proposals for additional health care provision in Plymouth. [27401]

Ms Rosie Winterton *[holding answer 11 November 2005]:* The Department is currently in the process of reviewing this case. Once this review is complete we will be in a position to make a decision and communicate this to the trust.

VAT

Mike Penning: To ask the Secretary of State for Health whether value added tax is charged on supplies to the NHS; and if she will make a statement. [27984]

Mr. Byrne: Value added tax (VAT) is chargeable on supplies to the national health service in accordance with the normal VAT regulations. Irrecoverable VAT is taken into account in NHS funding.

Waiting Times

Mr. Maude: To ask the Secretary of State for Health what the average waiting time was in each of the last seven years for *(a)* an in-patient and *(b)* an out-patient admission in (i) Horsham and (ii) England. [25718]

Mr. Byrne: The median waiting times for in-patient and out-patient admission for each of the last seven years at Horsham Chanctonbury primary care trust, previously West Sussex health authority and England are shown in the following table.

Estimated average time patients have been waiting for elective admission, March 1998 to March 2005. Commissioner based.

	Median waiting time (weeks)		
March	*Horsham and Chanctonbury PCT*	*West Sussex HA*	*England*

Source:
Department of Health form QM08R

Andrew Rosindell: To ask the Secretary of State for Health what the average waiting time in accident and emergency departments is for each NHS trust in each year since 1997. [25908]

Mr. Byrne: Information is not collected on the average waiting time in accident and emergency (A and E) departments. Since quarter two, 2002–03 information on the number and percentage of all attenders who were admitted, transferred or discharged within four hours of arrival at A and E has been collected and published quarterly. This information is shown in the table and is also available on the Department's website at: www.performance.doh.gov.uk/hospitalactivity/data_requests/index.htm.

Average waiting times in A and E

	Quarter	*Percentage of patients who spent less than four hours in A and E*

Your Health, Your Care, Your Say

Dr. Murrison: To ask the Secretary of State for Health how many "Your Health, Your Care, Your Say" consultation meetings were organised by each strategic health authority; and if she will make a statement. [26383]

Mr. Byrne: The information requested is not held centrally. Some strategic health authorities coordinated and others left this to primary care trusts.

HOME DEPARTMENT

Under-age Drinking

Andrew Rosindell: To ask the Secretary of State for the Home Department what steps the Government are taking to reduce the number of youths *(a)* drinking and *(b)* buying alcohol. [25147]

Paul Goggins: The Government take underage drinking extremely seriously. That is why we are taking forward work through the Alcohol Harm Reduction Programme to tackle it. Recent activities in the Programme have included the Alcohol Misuse Enforcement Campaigns in which the police have clamped down on underage drinking—through fixed penalty notices for both buying alcohol while underage and those who buy alcohol on behalf of children, test-purchase operations on licensed premises and confiscating alcohol from young people.

We have also been working closely with the alcohol industry to develop a Principles and Standards document which includes a commitment to prevent sales to under-18s through a "Challenge 21" approach and better staff training. The Licensing Act 2003, which comes into force on 24 November 2005, will make it an offence to sell alcohol to minors anywhere in England and Wales, and introduces tougher penalties for those who do. The Violent Crime Reduction Bill builds on this through new powers for the police to close premises for up to 48-hours where alcohol is persistently sold to under-18s.

Alcohol-related Offences

Mr. Wallace: To ask the Secretary of State for the Home Department how many people under the age of 30 years in the area corresponding most closely to Lancaster and Wyre constituency *(a)* were subject to alcohol treatment orders and *(b)* were convicted of alcohol-related offences (i) in the last 12 months and (ii) in each year since 1997. [20515]

Paul Goggins: The number of offenders under the age of 30 who were proceeded against or committed from Lancaster and Wyre magistrates courts and given a community rehabilitation order with drug/alcohol treatment is provided in the following table. It is not possible to identify the number of persons under the age of 30 who were found guilty of alcohol-related offences, as the individual circumstances of the offence are not collected. Statistics for 2004 will be available in late November.

Number of offenders under the age of 30 proceeded against or committed from Lancaster and Wyre magistrates courts and given a community rehabilitation order with drug/alcohol treatment, 1997–2003

	Number issued
1997	6

RDS—Office for Criminal Justice Reform

Algerian Nationals

Tim Loughton: To ask the Secretary of State for the Home Department how many Algerian nationals have been granted *(a)* indefinite leave to remain and *(b)* British nationality in each of the last eight years. [18989]

Mr. McNulty: Statistics on settlement (indefinite leave to enter and remain) by nationality and British nationality are published annually. The latest published information on settlement is in the annual Command Paper "Control of Immigration: Statistics United Kingdom, 2003". The 2004 edition is due to be published in November.

Information on British nationality is published in annual statistical bulletins entitled "Persons Granted British Citizenship". The latest edition is that for 2004. Copies are available from the Library and on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html

Asylum/Immigration

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on his policy on the payment of benefits to asylum seekers following the ruling of the Law Lords on 3 November. [26773]

Mr. McNulty: The House of Lords ruling in Limbuela and Others leaves intact a fundamental principle within our approach to asylum which is that people should claim as soon as they arrive in the country. The Law Lords have recognised that there are difficult decisions to be made and each case has to be judged on its individual merits. We are studying very carefully their judgment and considering whether we need to make any adjustments to our existing procedures and processes.

We are adopting tough new means to crack down on opportunistic behaviour. In particular, we are setting up tightly managed new processes for handling late and opportunistic claims as part of the new asylum model announced in the Government's Five-Year Strategy for Asylum and Immigration. The impact of this will be that those who seek to play the system will receive a very quick asylum decision and so will, in reality, have very limited access to benefit—should they qualify for this while that decision is being taken.

Mr. Caton: To ask the Secretary of State for the Home Department (1) what assessment he has made of the implications of section 9 of the Asylum and Immigration Act 2004 on the responsibilities of local authorities under the Children Act 1989; [25972]

(2) what representations he has received from directors of social services in England about the impact of section 9 of the Asylum and Immigration Act 2004 on the welfare of children; [26510]

(3) what assessment he has made of the compatibility of section 9 of the Asylum and Immigration Act 2004 with the United Nations Convention on the Rights of the Child; [26511]

(4) how the experience of children of failed asylum seekers will be assessed in the evaluation of the piloting of section 9 of the Asylum and Immigration Act 2004 in London, Manchester and Yorkshire; and whether the resource implications of the pilots for local authorities will be taken into account in the evaluation. [26512]

Mr. McNulty: It was always clear that there would be risks and challenges for both local authorities and the Immigration and Nationality Directorate of the Home Office in implementing section nine. The section nine pilot was set up to provide a controlled environment in which these problems could be explored. A detailed evaluation of the pilot is planned over the next few weeks. Officials will be contacting social services departments and other key stakeholders in the areas covered by the pilot.

They will be asked for their views to enable quantitative and qualitative data to be gathered on the process and the effect the provision has had on families and local and central Government. This evaluation will take into consideration the impact upon social services, and this will include any resource implications.

The United Nations Convention on the Rights of the Child contains a reservation in favour of the United Kingdom enabling it to apply such legislation as it deems necessary in the interests of the United Kingdom immigration control. Two letters have been received from Directors of Social Services.

Adam Afriyie: To ask the Secretary of State for the Home Department what research he has evaluated on the implications of setting a limit on immigration to the United kingdom; and if he will make a statement. [24123]

Mr. McNulty: As set out in the Home Office Five Year Strategy for Asylum and Immigration, the Government encourages migration for work through a flexible system that is principally employer-led and responsive to market needs. In a flexible and dynamic labour market such as that of the UK, it is considered to be impractical and counter-productive to try and set limits in a rigid and arbitrary way. Such limits could prevent the UK bringing in the skilled workers we need.

Detailed work is being progressed on the development of the proposals for a new points based migration system contained in the consultation document: Selective Admission: Making migration work for Britain. The Government intends to publish a formal response to the consultation next year.

Mr. Mancock: To ask the Secretary of State for the Home Department how many calls have been made to *(a)* the MPs hotline and *(b)* each other section of the Immigration and Nationality Directorate in each quarter of each of the last three years; what the average time taken to answer each call was in each section; and if he will make a statement. [26886]

Mr. McNulty: The following tables provide the information requested on the performance of the MPs hotline and on the other call centres in the Immigration and Nationality Directorate. The MPs hotline receives between 2,500 to 3,500 calls per month of which the majority are answered in three to four seconds.

The other call centres in the Immigration, Asylum and Nationality Directorate receive substantially more calls than the MPs hotline and their time taken to answer ranges from less than one minute to over four minutes for the Nationality Helpdesk in Liverpool. The Nationality Helpdesk was created on 31 January 2005.

Biometrics Trials

Mr. Holloway: To ask the Secretary of State for the Home Department how many of the volunteers in the UKPS Biometrics Enrolment Trial failed to enrol successfully in one or more biometric. [20077]

Andy Burnham: The UKPS biometric enrolment trial was designed to demonstrate the feasibility of large-scale biometric enrolment and provide data on perceptions and attitudes, and on the timing of enrolment processes. It was not a trial of technology and the technical solution used was not optimised to give maximum enrolment performance. Failure to enrol in the UKPS trial should not be taken as an absolute indication that a participant is unable to enrol a specific biometric rather that enrolment was not successful using the range of equipment available during the trial, in the limited time available and within the context of the trial. The trial report, with this data can be found at http://www.identitycards.gov.uk/publications.html

Border Police

David Davis: To ask the Secretary of State for the Home Department what discussions he has had with *(a)* police chief constables and *(b)* the Commissioner of Police for the Metropolis about the introduction of a British border police force; and if he will make a statement. [29378]

Mr. Charles Clarke: I have had a number of discussions with the Chief Constable Chair of ACPO and the Commissioner of Police for the Metropolis on the management of United Kingdom borders.

The Government have no plans at present to create a single border control police force or agency. The White Paper "One Step Ahead—A 21st Century Strategy to Defeat Organised Crime" tasked Customs, IND and the police to work together to develop options for providing more effective border controls through enhanced inter-agency co-operation. With this in view, the Border Management Programme was established to take this forward. The programme reports to Home Office and Treasury Ministers.

It is establishing more effective collaborative working between the border agencies to better target threats to UK security and to ensure that legitimate traffic can pass smoothly across our borders.

Child Safety

Andrew Rosindell: To ask the Secretary of State for the Home Department what steps the Government are taking to improve child safety on the streets. [25267]

Paul Goggins: The Street Crime Initiative, launched in 2002, was aimed at improving the safety of individuals on the streets. The initiative succeeded in reversing the sharp upward trend in robbery levels and, over three years, reduced robbery by 32 per cent. in the ten street crime areas. The lessons learned from the initiative form the basis of good practice guidance which has been disseminated to all police forces by the Association of Chief Police Officers.

Throughout the course of the initiative, a range of preventative and intervention schemes aimed at young people were introduced, for example "Positive Activities for Young People and Safer School Partnerships", which now play a key part in the delivery of the cross departmental programme to tackle youth crime.

Another example is the "SAFE" campaign. In January 2005, in conjunction with Crimestoppers, we ran "SAFE"-a national anti-robbery week in schools. The campaign, which included assembly and lesson plans, provided young people with the knowledge and skills to avoid situations that increase their vulnerability to street crime. It supported and reinforced messages and information provided by local schemes, such as the "Street Wise" project in Havering, which raises young people's awareness and assists in increasing their personal safety. The campaign was delivered to 11–14 year olds in secondary schools throughout England and Wales. We are currently updating the materials with a view to running the campaign again in January 2006.

Child Trafficking

Mr. Steen: To ask the Secretary of State for the Home Department how many child traffickers have been convicted of offences and deported back to their country of origin in each of the last five years. [26268]

Paul Goggins *[holding answer 8 November 2005]:* It is not possible to provide this information as there is no specific offence of "child trafficking".

Correspondence

Clare Short: To ask the Secretary of State for the Home Department when the Minister for Immigration will reply to the letter from the right hon. Member for Birmingham, Ladywood, dated 18 July, acknowledgement reference B16627/5, Home Office reference S1296860. [29699]

Mr. McNulty: The Immigration and Nationality Directorate wrote to my right hon. Friend on 17 November 2005.

Clare Short: To ask the Secretary of State for the Home Department when the Minister for Immigration will reply to the letter from the right hon. Member for Birmingham, Ladywood, dated 22 August, acknowledgement reference B19909/5, Home Office reference S1193198. [29700]

Mr. McNulty: The Immigration and Nationality Directorate wrote to my right hon. Friend on 10 November 2005.

Crack Houses

Mr. Dismore: To ask the Secretary of State for the Home Department how many crack houses have been *(a)* identified and *(b)* closed in each (i) police authority and (ii) London borough since 2001. [24223]

Paul Goggins: Data is not routinely collected centrally on the number of crack houses identified or closed in England and Wales. A one off survey by Government office regions revealed that in the period 20 January to the end of September 2004 158 "crack houses" were closed. The following table sets out the detail. During Operation Crackdown, the intensive police operation that took place between 12 January and 31 March 2005 the 33 participating police forces reported closing 175 "crack houses."

Government office region	*"Crack houses" closed*
South East	23
South West	24
East Midlands	10
West Midlands	3
North West	13
North East	7
Yorkshire and Humber	4
Wales	5
London	64
East of England	5

Crime (Hemel Hempstead)

Mike Penning: To ask the Secretary of State for the Home Department what the level of drug-related crime has been in Hemel Hempstead constituency in each year since 1997. [25581]

Paul Goggins: Recorded crime figures are used to measure trends in crime in local areas. These statistics include information on drugs offences, such as possession and supply, and acquisitive crimes which may be drug-related, such as burglary and shoplifting, at the police force area level. They do not contain information on the offender's drug habits or motivation for offending.

It is therefore not possible to provide reliable estimates from these statistics of the numbers of crimes that are drug-related from year to year for Hemel Hempstead constituency.

Criminal Records Checks

Steve Webb: To ask the Secretary of State for the Home Department what the average time for enhanced Criminal Records Bureau checks for health professionals to be processed and approved was in the most recent period for which figures are available. [25534]

Andy Burnham: The information requested by the hon. Member for Northavon is not available. The Criminal Records Bureau (CRB) is unable to provide information on Disclosure applications based on specific employment sectors. The CRB aims to complete Disclosure applications across all sectors within the shortest time possible. Its published service standards are to issue 93 per cent. of Standard Disclosures within two weeks and 90 per cent. of Enhanced Disclosures within four weeks for all employment sectors.

Departmental Staff (Sikh Dress)

Mr. Todd: To ask the Secretary of State for the Home Department what progress has been made in defining a code of practice concerning the wearing of Kirpans by Sikh employees of his Department and its agencies; and if he will make a statement. [28923]

Mr. Charles Clarke: The Home Office generally allows the wearing of the Kirpan by Sikh employees and this practice is not covered by any formal Code of Practice.

In operational areas of the department, for example the Prison Service and the Immigration Service there will be occasions where, for reasons of security, it is not permitted for either staff or visitors to wear the Kirpan. In these circumstances arrangements are in place to ensure that particular care is taken to respect their religious significance.

Having reviewed existing arrangements we do not consider that there is currently a need to formalise them by drawing up a specific code of practice.

Mr. Todd: To ask the Secretary of State for the Home Department what guidance he has issued to the Passport Agency on the wearing of Kirpans by Sikhs visiting the agency to obtain passports. [28924]

Andy Burnham: To ensure particular issues relevant to Sikh customers are handled sensitively, the United Kingdom Passport Service (UKPS) has provided briefing and guidance on diversity issues to its frontline staff; and where Sikh customers feel unable to remove the Kirpan, alternative arrangements are made for their application to be examined, and their passport collected which allows Sikh customers to keep the Kirpan with them at all times.

These measures have been introduced following consultation with the Home Office and other organisations. They are based on risk assessments which are kept under regular review. The UKPS is satisfied they fulfil its duty of care to its customers and staff, while ensuring no discrimination against any section of society.

Deportations

Mr. Hollobone: To ask the Secretary of State for the Home Department how many people are awaiting deportation from the UK due to failed asylum and immigration applications. [27297]

Mr. McNulty: This information is not available. Published statistics on immigration and asylum issues are available on the Home Office's Research Development and Statistics website: http://www.homeoffice.gov.uk/rds/immigration1.html

Drugs Offences

Mr. Ruffley: To ask the Secretary of State for the Home Department how many *(a)* arrests, *(b)* convictions and *(c)* cautions there were in each police authority area for offences relating to (i) the possession and (ii) dealing in class (A) A, (B) B and (C) C drugs in each year since 1997. [25040]

Paul Goggins: Data from the Home Office Court Proceedings Database on the number of cautions and convictions for possession of and dealing in drugs, broken down by class of drug, is provided in the following table. Data for 2004 will be available at the end of November. The information requested on arrests is not collected centrally.

Number of offenders found guilty for selected drug offences, by police force area: England and Wales, 1997 to 2003

Offence	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*

Forensic Science Service

John Bercow: To ask the Secretary of State for the Home Department what assessment he has made of the effect of the redistribution of London work of the Forensic Science Service to the provincial laboratories on the efficiency of the organisation; and if he will make a statement. [26676]

Andy Burnham: The Forensic Science Service (FSS) transferred approximately 1700 cases from the London site to its regional laboratories during the first six months of the financial year 2005–06. This resulted in a reduction of the London laboratory's caseload by 10 per cent. during this period. It has led to an improved performance in the London laboratory's delivery of the overall FSS target to turnaround 95 per cent. of cases in less than 33 days, which has assisted in improving organisational efficiency.

Freedom of Information

Peter Law: To ask the Secretary of State for the Home Department if he will list Freedom of Information (FOI) requests to his Department passed to the FOI clearing house for evaluation, broken down by *(a)* subject and *(b)* date of request. [28946]

Mr. Charles Clarke: Information about the handling of Freedom of Information requests is published in Freedom of Information Statistics on Implementation in central Government.

The most recently published report was 30 September 2005 and copies are in the Libraries of both Houses. Additional information about the role of the Clearing House can be found on the DCA website at http://www.foi.gov.uk/guidance/index.htm#2. Departments do not release information about the internal handling of requests, such as details of which requests were referred to the Clearing House for guidance.

Heroin

Andrew Rosindell: To ask the Secretary of State for the Home Department how much heroin thought to have originated in Afghanistan has been seized in the UK since 2001. [19383]

Paul Goggins: It is estimated that approximately 95 per cent. of the heroin bound for the UK originates from opium grown in Afghanistan. Statistics on the numbers and quantities of drugs seized within England and Wales by UK law enforcement can be found in the Drugs Seizure and Offender Statistics Reports published annually by the Home Office. The most recent data available covers 2003.

Immigration Checks

Mr. Waterson: To ask the Secretary of State for the Home Department during which hours each day *(a)* passport control and *(b)* customs and immigration checks are operated at (i) Newhaven Port and (ii) Eurotunnel. [25140]

Andy Burnham: At Newhaven, the immigration control is usually operated between 0500 hours to 2300 hours seven days a week. The operating hours are dependent on the number, and times, of the ferry arrivals at Newhaven. For operational reasons it is not HMRC policy to disclose particular deployment patterns to specific ports or airports. The immigration controls operating on the Eurotunnel site in France are staffed by immigration officers 24 hours a day, 365 days a year.

Leave to Remain

Sarah Teather: To ask the Secretary of State for the Home Department what the target processing time is for an application for leave to remain under the provisions of the European Community Association Agreement; and what the average processing time achieved for such applications was in the most recent period for which figures are available. [30941]

Mr. McNulty: Applications under the provisions of the European Community Association Agreements (ECAA) fall in to the category of non-charged casework. The published service standards for this category are 25 per cent. of postal applications to be processed in 20 working days and 30 per cent. in 70 working days.

The average time taken from the date of receipt until the date of decision for European Community Association Agreement (ECAA) applications during the period 1 August to 31 October 2005 was 331 days.

This information has not been quality assured, and is not a National Statistic. It should be treated as provisional management information and may be subject to change.

Major General Almog

Helen Goodman: To ask the Secretary of State for the Home Department what investigations his Department has carried out into the reasons why Israeli Major General Almog has not been arrested following the issue of the warrant against him in London in September. [30668]

Andy Burnham: Any investigation into the reasons why Major General Almog was not arrested, including how he may have become aware that a warrant had been issued, would be a matter for the Metropolitan Police.

Helen Goodman: To ask the Secretary of State for the Home Department what assessment he has made of how Israeli Major General Almog became aware of the issuing of an arrest warrant against him by Bow Street magistrates court. [30669]

Andy Burnham: The arrest warrant, which was issued by Bow Street magistrates court on 10 September 2005 in response to a private application, was withdrawn by the judge who issued it on 15 September 2005.

Non-asylum Immigration Services

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on the revised charges for foreign nationals using non-asylum immigration services from April. [26667]

Mr. McNulty: I refer the hon. member to the statement made by the then Minister for Citizenship and Immigration, my right hon. friend, the member for Kilmarnock and Loudoun (Mr. Browne) on 7 February 2005.

Non-departmental Public Bodies

Mr. Amess: To ask the Secretary of State for the Home Department if he will list those of his Department's advisory non-departmental public bodies which the Government are required *(a)* to consult prior to legislative proposals and *(b)* to publish their response to advice received from such bodies. [20096]

Mr. Charles Clarke: The following are the Home Department's advisory non-departmental public bodies (NDPBs) which the Government are required to consult prior to legislative proposals but not required to publish their response to advice from those NDPBs:

1. The Advisory Council on the Misuse of Drugs.

2. The Police Negotiation Board (PNB). Under section 62 of the Police Act 1996 before making any regulations under section 50 or 52 of that Act the Secretary of State shall take into consideration any recommendation made by the PNB.

3. The Police Advisory Board (PAB). Under section 63 of the Police Act 1996 before making regulations under section 50 or 52 of that Act the Secretary of State shall supply a draft of those regulations and take into consideration any representations made by the PAB. The Advisory Panel on Country Information (APCI) is a bit different to the above NDPBs. The Government is not required to consult it prior to legislative proposals. However, during the passage of the 2002 Nationality Immigration and Asylum Act and the 2003 debates on

affirmative orders made under that Act to add countries to the Non Suspensive Appeals list, Ministers gave some clear assurances. These were that the APCI would be consulted on the country of origin information being used by the Government before making an Order to designate a country. It is not within the remit of the APCI to comment on the decision to designate nor is there a requirement for the Government to publish its response to advice from the APCI.

Parliamentary Questions

Dr. Starkey: To ask the Secretary of State for the Home Department when he expects to reply to the questions tabled by the hon. Member for Milton Keynes South West relating to General Almog tabled for answer on *(a)* 11 October, reference 17028 and *(b)* 19 October, reference 19756 and *(c)* 7 November, reference 25695. [31401]

Mr. McNulty: I replied to my hon. Friend on 21 November 2005 (PQs 17028 and 19756) and on 22 November 2005 (PQ 25695).

Passports

John Hemming: To ask the Secretary of State for the Home Department how many applications for passports have been rejected when received by post since the new categories of rejection came into operation, broken down by *(a)* category and *(b)* passport office. [26433]

Andy Burnham: Since the implementation by the UK Passport Service (UKPS) of new photo standards from 12 September 2005, 597,863 passport applications have been received. For a variety of reasons, UKPS has had to contact the applicant for further information on 119,339 applications. Of these queries, 81,927 applications, that is, 13.7 per cent. of total intake have required new photographs to be submitted.

A breakdown of this information by passport office is shown in the table.

The three main categories of photograph rejection are incorrect paper quality, facial expression and eyes obscured. The UKPS are currently unable to provide a breakdown of these categories by office. The UKPS will shortly be issuing revised guidance to its customers clarifying how the standards should be met to ensure fuller compliance.

	Number
Passport application intake	597,863
Queries	
London	1,225
Liverpool	21,291
Peterborough	17,729
Newport	22,568
Glasgow	9,679
Belfast	8,882
Durham	37,965
Total queries	119,339
Total photo rejections	81,927
Photo queries as percentage of intake	13.7%

Mr. Gray: To ask the Secretary of State for the Home Department if he will investigate *(a)* how the passport of Mrs. Valerie Beale of Winchester (Royal Mail ref 1-1601472618) was lost in the post, *(b)* why it was sent to the South Kensington sorting office and *(c)* why it was delivered to the Natural History Museum. [29736]

Andy Burnham: The UK Passport Service (UKPS) understand that Mrs. Beale's passport was lost by Royal Mail en route to a visa application service. The UKPS no longer uses Royal Mail for the despatch of new UK passports. Since 9 February 2004 we have been employing a secure delivery courier service provided by Special Mail Services (SMS). This secure delivery service is also used to return any valid UK passports that are submitted in support of a passport application. UKPS involvement with Mrs. Beale has been limited to providing her with a replacement passport, which was despatched and securely delivered in August 2005.

Mr. Gray: To ask the Secretary of State for the Home Department what safeguards he has put in place to prevent the theft of UK passports in the post. [29737]

Andy Burnham: Since 9 February 2004 the UK Passport Service has been employing a secure delivery courier service provided by Special Mail Services (SMS) for the despatch and delivery of new UK passports. This secure delivery service is also used to return any valid UK passports that are submitted in support of a passport application.

Mr. Gray: To ask the Secretary of State for the Home Department how many UK passports were recorded as lost by Royal Mail in the last 12 months, broken down by sorting office. [29738]

Andy Burnham: The UK Passport Service does not hold this information.

Mr. Gray: To ask the Secretary of State for the Home Department what assessment Royal Mail has made of the security of UK passports in the postal system; and if he will make a statement. [29739]

Andy Burnham: The UK Passport Service assessed the security of the standard Royal Mail delivery service in 2003 and as a consequence moved to the current secure delivery arrangements on 9 February 2004.

Mr. Gray: To ask the Secretary of State for the Home Department how many UK passports were lost in the post in the last 12 months for which figures are available; how many of them were sent in with new passport applications; and how many of them were en route to a foreign embassy as part of a visa application. [29740]

Andy Burnham: In the last full year that Royal Mail delivered passports (2003), 3,593 passports were reported as lost in post. Secure Delivery commenced on 9 February 2004, and up until 31 March 2005, 683 passports have been reported as lost whilst in the delivery process. It is not possible to provide details of passports reported lost by customers where the loss took place within the Royal Mail whilst passports were en route to UK Passport Service for replacement or to embassies for a visa.

Mr. Gray: To ask the Secretary of State for the Home Department what recent discussions he has had with the Secretary of State for Trade and Industry on the loss of UK passports by the Royal Mail. [29742]

Andy Burnham: Such discussions have not been appropriate, as since 9 February 2004 the UK Passport Service has been employing a secure delivery courier service provided by Special Mail Services (SMS) for the despatch and delivery of new UK passports.

Police and Probation Officers

David Davis: To ask the Secretary of State for the Home Department how many assaults there have been on *(a)* police officers and *(b)* probation officers in each year since 1997. [30794]

Mr. Charles Clarke: Statistics on recorded offences of assaults on a constable are available from one April 1998 and are provided in the following tables.

Figures on the number of assaults on probation officers are not collected centrally.

Recorded offences of assault on a constable in England and Wales—1998–99 to 2001–02

Period	*Number*
1998–99	21,510
1999–2000	26,115
2000–01	28,000
2001–02	30,095

Note:
The data in this table are prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later years.

Recorded offences of assault on a constable in England and Wales 2002–03 to 2004–05

Period	*Number*
2002–03	33,743
2003–04	21,927
2004–05	23,267

Note:
The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Police Reform Act (Schedule 4)

David Davis: To ask the Secretary of State for the Home Department how many people have been detained by a community support officer for up to 30 minutes under paragraph 2 of Schedule 4 to the Police Reform Act 2002 in each of the last four years, broken down by police authority. [29366]

Mr. Charles Clarke: The information requested is not collected centrally.

David Davis: To ask the Secretary of State for the Home Department (1) how many names and addresses of people acting in an antisocial manner have been taken by *(a)* community support officers and *(b)* police officers under paragraph 3 of Schedule 4 to the Police Reform Act 2002 in each of the last four years, broken down by police authority; [29367]

(2) how many people under the age of 18 have been required to surrender alcohol by *(a)* community support officers and *(b)* police officers under paragraph 5 of Schedule 4 to the Police Reform Act 2002 in each of the last four years, broken down by police authority; [29360]

(3) how many people under the age of 16 have been required to surrender tobacco by *(a)* community support officers and *(b)* police officers under paragraph 7 of Schedule 4 to the Police Reform Act 2002 in each of the last four years, broken down by police authority. [29359]

Mr. Charles Clarke: This information is not collected centrally. Police officers cannot be designated with any power under Schedule 4 to the Police Reform Act 2002. They do have equivalent powers.

Politically Exposed Persons

Malcolm Bruce: To ask the Secretary of State for the Home Department how many suspicious activity reports relating to foreign politically exposed persons received by the National Criminal Intelligence Service referred to persons from *(a)* Africa, *(b)* the Middle East, *(c)* Russia, *(d)* Europe, *(e)* Asia, *(f)* North America and *(g)* Central and South America in the last five years for which figures are available. [29694]

Mr. Charles Clarke: The number of suspicious activity reports (SARs) received by the National Criminal Intelligence Service (NCIS) which refer to politically exposed persons (PEPs) from the specified areas since 1 February 2005 is as follows:

SARs

	Number
Africa	64
Middle East	45
Russia	24
Europe	19
Asia	34
North America	4
Central and South America (including the Caribbean)	13

A database to register SARs referring specifically to PEPs was established by NCIS on 1 February 2005. The figures given here only reflect SARs recorded there since that date, and may involve single cases where activity is suspected in more than one jurisdiction.

Proceeds of Crime Act

Mr. Chope: To ask the Secretary of State for the Home Department when he expects to bring forward the secondary legislation granting respondents to civil proceedings under the Proceeds of Crime Act 2002 access to retained assets to fund their legal representation; and if he will make a statement. [28319]

Paul Goggins *[holding answer 14 November 2005]:* The relevant legislation was commenced in The Serious Organised Crime and Police Act 2005 (Commencement No.3) Order 2005 (SI 2005 No: 3136) and will come into force on 1 January 2006.

Public Appointments

Keith Vaz: To ask the Secretary of State for the Home Department if he will list the public appointments he has made since 1 July 2005. [18950]

Mr. Charles Clarke: The public appointments, including re-appointments, made since 1 July are as follows:

Name of NDPB	*Title*	*Number*
Advisory Council on the Misuse of Drugs	Members	4
Independent Monitoring Boards of Penal Establishments and Immigration Centres	Members	116
Investigatory Powers Tribunal	President	1
	Vice-President	1
	Members	5
National Probation Service: Bedfordshire Dorset South Yorkshire	Member	1
	Member	1
	Chairman	1
Office of the Immigration Services Commission	Immigration Services Commissioner	1
Police Appeal Tribunal (consisting of Chair, second and third members)	Second Members	2
Police Authority-Nottinghamshire	Home Secretary's appointee on the selection panel for the appointment of independent members and lay justices to police authorities	1
Police Information Technology Organisation	Independent Board member	1

Security Industry

Dr. Starkey: To ask the Secretary of State for the Home Department (1) how many meetings his Department has held with the Security Industry Authority to discuss an Approved Contractor Scheme for the private security industry; [26551]

(2) whether it is his intention that an Approved Contractor Scheme for the private security industry will be voluntary; [26552]

(3) what assurances he has received from the Security Industry Authority that an Approved Contractor Scheme for the private security industry will not adversely affect existing standards. [26553]

Paul Goggins: There have been a large number of meetings between the Security Industry Authority (SIA) and Home Office officials to discuss the Approved Contractor Scheme (ACS). It is the intention of the Home Office that the ACS will be a voluntary scheme. The SIA is committed to the aims of the ACS, as set out in the Regulatory Impact Assessment, to maintain and improve standards in the delivery of security services.

Shrewsbury Prison

Daniel Kawczynski: To ask the Secretary of State for the Home Department what plans he has to tackle the overcrowding in Shrewsbury prison. [25330]

Fiona Mactaggart: Operational capacity at HMP Shrewsbury was reduced from 350 in October 2004 to 300 for essential building work. Further reductions took place operational capacity was over the following months before returned to the previous level of 300 in June 2005. It is planned to increase operational capacity by up to 40 places in the near future.

Timber

Lynne Featherstone: To ask the Secretary of State for the Home Department what plans his Department has to fund the maintenance of the Central Point of Expertise on Timber. [16317]

Mr. Charles Clarke: I refer the hon. Member to the answer given on 10 October 2005, *Official Report*, column 160W by my right hon. Friend the Minister of State for Climate Change and Environment to the hon. member for Lewes (Norman Baker).

UK Borders

David Davis: To ask the Secretary of State for the Home Department how many of the UK's borders as defined by the Immigration Act 1971 are manned 24 hours a day. [21848]

Mr. Charles Clarke: The Statutory Instrument (SI) 1987/177 designated 35 ports of entry for the purposes of the 1971 Immigration Act. This order consolidates with amendments previous orders designating ports of entry for the purposes of the 1971 Immigration Act.

Of these, 16 are staffed 24 hours per day and the remaining 19 are staffed in order to ensure that staff meet all services that require immigration control.

Small ports are staffed in a targeted way based on risk and supported by reliable intelligence.

Yarl's Wood

Alistair Burt: To ask the Secretary of State for the Home Department how many detainees at Yarl's Wood Detention Centre, Bedfordshire, on 8 November had been living in the UK before being detained at Yarl's Wood *(a)* for less than one month, *(b)* for more than one month but less than three months, *(c)* for more than three months but less than six months, *(d)* for more than six months but less than one year, *(e)* for more than one year but less than two years, *(f)* for more than two years but less than three years and *(g)* for more than three years; and if he will make a statement. [28348]

Mr. McNulty: This information is not held centrally and could be obtained only at disproportionate cost.

Youth Justice

Dr. Kumar: To ask the Secretary of State for the Home Department how many youths under the age of 18 years were convicted of *(a)* drug offences, *(b)* fraud and forgery, *(c)* theft of or from vehicles and *(d)* criminal damage in 2004–05; and how many received a custodial sentence. [26501]

Paul Goggins: The information requested is shown in the following table for 2004. Data for 2005 is not yet available.

Persons aged under 18 sentenced and given immediate custody for specific offences in England and Wales (2004)

Offences	*Defendants sentenced*	*Immediate custody*
Drug offences	4,479	181
Fraud and forgery	762	38
Theft from vehicle	1,061	86
Criminal damage endangering life (excluding arson)	2,495	43
Total	8,797	348

Youth Justice Board

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on the national juvenile resettlement action plan developed by the Youth Justice Board. [26673]

Fiona Mactaggart: The effective resettlement of juveniles remains the cornerstone of much of the work taken forward by the Youth Justice Board (YJB) for England and Wales to reduce reoffending by children and young people. A National Youth Resettlement Framework for Action is in the final stages of drafting and will be ready for wider consultation with stakeholders in the next few weeks. I will ensure the hon. member receives a printed copy and will arrange for copies to be placed in the Library.
